Section 77

The Renshui Thunder Absorbing Formation only needs 28 Thunder Absorbing Pillars.

You have arranged 108 pillars.

And judging from the spiritual light emitted by these pillars, they are all middle-grade Tongtian Lingbao.

Isn't it enough to use low-grade Tongtian Lingbao for the Renshui Thunder Absorbing Pillars?

But Li Tian did not ask any more questions.

Because he could see that Zhang Yuhe was indeed arranging a formation similar to the Renshui Thunder Absorbing Formation.

He just felt a little emotional.

This Junior Brother Zhang practiced in seclusion every day and never went out. Where did he get so many spiritual stones?

He was able to refine 108 middle-grade Tongtian Lingbao.

He is really rich.

He should be a top-level weapon refiner.

Li Tian guessed silently.

In the world of immortal cultivation, almost every cultivator will try to master a skill.

As for the degree of proficiency, it depends on each person's luck.

Li Tian himself is not bad. He has some talent in alchemy.

And alchemy is more profitable.

But he really couldn't think of one hundred and eight middle-grade Tongtian Lingbao.

How many spiritual stones would it take to make it?

Li Tian estimated that even if he didn't practice, it would probably not be enough to help others refine pills for hundreds of years every day.

Thinking of this, Li Tian couldn't help but feel a little depressed.

The feeling of being inferior to others in every way is really uncomfortable.

Zhang Yuhe didn't pay attention to Li Tian's thoughts.

He stood on the island in the lake, and his hands kept drawing in the air.

Lines of invisible array patterns were quickly carved out by him.

The array pattern connected all the lightning-absorbing pillars together to form a huge array.

After a long time of hard work, he finally finished carving all the array patterns.

"Try it."

Zhang Yuhe quickly pinched the magic formula.

"Start the array."

A huge blue light curtain slowly rose above the Thunder Lake.

The light curtain was like a huge cover, turning the entire thunder upside down.

"Done."

Seeing that the array was running normally, Zhang Yuhe breathed a sigh of relief.

This is the formation he deduced and improved, and he had never used it before.

I was afraid that something might happen.

Now it seems that everything is running normally.

After the Renshui Thunder Absorption Formation was arranged, Zhang Yuhe waved his right hand.

Five formation flags with full spiritual light quickly fell on the mountain platform in the middle of the lake.

He took out another formation plate and placed it in the center of the platform.

Put the spiritual stone on it and open the Five Elements Gathering Spirit Formation.

The surrounding spiritual energy quickly gathered on the platform.

"Hu..."

"Everything is done, and you can prepare for the breakthrough."

Zhang Yuhe slowly breathed a sigh of relief, and then said to Li Tian beside him.

"Big Brother, I'm going to start."

"Okay."

After Li Tian finished speaking, he instantly took off and flew away.

He didn't stop until he flew 100,000 miles away.

The heavenly tribulation caused by breaking through the fusion period is not trivial.

He had to run farther.

Otherwise, once he was affected by the heavenly tribulation, it would be nonsense.

Zhang Yuhe sat cross-legged on the platform.

As the Hunyuan Heavenly Scripture was in operation, the surrounding spiritual energy quickly swarmed in.

The sea of spiritual energy in the Dantian instantly raised a huge wave.

The golden man on the sea of spiritual energy suddenly opened his eyes and opened his mouth to inhale.

A large amount of spiritual energy was instantly sucked into the man's mouth.

Zhang Yuhe slowly merged his soul into the golden man.

The unity of spirit, energy and spirit is the fusion.

As the soul slowly merged, the eyes of the golden man became more and more lively.

Time passed slowly.

The entire Yunmang Mountain Range seemed to have set off a spiritual energy frenzy.

A large amount of spiritual energy rushed and gathered somewhere in the mountain range.

Seeing this situation, the surrounding cultivators thought that this might be a huge treasure in the Yunmang Mountain Range.

The spiritual energy frenzy was a strange phenomenon caused by the appearance of the huge treasure.

Countless cultivators turned into streams of light and flew to the place where the spiritual energy gathered.

Li Tian stood in the distance and felt that someone was approaching from a distance. He couldn't help but frowned.

When a cultivator breaks through a realm, the most taboo is to be disturbed.

Once these people get close and affect Zhang Yuhe's breakthrough, it will be bad.

But there are so many people approaching around, he can't kill them all, right?

Thinking of this, Li Tian took out his identity jade card and threw it into the sky.

The jade card was across the sky, and it instantly grew countless times larger.

[Daosheng Sect Elder Li Tian]

Several golden characters emit a dazzling light.

The handwriting is suspended in the air, and it can be clearly seen for hundreds of thousands of miles.

At the same time, Li Tian shouted loudly.

"Daosheng Sect is doing things, and idle people should retreat."

The voice was like rolling thunder, spreading in all directions.

Seeing the golden characters in the sky, and hearing Li Tian's rolling thunder.

The cultivators at the scene did not dare to stay at all, and turned around and left.

They couldn't afford to offend Daosheng Sect, not to mention that this was an elder of Daosheng Sect.

To become an elder of Daosheng Sect, one must have a cultivation level above Refining Void.

If you really annoy this elder.

There is no place to complain if they are killed.

Not to mention the suspected huge treasure appearing in the world, even if there is a huge treasure, they have no chance to get it.

Who dares to compete with Daosheng Sect for the treasure?

Will they live a long life?

...

Chapter 76 Easy to deal with

The sudden surge of spiritual energy in Yunmang Mountain Range lasted for a full ten days.

During this period, there would be cultivators who wanted to break in and see what was going on.

However, when they saw the big words in the sky from a distance, they decisively returned.

Really can't afford to offend.

In Yufantian, Daosheng Sect is the real heaven.

Of course, there are occasionally people who are not afraid of death.

Probably thinking that my fate is in my own hands, and I can change my fate in one fell swoop.

They tried every possible way to sneak into the center of the spiritual energy frenzy.

In the end, they were all beaten to death by Li Tian without any hesitation.

It's hard to persuade the damned ghosts with kind words.

In this case, they can only be allowed to be ghosts.
