

Top talent 601

Section 601

Helan Ruobei waved his hand and punched towards the void.

A huge black hole soon appeared in front of everyone.

The four noble-level chaos beasts got into the black hole one after another and flew quickly towards Helan Mountain.

Half a day later.

Helan Ruobei and others soon arrived at the Rift Valley.

This is the space passage, the exit from the Chaos Continent.

There used to be a fourth-level tribe that had been entrenched here for many years.

However, after discovering the space channel.

Helan Ruobei ordered the fourth-level tribe to move to other places.

From then on, the Rift Valley was occupied by the Helan Mountain tribe.

Helan Ruobei stood on the top of the mountain, his face so cold that it was about to drip.

Only the space passage in the distance can be seen, and no trace can be seen for a long time.

Apparently it was re-sealed by human monks in the South China Sea Immortal Domain.

Helan Anyuan, who is responsible for guarding this place, is quietly reporting to him on the war situation over the years.

"After the army entered the South China Sea Immortal Territory, they continued to deliver sacrifices to the tribe."

"However, about three hundred years ago, a strong storm suddenly appeared in the space channel."

"At the beginning, we didn't pay much attention to it."

"It's just that for more than ten days in a row, the other side didn't send anyone over."

"I felt something was wrong, so I sent the Chaos Beast and ventured into the space passage."

"It's a pity that the storm inside is too strong."

"I sent many batches of Chaos Beasts in succession, but none of them successfully entered the South China Sea Immortal Realm."

"Another half month has passed."

"A large amount of water energy suddenly surged out of the space channel."

"Not long after, the entire space channel slowly disappeared."

"Since then, we have no longer been able to contact the Chaos Beast army in the South China Sea Immortal Territory."

"We once used the communication tool left by the high priest to contact Helanbieye on the opposite side."

"No matter how we called, there was no response."

After listening to Helan Anyuan's narration.

Helan Ruobei's expression became even colder.

it asked incredulously.

"You mean, this space passage was blocked by the other side three hundred years ago?"

"And Helanbieye has never actively contacted the tribe again?"

Helan Anyuan nodded gently.

Even after reconfirmation.

Helan Ruobei still didn't want to believe it.

This is simply impossible.

Three hundred years ago.

They are fighting in an alien space with the Heavenly Star Dao Ancestor.

That is to say.

The person who sealed the space passage was definitely not the Heavenly Star Dao Ancestor.

But there is someone else.

Could it be that the Daluo Immortal King of the South China Sea Immortal Territory found another way.

Is that why the space channel can be sealed?

But even so.

But what about those armies of Chaos Beasts?

To know.

The entire Helan Mountain tribe has a total of 500 million Chaos Beasts entering the South China Sea Immortal Realm.

There are more than a thousand king-level chaos beasts alone.

Could such a huge team of Chaos Beasts just watch the monks seal the space passage?

besides.

After the space channel is sealed.

Why didn't Helanbieye contact the tribe in time?

Never say.

As early as three hundred years ago.

Helanbieye and their army of chaos beasts have been destroyed, right?

Boom...

Think of this.

Helan Ruobei couldn't help but feel angry.

It slapped Rift Valley.

The originally wide Rift Valley was instantly transformed into a flat piece of land.

...

Chapter 457 Shocked

Now Helan Ruobei also knows.

In fact, most of the chaos beasts that entered the South China Sea Immortal Domain were already dead.

Because it can't sense the breath of those chaotic beasts at all.

As the high priest of the Helan Mountain tribe.

It should be able to sense the life breath of every Chaos Beast in the tribe.

If there is no induction.

That means those Chaos Beasts are dead.

There was no induction before.

That's because it was being dragged to an alien space by Tianxing Daozu.

The alien space isolates the inside and outside.

It is normal that it cannot sense the aura of the Chaos Beasts in the tribe.

But it's a journey.

Helan Ruobei also did not sense any aura from the chaotic beasts that entered the South China Sea Immortal Realm.

Thinking about it, the 500 million Chaos Beast army should be basically dead.

Think of this.

Helan Ruobei was furious.

This is an army of 500 million.

Who on earth wiped out so many elite forces from the Helan Mountain tribe?

Helan Ruobei is almost certain.

This time, Emperor Dao Ancestor must take action.

Otherwise.

With the help of the Helan Mountain tribe, there are hundreds of millions of chaos beasts and thousands of king-level chaos beasts.

In the South China Sea Immortal Realm, he is completely invincible.

Even under the banner of Tianxing Daozu, all the powers of the Immortal Realm are gathered together.

At most, it's a fight with no outcome.

Absolutely impossible, not long after they entered the South China Sea Immortal Domain.

It was swept away.

In Helan Ruobei's view.

The only one who can do this is the Dao Ancestor.

"Which emperor took action?"

Helan Ruobei pondered silently.

However, it took a while.

It couldn't figure out why.

There are more than ten great emperors of the human race.

And they are basically on good terms with Tianxing Daozu.

Maybe Tianxing Daozu was there before the war.

It is also possible to ask other Taoist ancestors for help.

Section 602

Think of this.

Helan Ruobei felt helpless.

This time it was careless.

If I had known earlier, this would be the result.

No matter what, it will not step into the big pit of the South China Sea Immortal Domain.

Helan Ruobei thought for a while.

It took a deep breath.

Then slowly, he asked Helan Anyuan behind him.

"How many sacrifices were brought back from the South China Sea Immortal Realm?"

In fact, it also knows.

As early as three hundred years ago.

The space channel was cut off by human monks.

The sacrifices that can be transported back must be extremely limited.

despite this.

Helan Ruobei was still a little lucky.

Maybe Helanbieye is more efficient.

If the number of sacrifices brought back can support the Nine Color King Beast to hold a sacrifice.

That would at least make up for the loss caused by Helan Fengnian's death.

"Reporting to the high priest, the sacrifices brought back from the South China Sea Immortal Realm are only enough for the Nine-Star Chaos Beast to be used for two or three sacrifices."

Helan Anyuan's answer greatly disappointed it.

They Helan Mountain tribe spent so much effort.

And he also paid such a heavy loss.

As a result, the sacrifices brought back were only used to support the nine-star Chaos Beast sacrifice.

Even if all the sacrifices are successful.

It's nothing more than adding a few king-level chaos beasts to the Helan Mountain tribe.

Such a heavy loss compared to them.

Such a small gain is not worth mentioning at all.

Helan Ruobei became angrier as he thought about it.

Such a big fall.

It really couldn't swallow this breath.

This place must be recovered.

Tianxing Daozu must be given a severe lesson.

They are indeed, unable to defeat the Heavenly Star Dao Ancestor.

Although the Helan Mountain tribe still has more than twenty respect-level chaos beasts.

But it is impossible for them to all move out at the same time.

Someone should be left to guard the home.

If they do it again, they will go to Tianxing Daozu to cause trouble.

I guess I still won't get any advantage.

But they can't defeat Tianxing Daozu. Could it be that they can't defeat the affiliated forces under Tianxing Daozu?

Don't destroy a few royal cities.

It can't come out, this bad breath.

Think of this.

Helan Ruobei immediately spoke.

"Immediately send an order to all the fourth-level tribes to launch a full-scale attack on the forces under Tianxing Daozu."

"Whoever dares to retreat will be directly exterminated."

Hearing Helan Ruobei's words.

The Chaos Beast next to him was completely stunned.

Helan Anyuan asked cautiously.

"High Priest, do you want to start a divine war?"

"But if other tribes don't respond."

"Only I, the Helan Mountain Tribe, may not be able to face the Dao Ancestor Emperor who is a monk."

The divine war mentioned by Helan Anyuan refers to an all-out war with the monks.

Once activated.

It will inevitably affect the entire fairy world.

It's just that a war of this scale cannot be decided by the Helan Mountain tribe alone.

To be more precise.

The Helan Mountain tribe is completely unqualified to launch a divine war.

The twelve major tribes of the Origin Sea are also strong and weak.

They are in Helan Mountain, among the twelve major tribes.

Not to mention being at the bottom, it's basically the same.

The only people who can really decide whether to launch a divine war are the top three, Supreme Mountain, Yanran Mountain, and Tiele Mountain.

Only these three major tribes are qualified to decide whether to launch a divine war.

Because the strength of these three major tribes far exceeds that of other tribes.

Especially in the Supreme Mountain, the strength of the entire tribe is extremely powerful.

Just for the number of supreme-level chaos beasts, there are more than two hundred in Supreme Mountain.

It is ten times as many as the Helan Mountain tribe.

Yanran Mountain and Tiele Mountain are not weak either.

There are also more than a hundred noble-level chaos beasts in these two tribes.

It is precisely because of his tyranny.

These three major tribes are also called the Upper Three Tribes among the Chaos Beasts.

Only them.

Only then can the overall affairs of the Chaos Beast be decided.

If the Helan Mountain tribe acted recklessly alone.

You might fall into the siege of monks.

There are nearly fifty Taozu emperors from the three clans of humans, monsters and demons.

They can't bear it at all.

I heard Helan Ruobei.

Want to launch an all-out war.

Everyone was completely stunned.

They quickly spoke out to dissuade him.

"High Priest, don't be impulsive."

"Although we suffered a loss this time, the foundation of the tribe is still there."

"Just give Daozu Tianxing a small lesson."

"We must not let the tribe fall into danger."

Seeing the chaos beasts around them, they all looked excited.

Helan Ruobei couldn't help but be stunned.

Did I say anything?

Who the hell said we were going to launch a divine war?

I just want the affiliated tribes to teach Tianxing Daozu a lesson.

He didn't say that he would let the Helan Mountain tribe do it themselves.

How could the tribe be put in danger?

What are these people thinking?

Don't I know how many pounds I have?

How dare I launch a divine war?

I'm afraid these people are sick.

Where have they all gone?

Helan Ruobei took a deep breath.

It spoke slowly.

"If we don't take action this time, we will let the affiliated tribes attack with all their strength."

“The only target is the nearby fairyland under the Tianxing Daozu. Don’t even touch the territories of other Daozu.”

Section 603

Hearing Helan Ruobei's words.

The surrounding Chaos Beasts finally breathed a sigh of relief.

So that’s what happened.

Startle them.

They thought that the high priest was carried away by anger.

I want to fight hard.

Now it seems.

It's completely because they are overthinking.

The high priest just wanted to let those fourth-level tribes contribute.

They don't have to do it themselves.

That being the case.

That's okay.

...

Chapter 458 Helan Mountain’s Revenge

After listening to Helan Ruobei's explanation.

All the chaos beasts at the scene finally breathed a sigh of relief.

It scared them just now.

Everyone thought that Helan Ruobei might have gone crazy.

I plan to break the jar.

I want to fight to the death with the human monks.

Now it seems.

It was they who understood it wrong.

Helan Ruobei just planned to let the affiliated forces in the tribe take action.

There's nothing wrong with that.

There are thousands of fourth-level affiliated tribes in Helan Mountain alone.

Among these fourth-level tribes, there are only two or three king-level chaos beasts.

For some powerful fourth-level tribes, the number of king-level chaos beasts may even exceed a hundred.

If thousands of fourth-level tribes were dispatched together.

It was enough to keep the Immortal Domain under Tianxing Daozu in a panic for a while.

for them.

The result of revenge is actually not very important.

Important is.

Don't trap the Helan Mountain tribe.

After all, I just suffered a big loss.

If you get tricked again.

Then the Helan Mountain Tribe may never be able to stand up again.

Let those fourth-level tribes put some pressure on the human monks.

Just right.

As long as the supreme power does not come off the field to join the battle.

Then there is no need to worry that the Helan Mountain tribe will be involved.

...

Following Helan Ruobei's order.

The Chaos Continent suddenly became turbulent.

A large number of Chaos Beasts left their tribes and began to advance towards the human city.

Thousands of fourth-level tribes, plus those lower-level tribes.

Countless chaos beasts quickly rushed towards the human fairy city.

But the strange thing is.

Currently, only the Immortal Domain under Tianxing Daozu has been attacked by Chaos Beasts.

Other cities in the Immortal Realm are not affected at all.

...

Chaos Continent, Galaxy Fairy City.

Zhang Yuhe stood on the city wall and looked at the empty wilderness in the distance.

Lu Yunfei and Yu Liwei stood beside him quietly.

After the war in the South China Sea Immortal Territory ended.

The Dao Sheng Sect once again concentrated its power on Galaxy Immortal City.

Relative to Ji'an waters.

This is the land of hope.

Because only in the Chaos Continent can various precious cultivation resources be found continuously.

Of course.

If you want to obtain resources, you must always face various dangers.

Not to mention that in the wilderness outside, you may encounter a large number of Chaos Beasts at any time.

Even if you stay in the fairy city.

You may also be attacked by Chaos Beasts.

The beast tide in the Chaos Continent is no joke.

For ordinary monks.

Every beast tide is a test of blood and fire.

However, the beast tide is also an opportunity for them to harvest resources.

Galaxy Fairy City is a newly established city.

There are no powerful tribes around.

Normally.

A fairy city of this size.

In the early stages of establishment, there will generally not be large-scale animal infestations.

After all, Galaxy Fairy City was built on the basis of Niulan Mountain.

After wiping out the Niulanshan tribe.

There is no powerful Chaos Beast within hundreds of millions of miles around.

Unless the distant Chaos Beast tribe migrates nearby.

Otherwise.

over a considerable period of time.

None of them would encounter a large-scale beast tide.

But this time it's different.

This time they severely damaged the Helan Mountain tribe in the South China Sea Immortal Domain.

As a Chaos Beast, one of the twelve major tribes.

The Helan Mountain tribe will definitely not suffer the loss of being dumb.

They will definitely take revenge.

Under the reminder of Tianxing Daozu.

Each fairy domain quickly concentrated their main forces into the fairy cities in Chaos Continent.

Be prepared to deal with the tide of beasts that may appear at any time.

The same is true for Dao Sheng Sect.

Zhang Yuhe looked into the distance.

All I saw was silence in the wilderness.

There is not even half a shadow of a Chaos Beast.

Because as early as the establishment of Fairy City.

They wiped out all the nearby Chaos Beasts.

Even if there is a tide of beasts targeting Galaxy Fairy City, it will probably have to wait for a while.

After all, Chaos Beasts don't know how to use teleportation arrays.

They have to run.

The Chaos Continent is vast and endless.

Wait until the army of Chaos Beasts in the distance reaches the vicinity of Galaxy Fairy City.

It might be a few years later.

Section 604

despite this.

Zhang Yuke did not take it lightly.

He just received the news from Liuyue Immortal King.

Some parts of the Immortal Realm have been attacked by Chaos Beasts.

And this time the tide of beasts came very violently.

Hundreds of king-level chaos beasts appeared outside several king-level immortal cities.

This was a very rare thing in the past.

Not to mention an ordinary beast tide.

Even during the Immortal Meteor Catastrophe.

It is rare that so many king-level chaos beasts appear.

everybody knows.

This is the revenge of Helan Mountain.

Although some fairy realms were violently attacked by chaos beasts.

However, the monks from other immortal realms did not dare to go over easily to provide support.

Everyone is worried about what happens if they leave.

If your own fairy city is suddenly attacked, you will be in big trouble.

Fortunately, Tianxing Fairyland took action in time.

Support is being sent to those fairy lands that are under attack.

Compared to other fairy realms.

At present, the South China Sea Immortal Territory and the Immortal City in the Chaos Continent are still peaceful.

Didn't suffer any attacks.

There is the Milky Way Fairy City in front.

Other fairy cities are relatively safer.

At least Galaxy Fairy City can help them block the Chaos Beasts from one direction.

Zhang Yuhe stands on the city wall.

Suddenly he turned his head and asked Yu Liwei.

"Have you found out more about the Chaos Beast tribe around us?"

Yu Li nodded slightly.

She spoke slowly.

"After these investigations, we have a basic understanding of the Chaos Beast tribe around Fairy City."

"Don't mention the south, that side is the territory of the human race."

"Three trillion miles away from us, there is a fourth-level tribe named Luoyan Mountain."

"Information collected from various places through sect disciples."

"The Luoyan Mountain tribe is not too strong. There are no more than ten king-level chaos beasts in the tribe."

"Five trillions miles away from the fairy city, there is also a fourth-level tribe named Qiuyue Mountain."

"This tribe is even weaker, with no more than five king-level chaos beasts."

"Our biggest trouble is actually only the north of Fairy City."

"To the north of Fairy City, there is a fourth-level tribe named Manli Mountain."

"Based on the information we learned from other places."

"The number of king-level chaos beasts in the Brute Force Mountain Tribe probably exceeds a hundred."

"But fortunately, Brute Force Mountain is very far away from Fairy City."

"Even if the king-level chaos beast runs at full speed, it will probably take more than half a year."

"Only by running to the Galaxy Fairy City."

"As for the ordinary chaos beast army, it may take several years to reach the Galaxy Fairy City."

After listening to Yu Liwei's narration.

Zhang Yuhe nodded lightly.

The only ones worthy of their attention are the fourth-level Chaos Beast tribes.

As for the tribes below level three, Yu Liwei didn't say anything.

Because it's completely unnecessary.

Those Chaos Beasts whose strength does not exceed nine stars don't even need him to take action.

Lu Yunfei and Yu Liwei can basically solve everything by joining forces.

In general.

The Chaos Beast tribe around Galaxy Fairy City does not pose much of a threat to them.

Needless to say, there is no need to talk about the east and west sides.

Luoyan Mountain and Qiuyue Mountain, these two tribes together.

There are no more than twenty king-level chaos beasts.

Even worse than the original Niulanshan tribe.

On the other hand, Brute Force Mountain to the north really needs some attention.

A level four tribe with more than a hundred king beasts was a powerful force.

Once the brute force mountain tribe launches a beast wave towards the Galaxy Fairy City.

I'm afraid it will also bring them a lot of trouble.

But distance creates beauty.

Brutal Force Mountain is very far away from the Galaxy Fairy City.

As long as they deploy their security forces far enough away.

You can discover the Chaos Beast's movements in advance.

This is very beneficial to them.

...

Chapter 459 The goal of Brutal Force Mountain

Brute Mountain Tribe.

A group of king-level chaos beasts with powerful auras gathered on the altar.

High Priest Man Litian glanced at everyone, and then spoke calmly.

"I believe you all already know that Helanshan sent an order."

"Let us concentrate all our efforts to attack the human city."

"Everyone, let's talk about how this matter should be handled."

All the king beasts present were not in a hurry to speak.

Because this is a very tricky thing.

If we follow Helan Shan's order and attack the human city with all our strength.

So where to hit, that's the question.

Opposite them is the territory of the South China Sea Immortal Territory.

As for other places, there is no need to consider it at all.

Because it's really too far.

Even if they run with all their strength, it may take several years to reach other fairyland territories.

And it's impossible for them to just send out the king beast, and they have to bring an army of chaos beasts with them.

Otherwise.

Even if a sacrifice is captured, they, the king beasts, cannot bring them back.

But if you calculate it like this.

I'm afraid it will take decades, or even hundreds of years.

Only then can we reach the territory of other immortal realms.

It is obviously unrealistic to spend such a long time on the road.

Even if they have a brain twitch.

It is impossible to do so.

There is actually only one target they can choose.

That is the fairy city in the South Sea Fairyland.

But the problem is.

They are a little afraid to move.

For the Helan Mountain Tribe, such an order was suddenly issued.

The Chaos Beasts at the scene have also heard some rumors.

According to the rumors circulating in various tribes.

The Helan Mountain Tribe accidentally discovered a space passage that leads to the South Sea Fairyland.

Section 605

High Priest Helan Ruobei personally went out, bringing five honorable chaos beasts with him.

And a huge army of Chaos Beasts, fully invading the South China Sea Immortal Territory.

As a result, not long after they passed by, they were wiped out by the human monks.

Even one of the supreme Chaos Beasts died.

The powerful strength that emerged from the South China Sea Immortal Territory frightened everyone.

They are a little afraid to move.

If you are not careful, you will follow in the footsteps of Helan Mountain.

Wouldn't that be completely dull?

Although they are a powerful mountain tribe, they are also a powerful fourth-level tribe.

But compared with Helan Mountain, it seems too small.

Even the Helan Mountain tribe suffered a big setback in the South China Sea Immortal Domain.

How dare they move?

The Helan Mountain tribe is powerful.

Even if you fail once, it won't hurt your muscles and bones.

Still one of the twelve major tribes.

But their brute force mountain doesn't have such a strong foundation.

What if they are also in the South China Sea Immortal Territory and make a big mistake?

Then can the entire Brute Mountain Tribe still exist?

This is all a problem.

It is precisely because of these thoughts.

Among the king-level chaos beasts present, no one spoke.

This fact is actually a bit hard to say.

After everyone was silent for a while.

The great elder next to him spoke forcefully and slowly.

"We must resolutely implement Helan Mountain's orders."

"Otherwise, once Helan Mountain is blamed, we can't afford it."

"Venerable Helan may be angry right now, but we can't touch this bad luck."

All the king beasts present nodded silently.

They must listen to Helan Mountain's orders.

Otherwise.

The disaster of genocide is just around the corner.

But the problem is.

What are they going to do?

Do we really want to be stubborn and attack the fairy city in the South China Sea Fairyland?

Isn't this no different from committing suicide?

Think of this.

All the king-level chaos beasts couldn't help but feel helpless.

It's difficult.

Brutely obviously, I understand what everyone is thinking.

it said with a smile.

"Actually, we don't have to worry too much."

"As far as I know, the overall strength of the South China Sea Immortal Territory is not too strong."

"The reason why they were able to repel the invading Chaos Beasts from the Helan Mountain Tribe this time."

"It's because the South China Sea Immortal Territory has produced an extremely talented person."

"We can completely avoid this genius and attack other fairy cities."

Next to him, Brute Force was stunned.

"You mean Galaxy Immortal Lord?"

With the end of the war in the South China Sea Immortal Territory.

Zhang Yuhe's fame not only spread throughout the immortal world.

Even among the various tribes of Chaos Beasts, it slowly spread.

Just a while ago.

Man Litian heard the rumors about Zhang Yuhe.

to be honest.

It's a bit unbelievable.

How could an early Taiyi Immortal Lord be so powerful?

Able to continuously wipe out an army of tens of millions of Chaos Beasts.

And it can also press thousands of king-level chaos beasts to the ground and rub them?

This sounds very exaggerated.

However, when the facts are in front of him, he can't help but not believe it.

He nodded gently and forcefully.

"Yes, it's the Immortal Lord Galaxy."

"About ten thousand years ago, the Immortal Lord Galaxy attacked and destroyed the Niulanshan tribe."

"And built a grand fairy city there."

"Presumably Immortal Lord Galaxy is in the Immortal City now, right?"

"We just need to avoid that fairy city and find other people's troubles."

"If we can take advantage of the opportunity to break through a king-level fairy city."

"That way, not only Helan Mountain, but also Helan Mountain will be given a satisfactory explanation."

"And we can also capture a large number of sacrifices, and everyone will also have the opportunity to evolve and advance."

Brute force just finished speaking.

There was a lot of discussion at the scene.

"The Great Elder is right, we just need to avoid the Galaxy Immortal Lord."

"The strength of other cities in the South China Sea Immortal Region is not too strong."

"If we attack with all our strength, we can definitely win a king-level fairy city."

"But the problem is that the Galaxy Fairy City is in our direction."

"As long as we make a slight move, we will be discovered by the Galaxy Immortal Lord."

"What's there to worry about?"

"The Chaos Continent is vast and vast, wouldn't it be enough if we take a longer detour?"

"You're right, this is indeed a solution."

I heard the discussion among the king beasts.

Brute Litian fell into deep thought silently.

This method seems to be feasible.

It's not like they have never interacted with the monks from the South China Sea Immortal Realm.

to be honest.

In the past, if it wasn't for the Niulan Mountain tribe, it would have been blocking the way.

They may have found an opportunity to take down those king-level fairy cities.

This time is indeed an opportunity.

If we can take advantage of the opportunity to break through a king-level fairy city.

Then the strength of their brute mountain tribe will inevitably rise to a higher level.

But the problem is.

Which royal city will they choose to attack?

Originally, there were three king-level immortal cities in the South China Sea Immortal Domain.

Now if you add the Galaxy Fairy City, there are four.

It doesn't want to provoke the Galaxy Immortal Lord.

So first rule out Galaxy Fairy City.

Neither can the Divine Beast City.

Ever since the Divine Beast Sect was wiped out by Tianxing Daozu with a slap.

The Divine Beast City was taken over by the Heavenly Star Holy Land.

They couldn't afford to offend Zhang Yuhe, let alone Heavenly Star Daozu.

The only ones left were Chaotian City and Wanxian City.

Manlitian thought seriously for a while.

Section 606

The Immortal King of Wanshan is famous far and wide, and his strength is extraordinary.

He is also a ruthless character.

It kind of doesn't want to be messed with.

Just do the math.

The only goal left is Chaotian Fairy City.

Think of this.

Brute Force said loudly to the king beasts.

"It's settled, let's go to Chaotian Fairy City."

"Send an order to assemble the tribal army, bypass the Galaxy Fairy City, and march towards Chaotian City."

"In addition, notify Luoyan Mountain and Qiuyueling so that they can prepare and set off with us."

...

Chapter 460 The calm before the storm

Hear the words of Brute Force.

All the king-level chaos beasts present nodded silently.

Chaotian Fairy City is indeed a very suitable target.

Among the three super powers in the former South China Sea Immortal Territory, Chaotian Palace was the weakest.

There are only two Da Luo Immortal Kings in the entire sect.

And the strength is not too strong.

Even Chaotian Immortal King is only in the middle stage of Da Luo Immortal.

Even with the blessing of Immortal City's formation.

They also have confidence.

Able to quickly defeat Chaotian City.

But why did Brute Force want Luoyan Mountain and Qiuyueling to act with them?

Everyone is very puzzled by this.

With the strength of their brute force mountain, it is more than enough to deal with Chaotian Immortal City.

Why bring Luoyan Mountain and Qiuyueling?

Wouldn't this mean letting people come and share the results of the battle with them?

It's completely unnecessary.

Brute force asked with some doubts.

"High Priest, why do you need to notify Luoyan Mountain and Qiuyueling?"

"Wouldn't it be better to let them fight against the Galaxy Fairy City?"

"Maybe you can help us attract the attention of the Galaxy Immortal Lord."

Man Litian said calmly.

"Do they have the guts?"

"Just relying on the strength of Luoyan Mountain and Qiuyue Ridge."

"How dare they dare to provoke the Galaxy Immortal Lord?"

"And Chaotian City is deep in the hinterland of the human race."

"We must not delay for too long, we must move in and out quickly."

"Capture Chaotian City as quickly as possible."

"Otherwise."

"If the surrounding fairy cities come to support us, it may be difficult for us to escape."

"Bringing Luoyan Mountain and Qiuyue Ridge will also increase our strength."

"You can help us clear the obstacles around us."

"Secondly, we can quickly defeat Chaotian City."

Hear Brute Force's explanation.

All the king beasts present nodded in agreement.

Indeed.

Once they penetrate deep into the hinterland of the human race.

It is easy to fall into a tight siege.

Therefore, the word "quick" is highlighted in this operation.

They have to be fast.

Capture Chaotian City as quickly as possible.

Then the sacrifices there were quickly transported back to the tribe.

In order to achieve this goal.

Even if some of the battle results are divided, they should be given to Luoyan Mountain and Qiuyueling.

That doesn't matter.

Safety first.

They don't want to suffer a big setback in the South China Sea Immortal Domain like the Helan Mountain Tribe.

With a brute force order from the sky.

The entire Brute Mountain Tribe quickly took action.

They quickly gathered together, an army of more than two million Chaos Beasts.

After the team gathered, they immediately headed straight to the Luoyan Mountain tribe in the east.

According to Brute Force's idea.

They are going to Luoyan Mountain to join the three major tribes.

Then take the east route, bypass the Galaxy Immortal City, and head towards Chaotian Immortal City.

Although walking this way, the distance is much longer.

But in order to avoid the attention of Galaxy Immortal Lord.

The extra mile is totally worth it.

Although Brute Force was full of confidence in this operation.

But it still has a backup plan.

It only brought out half of the king beast of the entire Brutal Mountain Tribe.

Fifty-six in total.

The remaining king beasts, together with the great elder, stayed to guard the tribe.

Even the army of Chaos Beasts didn't take away much.

This kind of fast-in, fast-out war.

Quantity is not necessarily an advantage.

It could also be a drag.

Brute Force selected two million elite forces from the tribe.

Then quickly head east.

Standing brute force on the altar, silently watching the huge team leave.

It muttered to itself.

"I hope nothing happens."

to be honest.

If you have a choice.

It would rather not have this operation.

Although with the strength of the brute force mountain tribe, they can easily crush Chaotian Palace.

Even with the help of Immortal City's formation.

Face their attacks.

Chaotian Palace will definitely not be able to withstand it for half a quarter of an hour.

However, Chaotian City is located in the hinterland of the human race after all.

They can bypass the Galaxy Fairy City and quietly touch it.

Maybe he can hit Chaotian Palace and catch him off guard.

Successfully capturing Chaotian City is indeed not a big problem.

But what about after.

How can the army of more than two million Chaos Beasts return to the tribe?

If the monks from the South China Sea Immortal Domain intercepted him halfway.

Can they still come back?

Especially that Galaxy Immortal Lord.

If the Galaxy Immortal Lord cuts off their return path.

Section 607

I'm afraid it will be difficult for the two million Chaos Beast army to return to the tribe.

Now brute force, I already understand.

Why did the high priest bring Luoyan Mountain and Qiuyueling with him?

Maybe it's just to find someone to support me.

Once the way back is cut off by the Galaxy Immortal Lord.

They can choose to disperse and retreat.

Let Luoyan Mountain and Qiuyue Ridge help them attract some firepower.

despite this.

Brute force's heart was still full of sorrow.

The risks of this operation are simply too great.

If it weren't for the Helan Mountain tribe, strict orders were issued.

They will definitely not take action.

Unfortunately.

They have no choice.

On the Chaos Continent.

The twelve major tribes are their heaven.

Even the Helan Mountain tribe, let them die.

That has to go too.

No one dares to violate the will of these large tribes.

...

Time passed slowly.

Dozens of Fangxianyu under Tianxing Daozu are all involved in an all-out war with the Chaos Beasts.

A large number of fairy cities were attacked by chaos beasts.

Even in some fairy realms.

There is a crisis situation where chaos beasts enter the king-level fairy city.

Fortunately, with the support of the Heavenly Star Holy Land, the Chaos Beast was finally driven out.

So far, no king-level fairy city has been completely captured by chaos beasts.

despite this.

The monks in various immortal realms still suffered heavy losses.

The war lasted for six or seven years.

The monks in the major immortal realms are already a little tired.

Yet the strange thing is.

There are constant wars in all the immortal realms.

But the South China Sea Immortal Territory was peaceful.

Their fairy city in Chaos Continent was not attacked.

Just like the South China Sea Fairyland does not belong to the banner of Tianxing Daozu.

Completely ignored by the Chaos Beast.

Zhang Yuhe walked out of the hall.

He stood on the top of Galaxy Peak, overlooking the entire fairy city.

Over the past few years.

Galaxy Fairy City has been strengthening its war preparations.

They constantly collect resources, mobilize all forces, and refine various defensive equipment.

On the four walls of Galaxy Fairy City.

It is already full of immortal-killing cannons of various levels.

Among them, tens of thousands of low-grade immortal-killing cannons were built.

They also built more than 600 medium-grade immortal-killing cannons.

Although there has been no trace of Chaos Beasts around Galaxy Fairy City.

But Zhang Yuhe didn't dare to be careless at all.

He even deployed security posts hundreds of billions of miles away from the Immortal City.

I hope the Chaos Beast can be discovered in advance.

Win them more warning time.

In Zhang Yuhe's view.

It's just the calm before the storm now.

Hundreds of millions of miles away from the Galaxy Fairy City, there are three fourth-level tribes.

He didn't believe it.

These three tribes will not take action.

This is completely impossible.

Helan Mountain launched a full-scale attack on the Immortal Domain under Tianxing Daozu.

How could it be possible, just missing the South China Sea Immortal Domain?

Maybe those chaotic beasts are advancing quietly.

It just hasn't been discovered yet.

Zhang Yuhe believes it.

Once the Chaos Beast appears.

They are bound to receive a thunderous blow from the opponent.

over the years.

No matter how urgent the other immortal realms are.

Zhang Yuhe didn't even take a step out of the fairy city.

He did not go to other immortal realms to support.

Because it's not yet time.

Don't defeat the three major tribes around you.

He can't go anywhere.

In case he just left.

Galaxy Fairy City was attacked by a Chaos Beast. Isn't that a big deal?

The most important thing is to guard one wave first.

If it weren't for being overwhelmed.

He even thought about it.

Just spend a few years and travel a long way to wipe out those three fourth-level tribes.

Unfortunately.

He couldn't get away.

...

Chapter 461 The Worry of Chaotian Immortal King

After Brute Force reunited with Luoyan Mountain and the Chaos Beasts from Qiuyue Ridge.

An army of millions of Chaos Beasts formed a large circle from the east.

They avoided the Galaxy Fairy City in front of them and quietly entered the human race's territory.

On the way, we met the human fairy city.

Whether it is the most ordinary acropolis or the powerful monarch-level fairy city.

They will try to avoid it.

Brute Force's goal is clear.

That is to take Chaotian City directly.

Because it is a super king level.

As long as a royal city is conquered, it will be enough to have an explanation with Helan Mountain.

And in terms of harvest.

Even if it were to conquer thousands of acropolis, it would still be inferior to conquering a royal city.

A large number of monks gathered in any royal city on the Chaos Continent.

Moreover, the levels of these monks are generally very high.

It is far from comparable to those ordinary fairy cities.

In Brute Force's view.

Just conquer a royal city.

Then they will definitely be able to capture a large number of sacrifices.

Section 608

And with their strength, the three major tribes.

There was no pressure at all to conquer Chaotian City.

The only thing they need to consider is to be as hidden as possible.

The monks from the South China Sea Immortal Realm cannot be allowed.

Spot them in advance.

Otherwise.

Once they are exposed.

All forces in the South China Sea Immortal Territory will inevitably use the teleportation arrays in each immortal city.

Quickly gather strength.

By that time.

Not to mention, they broke through Chaotian City.

I'm afraid I won't be able to save my life.

That's a big problem.

so.

Brute Litian hid his whereabouts and quickly headed towards Chaotian City.

In order to prevent the monks from the South China Sea Immortal Domain from discovering the existence of the Chaos Beast Army.

It's on the outside of the line.

A large number of mobile sentries were deployed.

Protect the huge army of chaos beasts within it.

Completely isolate the monks and discover the possibilities within them.

If you encounter a fairy city that you really cannot avoid.

Brute Force will send a small force to attack the fairy city.

Press all the nearby monks back into the fairy city.

It does not require these small troops to defeat these fairy cities.

Just force all the surrounding monks back into the city.

Thus.

The monks were busy guarding the city.

There is no energy to explore their whereabouts.

Moreover, the intensity of their siege will not be too great.

Those monks in the fairy city will not ask for help from outside.

Anyway.

Brutal Force just wanted to create an illusion.

They are only harassed by small groups.

No large troops were dispatched.

Let the monks in the South China Sea Fairyland relax their vigilance.

...

Chaos Continent, Chaotian Fairy City.

Chaotian Immortal King stood silently outside the hall, his heart full of sorrow.

Since Helan Mountain launched a counterattack.

The surrounding immortal realms have turned into a pot of porridge.

But the fairy city in the South China Sea Fairyland was peaceful.

despite this.

Chaotian Immortal King still did not let down his guard.

Same as Zhang Yuhe.

He also believed that the Chaos Beast should be accumulating strength.

It will bring a fatal blow to the Immortal Territory of the South China Sea and the Immortal City in the Chaos Continent at any time.

But it is different from Zhang Yuhe.

Chaotian Immortal King is self-aware.

The strength of their Chaotian Palace is far inferior to that of Wanxian Sect.

Not even comparable to Dao Sheng Sect.

Daosheng Sect has Zhang Yuhe.

One person can stop an army of hundreds of millions.

But they can't.

If the Chaos Beast army comes towards Chaotian City.

They may be unstoppable.

Just recently.

Immortal King Chaotian received notifications one after another.

From time to time, the surrounding fairy cities were attacked by chaos beasts.

Although the attack power of these chaos beasts is not too strong.

Even if no support is sent.

Those fairy cities are enough to deal with it.

despite this.

Chaotian Immortal King was extra vigilant.

He forced those fairy cities that were under attack to quickly repel the attacking Chaos Beasts.

and expanded the search outside the city.

Check to see if a large-scale Chaos Beast is approaching.

However.

Something strange happened.

No matter how hard the monks in the fairy city try.

They were unable to repel the Chaos Beasts attacking the city.

Although they were able to defend the city, they were unable to leave the city.

Those chaotic beasts seemed to just want to surround the fairy city.

The monks are just not allowed to leave the city.

After receiving notifications from various places.

Immortal King Chaotian immediately raised his vigilance.

He connected the fairy cities that were under attack into a line.

A surprising conclusion was quickly reached.

The final direction of this line is actually Chaotianxian.

"Is the goal of the Chaos Beast Army really our Chaotian Fairy City?"

Think of this.

Chaotian Immortal King was very worried.

If that's the case.

Then their trouble will be huge.

He sent a large number of disciples to set up a wide cordon along Chaotian City.

The Chaos Continent is vast and boundless.

Even in the territory of the human race.

There are still vast gaps between the immortal cities.

The army of Chaos Beasts reached Chaotian Fairy City through these gaps.

It's totally possible.

to this end.

Chaotian Immortal King will bring everything in the direction of the Chaos Beast that may appear.

Guard posts were sent out.

He knew it very well.

If the Chaos Beast's goal is Chaotian Fairy City.

So relying on their own strength, they will definitely not be able to defend it.

The Chaos Beasts around the South China Sea Immortal Domain have been silent for so long.

Once the offensive is launched.

That would be extremely terrifying.

If they want to defend the fairy city, they need the support of others.

But there is a premise here.

Section 609

That is.

They must ensure that the teleportation array in Chaotian City can always operate normally.

Once the chaos beast army approaches the fairy city.

Then it's too late.

The power of the king-level chaos beast is extremely terrifying.

With all your strength.

The surrounding void was shaking, and the teleportation array could not be used at all.

There is no teleportation array.

Such a long distance.

How can others come to support?

so.

Chaotian Immortal King's idea is simple.

That is to discover the traces of the chaos beast army as soon as possible.

The sooner the better.

The farther away from the fairy city, the better.

As long as he confirms the traces of the Chaos Beast army, he can ask for help from the Ten Thousand Immortals Sect and the Dao Sheng Sect.

Just at this time.

A streak of light passed from a distance and soon fell next to him.

I saw Immortal King Yongning coming.

Immortal King Chaotian asked immediately.

"Have you found the Chaos Beast army?"

After suspecting that Chaos Beast might attack Chaotian City.

He immediately asked Immortal King Yongning to go out of the city to investigate in person.

Immortal King Yongning shook his head.

"No, I checked all the areas within hundreds of millions of miles, and I didn't see any large groups of Chaos Beasts."

Hear this.

Chaotian Immortal King couldn't help but frown.

Did he think too much?

At this time, Immortal King Yongning continued to speak.

"Sect Master, our Chaotian City is located in the heart of the human race. It should be impossible for the Chaos Beast army to come here directly, right?"

Chao Tianxian King shook his head.

"Hard to say."

"Of the four fairy cities in the South China Sea Fairyland, we are the weakest."

"If the Chaos Beast attacks."

"Their first goal must be to choose Chaotian City."

Immortal King Yongning fell into silence.

Pick the persimmons soft and pinch them.

Chaos beasts naturally understand this truth.

But the problem is.

He searched hundreds of millions of miles around, but found no trace of the Chaos Beast army.

Is there somewhere else that he has missed?

Think of this.

Immortal King Yongning couldn't help but frown.

...

Chapter 462 Li Chengqing is in action

Immortal King Yongning fell into deep thought silently.

In fact, he also felt that Immortal King Chaotian was right to worry.

There are various signs.

There is a powerful Chaos Beast force that is rapidly approaching Chaotian City.

It's just that the Chaos Beast's actions this time were very secretive.

Even if they use various means.

Still no trace of the Chaos Beast army was found.

The more abnormal the Chaos Beast is.

It means they are more dangerous.

Think of this.

Immortal King Yongning hesitated for a moment before speaking slowly.

"Palace Master, should we ask for help from the Ten Thousand Immortals Sect and the Dao Sheng Sect immediately?"

"If the waiting army of Chaos Beasts approaches, I'm afraid it will be too late."

Chaotian Immortal King responded helplessly.

"Then what are we going to say?"

"Could it be that, according to speculation, the army of Chaos Beasts is approaching Chaotianxian?"

"The pressure from Wanxian Sect and Dao Sheng Sect is also great."

"With the Chaos Beast army not showing its head, no one dares to act rashly."

"Especially Dao Sheng Sect, they only have Galaxy Immortal Lord, a great power."

"If there is no accurate information, Yinhe Immortal Lord will never leave the city."

Hear this.

Immortal King Yongning could only shake his head helplessly.

The strength of the South China Sea Immortal Territory is still too weak.

There are only a few truly top powers.

Everyone must guard their respective fairy cities.

The current situation is unknown, so we will definitely not make any moves.

Otherwise.

What if the chaos beast army played a trick of attacking in the east and attacking in the west.

That is a consequence that no one can afford.

so.

For Chaotian Palace.

Their number one priority right now.

That is what must be found clearly about the movements of the Chaos Beast army.

Otherwise.

Even if they say it's ridiculous.

Neither the Wanshan Immortal King nor the Galaxy Immortal Lord can support them.

Think of this.

Immortal King Yongning said.

"Sect Master, I suggest you continue to expand the search area and send out all the disciples you can in the city."

"In addition, issue a mission to the casual cultivators of City Immortal."

"As long as we can find traces of the Chaos Beast army, we can provide spiritual objects or elixirs to help break through the bottleneck of Taiyi Immortal."

Chaotian Immortal King pondered for a while.

He said solemnly.

"That's it."

"No matter what, we must find the traces of the Chaos Beast army before they get close to Chaotian City."

"No matter how high the price is, I won't hesitate."

Chaotian Immortal King is getting ruthless.

Elixirs and elixirs that can assist Golden Immortal monks and break through the bottleneck of Taiyi Immortal.

They are indeed very precious.

Even their Chaotian Palace doesn't have much inventory.

But no matter how precious the things are, they are not as valuable as Chaotian City.

Once Chaotian City falls.

Then they would lose their foundation in the Chaos Continent.

Perhaps the entire Chaotian Palace will soon decline.

Section 610

In order to protect Chaotian City.

They are willing to pay any price.

Not to mention the mere elixirs and elixirs?

Following the order from Immortal King Chaotian.

A large number of Chaotian Palace disciples rushed towards the boundless wilderness outside the city.

The casual cultivators in the city were also summoned by Chaotian Palace.

Under the public reward, there must be a brave man.

These casual cultivators came to Chaos Continent originally to take risks and obtain resources.

Search for traces of the armies of Chaos.

For them, it can only be regarded as a normal task.

It's not particularly dangerous.

Moreover, the rewards offered by Chaotian Palace are very generous.

Especially, to those golden immortal monks.

The elixir that can help break through the bottleneck of Taiyi Immortal is something that would be hard to find in billions of years.

Chaotian Palace can offer such a reward.

How could they sit still?

All of a sudden.

Countless streams of light flew out from Chaotian Fairy City and rushed to the vast wasteland of the Chaotic Continent.

...

Li Chengqing piloted the fairy ship and quickly passed through mountains, rivers and rivers.

this recent period.

He has been searching the wilderness.

According to the order of Chaotian Immortal King.

They want to keep pushing the cordon forward.

As the top combat power of Chaotian Palace.

Li Chengqing was also sent out.

In fact, everyone understands.

This time the situation was unusual.

When faced with a beast tide before.

Everyone only needs to rely on the fairy city's formation to repel the Chaos Beast.

Even an ordinary acropolis.

As long as the defense force is sufficient, the Chaos Beast can be driven back.

As for the king-level fairy city, it is even more relaxing.

Since Taixu Immortal City.

South China Sea Fairyland for hundreds of millions of years.

There is no record of a king-level fairy city being breached by a chaos beast.

But this time it's different.

Although the fairy cities in various parts of the South China Sea Fairyland have not been attacked on a large scale yet.

But the other surrounding immortal realms have long been reduced to a pot of porridge.

There is no reason why they would be safe in the South China Sea Immortal Territory.

it's out of the question.

Everyone knows it.

Those powerful fourth-level chaos beast tribes must be accumulating strength.

It is possible to give them a fatal blow at any time.

Li Chengqing is the top Taiyi Immortal Lord of Chaotian Palace.

Normally.

It would definitely not be his turn to go out and investigate like this.

There are countless disciples in Chaotian Palace.

If you pull it casually, you can create tens of millions of disciples.

However, in recent times.

Those disciples who are sent out often lose contact inexplicably.

obviously.

These disciples must have discovered the whereabouts of the Chaos Beast army.

Just because of the weak strength.

Before they had time, they sent a warning to the sect.

It had already been killed by the Chaos Beast.

In order to accurately detect the whereabouts of the chaos beast army.

Immortal King Chaotian sent out all the Immortal Lord Taiyi of the sect.

Even Immortal King Yongning has been running around in the wilderness.

They have only one purpose.

That is to find the Chaos Beast army and then determine the size of the Chaos Beast army.

So that Chaotian Immortal King can respond in time.

If they can beat them, they will go back to defend the city.

If the Chaos Beast's oncoming force is too fierce.

Then immediately ask for help from Wanxian Sect and Daosheng Sect.

Li Chengqing is well aware of the worries of Immortal King Chaotian.

So this time.

He has been driving the fairy ship, patrolling and investigating in the direction where the chaos beast may appear.

Just at this time.

Li Chengqing's expression suddenly changed.

An immortal mirror soon appeared in his hand.

After playing a magic formula.

See the content on the Immortal Mirror.

He couldn't help but frown.

Li Chengqing murmured to himself.

"Silver Light City was attacked by Chaos Beasts. It is very close to Chaotian City."

He quickly took out the map and drew a straight line from Silver Light City to Chaotian City.

And his current position is on this straight line.

If there is an army of Chaos Beasts passing by near Silver Light City.

Then these armies of Chaos Beasts may appear near him soon.

Think of this.

Li Chengqing piloted the fairy ship and flew forward quickly.

He can feel it.

The huge army of Chaos Beasts should be not far away from him.

He had to find these chaotic beasts.

While Li Chengqing was driving the fairy ship, he raised the formation flags one by one.

Quickly throw it to the mountain in the distance.

These formation flags are not high-end goods.

Just some warning formations.

When the Chaos Beast passes by, these formation flags will be triggered.

That way.

He can pass the information from the formation flag.

Observe the size of the Chaos Beast army.

...

Chapter 463 Seek help immediately

Li Chengqing threw the formation flag while flying.

Normally.

I want to accurately find out the size of the chaos beast army.

The best way, of course, is to rush up and take a look.
