Section 621

The damage caused by sword energy is simply not worth mentioning.

Brute force day waved the spear in his hand, tired of dealing with various attacks.

While sweeping his gaze across the surrounding battlefield.

At this time, its heart was completely desolate.

There were originally sixty or seventy king-level chaos beasts.

Now there are only less than twenty left.

As for the other king-level chaos beasts.

Already under the sweep of the sword energy, he fell down silently.

Brute Force roared loudly.

"Is this God trying to kill me?"

"Ahhhh..."

Faced with the violent attacks of the two men.

It has absolutely no chance of escaping.

not to mention.

The terrifying sword array on the periphery is still in continuous operation.

Zhang Yuhe looked indifferent.

He waved the long stick in his hand again and swung it down towards the Brutal Sky.

The shadows of sticks all over the sky kept falling on Brute Force's head.

Because this time there was no blessing from Hunyuan Guiyi's magical power.

The attack power that Zhang Yuhe can exert is much lower.

It is indeed not that easy to kill the Nine Color King Beast.

If he hadn't integrated the nine supreme laws into the stick shadow.

In a battle of this level, he is a bit unable to intervene.

But it doesn't matter.

Wanshan Immortal King is the main attacker, and he can just cooperate from the side.

No matter how strong the brute force is.

They can also grind to death.

In fact.

There is the Immortal King of Ten Thousand Mountains.

As long as Brute Force can be trapped.

He can kill him alone.

It's just that it takes a little more time.

Zhang Yuhe was there to assist.

This time will be greatly shortened.

Under the violent attack of the two of them.

Brute Force Sky's aura gradually became weaker and weaker.

Time passed slowly.

Many dents have appeared on Brute Litian's body.

Bright red blood kept spurting out.

It knows.

My life is coming to an end.

Brute Force looked back into the distance.

Looking towards the Brute Mountain Tribe.

It really wants to return to its own tribe.

Unfortunately.

It never had a chance again.

If he was given another chance to choose.

It would definitely not take the risk to raid Chaotian Fairy City like this.

It is too underestimated, the methods of human monks.

No matter how secretive their actions are.

Human monks always have a way to find them.

Originally, he thought he was a sneak attack hunter.

In the end, he became the prey of a trap.

Compared with human monks.

Its little tricks are really a bit unappealing.

If you give him another chance.

It will definitely cause all the Chaos Beasts to directly launch a frontal attack.

Instead of doing this kind of sneaky little trick.

Talking about sneak attacks.

This is really not the field that Chaos Beast is good at.

Just at this time.

Wanshan Immortal King's heavy hammers came down again.

bump.....

Brute forcetian vomited blood and retreated for hundreds of miles.

The golden stick shadow filled the sky and immediately enveloped it.

Boom...

The golden stick shadow carries an inexplicable power.

Hit the top of its head again.

Brute Litian's figure shook a few times.

Then he collapsed to the ground.

This powerful nine-color king beast is the high priest of the Brute Mountain Tribe.

He threw himself into the street unwillingly and left.

Zhang Yuhe waved his right hand and put away the corpse on the ground.

Then he quickly flashed his figure and pounced towards the other king beast.

Under the suppression of the sword array.

Zhang Yuhe and the four Daluo Immortal Kings slowly knocked down the king beasts one by one.

Time passed slowly.

As the last seven-color king beast fell to the ground, he threw himself into the street.

The army of Chaos Beasts that raided Chaotian Immortal City this time was completely destroyed.

Zhang Yuhe waved his right hand.

The nine fairy swords quickly flew back and fell into his sleeves.

Everyone looked at each other and couldn't help laughing.

This time they completely relied on the strength of the South China Sea Immortal Territory.

Just annihilate this powerful team of Chaos Beasts.

This is definitely something to be proud of.

Perhaps this is the battle for the rise of the South China Sea Immortal Realm.

From now on.

No more Chaos Beasts would dare to easily invade the territory of the South China Sea Immortal Territory.

...

Chapter 470 No!

A terrifying beast wave targeting Chaotian Fairy City.

It ended hastily before it even started.

All the chaotic beasts that came in surprise were wiped out.

A huge army of Chaos Beasts, millions of Chaos Beasts.

In the end, not even one of them managed to escape.

They all fell in the wilderness outside the fairy city.

Countless monks gathered on the east wall of the Immortal City, watching this shocking scene.

They saw the terrifying aura of the king-level chaos beast.

I also saw the shocking power of Daluo Immortal King.

Section 622

The most shocking thing is.

Everyone has seen Zhang Yuhe's terrifying power.

Although legendary.

The Galaxy Immortal Lord is in the battle in the South China Sea Immortal Domain.

Overwhelm thousands of king-level chaos beasts and sweep through an army of tens of millions of chaos beasts.

But legends are just legends after all.

Someone who has truly seen with his own eyes Zhang Yuhe's divine power.

Among the people present, except for a few Daluo Immortal Kings.

There are really not many people.

Today they saw it with their own eyes, the myth unfolding before their eyes.

Zhang Yuhe used the power of the early Taiyi Immortal to sweep through an army of millions of Chaos Beasts.

Moreover, dozens of king-level chaos beasts were suppressed and imprisoned.

Then beat them to death one by one.

This scene really shocked everyone.

At this time, the city wall of the fairy city.

There are indeed many Taiyi Immortal Lords.

There are even many people whose cultivation level is higher than Zhang Yuhe's.

However.

When they encountered the king-level chaos beast.

There wasn't even a chance to escape.

Compare this.

It can be seen how strong Zhang Yuhe is.

Looking at the tall figure outside the city.

Everyone present was filled with awe and yearning.

If one day.

It would be great if they could also have such great strength.

...

After cleaning up the battlefield.

Zhang Yuhe and others soon arrived at the main hall in the center of the fairy city.

Chaotian Immortal King raised his hands and said to Zhang Yuhe and Wanshan Immortal King.

"Thank you both for coming to help."

"Otherwise, the consequences will be disastrous."

Now Chaotian Immortal King is still a little scared in his heart.

If it weren't for Li Chengqing, he would have discovered the whereabouts of the Chaos Beast army in advance.

If it weren't for Zhang Yuhe and Wanshan Immortal King, they would have rushed over in time to provide support.

Then this magnificent fairy city may have turned into a dead place.

Facing the sudden army of chaos beasts.

Relying on the strength of their Chaotian Palace.

It is absolutely unstoppable.

They may not even have a chance to escape.

Maybe now.

They must have been kidnapped by the Chaos Beasts as sacrifices.

Think of this.

Chaotian Immortal King couldn't help but feel a little scared.

Zhang Yuhe said with a smile.

"You don't have to be polite, Immortal King."

"We are all in the South China Sea Immortal Realm, so it is appropriate to support each other."

Immortal King Wanshan also echoed.

"Yes, we are the only ones in the South China Sea Immortal Territory."

"If we don't support each other, how can we fight against the powerful Chaos Beast."

After everyone was polite, they sat down in the hall.

Tea was served to the disciples of Chaotian Palace.

Zhang Yuhe picked up the tea cup and took a gentle sip.

He asked with some confusion.

"Seniors, do you know which tribes the Chaos Beasts that raided this time come from?"

He is really strange.

Where did these chaotic beasts come from?

Although Chaos Beasts can also be identified from their accompanying weapons and appearance.

But Zhang Yuhe didn't know him.

to be honest.

There are indeed many Chaos Beasts who have fought against him.

But those chaos beasts were all killed by him.

Suddenly there appeared such a large group of Chaos Beasts.

If you don't know exactly where it comes from.

I'm afraid there will be some trouble in the future.

Immortal King Wanshan said with a smile.

"I have seen most of these king beasts that appeared today before."

"Mainly from the Brutal Mountain Tribe, that nine-color king beast is the high priest of the Brutal Mountain Tribe."

"There are also some king beasts, which should come from the Luoyan Mountain and Qiuyueling tribes."

Chao Tianxian King nodded gently.

"That's right, I looked carefully and found that those king-level chaos beasts are indeed from these three tribes."

Hear this.

Zhang Yuhe couldn't help but frown slightly.

These three tribes are so far away from Chaotian Fairy City.

It can actually launch a surprise attack.

It seems that he still underestimated the determination of the Chaos Beast.

These chaotic beasts bypassed the Galaxy Fairy City from Brute Force Mountain.

It would probably take several years to rush all the way to Chaotian Immortal City, right?

That is to say.

As early as a few years ago.

This army of Chaos Beasts is already in action.

Thinking of the Manshanli tribe, it is even closer to Galaxy City.

Zhang Yuhe couldn't help but feel worried.

Although this time, they wiped out the invading Chaos Beast army.

Not even a single Chaos Beast was allowed to escape.

But the Brute Mountain Tribe is powerful.

Even after this severe injury.

There are still dozens of king-level chaos beasts left in the tribe.

This is a very powerful force.

And it's also obviously aggressive.

They can attack Chaotian Fairy City over long distances.

It is also possible that they will raid the Galaxy Fairy City.

Keep a force of such powerful enemies near the Galaxy Fairy City.

It's really unsafe.

Zhang Yuhe originally thought that.

The Brute Force Mountain Tribe is a long way from the Galaxy Fairy City.

Both parties should be at peace with each other.

It's hard to say now.

Even the Chaotian Fairy City, which is further away, the Brute Mountain Tribe dares to make plans.

Then it would be more possible for them to plan for the Galaxy Fairy City.

Section 623

"Why don't we just take this opportunity to wipe out the Manlishan tribe?"

Facing the possible threat.

Zhang Yuhe's idea is very simple.

That is to solve the threat in advance.

Anyway, they are strong enough now.

If Wanxianmen and Chaotian Palace also act together.

Even if the Hunyuan Guiyi magical power is still cooling down.

They can still wipe out the Manlishan tribe.

Thinking of this.

Zhang Yuhe said to Wanshan Immortal King.

"Since the Manlishan tribe is so rampant, why don't we just wipe them out."

"No."

Wanshan Immortal King waved his hands repeatedly.

He said solemnly.

"Level 4 tribes are very important pillars of the Chaos Beasts."

"It's not that easy for us to wipe out a Level 4 Chaos Beast tribe."

"The last incident in Niulan Mountain was just an accident."

"If it weren't for the Taoist Ancestor Tianxing, who was behind the scenes."

"It would have caused big trouble at that time."

"We can fight back against the Chaos Beast invasion, there is no problem at all."

"If we mobilize a large force and kill them at their doorstep."

"The Supreme Chaos Beasts in Helan Mountain will definitely take action."

"If that really happens, it is possible that it will cause big trouble."

"If it goes wrong, it will trigger a war between the entire fairy world and the Chaos Beasts."

"I see."

After listening to the narration of the Immortal King Wanshan.

Zhang Yuhe finally understood.

No wonder everyone usually just passively defends.

Even if they fight back.

Generally, they just lock the target of the counterattack on those Level 3 tribes.

Originally, Zhang Yuhe thought.

Everyone was not strong enough before and did not dare to provoke the Level 4 Chaos Beast tribe.

Now it seems.

It's still the Origin Sea, the twelve tribes are interfering.

The deterrence of the Supreme Chaos Beast.

No one dares to act rashly.

...

Chapter 471 Discussing Support

After the reminder of the Immortal King Wanshan.

Zhang Yuhe has a clear understanding of the situation between the cultivators and the Chaos Beasts.

For now.

Chaos Beasts still have a clear advantage.

There is no way.

The twelve tribes in the Origin Sea are too powerful.

Hundreds of Supreme Chaos Beasts are like a mountain pressing on the heads of the cultivators.

Although there are many Daozu Emperors on the cultivators' side.

But compared with the Chaos Beasts.

That's too much.

Just in terms of quantity, there is at least a ten-fold difference.

If it weren't for the existence of a top emperor in each of the three tribes of humans, demons, and monsters.

I'm afraid they would find it difficult to gain a foothold on the Chaos Continent.

It is precisely because of this.

Facing the beast tide again and again.

Monks can only passively defend and rarely take the initiative to attack.

To be honest.

Although those level 4 Chaos Beast tribes are powerful.

But the immortal city of the monks is connected by a teleportation array.

It is entirely possible to gather a group of powerful forces in a short period of time.

Launch a surprise attack on those level 4 tribes.

Those level 4 tribes around cannot withstand the raid of the monks.

However, in the long river of history.

Such things rarely happen.

It is not that everyone does not want to.

But they dare not.

Because this is a major event that affects the whole body.

What if it triggers a war.

This is not what everyone wants to see.

For the monks.

Time is on their side.

The overall strength of the three tribes of humans, demons and monsters has been slowly growing.

As long as they slowly accumulate strength.

Sooner or later, they will be able to push the front line closer to the Sea of Origin.

If that day really comes.

That will be the decisive battle between the monks and the Chaos Beasts.

As for this war.

They have already taken a big advantage in the South China Sea Immortal Realm.

The Helan Mountain tribe lost more than a thousand king-level chaos beasts in the South Sea Fairyland.

Even a supreme-level chaos beast was killed by Tianxing Daozu.

If they destroy a few more level 4 chaos beast tribes.

It is hard to say whether the supreme-level chaos beasts in Helan Mountain will go berserk.

It is precisely because of this.

After hearing Zhang Yuhe's idea, Wanshan Immortal King immediately stopped him.

Anyway, the invading chaos beasts have been wiped out by them.

Don't make trouble anymore.

If they cause any big trouble.

They can't resist.

Everyone drank tea and talked about the wars in various fairylands.

At this time.

Wanshan Immortal King suddenly spoke.

"After this great victory, I estimate that for quite a long time, the surrounding Chaos Beast Tribes will not dare to launch an attack on the South Sea Immortal Realm."

"Our defensive pressure should not be too great."

"The wars in other immortal realms are still in a tense state."

"Even if the Tianxing Holy Land continues to send support forces, it cannot completely resolve the war."

"Liuyue Immortal King has asked about our situation many times."

"I hope we can send forces to support other immortal realms."

Chaotian Immortal King nodded.

He spoke slowly.

"Last time the South Sea Immortal Realm fought, all the major immortal realms had tried their best to support."

"This favor must be repaid."

Section 624

"And since we are all under the Tianxing Dao Ancestor's sect, we should support each other."

"Now that we are not under great pressure, we can indeed use our hands to support the fairyland next to us."

Wanshan Immortal King turned his head and asked Zhang Yuhe.

"Sect Master Zhang, what do you say?"

He didn't make his words clear just now.

In fact, Liuyue Immortal King specifically hoped that Zhang Yuhe could go to other immortal realms to support him.

In the view of Liuyue Immortal King.

Maybe Zhang Yuhe's strength is not the strongest in the South China Sea Immortal Territory.

But in the battle with the Chaos Beast.

Zhang Yuhe is undoubtedly the most important.

Because he is like a powerful super assistant.

As long as Zhang Yuhe appears on the battlefield.

His terrifying sword array can completely suppress and imprison those king-level chaos beasts.

Everyone can easily kill the dog.

without any exaggeration.

In such a large-scale war.

Zhang Yuhe alone can defeat a thousand troops.

Hearing the words of Immortal King Wanshan.

Zhang Yuhe fell into silence.

It's not that he doesn't want to go to other fairyland to support.

It's also good to support others.

First, it can enhance communication with various fairy realms.

Secondly, he could still take the opportunity to collect the corpses of the Chaos Beasts.

Prepare for the future Great Luo Heavenly Tribulation.

But the problem is.

He really can't leave.

He is the only one in the Dao Sheng Sect with Da Luo level power.

If he leaves.

So what to do about Galaxy Fairy City?

It's okay to come here to support Chaotian Immortal City.

After all, they are both in the South China Sea Immortal Domain and connected by a teleportation array.

As long as there is an emergency in Galaxy Fairy City.

He can teleport back in no time.

But if you go to other fairy lands.

That wouldn't be so convenient.

In case of any emergency in Galaxy Fairy City.

He may not be able to return in time.

Just rely on Yu Liwei and Lu Yunfei.

Even if the Galaxy Fairy Ship is left behind.

Zhang Yuhe was still a little uneasy.

Galaxy Immortal City is the foundation of Tao Sheng Sect on the Chaos Continent.

There is absolutely no room for error.

Although this time, they severely damaged the surrounding Chaos Beast tribe.

But those three tribes still have the strength to launch a surprise attack.

Zhang Yuhe did not dare to take it lightly.

Think of this.

He said somewhat helplessly.

"You must also know the situation of Dao Sheng Sect. I really can't leave."

Immortal King Wanshan nodded slightly.

He understood Zhang Yuhe's worries.

However, it is imperative to provide support to other immortal realms.

And what's more, Zhang Yuhe's super combat power is indispensable.

If there is no Zhang Yuhe.

How much effect can he and Immortal King Chaotian play?

There is no shortage of Da Luo Immortal King in all major immortal realms.

The Heavenly Star Holy Land is even more majestic.

However, the strength of Chaos Beasts is stronger, and the number of King-level Chaos Beasts far exceeds the sum of the major Immortal Domains and the Heavenly Star Holy Land.

There are two more Da Luo Immortal Kings, but the effect is not obvious.

Only when Zhang Yuhe passes can it be possible to reverse the situation.

Immortal King Wanshan pondered for a while.

He spoke slowly.

"Let's do this. I'll ask Immortal King Taiping to help you guard Galaxy Immortal City until this war is over."

"Then we will go to various immortal realms with Chaotian Immortal King to provide support."

Hear this.

Zhang Yuhe couldn't help but be stunned.

This is a way.

There are three immortal kings in Wanxian Sect.

Immortal King Taiping helped him and took charge of the Galaxy Immortal City.

Presumably, Xinghui Immortal King should stay behind in Ten Thousand Immortals City.

The same is true for Chaotian Palace.

Immortal King Yongning stayed behind.

The entire South China Sea Immortal Territory can draw out the top combat power.

Only he, Wanshan Immortal King and Chaotian Immortal King were left.

There is Immortal King Taiping sitting in the Galaxy Immortal City, so there is really nothing to worry about.

After all, in normal times.

Each king-level immortal city is usually guarded by an immortal king.

Now the Immortal King of Wanshan has spoken out for this reason.

Zhang Yuhe did not hesitate any longer.

He spoke slowly.

"Then it's settled."

"After I go back and make arrangements, we will go to other immortal realms to provide support."

"good."

Everyone continued chatting for a while, after other details.

Then they left each other.

Zhang Yuhe passed through the teleportation array and quickly returned to Galaxy Fairy City.

...

Chapter 472 Hiding the Innate Treasure

Zhang Yuhe walked out of the teleportation hall.

Yu Liwei and Lu Yunfei immediately came forward.

"Sect Master, is everything okay over there in Chaotian Fairy City?"

"It's okay, it's been solved."

Regarding the news of the Chaos Beast army's raid on Chaotian Fairy City.

Yu Liwei and Lu Yunfei didn't know much.

After all, this is what just happened.

After receiving the news.

Zhang Yuhe hurried over to provide support.

The two of them sat in the Galaxy Fairy City with great fear.

He was afraid that a large army of Chaos Beasts would appear around him.

Now Zhang Yuhe is back.

Section 625

They were relieved.

The three of them returned to the Galaxy Hall.

Zhang Yuhe pondered for a while.

He spoke slowly.

"I may go out for a long time recently."

"When the time comes, Immortal King Taiping will come to help us guard the Immortal City."

"You guys make arrangements in advance."

Hear this.

The two people next to him couldn't help but be stunned.

What's going on?

Hasn't the invading Chaos Beast army been dealt with?

Why are you still going out?

besides.

Why would Immortal King Taiping come to help them guard the Immortal City?

Yu Liwei and Lu Yunfei looked at each other.

They were completely confused.

Lu Yunfei asked.

"Sect Master, what happened?"

Zhang Yuhe responded with a smile.

"fine."

"You also know that this retaliatory action launched by the Helan Mountain Tribe has affected dozens of surrounding immortal realms."

"This time we will wipe out the Chaos Beasts that raided Chaotian Fairy City."

"There shouldn't be any major wars in the South China Sea Immortal Territory for the time being."

"Immortal King Liuyue has been urging us, hoping that we can use our strength to support the surrounding immortal realms."

"Before coming back, I have already discussed it with Immortal King Wanshan."

"We, Dao Sheng Sect, don't need to send extra people. I can go there alone."

"In addition, in order to prevent chaos beasts, we will raid the Galaxy Fairy City."

"Immortal King Taiping will come over and help us guard the fairy city."

After listening to Zhang Yuhe's narration.

Yu Liwei and Lu Yunfei finally understood the general idea.

The wars in other immortal realms are not over yet;

We urgently need support from the South China Sea Immortal Territory.

And it's obvious.

It is necessary for Zhang Yuhe to go over and provide support.

Otherwise.

There is absolutely no need to let Immortal King Taiping help them guard the Immortal City.

Wouldn't it be enough to just ask Immortal King Taiping to go over and provide support?

This indicates that.

In the eyes of those Daluo Immortal Kings.

Zhang Yuhe's strength is far stronger than Immortal King Taiping.

In other words, it is much more important than Immortal King Taiping.

Otherwise.

There is no need for them to be interchanged at all.

Think of this.

Yu Liwei and Lu Yunfei felt proud.

Although this sect master of my own is only in the early stage of Taiyi Immortal.

But it is stronger than Daluo Immortal King.

Isn't this something to be proud of?

After Zhang Yuhe explained something.

He soon arrived in a valley deep in the hall.

Looking at the Seven Star Immortal Pond in front of him.

He pondered for a moment.

Defenses can not do without.

After he went out this time, he didn't know how long it would take to come back.

Immortal King Taiping stayed in Galaxy Immortal City for a long time.

It's hard to guarantee that you won't discover the secrets of this valley.

Although at the beginning of establishing Fairy City.

Zhang Yuhe covered up this innate treasure land.

But it seems that it is still not enough.

Daluo Immortal King's spiritual consciousness and spiritual awareness are not comparable to ordinary people.

He has to be on guard.

Otherwise.

Just in case Immortal King Taiping discovers this innate treasure.

It is inevitable that some thoughts will arise.

Think of this.

Zhang Yuhe waved his right hand.

Formation flags fell quickly to the surroundings.

Follow the magic formula and pinch it.

A strong spatial fluctuation spread from the surroundings.

A black crack suddenly opened in the void, swallowing the entire valley.

See the valley completely disappear.

Zhang Yuhe nodded silently.

No need to worry about being discovered now.

He used the power of the formation to completely hide the entire valley into the void.

Unless there is top power, a war breaks out here.

Break the surrounding void.

Otherwise.

Who doesn't want to discover the innate treasure land hidden in the void.

The only trouble is.

After being beaten into the void in the Xiantian Treasure Land.

The concentration of spiritual energy in Galaxy Fairy City will slowly weaken.

But it doesn't matter.

Wait until he comes back.

Just use the formation to pull out this innate treasure land.

Anyway, there is a fourth-level spiritual vein in Galaxy Immortal City.

It is enough for the monks in the city.

...

Three days later.

Zhang Yuhe sat silently in the hall.

Suddenly his expression changed.

An immortal mirror appeared in his hand.

After playing a magic formula.

The voice of Wanshan Immortal King came from the Immortal Mirror.

"Sect Leader Zhang, there is news from Immortal King Liuyue that the Chaos Beast army is organizing its forces."

"Prepare to attack Tianfeng City again."

"According to the information from Tianfeng Immortal King, this time the chaos beast army has gathered more than 300 king beasts. I am afraid it will be difficult for them to deal with it."

"The Immortal King of Taiping will be able to teleport to the Galaxy Immortal City immediately."

"You tell him, and we will leave for Tianfeng City immediately."

"good."

Zhang Yuhe didn't say much.

Section 626

This has been more than ten years.

Tianfeng Fairy City has been attacked by a large number of chaos beasts many times.

Tianfeng Immortal Realm is powerful.

There are more than ten Da Luo Immortal Kings alone.

Under the leadership of Tianfeng Immortal King.

They repelled the Chaos Beasts' attacks many times.

However, the situation is not optimistic.

Because they just repel the Chaos Beast.

It did not cause a large number of casualties.

As a result, more and more Chaos Beasts gathered.

They may be real, and some are almost overwhelmed.

Even the Heavenly Star Holy Land has sent forces to support Tianfeng Fairy City.

Still failed to completely drive the Chaos Beast out of the Fairy City.

Tianfeng Immortal King is a good person.

The last battle in the South China Sea Immortal Territory.

If it weren't for Tianfeng Immortal King's full support.

It was not easy for them to end the war.

Zhang Yuhe put away the Immortal Mirror.

Then it turned into a stream of light and quickly flew towards the teleportation hall in the city.

After a while.

Yu Liwei and Lu Yunfei also rushed over together.

Just at this time.

A dazzling light lit up on the teleportation array.

The figure of Immortal King Taiping appeared on the teleportation array.

"Meet the Immortal King."

See the arrival of Immortal King Taiping.

Yu Liwei and Lu Yunfei immediately shouted respectfully.

Zhang Yuhe stepped forward and said with cupped hands.

"While I'm away, I have to trouble my seniors to help me stay in the fairy city."

"Sect Master Zhang is too polite."

After settling down Immortal King Taiping.

Zhang Yuhe did not stay any longer.

Instead, it was quickly teleported to Ten Thousand Immortals City.

Saw Zhang Yuhe arriving.

Immortal King Wanshan immediately came forward.

"Sect Master Zhang, you are finally here."

"The situation is urgent now, we will set off immediately."

"First teleport to Tianxing City, then convert the teleportation array and teleport to Tianfeng Immortal City."

"good."

At this time, hundreds of thousands of monks had gathered outside the teleportation hall of Ten Thousand Immortals City.

These are the disciples of Wanxian Sect and Chaotian Palace.

In the past, Tianfeng City's support was naturally not limited to the three of them.

Hundreds of thousands of disciples stepped onto the teleportation array one after another.

Quickly support Tianfeng City.

...

Chapter 473 Eight Million Years

Ten years later.

This retaliatory action launched by the Helan Mountain tribe swept through dozens of beasts in the Immortal Domain.

Finally, he slowly regained his composure.

During this ten years.

Zhang Yuhe walked among the major immortal realms.

He uses the powerful Nine Heavens Hunyuan Sword Formation to assist the super forces in various immortal realms.

Wave after wave of Chaos Beast armies were wiped out.

The Chaos Beast tribes that invaded various fairy realms suffered heavy losses as a result.

No longer powerless, they launched a new attack.

The Helan Mountain tribe had no choice but to acquiesce, and the revenge operation was over.

A large number of fourth-level tribes suffered heavy blows from the human monks.

This is not a good thing for the Helan Mountain tribe.

If these tribes are forced to continue launching new offensives.

This is equivalent to asking them to die.

The losses to the affiliated forces were too great, and the Helan Mountain tribe was not willing.

These are, after all, the powers they can mobilize.

Belonging to the Helan Mountain tribe, part of the strength.

...

Galaxy Fairy City.

After bidding farewell to Immortal King Taiping.

Zhang Yuhe sat quietly in the main hall.

to be honest.

Ten years of continuous running.

The number of chaotic beasts that fell under his sword formation was completely innumerable.

He was a little numb.

He didn't kill many king-level chaos beasts.

But I really don't know how many Chaos Beasts below nine stars have been killed.

Each time a set of sword formations falls.

All the chaos beasts can be wiped out.

You can say that.

After he went to war.

Ordinary monks in the major immortal realms have almost nothing to do.

Except for those tough king beasts.

It needs Daluo Immortal King to attack together.

The rest of the chaos beast army was surrounded by him alone.

Zhang Yuhe has lost count of how many chaos beasts he has killed.

There are a lot of them anyway.

He was a little numb.

The tower-shaped space artifact was filled by him.

After a while.

Lu Yunfei walked into the main hall.

"metropolitan."

Zhang Yuhe nodded lightly.

He took out a pagoda and handed it over.

Then he said calmly.

"There are some corpses of Chaos Beasts here. Ask your disciples to help deal with them."

"Except for the skeletons of Chaos Beasts with seven stars and above, please keep them for me. I may need them later."

"After sorting out the other chaos beast corpses and crystal cores, put them into the sect's treasury."

"Yes, Sect Master."

Lu Yunfei took the pagoda and responded casually.

He didn't particularly care.

Isn't it just to deal with the corpse of the Chaos Beast?

It's simple.

Section 627

Just find a few disciples and give it to them.

After Zhang Yuhe left,

Lu Yunfei looked at the pagoda in his hand.

Space immortal artifacts are rare among Golden Immortal cultivators.

But for Taiyi Immortal Lord.

That's nothing.

Basically, everyone has one.

He also has this thing.

After casually casting a spell.

Lu Yunfei's figure disappeared from the hall in an instant.

Standing in the pagoda space.

Lu Yunfei was completely stunned.

I saw layers of Chaos Beast corpses filling the entire space.

Countless Chaos Beast corpses piled up into terrifying corpse mountains.

Looking at the terrible scene in front of him.

Lu Yunfei muttered to himself.

"How many Chaos Beasts did the Sect Master kill?"

"Is it hundreds of millions, billions, or more?"

Lu Yunfei looked around.

The Taiyi Realm's spiritual consciousness was fully deployed.

Still unable to count the exact number of these Chaos Beast corpses.

There are too many.

It's really scary.

He has been practicing Taoism for tens of millions of years.

He has never seen so many Chaos Beasts.

Not to mention, they are Chaos Beast corpses.

His own sect master is really abnormal.

He actually killed so many Chaos Beasts.

It's really scary.

Lu Yunfei can hardly imagine it.

The Ten Thousand Worlds Hun Tian Formation he accidentally set up.

It actually led Zhang Yuhe, a giant evil, to the road of cultivation.

And he also became the sect master of the Daosheng Sect.

The things in the world are really wonderful.

Lu Yunfei shook his head and cleared the chaotic thoughts in his mind.

Then he quickly exited the pagoda space.

So many Chaos Beast corpses.

If he was asked to deal with it alone.

I'm afraid it would take a thousand years.

Let's find someone.

He can't do this job.

Besides.

As the master of the Patriarch Hall.

There's no reason for him to do this kind of thing himself.

Let others do it.

After a while.

Several Golden Immortal elders walked into the hall.

Lu Yunfei handed over the pagoda.

Then he said lightly.

"This is the corpse of the Chaos Beast killed by the Sect Master. You can find someone to deal with it."

At this point.

He paused for a moment, and then continued.

"There are a lot of Chaos Beast corpses. You need to find more people."

"Yes."

Several Golden Immortal elders walked out of the hall with the pagoda.

Lu Yunfei breathed a sigh of relief.

Then he followed him out of the hall.

...

Zhang Yuhe stood on a mountain peak.

He waved his right hand.

One by one, the formation flags fell quickly around.

As the spell was pinched.

The violent space fluctuations began to spread around.

A huge hole suddenly cracked in the void.

A huge valley, under the traction of the formation, was slowly dragged out of the void.

After a while.

The crack in the void slowly healed.

The valley containing the innate treasure land appeared before his eyes again.

When leaving the Immortal City.

In order to prevent other people from discovering the existence of this innate treasure land.

Zhang Yuhe used the power of the formation to drive the entire valley into the void.

Now he is back.

Naturally, there is no need to worry anymore.

Zhang Yuhe waved his right hand.

As the golden light flashed.

A golden sky-lifting long stick slowly stood in the center of the Immortal Pond.

Nine magnificent immortal swords slowly flowed around the golden long stick.

After investing a large amount of immortal ore and immortal materials.

Zhang Yuhe came to the practice platform next to the Immortal Pond and slowly sat cross-legged.

After repelling the chaos beasts of various immortal realms.

The Chaos Continent should be peaceful for a long time.

He can finally practice well.

Since he was promoted to Taiyi Immortal.

Due to the interference of various things.

He has never practiced normally.

This is not okay.

Although the progress of practice is slow after Taiyi Realm.

But no matter how slow it is, you can't slack off.

Zhang Yuhe sat cross-legged on the practice platform.

With the slow operation of Hunyuan Tianjing.

The rich fairy spirit around him quickly swarmed towards him.

The spirit energy slowly flowed into his dantian through his meridians.

Time passed slowly.

Soon, eight million years had passed.

Since Zhang Yuhe went into seclusion, he had never appeared again.

In the past eight million years, the Chaos Continent was peaceful.

Especially around the South Sea Fairyland, there had never been a large-scale beast tide.

The three level four Chaos Beast tribes around even showed signs of migrating to a distant place.

Because of Zhang Yuhe's intimidation.

They didn't dare to get too close to the Galaxy Fairy City.

Section 628

Hope to move the tribe to a farther place.

With the help of the massive resources provided by Zhang Yuhe and the geographical advantages of the Galaxy Fairy City.

The Daosheng Sect flourished.

In the sect, a large number of Golden Immortal elders emerged.

Those old Golden Immortal elders also made rapid progress in their cultivation.

With the help of the resources of the sect and the great array of tribulation on the Galaxy Island.

They were successively promoted to Taiyi Immortal Lords.

Before the retreat.

Zhang Yuhe re-refined the lightning absorption column and arranged the Renshui lightning absorption array again.

on the Galaxy Island.

It provided a strong guarantee for the development of the sect's high-end combat power.

...

Chapter 474 Taiyi Immortal Perfection

Galaxy Fairy City, Patriarch Hall.

A group of Taiyi Immortal Lords gathered together.

After eight million years of development.

The current Daosheng Sect is no longer comparable to the past.

At this time, there are more than 20 Taiyi Immortal Lords in the hall.

Those old Golden Immortals, like Long Xingxiu and Lian Zhengyu, etc.

All of them successfully broke through to the Taiyi realm.

Even the new generation that rose later.

Like Xie Mingyuan, Feng Xiaotian, Wang Guofeng and Li Tian, they were also promoted to Taiyi Immortal Lord.

Even in the hall, there were some Taiyi Immortal Lords who had never seen Zhang Yuhe.

These were the geniuses who had newly joined the sect or ascended from the lower realms in the past eight hundred years.

They came from behind.

With the help of the resources of the sect, their cultivation advanced by leaps and bounds.

They broke through to Taiyi Immortal Lord all the way.

Eight million years of changes.

Daosheng Sect seemed to have entered the fast lane, booming at a speed visible to the naked eye.

Nowadays.

Daosheng Sect already has 26 Taiyi Immortals, and there are thousands of Golden Immortal Elders.

As for ordinary True Immortal disciples, there are already close to one million.

If.

In the past, the Daosheng Sect relied on Zhang Yuhe alone to support the reputation of the entire sect.

The sect has always been holding him back and could not provide him with much help.

But now it is completely different.

Now the Daosheng Sect is completely a super power.

It is not much worse than Chaotian Palace and Wanxianmen.

Everyone gathered together.

Everyone talked about the changes in these years.

At this time.

Wang Guofeng suddenly asked.

"Palace Master Lu, has the Sect Master not come out of retreat yet?"

Lu Yunfei shook his head.

To be honest.

Although as the cultivation level increases, the time for the cultivator to retreat will become longer and longer.

But like Zhang Yuhe.

A retreat is eight million years.

This is still rare.

Fortunately, in the past eight million years, Daosheng Sect has not encountered anything difficult to deal with.

They can handle ordinary emergencies by themselves.

Don't disturb Zhang Yuhe.

Lu Yunfei said with a smile.

"Don't worry about the sect master's affairs."

"Maybe when the sect master comes out of retreat, he may break through to the Daluo realm."

"Haha, you're right."

"The sect master is a genius. After such a long retreat, he may really break through."

Everyone was talking and laughing.

After a long while.

Lu Yunfei waved his hand and said.

"Now let's talk about normal. Everyone, tell us about the progress of your work."

Li Tian stood up and spoke slowly.

"In the past hundreds of thousands of years, we have continued to move forward to open up and build cities."

"Now the Daosheng Sect already has twelve king-level immortal cities and two hundred and ninety-six acropolises."

"Each immortal city has abundant resources and has enough power to sit in."

Lu Yunfei nodded gently.

At this time, Long Xingxiu stood up and said with a smile.

"In recent years, the Economic and Trade Hall has opened branches in dozens of fairy domains."

"All the surrounding monarch-level fairy cities have our branches."

"In the future, when you go to other fairy domains, you don't have to worry about having no place to stay, haha."

...

The heads of each hall reported the progress of these years one by one.

Lu Yunfei nodded frequently.

I have to say it.

As Zhang Yuhe's reputation spread throughout the fairy world.

The disciples of the Daosheng Sect were also particularly respected when they walked outside.

It would be much more convenient to do things.

No one dared not to give face.

In the dozens of fairy domains around.

Who doesn't know.

The reputation of the Daosheng Sect leader, the Yinhe Xianjun?

...

On the training platform next to the fairy pool.

Zhang Yuhe opened his eyes.

He slowly stood up and breathed a sigh of relief.

"Finally, I have reached the perfection of Taiyi Xian, and I can start preparing for the tribulation."

In the past eight million years, he has never stepped out of the valley.

Slowly, from the initial stage of Taiyi Immortal, he cultivated all the way to the state of perfection.

It must be said.

The cultivation after Taiyi Realm is indeed extremely slow.

This is still him, occupying an innate treasure land.

He can greatly increase the speed of cultivation, and in the process of cultivation.

He did not encounter any bottlenecks.

Otherwise.

If you want to cultivate to the current realm.

I am afraid it will take tens of millions of years.

"Let's go out and take a look first."

"After so many years, I don't know how the Daosheng Sect is developing now."

Zhang Yuhe walked out of the valley.

Section 629

"Hey, how come there are so many Taiyi Immortal Lords?"

His consciousness scanned the surroundings.

That's when I discovered it.

At this time, more than twenty Taiyi Immortals gathered in the Patriarch Hall.

"It seems that everyone else is not idle either."

Think of this.

He couldn't help but smile.

Zhang Yuhe soared into the sky and soon landed outside the Patriarch's Hall.

When he walked into the hall.

Everyone couldn't help but be stunned, and then turned into ecstasy.

Everyone shouted in unison.

"Meet the sect master."

Zhang Yuhe waved his hand.

he said with a smile.

"Long time no see, everyone."

"I didn't expect that you have all been promoted to Taiyi Immortal Lord. Congratulations."

"It's all thanks to the sect master."

"If there is no sect master, the elixir and tribulation formation will be provided."

"I'm afraid not many of us can make it this far."

Speaking of this, everyone couldn't help but sigh.

Although their talents are indeed not bad.

But if you want to break through to Taiyi Immortal, you don't just have to have talent.

That requires resources.

And it must be a very precious resource.

An elixir that can assist Golden Immortal monks and break through the bottleneck of Taiyi Immortal.

Place it in the entire fairy world, no matter where it is.

They are all extremely precious.

Even those Dao Ancestor Holy Lands cannot be given to others easily.

But in Dao Sheng Sect.

When they successfully break through and reach Golden Immortal perfection, they can receive a Nine-Aperture Elixir.

Such benefits.

It is probably the only one in the entire fairy world.

not to mention.

Zhang Yuhe also set up a tribulation formation on Galaxy Island.

With the power of the large formation, they almost didn't feel too much pressure when they overcame the tribulation.

You can say that.

They were able to achieve what they are today.

It was Zhang Yuhe who pushed him forward.

Hug Zhang Yuhe's thick legs.

It's them, the biggest opportunity in this life.

Zhang Yuhe smiled all over his face and glanced at these familiar and unfamiliar faces.

When he saw a female fairy with a cold face in the main hall.

he asked with some uncertainty.

"Are you Yang Yueyue?"

Yang Yueyue immediately stepped forward and said excitedly.

"Ancestor, do you still remember me?"

"I am Yang Yueyue, the same Yang Yueyue who was in Kunlun Fairy City when you returned to the lower realm."

"The techniques I practice are still given by you."

Zhang Yuhe suddenly realized.

He always felt that this person was familiar, but he was not sure.

When he returned to Blue Star.

Once in Kunlun Fairy City, I met a father and daughter who were bullied.

The girl among them was Yang Yueyue.

Yang Yueyue has a Taiyin body, which is an extremely excellent constitution for cultivating immortals.

to this end.

Zhang Yuhe specially left her a technique that suited her physique.

It's called Taiyin Immortal Sutra.

I can't believe that so many years have passed.

Not only did Yang Yueyue successfully ascend to the immortal world, she was also promoted to Taiyi Immortal Lord.

Time flies so fast.

Think of this.

Zhang Yuhe said with a smile.

"Congratulations, I didn't expect that after all these years, you have cultivated to the Taiyi realm."

Yang Yueyue responded gratefully.

"It all depends on the support of the ancestors. Otherwise, I might have died in Kunlun Fairy City long ago."

...

Chapter 475 Go to various fairy realms

Look at the many talented people in the hall.

Zhang Yuhe couldn't help but feel relieved.

The Daosheng Sect now finally has the appearance of a large sect.

Taiyi Immortal Lord is not comparable to the Golden Immortal.

Although the group of people present, including Lu Yunfei, were still in the early stages of Taiyi.

But that was also Taiyi Immortal.

This is the foundation of a sect.

Taiyi Immortal Lord has unlimited longevity.

That is to say.

As long as there is no misfortune.

This group of people will always be the backbone of Daosheng Sect.

And this power can slowly accumulate and grow.

Everyone chatted for a while.

Zhang Yuhe took out a jade slip, handed it to Lu Yunfei and said.

"From now on, mobilize the whole sect and make every effort to collect the materials recorded above."

Lu Yunfei took the jade slip and looked at it for a while.

he asked in surprise.

"Sect Master, are you ready to break through to the Great Luo Realm?"

Zhang Yuhe nodded.

"Almost, but we need to make some more preparations."

"Breaking through the Great Luo Realm is no small matter."

Hear this.

Everyone's faces showed surprise.

Although before that.

They are all guessing.

After Zhang Yuhe left the customs.

Will he immediately break through to become the Great Luo Immortal King?

But that's just a joke.

Did Daluo Immortal King break through so easily?

South China Sea Fairyland for countless years.

How many Da Luo Immortal Kings have been born in total?

Except for the disappeared Divine Beast Sect and Taixu Sect.

Section 630

Now the entire South China Sea Immortal Territory.

There are only five Daluo Immortal Kings left in total.

One can imagine the difficulty of this.

Not to mention breaking through to the Great Luo Immortal King.

Even in the realm of the Immortal Lord, I want to take a small step forward.

It will take countless years, and it may not be successful.

Lu Yunfei has a deep understanding of this.

He was promoted to Taiyi Immortal much earlier than Zhang Yuhe.

But so many years have passed.

He is still in the early stage of Taiyi Immortal.

The realm has not loosened at all.

to be honest.

Lu Yunfei has not slacked off at all these days.

But after arriving at Taiyi Immortal.

The progress of cultivation is really too slow.

Before Taiyixian.

There are various elixirs and elixirs in the fairy world that can speed up your cultivation.

Can help break through bottlenecks.

But after arriving at Taiyi Immortal.

These things are basically completely extinct.

Anyway, Lu Yunfei never said that.

Is there anything that can speed up Taiyi Immortal Lord's cultivation speed?

As for the elixirs and elixirs that assist Taiyi Immortal and break through bottlenecks, I have never heard of them.

so.

After the monk was promoted to Taiyi Immortal.

It can only be polished slowly over a long period of time.

Slowly push the cultivation level up.

If you encounter a bottleneck.

Then there's no way.

The bottleneck can only be resolved by chance.

In fact, Lu Yunfei is in this state now.

As early as many years ago.

He pushed his cultivation to the peak of the early stage of Taiyi Immortal.

But couldn't break through.

Because he encountered a bottleneck.

In the Taiyi Realm, the bottleneck of the small realm is also very troublesome.

If you can't find a way.

Then it is possible that he has been trapped in the early stage of Taiyi Immortal.

Fortunately, Taiyi Immortal Lord has unlimited longevity.

Lu Yunfei was not in a hurry.

Take your time.

This is the normal cultivation state of other Taiyi Immortal Lords in the Immortal World.

After encountering a bottleneck.

They either traveled to various fairy realms, studied magical powers, or understood the laws.

Anyway, I won't practice anymore.

Without resolving bottlenecks.

Cultivation has no effect.

Following Zhang Yuhe's order.

Countless Dao Sheng Sect disciples rushed to various immortal realms through the teleportation array.

According to the records on the jade slips, they made large purchases in various immortal realms.

Regarding the improvement of the Renshui Thunder Absorption Array, Zhang Yuhe had already finished deducing it.

This time, he planned to use 999,999 lightning-absorbing pillars at the level of top-grade immortal weapons as the base of the formation.

Come and build a huge tribulation formation.

I want to refine a total of 990,000 lightning-absorbing pillars at the level of top-grade immortal weapons.

This will be a huge project.

Just collecting the materials required for these lightning-absorbing pillars is a big problem.

According to Zhang Yuhe's idea.

He planned to use the bones of Chaos Beasts from the Ether Realm as the main material.

In addition, a large amount of third-level fairy materials are used to refine these thunder-absorbing pillars.

The skeleton of the Taiyi Realm Chaos Beast has passed through many battles.

He has collected almost all of them.

Even if there is still a gap, it's not much different.

But those auxiliary materials are a bit difficult to handle.

Although each lightning-absorbing column does not require many auxiliary materials.

But I can't hold it, there are so many lightning pillars.

So many lightning-absorbing pillars.

Even each lightning-absorbing pillar only requires a little auxiliary material.

The combined number would be extremely exaggerated.

And the auxiliary materials he needs are all third-level immortal materials.

Such things are not that easy to find.

In the fairy world.

The only places that can stably produce third-level immortal materials are those at the monarch level.

in other places.

Even if there is output, the quantity will not be too much.

Zhang Yuhe wants to collect all the materials, but it may not be that easy.

Except for the dozens of surrounding immortal realms.

It may also be necessary to send disciples to distant immortal realms.

But he doesn't need to worry about these things.

Now the Dao Sheng Sect has millions of true immortal disciples and thousands of golden immortal elders.

If you do this well, there won't be any problems.

It's just a matter of waiting a little longer.

Zhang Yuhe is not in a hurry.

Anyway, it takes a lot of time to refine these lightning-absorbing pillars.

After all, it is a top-grade immortal weapon.

Even if he refines weapons very quickly.

It is estimated that it will take several years to refine each batch of lightning absorbing pillars.

Although he can still run multiple furnaces and start refining together.

But the time spent is still not less.

Those are millions of lightning-absorbing pillars.

It's not that easy to do.

Zhang Yuhe came outside the weapon refining hall.

Although the materials are still being collected.

However, after so many years of accumulation, Daosheng Sect will have some inventory.

They cannot produce millions of auxiliary materials for lightning absorbing pillars at the moment.

But they still have thousands of pieces of mine-absorbing materials.

After all, there are several third-level fairy mines under the Galaxy Fairy City.

And over the years.

The Dao Sheng Sect was still on the periphery and established twelve more monarch-level immortal cities.

Under every monarch-level fairy city, there are third-level mineral veins.

After so many years of mining.
