

Top talent 721

Section 721

After a while.

The divine tablet finally rose from the abyss and quietly floated in the air.

Zhang Yuhe looked around.

He saw that the top of the divine tablet was engraved with [Donghua Palace. Lu Jiuzhou].

A few vigorous and powerful characters.

Apart from that.

There was no other writing on the entire stone tablet.

There were only some endless and mysterious runes.

Looking at these runes.

Zhang Yuhe could not help but slowly sink into it.

Wu Yiyi sat on the swing and saw this situation.

She muttered disdainfully.

"It's just a tombstone. What's so good about it? It's just a waste of time."

She knew it very well.

It's impossible for Lu Jiuzhou to hide any inheritance in the tombstone.

This is not only because she saw Lu Jiuzhou's death with her own eyes.

More importantly.

Lu Jiuzhou didn't have a higher-level inheritance at all.

Lu Jiuzhou came from Donghua Palace.

All he learned came from the Daoist Canon of Jiuhua Palace.

Of course, he could learn these things by himself.

But if he wanted to pass them down in the fairy world, that would be impossible.

Each sect had its own set of confidentiality measures.

To ensure that the main inheritance of their family would not be leaked.

For example, means such as the natal oath or the soul oath.

Even his own disciples could not say even a word of the inheritance.

Just like the Daosheng Sect, there are similar confidentiality measures.

Otherwise.

How could Zhang Yuhe safely put various classics.

In the treasure house of the sect?

With various means of restriction, he did not have to worry that there would be disciples in the sect who would leak their inheritance.

Most of the basic civilization of the fairy world came from Lu Jiuzhou's own understanding and perception.

These things were not restricted.

But the higher inheritance, obviously, he could not keep it in the stone tablet.

It was precisely because of this.

Wu Yiyi had no expectations for the stone tablet in front of her.

She did not believe at all that Zhang Yuhe could comprehend anything useful from the stone tablet.

If it was just an ordinary true god's Dao Yun.

Zhang Yuhe followed her every day.

As a tree of enlightenment.

Isn't her Dao Yun strong?

Why go far away?

In Wu Yiyi's opinion.

Looking at a dead person's tombstone is a pure waste of time.

With this time, Zhang Yuhe might as well practice more.

Boring.

...

Chapter 538 Donghua Palace Reception Order

Zhang Yuhe was immersed in the perception of the runes.

As his mind turned rapidly.

One rune after another was transformed into various characters.

The contents of the entire inscription were slowly connected together.

I don't know how long it took.

Zhang Yuhe finally completely analyzed the contents of the entire stone tablet.

Wu Yiyi was right.

This is indeed the epitaph that Lu Jiuzhou built for himself.

A string of runes turned into words and slowly appeared in Zhang Yuhe's mind.

【Nine Provinces True God Monument】

【I am Lu Jiuzhou, born in the Donghua region of Damotian. When I was young, I was fortunate to be guided by a master and entered the Donghua Palace for cultivation. 】

【Unfortunately, due to my poor talent, I wasted billions of years before I barely advanced to the True God realm】

【After more than a dozen chaotic eras, I finally cultivated to the seventh level of the True God. 】

【I know that if there is no special situation, the seventh level of the True God will be my end. 】

【For this reason, I left the Donghua region and traveled around to adventure, looking for various possible opportunities. 】

【Finally one day, when I was traveling in the chaotic void, I suddenly found a new enlightenment tree. 】

【This made me ecstatic. 】

【Unfortunately, even if I said all the good things and was willing to sign the most humble contract, the enlightenment tree was unwilling to follow me. 】

【Although the new enlightenment tree only had a naive intelligence, it might also see that my talent was limited and there was no hope of eternal life in this life. 】

[I was unwilling to miss it, so I planned to take it by force.]

[However, although this enlightenment tree was just born, its escape technique was extremely fast.]

[I chased it for decades, but failed to subdue it.]

[I did not give up, but continued to chase it.]

[Until later, the enlightenment tree suddenly drilled into a primitive world.]

[Maybe I was destined to have this disaster.]

[After chasing into the primitive world, a powerful chaos beast suddenly appeared.]

[Faced with the chaos beast of the perfect true god realm, I was no match at all.]

...

[In the end, I had no choice but to use the life-threatening secret technique of Donghua Palace to severely injure the body of the chaos beast.]

[Because the secret technique was too overbearing, my soul began to lose control and slowly dissipated.]

[I knew that I didn't have much time left.]

[Looking at the primitive world in front of me, I suddenly had an epiphany.]

[I am not talented in this life, and I can't ask for eternity. 】

【Then why don't I preach in this primitive world? 】

【If I spread my great Dao to this world, wouldn't that be equivalent to a different kind of eternity?
】

【Of course, I also know that this is just a self-deceiving idea. 】

【Despite this, I still preach in this world and enlighten countless lives. 】

[I hope that one day, a powerful cultivator will be born in this primitive world, carrying the power of my Dao and killing the Chaos Beast, which can be regarded as revenge for me.]

[Later, when you can see this information, I believe that your understanding of the Dao is no weaker than mine.]

[In such a primitive world, you can have such a sense of the Dao. In the future, your achievements in the Dao will definitely far exceed mine.]

[I hope that one day, you can avenge me and return to Donghua Palace with my hope.]

[That is the starting point of my cultivation and my home.]

[Returning to your hometown is eternal.]

...

I don't know how long it has passed.

Zhang Yuhe slowly opened his eyes.

He looked at his right hand.

He saw a golden token, which appeared in his hand at some point.

Zhang Yuhe carefully looked at the token in his hand.

He saw that the surface of the token was engraved with complex runes.

He couldn't understand it at all.

Section 722

On the front of the token, the three characters [Donghua Palace] are engraved.

On the back, the three characters [Reception Order] are engraved.

Looking at the token in his hand, Zhang Yuhe couldn't help but smile.

He said to himself silently.

"With this token, this Jiuzhou Conference is not in vain."

According to Lu Jiuzhou's introduction on the divine tablet.

Every true god disciple of Donghua Palace has a reception order.

With this token, one person can be received and join Donghua Palace.

And each token can only receive one person.

After using it, it will automatically become invalid.

The quota for Donghua Palace's reception order is very precious.

Every true god disciple will carefully choose and will not receive randomly.

Lu Jiuzhou's reception order has not been used yet.

In other words.

As long as Zhang Yuhe holds this token, he can join Donghua Palace.

There is no need to go through any assessment.

Of course.

There is a premise here.

He had to leave the fairyland first, enter the Chaos Sea, and then find Donghua Palace.

According to Lu Jiuzhou.

The Chaos Sea is vast and boundless.

Even if the God King is powerful, he can only stay in a small corner for his whole life.

Where is Donghua Palace exactly?

Zhang Yuhe doesn't know yet.

If he can't get to Donghua Palace.

This guide order in his hand is just a useless thing.

Zhang Yuhe put away the token.

Whether it is useful or not, put it away first.

Wait until you leave the fairyland and enter the Chaos Sea in the future, and then slowly ask about it.

After all, this is also a place to go.

Zhang Yuhe looked up into the sky.

I saw that the stone tablet as high as a mountain was turning into a light spot and slowly dissipating.

Seeing this situation.

He said to himself silently.

"I don't know if this stone tablet will appear again in the future?"

"It shouldn't be?"

Zhang Yuhe doubted.

Lu Jiuzhou arranged this epitaph, perhaps just to send out the guide order.

To guide an excellent disciple to Donghua Palace.

Now the guide order has been in his hands.

Then after one billion years, this epitaph should not appear again.

Thinking of this.

Zhang Yuhe couldn't help showing a helpless expression on his face.

He didn't think so.

If this stone tablet does not appear again in the future.

Then he would have cut off the hope of those Daozu emperors.

But one billion years is a long time.

Zhang Yuhe believes.

There is no need to wait until that time.

He can be promoted to the realm of Daozu and defeat the Supreme True God.

Open a road for the sentient beings in the fairy world to the Chaos Sea.

When that time really comes.

Whether this stone tablet will appear again or not seems not so important.

Those Daozu emperors have been waiting in the fairy world for so many years.

Wouldn't they go crazy and rush to the Chaos Sea?

"Forget it, I'm too lazy to think so much."

"Anyway, no one knows that I destroyed this stone tablet."

At this time.

Wu Yiyi jumped down from the swing.

He walked to Zhang Yuhe and asked him curiously.

"Zhang Yuhe, did Lu Jiuzhou give you something just now?"

"I really didn't expect that the evil villain really had a trick up his sleeve."

Hearing this.

Zhang Yuhe was speechless.

That's it?

He has been dead for so many years, and you still hold a grudge.

It's not over, right.

...

Chapter 539 Quietly Return to the Galaxy Fairy City

A stream of light quickly passed through the wilderness.

Zhang Yuhe stood at the front of the fairy ship.

A small tree about ten feet high stood quietly behind him, with its branches swaying gently in the wind.

After the divine tablet disappeared, the Daozu emperors left.

As for the insights gained from observing the divine tablet, no one said anything.

Everyone has his own opportunity.

Just grasp your own opportunity, don't try to inquire about other people's feelings and gains.

As the supreme ruler of the fairy world, every Taoist emperor is a sixth-rate person with thousands of tricks.

How could everyone easily speak out their feelings?

Unless they encounter a real war.

Otherwise.

No one knows what kind of backhands others have hidden.

Zhang Yuhe did not stay any longer.

After saying hello to An Tianzuo and Li Tianxing.

He began to embark on the return journey.

Originally according to the original plan.

He also planned to travel around the surrounding major domains.

See the different styles of various places in the fairy world.

However, after meeting Wu Yiyi.

Zhang Yuhe no longer had the intention to continue traveling.

It's better to be honest and return to the Galaxy Fairy City to practice in seclusion.

Improve your cultivation as soon as possible, and take Wu Yiyi away from this place that has trapped her for countless years.

Whenever I see Wu Yiyi sitting on the swing, I look carefree.

Zhang Yuhe would feel an inexplicable pain.

He knew.

Wu Yiyi didn't want to practice.

It was just that the level of this fairyland was too low and totally unsuitable for her.

She had nothing to do in this fairyland and could do nothing.

She could only sit on the swing and stare blankly every day to kill the endless time.

This endless emptiness was actually very scary.

Section 723

Zhang Yuhe didn't want Wu Yiyi to be like this all the time.

Only the vast sea of chaos is where Wu Yiyi should stay.

Zhang Yuhe had an inexplicable sense of urgency.

He wanted to improve his cultivation as soon as possible and then go to a wider world.

While he was still deep in thought.

Wu Yiyi suddenly asked him again.

"Zhang Yuhe, tell me quickly, what did Lu Jiuzhou leave for you?"

Hear this.

Zhang Yuhe couldn't help but help his forehead.

Why is this little girl so curious?

Do I have to ask for clarification?

Very speechless.

Since leaving Tianzuo Holy Land, Wu Yiyi has asked this question dozens of times.

"Forget it, it's not a big deal if I show you."

Think of this.

Zhang Yuhe helplessly took out the receiving order, threw it over and said.

"Here, it's this token."

Wu Yiyi took the token, looked at it carefully for a while, and then said angrily.

"I know that evil thief Lu Jiuzhou has no good intentions."

"He has been dead for so many years, and he still wants to drag you into Donghua Palace."

"Humph, does he want you to take this girl with him?"

Well.....

Hear this.

Zhang Yuhe couldn't help but be stunned.

What kind of brain circuit is this?

Lu Jiuzhou just didn't want to let this lead-in order go to waste in the fairy world.

How is it possible, you want to get so much?

But Wu Yiyi is right.

If he joins Donghua Palace.

Then Wu Yiyi, wouldn't you just go with him?

Could it be that Lu Jiuzhou could really calculate this far?

Not so scary, right?

Think of this.

Zhang Yuhe asked Wu Yiyi seriously.

"Yiyi, have you heard of Donghua Palace before? What is their reputation?"

Zhang Yuhe thought.

If the reputation of Donghua Palace is too bad and its reputation is bad.

Then he will throw the token far away.

He is not certain that he will join Donghua Palace.

The Sea of Chaos is vast and boundless, and there will always be a place suitable for him to stay.

Although the inheritance of the immortal world comes from Lu Jiuzhou.

But Zhang Yuhe didn't think so.

These people have to go back to Donghua Palace to recognize their ancestors and return to their clan.

The main thing is to see whether the place is worth going to.

Wu Yiyi tilted her head and thought for a while before speaking slowly.

"How would I know this if I hadn't met the evil thief Lu Jiuzhou?"

"I didn't even know that Donghua Palace existed."

"But if Lu Jiuzhou didn't brag, then the strength of Donghua Palace should be quite strong."

"I heard that there is a Nine-step God King sitting in charge. As for whether it is true, I don't know."

Zhang Yuhe nodded, and he didn't ask any more questions.

Although Wu Yiyi also comes from the Sea of Chaos.

But in fact, she is just like a blank piece of paper.

He doesn't know much more than himself.

But in Donghua Palace, is there really a Nine-Step God King sitting in charge?

If that is really the case, then the strength of Donghua Palace is really quite strong.

Zhang Yuhe already had a rough understanding of the cultivation realm of Chaos Sea.

The Dao Ancestor of the Immortal Realm is equivalent to the False God Realm of the Chaos Sea.

Above the False God is the True God, and then there is the God King, the Eternal Emperor, the Supreme.

The Nine Realms of Virtual God, the Nine Heavens of True God, and the Nine Steps of God King.

As for eternity and supremeness, that is too far away.

Whether it's Wu Yiyi or Lu Jiuzhou.

They just know that these two realms exist, as for the specific situation.

None of them know.

Even in the Sea of Chaos, eternity and supremeness are just legends.

According to normal calculation.

The Nine-step God King should be the most powerful force on the surface of the Chaos Sea.

If Donghua Palace really has the Nine-Step God sitting in charge.

Isn't that also the existence of a hegemon?

It seems like this.

It seems worth visiting.

But there's no rush.

Let's wait until he enters the Sea of Chaos and learn more about it.

Zhang Yuhe slowly sat down cross-legged and silently circulated the Hunyuan Scripture.

There is an endless distance from Tianzuo Holy Land back to Galaxy Fairy City.

Even if nothing delays it, it will take at least tens of thousands of years.

He still thought about it.

Can Wu Yiyi take him back to Galaxy Fairy City quickly?

Unfortunately.

Wu Yiyi himself can indeed travel quickly through the fairy world.

You can even reach anywhere in the fairy world in an instant.

But if you take him with you, that won't be possible.

That being the case.

Zhang Yuhe didn't think any more about it.

Let the fairy ship fly slowly.

Anyway, he can practice normally if he stays on the fairy ship.

Although the effect of cultivation is definitely not as good as staying next to the Seven-Star Immortal Pond in Galaxy Immortal City.

But there was Wu Yiyi beside him.

Even if there is a difference, the impact is actually not big.

...

Time passed slowly.

The Immortal Ship Galaxy crossed a square of the Immortal Realm and jumped over the endless wilderness of the Chaos Continent.

After thirty thousand years.

Galaxy Fairy City.

A stream of light quickly passed over the fairy city.

Zhang Yuhe put away the fairy ship and landed on the top of Galaxy Peak.

He did not say hello to Dao Sheng Sect or the others, but walked directly into the gathering place.

Everything in Daosheng Sect is developing smoothly now, and there is no need for his intervention at all.

As a Daluo Immortal King, he is the top combat force in the Immortal Realm.

Zhang Yuhe's role in Daosheng Sect is more of a foundation.

The sect's affairs no longer need him to intervene.

Section 724

Others can naturally manage the sect well.

Unless he has something to do and needs help from others.

Otherwise.

Zhang Yuhe didn't even plan to show up in the sect.

Just think of him as an ancestor practicing in seclusion.

...

Chapter 540 [Galaxy. Yitian Mansion]

Zhang Yuhe walked into the place where spirits are gathered.

Looking at the Seven Star Immortal Pond in the middle of the valley.

I saw him wave his right hand.

A golden long stick and nine fairy swords slowly fell into the middle of the fairy pond.

The long stick stands in the sky, and the fairy sword surrounds it, flowing slowly.

Put a lot of various fairy minerals and fairy materials into the high platform in the middle of the fairy pool.

Zhang Yuhe looked at the entire valley and could not help but frown slightly.

Since discovering this place of spiritual gathering and establishing the Galaxy Fairy City around it.

He has been practicing here for at least tens of millions of years.

Only then did Zhang Yuhe suddenly remember.

As your own place of worship.

There is no name here yet, which is a bit too cheap.

How could the dojo of his majestic sect, Daluo Immortal King, not have a name?

Think of this.

Zhang Yuhe waved his right hand.

A huge stone was suspended quietly in the void.

The entire stone is silvery white, with a strong sharp aura.

It emanates faintly from the stones.

This is a third-level fairy material, Silver Moon Sinking Star Iron.

It only takes the size of a fist to refine an excellent top-grade sword.

Such a large piece of Silver Moon Sinking Star Iron in front of you would be difficult for an ordinary monk to see.

It can definitely be regarded as a huge wealth.

But for Zhang Yuhe, that doesn't matter.

He didn't even remember when and where he got this piece of Silver Moon Sinking Star Iron.

Maybe it's the Taixu realm, maybe it's from other places.

After all, he had gotten too many good things.

How can I remember it?

Zhang Yuhe would never use this piece of Silver Moon Sinking Star Iron.

Always keep it at the bottom of the storage bracelet medium box.

Now it is just used to build a monument and name for his dojo.

Think of this.

Zhang Yuhe slowly stretched out his right index finger.

Hot sword light spurted out.

As the sword light flashed rapidly.

The huge silver moon sinking star iron was slowly chipped into the shape of a stone tablet.

After a while.

[Yinhe. Yitianfu], several vigorous and powerful characters slowly appeared on the stone tablet.

The handwriting is like sharp sword light, rushing straight into the middle of the bullfight.

Zhang Yuhe completely integrated his knowledge of swordsmanship and the power of law into these few characters.

If put outside.

For ordinary monks, this is definitely a top-notch treasure of enlightenment.

Of course.

Zhang Yuhe did not have this idea.

He just wanted to build a monument and name for his dojo.

With a wave of his right hand.

The stone tablet slowly flew up and fell towards the entrance of the valley.

See this situation.

Zhang Yuhe finally nodded with satisfaction.

From now on.

This place where spirits are gathered finally has a name.

【Galaxy.Yitianfu】

It's a good name.

He loved it.

Zhang Yuhe slowly walked to the training platform.

Just at this time.

The purple ring on his left hand suddenly came out.

It turned into a small tree about ten feet tall.

The Enlightenment Tree was slowly taking root next to the training platform.

Wu Yiyi appeared from the tree.

Feel the rich Taoist atmosphere around you.

She jumped with joy.

"Haha, the environment here is really nice, I like it so much."

"Zhang Yuhe, how did you find this place?"

"Why didn't I find it before?"

Seeing Wu Yiyi's happy look.

Zhang Yuhe couldn't help but smile.

he said with a smile.

"There are four such treasured places for gathering souls in the Immortal World."

"Demon Emperor, Qinglong and An Tianzuo should each occupy a place."

"Otherwise, they will not be able to promote the innate treasure to the level of Taoist weapons."

"It's just that I don't know the specific location of their soul-gathering treasure land yet."

Wu Yiyi waved her right hand.

A small pavilion instantly appeared in the fairy pond.

She walked slowly towards the pavilion and sat down at the stone table in the pavilion.

"Hey, if I had known there was such a place in the fairy world, I should have occupied it first. Then life wouldn't be so difficult."

Wu Yiyi held the stone table with her right hand and counted with her left hand.

After a while.

she suddenly whispered.

"Hey, there should be five places like this in the Immortal Realm, corresponding to the five elements and five directions in the Immortal Realm."

Speaking of which.

He said excitedly to Zhang Yuhe.

"Zhang Yuhe, there should be another place like this. Should we look for it?"

"Once you find it, occupy it, and you won't have to worry about having no place to play in the future."

Hear this.

Zhang Yuhe was speechless.

What's there to find?

Isn't it enough to have this Seven-Star Immortal Pond?

He can't practice separately.

Why take up so much space?

Moreover.

How could it be so easy to find such a spiritual treasure land?

Just stop wasting your time.

Section 725

Think of this.

Zhang Yuhe said softly.

"Yiyi, this Seven-Star Immortal Pond is enough for me to practice."

"From now on, when I practice, you will be right next to me."

"As long as you like it here."

Only then did Wu Yiyi regain her composure.

She said depressedly.

"That's right. I just need to follow you. I don't have to find another place."

"Wait until you are promoted to the False God Realm, and then beat that big crocodile away."

"We can go to the Sea of Chaos together."

"We can't stay in this primitive world for long."

"There's really no need to look for it anymore."

After saying this.

Wu Yiyi stood up and walked around in the valley, looking there.

Just like a curious baby.

See this situation.

Zhang Yuhe couldn't help but shake his head.

He didn't care either.

Instead, he slowly sat down cross-legged on the training platform.

As the Hunyuan Scripture moves slowly.

The surrounding fairy energy quickly swarmed towards him.

The spiritual energy passes through the meridians and slowly gathers into the Dantian.

The spiritual energy liquefies and drops drop by drop fall into the sea of dantian.

Wait until he fills up the entire Dantian sea.

You will be automatically promoted to the middle stage of Daluo Immortal.

So far, he has not encountered any bottlenecks.

As long as you keep refining spiritual energy and filling your Dantian, you can improve your realm.

It's just that Zhang Yuhe's Dantian is really too wide.

It is indeed not easy to fill up such a wide Dantian sea.

However, it has been tens of millions of years since Zhang Yuhe embarked on the path of immortality.

He naturally understands the principle of water piercing a stone.

There is no need to rush into cultivating immortality.

As long as you practice hard and accumulate day and night, you will naturally succeed.

And compared to ordinary monks.

He has a huge advantage.

Zhang Yuhe's own qualifications are incredible.

The speed of cultivation is much faster than others.

In addition, with the help of the Seven Star Immortal Pond, his cultivation speed can be at least doubled.

The key is.

Now Wu Yiyi is by my side.

His cultivation speed can be increased by more than ten times.

If calculated carefully.

Zhang Yuhe's cultivation speed may be a hundred times that of other Daluo Immortal Kings.

It's simply exaggerated.

It is precisely because of this.

Only then did he have confidence.

Within tens of millions of years, one can improve one's cultivation to the perfection of Daluo realm.

If these conditions do not exist.

How dare he have such confidence.

The other Da Luo Immortal Kings each advance to a smaller realm.

Wouldn't it take hundreds of millions of years?

If you add in the time required to resolve bottlenecks, it will be even longer.

There are so many Daluo Immortal Kings in the Tianxing Domain.

Many of them have earned at least tens of billions after being promoted to the Great Luo Realm.

However, their cultivation has still not reached perfection.

There are even many people who are still wandering in the early and middle stages of Daluoxian.

Zhang Yuhe has such good conditions.

What reason does he have for not practicing hard?

No effort now.

How long will it take to get out of the fairy world?

Heading towards the vast sea of chaos?

so.

Just practice.

liver!

...

Chapter 541 Shenluo Yitian Pill

Time passed slowly.

Since Zhang Yuhe returned to Yitian Mansion, he has never come out again.

He has been sitting cross-legged on the training platform, practicing quietly.

Wu Yiyi was alone, sometimes sitting on the swing and swinging.

Sometimes they dance in the valley or sing softly.

She even transformed the entire valley into a romantic sea of flowers.

And she herself was playing happily in the sea of flowers.

for these.

Zhang Yuhe ignored it.

He has been immersed in cultivation.

As long as it doesn't affect his cultivation, Wu Yiyi can do whatever he wants.

Moreover.

Wu Yiyi is a big boss in the true god realm.

And it is of great help to my own cultivation.

It doesn't matter if you let the little girl fiddle with it.

Eight hundred thousand years later.

Wang Jinghai finally found it and studied the idea of elixir to resolve Daluo's bottleneck.

He immediately came to Galaxy Fairy City and discussed it face to face with Zhang Yuhe.

Zhang Yuhe made an exception and came out of customs to meet with Wang Jinghai.

With Zhang Yuhe's incredible understanding, he also had the Enlightenment Tree as his back.

If he wanted to create a new recipe, it wouldn't be too difficult.

It's just that he doesn't have time.

I don't want to spend any time delving into this aspect.

However, Wang Jinghai has already found the idea, he just needs to help improve it.

It doesn't take much time.

half year later.

Zhang Yuhe quickly developed a complete new elixir recipe based on Wang Jinghai's ideas.

Not only that.

He also used the materials provided by Wang Jinghai to refine the elixir.

After repeated confirmation by the two, the conclusion was finally reached.

As long as you take this elixir, you can at least increase Taiyi Immortal Lord's chances of breaking through the bottleneck of Daluo Immortal by more than 30%.

After successfully refining the elixir, Wang Jinghai was very excited.

He asked Zhang Yuhe to name this elixir.

Section 726

Although Wang Jinghai spent a lot of time researching this new elixir.

And he also found a clear idea.

But he knew.

If Zhang Yuhe hadn't participated.

I'm afraid he might not be able to get a clear result even after hundreds of millions of years.

Not to mention refining the elixir.

Refining a new elixir requires extremely high skills from the elixir master.

And the village materials of this elixir are very precious.

Wang Jinghai has collected this village material for so many years, and there is only this village material in total.

If the refining fails.

Then I don't know when I can collect it again.

If I can't refine the finished elixir, I naturally can't confirm whether the new elixir formula is effective.

Zhang Yuhe didn't refuse.

He just thought about it silently for a while.

He named this new elixir formula Shenluo Yitiandan.

Because refining this elixir requires a key core material.

It's called Shenluo Xianguo.

Shenluo Xianguo is extremely rare.

Before that.

Zhang Yuhe had never even heard of the existence of such an immortal fruit.

Wang Jinghai also discovered this immortal fruit by chance on the Chaos Continent.

After testing the medicinal properties.

He finally believed that it was the best material for refining and resolving the bottleneck of Daluo.

Zhang Yuhe had collected the fruit cores, hoping to use the Palm of Heaven Bottle.

This immortal fruit could be planted in large quantities.

After the Shenluo Yitian Pill was refined.

Zhang Yuhe thought.

It would be better to find a cultivator who had reached the perfection of Taiyi Immortal to try it.

Only then can the actual effect of this immortal pill be finally determined.

Anyway, a furnace of immortal pills can produce a total of five pills.

They each took two pills.

They could take out another one for testing.

It's a pity.

Now, there are no cultivators who have reached the perfection of Taiyi in the Daosheng Sect.

After all, the rise of the Daosheng Sect is relatively short.

Although there are indeed many Taiyi Immortal Lords in the sect.

But there are really no perfect ones.

Zhang Yuhe considered it over and over again.

Finally, he decided to find Nangong Tianming to test the effect of Shenluo Yitian Pill.

For such a good thing that fell from the sky.

Nangong Tianming naturally had no reason to object.

It has been nearly one billion years since he was promoted to Taiyi Immortal Perfection.

However, he had no idea how to break through to the Daluo realm.

Now Zhang Yuhe is willing to provide the elixir for him to try to resolve the bottleneck.

Nangong Tianming was simply overjoyed.

He agreed to test the elixir without any hesitation.

Finally, in the Ji'an Sea, Yinhe Island.

Nangong Tianming took Shenluo Yitian Pill, successfully resolved the Daluo bottleneck, and led the heavenly tribulation to come.

With the formation on Yinhe Island.

He naturally had no problem surviving the heavenly tribulation.

Three days later.

Nangong Tianming survived the Daluo heavenly tribulation and became the seventh Daluo Immortal King in the South China Sea Immortal Domain.

And the Nangong Immortal Clan was also promoted to the fourth super power in the South China Sea Immortal Domain.

The news that Nangong Tianming was promoted to Daluo Immortal King surprised many people.

When they heard that there was a new elixir that could help resolve the bottleneck of Daluo,

Countless Taiyi Immortal Lords came to Yinhe Immortal City one after another, wanting to ask for Shenluo Yitian Pill.

Unfortunately,

Zhang Yuhe had been in seclusion, and no one could see him.

Before the Shenluo Immortal Fruit was planted in large quantities,

He had no intention of giving away the Shenluo Yitian Pill in his hand.

He only had two in his hand.

Let's keep it for the Taiyi Immortal Lord of the sect.

Not long after,

Wang Jinghai, who returned to Tianzuo Sheng, spread the word.

As long as someone could provide Shenluo Immortal Fruit, he could help refine Shenluo Yitian Pill.

As the news slowly spread,

Countless Taiyi Immortal Lords went to Chaos Continent one after another, wanting to find wild Shenluo Fruit.

Find that little bit of opportunity to break through the Daluo realm.

Zhang Yuhe did not pay attention to the disturbances from the outside world.

As long as it is not a Chaos Beast, and he can defeat the Galaxy Fairy City.

He does not plan to come out again.

He must cultivate to the perfection of the Daluo realm in one breath.

Not only that.

He also needs to continue to deduce and improve the Renshui Thunder Absorption Array.

Only by deducing this array to the fourth level of the Immortal Grade.

Zhang Yuhe is confident to face the terrifying Daozu Heavenly Tribulation.

Time passed slowly.

Five million years later.

Zhang Yuhe finally advanced his cultivation to the late stage of the Daluo Fairy.

Not only that.

He also deduced and improved the Renshui Thunder Absorption Array again.

Just wanting to arrange the array, the requirements are very exaggerated.

According to Zhang Yuhe's idea.

A total of tens of millions of lightning absorption columns of the highest grade fairy level are required.

Only in this way can the Renshui Thunder Absorption Array play a perfect role in weakening the Heavenly Tribulation.

Of course.

He also left a little back door.

In case the materials are not collected in full, with fewer lightning absorption columns, the Great Tribulation Array can be arranged.

But the effect will be greatly reduced.

For his own tribulation.

Zhang Yuhe dared not be careless.

It would be best if he could collect all the materials and refine 10 million lightning-absorbing pillars.

As for the materials, of course they had to be found on the Chaos Beasts.

The corpses of the King-level Chaos Beasts were the perfect materials for refining the best immortal tools.

However, it would be a bit difficult to find tens of millions of King-level Chaos Beasts.

I don't know if there are so many king-level chaos beasts in this fairyland.

What if he kills all the king-level chaos beasts.

If the materials are not gathered yet, it will be troublesome.

In addition to the bones of the king-level chaos beasts.

To refine the lightning-absorbing column, a lot of auxiliary materials are needed.

Section 727

Although each lightning-absorbing pillar only requires a few auxiliary materials.

But he couldn't stand it, there were so many lightning-absorbing pillars that he wanted to refine.

Tens of millions of top-quality immortal weapons is indeed a bit exaggerated.

However, there is no way around this.

In order to successfully overcome the tribulation in the future, even if you search the entire fairy world.

He also had to get the materials together.

Anyone who dares to stand in the way will be killed.

Whether it's the supreme Chaos Beast or the Dao Ancestor Emperor.

Zhang Yuhe's eyes flashed with a hint of sharpness, and he thought silently in his heart.

...

Chapter 542 How could there be such a defiant person in the world?

A stream of light flew out from Yitian Mansion.

Zhang Yuhe thought twice.

Decided to go first and see Li Tianxing.

Refining tens of millions of lightning-absorbing pillars of the highest immortal weapon level.

This will be a huge project, not a small matter.

Rely on himself, or just rely on Dao Shengzong.

It definitely can't be done.

He needs other Dao Ancestor Emperors to come together to help him.

The bones of the king-level chaos beast can be collected slowly by him later.

Just kill slowly.

One day, he will be able to kill all the king-level chaos beasts in the fairy world.

However, the amount of auxiliary materials required to refine the lightning absorbing pillar is not small.

And they are all fourth-level immortals.

Ordinary monks might not be able to get even a piece of this kind of thing.

But what Zhang Yuhe needs is massive amounts.

This cannot be achieved by conquering a few large areas.

Even searching the entire fairy world would probably take a long time.

Only then is it possible to collect all these auxiliary materials.

It is precisely because of this.

Only then did Zhang Yuhe make up his mind to go find Li Tianxing first.

Let Li Tianxing help and start collecting these accessories in advance.

Although his current cultivation level has not yet reached the level of Daluo Immortal.

It may take another two to three million years to push the cultivation level upwards.

But it is definitely necessary to collect some materials in advance.

Otherwise.

When he is about to go through the tribulation, he will be in a hurry to prepare these things.

Tianxing City, Teleportation Hall.

Immortal King Liuyue stood beside the formation, waiting quietly.

It seemed like he was waiting for some big shot to arrive.

See this situation.

The disciples from the Holy Land nearby couldn't help but be surprised.

What kind of person is he worthy of being welcomed by Dao Ancestor's disciple in person?

Although they were very curious, no one asked.

Everyone just stood in the distance silently, wanting to see who the big shot was.

Will come to Tianxing Fairy City.

Immortal King Liuyue stood silently beside the formation.

Just now.

The master suddenly sent a message, asking her to go to the teleportation hall to welcome Zhang Yuhe.

to be honest.

She didn't even understand.

Why does Master pay so much attention to Zhang Yuhe.

Although Zhang Yuhe's strength is indeed extremely strong, and over the years.

Zhang Yuhe's reputation is getting louder and louder.

Especially millions of years ago.

After the news came out that Zhang Yuhe and Wang Jinghai teamed up to create the Shenluo Yitian Pill.

Zhang Yuhe's reputation spread throughout the immortal world.

But that's about it.

Is a supreme genius who can make alchemy worthy of Master's attention?

In fact, what Liuyue Immortal King didn't know was.

Zhang Yuhe once killed two respected Chaos Beasts.

At present, this news is only known to a small number of Dao Ancestors.

Zhang Yuhe has always kept a low profile and has not deliberately spread the news. .

Li Tianxing and An Tianzuo also did not publicize it.

So other people don't know at all.

Everyone thought that Zhang Yuhe was just an ordinary Da Luo Immortal King.

Or.

He is an ordinary, supreme talent in the Daluo Realm.

How do they know?

Zhang Yuhe's current strength is already comparable to that of Emperor Daozu.

Perhaps even more powerful than many Dao Ancestor emperors.

Facing such a powerful Zhang Yuhe, how could Li Tianxing not pay attention to him?

not to mention.

Zhang Yuhe's strength is still growing rapidly.

They are still looking forward to it.

Wait until some day.

Zhang Yuhe was able to withstand the catastrophe and was successfully promoted to the realm of Tao Ancestor.

Open a way for them to get out of the fairy world.

so.

When he received a summons from Zhang Yuhe and wanted to come for a visit.

Li Tianxing immediately arranged for Immortal King Liuyue to greet him in the teleportation hall.

If you weren't worried about being too ostentatious.

He even thought about coming to greet him personally.

...

After a while.

As a dazzling light flashed.

Zhang Yuhe's figure slowly appeared on the teleportation array.

Immortal King Liuyue immediately stepped forward and said politely.

"Sect Master Zhang, Master has been waiting for a long time. Please come with me."

Zhang Yuhe responded with a smile.

"Then please fairy, please lead the way from the front."

The two quickly passed through the sky above the fairy city.

Soon we came to a small, quiet courtyard.

Li Tianxing stood outside the small courtyard.

Saw two people coming.

He immediately stepped forward with a smile and said.

"Zhang Xiaoyou, long time no see, please come inside."

See this situation.

Immortal King Liuyue couldn't help but be stunned.

Section 728

She has followed Master for so many years.

I have never seen Master treat someone so politely.

Even if other Dao Ancestor Emperors came to visit, Master was not seen outside to greet them.

She didn't understand until now.

Zhang Yuhe's importance in Master's heart must be so high.

The three of them walked into the small courtyard and sat down in a pavilion.

Zhang Yuhe took out a jade slip and went straight to the point.

"Senior, this is my improved tribulation formation."

"There are some auxiliary materials among them, and you may need seniors to help find someone to collect them."

Li Tianxing took the jade slip and was slightly startled.

Until this time.

He suddenly discovered that the aura on Zhang Yuhe's body was already in the late stage of Daluo Immortal.

See this situation.

Li Tianxing couldn't help being shocked.

How long has it been since Zhang Yuhe was promoted to Daluo Realm?

It seems less than ten million years old, right?

He actually jumped directly from the early stage of Da Luo Immortal to the late stage of Da Luo Immortal.

What kind of abnormal cultivation speed is this?

What the hell.

An ordinary Da Luo Immortal King, just after being promoted.

I'm afraid it will take millions of years just to stabilize your cultivation.

As for breakthrough promotion?

It would be completely impossible within a few hundred million years.

But Zhang Yuhe did it.

It only took him a few million years.

It continuously jumped through the early stage of Da Luo Immortal, the middle stage, and directly broke through to the late stage of Da Luo Immortal.

This speed of cultivation is really terrifying.

It's simply fantasy and unreal.

Until now.

Li Tianxing was finally convinced.

Zhang Yuhe is a person with great opportunities and great luck.

Because such a speed of cultivation can definitely not be achieved by relying on talent alone.

There must be additional opportunities.

Otherwise.

No matter how talented you are, you will never be able to reach this level.

Think of this.

Li Tianxing took a deep breath.

he said in amazement.

"It turns out that Zhang Xiaoyou has already reached the late stage of Great Luo Immortal."

"Then we really need to make some preparations in advance for overcoming the tribulation."

Hear this.

Immortal King Liuyue, who was standing behind him, was completely stunned.

Because of Zhang Yuhe, he has been holding back his breath.

She didn't see it at all.

Now Zhang Yuhe's cultivation level has actually reached the late stage of Daluo Immortal.

How long has it been?

I remember that when she first met Zhang Yuhe, she was still in the early stage of Taiyi Immortal.

It's just the past, more than ten million years.

Zhang Yuhe not only crossed the threshold of Daluo Realm, but also advanced to the late stage of Daluo Immortal.

This kind of cultivation speed is probably unprecedented.

How could there be such a heaven-defying person in the world?

Immortal King Liuyue looked in disbelief.

Now he finally understood.

Why does Master pay so much attention to Zhang Yuhe?

Facing such a defiant figure, no matter how much attention you attach to him, it is never too important.

Maybe it won't be long.

The monks in the entire immortal world may need to look up to Zhang Yuhe.

...

Chapter 543 You are so crazy!

Li Tianxing took the jade slip and silently checked the contents.

After a long time.

He said in amazement.

"This great tribulation formation allows you to deduce it to such a complicated level."

"It can be said that it is unprecedented."

"I'm afraid even if you fully expose this formation method, no one can arrange it."

"It's just too complicated."

"But it's according to the design of the formation."

"As long as this formation can be fully deployed to help you survive the Dao Ancestor Heavenly Tribulation, there should be no problem at all."

Speaking of which.

Li Tianxing pondered for a while before continuing to speak slowly.

"Just setting up this great tribulation formation, the conditions required are too exaggerated."

"There are tens of millions of top-quality immortal weapons. I'm afraid there aren't that many in the entire immortal world combined."

"Just refining these lightning-absorbing pillars may take hundreds of millions of years. We haven't talked about materials yet."

Hear this.

Zhang Yuhe responded calmly.

"Just leave the matter of refining the thunder-absorbing pillar to me in the future."

"The key now is to collect all the materials first."

"After all, tens of millions of lightning-absorbing pillars require too much material."

"I'm afraid it's not easy to collect."

Li Tianxing was speechless.

You also know that it is difficult to collect.

This is no longer a difficult question.

Are you afraid that you want to destroy the world?

Not to mention those auxiliary materials, the bones of the king-level chaos beast alone would require tens of millions.

Wouldn't this kill all the king-level chaos beasts in the entire fairy world?

Think of this.

Li Tianxing asked with a wry smile.

"Do you know how many king-level chaos beasts there are in this fairy world?"

Zhang Yuhe shook his head.

He really didn't know about this.

Because this is a data that is difficult to determine.

Don't say it's him.

Probably even the origin sea and the twelve major chaos beast tribes.

It is also difficult to accurately count the number of king beasts in the entire fairy world.

After all, this data is always changing.

There are nine-star chaos beasts that evolve and advance, and there are king beasts that are killed by monks.

This is simply impossible, there will be an accurate number.

However, Zhang Yuhe speculated.

The number of king-level chaos beasts in the entire fairy world should be between 5 million and 20 million.

Section 729

If this quantity is closer to the upper line.

Then there would be no problem for him to refine the core material of the thunder-absorbing pillar.

If it's down the line, there are only about five million.

That would be really troublesome.

He has to consider reducing the need for formation.

Use fewer thunder-absorbing pillars to arrange this great tribulation formation.

Although these will reduce the actual effect of the tribulation formation.

But there is nothing we can do about it.

As for how to kill so many king beasts.

Zhang Yuhe didn't care about this matter.

As long as there are enough king-level chaos beasts in this fairy world.

As for killing the king beast, isn't that simple?

After he has reached the Da Luo realm, he will sweep the entire Chaos Continent.

Killing it will turn the world upside down.

As long as he has this perseverance.

It can be guaranteed that not a single king-level chaos beast will slip through the net.

It's just a matter of spending more time.

In order to successfully survive the Dao Ancestor Heavenly Tribulation, what does it matter if we spend more time.

Li Tianxing pondered for a while, then slowly spoke.

"As far as I know, there should be about five million king-level chaos beasts in all the twelve major tribes."

"The number of the fourth-level tribes and king-level chaos beasts attached to the periphery should be more."

"About ten million or so."

"If you want to gather the materials for the formation, I'm afraid you have to kill basically all of these king-level chaos beasts."

Speaking of which.

Li Tianxing paused for a moment, and then said solemnly.

"Have you ever considered the consequences of doing this?"

"This will plunge the entire fairy world into endless war."

Zhang Yuhe nodded lightly, and then said lightly.

"I know, I've thought about this a long time ago."

"But as long as the number of king beasts is enough, it will be enough."

"As for whether it will plunge the entire fairy world into a war."

"Senior, there is no need to worry."

"At that time, I will start from the twelve major tribes and wipe out those noble-level chaos beasts first."

"Then the remaining Chaos Beasts, no matter how crazy they are, will not threaten the monks' safety."

Hear this.

Li Tianxing was completely stunned.

So crazy.

You actually want to wipe out all the noble-level chaos beasts from the twelve major tribes?

What kind of arrogant idea is this?

To know.

The twelve major tribes combined together have at least 600 supreme-level chaos beasts.

In the billions of years of history of the fairy world.

The total number of noble-level chaos beasts killed by them may not exceed a hundred.

Zhang Yuhe actually wanted to kill all the noble-level chaos beasts at once.

This is simply insane.

An Tianzuo didn't even dare to say such big words.

This is too disrespectful. Those powerful noble-level chaos beasts are just a piece of cake.

But Li Tianxing quickly thought of it.

Back then, Zhang Yuhe had just been promoted to Daluo Immortal.

You can kill two respected Chaos Beasts in a row.

If you wait until he reaches the Da Luo realm and reaches perfection.

There will definitely be a qualitative improvement in strength.

It seems that those noble-level chaos beasts are indeed no longer a threat.

Think of this.

Li Tianxing stood up slowly.

He took a deep breath and then said solemnly.

"Okay, since you are so confident, then we old guys will go crazy with you."

"As long as you are able, you can eliminate most of those noble-level chaos beasts."

"Just leave the rest to us."

"Gather the power of the entire fairy world to ensure that we can collect all the materials you need."

"I will immediately send a message to An Tianzuo and ask him to notify the major regions to collect the auxiliary materials together."

"In addition, let all major regions start preparing for war immediately."

"The battle with the Chaos Beast is not your business alone."

"This is the responsibility and honor of all monks in the immortal world."

Hear this.

Zhang Yuhe slowly stood up and saluted Li Tianxing respectfully.

Then he said gratefully.

"Then please leave it to senior."

Li Tianxing laughed.

"It doesn't matter. As long as you succeed, us old guys will also benefit."

Zhang Yuhe nodded lightly.

In fact, he knew it very well.

These Taoist emperors are looking for a way out of the immortal world.

We are almost reaching the edge of madness.

How hopeless it is to be unable to see the way forward for hundreds of millions of years.

Now Zhang Yuhe stood up and let them see a glimmer of light.

Naturally, he will be willing to help him.

At least the Dao Ancestor of the human race would help him collect materials.

I don't know about the Dao Ancestor Emperor of the two demon clans.

Zhang Yuhe didn't care about this either.

We'll see then.

If the material is not enough.

He didn't mind either, sweeping through both the demon and demon clans.

Again.

In order to successfully survive the disaster.

Zhang Yuhe spared no expense.

Anyone who dares to block the way will be killed.

...

Chapter 544 The Demon Emperor has his own plan

After continuing to chat for a while.

Zhang Yuhe left the small courtyard and returned to Galaxy Fairy City through the teleportation array.

After sending Zhang Yuhe away.

Immortal King Liuyue returned to the small courtyard.

At this time she was still in a state of confusion.

After a while.

She then asked Li Tianxing.

"Master, when did Sect Master Zhang kill a Supreme Chaos Beast?"

Li Tianxing responded with a smile.

"It was not long after he was promoted to Daluoxian. I saw it with my own eyes. How could it be false?"

Section 730

Liu Yue Xian Wang was still somewhat numb.

She muttered to herself silently.

"This is too strong."

"At the early stage of Daluo Xian, he can kill the supreme chaos beast."

"Then he has now broken through to the late stage of Daluo, so he is invincible in the fairy world."

Li Tianxing did not answer.

He looked up at the sky in the distance.

His heart was also full of doubts.

What kind of opportunity could allow Zhang Yuhe to practice so fast.

And his strength could be so strong.

It simply surpassed his understanding of the common sense of the immortal way.

But there is one thing.

Li Tianxing is very clear.

That is.

All this is true.

When Zhang Yuhe killed Helan Ruojiu in the distance of Yinhe Xiancheng.

He just arrived.

Although he did not see the process of Zhang Yuhe killing Helan Ruojiu.

But he saw the battlefield at that time.

In fact, Li Tianxing was also very curious.

What kind of magical power did Zhang Yuhe burst out.

Only when he was in the Daluo realm, he could still cross a major realm and kill the chaos beast.

This is simply unimaginable.

"I hope that one day I can see this kid's magical power with my own eyes."

Li Tianxing thought silently.

After a while.

He took out a jade slip, then turned to Liuyue Immortal King and said.

"You should immediately send an order to let all the major forces collect the materials on it, the more the better."

"Yes, Master."

Liuyue Immortal King took the jade slip and quickly turned and left.

Li Tianxing came to a formation platform.

As the magic formula was pinched.

A faint light slowly rose on the formation platform.

He wanted to contact An Tianzuo through the communication formation.

The fairy world is vast and boundless.

Communication between different domains is very troublesome.

The general transmission mirror cannot transmit such a long distance.

It can only be communicated through the communication formation.

...

After returning to Yitian Mansion, Zhang Yuhe continued to practice silently.

After receiving Li Tianxing's message.

An Tianzuo immediately sent a message to the world and notified all the Taoist ancestors of the human race.

According to the records on the jade slip, he began to collect the materials on it.

At the same time, he asked all the major domains to step up preparations for war.

Because he knew.

When Zhang Yuhe came out of retreat next time, I am afraid that a war would break out.

In addition to the Taoist ancestors of the human race.

An Tianzuo also sent a message to the Demon Emperor and Qinglong.

Asked them to help collect materials and step up preparations for war.

As for whether they would listen or not, that is another matter.

Time passed slowly.

All the major holy places took action.

They offered generous rewards.

Whether it was skills or magical powers, or secret techniques to open the orifices, or even borrowing the tribulation platform of the holy land.

As long as they could get the materials on the jade slip and the quantity was sufficient.

All of these could be exchanged.

After the news slowly spread.

The cultivators from all over the country could not help but be extremely excited.

Who would not be envious of the good things in the holy land?

In normal times.

They wanted to exchange skills and magical powers with the holy land, but there was no way.

How could they exchange the Taoist scriptures in the holy land?

However, now all we need is materials.

Although Zhang Yuhe's jade slips record only fourth-level immortal materials.

Ordinary cultivators really can't take them out.

But for those big forces, it's still no problem.

Who doesn't have some assets?

It's completely normal to store some fourth-level immortal materials.

Zhang Yuhe not only needs a large amount, but also a lot of types.

There are hundreds of scattered types.

Those big forces can more or less take out one or two.

So the leaders of the major forces rushed to various holy places with their own stocks.

Some people didn't have enough stocks, so they began to count the immortal mines under their control.

When they found immortal mines that met Zhang Yuhe's requirements, they immediately arranged for disciples to dig them up.

Dozens of holy places of the human race became lively in an instant.

But compared to the human race.

The demons and monsters behaved very calmly.

The demons were better.

After Qinglong received the message from An Tianzuo.

He also symbolically arranged people to collect the materials on the jade slip.

He was just not that active.

On the other hand, the demons did not make any move.

The Demon Emperor did not care about An Tianzuo's message at all.

He had his own plan.

...

Time passed slowly.

Zhang Yuhe did not pay attention to the disturbances in the outside world.

After he handed the jade slip to Li Tianxing.

He did not pay attention to the following things.

As for the cost of collecting materials, he did not even ask.

The reason is very simple.

Some things, some things, cannot be done by exchanging immortal stones or items.

Just like his action of collecting materials this time.

It is not a problem that can be solved by immortal stones.

It requires the entire immortal world to take action.

Ordinary cultivators, no matter how rich they are, cannot do it.

This requires energy and prestige.

Zhang Yuhe does not have that much energy, and he does not have that high prestige.

That's why he asked Li Tianxing to help.

The Great Emperor Daozu has ruled the fairy world for billions of years and is the best at doing this kind of thing.
