Section 641

That is to say.

After reaching the Daluo realm.

He can still learn more.

Where the tenth orifice is opened, what effect will it have?

Absolutely no one knows.

In fact, Zhang Yuhe didn't know either.

In the Hunyuan Heavenly Scripture, it only records the method of opening the mind, but does not describe its effects and power.

Normally.

Every time a monk opens an additional orifice, his strength can be increased by 20 to 30%.

For this particular tenth orifice.

Zhang Yuhe thinks.

As long as it is successfully opened, there may be qualitative changes.

The number nine is the ultimate.

Break the ultimate secret of enlightenment.

The effect of this, no matter how high he thought about it.

Not an exaggeration.

Maybe after he opens the tenth orifice.

It is possible to double the strength.

The Hunyuan Heavenly Scripture technique matches his heaven-defying aptitude.

It was the foundation of his rapid rise on the immortal path.

Zhang Yuhe raised his head and looked into the distance.

Think about the past and look into the future.

After a long time.

He slowly came back to his senses and muttered to himself.

"From now on, the name of Galaxy will surely spread throughout the fairy world."

Zhang Yuhe returned to the center of the high platform and slowly sat down cross-legged again.

As the Hunyuan Scripture moves rapidly.

The fairy energy on the sea quickly surged towards Galaxy Island.

The spiritual energy frenzy, centered on Galaxy Island, instantly swept across the entire Ji'an sea area.

There are even some trends that are spreading to the surrounding sea areas.

Zhang Yuhe closed his eyes slightly.

A large amount of fairy energy gathers into the Dantian through the meridians.

At this time, huge waves were already rising in the Dantian sea.

A mini Nascent Soul is floating quietly above the sea in Dantian.

Nine dazzling rays of light kept flashing on Nascent Soul.

in these lights.

Each has a big tree covering the sky, exuding a mysterious Taoist charm.

The nine rays of light on Yuanying's body are exactly the nine acupoints opened by Zhang Yuhe.

And those huge trees that cover the sky hidden in the acupoints are the manifestation of the laws he comprehended.

This is the tree of law.

The Tree of Law at the entry level is less than a foot tall.

Xiao Cheng's Law Tree will not be more than one foot tall.

Now Zhang Yuhe has already understood all nine supreme laws to the state of great success.

The tree of law contained in the aperture has already covered the sky and the sun.

It's a hundred feet high.

Countless fairy spirits poured into the Dantian, causing a tsunami to reach the sky.

The ocean in his Dantian was when he ascended to the state of perfection.

It has already been filled.

A large amount of fairy energy poured into the Dantian, completely placed at a distance.

Only by breaking through to the Daluo realm.

His wide Dantian sea can accommodate more fairy power.

Zhang Yuhe silently ran the Hunyuan Scripture.

The air of the fairy spirit filled the sky and swept over quickly.

The breakthrough is about to begin.

...

Chapter 483 Galaxy Immortal King

As the aura rising in the direction of Galaxy Island, a spiritual energy frenzy swept across the world.

See this situation.

Countless monks stood on the sea in the distance, and everyone couldn't help but be extremely excited.

"Is this about to start?"

"That's natural. Such an obvious anomaly will only appear when you break through a great realm."

"It seems a bit exaggerated, we are so far away."

"The spiritual energy craze has affected this place."

"Fellow Taoist, you still have little knowledge."

"Where are we now? I just received news that even the distant sea area of Tiangong has been affected by the spiritual energy craze."

"No way, that's such an exaggeration?"

"The Tiangong sea area is more than hundreds of millions of miles away from here."

"Even if the Golden Immortal monk flies at full strength, it will take several years."

"Can the vision of the Great Luo Immortal King's breakthrough affect places that far away?"

"Or maybe it's because Immortal Lord Galaxy is a little special that the vision is particularly strong?"

"That's not clear. It's also my first time to watch others break through the Great Luo Realm."

"Speaking of which, we are also lucky. We can actually observe on the spot when an Immortal Lord breaks through to the Great Luo Realm."

"I have to say that Immortal Lord Galaxy is indeed quite impressive."

"When we were making a breakthrough, everyone was hiding cautiously? We were afraid of being disturbed by others."

"The Galaxy Immortal Lord is actually able to make breakthroughs and even overcome tribulations publicly."

"Just this magnanimity is enough for people to look up to."

"Yeah, I don't know if I can comprehend a ray of Tao Yun Qi this time."

"Speaking of which, I have been stuck for 600 million years in the early days of Taiyi Immortal."

"Even if we try all kinds of methods, we still can't resolve the bottleneck."

"I hope that by observing the breakthrough of Immortal Lord Yinhe this time, I can understand a ray of Tao Yun Qi and resolve the bottleneck."

"Hopefully, I have been trapped in the bottleneck for tens of millions of years. This is indeed our chance."

...

Countless monks looked at the scene in the sky and looked at the Milky Way Island in the distance.

At this time, the Galaxy Island was turbulent.

Endless spiritual energy frenzy gathered rapidly.

A huge spiritual vortex formed over Galaxy Island.

Zhang Yuhe closed his eyes slightly and sat quietly in the center of the vortex.

A large amount of fairy energy poured into Dantian crazily.

I don't know how much time has passed.

The mini Nascent Soul on the Dantian sea suddenly opened its eyes.

Yuanying's little mouth opened slightly.

The fairy spirit energy in the Dantian sea gathered crazily towards Nascent Soul.

After a while.

The breath of the mini Nascent Soul began to rise rapidly.

A blazing golden light bloomed from the surface of the Nascent Soul.

The golden glow swept across the Dantian Sea.

The entire Dantian Sea seemed to be covered with a golden glow.

I don't know how long it has been.

The golden glow began to converge and slowly merged into the Nascent Soul.

Section 642

Zhang Yuhe sat cross-legged on the high platform.

A powerful aura quickly rose from his body.

The violent aura, centered on Galaxy Island, quickly swept across the world.

Terrifying pressure enveloped the world.

The frenzy of spiritual energy that originally surged in was blown away in an instant.

The violent aura spread across the world.

It seemed like it was going to crush the whole day.

Distant on the sea.

Countless monks can feel this amazing aura.

Some people with weaker cultivation levels can no longer even stand.

He was directly pressed onto the flying boat.

See this situation.

Everyone felt very frightened in their hearts.

"Is this the power of Daluoxian? It's really scary."

"Galaxy Immortal Lord, oh no."

"The aura of the Galaxy Immortal King is really too powerful."

"I have visited other immortal kings many times, and I have never felt so scary."

"That's different."

"When you went to visit, those Immortal Kings must have restrained their aura."

"Otherwise, with our cultivation, we can get up close and personal with the Immortal King."

"I'm afraid I'll be pushed directly to the ground."

"Now the Galaxy Immortal King has just made a breakthrough, and his momentum has not yet subsided."

"That's why it appears to be particularly powerful."

"Other Da Luo Immortal Kings, if they use their full momentum, they should not be worse than this."

"You know shit."

"I once saw Da Luo Immortal King attack with all his strength on the Chaos Continent."

"Even if it hits the void to pieces, it won't have such a terrifying momentum."

"What's more, Galaxy Island is still so far away from here."

"The terrifying momentum has spread to us, and it is still so terrifying."

"The power of the Galaxy Immortal King is definitely far beyond imagination."

"That's true."

"Galaxy Immortal King is the supreme genius, even if he has just made a breakthrough, he is not comparable to ordinary Immortal Kings."

"You know, in the entire history of the fairy world."

"The Supreme Prodigy who can be successfully promoted to the Great Luo Realm, the Galaxy Immortal King is the fourth."

"Yes, the Supreme Prodigy is invincible at the same level."

"The current strength of the Galaxy Immortal King must be extremely terrifying."

...

Everyone at the scene was talking a lot.

There are also a few lucky ones.

From the terrifying pressure just now, some kind of energy was captured.

He was sitting cross-legged on the flying boat with his eyes closed to reflect.

But this is only a minority after all.

Most of the monks just came to watch the fun.

Immortal King Wanshan stood quietly on the immortal ship.

When he felt the terrifying pressure coming from the direction of Galaxy Island.

He couldn't help but feel relieved.

A supreme genius of the Da Luo Realm was born in the South China Sea Immortal Realm.

This is equivalent to having a Tao Ancestor sitting in charge.

From now on.

There is no more worry in the South China Sea Fairyland.

I believe it will be soon.

The surrounding Chaos Beast tribes will also receive news of Zhang Yuhe's breakthrough.

I'm afraid they can only slowly migrate away from the South China Sea Fairyland.

In the history of the fairy world.

There were once born three supreme geniuses in the Daluo Realm.

Those three supreme geniuses have all left glorious achievements.

Even one of the Supreme Prodigies was able to compete with the Supreme Chaos Beast without losing.

In the view of Wanshan Immortal King.

Zhang Yuhe is even more powerful than those three supreme geniuses.

Maybe wait until your cultivation level improves.

It is possible to overwhelm the supreme Chaos Beast.

Facing such a terrifying being.

How could the surrounding Chaos Beast tribe dare to stay?

They will all be moved away.

This is equivalent to broadening the development space for the South China Sea Immortal Territory.

But there is a premise here.

That is.

Zhang Yuhe had to survive the great catastrophe that was about to come.

The Immortal King of Wanshan understands the horror of the catastrophe better than anyone else.

When he broke through to the Great Luo Realm, he was fully prepared.

Still almost killed by the Heavenly Tribulation.

The monks compete with heaven for their fate.

Every time he breaks through a great realm, it is an act that goes against the will of heaven.

The tests of heavenly tribulations will become stronger each time.

Especially a supreme genius like Zhang Yuhe.

How terrible will the Great Luo Heavenly Tribulation he has caused be.

Immortal King Wanshan couldn't even imagine it.

...

Chapter 484 Bloody Thundercloud

suddenly.

The sky changes color.

The originally clear sky turned into blood in an instant.

Blood clouds filled the sky, swarming towards Galaxy Island quickly.

See this situation.

Zhang Yuhe couldn't help but frown slightly.

He stood up slowly and murmured to himself.

"Blood Thunder Cloud? I've never heard of it. What kind of trouble is this?"

Looking at the blood clouds in the sky.

Zhang Yuhe was speechless.

Why does he always appear in some new tricks every time he goes through a tribulation?

It was easy to say before.

There are just some powerful disasters that are ahead of their time.

But what are these bloody thunderclouds in the sky now?

He has never heard of it.

Zhang Yuhe has seen various records about heavenly catastrophes in ancient books.

Among them, the most powerful catastrophe is the golden thunder.

The blood filling the sky now was indeed beyond his understanding.

to be honest.

Now he is no longer the novice cultivator he was back then.

Section 643

There are not many secrets about the knowledge of cultivating immortals that he doesn't know.

But he has never seen the record of the bloody heavenly tribulation in the classics.

He has not heard other people talk about it.

But one thing is certain.

This heavenly tribulation will probably be much stronger than he imagined.

No wonder there have been so many supreme geniuses in the history of the immortal world.

In the end, only three people were successfully promoted to the Daluo Immortal King.

This kind of bloody heavenly tribulation, you can tell at a glance, is not something that normal people can bear.

Thinking of this.

Zhang Yuhe was a little fortunate.

Fortunately, he made some more preparations.

The Renshui Thunder Absorption Array was improved again.

Otherwise.

I'm afraid it would be a bit difficult.

These 50,000 years and a lot of investment were not wasted.

Zhang Yuhe stood quietly on the high platform, watching the bloody thunderclouds gather in the sky.

His heart slowly calmed down.

It shouldn't be a big problem.

As long as it performs normally.

With the weakening effect of the Renshui Thunder Absorption Array, he will definitely be able to survive this heavenly tribulation.

...

The Daluo Immortal Kings in the distance looked at the blood-colored thunderclouds that suddenly appeared in the sky.

They were all shocked.

The Immortal King Chaotian exclaimed loudly.

“What are these blood-colored thunderclouds?”

“When I was undergoing the tribulation, there was no such situation.”

The Immortal King Wanshan next to him said in a deep voice.

“As the Supreme Heavenly Pride, the heavenly tribulation that the Yinhe Immortal King needs to face must be different from ours.”

“Otherwise, so many Supreme Heavenly Tribulations that were once amazing would not fall under the heavenly tribulation.”

In fact, he did not see what these blood-colored thunderclouds in the sky were.

What exactly was it.

Even though the Immortal King Wanshan had practiced Taoism for a long time and had a wide range of knowledge.

But he had never heard of it.

When a cultivator undergoes the tribulation, such terrible blood-colored thunderclouds will appear.

At this time.

Wei Tianfeng next to him suddenly spoke solemnly.

"If I'm not mistaken, this should be the calamity of the Great Dao."

"It is the calamity that will come after breaking through the Daozu realm."

"Ah."

Hearing this.

The group of Daluo Immortal Kings nearby were shocked.

Among so many of them, no one has ever seen the Daozu Heavenly Tribulation.

Nor has he seen the record of the Daozu Heavenly Tribulation in the classics.

This kind of information is almost exclusive to the Daozu Holy Land.

They simply have no way to obtain it.

Wanshan Immortal King muttered to himself.

"Is this the Daozu Heavenly Tribulation? It is really terrible."

Looking at the blood-colored thunderclouds in the sky.

A group of Daluo Immortal Kings at the scene were silent.

They are also ambitious people.

Hope that one day, they can seek opportunities and try to impact the Daozu realm.

Especially Wanshan Immortal King.

He has already improved his cultivation to the perfection of the Daluo realm.

And he has also improved his immortal body and the power of the nine laws to the perfection realm.

As long as he finds another opportunity and finds an original object,

He will have a chance to impact the realm of Daozu.

However, looking at the sky.

Such a terrible blood-colored thundercloud.

Wanshan Immortal King has no confidence at all.

Such a terrible heavenly tribulation.

He can't survive it.

No matter how much preparation he makes.

He can't survive it.

Unless...

Wanshan Immortal King looked up at the Milky Way Island in the distance.

A light blue light curtain enveloped the entire island.

If this great tribulation formation is powerful enough.

Maybe he can borrow it in the future.

Zhang Yuhe stood with his hands behind his back, standing quietly on the high platform.

Nine immortal swords surrounded his body and flowed slowly.

Facing the impending heavenly tribulation.

He did not use other defensive means.

There was no need.

The Nine Heavens Hunyuan Sword Formation is both offensive and defensive.

This is his strongest defensive means.

If even this sword formation can't withstand it.

Then it would be useless to use more defensive immortal weapons.

What's more.

There is also the Renshui Thunder Absorption Formation.

Zhang Yuhe believed it.

After being weakened by the light curtain of the formation.

No matter how powerful the power of the heavenly tribulation is, he can withstand it.

Boom...

The blood-colored thunderclouds gathered quickly.

A huge blood-colored vortex formed above the Milky Way Island.

A series of terrible roars and continuous vortexes came out.

At this moment.

The blood-colored vortex in the sky was suddenly torn apart.

The blood-colored thunder in the sky, like a storm, rushed directly to Zhang Yuhe on the Milky Way Island.

The thunder was not one or two.

Instead, it came down from the sky and covered the sky.

Seeing this situation.

Zhang Yuhe was simply stunned.

This is completely out of the routine.

Shouldn't the heavenly tribulation be struck down one after another?

How could so many blood-colored thunders strike down at the same time?

If you want to use an immortal weapon to withstand it.

A top-grade defensive immortal weapon, I'm afraid it can't even withstand a breath.

No wonder those supreme geniuses in the past.

In the end, they all fell under the heavenly calamity.

Section 644

Can a normal person withstand such a severe catastrophe?

Zhang Yuhe took a deep breath.

Follow the magic formula and pinch it.

The Nine Immortal Swords slowly unfolded.

Layers of sword energy light curtains slowly extended from around him to the outside.

Zhang Yuhe did not dare to be careless at all.

Originally, he thought he was well prepared.

There is a Renshui thunder-absorbing formation.

Surviving the catastrophe should be easy.

After all, it starts from the Void Refining Realm.

He has survived countless catastrophes.

No matter how abnormal the power of the heavenly tribulation is.

After being weakened by the Renshui Thunder Absorbing Array.

He finally got through it.

But this time, the situation seems to be a little different.

Now the catastrophe has just begun.

It came so violently.

How terrifying will the thunder behind it be?

Zhang Yuhe simply couldn't imagine it.

According to the classic records.

There are as many as ten thousand rounds of Great Luo Heavenly Tribulation.

It lasts about three days.

And the Thunder will get stronger and stronger in the future.

Wait until the last round of catastrophe comes.

It won't destroy the entire Ji'an sea area.

Zhang Yuhe thought silently while unfolding the sword formation.

...

Chapter 485 Easy to deal with!

Bloody thunder poured down from the sky, heading towards Zhang Yuhe in the center of Galaxy Island.

The light curtain held up by Renshui's thunder-absorbing array emits a faint blue light.

When the bloody thunder in the sky descended over Galaxy Island.

The blue light curtain vibrated slightly.

Those terrifying bloody thunders were quickly absorbed and pulled by the blue light curtain.

Quickly slide down to the edge of the Milky Way Island in the distance.

Boom...

Drawing scattered bloody thunder, it bombarded the surrounding sea.

It set off a huge wave.

A strong tsunami, centered on Galaxy Island, quickly swept through the entire Ji'an sea area.

Zhang Yuhe unfolded his sword formation and stared closely at the bloody thunder in the sky.

After being pulled and absorbed by the blue light curtain.

These terrifying bloody thunders are rapidly being weakened at a speed visible to the naked eye.

See this situation.

Zhang Yuhe finally breathed a sigh of relief.

fine.

After many improvements.

The Renshui Thunder Absorbing Formation is indeed powerful enough.

Even these bloody thunders are extremely powerful.

But after encountering the blue light curtain held up by the Renshui thunder-absorbing array.

It's like snowflakes are melting quickly when they meet the sun.

The remaining thunder power passed through the blue light curtain and headed towards the center of Galaxy Island.

Boom...

Bloody thunder struck continuously on the peripheral sword energy light curtain.

The sword energy light curtain caused violent vibrations.

However, the Nine Heavens Hunyuan Sword Formation is worthy of being the magical power that comes with the Hunyuan Heavenly Scripture.

The power is extremely powerful.

Whether it is attack, suppression, or defensive capabilities.

They are all incomparable.

The powerful bloody thunder, after being weakened.

Even the outermost sword energy light curtain failed to penetrate.

Then slowly dissipated.

See here.

Zhang Yuhe finally felt confident.

These bloody thunders are indeed very ordinary.

But he prepared the tribulation formation and the sword formation to protect himself.

Equally powerful.

This Great Luo Heavenly Tribulation shouldn't be a problem for him.

Thunderclouds gathered in the sky.

The second round of bloody thunder came again.

Zhang Yuhe unfolded his sword formation and easily blocked the bloody thunder tens of thousands of miles away.

Those terrible thunders couldn't even hurt a hair on his head.

The catastrophe continues.

Zhang Yuhe stood on the high platform, his face completely unafraid.

At least these bloody thunders in front of him won't bring him too much trouble.

Based on past experiences of overcoming tribulations.

The real test should be in the final rounds.

The Great Luo Heavenly Tribulation has as many as ten thousand rounds and will last for three days.

Not to mention the power of the heavenly tribulation.

This long period of time alone is a great test of the monk's ability to continue.

For ordinary monks, maybe on the first day.

Just because the magic power in Dantian was exhausted, he was unable to withstand the subsequent catastrophe.

But Zhang Yuhe was not worried.

His Dantian is as wide as the sea.

As long as you don't use super explosive magical powers like Hunyuan Guiyi.

The magic power in his Dantian will never be used up.

A calamity like this.

Even if it lasts for several years.

Zhang Yuhe doesn't have to worry that he will drain all the mana in the Dantian sea.

The Hunyuan Scripture combined with his heaven-defying talent makes him more powerful in all aspects than other monks.

This includes sustained combat capability.

His surging mana can definitely be used up against the Heavenly Tribulation.

In the direction of Galaxy Island, bloody thunder roared continuously.

Billions of millions away, far away.

Countless monks passed through the formations arranged by Wei Tianfeng and watched all of this quietly.

Looking at the bloody thunder in the picture, everyone couldn't help but be frightened.

Even though they were so far apart, they just saw this scene on the formation screen.

Still feeling very scared.

The power of the bloody thunder seems to be able to span billions of miles of space.

Hitting the depths of people's hearts.

"These bloody thunders are so scary."

Section 645

"Yeah, I can't even look directly at the scene in the sky."

"It's hard to imagine how the Galaxy Immortal King managed to survive."

"The bloody thunder completely submerged the entire Galaxy Island."

"You can't even see the Galaxy Immortal King in the sky."

"I don't know what his current condition is?"

"You won't be able to bear it, right?"

"Don't worry, the Galaxy Immortal King is such a genius, such a catastrophe should not be a problem for him."

"hope so."

"Perhaps we are witnessing the rise of a legend."

...

Compared to those ordinary monks, they can only pass the formation screen.

Come and observe the catastrophe on Galaxy Island.

The Daluo Immortal Kings on the Immortal Ship rely on their own spiritual senses.

You can clearly see the situation on Galaxy Island.

When they saw it, Zhang Yuhe unfolded his sword formation calmly.

When those terrifying bloody thunders were easily blocked.

Everyone couldn't help being shocked.

Are these bloody thunders really a great catastrophe?

I'm afraid it's not fake, right?

Otherwise.

How could Zhang Yuhe deal with it so easily?

It even feels much easier than dealing with ordinary disasters.

Although the catastrophe has just begun.

But as a great tribulation, how could it only have such a small amount of power?

It's very unscientific.

Think of this.

Everyone looked at Wei Tianfeng next to them.

Because it was Wei Tianfeng who said the statement about the Great Heavenly Tribulation.

No one has ever seen such a bloody disaster.

I haven't even seen any relevant records in the classics.

They knew nothing about the great tribulation.

Only Wei Tianfeng knows better because he has lived for countless years.

Wei Tianfeng pondered for a while before speaking slowly.

"If I read it correctly, the great tribulation formation arranged by the Galaxy Immortal King."

"At least half of the power of the Heavenly Tribulation has been weakened."

"Otherwise, he wouldn't be so relaxed."

"The Great Heavenly Tribulation is terrifying, although I have never seen it with my own eyes."

"But according to the records."

"Using ordinary defensive top-notch immortal weapons, you can't even withstand a few rounds."

"The terrifying level of the Great Heavenly Tribulation is far more powerful than we imagined."

"Of course."

"Although the Heavenly Tribulation caused by the Galaxy Immortal Lord is the scope of the Great Dao Heavenly Tribulation."

"But because now he has only broken through to the Great Luo Realm."

"So the power of the Heavenly Tribulation should be much weaker than the Heavenly Tribulation that leads to promotion to the Dao Ancestor Realm."

"He was able to cope with it so easily under the influence of multiple factors."

"But the most critical one is the great tribulation formation."

"This tribulation-transmitting formation arranged by the Galaxy Immortal King is probably more effective than I imagined."

After listening to Wei Tianfeng's narration.

Everyone nodded.

If you put it this way, they can understand.

Originally they thought.

The calamity Zhang Yuhe faced was the same as when others were promoted to the Tao Ancestor Realm.

If that's the case.

That's a bit of an exaggeration.

Now that they think about it, they understand.

After all, Zhang Yuhe is only promoted to the Da Luo realm now.

The calamity he faced was impossible to compare with when others were promoted to Dao Ancestor.

Coupled with the weakening of the formation.

No wonder he could deal with it so easily.

...

Chapter 486 Explodes with full strength!

The bloody thunder in the sky continued to fall.

Zhang Yuhe stood quietly in the center of the high platform with his hands behind his hands.

Layers of sword energy light curtains stretched from his surroundings to tens of thousands of miles away.

Thunder roared continuously.

But it couldn't even hurt a hair on his head.

The whole process of overcoming the tribulation was so relaxing and comfortable.

Just like Zhang Yuhe, he is not overcoming the tribulation.

Instead, he practiced sword formations with magical powers.

Those terrifying bloody thunders still couldn't penetrate the outermost sword energy light curtain.

Under the protection of layers of sword energy light curtains.

At this time, Zhang Yuhe's condition was still extremely safe.

There is no danger.

Time passed slowly.

The power of the Heavenly Tribulation is also gradually increasing.

despite this.

Those terrible bloody thunders.

After being weakened by the Renshui Thunder Absorbing Array.

They were still blocked out by the sword energy light curtain.

Three days later.

The power of the bloody thunder becomes stronger and stronger.

Zhang Yuhe stood with his hands behind his back.

Quietly looking up at the sky.

Now more than nine thousand rounds of heavenly tribulation have passed.

Probably another few hundred rounds.

His tribulation this time is considered over.

Another moment passed.

The bloody thunder in the sky became more and more dense.

Zhang Yuhe looked around.

Wherever he looked, the entire sky was filled with blood.

Except after these bloody thunders.

There is nothing else.

The blood-colored thunder in the sky was like an overwhelming mountain, rushing toward Galaxy Island.

The light blue light curtain on the periphery constantly vibrates gently.

The boundless tsunami swept across the world, and the desire was as high as the sky.

Bloody thunder continued to pass through the Renshui thunder formation.

Bombarded the sword energy light screen.

The sword energy light curtain was originally as stable as Mount Tai.

Finally I couldn't bear it anymore.

Section 646

The outer layers of sword energy light curtains were constantly shattered by the blood-red thunder.

Zhang Yuhe quickly pinched the magic formula.

The vast mana was continuously injected into the sword formation.

The shattered sword energy light curtains were constantly restored.

He knew.

Now it was almost the last moment.

Based on past experience.

The power of the last ten rounds of heavenly tribulation.

It would even be more powerful than all the previous heavenly tribulations combined.

Zhang Yuhe's face was grim.

There was no more carelessness.

The sword formation light curtain was constantly shattered, and then quickly restored.

This cycle continued.

Zhang Yuhe kept the sword formation light curtain tens of thousands of miles away.

In this way.

Even if the power of the heavenly tribulation suddenly increased.

After being intercepted by layers of sword energy light curtains, he could buy enough time to respond.

Boom...

Suddenly there was a bang in the sky.

Countless blood-red thunders poured down from the sky.

The powerful pressure swept across the four directions.

Even the mountains on the Galaxy Island were constantly crushed by this might.

The heavenly tribulation has not yet fallen.

Just relying on the might and momentum.

It crushed the mountains one by one.

How terrible is this?

Seeing this situation.

Zhang Yuhe's heart trembled.

He knew.

The most critical moment has come.

This is the last ten rounds of heavenly tribulation.

As long as he survives this wave.

From then on, he can roam freely in the sky and on the ground.

Zhang Yuhe concentrated his mind and injected immortal energy into the sword formation with all his strength.

He didn't think about anything now.

He just focused on controlling the sword formation and continuously expanding the sword energy light curtain to the periphery.

The support range of the sword energy light curtain should be as far as possible.

Soon.

The blood-colored thunder passed through the Renshui Thunder Absorption Formation and quickly broke the outer sword energy light curtain.

The blood-colored thunder in the sky kept approaching Zhang Yuhe.

Some tiny lightning threads even passed through layers of sword energy light curtains.

They hit Zhang Yuhe directly.

It made him feel a little numb.

This made him more awake.

The immortal energy in Dantian was injected into the sword formation like it was free.

The outer sword energy light curtain was constantly shattered and restored.

Those terrifying blood-colored thunders seemed endless.

They never stopped.

They kept bombarding.

Finally, they even broke through layers of sword energy light curtains until they were hundreds of miles away from him.

Then they began to gradually dissipate.

I don't know how long it took.

The endless thunder finally stopped.

Zhang Yuhe looked up at the sky.

The heavenly tribulation was not over.

The whole sky was still blood-colored.

And the blood-colored thunderclouds in the sky became even more dense.

The strong wind rolled up the blood clouds all over the sky, and they gathered madly towards the direction of the Milky Way Island.

Seeing this situation.

Zhang Yuhe muttered to himself.

"There is only one last round left."

The power of this heavenly tribulation was stronger than he had imagined.

Even though he had made sufficient preparations.

The last few rounds of blood-colored thunder just now continued to break through countless layers of sword energy light curtains.

Finally, it completely dissipated only a few hundred miles away from him.

You know.

Just now, he tried his best and did not relax at all.

Those terrible blood-colored thunders can still penetrate his sword formation defense.

In other words.

As long as the blood-colored thunder is strengthened.

It may hit him.

Now there is only the last round of heavenly tribulation.

Zhang Yuhe knew.

This last round of heavenly tribulation is definitely not that easy, so let him bear it.

"It seems that I have to use the trump card in the box."

Thinking of this.

Zhang Yuhe quickly pinched the magic formula.

A strong breath rose from him.

The pressure was across the world.

Even the power of the heavenly tribulation was suppressed.

In order to ensure the safety of the heavenly tribulation.

Zhang Yuhe decisively activated the magical power of Hunyuan Guiyi.

At this time.

He no longer held back.

The magical power of Hunyuan Guiyi is his most powerful trump card.

Since he embarked on the path of immortality.

Zhang Yuhe has encountered many crises.

But every time he activates the magical power of Hunyuan Guiyi.

No matter how big the crisis is, he can get through it safely.

With this magical power, he is enough to defy the heaven.

This magical power activated by the Hunyuan Dao body.

It can be said that it is his innate magical power, or his innate magical power.

The magical power of Hunyuan Guiyi instantly increases his strength tenfold, and there are no sequelae.

Zhang Yuhe has been practicing Taoism for eight million years and has never heard of it.

There is a magical power stronger than Hunyuan Guiyi.

At this time, the aura on Zhang Yuhe's body.

It has been promoted from the Daluo realm to the perfection of the Daluo realm in an instant.

It is even slowly increasing.

The powerful pressure swept across the four directions.

It was like the Taoist ancestor himself.

Section 647

In order to successfully survive the disaster.

Zhang Yuhe can't control that much.

Directly choose to explode with all your strength.

Anyway, in another hundred years, Hunyuan will have its magical powers and will be able to cool down.

Recently, the Chaos Continent has been completely peaceful.

Nothing major should happen.

He doesn't need it and keeps this trump card.

the most important is.

Zhang Yuhe was worried.

In case he is too conservative.

I'm afraid it might overturn.

to him now.

Nothing is more important than successfully surviving the catastrophe.

If you are not careful, you will be directly killed by the disaster, or seriously injured.

That's nonsense.

If you have a trump card, use it.

There is no future in keeping it.

...

Chapter 487 From now on, anyone in heaven and on earth can be free

After Zhang Yuhe activated the magical power of Hunyuan Guiyi.

The tyrannical pressure swept across the world.

The monk who was observing his tribulation in the distance was suddenly overwhelmed by the sudden pressure.

Immediately shocked.

Many monks with weaker cultivation were even directly pressed onto the flying boat.

"What the hell is this?"

"Why did the aura on the Galaxy Immortal King suddenly become so terrifying?"

"Maybe it's some explosive magical power."

"What a joke."

"What kind of explosive magical power can be so powerful?"

"I feel that the current power of the Galaxy Immortal King is as powerful as the Dao Ancestor Emperor."

"I do not know."

"But it's really too powerful."

"Originally, I was worried that the catastrophe would be too fierce, and that the Galaxy Immortal King might not be able to withstand it."

"Now it seems that I still know too little."

"Yes, the methods of the Galaxy Immortal King are indeed eye-opening."

Relative to the ordinary monks on the scene.

The Daluo Immortal King on the Immortal Ship had a calm expression on his face.

They already knew it.

Zhang Yuhe has a powerful explosive magical power.

As long as this magical power is turned on, the strength can be increased several times in an instant.

During the battle in the South China Sea Immortal Territory.

It is precisely through this magical power.

Only Zhang Yuhe could use the power of the sword formation to overwhelm thousands of king-level chaos beasts.

I have never seen Zhang Yuhe use this magical power before.

Everyone is still a little strange.

It turned out that I wanted to stay until now to deal with the last wave of catastrophe.

All the Da Luo Immortal Kings on the scene looked quietly at the direction of Galaxy Island in the distance.

everybody knows.

Now has arrived, the most critical moment.

As long as Zhang Yuhe can survive this catastrophe.

Then he is the fourth supreme genius in the Daluo realm in the history of the fairy world.

And he is the only one alive, the Supreme Prodigy of Daluo Realm.

The first three supreme geniuses in the Da Luo Realm have long been lost in the long river of history.

The supreme genius is extremely talented.

Not only are they powerful, but their cultivation speed is far faster than ordinary people.

It is even possible that the energy that wants to break through will not be suppressed.

It is precisely because of this.

Only those supreme geniuses will fall under the catastrophe.

Otherwise.

Queen Taiyi's life span is unlimited.

There are not so few supreme geniuses in the immortal world.

Even in dozens of surrounding immortal realms.

Currently, only Zhang Yuhe, the supreme genius, exists.

...

Bloody thunderclouds gathered quickly.

A huge vortex formed over Galaxy Island again.

Terrible roaring sounds continued to come from the vortex.

To this.

Zhang Yuhe ignored it.

After activating the magical power of Hunyuan Guiyi.

Take advantage of the strong momentum now.

Zhang Yuhe was running the Hunyuan Scripture like crazy.

The majestic immortal energy is continuously injected into the sword formation.

Layers of sword energy light curtains began to expand to the periphery.

The huge sword energy light curtain even extends to the edge of Galaxy Island.

Countless sword energy light curtains.

It provided Zhang Yuhe with countless layers of protection.

Boom...

Just at this time.

There was a loud noise in the sky.

The huge bloody vortex was torn apart in an instant.

A bloody thunderbolt as big as a mountain emerged from the vortex.

The moment the bloody thunder appeared.

The whole world seemed to have fallen into silence.

Everything is silent.

Carrying the power of destruction, the bloody thunder rushed straight to the center of Galaxy Island.

Click...

When the bloody thunder came into contact with the Renshui thunder-absorbing array, it was behind the blue light curtain.

There was a soft crisp sound.

Zhang Yuhe once blocked countless catastrophes.

It collapsed and dissipated.

But the moment the light curtain dissipated.

The power of the bloody thunder also weakened a lot accordingly.

Renshui Thunder Absorbing Formation is at this most critical time.

Still doing his best for Zhang Yuhe.

Boom...

With terrifying power, the bloody thunder instantly struck the surrounding sword energy light curtain.

These powerful sword energy light screens can even easily block the attack of Daluo Immortal King.

However, facing this, the terrifying bloody thunder.

Section 648

Hardly even a moment was blocked.

The layers of sword energy light curtains are rapidly dissolving.

Zhang Yuhe ignored these.

He just silently ran the Hunyuan Scripture.

The fairy spirit energy in the dantian was injected crazily towards the sword array as if it was free of charge.

The sword energy light curtain that had originally melted was fully restored in an instant.

The bloody thunder seemed unstoppable.

Breaking through the layers of sword energy light curtains, he headed straight for Zhang Yuhe.

However, as the Hunyuan Scripture, it has its own magical powers.

The power of the Nine Heavens Hunyuan Sword Formation is indeed extremely extraordinary.

Faced with such a terrifying bloody thunder.

The layers of sword energy light curtains melted rapidly.

But it still had the effect of blocking the bloody thunder.

Under Zhang Yuhe's full urging.

The sword energy light curtain melted layer by layer, and then quickly recovered.

This goes on and on.

I don't know how much time has passed.

It seems like a moment has just passed, and it seems like hundreds of millions of years have passed.

The bloody thunder, as majestic as a mountain, was intercepted by layers of sword energy light curtains.

The power is finally slowly weakening.

The huge Nine Heavens Hunyuan Sword Formation was once again fully deployed.

The remaining thunder power struggled to pass through the sword energy light curtain.

The terrifying bloody thunder left only a trace of red in the end.

Staying only five miles away from Zhang Yuhe.

Then it quickly disappeared.

The thundercloud dissipated.

The sky becomes bright again.

See this situation.

Zhang Yuhe finally breathed a sigh of relief.

This catastrophe is really scary.

After activating the magical power of Hunyuan Guiyi, he almost failed to block it.

He just couldn't imagine it.

How did those three supreme geniuses survive the Great Luo Heavenly Tribulation?

Are other people like him?

Are there so many powerful trump cards?

Think of this.

Zhang Yuhe shook his head gently to clear the chaotic thoughts in his mind.

Everyone has their own opportunities.

He can come from Blue Star, a place without any aura.

Relying on Lu Yunfei, he set up a large formation at will and embarked on the path of cultivating immortals.

Then it got all the way to where it is now.

Of course others can too.

Zhang Yuhe raised his head and looked at the sky.

Suddenly he looked up to the sky and roared.

After surviving the Great Luo Heavenly Tribulation, he felt extremely comfortable.

I have been on the path to immortality for so many years.

Zhang Yuhe has been growing up obscenely.

He was afraid of provoking an enemy that he couldn't deal with and causing him catastrophe.

After suppressing Long Aotian in the Taixu Secret Realm.

He has been in constant fear for several years.

He was afraid that Long Yuanguang from the Divine Beast Sect would come to trouble him.

Thinking of all the past.

Zhang Yuhe couldn't help but look up to the sky and roar to express his current happy mood.

From now on.

In this world, no one can threaten his safety.

Whether it's the Dao Ancestor Emperor or the Supreme Chaos Beast.

Zhang Yuhe will no longer be afraid.

Wait until he has all the means in the Da Luo Realm ready.

When Hunyuan normalization is turned on.

Maybe he could suppress even Daozu Emperor with his backhand.

To the point where he is now.

What does he have to fear?

From now on, he will be free in heaven and on earth.

...

Chapter 488 Why not?

The thunderclouds dissipated and the sky became clear again.

Countless monks couldn't help but marvel when they saw this situation.

"The Galaxy Immortal King succeeded. From then on, there is another Immortal King in the immortal world, and he is also a supreme genius."

"This is a great blessing for our human race."

"Yes, the human race is the leader of all things, and geniuses are born from generation to generation."

"Now there is the Galaxy Immortal King, the Optimus Prime."

"I believe that one day in the future, this fairy world will definitely belong to my human race."

"Hey, fellow Taoist, I don't want to say this."

"It is the consensus of the fairy world that the three tribes of humans, monsters and demons fight against the chaos beasts together."

"If you say that, I'm afraid the demon and demon clans will be very unhappy if they hear it."

"Hmph, that's bullshit. The three races are fighting against the Chaos Beast. If they are not from my race, their minds must be different."

"You have never dealt with the demon clan."

"Otherwise, you wouldn't think so."

"Oh, does Taoist friend know some secrets? Can you tell me about it?"

"There's no secret."

"It's just that I heard rumors that it was as early as ancient times."

"The demon and demon clans have been trying to cooperate with the Chaos Beasts, but they just couldn't get it right."

"Coupled with the suppression of Emperor Tianzuo, the two demon clans dare to act arrogantly."

"Oh, there's more to this?"

"It's just a rumor, I don't know if it's true or not."

"But even if the demons and monsters turn against each other, we humans are not afraid at all."

"There are currently more than forty Taoist emperors in the immortal world, and we humans have more than twenty, accounting for nearly half."

"If the demons and demons want to die."

"We, the human race, are dealing with the chaos beasts and demons at the same time, and we are equally fearless."

"Yes, the human race stands between heaven and earth, so we should move forward bravely, so there is nothing to be afraid of."

"Sooner or later, this fairy world will belong to our human race."

"What kind of chaos beasts, what kind of monsters and demons will be swept into the garbage dump sooner or later."

"Haha, fellow Taoist is right."

...

Seeing the Heavenly Tribulation dissipating, countless monks at the scene couldn't help but get excited.

Even his confidence swelled.

It was as if he had made a breakthrough.

But this matter was indeed worth everyone's joy.

Zhang Yuhe successfully advanced to the Daluo realm.

Section 649

This is not just that the human race has an additional Da Luo Immortal King.

To know.

Zhang Yuhe is the supreme genius.

An invincible existence at the same level.

As long as he breaks through successfully.

It is equivalent to the human race having one more person, the invincible Da Luo Immortal King.

It is even comparable to the existence of Daozu Emperor.

Faced with such blessings.

Can everyone be unhappy?

The Immortal King of Wanshan stands on the Immortal Ship.

After seeing the black clouds dissipate.

He smiled and said to everyone.

"Let's go, Galaxy Immortal King has successfully overcome the tribulation. Let's go over and congratulate him."

"Haha, I have to congratulate you properly and let's go."

All the Immortal Kings responded in unison.

Hundreds of fairy ships turned into streams of light and quickly flew towards the Milky Way Island in the distance.

At this time, Zhang Yuhe was standing quietly on the high platform, silently comprehending his own changes.

After being successfully promoted to Da Luo realm.

The aura on his body was still slowly improving.

The tyrannical momentum shook the void.

Because he had just succeeded in breaking through, he still couldn't perfectly control the aura on his body.

After a while.

Zhang Yuhe took a deep breath.

The strong aura finally slowly subsided without any trace of it being exposed.

At this time, he was like an immortal coming to the world.

Standing in the air.

Just at this time.

Zhang Yuhe suddenly raised his head and looked into the distance.

I saw hundreds of streams of light streaking across the sky, heading towards Galaxy Island.

See this situation.

Zhang Yuhe smiled slightly.

The hearty voice of Wanshan Immortal King came from a distance.

"Congratulations to Sect Master Zhang on your successful promotion to Da Luo Immortal King."

follow closely.

Hundreds of magnificent voices came over in unison.

"Haha, congratulations to Sect Master Zhang for your successful promotion to Da Luo Immortal King."

Zhang Yuhe quickly jumped out of the air.

He looked away, smiled and responded with his hands.

"Thank you all fellow Taoists. I am lucky enough to succeed."

After a while.

Everyone fell down on the high platform one after another.

Zhang Yuhe bowed his hands in greeting one by one.

Everyone stood on the high platform and looked at Nuo Da's Galaxy Island, except for the Heavenly Tribulation Peak.

Almost all were razed to the ground.

Even many places were directly blasted into the bottom of the sea by the catastrophe.

The Milky Way Island was originally millions of miles in radius.

Now only Galaxy Peak is left, which is still intact.

It can be seen from this.

How powerful were the previous heavenly tribulations.

Talk about the power of destroying heaven and earth.

Not too much at all.

On the outskirts of Galaxy Island.

Most of the nearly one million Optimus Pillars have fallen over.

Only a few lightning-absorbing pillars are still standing.

When facing the last round of catastrophe.

The light curtain held up by Renshui's thunder-absorbing array was also broken by the terrifying bloody thunder.

Ever since Zhang Yuhe used this great tribulation formation.

This is the first time.

However, the Renshui Thunder Absorbing Formation was penetrated by the Heavenly Tribulation.

But this does not mean that this formation will be destroyed from now on.

The thunder-absorbing pillars arranged in the array are all high-grade immortal weapons.

It's not that easy to be destroyed.

Even if it is damaged, it can still be used after repair.

All it takes is Zhang Yuhe to re-draw the formation pattern.

This will be one of the most powerful tribulation formations in the immortal world.

Wei Tianfeng looked around and looked at the crooked thunder-absorbing pillars.

He couldn't help but said with emotion.

"This great tribulation formation arranged by Sect Master Zhang is really powerful."

The Immortal King Da Luo next to him also responded.

"Yes, this formation can weaken and resolve the terrible catastrophe before."

"Without this great tribulation formation, it would be unimaginable to face such a terrible catastrophe."

"Compared with ordinary tribulation-transmitting platforms, this tribulation-transmitting formation arranged by Sect Master Zhang is indeed unique."

While everyone is chatting.

Wei Tianfeng suddenly turned his head and asked Zhang Yuhe.

"Sect Leader Zhang, I wonder if our disciples can borrow this tribulation formation in the future."

Hear this.

Everyone turned their attention to Zhang Yuhe.

They also have this need.

Zhang Yuhe responded with a smile.

"sure."

With the help of the Tribulation Transcendence Formation, there is no problem.

no matter who.

You can all borrow it from Dao Sheng Sect's Tribulation-Transcending Formation.

But it's not free.

You have to be able to get something that satisfies him.

The formation was originally arranged on Galaxy Island to assist Taiyi Immortal in overcoming the tribulation.

I have borrowed it from others.

In fact.

The superpowers of all parties can use it as a platform to transcend tribulation.

As long as you have the means and can come up with something satisfying.

Others will naturally lend it to you.

Even the Tribulation Platform in the Tao Ancestor Holy Land will be borrowed from others.

But first, you have to establish a relationship with the people in the Dao Ancestor Holy Land.

And then we have to come up with something that satisfies the Holy Land.

As long as these two conditions can be met.

It has never been a problem to borrow the tribulation formation from some friendly forces.

After all, the Tribulation Array is, in a strict sense.

It is a treasure that can be used continuously.

Borrowing from outside is also a way to generate income.

Why wouldn't everyone enjoy it?

Section 650

...

Chapter 489 Hundred Fruit Fairy Brew

Everyone continued chatting for a while.

Zhang Yuhe said loudly.

"It's rare for everyone to come to Ji'an sea area. Come with me to Dao Shengzong for a drink."

"Okay, I have to drink this glass of wine, haha."

"To be honest, I've been craving for Master Zhang's Hundred Fruit Immortal Brew for a long time."

"Let's seize the opportunity this time and have a few more drinks."

"Haha, let's go together."

Zhang Yuhe waved his right hand.

Put away all the tilted thunder-absorbing pillars in the distance.

When facing the last wave of bloody thunder, Renshui's thunder-absorbing formation was penetrated by the Heavenly Tribulation.

These lightning-absorbing pillars are more or less damaged.

But it's not a big problem.

Find time to repair it and it can be used again.

Hundreds of Da Luo Immortal Kings each drove their immortal ships and headed straight to the gate of Dao Sheng Sect.

The news that Zhang Yuhe successfully survived the catastrophe and was promoted to the Great Luo Immortal King gradually spread in the Ji'an sea area.

This made the monks in the Ji'an sea area feel extremely excited.

To know.

In the past Ji'an sea area, not even a Taiyi Immortal Lord was born.

Ever since Zhang Yuhe ascended to the immortal world.

The overall strength of Ji'an Sea Area has been developing rapidly.

The Dao Sheng Sect alone has more than twenty Taiyi Immortal Lords.

There are tens of thousands of Jinxian elders.

Except for Dao Sheng Sect.

Those loose immortals in the Ji'an sea area also rely on this wind.

The cultivation base improves rapidly.

There even appeared, a loose immortal from the Taiyi Realm.

As for the monks who moved to the Ji'an sea area from other sea areas.

Even more powerful.

Compared with the sea area of Jian in the past compared with now.

That is one heaven and one underground.

Everyone understands.

All this was brought by Zhang Yuhe.

If Zhang Yuhe is not here.

The current Ji'an sea area may not be much different from before.

It is impossible to predict whether it will even continue to weaken.

Now Zhang Yuhe has been successfully promoted to Da Luo Immortal King.

This is true for the entire sea area.

This is all great news.

There is an immortal king sitting in charge.

It will be difficult for the Ji'an sea area not to develop rapidly in the future.

To be precise.

This should be the case in the entire South China Sea Immortal Territory.

With Zhang Yuhe, this great god is here.

From now on, the entire South China Sea Immortal Territory will inevitably be on the fast track of development.

...

Tao Sheng Sect, Galaxy Hall.

All the immortal kings gathered together.

Zhang Yuhe waved his right hand.

An exquisite jade pot hung in the air, and drops of fairy dew filled the wine glasses in front of the immortal kings.

The pleasant fragrance instantly filled the entire hall.

Wei Tianfeng picked up the wine glass and took a small sip.

He couldn't help but said drunkenly.

"Zhang Zongzhu's wine, every time you drink it, you can't help but think about it for a long time."

"I'm afraid I can't even exchange for this kind of immortal brew with the best immortal weapon."

"Yes, this Baiguo Fairy Brew not only has the effect of improving mana."

"One cup can save tens of thousands of years of cultivation time."

"It can also clearly understand the mind, which is of great help in understanding the laws."

Wei Tianfeng asked curiously.

"Sect Master Zhang, I wonder what kind of fairy fruit your fairy brew is made from?"

"Can you lend some to me?"

"Don't worry, I won't ask for it in vain. I'm willing to pay a big price, whether it's an immortal weapon, an immortal mine or a spiritual herb, whatever you ask for."

Zhang Yuhe put down his wine glass.

he said with a smile.

"They're all little tricks, not worth mentioning."

"If you like it, I will give everyone a pot later."

"Haha, I would like to thank you in advance."

Everyone couldn't help but be pleasantly surprised to see Zhang Yuhe being so majestic.

Zhang Yuhe's Baiguo Immortal Brew is no ordinary fairy brew.

As the Great Luo Immortal King.

Everyone present, what good things have they not drunk?

But this Hundred Fruit Immortal Brew is indeed a little different.

These hundred-fruit fairy brews not only have the effect of improving mana.

The key is that it is of great help in understanding the rules.

Not all of the hundreds of Daluo Immortal Kings present.

They have all understood the nine laws to perfection.

Moreover.

Baiguo Xianjiao can enlighten the mind.

In addition to being able to help and understand the rules.

It will also be of great help for other things that require a test of understanding.

For example, studying martial arts and supernatural powers.

During the last war.

Zhang Yuhe once went to various major immortal realms to provide support.

During the post-war celebrations.

He took out the Hundred-Fruit Fairy Brew and shared it with everyone.

After everyone drank it, they never forgot it.

Speaking of the brewing method of Baiguo Xianjiang, it is actually not worth mentioning.

It's nothing more than spending a lot of money.

Zhang Yuhe planted a large number of fairy grass and fairy fruits in the Wan Ling Tu space.

Under Zhang Shen's care, coupled with the heaven-defying effect of the Zhangtian Bottle.

Various fairy fruits grow rapidly.

Immortal fruits that are hundreds of millions of years old are everywhere.

Except for a small part, which is used to refine elixirs for use by the Tao Sheng Sect.

There is actually a lot left over.

Based on the principle that if it is not used, it is a waste.

Zhang Yuhe used these fairy fruits to brew fairy wine.

Highlight a luxury.

To know.
