Chapter 69

Zhang Yuhe waved his hand, then signaled to Wang Guofeng and said.

"This is Elder Li Tianli, have you ever seen him before?"

After everyone met each other, Li Tian took the people away.

He came here mainly to say hello first and let the entourages on both sides get to know each other.

From now on, when walking within the sect, there will be good care between them.

After all, Li Tian and Zhang Yuhe must spend more time on cultivation.

Everything outside is taken care of by followers.

After the followers get to know each other, they can exchange news and take care of each other in the future.

The names of Li Tian's four followers are easy to remember and very interesting.

Wind, rain, thunder and lightning.

Free from wind, rain, thunder and lightning.

The four of them are all descendants of Li Tian's family, and their cultivation levels are not as good as Wang Guofeng's.

They are all just foundation building and cultivation.

But it's normal to think about it.

Golden elixir monk is not a cabbage.

Among the cities in Yufantian, the Golden Core cultivators are not even the overlords of one party.

He is definitely a big shot.

To be honest, it was a bit humiliating for Wang Guofeng to serve as his follower.

Of course, if Wang Guofeng follows him, he will definitely not suffer any loss.

After cleaning up everything, Zhang Yuhe said to Wang Guofeng.

"You can find a place to stay near the mountain peak."

After finishing speaking, he took out another jade bottle and handed it over.

"This is the Infant Transformation Pill. Practice it well and strive to break through to the Nascent Soul Realm as soon as possible."

"Thank you, senior, for your cultivation."

Wang Guofeng took the jade bottle and said excitedly.

The Infant Transformation Pill is an important pill that assists Golden Pill monks in breaking through to the Nascent Soul realm.

Generally, it is only in the hands of major forces. Even if players want to spend spiritual stones to buy it, they can't find channels.

But for Zhang Yuhe, it was just something he picked up and refined casually.

"Okay, go and practice by yourself. There will be something you need to do in a few days."

After Zhang Yuhe finished speaking, he walked towards the cave in the center of the mountain top.

...

Chapter 68 Deduction of Renshui Thunder Absorbing Formation

Wang Guofeng held the jade bottle in his hand, looked at Zhang Yuhe's back, and bowed solemnly.

He was grateful from the bottom of his heart.

Perhaps to Zhang Yuhe, the Infant Transformation Pill was not a precious thing.

As long as he has the materials, he can refine a lot of them.

But for Wang Guofeng, without the Infant Transformation Pill, he would not be able to break through to his current level.

You will be trapped in the golden elixir realm for a long time.

Three years ago, he cultivated to the perfection of the Golden Pill, and then began to inquire about the whereabouts of the Infant Transformation Pill.

Unfortunately, after many inquiries, he was very disappointed with the result.

There is no place to buy this stuff.

Although he did gain a lot of resources when cleaning up the He and Li families.

But there are no purchasing channels, and even if you are extremely wealthy, you cannot buy the Baby Transformation Pill.

It's hard to have money and not be able to buy what you need.

Wang Guofeng once asked Qian Weiguang and Sun Pengcheng, both of whom had Nascent Soul monks.

And there are more than one or two, they will definitely be able to get the Infant Transformation Pill.

However, even though the three of them usually call themselves brothers, when it comes to the Baby Transformation Pill, they all just shake their heads and say nothing.

Obviously, it would be difficult for the Qian and Sun families to obtain the Infant Transformation Pill.

They will not let go of this important resource that involves family inheritance.

After many efforts, Wang Guofeng almost gave up.

He tried to see if he could break through to the Nascent Soul realm without using the Infant Transformation Pill.

As a result, not only the breakthrough failed, but also due to the reverse flow of the meridians, the vitality was severely damaged, and it took more than half a year to recover before returning to normal.

Later Wang Guofeng understood.

If you want to go further on the road of monasticism, you must embrace Neng Yuhe's thigh.

The first level of a monk's realm is like a sky.

What is difficult for him should not be too difficult for Zhang Yuhe.

It is really difficult for players like them who have no foundation in Yu Fantian to rely on themselves.

Originally, Wang Guofeng planned to wait until the time was right as long as he worked seriously.

Then ask Zhang Yuhe about the origin of the Infant Transformation Pill.

Who knew that Zhang Yuhe had already prepared it for him without saying anything.

How could he not admire such a person?

Wang Guofeng clenched his fists and secretly made up his mind.

"Seize the time to practice. I hope that one day, I can really help Senior Zhang."

Putting away the jade bottle, Wang Guofeng stood up and quickly flew to the foot of Galaxy Peak.

Then, a cave was opened at the entrance of the mountain peak.

Although Zhang Yuhe asked him to practice at any place on the top of the mountain.

But Wang Guofeng still sticks to his identity.

He is now just Zhang Yuhe's follower.

Since you are a follower, you must have the consciousness to be a follower. Living on the top of the mountain is too inappropriate.

...

When Zhang Yuhe walked into the cave, he didn't care what Wang Guofeng thought.

For the president of the Blue Star Cultivation Alliance, he just tried to cultivate him.

If this person is worth cultivating, he will naturally increase his investment.

So that after he ascends in the future, Blue Star will have suitable people to guard it.

If Wang Guofeng is an Adou who cannot be supported, then forget it.

At worst, before he ascends, he can still ensure the safety of Blue Star by leaving some more backup hands.

Come to the weapon refining room in the cave.

Zhang Yuhe waved his right hand, and a huge four-legged tripod fell steadily to the ground.

With a wave of his hand, he opened the lid of the cauldron and poured all kinds of materials into the four-legged cauldron.

Zhang Yuhe pinched the magic formula, and a scorching flame ignited under the cauldron.

He sat cross-legged beside him, circulating the Hunyuan Heavenly Scripture while separating his consciousness and silently paying attention to the situation in the cauldron.

Although he had been officially promoted to the elder of the Daosheng Sect, there were no chores for him to deal with at present.

But Zhang Yuhe did not plan to enter deep cultivation for the time being.

He still had a lot of things to do.

For example, he had to re-refine the flags and plates of the Five Elements Gathering Spirit Array.

In addition, his natal magic weapon also needed to be upgraded.

As his cultivation level was raised to the Refining Void Realm, Zhang Yuhe's various skills were also improved accordingly.

With a little attempt, he could refine a medium-grade Tongtian Lingbao.

He planned to first refine the flags and plates required for the second-level Gathering Spirit Array.

Then he would upgrade the Nine Heavens Hunyuan Sword to a medium-grade Tongtian Lingbao.

Of course.

In addition, he had another more important thing to do.

That was to deduce the formation.

He planned to try and see if he could improve the Renshui Thunder Absorption Array.

Improve the ability of the Renshui Thunder Absorption Array and weaken the power of the heavenly tribulation.

The experience of crossing the tribulation before gave him a great touch.

Maybe it was because of his extraordinary talent, or maybe it was because the Hunyuan Tianjing technique was somewhat special.

When he broke through, the heavenly tribulation he triggered was much stronger than that of ordinary cultivators.

In the end, he even attracted the nine-colored divine thunder.
