

## Top talent 671

### Section 671

He raised his hands and said to Tianxing Daozu.

"Thank you, Daozu. I will definitely go to Tianzuo Holy Land to participate in the Kyushu Conference."

Tianxing Daozu smiled and nodded.

"I hope you will gain something when you see the stone tablet."

In fact, Tianxing Daozu no longer had any hope of unraveling the contents on the stone tablet.

Although Zhang Yuhe is extremely talented.

But in the long years of the fairy world, there has never been a shortage of geniuses.

So many years have passed.

No one has ever been able to unlock the secrets on the stone tablet.

In the eyes of Tianxing Daozu.

Zhang Yuhe's hope of unlocking the stone tablet is not too great.

But it will definitely be beneficial to go and take a look.

The stone tablet left by the great power of Kyushu is full of boundless Taoist charm.

When the monks observe the stone tablets, they will gain something.

It's just that everyone understands different things from the stone tablets.

Someone successfully resolved the bottleneck after observing the stone tablet.

Some people understand the exercises, and some people understand the supernatural powers.

There are also people who have learned some kind of secret technique of enlightenment from the stone tablets.

Some people even understood the Supreme Law from the stone tablets.

The stone tablet left by the great power of Kyushu possesses boundless power.

It can be said that everything is possible.

In the eyes of the Taoist ancestors.

Perhaps this stone tablet is the source of inheritance in the immortal world.

Of course.

This is just a guess.

Before completely unraveling the contents on the stone tablet.

No one can say for sure, what exactly is that?

Maybe that's just a monument set by the Kyushu Power for himself.

After a while.

After Tianxing Daozu said a few words, he left with Immortal King Liuyue.

Without Daozu around, everyone let go of their restraints again.

All the Immortal Kings and Immortal Lords were drinking the Immortal Brew while sitting and discussing the Tao.

The Dao Sheng Sect's Immortal King celebration lasted for three months.

Until the last Immortal King was sent off.

Zhang Yuhe stood quietly in the center of the high platform and did not move for a long time.

Just at this time.

Lu Yunfei came from a distance and shouted softly.

"metropolitan."

Zhang Yuhe nodded slightly.

Then he said calmly.

"From now on, the affairs of the sect will be handled by you."

"I'm going back to the Galaxy Fairy City to retreat, and I won't be coming out again for a short time."

After finishing speaking.

Zhang Yuhe turned into a stream of light and quickly disappeared into the distance.

Lu Yunfei looked at his figure in the distance, his heart filled with endless admiration.

With Zhang Yuhe's current strength.

Not to mention being invincible in the immortal world, at least he is invincible under the Tao Ancestor.

despite this.

Zhang Yuhe is still the same, focusing on his cultivation.

If it weren't for this Fairy King celebration, he would need to appear as the protagonist.

Maybe Zhang Yuhe is still practicing in seclusion now.

His talent is so incredible, and he practices so hard.

This may be a kind of persistent pursuit of the great road.

No wonder Zhang Yuhe was able to do so in such a short period of time.

Just achieved such a high level of achievement.

His talent is higher than yours, and he practices harder than you.

If this doesn't work, it simply doesn't make sense.

Lu Yunfei thinks that he has been practicing pretty hard.

However, compared with Zhang Yuhe.

I seem to have slacked off a bit.

Looking at the direction Zhang Yuhe was going away.

Lu Yunfei murmured to himself.

"Maybe I have to work harder. Taiyi Immortal is just the starting point of immortality, not the end of the road."

Galaxy Fairy City.

Zhang Yuhe stands beside the Seven Star Immortal Pond.

A golden Optimus Pillar stood quietly in the center of the Immortal Pond.

The nine fairy swords circled the golden stick and circulated slowly.

After millions of years of cultivation.

The Nine Heavens Flying Spirit Stick, an innate treasure, has reached the level of a top-grade immortal weapon.

This level of innate treasure can definitely be said to be worthy of mentioning.

It is the top immortal weapon in the immortal world.

Even compared with ordinary Taoist tools, it is definitely not much different.

As for Zhang Yuhe's natal immortal weapon.

The Nine Heavens Hunyuan Sword was also promoted to the highest level of immortality by him.

Because it has been cultivated in the fairy pond for a long time.

In addition, it has been integrated with innate spiritual materials.

Zhang Yuhe's nine natal immortal swords have a tendency to evolve towards innate treasures.

However, these natal swords were refined by him after all.

It can only be regarded as a half-step innate treasure.

despite this.

Now the power of these nine fairy swords is already very terrifying.

Zhang Yuhe estimated.

I'm afraid it's not necessary now, use other means.

The nine-color king beast can be completely killed with just the sword formation formed by the fairy sword.

...

## Chapter 504 The Great Perfection of Laws

Zhang Yuhe waved his right hand.

Throw a large amount of fairy minerals and fairy materials into the high platform in the center of the fairy pond.

In order to cultivate the Nine Heavens Flying Spirit Stick, he would never be lenient.

All kinds of fairy minerals and fairy materials are always being fed to death.

I am not afraid of high consumption, but I am afraid of slow absorption.

Although now the Nine Heavens Flying Spirit Stick has been upgraded to the level of the ultimate immortal weapon by him.

This is already considered the top treasure in the entire fairy world.

It would definitely be extremely difficult to go one step further and upgrade the Nine Heavens Flying Spirit Stick into an innate Taoist weapon.

Otherwise.

so far.

There are not only three innate Taoist tools in the entire immortal world.

despite this.

Zhang Yuhe is still fully committed.

Section 672

He has this innate spiritual gathering treasure land, and he has a chance to upgrade the Nine Heavens Flying Spirit Stick.

to an innate Taoist weapon.

It just takes a long time.

The consumption will be terrifying.

But for Zhang Yuhe.

It doesn't matter.

It doesn't matter if it's slower.

As for the consumption of fairy ore and fairy materials, it doesn't matter.

With Zhang Yuhe's current strength, he can still afford this consumption.

The deterrent power of the innate Taoist weapon is worth his great cultivation.

As far as Zhang Yuhe knows.

In ancient times, the fairy world was not only the three races of humans, demons and monsters.

Except for the Chaos Beast.

The fairy world used to be a place where all races flourished.

There were many different races.

However, now.

There are only three races of humans, demons and monsters.

The other races in the fairy world have long disappeared in the long river of history.

If a race does not have top combat power, it is difficult to deal with all kinds of storms.

And the innate Taoist weapon, with the help of the Taoist Emperor.

It is the top combat power in the fairy world.

The three tribes of humans, demons and monsters have been able to continue from the origin of the immortal way to the present.

It is precisely because each of these three tribes has an innate Taoist weapon.

The world-destroying gun of the human race, the magic knife of the demon race, and the axe of the demon race.

It is also these three innate Taoist weapons that have established the status of the three tribes of humans, demons and monsters.

Protect the stable development of the three tribes.

Zhang Yuhe has the Nine Heavens Flying Spirit Stick and the innate gathering spirit treasure land.

It has the potential to cultivate innate Taoist weapons.

For this reason.

He has no reason not to devote himself.

Zhang Yuhe flew down and came to the front of the practice platform.

He just waved his right hand.

Two huge stone tablets fell from the sky and landed steadily in the valley.

These are the two stone tablets that record the Nine Heavens Hunyuan Heavenly Scripture.

In order to practice Taoism smoothly.

Zhang Yuhe brought both stone tablets here.

Originally, there was a stone tablet that was placed in the Sutra Tower of Yufan Tiandao Shengzong.

But as long as Zhang Yuhe needs it.

It is not difficult to bring the stone tablet to the fairyland.

Now Blue Star and Yu Fantian are no longer comparable to the past.

There are various resources brought by Zhang Yuhe, especially the billions of fairy stones buried underground.

Now the cultivation environment of Blue Star and Yu Fantian is almost the same as that of the fairyland.

Except for the different rules, there is basically no big difference in the concentration of spiritual energy.

It is precisely because of this.

Almost every few thousand years, there will be cultivators from the lower world who ascend to the fairyland.

The Hunyuan Heavenly Scripture recorded on the stone tablet is completely incapable of cultivation by other people.

So as early as after being promoted to Daluo Immortal.

Zhang Yuhe asked someone to send a message and bring the stone tablet from the lower world up.

After placing the stone tablet.

Zhang Yuhe came to the practice platform and slowly sat cross-legged.

He planned to fully comprehend the law.

Push all the nine supreme laws and the law of chaos to the state of perfection.

Because only in this way can he practice the Taoism in the Hunyuan Heavenly Scripture.

Zhang Yuhe calmed down, and all kinds of mysterious Dao rhyme aura slowly flowed around him.

At this time, in his Dantian sea.

In the Yuanying Purple Mansion, a sky-covering tree was slowly growing.

The nine branches of the sky-covering tree were lush and constantly flashing various lights.

This is the tree of law that Zhang Yuhe comprehended.

When he comprehended the law of chaos.

The tree of law in the Yuanying acupoint became what it is now.

With the law of chaos as the main trunk and the nine supreme laws as the branches.

Formed the current sky-covering tree.

To be honest.

Zhang Yuhe has never seen a record of this situation in the classics.

But after many tests.

He also understood that this was not a bad thing.

Not only was there no abnormality in his body, but his strength had greatly improved.

Zhang Yuhe even had some doubts.

Did he create some kind of precedent on the road to immortality?

But he did not go into these deeply.

As long as it does not affect cultivation and strength is improved, it does not matter.

Time passed slowly.

Zhang Yuhe sat cross-legged on the training platform, immersed in the comprehension of the law.

He chose to comprehend the law of chaos to perfection first.

However, the difficulty was much greater than he imagined.

It took Zhang Yuhe 20,000 years to comprehend the law of chaos.

From the entry level to the great success.

Then from the great success, the progress was very slow.

Even if his comprehension was against the sky, the growth rate of the law tree was still not fast.

Until two million years later.

The law tree in the Yuanying Purple Mansion finally grew to a height of ten thousand feet.

Zhang Yuhe calmed down.

Looking at the sky-covering tree in the Yuanying Purple Mansion.

At this time, the trunk of the law tree was completely golden.

The trunk soared into the sky, ten thousand feet high.

This was the manifestation of the perfection of the law.

As for the nine branches, they were still only a hundred feet high.

Compared with the thick trunk, it seemed very inconsistent.

Zhang Yuhe slowly opened his eyes.

He muttered to himself.

"Finally I have solved the law of chaos. The remaining supreme law should not be so difficult."

"Keep going, liver."

Zhang Yuhe did not stand up.

He slowly closed his eyes and continued to immerse himself in the understanding of the law.

One hundred thousand years later.

He pushed the law of power to perfection.

Another eight hundred thousand years later.

He comprehended the remaining eight supreme laws to perfection.

Zhang Yuhe stood up slowly.

He stretched out his right hand and gently moved it forward.

Section 673

A small crack in the void appeared before his eyes.

The laws of space are perfect and the void can be shattered easily.

Zhang Yuhe walked down the training platform and walked slowly in the valley.

When coming to a small tree.

I saw him stretching out his right hand and tapping it gently with his index finger.

An inexplicable rhyme shrouded the small tree.

Almost instantly.

The small tree, which was originally only about ten feet tall, began to grow crazily.

It soon grew into a huge tree covering hundreds of feet.

Then Zhang Yuhe pointed out again.

The giant tree that covered the sky with a height of several hundred feet quickly shrank and became only a few feet tall again.

See this situation.

Zhang Yuhe nodded with satisfaction.

This is the application of the law of time.

Not only can it speed up the flow of life, but it can also reverse it.

If a Golden Immortal monk stood in front of Zhang Yuhe.

He only needs to use the law of time to make it run out of life in an instant and die of old age.

It was simply terrifying.

...

Chapter 505 The Origin of the Avenue

After testing all the powers of various laws.

Zhang Yuhe was extremely excited.

After the power of law reaches perfection, even if it is used alone.

All have very incredible effects.

If used together with powerful magical powers.

That would simply be devastating.

Especially Zhang Yuhe's Supreme Law and Chaos Law.

After reaching the state of perfection.

If used with full force, the effect will be very terrifying.

After many tests.

A smile couldn't help but appear on Zhang Yuhe's face.

The four major directions of immortal cultivation.

Cultivation, immortal body, enlightenment and laws.

Now his immortal body and laws have reached perfection.

The Nascent Soul's orifice has opened to the tenth level, completely surpassing the conventions of the fairy world.

The four major directions of cultivating immortality.

Zhang Yuhe has cultivated all three directions to the extreme.

It can be said that it has reached a point of no return.

At least in the fairy world, that's the case.

Now only cultivation is left.

Zhang Yuhe's current cultivation level is still in the early stage of Daluo Immortal.

There is still a lot of room for improvement.

After he is promoted to Dao Ancestor, his path to immortality will come to an end.

But it's still early days.

Improving your cultivation level cannot be done overnight.

The cultivation speed after Daluoxian was extremely slow.

under normal circumstances.

There won't be much movement for tens of millions or billions of years.

Even if Zhang Yuhe's talent is incredible, it still takes a long time.

Only then can the cultivation level be slowly improved.

So the cultivation matters are put aside for the time being.

That's water grinding.

Zhang Yuhe returned to the training platform.

I saw him flip his right hand.

An exquisite jade box appeared in his hand.

Zhang Yuhe flicked his finger.

The jade box slowly opened.

A piece of plain and simple rotten wood lay quietly in the jade box.

There was no breath escaping from the surface of the wood.

Not even the most basic five elements breath.

It's as if this piece of wood is not something from this world.

Zhang Yuhe took out half of the wood from the jade box and reached out to touch it gently.

This should be regarded as the most precious item in the fairy world.

The original things can assist the monks and open the origin of the body.

This is a must-have for practicing Taoism.

Unfortunately.

In the entire fairy world.

Only the original sea can find the original things.

It's simply impossible to find it anywhere else.

However.

The Sea of Origin is located at the center of the entire Chaos Continent.

There are not only twelve major chaos beast tribes there, but also hundreds of supreme-level chaos beasts.

There is even a Supreme True God.

Even Emperor Dao Ancestor did not dare to go deep into the sea of origin easily.

It can be seen from this.

How difficult it is to obtain an original thing.

Let alone an ordinary Daluo Immortal King.

Even those Dao Ancestor Holy Lands probably don't have any in stock.

Zhang Yuhe's original object was what he found in Taixu Palace.

This is something that Taixu Immortal King brought out from the sea of origin at the risk of his life.

In fact.

It is precisely because of this original thing.

In the end, the Taixu Immortal King was besieged by the Chaos Beasts and fell.

Together with the entire Taixu Sect, they disappeared into the long river of history.

Look at the original thing in your hand.

Zhang Yuhe couldn't help but sigh, the mysterious luck is really unpredictable.

Since embarking on the path of cultivating immortality.

His luck has always been good.

He can even find the original things, things that defy the heavens.

can only say.

This may be due to the influence of some kind of luck.

Zhang Yuhe held the original object in his hand, and then slowly closed his eyes.

Follow the method recorded in the Hunyuan Scripture.

Slowly refine the original things.

After a while.

The original object in Zhang Yuhe's hand turned into little bits of light and quickly merged into the sea of Qi in his Dantian.

In the Dantian sea, the originally illusory continent began to gradually become solid.

I don't know how much time has passed.

Zhang Yuhe slowly opened his eyes.

Section 674

He looked at his right hand.

The original thing has long since disappeared.

He couldn't help but feel a little confused.

"That's it. I don't feel many changes."

After refining the original things.

Zhang Yuhe did not feel any change in his strength.

It seems like everything is business as usual.

Is this refining loneliness?

Think of this.

Zhang Yuhe calmed down.

When he saw the illusory continent in the middle of the ocean in his Dantian.

I couldn't help but feel stunned.

According to classic records.

After the monk was promoted to Taiyi Immortal.

A small island will be formed in the Dantian.

And this small island is the foundation for monks to achieve enlightenment.

Because Zhang Yuhe's cultivation method is somewhat special, or maybe it's because his own talent is so incredible.

When he first established the foundation, his Dantian became as wide as the sea.

So the original small island naturally turned into a huge continent.

Zhang Yuhe discovered.

After refining the original things.

This illusory continent has become more and more solid.

This indicates that.

His Dao foundation has also become stronger.

Only a solid foundation of Taoism can carry powerful Taoism.

Think of this.

Zhang Yuhe finally understood.

Why to practice Taoism, you must first open the source of Taoism.

Be sure to use the source of assistance.

Because there are no such prerequisites.

The foundation of the Tao is empty and unstable, and it cannot carry the power of Taoism at all.

Zhang Yuhe silently realized himself.

He found that now he was more sensitive to the spirit energy.

This not only made his cultivation speed faster.

And when using magical powers, it will be smoother.

Zhang Yuhe thinks.

After opening the origin of the avenue.

His whole person became different.

It was as if he himself had become a part of the fairy world.

After a long time.

Zhang Yuhe slowly opened his eyes and murmured to himself.

"Is this the origin of the Great Dao? It is indeed somewhat magical."

Although his superficial strength has not improved.

But after opening the origin of the avenue.

His use of magical powers and laws has become smoother.

This is tantamount to increasing strength in disguise.

"You should be able to practice Taoism now, right?"

Zhang Yuhe raised his head and looked at the two stone tablets in the distance.

In the second volume of the Hunyuan Heavenly Scripture, a powerful Taoist technique is recorded.

It's called Chaos Returning to the Void.

According to the records in the Hunyuan Scripture.

As long as you successfully practice this Taoist technique.

Once the Taoist magic is performed, everything in an area can be destroyed.

No matter whether it is living creatures, mountains, rivers, stones, or even the air, it will turn into nothingness.

This kind of Taoism can be scary just by looking at it literally.

Zhang Yuhe is looking forward to it very much.

After he has successfully practiced the art of returning chaos to the void.

Is it possible to defeat the supreme level Chaos Beast to death?

"It should be fine."

Zhang Yuhe thought silently.

This should be the strongest method he can obtain in the fairy world.

If you can't kill this, then it's the supreme Chaos Beast.

So even if he raises his cultivation level to the Great Luo Immortal Perfection, he probably won't be able to kill him.

...

Chapter 506 Taoism is accomplished

Feel the changes in yourself.

Zhang Yuhe was extremely happy.

After using the original thing and opening the source of the avenue.

His use of laws and magical powers became more fluent.

Naturally, his strength will also improve, and it will improve a lot.

the most important is.

While opening up the origin of the avenue, it also consolidated the foundation of his avenue.

Enhanced his understanding of Tao.

With a solid foundation of Taoism, he can start practicing Taoism.

Think of this.

Zhang Yuhe couldn't help but smile.

After cultivating immortality for thousands of years, he is getting closer and closer to the great road.

Sooner or later.

He will stand at the top of the avenue.

Zhang Yuhe raised his head and looked at the two stone tablets in the distance.

On the second stone tablet, there is a record of the cultivation method of Taoist Chaos Returning to the Void.

Although he had firmly remembered this cultivation method in his heart as early as when he first ascended to the immortal world.

But the road is endless.

Even ordinary jade slips cannot engrave and record Taoist techniques.

Only this kind of special stone tablet can engrave Taoist techniques on it.

Zhang Yuhe couldn't guarantee that what he remembered before would be accurate.

In order to ensure that the Taoist skills are practiced successfully in one go.

He moved both stone tablets over.

Looking at the stone tablet in front of me, there is a vast and boundless Taoist rhyme.

Zhang Yuhe was filled with infinite yearning for the Nine Provinces Great Master.

He didn't know before where the two stone tablets recording the Hunyuan Scripture came from.

But after Tianxing Daozu told him about the origin of immortality.

Zhang Yuhe already has some guesses.

He estimated that these two stone tablets should be left by the Nine Provinces Great Master.

Apart from that, he really couldn't think of any other possibilities.

There is no way this powerful technique was left behind by the Supreme True God.

To know.

The secret techniques and magical powers recorded in the Hunyuan Scripture all require the crystal core of the Chaos Beast to assist in successful cultivation.

As a chaotic beast, it makes no sense for the Supreme True God to create such a technique.

Section 675

Zhang Yuhe silently felt the Taoist rhyme flowing on the stone tablet.

As he quickly moved the magic formula, various mysterious auras flashed across his body.

With Zhang Yuhe's incredible understanding.

If it was an ordinary magical power, he could learn it just by looking at it.

However, the art of Chaos Returning to the Void is obviously not comparable to ordinary magical powers.

It should take some time to successfully master this Taoist technique.

I don't know how much time has passed.

Zhang Yuhe suddenly opened his eyes.

"Hahaha, I finally mastered the art of returning chaos to the void."

Zhang Yuhe stood up excitedly.

have to say.

Taoism is indeed extremely complex.

After thousands of years of study and understanding, he finally learned this Taoist art.

This means that his understanding is beyond the pale.

If it were an ordinary Daluo Immortal King, it would probably take tens of millions of years.

They may not be able to learn this powerful Taoist technique.

"Find a place and try the power of this Taoist technique first."

Think of this.

Zhang Yuhe stood up and quickly turned into a stream of light, flying towards the depths of the Chaos Continent.

Lu Yunfei, who was practicing, suddenly opened his eyes.

Looking at the direction Zhang Yuhe was going away.

He was filled with doubts.

"Where are you going, Master?"

Zhang Yuhe has been in seclusion for nearly three million years.

He had just left the customs, but he left without leaving any explanation.

This made Lu Yunfei and others feel very strange.

"Maybe the sect leader has something to deal with."

Lu Yunfei didn't think too much.

After all, nothing big happened recently.

And with Zhang Yuhe's strength, the entire Immortal World can be conquered.

Think of this.

He slowly closed his eyes again and continued practicing.

Zhang Yuhe passed quickly across the Chaos Continent.

Occasionally he saw some Chaos Beasts on the road, but he ignored them.

to be honest.

He was not interested in those weak Chaos Beasts.

Zhang Yuhe's target this time is the Manniu Mountain Tribe.

As early as millions of years ago.

The chaos beast army of the Helan Mountain tribe was destroyed after the destruction of the South China Sea Immortal Realm.

Then he launched a crazy act of revenge.

The Chaos Beast tribes around the major fairy realms continuously launched fierce attacks.

Among them, the Brutal Mountain Tribe even attacked the vicinity of Chaotian Fairy City.

only.

Under Zhang Yuhe's powerful attack.

The sneak attack army of Brute Force Mountain was all destroyed outside Chaotian Fairy City.

Even the high priest Brute Litian died in that battle.

After that heavy trauma.

The remaining Chaos Beasts in Brute Force Mountain no longer dare to fight against the monks from the South China Sea Immortal Domain.

They all know it.

There is Zhang Yuhe in the Immortal Domain of the South China Sea, and this great god sits in charge.

No matter how many Chaos Beasts come over, they cannot escape the word "death" in the end.

Even to avoid Zhang Yuhe's sharp edge.

The Brutal Mountain Tribe also carried out a great migration.

Move the entire tribe of Chaos Beasts to a place far away from the South China Sea Immortal Domain.

despite this.

Zhang Yuhe has always remembered this grudge.

In the past, he was worried about Helan Mountain, so he did not act rashly.

But it doesn't matter now.

Even if the Brute Force Mountain moves far away, he doesn't intend to let it go anymore.

As for Helanshan's reaction.

Zhang Yuhe doesn't take it seriously now.

If the respected Chaos Beast in Helan Mountain wants to intervene.

Come on then.

Just let him try it.

How strong is the supreme Chaos Beast?

...

In a place nearly one billion miles away from the Galaxy Fairy City.

Countless powerful chaos beasts are wandering in the mountains and forests.

This is the new home of the Brute Force Mountain Tribe.

At first, he had to avoid Zhang Yuhe's sharp attack.

Under the leadership of the new high priest, Brute Force.

The Brutal Mountain Tribe slowly migrated here.

In a brute force view.

This is far away from the Galaxy Fairy City.

Moreover, their brute force mountain tribe has never attacked the Galaxy Fairy City.

Presumably, the Galaxy Immortal King will never come back to cause trouble for them.

to be honest.

If there is a choice.

Brutal Force even wanted to move the tribe further away.

Unfortunately.

All good places are owned by their owners.

After the fall of Manlitian, the strength of the Manli Mountain Tribe is no longer what it was before.

Brute Force doesn't want to start a conflict with other tribes.

So I can only settle here temporarily.

At the same time, Chaos Beasts were sent out to find suitable places to live in various places.

If there is a better place.

They migrate again.

to be honest.

Despite his brute force, he has never seen Zhang Yuhe.

But the reputation of the Galaxy Immortal Lord is really terrifying.

Being neighbors with such human monks is simply torture.

Even now he is far away from the Galaxy Fairy City.

But in Brute Force's heart, there is still no sense of security.

Especially three million years ago.

It is rumored that the terrifying Immortal Lord has been promoted to the realm of Immortal King.

This made Brutal Force even more worried.

It was afraid that one day Zhang Yuhe would knock on its door.

if it is possible.

It would be better to move further away.

...

Section 676

Chapter 507 The Power of Chaos Returning to the Void

Manli stood quietly on the altar, his heart full of sorrow.

It was too dangerous to be neighbors with a powerful human monk.

We must find a way to move the tribe farther away.

Hundreds of years ago.

Manli sent out a large number of Chaos Beasts to explore far away.

Hoping to find a more suitable place to live.

But a suitable place to live is not so easy to find.

After all, Manli Mountain has a huge foundation.

If you want to accommodate so many Chaos Beasts, ordinary places are really not enough.

For millions of years.

Those Chaos Beasts sent out did not bring it good news.

At this time.

A Chaos Beast with a strong breath quickly came from a distance.

It shouted to Manli excitedly.

"High Priest, we found a very perfect place to live."

Hearing this, Manli asked excitedly.

"Where is it? What's the situation around? Are there any powerful level 4 tribes? How far is it from the Galaxy Fairy City?"

"It's in the southeast direction. There are no powerful level 4 tribes around. It's at least tens of billions of miles away from the Galaxy Fairy City."

"Good, very good, pass the order immediately and let the tribe prepare to migrate."

After hearing the report from the Chaos Beast.

Manli didn't even think about going there to investigate again.

He directly ordered the entire tribe to prepare to migrate.

To be honest.

He always felt that this place was not safe.

Although they had migrated once.

But it was still too close to the Galaxy Fairy City.

If the distance was extended to tens of billions of miles.

That would make it feel safer.

Distance creates beauty.

And migrating to the southeast would be closer to the Helan Mountain Tribe.

If something unexpected happened.

The support of the Helan Mountain Tribe could arrive earlier.

So Manli didn't hesitate at all.

Immediately ordered the tribe to prepare to migrate.

Maybe it was a premonition.

It always feels that something bad might happen recently.

So it's better to run farther away.

The Chaos Beasts next to it heard Manli asking the tribe to prepare for migration immediately.

This surprised them.

"High Priest, are there so many Chaos Beasts in our tribe migrating in such a hurry?"

"The new place of survival has not been carefully investigated yet."

"What if it's not suitable there?"

"And migrate the entire tribe to a place hundreds of billions of miles away."

"You can't make such a decision so easily."

Manli waved his hand.

"Don't say anything more, this is settled."

"Notify the tribe and start preparing immediately, we will set off tomorrow."

Manli didn't want to wait for a day.

It always felt as if there was a huge crisis looming over it.

It didn't know.

Where did this crisis come from?

Was it from Zhang Yuhe?

Or.

It sensed it wrong.

Despite this.

Manli didn't hesitate at all.

Move, move quickly.

Only by staying away from the Galaxy Fairy City can it feel a little safe.

At this moment.

A figure suddenly descended above the altar.

Manli looked up.

He couldn't help but scream.

"Galaxy Fairy King, how come you are here."

"Everyone run, the Galaxy Fairy King is coming."

Manli roared and took a step to run away.

Seeing Zhang Yuhe suddenly appear.

Manli did not have any desire to resist.

Although the Chaos Beasts are violent.

But they are not fools.

The Galaxy Fairy King's great reputation is known to all Chaos Beasts in the surrounding vast area.

As early as tens of millions of years ago.

Zhang Yuhe could suppress thousands of king-level Chaos Beasts and sweep away hundreds of millions of Chaos Beasts.

Now Zhang Yuhe has been promoted to the realm of Fairy King.

How terrible it must be.

Manli simply dared not imagine.

Seeing Zhang Yuhe appear.

Its first thought was "run".

The entire Manli Mountain Tribe was filled with countless Chaos Beasts.

They were scattered in an instant.

They ran wildly like headless flies.

Zhang Yuhe stood tall in the sky.

He slapped his right hand.

He smashed Manlidi and the entire altar into pieces.

Manlidi, the powerful Nine-Colored King Beast, was in Zhang Yuhe's hand.

He couldn't even catch a single palm.

And Zhang Yuhe hadn't used any magical powers.

He just relied on pure physical strength.

He killed a Nine-Colored King Beast.

This was the power that the Chaos Law brought him.

It was very terrifying.

It was even more powerful than the Chaos Beasts of the same level.

Zhang Yuhe reached out and picked up Manlidi's body.

On the shattered altar, a black crystal was particularly eye-catching.

Seeing this.

Zhang Yuhe couldn't help but smile.

The reason why he came quietly.

The target is this black crystal.

Otherwise.

Section 677

Why is it so troublesome to use?

Whether it's unfolding a sword formation or using a newly learned Taoist technique.

It can easily wipe out the entire Brute Mountain Tribe.

This black crystal is called Chaos Immortal Crystal.

It is the core material for refining Chaos Cannon.

Only on the altar of the fourth-level Chaos Beast tribe would there be such a precious thing.

If he shows up too early.

These chaos beasts will definitely destroy the Chaos Immortal Crystal.

After putting away the Chaos Immortal Crystal.

Zhang Yuhe looked around.

I saw a large number of Chaos Beasts running around in panic.

"snort."

Zhang Yuhe snorted coldly.

At this point, where can you run to?

He's here.

If the Chaos Beast of the Brute Force Mountain Tribe is allowed to escape.

Then it's a joke.

Zhang Yuhe stands tall in the sky.

He muttered to himself.

"Let's use you Chaos Beasts to test the power of Taoism."

Think of this.

Zhang Yuhe was seen quickly using the magic formula.

Various powerful laws and rhymes quickly spread to the surroundings with him as the center.

It enveloped the entire Brute Mountain Tribe.

The chaos beasts all over the mountains and plains had just taken two steps.

He was suppressed by the powerful law and was stopped in place, unable to move.

A huge black millstone slowly appeared in the sky.

Follow the magic formula and pinch it.

The millstone rotates slowly.

Roar.....

Chaos beasts all over the mountains and plains kept roaring in terror.

However, it was of no use.

As the millstone slowly pressed down.

Powerful chaos beasts were crushed directly into blood mist.

Those low-level chaos beasts didn't even leave any crystal cores behind.

It was directly crushed into nothingness by the black millstone.

Even the king-level chaos beast is not much better.

Facing the terrifying power of Taoism.

There is no difference between the king beast and the ordinary chaos beast.

The huge millstone only turned slightly for half a turn.

Nuo Da's brute force mountain tribe soon fell into silence.

All the chaotic beasts were crushed to pieces by this terrifying Taoist technique.

Zhang Yuhe stands tall in the sky.

He took a deep breath and put away his Taoist magic.

The terrifying millstone in the sky slowly disappeared.

...

Chapter 508 Sweeping a radius of tens of billions of miles

Zhang Yuhe put away his Taoist magical powers.

Looking at the scene in front of him, he couldn't help but be shocked.

I saw that the brute mountain tribes that were originally lined with mountain peaks had been crushed into flat ground by the tyrannical Taoist magical power.

As for the chaos beasts living here, not even one escaped.

Almost all of them were crushed into nothingness.

Only a few powerful king-level chaos beasts can still preserve relatively complete corpses.

Even the spirit of the fairy spirit in this vast area was directly wiped out by the tyrannical Taoism.

Wait until he takes back his Taoism.

The surrounding fairy energy poured in again.

Only then did the place gradually return to normal.

See this situation.

Zhang Yuhe himself was shocked.

He knew that the art of Chaos Guixu was very powerful.

Able to turn everything into nothingness.

Isn't this strong?

However, when he showed it.

Only then did I truly see how terrifying this Taoist technique was.

All things turn into nothingness, which is naturally an exaggeration.

After all, some of the crystal nuclei of those Chaos Beasts are still preserved.

He was not crushed by Taoism.

And there are still a few corpses of king-level chaos beasts that are also well preserved.

despite this.

That's already terrible.

Zhang Yuhe knows very well.

Just now, he did not fully display the Taoist technique of Chaos Returning to the Void.

to be exact.

He just used this Taoist technique and took it back halfway.

Only the black millstone made a complete circle.

Only in this way can the full power of this Taoism be fully displayed.

But just now when the millstone was only turned halfway, all the chaos beasts were dead.

Naturally, there is no need to continue.

We can't let this powerful Taoist magic play with nothing here.

Moreover, using the magical power of Chaos Returning to the Void requires a large amount of fairy spiritual power.

Just now the millstone only turned half way.

Less than half of Zhang Yuhe's Dantian, which was as wide as the sea, was consumed.

If this Taoist technique is fully unleashed.

I'm afraid it can basically drain his entire dantian.

"What a terrifying Taoist magical power."

Zhang Yuhe muttered silently to himself.

The art of returning chaos to the void is more powerful than he imagined.

This is because his level is not high enough now.

If he waits until he is promoted to the Dao Ancestor Emperor.

I'm afraid it's just this powerful Taoist technique.

It would be possible to wipe out all the revered Chaos Beasts in the Immortal Realm.

But it's not bad now.

If faced alone, a supreme Chaos Beast.

Zhang Yuhe believes it.

With the tyrannical power of Chaos Guixu, it should be possible to destroy the supreme Chaos Beast.

"I'll try it later if I have a chance."

Think of this.

Zhang Yuhe raised his head and looked into the distance.

As a level four tribe.

Section 678

The strength of Manli Mountain is not weak, for the Helan Mountain tribe.

It should also be very important.

Just don't know.

Will Helan Mountain send support forces over?

Zhang Yuhe stood tall in the sky, and he wanted to wait here for a while.

See if you can catch a noble-level chaos beast.

Unfortunately.

After a long time, he didn't see any movement.

"It seems that those in the Helan Mountains don't know yet that the Brute Mountain Tribe has been wiped out by me."

They didn't wait until the respected Chaos Beast from Helan Mountain came over.

Zhang Yuhe had some vague guesses in his mind.

After all, there is still a long distance between here and Helan Mountain.

The last time we were in Niulan Mountain, that was why Helan Ruobei came to support us.

that is because.

The Chaos Beast in Niulan Mountain triggered a signal for help.

Helan Ruobei only came to support after seeing the signal.

But this time Zhang Yuhe moved too fast.

He was slapped to death by his brute force before he could even call for help.

"Hey, it seems that the supreme Chaos Beast of Helan Mountain cannot be crouched down."

"Let's go to the next one first."

Think of this.

Zhang Yuhe rose into the sky and flew quickly into the distance.

He had no plan to just wipe out the Brute Force Mountain and be done with it.

Soon after.

Zhang Yuhe plans to travel, and also to Tianzuo Holy Land.

Participate in the Kyushu Conference held once in a billion years.

before leaving.

Naturally, he wanted to wipe out all the surrounding tribes that threatened Galaxy Fairy City.

Zhang Yuhe had already planned it.

With Galaxy Fairy City as the center, it covers a radius of tens of billions of miles.

As long as the Chaos Beast tribe exceeds the fourth level, all the tribes will be wiped out.

To expand the safe space for the Galaxy Fairy City and the South China Sea Fairyland.

As for the reaction of the Helan Mountain tribe.

Zhang Yuhe didn't care at all.

He was looking for a supreme Chaos Beast to test the power of Taoism.

Zhang Yuhe quickly passed through the wilderness.

Every powerful Chaos Beast tribe was wiped out by him.

The fourth-level tribe that once terrified monks.

In the hands of Zhang Yuhe.

He couldn't even struggle for half a second.

They were all swept into the trash heap of history.

Luoyan Mountain Tribe.

Zhang Yuhe stands tall in the sky.

This is his last goal in this operation.

After cleaning this place.

The area around the South China Sea Fairyland was basically cleaned by him.

The remaining chaos beast tribe doesn't even have a king beast.

It is simply impossible to pose any threat to the South China Sea Immortal Territory.

Zhang Yuhe stood tall in the sky, and the chaotic beasts all over the mountains and plains were running around.

He was in no hurry to take action.

He just moved too fast.

So much so that the Chaos Beasts in those tribes couldn't even send a message for help to Helan Mountain.

This is not okay.

He needs these Chaos Beasts to have more opportunities.

Otherwise.

Where is he going to find a supreme-level Chaos Beast to practice with?

The sea of origin is too far away.

Moreover, there are many high-level chaos beasts there.

Zhang Yuhe didn't want to go there and die.

So he could only seduce a supreme Chaos Beast and let him test his firepower.

What should I do if there are too many noble-level Chaos Beasts hooked?

What else can be done?

Just run.

With Zhang Yuhe's current strength.

He wants to run, who can stop him?

Just at this time.

On the altar of the Luoyan Mountain tribe, a black bead suddenly exploded.

Red clouds shot straight into the sky, covering the entire sky in an instant.

See this situation.

Zhang Yuhe couldn't help but smile.

Now, the noble Chaos Beast on the other side of Helan Mountain should have received a message asking for help.

Zhang Yuhe turned to look at the chaotic beasts running around.

very good.

Now that the mission is completed, it's time to send you on your way.

Zhang Yuhe quickly used the magic formula.

A huge millstone suddenly appeared in the sky.

A huge millstone suppresses the sky.

The chaotic beasts running wildly below were instantly frozen in place.

Some weak Chaos Beasts were even crushed to pieces by this terrifying momentum.

As the millstone turns.

The entire Luoyan Mountain tribe's Chaos Beasts were quickly wiped out.

Even the red clouds that filled the sky were directly wiped out and returned to nothingness.

There is absolutely no trace of its past existence.

Zhang Yuhe looked back into the distance.

He muttered to himself.

"The noble Chaos Beast of Helan Mountain should be on its way now."

...

Chapter 509 Helan Ruojiu

After wiping out all the chaos beasts in Luoyan Mountain.

Zhang Yuhe stood quietly, waiting for the arrival of the supreme Chaos Beast from Helan Mountain.

As per normal conditions.

As long as there are affiliated fourth-level tribes asking for help, Helan Mountain will send out supreme-level chaos beasts.

After all, he is a monk who can pose a threat to the fourth-level tribe.

Even if he is not a Taoist, he is still a top-notch Da Luo Immortal King.

If there is no respected Chaos Beast in charge and other Chaos Beasts are sent over, it will be a loss of life.

not to mention.

There is generally a long distance between the affiliated tribes and Helan Mountain.

Only the supreme Chaos Beast can break the void and move forward quickly.

Helan Ruobei stood on the altar, looking at the red clouds in the sky in the distance.

Section 679

It couldn't help but fall into deep thought.

"That's the direction of Luoyan Mountain. Did something happen there?"

"Could it be that old ghost Tianxing is up to something again?"

to be honest.

Now Helan Ruobei is full of fear of Tianxing Daozu.

The last time I was in the South China Sea Fairyland.

They were five against one, but one of them was beaten to death by Huanxing Daozu.

That's not all.

The army of chaos beasts that entered the South China Sea Immortal Domain were also wiped out.

It's been years now.

Naturally, Helan Ruobei already understood what happened.

The South China Sea Immortal Realm has given birth to a peerless genius who defies the heavens.

That is Zhang Yuhe of Daosheng Sect.

Zhang Yuhe single-handedly suppressed thousands of king-level chaos beasts.

Moreover, tens of millions of Chaos Beast armies were wiped out.

To know.

At that time, Zhang Yuhe was still just Immortal Lord Taiyi.

Helan Ruobei could not imagine such a terrifying Immortal Lord Taiyi.

Now Zhang Yuhe has been promoted to the realm of Immortal King.

It has definitely become more terrifying.

Looking at the distant red clouds.

Helan Ruobei fell into deep thought silently.

"Is it the Galaxy Immortal King who is attacking the Luoyan Mountain Tribe?"

It doesn't know.

Zhang Yuhe has successively wiped out more than a dozen fourth-level tribes around him.

Because he moves too fast.

The chaos beasts in those tribes had no time to call for help.

If Zhang Yuhe hadn't deliberately let the water go.

Luoyanshan also had no chance to send out a message for help.

At this time, Helan Ruobei's heart was full of entanglements.

to be honest.

It really doesn't want to have any more conflicts with Tianxing Daozu.

Unless it is the Ocean of Origin, the twelve major tribes join forces to act.

Otherwise.

Helan Ruobei really has no interest in going to the territory of Tianxing Territory.

Because the strength of Tianxing Daozu is indeed a bit terrifying.

It doesn't want the Helan Mountain Tribe to lose its high-end combat power anymore.

Originally, Helan Mountain was a hanging tail among the twelve major tribes.

If another supreme Chaos Beast falls.

That would be really difficult to turn over.

But it was impossible for it to ignore Luoyanshan's request for help.

Otherwise.

In the future, how will they control the subordinate tribes in Helan Mountain?

Tangled.

Really confused.

"It's better to let people go over and take a look. If you encounter old ghost Tianxing, just run away quickly."

Think of this.

Helan Ruobei turned his right hand.

A pitch-black horn appeared in his hand.

It said a few words silently.

The sound travels quickly through the horns to distant places.

At this time, Helan Ruojiu was rapidly moving through the wilderness.

Follow the tasks assigned by Helan Ruobei.

During these billion years, it needs to patrol among the subordinate tribes.

Sudden.

Helan Ruojiu stopped.

It took out a black conch.

Helan Ruobei's voice came from Conch Chu.

"Ruojiu, just now the Luoyan Mountain Tribe sent a message asking for help. Please go over and take a look."

"Be careful, if you find Old Ghost Helan, don't get entangled with him, just run away and get away."

"The strength of Old Ghost Tianxing now is far from what it was ten billion years ago."

"Once we are entangled by him, even if we want to go over to support him, we may not be able to come in time."

"Yes, High Priest."

Helan Ruojiu put away the conch.

Looking at the direction of Luoyan Mountain in the distance, I felt thoughtful.

It also saw the red cloud in the sky just now.

At that time, he was ready to rush over and take a look.

But the red cloud only appeared for a moment.

It quickly disappeared.

Helan Ruojiu thought it might be a false alarm from Luoyan Mountain.

Now came the order from the high priest.

Then you still have to go and have a look.

to be honest.

It is also a little scared of Tianxing Daozu.

After all, this is a one-on-five ruthless person who can kill a supreme-level chaos beast.

Can Helan Ruojiu not be afraid?

Among all the supreme-level chaos beasts in Helan Mountain, its strength can only be regarded as ordinary.

If the Heavenly Star Daozu can be beaten to death, other respectable Chaos Beasts can be beaten to death.

But as long as it's careful, it should be fine.

Think of this.

Helan Ruojiu took a deep breath.

Then he changed direction and quickly ran towards Luoyan Mountain.

It could not disobey the orders of the high priest.

I hope it's just the Immortal King of the South China Sea Immortal Domain who is besieging Luoyan Mountain.

Helan Ruojiu thought silently in his heart.

After all, Tianxing Daozu, under normal circumstances, would not take action at will.

Not even able to deal with an ordinary fourth-level tribe.

The dilemma Luoyan Mountain is facing now.

The greatest possible.

It should be the Immortal King's power in the South China Sea Immortal Territory, which wants to continue to expand outwards.

Think of this.

The expression on Helan Ruojiu's face became a little cold.

Daluo Immortal King is not afraid of him.

No matter how many Daluo Immortal Kings there are, it can kill them easily.

Zhang Yuhe stood quietly in the sky, waiting for the arrival of the supreme Chaos Beast from Helan Mountain.

I have practiced Taoism for so many years.

This was his first time to face the most powerful force in the immortal world.

Think of this.

Zhang Yuhe couldn't help but feel a little excited.

Just at this time.

Section 680

In the distant void, there was a sudden violent fluctuation.

Zhang Yuhe looked around.

He saw a huge black hole appearing in the distant void.

A tall Chaos Beast, holding a black spear in his hand, drilled out of the black hole.

When this Chaos Beast appeared, the air around it almost stagnated.

The tyrannical aura overwhelmed the entire world.

There is no doubt.

This is a powerful Venerable Chaos Beast.

Seeing this.

A smile appeared on Zhang Yu's face.

Very good.

Finally he got his chance.

And the Helan Mountain Tribe only sent one Venerable Chaos Beast.

This is the most ideal situation.

It can give him the opportunity to face the top combat power of the fairy world alone.

Originally, Zhang Yuhe was thinking.

Helan Mountain suffered a big loss in the South Sea Fairyland last time.

Maybe he dared not come.

Even if he wanted to come to support, he would not send a Venerable Chaos Beast alone.

At least he should send a few more.

Aren't they worried about being beaten to death by Tianxing Daozu?

There aren't many Supreme Chaos Beasts in the entire Helan Mountain Tribe.

If another one is beaten to death, I don't know if they will feel bad.

But Tianxing Daozu is not here today.

Only Zhang Yuhe himself.

This Supreme Chaos Beast should not run away.

Zhang Yuhe thought silently while looking at the void in the distance.

...

Chapter 510 Hard Fight with Supreme Chaos Beast

Helan Ruojiu stood in the air with a spear in his hand.

He looked around.

The huge Luoyan Mountain Tribe had now turned into a huge basin.

The original mountains, rivers and lakes had long disappeared.

Even the lake water was evaporated by an unknown force.

Seeing this situation.

Helan Ruojiu couldn't help but be alert.

It can turn the entire Luoyan Mountain Tribe into a basin.

Such a magical power must be very terrifying.

"Is it true that the old ghost Tianxing has come?"

Helan Ruojiu held a spear and looked around vigilantly.

However, apart from Zhang Yuhe, it did not see any other figures.

In fact.

As early as when Helan Ruojiu just came, it had already seen Zhang Yuhe.

After all, Zhang Yuhe did not hide his figure.

But he stood in the sky with a swagger.

It's just that Helan Ruobei didn't take Zhang Yuhe seriously.

Even now Zhang Yuhe has been promoted to the realm of Immortal King.

But what does it matter?

It is Helan Ruobei who has been in the immortal world for countless years.

The number of immortal kings killed by it is already too many to count.

How could Helan Ruobei care about the little Daluo Immortal King?

It can't beat the Daozu Emperor.

Could it be that it can't beat the Daluo Immortal King?

After repeated confirmation.

Helan Ruobei couldn't help but breathe a sigh of relief.

Tianxing Daozu didn't come.

There was really only one cultivator, Zhang Yuhe, at the scene.

Helan Ruobei turned around and looked at Zhang Yuhe with a cold face.

Its terrifying aura of a supreme chaos beast overwhelmed the entire world.

The little Daluo Immortal King was so rampant.

Not only did he wipe out the Luoyan Mountain tribe, but he also dared to stay where he was.

Doesn't he take the Helan Mountain Venerables seriously?

Thinking of this.

Helan Ruojiu said with a sinister look.

"Galaxy Immortal King, you are very courageous. You destroyed the Luoyan Mountain tribe and didn't even run away."

Zhang Yuhe stood in the sky, facing the terrifying might of Helan Ruobei.

There was no fear on his face.

He was waiting for a supreme chaos beast.

How could he be afraid?

Originally, he wanted to find a supreme chaos beast.

Let's try.

See where the limit of his current strength is.

Can he kill a supreme chaos beast, the top power in the fairy world?

Thinking of this.

Zhang Yuhe responded calmly.

"It's just a bunch of garbage, why should I run away?"

His expression was full of contempt.

This is completely not taking Helan Ruojiu seriously.

Hearing Zhang Yuhe's words.

Helan Ruojiu was furious.

He said viciously.

"Very good, since you want to die so much, then I will fulfill your wish."

As soon as the voice fell.

Helan Ruojiu held a black spear and jumped up.

The spear penetrated the void and rushed straight to Zhang Yuhe.

Facing Helan Ruojiu, the fierce power.

Zhang Yuhe was not only not afraid, but even his face was full of excitement.

Finally waited for it.

Now let him see what the top power in the fairy world is like.

He has never worried about his own safety.

To be honest.

No matter how fierce Helan Ruojiu is, he can't beat him to death.

With Zhang Yuhe's current strength.

Even if he really can't beat him, he wants to get away and run away.

That's not a problem at all.

And Zhang Yuhe believes.

He should be able to defeat the Supreme Chaos Beast.

The only thing to consider.

That is whether he can kill it.
