Five Elements Gathering Spirit Array.

When a cultivator breaks through a realm, it will attract a large amount of spiritual energy around.

Because breaking through a realm requires a lot of spiritual energy to support it.

Normally, the spiritual energy gathered from the outside world is generally enough for the breakthrough. .

But Zhang Yuhe thought.

Wouldn't it be better with the blessing of the Five Elements Gathering Array?

There is no harm in having more spiritual energy.

After Zhang Yuhe casually carved it, he quickly pinched the magic formula to open the Five Elements Gathering Spirit Array.

After the formation was ready, he took out a small jade bottle from the ring and placed it in front of him.

These jade bottles contained various elixirs for restoring mana and healing injuries.

Facing the heavenly tribulation for the first time, Zhang Yuhe did not dare to be careless.

Although he had never seen others overcome the tribulation.

But according to the records in the classics, the power of any kind of heavenly tribulation is extremely powerful and should not be underestimated.

The heavenly tribulation that a cultivator needs to face when breaking through the realm of refining emptiness is called the Seven-Nine Heavenly Tribulation.

There are seven rounds in total, and each round has nine heavenly tribulations.

In other words, he needs to deal with 63 heavenly tribulations in total.

And the power of each of these heavenly tribulations is equivalent to a blow from a cultivator in the Refining Void stage.

And the later it goes, the stronger it gets.

Not only that, according to the records in the classics, the power of heavenly tribulations varies from person to person.

The stronger the aptitude and talent of the cultivator, the stronger the power of the heavenly tribulation caused.

In the history of Yufantian, there have been countless geniuses who fell under the heavenly tribulation.

Thinking of this, Zhang Yuhe couldn't help but have a headache.

In terms of aptitude and talent, who in the history of Yufantian can compare with him?

It's hard to imagine how strong the heavenly tribulation he will attract when he breaks through the Refining Void stage later?

It feels a bit scary.

Therefore, in order to deal with this heavenly tribulation, Zhang Yuhe made a lot of preparations.

"I hope there won't be any accidents."

As long as he survives this heavenly tribulation, he will have a plan in his mind when he survives the next tribulation.

Huh...

Zhang Yuhe exhaled lightly.

"Come on, hang up whether you are dead or alive, let me see how powerful the heavenly tribulation is."

Zhang Yuhe silently circulated the Hunyuan Heavenly Scripture, and the surrounding spiritual energy quickly swarmed towards him.

As the spiritual energy flowed in, the sea of spiritual energy in the Dantian began to roll up huge waves.

A golden-looking little man, emitting dazzling light, floated on the sea of spiritual energy.

Suddenly, the golden little man opened his eyes, opened his mouth and sucked a large amount of spiritual energy into his mouth.

As the golden little man opened his eyes, the spiritual energy within a radius of tens of thousands of miles began to rush towards the direction of the lake.

The monsters in the Yunmang Mountains seemed to sense some crisis and ran away from the lake.

As the spiritual energy quickly flowed in, Zhang Yuhe's aura began to slowly rise.

Suddenly, the golden little man floating above the sea of Dantian burst into a scorching light.

The golden light swept across, reflecting the entire Dantian into a golden ocean.

The golden little man slowly became somewhat solid.

From the virtual to the real, it is called refining the virtual.

Before the cultivator reaches the refining the virtual realm, the Nascent Soul in the Dantian is originally just a virtual body, although it can be seen.

It can also leave the body, and even use magical powers and magic weapons to fight.

But the Nascent Soul at this time is actually just a virtual body.

Although the virtual Nascent Soul can use magical powers and magic weapons to participate in the fight.

But the Nascent Soul itself is extremely fragile. Once attacked, it will immediately dissipate.

For the cultivator, the dissipation of the Nascent Soul means death.

Therefore, before the refining the virtual realm, almost no cultivator will let the Nascent Soul leave the body to participate in the fight.

Unless the physical body is destroyed by the enemy, the cultivator will let the Nascent Soul leave the body and run away.

As for whether it can run away, that is another matter.

And the cultivator's breakthrough in the refining the virtual realm is actually a process of the Nascent Soul from virtual to real.

At this time, the Nascent Soul in Zhang Yuhe's Dantian is slowly becoming real.

The surrounding spiritual energy continues to flow in, and the five elements gathering spirit formation is running rapidly.

The spiritual energy around Zhang Yuhe was so dense that it was like raindrops, swarming towards his dantian.

...

Time passed slowly.

The spiritual energy around the lake surged for three whole days.

Suddenly, the golden man in Zhang Yuhe's dantian once again burst into hot golden light.

Zhang Yuhe felt relaxed, as if he had stepped over a threshold and entered a new world.

The Nascent Soul was thus transformed into reality.

The realm of refining emptiness was completed.

At the moment, the surrounding wind and clouds suddenly changed, and the sky was shrouded in darkness.

...

Chapter 61: Overcoming the Tribulation

As Zhang Yuhe broke through to the realm of refining emptiness.

The entire Yunmang Mountain Range suddenly changed color, and dark clouds covered the sky, as if the end of the world was coming.

Countless monsters ran frantically outside the mountain, setting off a large wave of beasts.

Zhang Yuhe stood up, and the nine flying swords slowly rotated around him.

He looked up at the sky with a solemn expression.

I saw that the dark clouds gathered quickly, and a huge vortex was forming.

There were lightning and thunder in the vortex, and dazzling light would be emitted from time to time.

"Is this the heavenly tribulation? It is indeed a bit scary."

Feeling the terrifying pressure from the heavenly tribulation, Zhang Yuhe was a little nervous.

However, the heavenly tribulation did not give him much time to prepare.

A thunder as thick as a bucket, shining with seven-color light, quickly formed from the vortex and struck straight to the center of the island.

When the thunder reached the sky above the island.

A faint blue light curtain slowly rose.

The Renshui Thunder Absorption Array was running quickly.

Thunder passed through the blue light curtain, and a small amount of lightning was pulled by the light curtain and quickly slid toward the lake.

Countless lightning fell into the lake, stirring up waves.

The Renshui Thunder Absorption Formation did have the effect of weakening the heavenly tribulation.

After the weakening of the formation, the power of thunder has been reduced a little.

Despite this, Zhang Yuhe still did not dare to underestimate it.

He quickly took out a green bead.

The low-grade defensive Tongtian Lingbao, Qingxuanzhu.

As the mana was injected, a strong light burst out from the surface of Qingxuanzhu.

Qingxuanzhu formed a green barrier above Zhang Yuhe's head.

Boom...

At this time, the first heavenly tribulation finally came.

Thunder bombarded the green light curtain, making a deafening sound.

The green light curtain instantly vibrated violently.

Countless tiny lightnings hit Zhang Yuhe through the light curtain.

It made him feel numb and itchy.

These tiny lightnings seemed to be transforming his body.

Zhang Yuhe felt that the strength of his body seemed to have improved a little.

The heavenly tribulation is both a test and a benefit for the cultivators.

As long as they survive the heavenly tribulation, the cultivators' bodies will be greatly strengthened.

This is also an important reason why the strength of the cultivators in the Void Refining Stage is far stronger than that of the Spiritual Transformation Stage.
