

TOP TALENT, GAME UPGRADE

Section 6

If you want to obtain the skills, the best way is to start from the natives.

Either buy or choose to join the native forces.

In the past month, Zhang Yuhe has been paying attention to the information on the chat channel every day.

Although most of the players have either been buried by monsters or chosen to log off due to various difficulties.

But there are still a small number of players who are still persisting.

And there are also some lucky players who have walked out of the wilderness and found Yu Fantian's native city.

According to the descriptions of those players, the native forces in the city include families and gangs, and most of these native forces will recruit people.

Of course, to join the native forces, you need to sign a contract.

As long as you have spiritual root qualifications, even if you have not reached the Qi training stage and are not a real cultivator, they will recruit.

Once you join the native forces, you will not only be given the skills secrets, but also get a salary.

What kind of skills will be given and how much salary you can get depends on your personal strength and the strength of the native forces.

It doesn't matter if you don't want to join the native forces, there are places selling skills in the city.

As long as there are enough spirit stones, skills secrets, magic tools and magic treasures are not a problem.

Zhang Yuhe planned to find the native city first, and then slowly practice the subsequent exercises.

There is no future for practicing in the wilderness all the time.

...

Zhang Yuhe came to the gate of the Taoist temple and swung the long knife in his hand out of thin air.

As the knife flashed, a big tree five meters away fell down.

Seeing such an effect, he couldn't help but nod silently.

The strength of Qi training is not weak, even if he doesn't know magic, he should be able to gain a foothold in a small place by brute force.

"Let's go."

Zhang Yuhe chose a direction and jumped forward quickly.

There was no way, he couldn't fly yet, so he could only jump on the ground.

With his current strength, he could run ten meters with one jump.

If he went to participate in the Olympics, Bolt wouldn't even see his back.

Zhang Yuhe rushed through the mountains and forests recklessly, not caring whether there were monsters or not.

He had explored the monsters in this forest, and they were not too strong. If he had strength, he could do whatever he wanted.

He ran all the way, and killed any monsters he encountered on the road.

He picked up the exploded spirit stones, and as for the barbecue, forget it, he was a little tired of it.

Roar...

When he was running and jumping, a deafening roar of a beast suddenly came from a distance.

"It seems there is a big guy, go and take a look."

Zhang Yuhe quickly turned around and ran in the direction of the sound.

Since he encountered a monster, he naturally had to go and chop it, regardless of anything else, even if a spirit stone exploded.

After a while, he saw the monster that roared just now.

But it was not one, but two monsters, fighting in a group.

One was a spotted giant tiger, and the other was a blue bull that was bigger than an elephant.

Every time the giant tiger roared, it would spray out rays of light, like an invisible long knife, constantly slashing at the blue bull.

Although the blue bull looked thick-skinned, it was still cut with huge cuts.

The blue ox was not weak either. Its horns flashed yellow light. Whenever the light flashed, earth spikes would emerge from the ground and pierce the giant tiger.

"Both of these monsters can cast spells?"

Zhang Yuhe was shocked to see this.

He had killed many monsters before, but he had never encountered one that could cast spells. Those monsters were just like him, relying only on brute force.

These two monsters were extraordinary at first glance.

Zhang Yuhe silently felt the breath of the blue ox and the giant tiger.

"They are both peak first-level monsters, and they almost broke through to the second level."

Looking at the two monsters in front of him, Zhang Yuhe hesitated.

These two monsters seemed to be a bit fierce, and he might not be able to beat them.

Chapter 6 Daosheng Sect Relics

Looking at the two monsters in front of him, Zhang Yuhe fell into deep thought.

It would definitely not work to just rush up and do it recklessly.

He might not be able to beat even one of them. If he rushed up, he would probably be beaten by mixed doubles and would soon be dead.

The best way, of course, is to wait for the opportunity to find something. Everyone knows the principle that the mantis stalks the cicada, while the oriole waits behind.

He hoped that the two monsters would not die together, because only the monsters he killed would drop items.

If they died together, he could only pick up the corpses of two monsters.

He had no interest in the corpses of monsters.

Although the corpses of monsters must be worth a lot of money, he couldn't just run away with two such big things.

As for taking the valuable parts?

Sorry, he is still an illiterate cultivator and has no knowledge in this area.

"Just wait and see. It would be best if one dies and the other is seriously injured."

Zhang Yuhe made up his mind.

It would be over if he waited, and he was not in a hurry anyway.

The two monsters fought more and more fiercely, and both sides were covered with wounds and blood.

However, Zhang Yuhe could see that the advantage should be on the side of the spotted giant tiger.

The body of the blue ox was too huge. Facing the invisible sword light of the giant tiger, it could only bear it and could not dodge it at all.

The giant tiger, however, was able to dodge the green bull's ground spikes. Although it was often stabbed, it was able to hold out until the end because it was less stabbed.

In a confrontation between agility and strength, the agility naturally has some advantages.

Sure enough, after a while, the green bull gradually lost its strength and its body was a little shaky.

At this moment, the giant tiger suddenly jumped up, and its huge claws directly knocked the blue bull to the ground, and then it bit it madly.

After the blue bull struggled for a while, it stopped moving.

Roar...

The victorious giant tiger roared loudly.

"Now."

Zhang Yuhe no longer hesitated, he flashed out and quickly passed through the woods.

Clang...

The knife light cut through the sky and went straight to the giant tiger.

The injured giant tiger, after discovering the knife light, quickly jumped to avoid it.

However, the opportunity that Zhang Yuhe had waited for so long was not so easy to avoid.

The knife light turned and chopped directly on the neck of the giant tiger.

Zhang Yuhe put away the long knife and quickly retreated. The giant tiger swung its tail and hit the empty space.

After hunting monsters these days, he has accumulated a lot of experience.

Retreat after one strike. Whether the monster is killed or not, you have to retreat to the side and observe first.

Who made him not know how to cast spells and only fight in close combat?

The counterattack of the monster before death was still very fierce. If he was hit, he would basically be declared dead.

He was not as strong as the monster.

The giant tiger whose neck was cut did not fall down immediately, mainly because the knife in Zhang Yuhe's hand was not good enough.

Even if he used all his spiritual energy to bless, he still couldn't chop off the giant tiger's head.

To be honest, he felt a little surprised that this knife could be used until now.

50,000 blue coins are not a loss.

The colorful giant tiger drooped its head, but its red eyes stared at Zhang Yuhe.

"Zhao, you half-dead thing, do you still want to turn the tables?"

Although he said so, he didn't dare to be careless at all.

Roar...

The colorful giant tiger roared loudly, and then rushed towards Zhang Yuhe fiercely, and at the same time, the huge tiger mouth sprayed out rays of light.

Zhang Yuhe dodged quickly and slashed with the long knife in his hand again. The giant tiger swung its tail, trying to knock the long knife away.

But how could Zhang Yuhe let it do that?

He turned his wrist, and the knife light changed direction and slashed at the same place again.

This knife was so fierce that it almost chopped off the huge tiger's head.

The colorful giant tiger could no longer hold on and fell to the ground with a bang.
