

Top talent 631

Section 631

The Dao Sheng Sect has accumulated quite a lot of third-level immortal materials.

It was enough for him to refine it for a while.

Zhang Yuhe plans.

While slowly refining the lightning absorbing pillar, he waited for the subsequent materials to arrive.

At this time, the weapon refining hall had already been sorted and emptied.

One hundred tall four-legged square tripods slowly floated above the formation.

After knowing Zhang Yuhe, he planned to refine the lightning absorbing pillar.

Lu Yunfei immediately sent people to clear out the weapon refining hall.

After all, this is not the first time that Dao Sheng Sect has done this kind of thing.

Zhang Yuhe had twice refined lightning absorbing pillars on a large scale.

Every time, it was him who started working on hundreds of cauldrons at the same time.

to be honest.

There are indeed many immortal weapon refiners in the Daosheng Sect.

But there are only a few people who can refine high-grade immortal weapons.

If you want to refine high-grade immortal weapons, you must first reach the Taiyi realm.

There are only twenty-eight Taiyi Immortal Lords in the Daosheng Sect.

There are no more than ten people who can refine high-grade immortal weapons.

Moreover, these people are too slow to refine high-grade immortal weapons.

The success rate is not high either.

That being the case.

Zhang Yuhe naturally had no choice but to do it himself.

Otherwise.

Wait for others to help him refine these lightning pillars.

I'm afraid that even if it takes millions of years, it may not be possible.

He didn't want to wait that long.

...

Chapter 476 The vision of Wanshan Immortal King

The Dao Sheng Sect's massive collection of third-level immortal materials soon attracted widespread attention in the surrounding immortal realm.

After all, what they want is not just one or two items.

But a massive amount.

Whenever a disciple of the Dao Sheng Sect arrives at a monarch-level fairy city.

All the third-level immortal materials that can be found on the market will be wiped out.

Even if the price is slightly higher.

As long as it is the material recorded on the jade slip list.

They won't hesitate.

Sweep them all away.

Such behavior made everyone feel very puzzled.

What's going on?

Even the Dao Sheng Sect wants to refine some top-notch immortal weapon.

There is no need for so many third-level immortal materials.

City of Ten Thousand Immortals.

Immortal King Wanshan and Immortal King Taiping were sitting in a quiet pavilion.

The pleasant fragrance of tea slowly floated around.

Wanshan Immortal King picked up the teacup and took a sip.

he asked a little strangely.

"I heard that the Dao Sheng Sect is collecting third-level immortal materials. Is this true?"

Immortal King Taiping nodded slightly.

"Yes, they not only wiped out all the third-level fairy materials that could be found on the market in the South China Sea Fairyland."

"And they also sent a large number of disciples to the surrounding fairyland to buy it."

"That move is quite big."

"I don't know if the Galaxy Immortal Lord is preparing to refine some peerless immortal weapon?"

Immortal King Wanshan pondered for a while.

He spoke slowly.

"If I remember correctly, before the Galaxy Immortal Lord was promoted to Taiyi Immortal, the Dao Sheng Sect also collected materials on a large scale."

"But what I collected at that time were second-level fairy materials."

Hear this.

Immortal King Taiping couldn't help but be stunned.

At this moment he seemed to understand something.

he asked incredulously.

"Sect Master, are you saying that the Galaxy Immortal King is preparing to break through to the Great Luo Immortal?"

Immortal King Wanshan nodded slightly.

As Zhang Yuhe's fame spread throughout the fairy world.

His past will naturally be studied carefully under a magnifying glass.

Everyone soon discovered something very interesting.

That is.

Whenever Zhang Yuhe wants to break through a big realm.

Dao Sheng Sect will collect materials on a large scale.

Before Zhang Yuhe was promoted from the True Immortal Realm to the Golden Immortal.

The Dao Sheng Sect once collected first-level materials on a large scale.

However, the scope of collection at that time was not too large.

It didn't attract much attention.

However, before Zhang Yuhe broke through from the Golden Immortal Realm to Taiyi Immortal.

Daosheng Sect began to collect materials aggressively again.

He just became a second-level fairy.

And the action that time was particularly big.

At that time, Daosheng Sect sent almost all its disciples.

Bought up all the applicable second-level immortal materials that could be bought in the South China Sea Immortal Realm.

Then it didn't take long.

They received the news that Zhang Yuhe was promoted to Taiyi Immortal Lord.

Later everyone understood.

The Dao Sheng Sect collected materials twice, both for the purpose of setting up the tribulation formation.

With the help of the Tribulation Array.

Even if Zhang Yuhe's qualifications are incredible.

The calamity he caused was extremely terrifying.

Still managed to survive the catastrophe.

Now Dao Sheng Sect is collecting materials on a large scale.

Moreover, they are all third-level immortal materials, and the quantity required is still so large.

no doubt.

This is Zhang Yuhe, preparing to break through to Daluoxian.

Think of this.

Immortal King Taiping couldn't help but marvel.

He never expected that Zhang Yuhe's cultivation speed would be so fast.

Eight million is a long time.

But to Immortal Taiyi, this is nothing.

The normal Taiyi Immortal Lord.

Who hasn't practiced for hundreds of millions of years before slowly reaching perfection?

There are even many Taiyi Immortal Lords because of bad luck.

Being stuck in a bottleneck for too long.

There are indeed many who have been unable to make any progress for hundreds of millions of years.

Section 632

Immortal King Taiping thought of himself.

Back then, he cultivated from the early stage of Taiyi Immortal to the state of perfection.

How long did it take in total?

It seems to have taken nearly a billion years.

Unexpectedly, Zhang Yuhe only needed eight million years.

From the early stage of Taiyi Immortal, he broke through to the state of perfection.

This speed of cultivation is really a bit exaggerated.

Even the supreme genius can't be so fierce, right?

And there is.

Now the Dao Sheng Sect is aggressively collecting third-level immortal materials from various immortal realms.

Does Zhang Yuhe really intend to build a formation that can assist Taiyi Immortal Lord in overcoming the Great Luo Heavenly Tribulation?

It shouldn't be possible, right?

Such a tribulation formation has never been seen in the South China Sea Immortal Territory.

Only those Dao Ancestor Holy Lands can set up similar tribulation formations.

Could it be that Zhang Yuhe really obtained the inheritance of a certain Taoist ancestor?

Think of this.

Immortal King Taiping couldn't help but shake his head.

to be honest.

He is becoming more and more inclined to this inference.

Because Zhang Yuhe's experience is too legendary.

If we talk about him, he once received the Tao Ancestor inheritance.

That's barely enough, and it makes sense.

Immortal King Wanshan put down his tea cup.

He asked slowly.

"How much of the third-level immortal materials collected by Dao Sheng Sect do we still have in stock?"

Immortal King Taiping pondered for a while.

Then he responded softly.

"Except for leaving some as a spare, the other third-level immortal materials have been traded to the Dao Sheng Sect."

Immortal King Wanshan said solemnly.

"There is no need to keep it. We will send someone to Dao Sheng Sect to deliver it later."

"In addition, check the mineral veins in each of our fairy cities."

"If there are suitable mineral veins, we will increase mining efforts and send them all to the Dao Sheng Sect."

Hear this.

Immortal King Taiping couldn't help but be shocked.

"Sect Master, there is no need for this, right?"

In his opinion.

Just do normal transactions.

Why give materials to Dao Sheng Sect for free.

Third-level immortal materials are not cabbage.

Any piece of Three Immortal materials is extremely precious.

After all, these are all materials that can be used to refine high-grade immortal weapons.

Although the Daosheng Sect has developed rapidly, Zhang Yuhe's strength is unparalleled.

But their Ten Thousand Immortals Sect is not bad either.

As a veteran superpower in the South China Sea Fairyland.

Compared with Dao Sheng Sect, they will only be stronger, definitely not weaker.

There was absolutely no need for them to hug Zhang Yuhe's thigh.

As Daluo Immortal Kings, they are the top power in the immortal world.

Except for those Daozu emperors.

They don't need to look at anyone's face to act.

Immortal King Wanshan stood up.

He looked up into the distance and spoke slowly.

"You do not understand."

"As long as you survive the Great Luo Heavenly Tribulation this time, Galaxy Immortal Lord may become the first supreme genius in the immortal world to be promoted to Tao Ancestor."

Speaking of which.

Immortal King Wanshan turned to look at Immortal King Taiping.

He said solemnly.

"Do you know the weight of this?"

"The supreme genius is invincible at the same level."

"If one day, Yinhe Immortal Lord is successfully promoted to the Dao Ancestor Emperor."

"That means he will be the first person in the immortal world."

"Even if he stops at the Great Luo Realm."

"With Galaxy Immortal Lord's incredible combat power, as long as he can, he can successfully break through to the Great Luo Realm."

"Then his strength will probably not be much worse than those of the Dao Ancestor Emperors."

"Facing a potential Taoist ancestor, a mere third-level immortal, what does that mean?"

Hear this.

Immortal King Taiping soon came to his senses.

He hadn't put himself in his position before.

Zhang Yuhe has always been regarded as a junior.

After being reminded by Immortal King Wanshan.

He finally came to his senses.

Before Zhang Yuhe could break through, his strength was already comparable to that of Da Luo Immortal King.

It is even much stronger than many Da Luo Immortal Kings.

Facing such a peerless talent, how could he be treated like a junior?

not to mention.

Zhang Yuhe is now obviously preparing for an attack on the Great Luo Realm.

Once the breakthrough is successful.

I'm afraid it will become an existence that he can look up to.

Think of this.

Immortal King Taiping took a deep breath and said solemnly.

"Sect Master, I'll have someone make arrangements right away."

...

Chapter 477 Release the news

In fact, there are not many enlightened people like Wanshan Immortal King.

There are many big forces in various immortal realms, even those super forces.

Not only did he take out his own inventory, he even wanted to give it to Dao Sheng Sect for free.

This kind of treatment makes those disciples who go out to purchase fairy materials a little uncomfortable.

With the full support of all forces.

This time, Dao Sheng Sect's collection of immortal materials went surprisingly smoothly.

A steady stream of disciples sent immortal materials outside the weapon refining hall.

...

Time passes slowly.

Fifty thousand years passed in a flash.

Zhang Yuhe sat cross-legged quietly in the hall.

In front of him.

There are a hundred tall, four-legged square tripods standing there.

Hot flames burned beneath the square tripod.

Due to the smooth collection of materials.

During these fifty thousand years.

Zhang Yuhe has been staying in the main hall, refining the thunder-absorbing pillar.

Section 633

The refining process of a top-grade immortal weapon-level lightning-absorbing pillar is extremely complicated.

Even though his understanding is incredible, he can refine immortal weapons very quickly.

But every time they are successfully refined, a batch of lightning-absorbing pillars are produced.

It will take at least five years.

This speed is already very fast.

If it were anyone else.

Even if it takes hundreds of years, it may not be possible to successfully refine a lightning-absorbing pillar at the level of a top-grade immortal weapon.

After fifty thousand years of continuous efforts.

The lightning-absorbing pillars were refined by him.

Nearly one million lightning-absorbing pillars at the level of high-grade immortal weapons are finally almost completed.

Zhang Yuhe raised his head and glanced at the four-legged square tripod in front of him.

These are the last batch of mine-absorbing pillars.

As long as you get this batch done, you're done.

Two years later.

Zhang Yuhe walked out of the dusty weapon refining hall.

Outside the gate.

Lu Yunfei and a group of Taiyi Immortal Lords were waiting quietly.

Saw Zhang Yuhe coming out.

Lu Yunfei asked excitedly.

"Sect Master, how is the situation? Have the lightning absorbing pillars been refined?"

Zhang Yuhe responded with a smile.

"It's all done."

"Now as long as we set up the big formation, we can start to break through."

Speaking of which.

Zhang Yuhe paused for a moment.

He turned to Lu Yunfei and asked.

"How are the preparations in the Ji'an sea area?"

"Have all the monks around Galaxy Island completed their migration?"

Lu Yunfei responded.

"Sect Master, please rest assured, this matter has been settled long ago."

The Great Luo Heavenly Tribulation is no small matter.

A peerless genius like Zhang Yuhe.

After he is promoted to the Great Luo Realm, the calamity he will suffer will be even more terrifying.

For the sake of safety.

At the same time, it was also to prevent the surrounding monks from being accidentally involved in the catastrophe.

As early as 50,000 years ago.

Zhang Yuhe told them to move all the monks around Galaxy Island.

Due to the number of monks involved, it was very large.

The entire migration process lasted for a long time.

Fortunately, the Daosheng Sect has extraordinary influence in the Ji'an sea area.

Moreover, Daosheng Sect also provided sufficient compensation to the monks who needed to be relocated.

They encountered basically no resistance during the migration process.

The hundreds of millions of miles around Galaxy Island have all been cleared.

Not only that.

In order to prevent monks from entering by mistake.

Lu Yunfei is still a disciple of the sect.

Push all the surrounding islands into the deep sea.

Nowadays, Galaxy Island is within hundreds of millions of miles.

There is only this one, a lonely island.

After listening to Lu Yunfei's narration.

Zhang Yuhe nodded lightly.

He looked up into the distance.

Then he spoke slowly.

"Releasing the news, let me tell you that I plan to overcome the tribulation and break through the Great Luo Immortal on Galaxy Island in the Ji'an Sea ten years later."

"Any Taoist friend who is interested can come and observe."

Zhang Yuhe just finished speaking.

Lu Yunfei and others couldn't help but be shocked.

"Sect Master, is this not good?"

"If someone tries to sabotage it, the consequences will be disastrous."

"Yes, Master."

"You can break through the tribulation quietly, there is no need to publicize it."

Everyone opened their mouths to persuade.

They didn't dare to be careless about Zhang Yuhe's breakthrough in the tribulation.

They wished that Zhang Yuhe could quietly survive the catastrophe.

It's best not to be discovered.

Otherwise.

If someone tries to sabotage it, they can't stop it at all.

Although there are more than twenty Taiyi Immortal Lords in the Dao Sheng Sect.

But if someone wants to destroy Zhang Yuhe's tribulation.

That must be Da Luo Immortal King.

This group of people are still in the early stage of Taiyi Immortal.

How could it be possible to block the Great Luo Immortal King?

I heard everyone trying to persuade me.

Zhang Yuhe waved his hand, and then said lightly.

"It doesn't matter, no one dares to destroy it."

"Just do as I say and let the news out."

"Yes, Sect Master."

Lu Yunfei had no choice but to respond helplessly.

Zhang Yuhe didn't care at all about everyone's concerns.

There is nothing to be afraid of.

With his current strength, there is absolutely no need to hold back any longer.

When I was in the early days of Taiyi Immortal.

He can overwhelm thousands of king-level chaos beasts and be as good as the top-level Great Luo Immortal King.

Now we have reached the state of Taiyi perfection.

What else does he have to fear?

Who dares to destroy his tribulation?

I'm afraid I'm tired of living.

As long as Emperor Daozu doesn't take action.

He won't be afraid of anyone.

Zhang Yuhe even didn't need to activate the Hunyuan Guiyi magical power.

You can crush the vast majority, Da Luo Immortal King.

When your strength is insufficient, you really need to keep a low profile.

So as not to cause unnecessary trouble.

If the strength is enough.

Then you should show your strength.

After all, this is a world where strength speaks for itself.

Only strong people can gain more respect and higher status.

It can also be easier to obtain some secret information.

In many cases.

Identity and status are also valuable resources.

Section 634

It is precisely because of this.

Zhang Yuhe decided not to keep a low profile anymore.

He wanted everyone in the fairy world to know.

The Galaxy Immortal Lord will soon be promoted to the Galaxy Immortal King.

slowly.

A shocking news gradually spread to dozens of surrounding immortal realms.

The leader of Daosheng Sect and the Immortal Lord of Galaxy.

Ten years later, he will receive the catastrophe and break through the realm of Da Luo.

Not only that.

There was also news from the Dao Sheng Sect.

Interested monks are welcome to go to Galaxy Island in the sea of Ji'an to watch the Galaxy Immortal Lord break through the tribulation.

After the news spread.

Everyone was very shocked.

Normally.

When monks break through and overcome tribulations, they usually do so quietly.

Except for relatives and friends of this sect, because of the need to protect the Tao.

Only then will you know in advance the time and place of the tribulation.

It is simply impossible to let others know.

However, the Immortal Lord Galaxy was uncharacteristically different.

He disclosed the time and place of the tribulation and welcomed everyone to come and observe.

What kind of courage and confidence is this?

If you don't have enough self-confidence, you can ensure a smooth breakthrough and survive the disaster.

Who dares to let outsiders come and watch oneself survive the tribulation?

Zhang Yuhe is so confident.

He never considered failure.

After many improvements.

The current Renshui Thunder Absorbing Formation can definitely help him survive the Great Luo Heavenly Tribulation.

No matter how perverted the calamity is, he won't be worried.

As for whether it is possible to successfully break through to the Great Luo Immortal King?

There is no need to worry about this.

to be honest.

Until now.

Zhang Yuhe has not yet felt the existence of a bottleneck.

As long as he wants.

You can break through to the Great Luo Realm at any time.

If not for stability.

If you want to update and perfect the Renshui Thunder Absorbing Formation.

As early as 50,000 years ago.

He can break through.

...

Chapter 478 What an eye-opener

As word spreads.

A large number of monks poured into the waters of Ji'an.

Being able to observe on the spot, a Taiyi Immortal Lord was promoted to Daluo Immortal King.

This is true for most monks.

This may be the only chance in this life.

Naturally, it's not to be missed.

And watching the monks survive the tribulation is not just about watching the fun.

The moment Taiyi Immortal breaks through to the Da Luo realm, his powerful energy will be exposed.

This is a rare opportunity for other monks.

Maybe they will have a chance to learn something from it.

For example, with the understanding of Qi Ji Tao Yun, the current bottleneck can be resolved.

Zhang Yuhe made a public breakthrough to overcome the tribulation.

It is a public benefit to the majority of ordinary monks.

Especially those Taiyi Immortal Lords who are stuck at the bottleneck.

If they are lucky enough to understand some kind of Taoist charm from it.

That can save them a lot of practice time.

...

Ji'an Sea Teleportation Hall.

A group of Daosheng Sect disciples in blue robes stood in two rows on both sides of the hall.

As a dazzling light flashed.

Wei Tianfeng's figure appeared on the teleportation array.

A blue-robed disciple immediately stepped forward and shouted respectfully.

"Meet the Immortal King."

Wei Tianfeng waved his hand.

he asked with a smile.

"Zhang Zongzhu hasn't started to break through the tribulation yet, right?"

The blue-robed disciple responded respectfully.

"Not yet, according to the news from the sect."

"Probably in the next few days, the sect leader will begin to break through and usher in the calamity."

Speaking of which.

The faces of the blue-robed disciples in the main hall were all filled with pride.

Although they are just a real wonderland.

But their Dao Sheng Sect has a powerful sect leader.

Even the Great Luo Immortal King must be polite when talking about his sect master.

Every move of his sect master can affect the situation in the fairy world.

Isn't this something to be proud of?

Wei Tianfeng laughed.

"Fortunately, I arrived in time. I was currently in retreat and almost missed such a grand event."

The blue-robed disciple took out a jade slip and handed it to Wei Tianfeng.

"Now the area around Galaxy Island has been sealed off, and the location of the Observation Tribulation is recorded on it."

"Senior, all you need to do is follow the directions above."

"good."

After Wei Tianfeng said this, he threw a small jade bottle over.

Then it turned into a stream of light and quickly disappeared into the distance.

The blue-robed disciple put away the jade bottle and showed no excitement in his heart.

Logically speaking.

Da Luo Immortal King casually leaked a little bit about his true immortal disciples.

It is definitely a great treasure.

Just in the past ten years.

He was responsible for guarding the teleportation array, and he collected too many good things.

Even if you give it to fellow fellow apprentices, you have to share some of it.

There's a lot more to that, too.

He was a little numb.

Those immortal kings who come to watch will reward some good things every time.

At the beginning.

The disciples in blue robes will also be excited and excited.

However, after collecting too much.

He also became numb.

Section 635

All I can say is that he was lucky.

At this time, he was assigned here by the sect to guard the teleportation array.

Maybe this is also an opportunity.

...

Galaxy Island, Heavenly Tribulation Peak.

Zhang Yuhe stood quietly on the high platform.

Just at this time.

A stream of light passed by in the distance.

Lu Yunfei quickly landed next to him.

"metropolitan."

Zhang Yuhe nodded lightly.

"It's all arranged."

Lu Yunfei responded.

"Everything has been arranged."

"Disciples of the Dao Sheng Sect are all in place to seal off the surrounding area for hundreds of millions of miles."

"I will never let anyone come and disturb me."

"Those monks who came to observe were all arranged in designated positions."

"We'll have someone with us to make sure there aren't any surprises."

Zhang Yuhe nodded lightly.

He said calmly.

"Then let's get started."

I saw him wave his right hand.

One by one, lightning-absorbing pillars with powerful aura quickly fell towards the edge of Galaxy Island in the distance.

Ninety-nine thousand lightning-absorbing pillars at the level of top-grade immortal weapons.

Like a pillar holding the sky, it exudes a majestic momentum and points directly to the sky.

Zhang Yuyu stood on the high platform.

He carefully confirmed the location of each lightning-absorbing pillar.

After confirming that everything is in place.

Zhang Yuhe soared into the sky.

He slowly stretched out his fingers and quickly carved in the void.

Arrays of formations flashed in the void.

The formation patterns slowly connected the Dao Yun Qi machine of the thunder-absorbing pillar.

Then it slowly merged into the void and disappeared.

...

At this time, it is hundreds of millions of miles away from Galaxy Island.

Countless immortal ships and flying boats covered the entire sea surface.

On the leading fairy ship.

Hundreds of Da Luo Immortal Kings stood quietly on it.

Everyone looked at Galaxy Island in the distance.

Although the distance between the two sides is hundreds of millions of miles.

But as the Great Luo Immortal King, they can naturally see the situation on the island.

When they saw the lightning-absorbing pillars standing on the edge of Galaxy Island.

Everyone's faces couldn't help but be filled with shock.

Immortal King Wanshan said with emotion.

"Sect Leader Zhang is indeed a very generous person. Those giant pillars are actually top-grade immortal weapons."

The Immortal King Chaotian next to him also followed suit.

"I just took a quick look. There are millions of Optimus Pillars."

"These are millions of high-grade immortal weapons."

"I really don't know how Sect Leader Zhang refined these things."

The Daluo Immortal Kings next to him were also very puzzled.

As early as 50,000 years ago, the Dao Sheng Sect began to collect third-level immortal materials.

Everyone is guessing what these fairy materials are used for.

Why do you need so many.

When they saw these Optimus Primes.

Everyone understands.

The Dao Sheng Sect collected so many third-level immortal materials probably just to refine these giant pillars.

It's just that fifty thousand years have just passed.

How did the Dao Sheng Sect turn all those immortal materials into high-grade immortal weapons?

This is enough, millions of high-grade immortal weapons.

What kind of weapon refining technique can be used to refine so many high-grade immortal weapons in large quantities in a short period of time?

Wei Tianfeng looked into the distance.

He pondered for a while, and then said with emotion.

"I have achieved some success in the art of refining weapons."

"But it will take at least fifty years to refine a high-grade immortal weapon."

"This still doesn't take into account the failure rate."

"If you let me refine it."

"It would take at least 50 million years to refine so many high-grade immortal weapons."

Everyone nodded.

In fact, everyone is similar.

As the Great Luo Immortal King.

Of course they can all refine high-grade immortal weapons.

Even if there is not too much research on the art of weapon refining.

But there is still no problem in refining high-grade immortal weapons.

But millions of high-grade immortal weapons are a bit exaggerated.

to be honest.

Even if they have practiced for a long time.

But it was the first time that I saw so many high-grade immortal weapons in front of my eyes.

What an eye-opener.

Zhang Yuhe has not yet started to break through the tribulation.

I brought this to everyone, and was extremely shocked.

...

Chapter 479 Wei Tianfeng's little trick

Countless monks are either driving fairy ships or flying boats.

Quietly looking towards the distant Milky Way Island.

Everyone came here with great expectations to watch Zhang Yuhe break through and overcome the tribulation.

Waiting for the birth of the new Da Luo Immortal King.

However.

A long time passed.

However, there was no movement from the direction of Galaxy Island.

This made everyone feel very strange.

Didn't it mean that in just these few days, the Galaxy Immortal Lord would break through the Great Luo Realm and usher in the heavenly calamity?

Why hasn't there been any movement yet?

Although everyone understands.

Breakthroughs in every major realm are not achieved overnight.

It may take a long time to brew.

From induction to breakthrough qi machine, to formal breakthrough.

It is normal to wait hundreds or even thousands of years.

However, at this time, many monks present could no longer hold themselves back.

They can't wait here for hundreds of years.

Section 636

the most important is.

Galaxy Island is extremely far away from here.

Except for those Daluo Immortal Kings and a small number of Taiyi Immortals who master special spiritual eyes and magical powers.

Others can't see the situation on Galaxy Island in the distance at all.

No one knows.

What is the situation on Galaxy Island?

"What's going on? Why is there no movement over there?"

"Isn't it the Galaxy Immortal Lord? It hasn't started yet, right?"

"Maybe we came early."

"Hey, in order to come here and watch Immortal Lord Yinhe break through the tribulation, I also had a pot of elixir, but I gave up right after I was halfway through refining it."

"If I had known this was the case, I might as well have come later."

"Yeah, you really shouldn't have come so early."

"Isn't it true that Galaxy Immortal Lord broke through Daluo Immortal King?"

"Is this news accurate?"

"To be honest, I don't even believe it. After all, Immortal Lord Galaxy has only been practicing for eight million years."

"How can there be such a young Daluo Immortal King?"

"No, the news must be true."

"Just look at those Daluo Immortal Kings in front of you."

"So many Daluo Immortal Kings came to watch."

"This can't be true."

"That's right. Even if Dao Sheng Sect releases false news, it's impossible to deceive so many Daluo Immortal Kings."

"Well said."

"It's a pity that we can't see the situation on Galaxy Island."

"I don't know what the current situation is like with Immortal Lord Galaxy."

"Who says it isn't? We can't see anything here."

"Speaking of the Holy Sect, is it necessary to deploy the blockade so far away?"

"Although the Great Luo Heavenly Tribulation is fierce, it is impossible for it to affect such a far range."

"If I can get closer and use my celestial vision, I can see clearly the situation on the other side of Galaxy Island."

"Maybe it's for safety reasons."

...

The monks at the scene never saw any movement, so they couldn't help but talk about it.

Wei Tianfeng stood on the fairy ship.

Listening to the discussions around him, he couldn't help but frown slightly.

It's really too much for them to talk about the Galaxy Immortal Lord like this.

But he turned around and thought about it.

It seems understandable.

After all, they couldn't see what was happening on the other side of Galaxy Island.

There were many people who gave up what they were doing and came over to watch.

As a result, I can only stand here stupidly.

No wonder these people have some resentment in their hearts.

Everyone doesn't know.

Now Zhang Yuhe is still setting up the tribulation formation.

Galaxy Island is really far away from here.

Even if it is Taiyi Immortal Lord.

If you don't practice special spiritual eyes and supernatural powers, you won't be able to see that far.

Even if they use all their consciousness, they can't see what's going on over there.

"Maybe I can help them."

Think of this.

Wei Tianfeng had an idea.

I saw him wave his right hand.

One after another, formation flags waved from his sleeves.

The formation flag was nailed into the void, and then slowly disappeared.

Seeing Wei Tianfeng's actions.

All the Da Luo Immortal Kings nearby could not help but feel strange.

What kind of trouble are you trying to make?

Immortal King Wanshan asked with some vigilance.

"Brother Tianfeng, what are you going to do?"

Everyone came here to observe Zhang Yuhe's tribulation.

As a result, Wei Tianfeng arranged a large formation here.

No wonder the Immortal King of Wanshan is wary.

Worried that he would try to cause damage.

Although this possibility is very small.

After all, everyone knows what Wei Tianfeng is like.

It shouldn't be possible for him to do such a thing.

And in the previous war.

Zhang Yuhe also once assisted Tianfeng Immortal Territory.

Wei Tianfeng had almost no reason to do anything sabotage.

However, it is necessary to be on guard against others.

Anyone with a clear eye can see it.

The formation that Zhang Yuhe is setting up is very extraordinary.

A formation that can assist in overcoming the Great Luo Heavenly Tribulation.

In the entire immortal world, only a few Tao Ancestors can arrange it.

This is almost the standard configuration of Dao Zusheng.

Don't even think about other immortal realms.

No matter how famous the Great Luo Immortal King is, it is impossible to ask the Tao Ancestor to help arrange this kind of formation.

Now Zhang Yuhe, in front of so many people, arranged a great formation to overcome the tribulation.

There's no guarantee that no one will have any bad intentions.

Wei Tianfeng glanced around and saw the Immortal King Wanshan and others, all looking wary.

He laughed.

"Fellow Taoists, don't be too nervous."

"I just want to do a little trick so that others can see what's going on over there on Galaxy Island."

Hear this.

Everyone breathed a sigh of relief.

Everyone was afraid that Wei Tianfeng might have some bad ideas.

to be honest.

If that's the case.

It would be very embarrassing for these people to be here.

If a fight really breaks out.

Which side they stand at that time will be a question.

Wei Tianfeng smiled slightly.

He quickly pressed the magic formula.

The sky is filled with spiritual energy.

A clear picture slowly appeared in the air.

The situation on the other side of Galaxy Island is completely visible.

Seeing the scene in the sky, all the Daluo Immortal Kings couldn't help but feel surprised.

Immortal King Wanshan asked curiously.

"Brother Tianfeng, what kind of formation is this? It can actually reflect the situation hundreds of millions of miles away."

"Haha, this is a little trick I developed when I was bored."

"It has no other function except observing the situation in the distance."

Wanshan Immortal King nodded gently.

Section 637

He did not ask any more questions.

Countless cultivators around were surprised to see the scene that suddenly appeared in the sky.

"What is this?"

"No, this seems to be a scene on the Galaxy Island."

"Is that the Galaxy Immortal Lord over there?"

"He seems to be setting up a formation."

"Oh my god, what are those giant pillars? They seem to be top-grade immortal weapons."

"No way, so many giant pillars, are they all top-grade immortal weapons?"

"This is too exaggerated, there must be millions of them."

"It can't be wrong, brother, you can't even tell the grade of immortal weapons."

"It's really scary, where did the Galaxy Immortal Lord get so many top-grade immortal weapons?"

"It should be him, Refined, right? "

"Didn't the Daosheng Sect collect third-level immortal materials before?"

"It should be for refining these giant pillars."

"How is it possible? It has only been 50,000 years."

"Even if the Galaxy Immortal Lord has mastered the Thousand Hands Divine Power, it is impossible to refine so many top-grade immortal artifacts in such a short time."

"Who knows? The Galaxy Immortal Lord has countless legends. Refining some top-grade immortal artifacts is nothing."

"That's right. We can only say that our cognition is limited. The work of the peerless genius is not something we can see through."

...

Zhang Yuhe stood above the Galaxy Island, his right hand constantly carving in the void.

Array patterns flashed from his hands one after another.

The array pattern completely connected the breath of the lightning-absorbing pillar.

Then it slowly merged into the void and disappeared.

On the distant sea.

Countless cultivators watched the scene in the sky quietly.

The scene slowly fell into silence.

Although Zhang Yuhe has not yet begun to break through the tribulation.

But the scene of him carving the array pattern is still fascinating.

Various Dao runes come alive in his hands.

Transformed into one after another, different array patterns.

Although most people at the scene.

They simply cannot understand the mystery of these array patterns.

But this does not prevent them from understanding and benefiting from them.

The array is also a manifestation of the Dao.

And the array patterns carved by Zhang Yuhe can make people feel the various Dao rhymes more clearly.

Countless cultivators looked at the picture in the air, intoxicated.

Not only those ordinary cultivators, intoxicated by the picture in front of them.

Even those Daluo Immortal Kings, the same is true.

Although they have practiced for a long time.

Their knowledge is not comparable to that of ordinary cultivators.

However, the array pattern carved by Zhang Yuhe is really too mysterious.

Even the Daluo Immortal Kings at the scene, basically no one can understand the mystery.

But they all know.

Once this formation is activated, the effect must be very general.

Such a mysterious formation pattern, with so many pillars supporting the sky.

The effect of the tribulation formation constructed in this way will definitely exceed everyone's imagination.

Time passed slowly.

Wei Tianfeng suddenly sighed.

"The attainments of Yinhe Xianjun in the formation are really amazing."

As an old-fashioned Daluo Xianwang, he has lived in the fairy world for countless years.

In addition to cultivation.

Wei Tianfeng has a very strong interest in the way of formation.

He has also invested a lot of energy in research.

If it is not an exaggeration.

Among the Daluo Xianwang in the fairy world.

His attainments in formation are at least in the top ten.

However.

He couldn't understand the formation patterns carved by Zhang Yuhe.

To be honest.

Even if Daozu Dadi carved the formation pattern in front of him.

He could understand it roughly.

But he couldn't understand Zhang Yuhe's formation pattern.

These formation patterns are really too mysterious and profound.

It seems to be different from the conventional arrangement ideas of the fairy world.

Wei Tianfeng even has some doubts.

Is this set of tribulation formation a new formation that Zhang Yuhe has just researched?

And these formation patterns were also created by Zhang Yuhe himself.

Although he can't understand the mystery of these formation patterns.

But Wei Tianfeng understands.

The tribulation formation arranged by Zhang Yuhe contains the great truth.

There is almost no doubt.

When Zhang Yuhe finished carving the formation patterns.

This tribulation formation will definitely work perfectly.

And there will be very incredible effects.

Hearing Wei Tianfeng's sigh, the Daluo Immortal Kings around him couldn't help but feel surprised.

They couldn't understand Zhang Yuhe's arrangement ideas. Could it be that even Wei Tianfeng couldn't understand it?

You know.

Wei Tianfeng has a very high attainment in formation.

Tianxing Daozu once praised him.

He said that he just needs to continue to study.

There may be a chance to achieve the status of Daozu with the art of formation.

Even the person praised by Tianxing Daozu could not understand the formation pattern drawn by Zhang Yuhe.

How powerful must the formation he has arranged to overcome the tribulation be?

Wanshan Immortal King asked with some doubt.

"Brother Tianfeng, how effective do you think this formation arranged by Yinhe Immortal King can be when overcoming the tribulation?"

Hearing Wanshan Immortal King's question, the Daluo Immortal Kings beside him all turned their eyes to Wei Tianfeng.

To be honest.

Everyone has been watching for so long.

Actually, they haven't seen too much.

They seem to have entered a blind spot in knowledge.

It's like a primary school student looking at advanced math problems.

They can't understand it at all.

They are all Daluo Immortal Kings.

They can't understand the formation set up by a Taiyi Immortal Lord.

It's a bit unbelievable to talk about it.

But this is the fact.

Wei Tianfeng looked into the distance and said with emotion in his heart.

"The attainment of Yinhe Immortal Lord in the way of formation is far beyond mine."

Section 638

"As for how much help this great formation in front of us will help us overcome the Great Luo Heavenly Tribulation?"

"This is a bit hard to say."

"But what is certain is that the tribulation-transmitting formation set up by Immortal Lord Yinhe will not be as effective as those in the Dao Ancestor Holy Land."

"This is true."

Everyone was shocked when they heard Wei Tianfeng's words.

Is it that exaggerated?

The tribulation-transmitting formation arranged by Zhang Yuhe was actually stronger than the tribulation-transmitting platforms in the Tao Ancestor Holy Land.

This is impossible.

To know.

Most of the tribulation platforms in major holy places in the immortal world were arranged with the help of Tianxing Dao Ancestor.

The Heavenly Dao Ancestor is famous for his formations.

In terms of formation attainments.

He can definitely be called the number one person in the immortal world.

Many other Dao Ancestor emperors could not arrange such a great formation to overcome the tribulation.

I have to ask him for help.

However, in Wei Tianfeng's evaluation.

Zhang Yuhe is setting up this great tribulation formation.

It is actually comparable to the tribulation platform arranged by Tianxing Daozu.

This kind of evaluation really makes everyone feel very incredible.

They know that Zhang Yuhe is very strong.

Many of them have seen Zhang Yuhe's strength.

With full force.

Zhang Yuhe is absolutely capable, comparable to the top Da Luo Immortal King.

But to say that Zhang Yuhe is actually comparable to the Dao Ancestor Emperor in the way of formation.

This makes it a little difficult for them to understand.

It couldn't be Wei Tianfeng, he must have made a mistake.

How could there be such a talented monk in the world?

Not only is his strength incredible.

And he's proficient in everything.

Zhang Yuhe is afraid that it is not the reincarnation of Daozu.

Otherwise.

Where did Zhang Yuhe get so much time to study the art of formations?

Originally, Zhang Yuhe's cultivation speed was very surprising.

Unexpectedly, he could still concentrate on studying the formation.

This is very incomprehensible.

Are there really people in this world who know it from birth?

Wei Tianfeng looked at Zhang Yuhe who was rapidly carving formation patterns over Galaxy Island in the distance.

I couldn't help but have some thoughts.

he thought.

In the future, can you ask Zhang Yuhe to help arrange a great tribulation formation like this in Tianfeng Immortal Territory?

But then I thought about it.

He quickly shook his head silently.

This is simply not possible.

It's not that he can't ask Zhang Yuhe for help.

But their Tianfeng Immortal Territory does not have this capital at all.

Look at those lightning-absorbing pillars standing on the edge of Galaxy Island.

Wei Tianfeng quickly gave up this unrealistic idea.

Nearly a million pieces of high-grade immortal artifacts, even if the entire Tianfeng Immortal Realm is sold.

They may not all come together.

How did Zhang Yuhe obtain so many high-grade immortal weapons?

He still hasn't figured it out yet.

...

Chapter 481 The reputation of the Galaxy Immortal Lord

Countless monks quietly looked at the scene in the sky.

I don't know how much time has passed.

As the last formation pattern was carved.

Zhang Yuhe flew down.

he shouted softly.

"Get into formation."

A light blue light curtain slowly rose from the sea.

The light curtain is like a giant bowl, completely turning the huge Galaxy Island upside down.

As the formation starts.

Waves of invisible waves gently brushed across the sea.

It spread all the way to the entire Ji'an sea area.

See the situation in front of you.

Zhang Yuhe nodded with satisfaction.

Been busy for so long.

Finally, the layout of this imitation version of the Renshui Thunder Absorbing Pillar was completed.

When he first came into contact with this formation in Yu Fantian.

It's just an ordinary fifth-level mortal formation.

However, after his many improvements, earth-shaking changes have already taken place.

The effect of the formation is completely different.

You can say that.

If the Golden Immortal cultivator relies on the current Renshui Thunder Absorbing Formation.

You can completely survive the tribulation while lying down.

No need to move a finger.

There is absolutely no need to worry about being struck by a catastrophe.

Zhang Yuhe faced this tribulation formation that he had improved many times.

Completely confident.

he knows.

Every time I break through a big realm.

The calamity that needs to be faced will be very terrifying.

That's why he puts in so much effort.

Come and keep improving this formation.

It is also relying on the continuously improved Renshui mine-absorbing array.

Only Zhang Yuhe could survive those terrible catastrophes again and again.

He believes it will be the same this time.

No matter how ferocious the Great Luo Heavenly Tribulation that is to follow will be.

With the help of this huge tribulation formation.

He has nothing to fear.

You can definitely get through it successfully.

Zhang Yuhe came to the center of the high platform and slowly sat down cross-legged.

In order to lay out this large formation, he continuously carved formation patterns.

It really took a lot of effort.

He had to restore himself to his most perfect state.

As for whether he can successfully break through to the Great Luo Realm.

this problem.

Zhang Yuhe never considered it.

Because so far, he has not felt the existence of a bottleneck.

Section 639

I don't know if it's because of his own qualifications that are too unbelievable.

There is something special about the Hunyuan Heavenly Scripture technique.

Anyway, since he embarked on the path of immortality.

Cultivation has always been smooth.

It seems that as long as he wants to practice.

You can keep practicing.

As for bottlenecks, he didn't know what it felt like.

Like other monks, a bottleneck may get stuck for hundreds or thousands of years.

Even after Taiyi Xian.

Some monks are stuck in a bottleneck.

It can't be broken through for hundreds of millions of years.

Zhang Yuhe didn't feel this way.

As long as he fills up his cultivation level, he can break through at any time.

Like now.

If he continues to run the Hunyuan Scripture, he can easily reach a higher realm.

"Take it easy first."

Zhang Yuhe sat cross-legged on the high platform and closed his eyes silently.

...

Wei Tianfeng stood on the fairy ship.

Looking at the faint blue light curtain above Galaxy Island.

I couldn't help but fall into deep thought.

Until the Renshui thunder absorbing array was activated.

He finally understood the working principle of this great tribulation formation.

Zhang Yuhe used those giant pillars to pull the power of endless water sources from all directions.

To drive this huge formation.

At the same time, the thunder elements carried by these Optimus Pillars are used.

To assimilate and pull, the catastrophe coming from the sky.

The principle is not complicated.

It can even be said to be very simple.

However.

It is difficult to achieve the desired effect.

It's hard for Wei Tianfeng to imagine.

How did Zhang Yuhe do it, so many thunder-absorbing pillars.

Perfectly connected.

How were those mysterious formations designed?

Wei Tianfeng can be sure.

There must have been no similar formations in the Immortal World before.

Because of these formations.

It was obviously specially designed according to those Optimus Primes.

If it were placed anywhere else, it would have no effect at all.

Zhang Yuhe used this simple idea to design such a complex formation.

have to say.

It really opened his eyes.

It takes a lot of incredible understanding to understand this complicated formation.

Sort them out and design them one by one?

Think of this.

Wei Tianfeng couldn't help but shake his head.

This was beyond his understanding of the monk's abilities.

Even Emperor Dao Ancestor couldn't create such a complicated formation pattern.

...

Countless monks stood in the distance, looking at the scene in the sky.

When they saw the light curtain rising on Galaxy Island.

Everyone couldn't help but get a little excited.

"The Galaxy Immortal Lord has activated the formation, and it should be possible to break through soon."

"A newly promoted Daluo Immortal King will be born soon."

"Don't worry, this hasn't started yet."

"Yeah, how can it be that fast?"

"Not to mention breaking through the Great Luo Immortal King, even if you are breaking through the Golden Immortal Realm, it will take decades of preparation."

"We just wait slowly."

"There are so many Daluo Immortal Kings ahead of us, all of them have the patience to wait."

"Why are we panicking?"

"No way, do we still have to wait here for hundreds of years?"

"It's hard to say. Maybe it's possible to wait for thousands of years."

"Not always."

"Do you think Immortal Lord Galaxy is ordinary monks like us?"

"He is the supreme genius. Maybe he can adjust the situation soon and achieve a breakthrough in one fell swoop."

"You're right, let's just take our time and take a look."

...

Time passed slowly.

Countless monks stood on the fairy ships and flying boats.

While they were watching the formation screen in the sky, they quietly looked into the distance.

Everyone wants to feel that ray of vitality when Zhang Yuhe breaks through.

At this time, it is hundreds of millions of miles away from Galaxy Island.

A large number of Daosheng Sect disciples were led by Elder Jinxian.

Patrolling back and forth along the long blockade.

Even Taiyi Immortal Lords like Lu Yunfei are not idle.

As they watched, they watched the changes on Galaxy Island in the distance.

While staring nervously at the huge crowd of spectators.

to be honest.

Until now.

Lu Yunfei was very puzzled by Zhang Yuhe's move to announce the news in advance.

How troublesome this is.

There were so many people there.

And there are hundreds of Daluo Immortal Kings.

In case someone causes trouble.

With their strength, it is simply impossible to control the situation.

So good so far.

Everyone is observing in a civilized manner.

At most, some low-level monks complained.

There wasn't much of a fuss.

As for those Daluo Immortal Kings, they are all very well behaved.

They completely followed the arrangements of Dao Sheng Sect.

Stay quietly outside the blockade.

Even though their hearts may be filled with all kinds of curiosities.

But no one took a step beyond the blockade.

In fact, Lu Yunfei completely underestimated Zhang Yuhe's energy.

As early as eight million years ago.

Zhang Yuhe's strength is already comparable to the top Da Luo Immortal King.

Now eight million years have passed, and we have reached the threshold of breakthrough again.

How strong is he now?

Section 640

Even Da Luo Immortal King at the scene did not dare to guess easily.

They didn't even dare to risk offending Zhang Yusa.

And to break the rules of Dao Sheng Sect.

It would be great if you can come and observe.

If you don't follow the rules, you will try to interfere with Zhang Yuhe's breakthrough and tribulation.

That's the hatred of blocking the road.

Wait until Zhang Yuhe was successfully promoted to Daluo Immortal King.

Who can stop his anger?

The reputation of the Galaxy Immortal Lord is far more powerful than Lu Yunfei imagined.

...

Chapter 482 It's about to begin

Half a month later.

Zhang Yuhe suddenly opened his eyes.

He stood up slowly and murmured to himself.

"It should be almost ready to start."

Da Luo realm is the most important level in his monastic career.

As long as he successfully breaks through and survives the catastrophe.

After being promoted to Daluo Realm.

Zhang Yuhe's strength will undergo earth-shaking changes.

Because this is not just an improvement in realm.

But a comprehensive sublimation.

After reaching the Daluo realm in cultivation.

He can continue to understand the power of the law.

Once Zhang Yuhe understood all the nine supreme laws to perfection.

How powerful must that be?

The supreme law is perfect, and it has all nine kinds.

There has never been anyone like him in the fairy world.

not to mention.

As long as the rules are perfect.

That means.

He already has all the prerequisites for practicing Taoism.

The method of practicing Taoism.

Zhang Yuhe has it.

In the second volume of the Hunyuan Heavenly Scripture, a powerful Taoist technique is recorded.

Chaos returns to emptiness.

How powerful can Taoism be?

It can be seen from the world that Immortal King Liuyue released in the beginning.

The world of heaven and earth isolates one side, and can even continue to cut out multiple small battlefields.

During the melee.

Can reverse the situation in an instant,

Originally, the less was used to defeat the more, but under the division of the earth, heaven, and earth.

It will immediately switch to a situation where more people fight less.

The independent space separated by the Taoist universe and heaven and earth is extremely stable.

Even the nine-color king beast cannot break out of the siege.

As a Taoist technique included in the Hunyuan Heavenly Scripture.

Zhang Yuhe believes it.

The power of Chaos Returning to the Void must be greater than that of Liuyue Immortal King.

Even stronger.

Because from the description of Taoism.

Chaos Guixu is obviously an extremely powerful range attack technique.

As long as this Taoist technique is successfully used.

Wherever the target is, everything will turn into chaos and become a place of emptiness.

How terrible is it that all things will return to emptiness?

Just from the words, Zhang Yuhe could see how powerful this Taoist technique was.

When I saw the second volume of the Hunyuan Scripture on the stone tablet in Daoshengzong Square.

He yearned for this Taoist skill very much.

Unfortunately.

The prerequisites required to successfully practice Taoism are too stringent.

First of all, you need to cultivate and reach the Daluo Golden Realm.

And it is also necessary to understand all the nine supreme laws to the state of perfection.

the most important is.

If you want to practice Taoism, you must first use the source of things to open the source of the body.

At that time, Zhang Yuhe had just ascended to the immortal world.

Facing these prerequisites is as difficult as climbing to the sky.

He could only sigh with excitement at the sight of Taoism.

Taoism is really far away from him.

Now eight million years have passed.

Zhang Yuhe finally had everything ready.

When he was in the Taixu Secret Realm, he once found an original object.

One of the prerequisites for practicing Taoism has been solved.

Now he only needs a slight push to open the portal to the Great Luo Realm.

After surviving the catastrophe.

He will be officially promoted to the Great Luo Immortal King.

All that's left is to understand the nine supreme laws to perfection.

But for this question.

Zhang Yuhe never cared about it.

With his heaven-defying understanding.

Understanding the power of law has never been a problem.

It's nothing more than spending more time.

That is to say.

He is far away from practicing Taoism.

In fact, it's only one step away.

Wait until you have successfully practiced Taoism.

Zhang Yuhe believes it.

With his own powerful strength, coupled with the power of Taoism.

In this fairy world.

There should be no more threats to his existence.

By that time.

Only then can he be said to be truly immortal, free and fearless.

Except for the chaos of Taoism.

In the second volume of the Hunyuan Heavenly Scripture, there is also a secret technique for opening the body.

The normal orifice-opening secret techniques in the fairy world can only open nine orifices at most.

That is to say.

After reaching the level of Taiyi Immortal.

You can open all the acupoints in Yuanying.

But the secret technique of opening one's body is recorded in the Hunyuan Heavenly Scripture.

But completely different.

Because this secret technique of opening the orifice can also open the tenth orifice.

This is something that has never happened before in the fairy world.
