### Section 651

Each of these immortal fruits that are hundreds of millions of years old is extremely precious.

If you take one out at random, it will make other people fight over it and break their heads.

But Zhang Yuhe doesn't need it.

Because he has too many of these things.

Especially during these eight million hours.

Zhang Yuhe already has a large backlog of billion-year fairy fruits in his hands.

There is actually a lot of Baiguoxianjiao brewed.

Although there were hundreds of Daluo Immortal Kings present.

But give them a pot each.

Zhang Yuhe can still afford it.

Anyway, he couldn't finish the drink alone.

As for the other members of the Daosheng Sect, due to their limited cultivation.

Basically, you can't use this high-grade fairy brew.

The effect of the medicine is too strong.

A mouthful of immortal dew is equivalent to tens of thousands of years of cultivation.

The monks below Taiyi Immortal simply cannot hold on.

After three drinks.

Zhang Yuhe waved his right hand.

One by one, exquisite jade pots fell in front of everyone.

He smiled and said to everyone.

"I have just been promoted to the Daluo realm, and I still need to spend time to stabilize my realm."

"Fellow Taoists, please forgive me for the poor reception."

"One hundred thousand years later, the Dao Sheng Sect will hold the Immortal King's Celebration."

"Welcome fellow Taoists to come again next time."

"I'll definitely follow you all then, and we'll get drunk before we stop."

"Okay, I'll definitely come next time, haha."

"Not to mention anything else, just to drink a few more glasses of Baiguo Xianjing."

"I will definitely come over next time, hehe."

...

Zhang Yuhe stood outside the main hall.

Watching all the Daluo Immortal Kings leaving.

Just at this time.

Lu Yunfei came over with Taiyi Immortal from the sect.

Everyone shouted excitedly in unison.

"Congratulations to the sect master for being promoted to the Great Luo Realm."

After surviving the catastrophe.

Zhang Yuhe and those Daluo Immortal Kings have been communicating and socializing.

This made them, members of their own sect, unable to find a chance to come up and congratulate.

Until those Daluo Immortal Kings all left.

Lu Yunfei led everyone and came over immediately.

Thinking of Dao Sheng Sect, there will be an Immortal King sitting in charge from now on.

Everyone's heart couldn't help but be extremely excited.

Daluo Immortal King is the ceiling of the entire South China Sea Immortal Domain.

With Da Luo Immortal King sitting in charge, then Dao Sheng Sect would be a legitimate super power.

Even if it is placed in the entire fairy world.

Daluo Immortal King is also a top-notch combat power.

Not to be underestimated by anyone.

Moreover, Zhang Yuhe is not just an ordinary Great Luo Immortal King.

Before he was promoted, he could overwhelm the Nine Color King Beast.

Now successfully promoted.

How powerful should it be?

They couldn't imagine it at all.

...

Chapter 490 Opening the Tenth Aperture

Zhang Yuhe walked slowly to the cave on Galaxy Peak.

He did not return to Galaxy Fairy City.

Not necessary at the moment.

He needs to consolidate his realm first, and then prepare to open the tenth orifice.

Whether it is opening one's mind or consolidating one's realm, there are no big demands on the surrounding spiritual veins.

It's enough in Dao Sheng Sect.

Zhang Yuhe walked up to the training platform and sat down cross-legged silently.

As the Hunyuan Scripture moves slowly.

The surrounding fairy energy slowly poured into the Dantian.

After being promoted to Daluo Realm.

His Dantian, as wide as the sea, expanded several times.

In the middle of Dantian sea, there is a huge land.

Now it has become more and more solid.

As early as when he was promoted to Taiyi Immortal, his Dantian was in the middle of the ocean.

This continent appeared.

This continent is actually the foundation of his great path.

As his cultivation level continues to improve.

The continent in Dantian will become more and more solid.

One day, it will eventually evolve into a real world.

Of course.

In the fairy world, this is impossible.

Even in the Dantian of Emperor Daozu, the world cannot evolve.

This is just a theoretical concept put forward by senior monks.

Not sure whether it's accurate or not.

Want to turn this idea into reality.

They must open a way forward.

Explore higher realms.

Or look for a higher level world.

According to the guesses of those Daozu emperors.

Deep in the ocean of origin, there is a passage to a higher level.

Just near the channel.

There is always a strong aura present.

That should be the Supreme True God mentioned by Chaos Beast.

No one knows how powerful the Supreme True God is.

Because no one has ever seen it.

According to rumors.

Emperor Tianzuo once went deep into the sea of origin.

But after feeling the powerful aura of the Supreme True God.

I had to go back.

According to what Emperor Tianzuo said.

When he was searching in the sea of origin.

Suddenly I saw a magnificent shadow.

The powerful aura of that shadow made him almost want to worship it.

Later, Emperor Tianzuo sent word.

Let all Taoist ancestors in the immortal world stop going deep into the sea of origin.

Section 652

Because the strength of the Supreme True God is at least several levels higher than that of the Taoist ancestors in the immortal world.

The gap is even greater than between the True Immortal and the Dao Ancestor.

From now on.

The Tao Ancestors will no longer easily enter the sea of origin.

They changed their strategy.

Stop being obsessed and look for a way forward.

Because everyone understands.

The path is there.

But they couldn't get through it.

If you want to open a way forward, you must kill the Supreme True God.

This is simply impossible.

But there are always more solutions than difficulties.

They can't defeat the Supreme True God, so they can just kill a few chaos beasts.

According to the guesses of those Tao ancestors.

The Chaos Beasts in the Immortal Realm are actually the Supreme God, an extension of their power.

Just wipe out all the chaos beasts.

Then the power of the Supreme True God will surely slowly decline.

Unfortunately.

It is not easy to achieve this step.

The monks and the chaos beasts fought countless battles in the fairy world.

Although every time, the monks took advantage to some extent.

However, the overall strength of the Chaos Beast was not seriously damaged.

Even if the entire immortal world and the power of all the monks are gathered together, they cannot completely overwhelm the Chaos Beast.

Countless years passed.

The original enthusiasm of those Dao Ancestor Emperors gradually faded away.

They no longer pursue new paths, but wait silently.

Because as time passes slowly.

The overall strength of the monks has been slowly improving.

However, the overall strength of the Chaos Beast is not improving very quickly.

As long as they guard the fairy city, they won't let the chaos beasts capture the monks in large numbers.

Then the Chaos Beast cannot be sacrificed.

Naturally, the strength cannot be improved.

One goes down and the other goes up.

All the chaos beasts in the fairy world will one day be wiped out by everyone.

Zhang Yuhe looked at the changes in his Dantian, and his thoughts gradually flew away.

After a while.

He finally came to his senses.

"Take your time. If you have a chance in the future, go to the Sea of Origin and see the power of the Supreme True God."

Zhang Yuhe waved his right hand.

Ten exquisite jade boxes were slowly placed in front of him.

The jade box opened without any interest.

I saw crystal nuclei, shining with nine colors of light, quietly appearing in front of my eyes.

This is the crystal core of the Nine Color King Beast.

According to the records in the Hunyuan Scripture.

I want to open the tenth orifice in Nascent Soul.

You need to use ten king beast crystal nuclei.

As for the grade of the crystal core, there is no detailed explanation in the Hunyuan Scripture.

Perhaps the crystal core of the One Color King Beast can open the tenth orifice.

To ensure first time success.

Zhang Yuhe didn't hesitate.

He planned to directly use the crystal core of the Nine Color King Beast to open the tenth aperture.

Anyway, he has this thing himself.

In the last war.

Zhang Yuhe killed many nine-color king beasts.

Later, some nine-color crystal nuclei were obtained from other immortal kings.

That being the case.

There was no need for him to save anymore.

Using the nine-color crystal core directly will save a lot of trouble.

Otherwise.

In case the enlightenment fails.

Still have to rest for a long time.

Zhang Yuhe looked at the jade box in front of him and thought for a while.

I saw him wave his right hand.

Formation flags fell quickly around the training platform.

follow closely.

He stretched out his hand and pushed.

Ten nine-color crystal nuclei fell under the formation flag one after another.

Follow the magic formula and pinch it.

The entire cave suddenly lit up with a faint light.

The energy contained in the ten nine-color crystal nuclei is drawn by the power of the formation.

Quickly gather on the training platform.

Zhang Yuhe silently ran the Hunyuan Scripture.

According to the description of the technique, slowly release this power.

Converging to a certain point on the Nascent Soul.

Time passed slowly.

I don't know how long it took.

On the sea of Zhang Yuhe's Dantian.

Mini Nascent Soul's eyes were slightly closed.

Nine rays of light kept flashing on the surface of Nascent Soul.

slowly.

A tiny light gradually lit up.

The tenth bright spot, the Nascent Soul's surface slowly appeared.

Ten rays of light complement each other.

The different breaths gradually became connected.

Forming a high-speed cycle.

Zhang Yuhe slowly opened his eyes.

Silently feeling the changes in Dantian.

He couldn't help being surprised.

After opening the tenth acupoint.

The other nine acupoints are actually connected together.

He tried to operate the Hunyuan Scripture.

It was found that the speed of the exercise was at least two or three times faster than before.

That is to say.

His current cultivation speed is two to three times higher than before.

See this situation.

Zhang Yuhe couldn't help but be stunned.

He muttered to himself.

"Is this the function of the tenth orifice? It's really powerful."

"I like."

Zhang Yuhe looked happy.

Section 653

It is not easy to increase the cultivation speed by two or three times in the immortal world.

Moreover, the speed at which the skills are run is also a sign of improved strength.

The faster the skill runs, the stronger and more powerful the mana output will be.

The same magical power will become more powerful.

That is to say.

After opening the tenth orifice.

His strength has also increased two or three times.

It's very exaggerated.

...

#### Chapter 491 The Tenth Supreme Law

Feel the powerful effect brought by the tenth orifice in the Nascent Soul.

Zhang Yuhe couldn't help being shocked.

This is a substantial improvement, two or three times the strength.

To know.

When opening the front nine orifices.

Each additional aperture opened only increases the strength by 20 to 30%.

Then after opening the tenth orifice, the strength can be increased two or three times.

This is equivalent to.

The effect of the previous nine orifices, taken together, is only equivalent to that of the tenth orifice.

It's even possible that it will be worse.

"What is the origin of the Hunyuan Tian Jing technique?"

"Why are there so many, such unnatural means?"

The magical Nine Heavens Hunyuan Sword Formation, the Taoist chaos returning to the void, and this secret technique of opening the body.

These three powerful methods are all incidental to the Hunyuan Tianjing technique.

Think of this.

Zhang Yuhe couldn't help but fell into deep thought.

According to Yu Liwei.

The two stone tablets recording the Hunyuan Scripture were from when she and Lu Yunfei were on the Chaos Continent.

Found it from the cave of a long-lost Taiyi Immortal Lord.

Moreover, they also found a jade slip in the cave.

The origins of the two stone tablets are recorded in detail.

Zhang Yuhe also saw that jade slip later.

According to what is said on the jade slip.

That Immortal Lord Taiyi sneaked into Chaos City secretly.

When he saw the city square.

There are two stone tablets standing there.

Just stole them out.

Later, Zhang Yuhe also asked Lu Yunfei.

The answer I got was similar to what Yu Liwei said.

But there is a big problem here.

Chaos beasts generally do not build cities.

Throughout the Chaos Continent.

There is only one city built by the Chaos Beast.

That is the Chaos City of the Supreme Mountain Tribe.

But the problem is.

The Supreme Mountain Tribe has hundreds of supreme Chaos Beasts stationed there.

There are countless king-level chaos beasts.

How did that Immortal Lord Taiyi sneak into Chaos City secretly?

the most important is.

Not only did that man sneak into Chaos City, but he was also under the noses of many distinguished Chaos Beasts.

These two important stone tablets were stolen.

It's very unscientific when you think about it.

Of course.

It is not ruled out that Taiyi Immortal Lord has mastered some special magical power.

There are countless magical powers in the immortal world.

It's not like there aren't magical powers like this that block perception.

Even if one crosses several major realms, it is possible to block the Chaos Beast's perception.

But there is still a problem.

Why do the Chaos Beasts in the Supreme Mountain have these two stone tablets in their hands?

Why would they place these two stone tablets on the altar?

To know.

Chaos beasts don't know how to practice exercises.

They rely on sacrifices to evolve and advance.

Why does the Chaos Beast need this technique?

besides.

Where is the original source of the Hunyuan Heavenly Scripture?

Is it a technique that the Supreme True God placed in the immortal world?

Or.

Except for the Supreme True God.

There once was a powerful being who surpassed Dao Ancestor.

Visited the fairy world.

And left behind these two stone tablets recording the Hunyuan Scripture?

Zhang Yuhe thought carefully for a long time.

I haven't been able to come up with a definite answer either.

"Forget it, it doesn't matter where this technique comes from, as long as it is suitable for my practice."

Think of this.

Zhang Yuhe shook his head gently to clear the chaotic thoughts in his mind.

He calmed down.

Silently observing the mini Nascent Soul in Dantian.

Look at the ten flashing light spots on the surface of Nascent Soul.

Zhang Yuhe suddenly had an idea.

Whenever a monk opens an aperture on the Nascent Soul, he can understand one more law.

under normal circumstances.

A monk can open up to nine acupoints on the Nascent Soul.

That is to say.

The most a monk can understand is nine laws.

Nine is the ultimate number.

There are only nine known supreme laws in the immortal world.

Under normal circumstances, it should be impossible for a monk to comprehend more laws.

But Zhang Yuhe is different.

He has already opened the tenth acupoint in Nascent Soul.

Does that mean too.

Can he understand one more law?

Think of this.

Zhang Yuhe couldn't help but feel hot in his heart.

If he could understand one more law, wouldn't his strength be able to improve even more?

No one will find it objectionable. You have more rules, right?

not to mention.

Others can only comprehend nine laws, but he can comprehend ten.

## Section 654

This kind of operation that breaks the limits.

Maybe it will bring about some unexpected effects?

"We have to start it and give it a try."

"See if you can understand another law."

Just do what comes to mind.

Zhang Yuhe fell into deep thought silently.

Which law to choose to understand is a big question.

There are only nine known supreme laws in the immortal world.

And he had already realized it.

He has no interest in the rest of the ordinary Five Elements Laws.

Too weak.

There are also those special rules.

Relative to ordinary laws.

Some special rules still have some use.

For example, Yu Liwei's dream law.

Xie Mingyuan's Penetration Law.

Especially Yang Yueyue's lunar law.

These special laws are quite powerful when facing enemies.

But which law should he choose to understand?

For Zhang Yuhe.

The difficulty of understanding the rules has never been a problem.

Anyway, with his incredible understanding.

No matter how difficult the rules are, he can understand them.

No matter how difficult it is to have the Supreme Law, is it so difficult to understand it?

He mainly wants to find a way to understand by applying the law with the best effect.

However, Zhang Yuhe thought for a long time.

I didn't think of a suitable choice.

It's very confusing.

Just at this time.

Zhang Yuhe suddenly had an idea.

In addition to monks, there are also Chaos Beasts in the Immortal World.

Chaos beasts have amazing defensive capabilities and extremely destructive power.

It should be that he was born with some kind of lawful power.

Could it be that.

In this fairy world.

There is also a power of law that has not been discovered by the monks.

Or maybe this should be the law of chaos.

Zhang Yuhe thought carefully for a while.

He felt more and more that this was a possibility.

There are laws for everything in heaven and earth.

When monks understand the laws, they also need to observe various objects.

For example, observing immortal artifacts, or observing certain spiritual objects, or even observing strange phenomena in the heaven and earth.

By observing various affairs, monks can slowly understand the power of laws.

But Zhang Yuhe had never heard of it.

Who understands the law by observing the Chaos Beast.

This is a little strange.

Logically speaking.

Chaos beasts are so powerful.

It should be very suitable for understanding the rules.

Zhang Yuhe pondered for a while and soon understood.

It's not that everyone doesn't want to understand some kind of law from the Chaos Beast.

But can't.

In other words, it is too difficult.

Zhang Yuhe believes it.

He is definitely not the first person to think of this issue.

He could think of understanding the power of law from the Chaos Beast.

Others can naturally imagine it too.

And there must be many people who have tried this before.

It just didn't work out.

There are only nine supreme laws in the immortal world, and nine is the ultimate number.

But ten is perfection.

As a normal big world.

The power of law should be perfect.

That is to say.

In this immortal world, there should be ten supreme laws.

And this last supreme law should fall on the Chaos Beast.

It's just that it has never been successfully understood by anyone.

Think of this.

Zhang Yuhe finally made up his mind.

Let's start with the Chaos Beast.

Live it.

Regardless of whether it works or not, at least give it a try first.

...

Chapter 492 There are always more solutions than difficulties

Zhang Yuhe did not hesitate anymore.

Whether it works or not, you have to try it.

If there really is a tenth supreme law in this fairy world.

Moreover, he was able to realize it.

How powerful should that be?

A supreme law that has never been discovered before.

It will inevitably have extremely unnatural effects.

But all this is based on his speculation.

Even if it is true.

I want to understand this law.

It's definitely not that simple.

Otherwise.

In the long years of fairyland.

It's impossible, no one has ever discovered it.

"Let's try it first."

Just do it.

Zhang Yuhe waved his right hand.

A huge chaos beast corpse suddenly appeared in the cave.

Even if he has been dead for many years.

The corpse of this Chaos Beast still exudes extremely terrifying pressure.

On the forehead of the Chaos Beast corpse.

A nine-color cloud pattern is exuding a faint Taoist charm.

This is the corpse of a nine-color king beast.

In the last war.

Zhang Yuhe once killed many nine-color king-level chaos beasts.

Section 655

The corpse of a king-level chaos beast is extremely valuable.

He did not dispose of it easily, but kept it all in his hands.

Now he wants to understand the tenth supreme law from the Chaos Beast.

It comes in handy.

Zhang Yuhe calmed down and silently observed the corpse of the chaotic beast in front of him.

All kinds of mysterious ideas kept flashing in his mind.

Time passed slowly.

I don't know how long it took.

Zhang Yuhe slowly opened his eyes.

My heart is full of doubts.

He did not understand any new laws from the Chaos Beast.

But after a long period of observation.

Zhang Yuhe was convinced.

These chaotic beasts must have some kind of law.

And it is very likely that it is the law of chaos that has never been discovered by anyone.

But why can't he understand it?

"Is it because I'm not enlightened enough?"

Think of this.

Zhang Yuhe couldn't help but frown.

If even his understanding is not enough.

That's a bit nonsense.

With his incredible understanding.

Since embarking on the path of cultivating immortality, I have never encountered any obstacles.

No matter how difficult the magical power is, no matter how profound the technique is.

He could learn it just by looking at it.

He can even continue to deduce and improve various formation formulas.

His understanding is definitely the most heaven-defying existence in the history of the immortal world.

There's no reason why it wouldn't be enough.

Could it be that there is a trick in this that he hasn't figured out yet?

Or.

Is this last supreme law unique to Chaos Beasts?

The monks can't understand?

"Isn't this possible?"

"As long as the law exists, it is impossible not to understand it."

"There must be something crucial that I haven't figured out yet."

Zhang Yuhe was muttering silently to himself.

He glanced at the corpse of the Chaos Beast in front of him, and then quietly realized himself.

Zhang Yuhe sank his mind into his Dantian.

When he saw the ten flickering light spots on the surface of Nascent Soul in his Dantian.

Thoughtful in mind.

The auras of the ten opened acupoints are connected and flowing rapidly in a certain rhythm.

On each of the nine orifices, there is a tree that supports the sky.

It is the tree of law that he has understood.

The last light spot was completely empty, and nothing existed.

Only a certain peaceful rhythm is flowing rapidly through this acupoint.

Is it because this special rhythm affects the sprouting and growth of the tree of law?

It's not that he didn't realize the tenth supreme law.

But this kind of law has no place to take root.

That's why it didn't show up?

Think of this.

Zhang Yuhe felt as if he had grasped something key.

The tenth supreme law must exist.

in previous insights.

He had clearly felt that the corpse of the Chaos Beast in front of him was emitting a strange rhythm.

That is the tenth supreme law.

In fact, he has already understood this supreme law.

It's just that the tree of law cannot be allowed to take root and sprout in the hole.

The tree of law cannot be allowed to take root in the Yuanying acupoint.

Then the power of law he comprehended is just an illusion.

The moment passes.

Will not be mastered and controlled by him.

Think of this.

Zhang Yuhe couldn't help but frown slightly.

How to do it.

How can we let the tree of law take root in the Yuanying acupoint?

When he opened the last acupoint.

The ten light spots on the surface of Nascent Soul naturally connect into one.

An inexplicable rhythm circulates rapidly in the ten acupoints.

Although this made his strength increase two or three times in an instant.

But this special rhythm prevented the tree of law from taking root.

The power of the law that has just been understood is naturally extremely fragile.

That special rhythm.

For the tree of rules.

That is like a strong wind.

Can saplings still grow under strong winds?

It's obviously impossible.

Before it takes root, it will be blown away.

So he needs to find a way to let the Tree of Law overcome this rhythm.

It takes root and sprouts in the orifice, and then grows rapidly.

However, Zhang Yuhe thought hard for a long time.

I haven't figured out why.

This seems to be a paradox.

An unsolvable paradox.

"There must be a way, but I haven't thought of it yet."

Zhang Yuhe looked at the ten flickering light spots on the surface of Yuanying.

Silently talking to himself.

Look at the rhythm flowing rapidly in the acupoints.

Zhang Yuhe suddenly had an idea.

After opening the tenth orifice.

It can perfectly connect the breath of the other nine acupoints.

That's not what it means.

This tenth acupoint is actually an important bridge.

Through this bridge, the breaths of the other nine acupoints are communicated and connected together.

That being the case.

So will the Tree of Law be like this?

He does not need to let the tenth tree of law take root.

Instead, the tenth law is used as a bridge to communicate and connect the other nine supreme laws.

Think of this.

Zhang Yuhe's mind slowly started to move.

The idea is there.

Section 656

Now we need to consider how to put this idea into reality.

Each of the nine supreme laws is different.

we can even say.

Each supreme law has very distinct characteristics.

I want to connect all these nine supreme laws together.

That's easier said than done.

But there are always more solutions than difficulties.

Zhang Yuhe thought of a stupid but effective way.

That is constant realization.

Until the last law is understood deeply enough.

Then he placed it on the tenth Yuan Ying acupoint, instantly connecting all the other nine trees of law.

"This approach should work."

Zhang Yuhe made careful deliberation.

It was determined that this method should be able to achieve the effect he wanted.

The only trouble is.

I want to understand an unknown law deeply enough.

That will definitely take a lot of time.

But that doesn't matter.

After being promoted to Daluo Immortal King.

Zhang Yuhe no longer has any pressure.

He has plenty of time.

It can be used to slowly understand the rules.

...

## Chapter 493: Taking the Law of Chaos as the Backbone and the Supreme Law as the Branches

Zhang Yuhe calmed down and quietly observed the corpse of the Chaos Beast in front of him.

Various thoughts kept flashing through his mind, as if he wanted to completely see through the nature of the Chaos Beast.

Various aura particles on the nine-color king beast were constantly analyzed in his mind.

Time passed slowly.

Zhang Yuhe slowly opened his eyes and murmured to himself.

"Has eighty thousand years passed?"

"I hope it can be successful this time and it will not be in vain for me to spend so much time."

This realization took a very long time.

It took him a full eighty thousand years.

But Zhang Yuhe believed it.

These realizations were not in vain.

Because he felt that he had grasped the essence of the Law of Chaos.

If it weren't for the special rhythm in the acupoints.

He may have already understood this unknown supreme law to its perfection.

But it's not bad now.

Although there is still no tree of law growing in the tenth acupoint.

But he has already understood this supreme law to a very deep level.

As long as Zhang Yuhe is willing.

He can then drop the seedlings of the law into the aperture.

Although under the interference of such a special rhythm, the law seedlings should still be unable to grow.

But he can keep dropping the seedlings.

Then try it.

Through this newly understood seedling of law, other trees of law will emerge.

Slowly hooked together.

Zhang Yuhe took a deep breath.

He said silently to himself.

"Let's give it a try first. I hope I can succeed the first time."

Think of this.

Zhang Yuhe closed his eyes and slowly sunk his mind into his Dantian.

On the surface of the golden Nascent Soul, ten light spots flickered continuously.

Just at this time.

An inexplicable aura suddenly fell in the tenth acupoint.

A law seedling emerged from the hole.

Then this seedling has just revealed its tender buds.

It was blown into nothingness by the slowly flowing rhythm.

See this situation.

Zhang Yuhe couldn't help but be disappointed.

Still not working.

Even though he has already understood this unknown law to a very deep level.

Still can't let the law seedling grow in the hole for even one second.

Law seedlings cannot fall to the ground.

Naturally, it is impossible to connect all other trees of law together.

Think of this.

Zhang Yuhe was a little worried and wanted to give up.

Eighty thousand years were wasted and nothing was achieved.

This made him feel a little frustrated.

If not for trying to understand the laws of chaos.

I am afraid that he has already understood all the other nine supreme laws to perfection.

Maybe you can start preparing to practice Taoism now.

After so much effort, there was no success.

Just very depressed.

Just when Zhang Yuhe felt a little frustrated.

He was suddenly surprised to find out.

The seedlings of the law that were blown away just now have not completely dissipated.

Instead, it has been integrated into that peculiar rhythm.

Following that rhythm, it slowly flows through the ten acupoints.

The nine trees of law in the aperture are quietly changing.

These trees of laws stretch out branches one by one, slowly extending out of the aperture.

The trees of law adjacent to the acupoints have slowly been connected together.

See this situation.

Zhang Yuhe couldn't help but be greatly surprised.

He quickly calmed down and comprehended the newly understood laws of chaos.

Silently blending into Nascent Soul.

The nine trees of law in the aperture are slowly extending.

The branches are connected with each other, slowly forming a larger tree that supports the sky.

I don't know how much time has passed.

Zhang Yuhe slowly opened his eyes.

He muttered to himself.

"I finally got it done."

"It turns out that there is indeed a tenth supreme law in this fairy world."

Zhang Yuhe felt himself silently.

At this time, on the surface of Nascent Soul, the nine trees of law have long since disappeared.

Instead, there was a huge tree supporting the sky.

The huge tree of law grows in Yuanying's Zifu.

There are nine tall branches growing on the Tree of Law.

Section 657

Each of these nine branches shines with an inexplicable Taoist charm.

Zhang Yuhe can naturally see it.

These nine branches are the original tree of law.

Represent the nine supreme laws respectively.

And that giant tree holding up the sky is the tree of laws he newly comprehended.

Represents the law of chaos.

Take the law of chaos as the trunk and the nine supreme laws as the branches.

In the Nascent Soul, the current giant tree supporting the sky was formed.

See this situation.

Zhang Yuhe was simply stunned.

He had previously thought of many ways to understand the laws of chaos.

In the end, they all failed.

The tree of law cannot take root in the hole.

No matter how deeply he understands this law, it will only be a castle in the air in the end.

It cannot be transformed into one's own power.

But by chance.

Now it has become like this.

He still hasn't figured out how to do this.

If you let him do it again.

Zhang Yuhe is not sure that he can successfully comprehend the laws of chaos.

Yes.

Zhang Yuhe can be sure.

Now he has successfully understood the Law of Chaos.

The huge tree of laws on the Nascent Soul is the most powerful proof.

And Zhang Yuhe also felt the powerful power brought to him by the Law of Chaos.

Looking at the huge tree of law on the surface of Nascent Soul.

Zhang Yuhe couldn't help but fell into deep thought.

He was thinking about what was going on.

Could it be that the law of chaos he newly understood is not actually a supreme law?

But a higher-level existence than the Supreme Law?

Otherwise.

It's hard to explain.

Why can the law of chaos be used as the backbone to carry the nine supreme laws?

"Forget it, if you don't understand it, don't bother to think about it. Anyway, this is a good thing."

Zhang Yuhe thought for a long time.

I haven't figured out why.

He quickly gave up and continued the idea of getting to the bottom of it.

Because of his limited cognition, he couldn't figure it out.

So why bother.

This is a good thing anyway.

At least he understood the laws of chaos.

Under the influence of the Law of Chaos.

The nine supreme laws are connected by breath.

Now the strength that Zhang Yuhe can exert has become even more powerful.

"Just find a place and give it a try."

"Look at what changes the Law of Chaos has brought to me."

Think of this.

Zhang Yuhe stood up.

He quickly walked out of the cave, then turned into a stream of light and disappeared into the distance.

A desert island somewhere in the waters of Ji'an.

Zhang Yuhe stood quietly over the desert island.

His powerful spiritual consciousness in the Great Luo Realm quickly swept around.

After confirming that there are no people around.

Zhang Yuhe took a deep breath.

I saw him clenching his fist, and then punching into the void.

Boom...

A loud noise spread.

A huge black hole suddenly appeared in the void.

Black holes condense into the sky and linger for a long time.

Zhang Yuhe glanced at his right hand, and then at the black hole in the sky.

He muttered to himself.

"Am I that strong now?"

"Can you punch a huge black hole in the void with just one fist?"

...

Chapter 494 Immortal Body Great Perfection

Looking at the black hole in the void, Zhang Yuhe was completely stunned.

He just wanted to try it casually.

How could you imagine that it would be so exaggerated.

To know.

The space in the fairy world is extremely stable.

Although Daluo Immortal King exploded with all his strength.

It can indeed break the void.

But that's just breaking the void, it can't create such a black hole.

He casually punched a black hole in the void.

And travel through the black hole.

This is exclusive to Emperor Daozu.

Only the Daozu Emperor and the Zun-level Chaos Beast could have such terrifying power.

However, Zhang Yuhe just punched casually.

A terrifying black hole was punched out in the void.

This surprised even him.

He is somewhat unsure of his current strength.

"Why am I so strong now?"

Zhang Yuhe muttered silently to himself.

Is the Law of Chaos so powerful?

He thought carefully for a while.

One can only draw this conclusion.

The reason why his strength has become so terrifying.

It must be related to the Law of Chaos.

Otherwise.

Just now, Zhang Yuhe did not activate the Hunyuan Guiyi magical power.

under normal circumstances.

If he doesn't show off his magical power of sword formation.

Compared with other top Daluo Immortal Kings, there is not much difference between him and him.

Zhang Yuhe raised his right hand and looked at it carefully.

Only visible on the skin surface of the palm.

The inexplicable Taoist rhyme is slowly flowing.

It was as if he had now become the embodiment of the great road.

"Is this the Great Perfection of the Immortal Body?"

Until now.

Section 658

Zhang Yuhe was surprised to find out.

Don't know when.

He has cultivated his immortal body to a perfect level.

However, in recent times.

He has never cultivated the immortal body at all.

Because Zhang Yuhe understands.

Immortal body is not that easy to improve.

I want to cultivate my immortal body from the state of Dacheng to the state of perfection.

This requires an incredible amount of luck.

There is no special combination of natural materials and earthly treasures.

Just rely on yourself to practice hard.

I am afraid that even if it takes hundreds of millions of years, there may not be any progress.

Zhang Yuhe has come into contact with at least hundreds of Daluo Immortal Kings.

But those who have successfully cultivated their immortal body to a perfect level.

Only three.

They are Wanshan Immortal King, Tianfeng Immortal King and Liuyue Immortal King.

Naturally, there is no need to mention Tianfeng Immortal King and Liuyue Immortal King.

These two people have lived in the immortal world for countless years.

He is one of the oldest immortal kings in the immortal world.

The longer you live, the more possibilities you will have.

It is not strange that they can cultivate the immortal body to a perfect level.

As for the Wanshan Immortal King.

That's because of bad luck.

Rumors say.

Wanshan Immortal King once discovered a special fairy pond on the Chaos Continent.

Because he absorbed the special energy in the immortal pool, he was able to cultivate his immortal body to a perfect level.

After being promoted to Daluo Realm.

Zhang Yuhe once considered his subsequent training plan.

He doesn't worry about anything else.

Whether it's understanding the rules or practicing Taoism.

It's not difficult for him.

As for improving your cultivation, that's even simpler.

Just take the time slowly.

After a long period of accumulation.

It is not a problem at all to improve one's cultivation level to the perfection of Daluo Immortal.

The only thing Zhang Yuhe needs to consider is how to convert the immortal body.

Cultivation to the state of perfection.

Because this is also one of the prerequisites for Da Luoxian to be promoted to Tao Ancestor.

I want to be promoted to the Taoist Ancestral Realm.

At least four conditions need to be met.

Cultivation, law, and immortal body must reach the level of perfection.

Then add another Taoist skill.

This is the most basic condition.

If you don't get these four things together.

Talking about being promoted to Dao Ancestor is just empty talk.

Originally, Zhang Yuhe had been worried about the immortal body.

There are too few heavenly materials and earthly treasures that can assist the cultivation of the Immortal Body.

What I especially want is to cultivate the Immortal Body from the state of Dacheng to the state of perfection.

Almost all the natural materials and treasures that need to be used cannot be copied.

In other words, it cannot be cultivated artificially.

It's all about taking chances on the Chaos Continent.

If you encounter an opportunity, you can push your immortal body to the state of perfection.

If you can't touch it.

Then we can only keep putting it off.

What Zhang Yuhe hates the most is this kind of luck.

Although his luck is not bad.

I remember when I was in Blue Star and the game had just started.

The game panel he activated showed his level of luck, which was Lucky.

It's the best kind of luck.

During these eight million years of cultivation.

Although Zhang Yuhe did not go out to pick up money.

But it's true that nothing bad happened.

All in all.

His luck is indeed not bad.

despite this.

He is quite averse to things that rely on luck.

Because this kind of thing is simply out of your control.

Now, inexplicably, my immortal body level has reached perfection.

This made Zhang Yuhe feel unexpectedly surprised.

A little confused again.

What the hell is going on?

Why did the Immortal Body automatically reach the state of perfection without deliberately cultivating it?

Zhang Yuhe stood above the desert island, thinking silently.

"Is this also because of the Law of Chaos?

Except this.

Zhang Yuhe really couldn't think of other factors.

during this period of time.

If anything special.

That is.

He understood the laws of chaos.

Moreover, the Law of Chaos will indeed have a huge promotion effect on the improvement of the physical body.

Otherwise.

Why are those Chaos Beasts born so hard?

Not even the highest level of immortal weapons can break through the Chaos Beast's defense.

Zhang Yuhe understood the law of chaos.

In fact, it is equivalent to a different kind of chaotic beast.

Or.

Even more powerful than the Chaos Beast.

Because in addition to the Law of Chaos, he also understood the nine supreme laws.

And there are all kinds of powerful supernatural powers.

That being said.

It seems understandable.

Because he understood the law of chaos, his immortal body was automatically pushed to the state of perfection.

After all, he is a king-level chaos beast at the same level as him.

The physical strength of any one of them is no worse than that of the immortal body in the Perfection Realm.

Think of this.

Zhang Yuhe punched out again.

Look at the huge black hole in the sky.

He was extremely excited.

What an unexpected bonus.

Section 659

Originally, he just wanted to understand the tenth supreme law.

However.

After understanding the law of chaos.

He found.

The Law of Chaos is stronger than he imagined.

It is very likely that it is an existence that transcends the supreme law.

the most important is.

While comprehending the laws of chaos.

He actually pushed his immortal body to the state of perfection.

This saved him countless troubles.

From now on.

The road to immortality is smooth.

Even if he does nothing.

If you practice while lying down, you can eventually reach the state of Dao Ancestor.

How could Zhang Yuhe not be excited about this?

...

#### Chapter 495 Immortal King Celebration

Zhang Yuhe looked at the black hole in the sky that he punched out.

The mood is extremely comfortable.

He didn't use any magical powers.

Just relying on the power of the physical body, he can blast such an exaggerated black hole in the void.

It can be seen from this.

The changes that the Law of Chaos brought to him were so powerful.

Such physical strength.

Not only surpassed Daluo Immortal King.

It may even be stronger than some Dao Ancestor Emperors.

Because he is not a normal Immortal Body Dzugchen.

To be exact.

After being cleansed by the Law of Chaos.

He should be considered to have a special physical constitution now.

Or it can be called a chaotic body.

The power of the Chaos Body is far from comparable to the Dzugchen of the ordinary Immortal Body.

Zhang Yuhe thinks.

Now he can kill even a king-level chaos beast with one fist.

No magical powers are needed, and there is no need to deploy the sword array.

It only takes one fist to beat the king-level chaos beast to death.

Feel your own powerful strength.

Zhang Yuhe felt a little swollen.

He even wanted to find a supreme Chaos Beast to fight with a pair of fists.

Of course.

This ridiculous thought just flashed through his mind.

It quickly disappeared.

The supreme Chaos Beast is still very powerful.

He shouldn't be able to beat him now.

Even if it is to activate the Hunyuan magical power.

At most, it's just to protect yourself from death.

If he wants to kill the supreme Chaos Beast, he is still a little short of the firepower.

Maybe after he successfully practices Taoism.

With the power of Taoism.

Maybe there is a chance to find a supreme Chaos Beast to test its strength.

But I want to practice Taoism.

He must first fully understand the power of the law to the state of perfection.

Previously there were nine supreme laws.

Now, in addition to the Supreme Law, there is another Law of Chaos.

I want to understand all these ten laws to the state of perfection.

Even if his understanding is off the charts, it will still take some time.

And it's not enough just for the law to be perfect.

I want to practice a Taoist skill.

You also have to use the original things to open your own avenue of origin.

This all takes time.

"Take your time, I'm not in a hurry anyway."

Zhang Yuhe looked up at the sky and muttered silently to himself.

He has plenty of time and can slowly practice Taoism.

Wait until you have successfully practiced Taoism.

In the state of turning on the magical power of Hun Wu Gui Yi.

Zhang Yuhe believes it.

His full-scale strength will definitely not be much worse than that of Emperor Daozu.

It is entirely possible to hammer to death an ordinary noble-level Chaos Beast.

"Go back first."

Zhang Yuhe looked up at the sky, and then punched out.

Suddenly, a huge black hole appeared in the void.

He didn't hesitate.

He was seen standing up and leaping into the black hole in the void.

Disappeared in an instant.

Off the coast of Yunfei Island.

A huge black hole suddenly appeared in an uninhabited land.

Zhang Yuhe's figure floated out of the black hole.

It only takes a moment.

He then crossed most of the Ji'an sea area and returned to the vicinity of Dao Sheng Sect.

Traveling through the void, the speed is fast.

Compared to this.

Any teleportation skills are simply too weak.

Zhang Yuhe turned into a stream of light and quickly flew towards the mountain gate of Daosheng Sect.

...

Time passes slowly.

Another twenty thousand years have passed.

At this time, the Daosheng Sect's mountain gate was decorated with lanterns and colors everywhere, and the entire Yunfei Island was in a festive mood.

Because in a few days, it will be the day when the leader of the Daosheng Sect will hold the Immortal King's celebration.

In the surrounding immortal realms, there are only some big forces with a little bit of fame.

They all received invitations from Dao Sheng Sect.

The major forces dispatched core personnel and rushed to Dao Sheng Sect.

Naturally, no one will miss such a grand ceremony.

There are even some small forces.

Because the Daosheng Sect did not send them invitations, they were unable to attend the celebration.

I couldn't help but sigh.

for them.

Such a grand ceremony is a very important opportunity to show your face.

Not only did I take advantage of this grand event to get to know fellow Taoists from all walks of life.

And it's okay to see the appearance of those Immortal Kings.

Section 660

To know.

For ordinary monks.

They rarely have a chance in their lifetime.

I was able to see the Great Luo Immortal King once.

The key is.

Immortal King Celebration held by Tao Sheng Sect.

For ordinary forces.

That was an excellent opportunity to hug someone's thighs.

If Dao Shengzong takes a high look.

It's possible for them to catch a ride.

As long as Dao Sheng Sect leaks a little bit of resources.

It's enough to benefit them immensely.

It is not impossible to soar into the sky from now on.

Unfortunately.

The invitations distributed by the Daosheng Sect are only limited to major forces with Taiyi Immortal Lord in charge.

Those forces that do not have Taiyi Immortal have no chance to participate in this celebration.

As the day of celebration draws closer.

Personnel from all forces arrived at Yunfei Island one after another.

All of a sudden.

All the immortals gathered on Yunfei Island.

It is exactly a scene of immortal kings walking all over the ground and golden immortals not as good as dogs.

There are even occasionally some magnificent Daluo Immortal Kings appearing on Yunfei Island.

For ordinary monks.

This is a sight they will never see again in their lifetime.

To be able to witness such a grand event.

It is the glory of their lives.

In order to welcome this grand event.

All members of the Daosheng Sect were dispatched.

There are more than twenty Taiyi Immortal Lords, each with a clear division of labor.

Some are responsible for reception, while others are responsible for patrolling.

Just in case someone causes trouble on Yunfei Island.

Such an important event.

If someone causes trouble.

That's a big joke.

to this end.

Dao Sheng Sect's top and bottom people did not dare to be careless at all.

Groups of disciples wearing blue robes.

Constantly patrolling Yunfei Island and surrounding areas.

...

Li Tian turned into a stream of light and flew quickly across the sea.

Just at this time.

A group of blue-robed disciples quickly rushed over from a distance.

After seeing Li Tian.

Everyone shouted respectfully in unison.

"Meet the palace master."

Li Tian looked around and asked calmly.

"There's nothing unusual lately, right?"

"Reporting to the Palace Master, everything is normal."

Li Tian nodded slightly.

Logically speaking.

With the current power of Dao Sheng Sect, it is indeed impossible for someone to come and cause trouble.

After all, this great god, the Galaxy Immortal King, is definitely not something ordinary people can afford to offend.

not to mention.

Except Zhang Yuhe.

At present, some Da Luo Immortal Kings have arrived at Dao Sheng Sect.

If someone comes to Yunfei Island to cause trouble at this time.

That is simply asking for death.

Even Daluo Immortal King.

If you dare to come to Yunfei Island to cause trouble at this time, you have to lie down and go back.

despite this.

Li Tian didn't have any carelessness.

Caution is the boat.

It wouldn't be good if something happened.

It doesn't matter that they are embarrassed.

But Dao Shengzong cannot be embarrassed.

Let alone lose the face of the sect leader.

Li Tian couldn't help but be fascinated by the thought of his own Sect Leader Zhang.

I think back to when I was in Yu Fantian.

They were promoted to the Void Refining Realm together and became sect elders together.

But eight million years passed.

The former junior brother has now become a very important presence in the entire fairy world.

At least in the dozens of surrounding immortal realms.

Except for Tianxing Daozu.

Zhang Yuhe is definitely the number two person.

Think of this.

Li Tian couldn't help but sigh.

...

Chapter 496 The Complete Law of Chaos

Thinking of the past.

Thoughts away from the sky can't help but fly far away.

Back then, he and Zhang Yuhe were still on the same starting line.

Even his starting point is higher than Zhang Yuhe.

When Zhang Yuhe first started.

He is already the Great Perfection of Divine Transformation and is the inner eldest brother of the Yufan Tiandao Holy Sect.

And Zhang Yuhe is just a young Qi Refining Realm monk who is new to cultivating immortals.

Two hundred years later.

He finally survived the catastrophe and was promoted to Elder Lianxu.

However, Zhang Yuhe caught up with him and was promoted to the Void Refining Realm.

From now on.

Zhang Yuhe was out of control.

All the way forward.

Less than a thousand years.

He broke through to the Mahayana realm.

Moreover, every time Zhang Yuhe went through a tribulation, he was still by his side to protect him.

The gap between them simply made him look up to him.

follow closely.

Demons invaded Yu Fantian.

Zhang Yuhe rose up powerfully and swept through countless demon armies.

Even those demons in the Mahayana realm were wiped out.
