Section 71

However, Wang Guofeng was modest and cautious in front of him.

He didn't have the slightest attitude of a big shot.

This shows that this person is very practical.

He can correctly recognize himself.

In the world of immortal cultivation, only such people can live longer and go further.

Zhang Yuhe took out a jade slip, which recorded the materials needed to refine the middle-grade lightning-absorbing column.

He handed the jade slip over and said.

"Please help me collect the materials on it."

After a pause, Zhang Yuhe continued.

"There are a lot of materials needed. You have to think of a way. You can mobilize players to help collect them. In addition, ask the people in Wangxian Peak to see if there is a better way to quickly collect the materials."

After that, Zhang Yuhe took out another storage ring and handed it over.

"There are some elixirs and magic weapons that I refined before. After disposing of these things, the spiritual stones needed to buy materials should be enough."

"Yes."

Wang Guofeng respectfully took the jade slip and ring, and then flew away.

Zhang Yuhe stood quietly on the top of the Yinhe Peak.

Because the formation has been improved, it needs 108 lightning-absorbing pillars.

And they are all middle-grade Tongtian Lingbao.

It is easy to refine these lightning-absorbing pillars, it just takes some time.

The key is that the materials needed to refine so many middle-grade Tongtian Lingbao-level lightning-absorbing pillars are not a small number.

And the materials for refining middle-grade Lingbao are not easy to find.

Even when he improved the formation, he tried his best to change the materials needed for refining lightning-absorbing pillars.

into various ores that are more common in Yu Fantian.

Despite this, because the amount he needs is too much.

It is estimated that it is difficult to buy them all by purchasing them in the player's trading market.

It will take a lot of effort to collect all the materials.

But fortunately, Wang Guofeng is here.

He believes that Wang Guofeng is better than him at collecting materials.

Everyone has his own expertise.

Wang Guofeng can become the president of the Blue Star Xiuxian Alliance, not only relying on his background.

It's not just because he has a ninth-grade spiritual root.

More importantly, he is very good at dealing with people and things.

In this regard, Wang Guofeng is much better than himself.

"Things are over, and now it's time to practice well. I haven't practiced for a few days, and I feel a little uncomfortable."

Zhang Yuhe turned around and walked into the cave.

Chapter 70 Demon Shadow

Walked onto the practice platform in the cave.

Zhang Yuhe waved his right hand, and five small flags with mysterious spiritual energy flew around the practice platform.

He took out another array plate and gently placed it not far from him.

He took out a large pile of spiritual stones and placed them around the array flags and array plates.

After doing all this.

Zhang Yuhe pinched the magic formula, and the five elements spirit gathering array instantly lit up.

Endless spiritual energy quickly gathered around him, and soon formed a sea of spiritual energy.

Zhang Yuhe sat cross-legged on the practice platform.

"Try to see if you can deduce the Nine Heavens Hunyuan Sword Array."

Thinking of the fact that it only took a few days to deduce and improve the Renshui Thunder Absorption Array.

He couldn't help but think of the Nine Heavens Hunyuan Sword Formation.

It would be great if this sword formation could be improved.

The Nine Heavens Hunyuan Sword Formation was already powerful enough. If it was improved, wouldn't it be awesome?

Do it when you think of it.

Zhang Yuhe immersed his mind in the Nine Heavens Hunyuan Sword Formation, and various ideas kept appearing in his mind.

However, he soon opened his eyes and sighed.

"Alas, I am too naive."

After a careful deduction.

He found that the Nine Heavens Hunyuan Sword Formation was perfect.

If he improved it according to his idea, it would not only fail to enhance the power of the sword formation.

Instead, it would weaken the power of the sword formation and even cause chaos, and even the sword formation could not be fully arranged.

"Try another one, try to deduce the Great Wilderness Prisoner Finger."

Zhang Yuhe put his mind into the Great Wilderness Prisoner Finger, wanting to improve this magical power.

However, after a long time, he gave up.

This magical power could not be improved.

After some deduction, Zhang Yuhe had some enlightenment.

The magical powers above the Heavenly Rank are already perfect and cannot be deduced and improved.

If they are forcibly improved, it will either reduce the power of the magical power itself.

Or it will deduce a new similar magical power.

That is not improvement, but creation.

"Let's just practice honestly."

After some attempts, Zhang Yuhe quickly gave up the idea of continuing to deduce magical powers.

He is not the only genius.

Those who can create Heavenly Rank magical powers are all super geniuses.

Every Heavenly Rank magical power has been deduced to the extreme.

It can no longer be changed.

...

As Hunyuan Tianhun slowly operates, the surrounding spiritual energy ocean quickly converges to Dantian.

The spiritual energy ocean in Dantian is rolling up waves, and the purity of mana has increased slightly.

"It seems to be a little slow."

Feeling the spiritual energy quickly flowing into Dantian, Zhang Yuhe silently calculated.

Even if he practiced every day without interruption, it might take him 20 to 30 years to reach the middle stage of the Void Refining Realm.

You know, this is still the acceleration effect of the Five Elements Gathering Spirit Array.

The second level Five Elements Gathering Spirit Array can double the speed of practice.

If there is no Five Elements Gathering Spirit Formation, it may take decades to break through to the middle stage of Refining Void.

"No wonder Lu Mingfang said that some elders in the sect have not made any progress in thousands of years of cultivation."

Such a slow progress in cultivation is indeed easy to make people despair.

With his extraordinary talent, the speed of cultivation is so slow that it makes people uncomfortable.

Wouldn't it be even more difficult for others?

Maybe there will be no progress after practicing for hundreds of years.

How can I bear this.

"Alas, the road of cultivation is really a test of a person's patience."

Don't panic, take your time.

Zhang Yuhe quickly got rid of all kinds of random thoughts and devoted himself to cultivation.

...

On a deserted island in Tianxing Sea.

A woman with a beautiful face and a charming figure, holding a formation plate in her hand, walked slowly on the island.

The woman walked slowly while pinching the magic formula quickly.

Behind her, there were several black shadows with raging demonic flames.

One of the black shadows seemed a little impatient and said with a slightly complaining tone.

"Master Mingyue, are you sure? Is this a weak spot in space? Can we open a fixed passage to the Holy World?"

Hearing the demon's complaint, the woman turned around with a smile, her smile was like a blooming peach blossom, intoxicating.

But the black shadows behind her seemed to turn a blind eye to it.

In their eyes, the beautiful woman was not as good as a plate of meat on the table.
