Section 67

"This is the founder of our Daosheng Sect, and also the Golden Immortal Patriarch of the Daosheng Sect in the Immortal Realm, Lu Yunfei."

"Come here to worship the Patriarch."

Zhang Yuhe and Li Tian hurriedly walked to the statue and saluted respectfully.

The form of worshipping the ancestor was much simpler than Zhang Yuhe had imagined.

They just saluted the statue, and then walked out of the hall. There was no complicated procedure.

Standing outside the hall, Feng Xiaotian said to the two of them.

"Bring your identity jade cards."

They hurriedly handed over the jade cards.

Feng Xiaotian took the jade card and stretched out his hand to carve in the air.

After a while, he handed the jade card back.

"Okay, from now on, you are the elders of the Daosheng Sect. You must remember the sect's precepts and maintain the stability of the Yufan Realm."

"Yes."

Zhang Yuhe and Li Tian responded.

Feng Xiaotian turned to Lu Mingfang and said.

"The two new elders of Daosheng Sect will spread the news to the world. The rest of the matter will be left to you."

"Yes."

After Feng Xiaotian finished speaking, his figure flashed and disappeared in an instant.

Chapter 66 Daosheng Sect has a fairy weapon

Zhang Yuhe picked up the jade card and looked at it carefully.

After Feng Xiaotian carved it, the jade card had completely changed.

Not only did the color of the jade card change from purple to red, but the pattern content on it also changed greatly.

The jade card for the inner sect disciple's identity was carved with the mountain and river pattern of Daosheng Sect.

And now the jade card is carved with a tall mountain.

Daosheng Peak.

The hall on the top of the mountain can be vaguely seen.

That is the Patriarch Hall.

The text content also changed from inner sect disciple to Daosheng Sect elder Zhang Yuhe.

"I'm an elder now."

Looking at the jade card in his hand, he couldn't help but sigh.

Zhang Yuhe has not been in Daosheng Sect for long, and he is also a player from Blue Star.

To be honest, he didn't have a strong sense of belonging to Daosheng Sect.

However, thinking of Feng Xiaotian's encouragement to him, as well as the skills and magical powers provided by Daosheng Sect before, as well as various training conveniences.

Zhang Yuhe suddenly had a strange feeling.

He felt that Daosheng Sect was his second home.

If one day, Daosheng Sect encountered danger, he would spare no effort to fight for it.

Just as Zhang Yuhe was lost in his wild thoughts, Lu Mingfang beside him spoke.

"Let's go back to Fengming Hall first."

After saying that, he strode down the mountain.

The three of them went down the mountain quickly and returned to Fengming Hall after a while.

Back in the hall, Lu Mingfang waved his hand, and a huge map of the mountain gate appeared in front of the three people.

He smiled and said.

"Since you are the elders of the sect, you need to re-select the mountain cave."

"Look for yourself, tell me after you have chosen."

Zhang Yuhe and Li Tian hurriedly looked at the map.

The map was similar to the one he saw in Chengxujing for the first time.

It was just magnified several times by Lu Mingfang.

Different colors are used on the map to distinguish different areas.

The mountain where the elder is located is the red area.

Looking at the large black area on the map, Zhang Yuhe is still a little curious.

Last time he asked Cheng Xujing, but Cheng Xujing didn't know.

Lu Mingfang should know, right?

Thinking of this, Zhang Yuhe pointed to the black area on the map and asked Lu Mingfang curiously.

"Elder Lu, is there anything special about those black areas?"

Before Lu Mingfang spoke, Li Tian next to him explained to him.

"I heard that there is a passage connecting to the demon world, which is the passage that the demons invaded Yufantian through 100,000 years ago, but it has been closed now."

"Yes, the black area is where the space passage is. Ancestor Wu Yuemin has been guarding there all year round to prevent the Demon God Cult from secretly opening the passage."

"Unlike other places, the space barrier there is weaker. Once the passage is opened, the demons in the Mahayana realm can enter."

"The sect master has already ordered that no one is allowed to enter the black area. You must remember not to enter the black area without permission."

After Lu Mingfang explained, he warned solemnly.

"Yes."

Zhang Yuhe was just a little curious, and he didn't have any idea of committing suicide.

Continue to look at the map, and the peaks were clearly displayed on it.

Some of the peaks have been marked with names, which are obviously owned by someone.

Zhang Yuhe roughly counted and found that there were 186 peaks with names.

In other words, there are 186 elders in the Daosheng Sect.

Now if he and Li Tian are included, that's 188.

The number is really not small.

You know, these elders are not only in the Refining Void Realm, but some are also in the Fusion Realm.

186 Refining Void Fusion Elders.

This is the confidence of the Daosheng Sect to suppress Yu Fantian.

Not to mention, above the elders, there are two Mahayana ancestors Feng Xiaotian and Wu Yuemin.

Facing this huge force, no one can make waves in Yu Fantian.

Even the Demon God Cult can only do some small tricks secretly.

As for the leader of the Demon God Cult, Zhao Mingyue herself, she never dared to show her true body.

As long as she dared to show up, she would probably be killed immediately.

After looking at all the red areas on the map, Zhang Yuhe said politely to Li Tian.

"Big Brother, you choose first?"

"You are too polite, Junior Brother. You should go first."

After the two of them shirked their responsibilities, Zhang Yuhe pointed to a huge lake on the map and said to Lu Mingfang.

"Elder Lu, I will choose this place."

The lake is not small, with a radius of thousands of miles.

In the center of the lake, there are two tall peaks.

The peaks stand tall in the lake, reaching into the sky, which seems a bit abrupt.

Zhang Yuhe chose one of the peaks.

As soon as he finished speaking, Li Tian spoke.

"Then I will choose the peak next to it."

Zhang Yuhe looked at Li Tian with a slightly strange expression.

Brother, what are you doing?

You are a fire spirit, why do you choose the center of the lake as a cultivation cave like me?

Of course.

The lake does not mean that there will be a lack of fire spirit power, and it will not affect cultivation.

It's just that Li Tian's choice always makes him feel a little weird.

Does this guy have any strange ideas?

Zhang Yuhe subconsciously took two steps to the side, creating some distance between him and Li Tian.

Seeing that the two had finished their choices, Lu Mingfang waved his hand and put away the map. He said to the two of them.

"Since the cave has been chosen, go back and practice well."

"The real test is after refining the void. Some elders in the sect have practiced refining the void for thousands of years, but their cultivation has not improved at all. I hope you don't do this."

"Yes."

Zhang Yuhe was about to turn around and leave, but suddenly remembered that Wang Guofeng was still outside the mountain gate.
