

Top talent 611

Section 611

But Li Chengqing didn't intend to do this.

Because this is seeking death.

Although he still doesn't know how strong the army of Chaos Beasts coming this time is.

But there will definitely be a king-level chaos beast.

And not less.

Although his strength is still very good among Taiyi Immortal Lords.

Even if it's not the top, it's not far behind.

But compared to the king-level chaos beast.

That's too far off.

After all, not everyone can be like Zhang Yuhe.

In the early stage of Taiyi Immortal, he was able to defeat the king-level chaos beast.

Li Chengqing is self-aware.

He doesn't have the ability.

When facing the king-level chaos beast.

He may not even have a chance to escape.

According to other immortal realms, the scale of this war is huge.

Once the Chaos Beast attacks.

There may be dozens or even hundreds of king-level chaos beasts appearing at the same time.

What if so many king-level chaos beasts swarmed up?

Think of this.

Li Chengqing couldn't help but shudder.

It's better to be careful.

To directly collide with the Chaos Beast team is to seek death.

It's safer to use the surveillance flag.

In Flowing Light City, he arranged various surveillance flags along the straight line towards Chao Tianxian.

As long as there is an army of Chaos Beasts passing by.

It will definitely be discovered.

After doing all this.

Li Chengqing drove the fairy ship and left quickly.

After a while.

A huge team of Chaos Beasts quickly ran through the wilderness.

At the front of the line.

Dozens of soaring Chaos Beasts swept towards the surrounding peaks from time to time.

Brute Litian ran fast and glanced sideways.

Along the way, they encountered countless scattered monks.

In order not to expose his whereabouts.

Every time he saw the figure of the monk, Brute Litian would decisively kill him.

It is a majestic nine-color king beast, the high priest of the Brutal Mountain Tribe.

At this time, he transformed into the pioneer of this team.

Because brute force God knows.

The monks have many means.

If other Chaos Beasts take action, it is inevitable that individual monks may escape.

If that's the case.

Then their whereabouts will be exposed.

In order to achieve the purpose of raiding Chaotian Fairy City.

They have to be fast and stealthy.

Otherwise.

Not only does it fail to achieve its purpose.

And there is a possibility that they will trap themselves.

Just at this time.

On a mountain peak in the distance.

A formation flag buried deep in the ground emitted a faint spiritual light.

Take a panoramic view of the huge army of chaos beasts.

Millions of miles away from here.

Li Chengqing felt the terrifying momentum in the distance and couldn't help but frown.

he knows.

The chaos beast army is really coming.

And they are coming to Chaotian Fairy City.

Suddenly his expression changed.

A crystal clear mirror appeared in his hand.

After playing a magic formula.

The terrifying team of Chaos Beasts in the distance were all reflected in the mirror.

See this situation.

Li Chengqing took a breath.

He muttered to himself.

"What a powerful team of Chaos Beasts."

"No wonder no one has discovered the whereabouts of this team before."

"It turns out there are a large number of king beasts, clearing the way ahead."

Until this time.

Li Chengqing finally understood.

Why Chaotian Palace sent a large number of disciples but failed to find accurate information.

There is a nine-color king beast leading the way.

Those sect disciples had no chance to pass back the news they saw.

Although Chaos Beasts cannot fly.

But the power of the nine-color king beast breaks through the sky.

It is estimated that those disciples saw the Chaos Beast team at the moment.

He was directly punched into ashes by those king beasts.

"We must report it to the sect master immediately."

Think of this.

Li Chengqing quickly turned the fairy ship and flew towards Chaotian Fairy City.

at the same time.

Through the Immortal Mirror, he will monitor what the array flag sees.

He made a detailed report to the Immortal King Chaotian.

"What did you say?"

"There are more than four million Chaos Beasts in the army, and there are more than sixty or seventy King-level Chaos Beasts?"

"Yes, Master."

"The army of Chaos Beasts just came from Silver Light City."

"It is estimated that we will arrive at Chaotian City in half an hour at most."

Looking at the message from Li Chengqing.

Chao Tianxian King took a deep breath.

He said solemnly.

"I understand. Inform the disciples outside to return quickly."

"You have done a great job this time."

"As long as you survive this disaster, everyone in Chaotian Palace will definitely mobilize the entire sect to help you attack the Great Luo Realm."

Hear the promise of Chaotian Immortal King.

Li Chengqing responded excitedly.

"Thank you, Master, this is what I should do."

If Taiyi Immortal Lord wants to be promoted to Daluo Realm smoothly, he needs to face many levels of hurdles.

Li Chengqing as early as many years ago.

It has already reached the perfection of Taiyi Immortal.

Section 612

But he had no idea of attacking the Great Luo Realm.

Because it's just too difficult.

Those elixirs that assist in breaking through the Great Luo Realm are simply not within his reach.

not to mention.

Even if you break through the Great Luo Realm, you will still have to face a terrible disaster.

If you are not prepared.

That is simply like seeking death, there is no difference.

But if the sect fully supports it.

Then he still has some chances.

After all, Taiyi Immortal has unlimited lifespan, and he still has a lot of time to polish himself.

Think of this.

Li Chengqing couldn't help but feel a little excited.

Chaotian City.

Chaotian Immortal King stood silently outside the hall.

After a while.

The figure of Immortal King Yongning appeared next to him.

He asked the Immortal King Chaotian eagerly.

"Sect Master, have you discovered the whereabouts of the Chaos Beast army?"

Chao Tianxian King nodded slightly, and he slowly spoke.

"There was news from Chengqing just now."

"There are more than four million Chaos Beasts in the army. They have passed through Silver Light City and are running towards us."

Speaking of which.

Chaotian Immortal King paused for a while, and then said solemnly.

"The most important thing is that in that team, there are sixty or seventy king-level chaos beasts, and there are also nine-color king beasts."

Hear this.

Immortal King Yongning was completely stunned.

They can't deal with so many king-level chaos beasts at all.

Don't say anything else.

Just one nine-color king beast is enough to crush both of them.

Even with the blessing of Immortal City's formation.

I guess they won't get any advantage.

What's more, there are still sixty or seventy king beasts.

Think of this.

Immortal King Yongning said in panic.

"Sect Master, immediately seek help from Wanxian Sect and Daosheng Sect."

"I hope that the Galaxy Immortal Lord and the Wanshan Immortal King will help us, seeing that they are both in the South China Sea Immortal Domain."

The army of Chaos Beasts has passed through Silver Light City.

They were only half an hour away at most.

It's not too late to call for help now.

If it's a little later.

I'm afraid they will have to abandon the city and run away.

The army of more than 4 million Chaos Beasts was fine.

There are many monks in Chaotian Immortal City, but they are not afraid.

But those sixty or seventy king beasts.

They couldn't handle it at all.

Only Wanshan Immortal King and Galaxy Immortal Lord came over.

Only then do they have a chance to save Chaotian Immortal City.

...

Chapter 464 Zhang Yuhe's hesitation

Immortal King Chaotian and Immortal King Yongning stood in front of the hall and discussed quietly.

This time, thanks to Li Chengqing, he discovered the whereabouts of the Chaos Beast in advance.

Otherwise.

The consequences could be disastrous.

We really have to wait until the army of Chaos Beasts reaches the vicinity.

If they just found out.

Then it will be too late.

Not to mention that the fairy city cannot be defended.

Maybe even the two of them might not be able to escape.

After all, in the eyes of the Chaos Beast.

Daluo Immortal King is the best sacrifice.

Those king-level chaos beasts will definitely hunt them down when they see them.

There are sixty or seventy king-level chaos beasts, and there are also nine-color king beasts.

Even Chaotian Immortal King has no confidence that he can escape.

But it's okay now.

Now the Chaos Beast army has just passed through Silver Light City.

They were still about half an hour away.

They still have time.

As long as Wanxian Sect and Dao Sheng Sect can provide timely support.

Then all this will be reversed immediately.

Thinking of the time when I was in Liuhetian.

Zhang Yuhe showed great power.

Immortal King Chaotian couldn't help but his eyes shone.

As long as Zhang Yuhe can come to support.

Then they can not only defend the fairy city.

Maybe we can wipe out all the invading Chaos Beast team.

Immortal King Yongning next to him asked again.

"Sect Master, what do Wanxian Sect and Daosheng Sect say?"

"Have they promised to come for support?"

Chaotian Immortal King said with a smile.

"Don't worry, Immortal King Wanshan will teleport over soon."

"The Galaxy Immortal King may be a little slower. He has to arrange the defense of Galaxy Immortal City before he comes."

"But there's still plenty of time, it's totally time."

"This time we will let those chaotic beasts steal the chicken but lose the rice."

"Hmph, I actually touched it quietly, near Chaotian Fairy City."

"I have to say, they are really brave."

"Yeah, I don't know which tribe's Chaos Beast it is this time, but it actually changed its tactics."

"In the past, when chaos beasts launched a beast wave, they always pushed them all the way."

"How could it be like this time that it would sneak deep into the hinterland."

"Thankfully, Chengqing found their whereabouts in advance."

"Otherwise, we're afraid we'll be in big trouble."

"Yes, our defense system still has some problems."

"After this incident passes, the layout of the peripheral fairy city should be adjusted."

"Try to provide perfect warning in all directions."

"Otherwise, we may not be so lucky next time."

Immortal King Yongning nodded.

It does take some adjusting.

The fairy city they built on the Chaos Continent.

Mainly relying on local resources.

As long as there are suitable resources, build an Acropolis or a royal fairy city.

Section 613

The original intention of building these peripheral immortal cities was to collect resources.

Rather than to protect Chaowang City.

Now it seems.

There are some unreasonable places in this layout.

Although those peripheral resources are very important.

But compared with Chaotian Immortal City.

It is completely insignificant.

If Chaotian Immortal City is breached by Chaos Beasts.

What is the point of keeping those peripheral immortal cities?

Sooner or later, they will be breached by Chaos Beasts.

They should focus on the Royal City.

Protecting Chaotian Immortal City is their first priority in the Chaos Continent.

...

Wanxian City.

Wanshan Immortal King stood quietly in the hall.

Just received an emergency request for help from Chaotian Immortal King.

Millions of Chaos Beasts have already forced their way to Chaotian Immortal City, less than half an hour away.

Among them, there are as many as sixty or seventy king-level Chaos Beasts.

Chaotian Immortal King hopes that he can go there to support as soon as possible.

For Chaotian Immortal King's request.

Immortal King Wanshan agreed without even thinking about it.

After the destruction of the Divine Beast Sect.

The major forces in the South Sea Immortal Domain are of the same blood.

It is natural to support each other.

It is just that the goal was not clear before.

No one knows which immortal city the Chaos Beast will attack.

No one dares to act rashly.

Now the Chaos Beast army has emerged.

What else can we say.

Of course, we should concentrate our forces and eliminate them in one wave.

As long as this batch of invading Chaos Beasts is eliminated.

Presumably, the war on the Chaos Continent should be almost over.

At least in the direction of the South Sea Immortal Domain.

Those Chaos Beast tribes should no longer have the strength to launch an attack on them.

In this way.

They can draw out their strength to support other surrounding immortal domains.

To be honest.

When they were in the South Sea Immortal Domain.

Immortal King Liuyue led the forces of various immortal domains to provide them with strong support.

However, in this war.

Although there has been no war in the South Sea Immortal Domain.

But they can't get away.

No matter how urgent the situation in other fairyland was.

They didn't dare to leave even half a step.

How dare they leave without severely damaging the surrounding Chaos Beast Tribe?

After a while.

Immortal King Chengping and Immortal King Xinghui hurried into the hall.

They both bowed and shouted in unison.

"Master."

Immortal King Wanshan waved his hand.

He spoke slowly.

"The Chaos Beast Army has already appeared and is heading towards Chaotian Fairy City."

"Xinghui will stay in the royal city, and Chengping will take people with me to support."

"Yes."

There are three Daluo Immortal Kings in Wanxianmen.

It is much easier to mobilize.

One person stays behind, and two people go to support.

There is no pressure at all.

Under the leadership of Immortal King Wanshan.

Wanxianmen quickly gathered, and the elite forces in the sect were teleported to Chaotian Fairy City through the teleportation array.

...

Galaxy Fairy City.

Zhang Yuhe stood quietly in the hall.

Regarding the request for help from Immortal King Chaotian.

He hesitated for a moment.

There was no way.

The overall strength of Daosheng Sect is indeed too weak.

Once he leaves.

This huge Galaxy Fairy City will have no one to guard.

Yu Liwei and Lu Yunfei, the two Taiyi Immortal Lords, are alone.

It is obviously not enough to deal with the current complex situation.

If there are Chaos Beasts, they come to attack.

Then they will be in big trouble.

Let alone a large team of Chaos Beasts.

Even if there are only one or two King-level Chaos Beasts.

Yu Liwei and Lu Yunfei can't deal with them.

But the problem is.

The information sent by Chaotian Fairy King is very clear.

In the direction of Chaotian Fairy City, a large army of Chaos Beasts has appeared.

And the number of King-level Chaos Beasts alone is as many as sixty or seventy.

According to the intelligence they obtained before.

There are only three level four tribes around.

All the King-level Chaos Beasts added together should be only about a hundred.

In other words.

The King Beasts that appeared in the direction of Chaotian Fairy City have accounted for half of the tribes.

The remaining King Beasts should stay in the tribe.

They will not be dispatched easily.

In other words.

All the king-level Chaos Beasts that can be dispatched have already shown their heads.

Galaxy Fairy City should be safe.

Despite this.

Zhang Yuhe was still a little worried.

He planned to make some arrangements for the defense of Galaxy Fairy City first.

Then he would teleport to Chaotian Fairy City.

Anyway, there was still plenty of time.

According to the information sent by Chaotian Fairy King.

Those Chaos Beast armies were still half an hour away from Chaotian Fairy City.

He still had enough time to make some arrangements.

...

Section 614

Chapter 465 Chaotian Fairy City

Zhang Yuhe stood quietly in the main hall.

After a while.

Yu Liwei and Lu Yunfei walked into the hall.

The two of them shouted in unison, holding their hands together.

"I've met the sect master."

Zhang Yuhe waved his hand.

He spoke slowly.

"There was news just now from the Immortal King Chaotian."

"They have discovered the traces of the Chaos Beast army, and they are less than half an hour away from Chaotian Fairy City."

"The Immortal King Chaotian requested me to come over immediately for support."

Hear this.

Lu Yunfei frowned slightly.

He really didn't understand.

How did the army of Chaos Beasts fight all the way to Chaotian Immortal City?

To know.

Chaotian Fairy City is located in the hinterland of the human race.

There are many immortal cities guarding the surrounding area.

Why has no one discovered it before?

Even if these chaotic beasts could fly, they couldn't fly to Chaotian Fairy City so quietly.

Isn't it a scam?

But I think about the recent period.

They deployed the cordon hundreds of millions of miles away.

But no trace of the Chaos Beast was found.

Originally everyone thought.

This time the Chaos Beast will definitely come towards the Galaxy Fairy City.

After all, Galaxy Fairy City has always been at the forefront.

But what people didn't expect was.

This time, the Chaos Beast actually took an unusual path.

He directly touched the vicinity of Chaotian Fairy City.

It was a bit unexpected.

Lu Yunfei breathed a sigh of relief again.

This shouldn't be false.

It is impossible for Chaotian Immortal King to joke about this kind of thing.

No matter what method the Chaos Beast army used, they reached the vicinity of Chaotian Immortal City.

But it is what it is.

But the problem now is.

If Zhang Yuhe leaves.

So what to do about Galaxy Fairy City?

Should we let the two of them guard it?

Zhang Yuhe is not here.

What if another army of Chaos Beasts appears and reaches the vicinity of Galaxy Fairy City?

The two of them can't hold on.

Think of this.

Lu Yunfei asked quickly.

"Sect Master, you agreed."

Zhang Yuhe nodded lightly.

"I've already agreed, and I'll teleport it later."

Yu Liwei next to her was also a little anxious.

she said immediately.

"Sect Master, the situation is complicated now. If you leave, what will happen to this Galaxy Fairy City?"

"With just the two of us, we definitely can't hold on."

Zhang Yuhe was also helpless.

But what can be done about this.

Chaotian Palace is in trouble.

He had to go to support.

The three superpowers of the South China Sea Immortal Territory, if they do not unite.

If he encounters a crisis in the future, who will help him?

It's just that Dao Sheng Sect's background is shallow.

Except for him.

He doesn't even have the fighting power of Da Luo.

Even Taiyi Immortal Lord, there are only two people, Yu Liwei and Lu Yunfei.

to be honest.

With their strength.

On the Chaos Continent, a king-level fairy city was established.

It is indeed a bit ahead of its time.

Although the king-level fairy city can produce a large amount of resources.

But Zhang Yuhe himself was tightly bound to the fairy city.

Once there is a war.

He can't leave easily.

It's really difficult.

But this time, he had to go out.

He had to respond to Chaotian Immortal King's call for help.

not to mention.

Zhang Yuhe also thought about it carefully.

The king beasts that may appear around have now basically emerged.

There should be no more large-scale chaos beasts appearing near the Galaxy Fairy City.

He only needs to be careful of those single king-level chaos beasts that may appear.

In fact, this matter is easy to handle.

Although Yu Liwei and Lu Yunfei would definitely not be able to defeat the king-level chaos beast.

Even if they rely on the immortal city's formation, they are no match.

But Zhang Yuhe still has a trump card.

He also has an Earth-level fairy ship.

Just leave the Galaxy Immortal Ship in Galaxy Immortal City.

Then even if you encounter a king-level chaos beast.

It can also be killed with one shot.

The minimum requirement for piloting an immortal ship is Immortal Lord Taiyi.

No matter what level of fairy ship it is, the requirements are the same.

And the fairy ship does not need to recognize its owner.

Can be loaned to others.

Think of this.

Zhang Yuhe turned his right hand.

A mini fairy ship appeared in his hand.

Zhang Yuhe handed the fairy ship to Lu Yunfei and said.

"This fairy ship is temporarily loaned to you for use."

"If you encounter a king-level chaos beast, just activate the chaos cannon on the fairy ship to kill it."

After saying this.

He took out another storage bracelet and handed it over.

"There are fifty king beast crystal nuclei here, ranging from one to nine colors."

"In case you encounter a king-level chaos beast, there is no need to save."

Section 615

"The nine-color king beast can also be killed by bombing."

Lu Yunfei took over the fairy ship and the storage bracelet, and his heart was full of shock.

This is a ground-level fairy ship.

Even the holy land where the Taoist ancestors sit can't produce a few.

Zhang Yuhe handed the fairy ship to him just like that.

How could he not be excited?

Lu Yunfei took a deep breath.

He said solemnly.

"Master, please rest assured that we can definitely defend the Galaxy Fairy City and wait for the master's triumphant return."

Zhang Yuhe nodded gently.

"Don't relax your vigilance and try to push the cordon forward."

"If you encounter an emergency, use the fairy mirror to contact in time."

"Yes, Master."

After arranging things.

Zhang Yuhe immediately teleported directly to Chaotian Fairy City through the teleportation array.

As early as the beginning of the establishment of the Galaxy Fairy City.

He connected the teleportation array with Wanxian City and Chaotian.

Only the teleportation connection of Tianxing City has not been completed yet.

Originally, after the war in the South Sea Fairyland was over.

Immortal King Liuyue agreed and arranged for someone to come and deal with the matter.

But soon after, the various immortal realms were caught in a war with the Chaos Beast.

Tianxing Holy Land did not send anyone for a while.

But this matter is not urgent.

If he wants to go to Tianxing City.

He can also go through the teleportation array of Wanxian City.

...

Chaotian Immortal City, teleportation hall.

With a dazzling light flashing.

Zhang Yuhe's figure appeared on the array platform.

Immortal King Yongning, who was waiting next to him, immediately stepped forward.

He said excitedly.

"Master Zhang, you are finally here."

"Please follow me."

Zhang Yuhe smiled and nodded.

Being treated so politely by an immortal king.

If it were in the past.

He would probably find it difficult to adapt.

But now he is used to it.

With his current reputation.

No matter where he goes, he will be respected.

Even those old immortal kings.

In front of him, they will only speak politely.

No one would put on airs of a senior in front of him.

Who made his record so scary?

Zhang Yuhe followed the Immortal King Yongning and flew quickly all the way.

Soon they arrived at the eastern city wall.

Seeing Zhang Yuhe coming.

Immortal King Chaotian immediately came up to him and said politely to Zhang Yuhe.

"Master Zhang, thank you for coming to support me in this critical moment."

Zhang Yuhe said with a smile.

"It's my duty."

"I hope that after repelling this wave of Chaos Beasts, Chaos Continent will be able to calm down for a while."

To be honest.

Since he broke through to Taiyi Immortal.

There have been constant wars.

This left him no time to practice with peace of mind.

He really hoped.

To be able to resolve the matter as soon as possible.

Then practice quietly for a while.

To be honest.

Although his current strength is not bad.

Under Daozu, he is not completely invincible.

But it is almost the same.

But the problem is.

In this fairy world.

There are indeed quite a few Daozu-level powers.

There are nearly fifty Daozu emperors on the cultivator side.

This is even more true for the Chaos Beasts.

The twelve tribes' venerable Chaos Beasts, combined, are probably several hundred.

There is no peak power.

This makes Zhang Yuhe feel completely insecure.

He really wants to quietly practice in seclusion for hundreds or tens of millions of years.

After being promoted to Daluoxian.

In this fairyland.

Only then can he be said to be truly free and unrestrained.

...

Chapter 466: Manlitian: History will surely remember this moment

After everyone greeted each other politely.

Zhang Yuhe stood on the city wall and looked intently at the wilderness in the distance.

There was a solemn and murderous look outside the city, but there was no movement for the time being.

He turned around and asked the Immortal King Chaotian.

"Immortal King, how long will it take for the Chaos Beast Army to arrive here?"

"They won't take a detour and go to other places, right?"

The Immortal King Chaotian responded with a smile.

"No, I have asked my disciples to place a large number of surveillance flags along the way."

"Every move of the Chaos Beast Army is completely under our control."

"It is estimated that in half a quarter of an hour at most, we can feel the momentum of the Chaos Beast Army."

Zhang Yuhe nodded gently.

He looked back at the surroundings.

Seeing that except for the Immortal King Chaotian and the Immortal King Yongning, they were still standing in the same place.

The Immortal King Wanshan and the Immortal King Xinghui had disappeared into the void.

He smiled slightly.

Then he took out a golden talisman.

He flicked it casually.

Zhang Yuhe's whole figure slowly disappeared on the city wall.

Slowly merged into the void.

Since the goal of the Chaos Beast Army has been clarified.

Then they just need to wait here quietly.

Of course.

Section 616

They couldn't just stand on the wall like that.

Otherwise.

Those Chaos Beasts, seeing that Xiantian Fairy City had more support,

might turn around and run away.

This was not the result that everyone wanted to see.

In fact.

They had already discussed it.

They had to take advantage of this opportunity to accomplish their goal in one fell swoop.

Not to mention wiping out all the Chaos Beasts.

At least they had to severely damage this Chaos Beast team.

To achieve this step.

Of course, it would be best to attract the Chaos Beasts to the Fairy City.

With the blessing of the Fairy City's formation.

Everyone's strength could be increased by 20%.

In this way, when the fight started, everyone would be more relaxed.

At the celebration of the Galaxy Fairy City.

After seeing the Galaxy Pulling Star Formation arranged by Zhang Yuhe.

The Immortal King Chaotian also spent a lot of money to get the formation method from Zhang Yuhe.

Today's Chaotian Fairy City also arranged the Galaxy Pulling Star Formation.

This city defense formation designed by Zhang Yuhe.

Not only does it have strong defensive capabilities, but it can also increase the strength of the monks in the city by more than 20%.

Compared with the common Liangyi Microdust Formation used by monks in the Chaos Continent before.

The blessing effect has been more than doubled.

However, if they want to enjoy the blessing effect of the formation.

They have to circle the battlefield near the Immortal City.

Once they are far away from the Immortal City, they will be out of the coverage of the formation.

So they have to hide first.

Those Chaos Beasts were able to sneak all the way here.

Obviously, they are also very cautious.

If they stand on the city wall in a swagger.

Maybe after seeing them.

Those Chaos Beasts will turn around and run away.

Zhang Yuhe doesn't want to chase and kill them all over the wilderness.

That would be too troublesome.

As long as the Chaos Beasts arrive near the Immortal City.

He can take advantage of the situation to unfold the sword formation and circle them all in.

And there is the blessing of the Immortal City formation.

The power of the sword formation will definitely be much stronger than usual.

Now the Hunyuan Guiyi magical power is still cooling down.

Zhang Yuhe lacks explosive power.

The blessing of the Immortal City formation is very important to him.

Otherwise.

Facing sixty or seventy king-level chaos beasts, and nine-color king beasts.

It is really a bit difficult to deal with.

After all, among their group of people.

Only the Wanshan Immortal King is strong enough.

There is no problem at all to fight a few king-level chaos beasts alone.

Even if it is a nine-color king beast, the Wanshan Immortal King can also beat it to death.

But the others are not so good.

Even under the suppression of the sword formation.

Other Daluo Immortal Kings can probably only contain one or two king-level chaos beasts.

So.

If you want to severely damage this chaos beast team.

The key depends on how strong his sword formation is.

Manli Tian led the huge chaos beast team and ran fast all the way.

They crossed the mountains and rivers, gradually approaching the Chaotian Immortal City.

At this time.

A nine-star chaos beast came running from a distance.

This was the outpost it sent out to explore the way.

Seeing people coming back.

Man Tianli asked hurriedly.

"What's the situation ahead? Has Chaotian Immortal City taken precautions?"

"Have you found any support from other immortal cities?"

The nine-star chaos beast responded excitedly.

"Reporting to the high priest, there is no movement in Chaotian Immortal City."

"They haven't even opened the formation yet."

Hearing this.

Man Li Tian finally breathed a sigh of relief.

They came all the way quietly.

They were worried that the cultivators of the South Sea Immortal Realm would discover their whereabouts in advance.

In that case.

They might face the siege of all the cultivators of the South Sea Immortal Realm.

Now it seems that there is no.

Everything is going according to its plan.

Chaotian Immortal City has no defense.

Naturally, it is impossible to ask for help from the surrounding immortal cities.

When they run to the vicinity of the immortal city.

Even if Chaotian Palace wants to ask for help from other immortal cities, it will be too late.

The collision of king-level power can easily shake the void.

As long as the fight starts.

The teleportation array in the immortal city can no longer be used.

Without the teleportation array.

No matter how hard Chaotian Palace tries to ask for help, it will be in vain.

The Chaos Continent is vast and boundless.

If it were not connected by the teleportation array.

It would be impossible for human cultivators to defend so many immortal cities.

Since Chaotian Immortal City is not on guard and no support has arrived.

Then they don't have to worry about anything.

Manlitian took a deep breath.

It looked around and then roared.

"Let's charge together, break into Chaotian Immortal City, and transport the sacrifice back to the tribe."

"This will be the first king-level immortal city that our Manlishan tribe has conquered."

"History will remember this moment."

"For the tribe, charge."

Roar...

Millions of Chaos Beasts roared in unison, the sound shook the world and resounded through the clouds.

The vast army of Chaos Beasts rushed out from the wilderness.

He headed straight for Chaotian Immortal City in the distance.

Zhang Yuhe disappeared into the void.

He looked up at the distance.

Section 617

All kinds of violent and chaotic auras were seen rising up in the wilderness in the distance.

The terrible momentum swept across the sky and earth.

Even the clouds in the sky were shattered.

Seeing this situation.

Zhang Yuhe muttered to himself.

"Finally here."

"I hope the battle can be resolved as soon as possible."

Immortal King Chaotian stood on the city wall, and Immortal King Yongning stood silently behind him.

The city was full of streamers.

Whether it was the disciples of Chaotian Palace or the casual cultivators in the city.

They were quickly organized and rushed to various defensive positions on the city wall.

Facing the Chaos Beast attacking the city.

All the cultivators in the city have the responsibility and obligation to defend.

Because this is closely related to their own lives.

If the Immortal City is broken by the Chaos Beast.

Then no one should think of running away.

So.

There is no need to mobilize Chaotian Palace at all.

Everyone will do their best to help defend the city.

Besides.

For ordinary cultivators in the city.

Chaotian Palace is a tree that supports the sky.

Even if facing the Chaos Beasts attacking the city.

Everyone will not be too worried.

There is Chaotian Palace in the front.

They just need to follow behind and make soy sauce.

...

Chapter 467 Even if it is a mountain of swords, it must be flattened

Seeing the huge army of Chaos Beasts in the distance, rushing out of the wilderness.

Chaotian Xiantian looked indifferent.

If it were before, he might still be a little panicked.

But now, obviously not.

There are Yinhe Xianjun and Wanshan Xianwang, two top combat forces, hiding next to him.

Will he still be afraid of this group of Chaos Beasts?

Especially Zhang Yuhe's sword formation, which gave him enough confidence.

When he was in Liuhetian.

After Zhang Yuhe burst out with all his strength.

The unfolded sword formation can suppress thousands of king-level Chaos Beasts.

Even the eight-color king beasts can be imprisoned in place, unable to move at all.

Even Zhang Yuhe's burst of magical power can no longer be used now.

Those high-level king beasts may not be imprisoned.

But the suppression power of the sword formation will still exist.

Even the nine-color king beasts have to divide their energy to deal with the suppression of the sword formation.

This is enough for them.

There are now four Daluo Immortal Kings in Chaotian Immortal City.

If the Galaxy Immortal Lord is counted, there are five.

Although there are as many as sixty or seventy king-level chaos beasts on the opposite side.

But the king beasts below three colors can basically be ignored.

There will not be too many remaining king-level chaos beasts.

They can definitely beat them.

Seeing the chaos beasts in the distance getting closer and closer.

Chaotian Immortal King took a deep breath.

He saw him quickly pinching the magic formula.

A faint light curtain slowly rose above the fairy city.

Dots of starlight flashed from the void.

It fell on the cultivators in the city.

Everyone was shocked.

The momentum on their bodies was comprehensively improved.

This is the effect of the Galaxy Pulling Star Array.

It can improve the strength of cultivators by more than 20%.

Don't underestimate this 20% improvement.

In many cases.

Just a little difference can reverse the situation.

In the entire Immortal City, all the cultivators have increased their strength by 20%.

It is definitely not as simple as just increasing the combat power by 20%.

This is a qualitative change.

Why can cultivators in the Chaos Continent always defeat the strong with the weak.

Repel wave after wave of beast tides.

It depends on the blessing of the Immortal City formation.

Manlitian rushed out of the wilderness.

Looking at the magnificent Immortal City in front of him.

He said to himself with a cold expression.

"From now on, there will be no Chaotian Immortal City on this Chaos Continent."

Manlitian looked around and roared.

"Kill."

"Roar..."

The chaos beast team in the sky crossed the mountains and crossed the land.

They rushed towards the Immortal City quickly.

Because Chaotian Immortal City is extremely vast, it is hundreds of millions of miles in radius.

Each wall is tens of millions of miles long.

Although the number of Chaos Beasts is indeed quite large.

But relying on more than 4 million Chaos Beasts.

Of course, they can't disperse to the four walls to besiege.

Manli Tian didn't think about dispersing their strength.

Anyway, in the opposite fairy city.

There are only two Daluo Immortal Kings, and they are right in front of them.

Their three major tribes united together.

There are a total of 68 King-level Chaos Beasts.

A complete crushing game.

Is there any need for routines?

Isn't it enough to just push it down in one wave?

Under the leadership of Manli Tian.

Millions of Chaos Beasts rushed towards the fairy city.

After a while.

They entered the coverage of the fairy city formation.

But Manli Tian didn't care too much.

The formation of the cultivator is so annoying.

But it doesn't matter.

In the case of overwhelming strength.

Section 618

No matter how powerful the fairy city's formation is.

That's no use either.

Zhang Yuhe is hiding in the void.

Looking at the chaos beasts in the sky, they are getting closer and closer.

He was in no hurry to take action.

Just wait quietly.

I want to deal with these chaos beast armies in one wave.

Just have to be patient.

After a while.

The army of Chaos Beasts gradually approached the city wall.

Boom...

The immortal cannons located on the city wall fired almost simultaneously.

The blazing light rushed straight towards the army of Chaos Beasts in the distance.

The monks standing on the city wall also deployed their magical powers and immortal weapons.

It moved towards the army of Chaos Beasts in the distance, covering it.

But seeing the terrifying momentum of the Chaos Beast army.

Everyone was a little panicked.

Originally they thought.

There is Chaotian Palace in front.

All you need to do is follow along with the soy sauce.

Now it seems.

That doesn't seem to be the case.

The army of Chaos Beasts that raided this time was much stronger than imagined.

Especially among the Chaos Beasts.

There are dozens of extremely terrifying forces.

"Zhou Cao, aren't those all king-level chaos beasts?"

"Mom, why are there so many king-level chaos beasts here?"

"Isn't this one going to get cold?"

"Don't panic, look at Chaotian Immortal King, he doesn't panic at all."

"We are here to panic."

"That's right."

The monks on the city wall all looked at the Immortal King Chaotian in the distance.

I saw the Immortal King Chaotian still standing quietly on the city wall.

Looking at the army of Chaos Beasts coming from the sky.

He didn't even make a move.

Just watch quietly.

Seeing the Immortal King Chaotian, he was so calm.

Everyone felt relieved.

Chaotian Immortal King didn't panic.

Why are they still panicking?

It's obvious.

Chaotian Immortal King must have a powerful trump card in his hand.

That's why I didn't take these armies of chaos beasts seriously.

As for what the trump card is, no one cares too much.

The level of Daluo Immortal King is too high.

Not that they can imagine.

For the monks on the city wall.

Everyone just wanted to follow Chaotian Palace and have a sip of soup under the premise of safety.

There are so many chaos beasts on the scene.

If you can take the opportunity to kill one or two.

That was also a small fortune.

Brute Force ran all the way.

Facing the city wall, no matter it is the firepower of the immortal cannon or the monks.

It didn't care at all.

These little gadgets.

For ordinary chaos beasts, there may be some pressure.

But for a powerful king-level chaos beast like it.

Not even qualified to scratch an itch.

Brute Litian ran wildly while staring at the Immortal King Chaotian on the city wall.

At this time, it still felt a little strange in its heart.

Follow the previous routine.

This will attack the Immortal King. Shouldn't he jump out of the city wall and intercept them?

Could it be that Chaotian Immortal King is not afraid of them directly breaking through the city wall.

Go directly to the fairy city?

Could it be that there is some ambush hidden in this Chaotian Immortal City?

Think of this.

Brute force day was slightly flustered.

But it quickly calmed down.

Even if Chaotian Palace has a deep foundation.

But there are only those methods that can deal with the king beast.

They have so many king beasts.

Are you still afraid of the Chaotian Immortal King and what kind of evil tricks will fail?

And they were almost there, rushing under the city wall.

Even if you want to retreat now, you can no longer retreat.

For brute force days.

Now there is only one way in front of it.

That is to flatten Chaotian Fairy City.

Even if there is a mountain of swords ahead.

They will also level it.

Just at this time.

Nine streams of light suddenly flew out of the void and quickly fell into the distance.

A huge sword energy light curtain slowly rose around it.

Zhang Yuhe's figure slowly appeared in the void.

Brute Litian, who was running wildly, seemed to have seen a ghost.

It screamed in terror.

"Galaxy Immortal Lord, why are you here?"

...

Chapter 468 All ambitions come to nothing

Seeing Zhang Yuhe suddenly appear, Man Litian's mood instantly hit rock bottom.

It really can't figure it out.

Why does Zhang Yuhe appear here.

Didn't they stay secretive along the way?

When did the monks in the South China Sea Immortal Realm discover their whereabouts?

Yes.

Until now.

The brute force genius reacted.

Their so-called secret advance is a joke at this time.

The monks in the South China Sea Immortal Domain must have discovered them long ago.

Otherwise.

Section 619

How could the Galaxy Immortal Lord, the person who should least be here, appear here?

Thinking of the great reputation that the Galaxy Immortal Lord has gained in the South China Sea Immortal Domain.

Brute Force couldn't help but shuddered.

Thousands of king-level chaos beasts on Helan Mountain were all wiped out by Zhang Yuhe.

And there are only sixty or seventy king beasts here.

I'm afraid it's not enough for Galaxy Immortal Lord, just sweep it in a few rounds.

no.

They must retreat immediately.

Nearly half of the top combat power of the Brutal Mountain Tribe was brought out by it.

If all losses are here.

Then their entire tribe will inevitably fall into decline soon.

Think of this.

Brutal Force roared again.

"Quick, everyone retreat, disperse and retreat."

It dares not think of anything now.

Original ambition.

The moment Zhang Yuhe appeared, he completely disappeared.

Now Brute Litian only thinks about how to bring everyone back.

Even if we can't all go back.

Even if you only bring back a small part, that would be good.

But obviously.

It is overthinking.

Zhang Yuhe stands tall above the city wall.

Follow the magic formula and pinch it quickly.

The invisible sword energy fills the sky, crossing the sky and the earth.

Facing the Nine Heavens Hunyuan Sword Formation, that terrifying divine power.

The army of millions of Chaos Beasts could barely hold back even half a breath.

All of them were swept away by the dense sword energy.

Except for a small number of nine-star chaos beasts, there were only the sixty-odd king beasts.

He could still stand upright with great difficulty, carrying the power of the sword energy.

But those nine-star chaos beasts obviously can't hold it for long.

With the blessing of the fairy city formation.

Zhang Yuhe's strength directly increased by 20%.

It is enough to directly wipe out the Nine-Star Chaos Beast.

As for those king-level chaos beasts, they weren't much better.

The king beasts below three colors were directly imprisoned in place, completely unable to move.

Those king beasts with four to six colors are in a slightly better situation.

They waved the accompanying weapons in their hands and struggled to block the invasion of the sword energy.

He can barely do it and walk freely in the sword formation.

It's just that the speed of action is countless times slower than normal.

The situation for king beasts with more than seven colors is much better.

Although the erosion of the sword energy will also bring great pressure to them.

But after all, their strength is there.

The powerful Nine Heavens Hunyuan Sword Formation does not have a great impact on them.

Unfortunately.

The three major tribal teams led by Man Litian only had three king beasts of seven or more colors in total.

Unlike the Helan Mountain tribe, they have many top-level combat powers.

Except for Brute Force himself.

There are only one seven-color king beast and one eight-color king beast.

Relying on these three high-level king beasts alone is obviously not enough to change the situation of the battle.

On the city wall, countless monks were completely shocked when they saw this scene.

"Zhou Cao, who is this boss? He is so fierce."

"Are you not a fool? Don't you even know about Galaxy Immortal Lord?"

"Is this the Galaxy Immortal Lord? He is indeed extremely powerful."

"Hasn't he just been promoted to Taiyi Immortal Lord not long ago? How can he be so fierce?"

"I heard that the Galaxy Immortal Lord has understood the Supreme Law, that's why he is so strong."

"It's impossible. There were Supreme Prodigies in the Immortal Realm before, but they weren't this strong."

"Indeed, with the power of Taiyi Immortal in the early stage, he can actually suppress so many king-level chaos beasts."

"And by the way, millions of Chaos Beasts were wiped out."

"It's so powerful."

"It's over, it's over."

"Originally, I wanted to catch some leaks while I was defending the city."

"Now all those chaos beasts have been killed by the Galaxy Immortal Lord alone."

"We want to make soy sauce, but we have no goal."

"Don't worry, aren't all those king beasts dead yet?"

"You can go fuck such a king beast, hehe."

"Zhuo, I don't want to die yet."

...

Brute Litian watched helplessly as the Chaos Beasts around him were wiped out in an instant.

It felt like ashes in its heart.

These elite forces from the tribe did not even last for a second.

They were all wiped out by Zhang Yuhe.

Only the king-level chaos beasts were left on the scene, still struggling hard.

"No, these king beasts must be brought back."

"If all these king beasts die here."

"Then the Brutal Mountain Tribe will definitely never get ahead again."

Think of this.

Brute Force roared loudly.

"Follow me and break this damn sword formation."

Brute Force brought the remaining king-level chaos beasts that were still active.

Quickly run towards the edge of the light curtain in the distance.

"Humph, dying struggle."

When Zhang Yuhe unfolded the sword formation.

The Immortal King of Wanshan emerged from the void.

He waved his heavy hammers, stared at Brute Force, and ran straight away.

Although there were indeed quite a few king-level chaos beasts present.

But the level of most king beasts is not high.

They were all suppressed by Zhang Yuhe's sword array and unable to move.

Only a few king beasts can still maintain normal actions.

Now they just need to drag these king beasts down and kill them.

Then this war will be a perfect end.

Wanshan Immortal King waved his double hammers and rushed directly into the sword formation.

The hammer shadows in the sky instantly surrounded Manli Tian.

Among all the king-level chaos beasts on the scene, Manli Tian was the strongest.

Of course, the Immortal King Wanshan would pick the strongest king beast to fight.

The Immortal King Chaotian looked at the magnificent sword formation in front of him.

He couldn't help but marvel in his heart.

Although in the battle in the South Sea Immortal Realm.

He had seen Zhang Yuhe many times and released the Nine Heavens Hunyuan Sword Formation.

But when he saw the terrifying power of this sword formation again.

Section 620

It's still incredible.

What kind of magical power is this that can have such terrifying power?

How powerful is it to be able to control such terrifying magical powers?

He shook his head towards the sky to clear the messy thoughts in his mind.

He turned back and said to Immortal King Yongning beside him.

"Let's go ahead and deal with these Chaos Beasts as soon as possible."

After saying this.

The Immortal King faced the sky and waved a long black stick.

Pounce on the eight-color king beast.

under normal circumstances.

He definitely couldn't defeat the eight-color king-level chaos beast.

He is only in the middle stage of Daluo Immortal.

He doesn't even want to touch the king beasts with more than seven colors.

If encountered in the wilderness, he would definitely turn around and run away.

But under the suppression of the sword formation.

The eight-color king-level chaos beast and Chaotian Immortal King can also come across it.

Even if he can't be killed, he can still be held back.

Wait until Immortal King Wanshan frees up his hands.

You can slowly deal with these king beasts one by one.

Immortal King Yongning and Immortal King Xinghui followed closely behind.

The three of them each pounced on a king beast.

The king-level chaos beasts that were still active at the scene were quickly restrained by all the immortal kings.

The remaining king-level chaos beasts.

He could only struggle to death in the sword formation.

As time passes slowly.

They will inevitably be attacked by those terrifying invisible sword energies.

All wiped out.

...

Chapter 469 Prey caught in a trap

Zhang Yuhe stood in mid-air.

Looking at the king-level chaos beasts in front of them, they have all been restrained.

He quickly used the magic formula.

Control the sword array to slowly reduce the range.

The invisible sword energy became more and more dense.

The terrifying power of the sword formation, suppressing those king beasts, became increasingly powerful.

Even those six-color king beasts could still struggle for a while.

At this time, he was also suppressed by the sword formation, and it was basically difficult to move.

See this situation.

Zhang Yuhe muttered to himself.

"It should be almost done."

"Let's deal with these chaos beasts first."

I saw him stretching out his right hand.

A long golden stick appeared in his hand.

Zhang Yuhe picked up his long stick and headed straight for Brute Force.

The other king beasts will be put aside for now.

Let's deal with the strongest one first.

The Wanshan Immortal King's hammers vibrated.

With one hammer, Brute Force was knocked back.

But before he could wait for it, he took a breath.

The golden stick shadow filled the sky and enveloped it in an instant.

Boom...

The golden stick shadow carried terrifying power and directly bombarded Brute Force's head.

"Ahhhh..."

The spear in Brute Litian's hand almost came out.

It quickly took a few steps back and took a deep breath.

Only then did the terrible pain gradually ease.

Zhang Yuhe integrated all the power of the nine supreme laws into the stick shadow.

The Divine Soul Law carries terrifying power and strikes directly into the depths of Brute Force Sky's soul sea.

Almost beating its soul to pieces.

The terrible pain was completely speechless.

Brute Force stood up brandishing his gun.

It stared at Zhang Yuhe coldly.

If we really want to talk about strength.

Zhang Yuhe is far inferior to the Immortal King of Wanshan.

But Zhang Yuhe's power of law is really weird.

That kind of direct soul pain is simply unbearable.

Brute Force was suspicious.

Even if it won't be killed.

He will also be driven crazy by the endless soul pain.

"Immortal Lord Galaxy must be dealt with first."

"Otherwise, I'm afraid I won't be able to hold on for long."

Brute Force stared at Zhang Yuhe coldly, silently making up his mind.

"kill."

It roared.

Waving the spear in his hand, he ran straight towards Zhang Yuhe.

The spear shattered the void and was in front of Zhang Yuhe in an instant.

However.

Just at this moment.

Zhang Yuhe's figure suddenly disappeared.

Blessed by the Galaxy Wandering Dragon Body Technique.

For a character like Brute Litian, don't even think about getting a piece of his clothes.

Just at this time.

Immortal King Wanshan swung his hammers and attacked again.

follow closely.

The golden stick shadows all over the sky shrouded down towards Mantian at the same time.

The two of them worked together in perfect harmony.

The Wanshan Immortal King braved the brute force and attacked head-on.

Zhang Yuhe moved quickly.

He kept smashing the golden stick shadow onto Brute Force's head.

Facing the two of them, they were attacked like a violent storm.

Gradually, Brute Force couldn't hold on any longer.

Wanshan Immortal King's heavy hammers shattered its bones.

What's even scarier is.

Zhang Yuhe's stick shadow carries a terrifying divine power.

It messed up its soul consciousness sea.

It simply couldn't deal with the two attacks at all.

As for the dense sword energy around it, it didn't want to pay attention to it anymore.

Although these invisible sword energy will also bring it a lot of trouble.

But compared to the direct attack by the two people.
