

Top talent 781

Section 781

Everyone was chatting and laughing on the Galaxy Peak.

Regarding the previous doubts, no one among the Taoist ancestors mentioned it.

It's not a good thing to explore other people's roots.

Everyone is discerning and would not ask such stupid questions.

After a while.

Li Tianxing suddenly asked Zhang Yuhe.

"I see you activate the five hundred immortal cauldrons and refine the thunder-absorbing pillars at the same time."

"I'm afraid it won't be long before we can refine all the required lightning-absorbing pillars."

Zhang Yuhe nodded, and then said softly.

"I estimated that it would take about two million years."

"You can refine it into ten million thunder-absorbing pillars."

Zhang Yuhe's weapon refining speed is stable and he never fails.

A batch is refined every hundred years, with a total of 500 thunder-absorbing pillars.

One million years is five million roots.

As long as there are no other delays in the middle.

In about two million years, it will definitely be possible to refine all the thunder-absorbing pillars needed to deploy the Renshui thunder-absorbing array.

Li Tianxing nodded slightly, and then continued to ask.

"Then have you considered where to put the place where you will go through the tribulation in the future?"

Zhang Yuhe responded directly without thinking.

"It should be on Galaxy Island in the Ji'an sea area."

In Zhang Yuhe's view.

This kind of thing is almost a no-brainer.

Because the Ji'an sea area is the rear area he is familiar with.

more importantly.

In the entire fairy world.

There are indeed many seas and large lakes.

But the largest sea area, apart from the sea of origin, is the South China Sea Immortal Territory.

When he deployed the Renshui Thunder Absorbing Formation, he used the water source power between heaven and earth as the core driving force.

In simple terms.

Only large oceans are suitable for setting up Renshui mine-absorbing arrays.

Naturally, he would not go to the Origin Sea.

It is not suitable for tribulation there at the moment.

After all, the Supreme True God is still there.

even though.

As long as he doesn't rush to the center of the Origin Sea.

The Supreme True God cannot do anything to him.

But what if the Supreme God comes to cause trouble for him when he is going through the tribulation?

That is also very troublesome.

Zhang Yuhe doesn't like trouble.

When going through a tribulation, one should strive for stability and eliminate all interference as much as possible.

And he has a better choice, naturally he will not run to the sea of origin.

Get yourself into trouble.

The South China Sea Immortal Territory is vast and boundless, and all sea areas are connected to each other.

He deployed the Renshui Thunder Absorbing Array on Galaxy Island to draw the water source power of the entire Immortal Domain.

The water source power of a region is enough to drive the Renshui mine-absorbing array.

Li Tianxing nodded, and then spoke slowly.

"I have also seen your method of setting up the great tribulation formation."

"It is indeed the best choice to survive the tribulation in the South China Sea Immortal Realm."

Speaking of which.

Li Tianxing paused for a moment, and then asked Zhang Yuhe solemnly.

"Then have you considered it?"

"Once you successfully break through, you will successfully receive the disaster."

"With the divine power of the Dao Ancestor Heavenly Tribulation, I am afraid that the entire South China Sea Immortal Territory will be within the scope of the Heavenly Tribulation."

"That is to say, before you can officially overcome the tribulation, you must move all the monks and creatures in the South China Sea Immortal Territory."

Hear this.

Zhang Yuhe was stunned and couldn't help but look cold.

He really hadn't considered this issue before.

He was just thinking about how he could survive the catastrophe.

He did not consider that the disaster might affect other monks.

After Li Tianxing's reminder.

Only then did Zhang Yuhe react.

This is a big deal and really needs to be dealt with in advance.

The Immortal Territory of the South China Sea is vast and boundless, with the number of monks and ordinary creatures.

I'm afraid it's far more than hundreds of millions.

This is an entire fairyland of creatures.

If you want to move all these people out of the South China Sea Immortal Domain.

This will obviously be a very large and lengthy project.

Preparations must be started immediately.

Otherwise.

By the time he gets over the tribulation, I'm afraid it will be a little too late.

After all, it was impossible for him to just temporarily move people out.

Instead, we need to consider the issue of long-term placement.

Zhang Yuhe once read relevant classics.

After surviving the catastrophe.

The remaining power of the Taoist Heavenly Tribulation will still exist between heaven and earth forever.

That is to say.

As long as he chooses the place to escape the tribulation, he will choose Galaxy Island.

Then the entire South China Sea Immortal Territory may no longer be suitable for monks to survive in the future.

That is to say.

He has to find a place to survive for the monks in the South China Sea Immortal Realm.

This is indeed a very huge project.

Zhang Yuhe thought silently.

But he had no choice.

Apart from the Immortal Domain of the South China Sea, there is no more suitable place to escape the tribulation.

Even if it is necessary to relocate the creatures in a region, this must be done.

...

Chapter 579 The Great Migration

Liufeng Sea Area, Yueling Fairy Island.

Dozens of flying boats were suspended in mid-air.

On the flying boat.

A large number of monks in purple clothes looked at everything in front of them reluctantly.

This is the foundation of their family's hard work for millions of years.

But now, they are leaving their clan and heading to the distant Chaos Continent.

A beady and beautiful woman stood quietly at the front of the flying boat.

Her name is Wu Yueling.

About three million years ago.

Wu Yueling followed her husband, Li Ming Zhenxian, and established a family of immortals here.

Later, in a fight, Li Ming Zhenxian unfortunately died.

Wu Yueling and her family members had to hide everywhere.

Section 782

Until millions of years ago.

During an adventure.

Wu Yueling accidentally obtained a special fairy fruit and used it to break through to the golden fairyland.

From then on, she led the remaining family children back to the clan.

And renamed this place Yuelingxian Island.

With Wu Yueling, the Golden Immortal cultivator, in charge, the Wu family of Yueling gradually developed into a powerful family in Liufeng Sea Area.

Unfortunately.

Now this family ancestral land is about to be abandoned again.

According to rumors.

The Galaxy Immortal King of the Dao Sheng Sect is about to break through the Dao Ancestor Realm in the South China Sea Immortal Domain and usher in the coming of heavenly calamity.

The Dao Ancestor Heavenly Tribulation is extremely terrifying, in order to prevent it from affecting the monks in the South China Sea Immortal Domain.

So Dao Shengzong ordered.

All the monks in the entire South China Sea Immortal Domain will move to the Chaos Continent.

Looking at the fairy island in front of him, Wu Yueling was extremely reluctant to give up.

This is the place where her family has worked hard for millions of years.

Although Dao Sheng Sect has prepared a larger territory for them.

And built a fairy city for them to use as their family residence.

despite this.

Wu Yueling was still a little reluctant to give up.

Not only because this is where her emotions are placed.

more importantly.

In Wu Yueling's opinion.

The Chaos Continent is extremely dangerous.

A Golden Immortal family like theirs completely abandoned their rear foundation.

Can you gain a foothold in the Chaos Continent?

If a beast wave breaks out, can a weak cultivating family like them be able to withstand it?

"Why....."

Think of this.

Wu Yueling couldn't help but sigh.

The trend is unstoppable.

Dao Shengzong ordered the relocation, but she did not dare to disobey.

not to mention.

This relocation is not just for their family.

All the large and small forces in the entire South China Sea Immortal Domain, including those scattered monks.

Even the mortals scattered on some desert islands also have to migrate together.

Even the former overlords of the South China Sea Immortal Domain, Wanxian Sect and Chaotian Palace.

They also have to move to Chaos Continent.

Think of this.

Wu Yueling took a deep breath.

Then quickly hit out a series of spells.

A faint curtain of light slowly rose on the fairy island.

After a while.

The entire Yuelingxian Island began to slowly sink into the sea.

Wu Yueling still had some thoughts.

If there is a chance in the future, she would like to move the family headquarters back here again.

This is her hometown, and her hometown cannot be forgotten.

Watch the fairy island disappear.

The monks on the flying boat couldn't help but feel a sense of sadness in their hearts.

No one wants to leave their homeland.

Not to mention.

The place they are going to this time is still the extremely dangerous Chaos Continent.

Just at this time.

A childish voice sounded next to Wu Yueling.

"Grandma, where are we going now, and will we come back in the future?"

Next to Wu Yueling, a three-foot-tall girl raised her little head and looked at her expectantly and asked.

Wu Yueling leaned down, touched the girl's little head, and then said with a smile.

"Xinxin, we are going to a new home, where there is a magnificent fairy city and magnificent and beautiful mountains and rivers."

"When you get there, you will definitely like Xinxin."

"Oh, grandma, how big is the fairy city over there?"

"I heard from the elders of the family that the fairy cities in some places are even countless times bigger than our Lingyue Fairy Island."

"Where we go this time, is there such a big fairy city?"

"Yes, you can see Xinxin when you get there."

Wu Yueling touched the girl's little head, her heart filled with tenderness.

After a long time.

Wu Yueling turned around and said to everyone.

"Let's go, we need to get to the meeting point as soon as possible."

"This time Dao Sheng Sect Litian Immortal King will escort us through the wilderness until we reach the final station."

Following Wu Yueling's order.

Dozens of flying boats turned into streams of light and flew quickly into the distance.

All that was left at the scene was a calm sea.

At the same time, things continued to happen in various places in the South China Sea Immortal Territory.

The various forces from each family quickly gathered and converged towards a certain location in the South China Sea Immortal Territory.

Li Tian stood quietly in the air.

The surrounding flying boats and fairy ships gathered together, covering the entire sea surface, and it was impossible to see the edge at a glance.

Two hundred thousand years ago.

Li Tian took the Shenluo Yitian Pill, which finally resolved the bottleneck of the Great Luo Immortal and successfully passed through the catastrophe.

Became the third Da Luo Immortal King of Dao Sheng Sect.

After stabilizing his cultivation, he immediately rushed to the South China Sea Immortal Domain.

Prepare to escort a group of migrating monks to the Chaos Continent.

Because this time all the monks in the South China Sea Immortal Domain will move to the Chaos Continent.

It is naturally impossible to carry out such a huge amount through the teleportation array.

No matter how powerful the teleportation array is, it can't teleport so many people.

If we really want to rely on the teleportation array to move away all the monks in the South China Sea Immortal Realm.

I am afraid that even if it takes hundreds of millions of years, it may not be possible to complete it.

to this end.

Li Tianxing personally took action and opened up a new passage in the endless wilderness.

With the help of this passage, the monks from the South China Sea Immortal Domain can fly directly to the Chaos Continent.

Of course.

This will take a long time, and there may be dangers along the way.

Although the chaos beast tribe in Yantu has been wiped out by Li Tianxing.

But there will still be scattered Chaos Beasts that may appear on their migration path.

That is why.

So the Taoist ancestors decided.

Every migration team must have an Immortal King in charge.

To ensure safety.

The entire migration operation has been going on for millions of years.

before this.

Countless groups of monks have already migrated to Chaos Continent along this passage.

The group escorted by Li Tian was just one of them.

In order to ensure that the entire migration work can proceed smoothly.

Section 783

All major holy places were dispatched together.

In addition to the human race, even the holy land monks of the demon race.

Also actively participate.

They either escort immigrants or sweep around the Chaos Continent.

For these immigrants from the South China Sea Fairyland, clean up the surrounding Chaos Beast tribes.

Immortal cities were built all over the Chaos Continent for the monks from the South China Sea Immortal Domain to stay.

According to the regulations of the Taoist ancestors.

As long as a force with a true immortal is in charge, it can be assigned a yellow-level immortal city as a base on the Chaos Continent.

Huangjie Immortal City has a radius of thousands of miles and is slightly larger than the Acropolis on Chaos Continent.

As for the forces with Golden Immortal monks in charge, they can be assigned a Xuan-level Immortal City.

The Xuan-level Immortal City has a radius of one million miles, which is slightly smaller than the previous Jun-level Immortal City.

But for the Jinxian forces, it is definitely enough.

Forces with Taiyi Immortal as their commander can be assigned an Earth-level Immortal City.

The Earth-level Immortal City has a radius of fifty million miles, which is much larger than the previous Sovereign-level Immortal City.

It is almost comparable to the smaller Imperial City.

As for the power of the Great Luo Immortal King, there are only four in the entire South China Sea Immortal Territory together with the Dao Sheng Sect.

There is no need for special arrangements for these, they rely on their own strength.

You can open up a new place for survival on the Chaos Continent.

There is no need for Taoist ancestors to worry.

...

Chapter 580 General trend

Wu Lingyue stood in front of the flying boat and looked at the gathering of fairy ships and flying boats in the distance.

My heart couldn't help but be filled with a sense of shock.

She was promoted to the Golden Immortal Realm within a million years.

Due to the rise of Zhang Yuhe, as early as more than 20 million years ago, all the chaos beast tribes around the South China Sea Immortal Domain were wiped out.

That is to say.

In the past 20 million years, almost no beast tide has broken out in the fairy cities surrounding the South China Sea Fairyland.

Naturally, Golden Immortal monks like Wu Yueling have never been recruited because of the beast tide.

She had never seen such a grand scene.

In fact.

Even when the beast tide breaks out, there is rarely such a large gathering of monks.

Countless fairy ships and flying boats cover the entire sea surface, and you can't see the edge at a glance.

she knows.

These are the monks from the South China Sea Immortal Realm who are preparing to move to the Chaos Continent.

At this time, these fairy ships and flying boats must have been crowded with people just like them.

This must be how many people there are.

Wu Yueling couldn't imagine it at all.

And this is just one of them.

The first group of monks to migrate had already been rooted in the Chaos Continent for hundreds of thousands of years.

Looking at the magnificent scene in front of me.

Wu Yueling took a deep breath, turned back and said to the family elder beside her.

"You guys stay here and don't move around. I'll go over and report."

"Yes, ancestor."

Wu Yueling turned into a stream of light and quickly shuttled between the fairy ship and the flying boat.

After a while.

A huge fairy ship appeared in front of her.

The tyrannical pressure faintly emanated from the fairy ship.

A large flag fluttered over the fairy ship.

On the flag is embroidered a Milky Way across the sky.

Deep and mysterious.

Teams of blue-clad disciples, carrying the Milky Way on their backs and nine fairy swords embroidered on their sleeves, stood quietly on both sides of the fairy ship.

Wu Yueling knew.

This is the ship of Immortal King Litian.

Within the Tao Sheng Sect.

As long as you are promoted to Taiyi Immortal Lord, you will be given a yellow-level immortal ship.

As for the Daluo Immortal King of the Dao Sheng Sect, he even rides on the Xuan-level Immortal Ship.

These are all the works of the Galaxy Immortal King.

In rumors.

The ship of the Galaxy Immortal King is a powerful earth-level immortal ship.

When facing the enemy, there is no need to take action yourself.

Just fire up the chaos cannon on the fairy ship.

A single shot can kill a king-level chaos beast.

Such a terrifying background made Wu Yueling yearn for it.

She muttered to herself.

"I don't know when our Yueling Fairy Island will be able to have such momentum."

Think of this.

She couldn't help but shake her head.

Some things cannot be achieved by hard work.

That requires opportunity, and even more talent.

Dao Sheng Sect can survive in less than 30 million years.

The development of such a foundation was also due to the existence of the Galaxy Immortal King.

If there is no Galaxy Immortal King.

Maybe the current Dao Sheng Sect is not much different from their Lingyue Immortal Island.

When one person attains enlightenment, chickens and dogs ascend to heaven.

The development of Daosheng Sect perfectly explains the meaning of this sentence.

But how many peerless geniuses like the Galaxy Immortal King can be produced in this fairy world?

Wu Yueling took a deep breath, and then quickly flew towards the fairy ship.

A disciple in blue came forward and asked politely.

"I am Wang Yuan of the Holy Sect, I don't know how to call the fairy."

Wu Yueling responded with her hands raised.

"Wu Yueling, Yueling Immortal Island in the Liufeng Sea, met fellow Taoist."

The disciple in blue nodded. He quickly took out a jade slip and inspected it before speaking.

"Yuelingxian Island, the power of the Jinxian family."

"Have all the monks in your family gathered in place?"

"If there are any missing people, we have to pick them up quickly."

"Two years later, our team will set off for the Chaos Continent."

Wu Yueling responded seriously.

"The family has 120,000 cultivators and more than 2 million mortals, who are riding on 86 large flying boats. They have all assembled and can set off at any time."

"That's good. Fairy, lead the family disciples and wait nearby for a while."

"Then the old ancestor Li Tian will escort us to the Chaos Continent together."

After saying this.

The blue-clothed disciple quickly cast a spell and recorded the personnel information of Yueling Fairy Island in the jade slip.

...

At this time, in the wilderness leading to the Chaos Continent in the South Sea Fairyland.

Groups of teams are slowly flying forward.

There is a long distance between each group of teams.

According to the plan of the Taoist ancestors.

Every hundred years, a group of cultivators will be escorted to the Chaos Continent.

Gather a group and escort a group.

Section 784

After arriving at Chaos Continent, the personnel there would disperse and escort them to the newly established Fairy City station.

The entire relocation project is proceeding in an orderly manner under the personal intervention of the Taoist ancestors.

All the people involved in the migration range from the Wanxian Sect to ordinary monks and even mortals.

No one dares to complain publicly.

joke.

The twenty-four Taoist ancestors of the human race and the twelve Taoist ancestors of the demon race are all staring at this matter.

Who dares to complain?

Moreover.

The Holy Lands on the Chaos Continent provide them with a larger territory and better development space.

It is far better than staying in the South China Sea Immortal Realm.

despite this.

These monks who migrated still felt uneasy.

They don't know.

Now on the Chaos Continent, it has long become the world of monks.

The once tyrannical Chaos Beast was now able to survive only because of its vast territory.

All the noble Chaos Beasts were killed by Zhang Yuhe.

Even the king-level chaos beasts were killed by Zhang Yuhe.

The remaining weak chaos beasts have long since become useless.

The holy places are organizing their forces and advancing steadily towards the Chaos Continent.

Strive to wipe out all the chaos beasts in the entire fairy world.

But this will take a long time.

The monks in the South China Sea Immortal Domain did not know this situation.

Even if various holy places have repeatedly promoted it, they don't believe it.

no way.

The power of the Chaos Beast has long been deeply rooted in the hearts of the monks.

Now it is said that Chaos Beast is almost finished.

Who can believe this?

But for the Taoist ancestors.

They don't need to let ordinary monks believe it.

As long as the entire migration project proceeds smoothly as planned, there will be no problem.

All forces opposing the relocation have long been suppressed with force.

The Dao Ancestors don't want to do that because the monks in the South China Sea Immortal Domain have not been completely relocated.

Eventually it affected Zhang Yuhe's tribulation.

for them.

There is nothing more important now than Zhang Yuhe crossing the tribulation.

In order to ensure that Zhang Yuhe successfully survives the natural disaster.

Some of the thunderous methods are not worth mentioning at all.

Didn't you see that even the demon clan came together?

This is the general trend.

The general trend of the entire fairy world.

Anyone who stands in the way will be crushed by the general trend.

Only Zhang Yuhe can successfully survive the catastrophe.

Then he will become the most powerful monk in the entire history of the immortal world.

The Taoist ancestors all believed it.

Wait until Zhang Yuhe is successfully promoted.

It is entirely possible to defeat the Supreme True God and open a passage to the outside world.

This isn't just the road ahead for them.

At the same time, it is also the way forward for the entire fairy world.

For the Taoist ancestors.

In order to achieve this purpose.

Use any means, no matter what.

...

Chapter 581 I'll beat you to death again after I get over the tribulation

Time passed slowly.

As the last teams set off.

The Great Migration of the South China Sea Fairyland has finally entered its final stage.

A famous Immortal Lord, Immortal King, was scattered around the South China Sea Immortal Territory, patrolling back and forth.

to make sure nothing is missed.

Normally.

When a monk is going through a tribulation, if other people are accidentally involved.

Not only the people affected will also be attacked by natural disasters.

The key is.

The power of the catastrophe will become even more violent as a result.

so.

To make sure nothing is missed.

After the last teams set off.

The Taoist ancestors still organized the Immortal Kings and Immortal Lords from various holy places to patrol around the South China Sea Immortal Domain.

Try to avoid as much as possible the interference of unexpected situations on Zhang Yuhe's tribulation.

...

Galaxy Fairy City, Weapon Refining Dojo.

Zhang Yuhe sat cross-legged on the high platform and continued to play spells with his hands.

After a while.

I saw him wave his right hand.

A cauldron cover slowly flew up, and short sticks shining with purple light gradually appeared in the immortal cauldron.

Zhang Yuhe stretched out his index finger and quickly carved in the void.

This is the final stage of weapon refining.

Carve runes on the lightning absorbing pillars.

I don't know how much time has passed.

The short purple sticks gradually turned into Optimus Primes.

Zhang Yuhe stood up slowly.

He muttered to himself.

"It's finally done."

I saw him stretching out his right hand.

The five hundred Optimus Pillars around him quickly shrank and were put into his sleeves.

"Let's go and see how the other preparations are going."

Zhang Yuhe rose into the sky and quickly turned into a stream of light, disappearing into the weapon refining dojo.

This operation of refining weapons and preaching that lasted for two million years has finally come to an end.

At this time, monks who came to listen to the sermon were sitting all over the Galaxy Immortal City.

After Zhang Yuhe left, everyone slowly opened their eyes.

There was a hint of excitement and gratitude in someone's eyes.

Some people looked confused or a little lost.

"Has the missionary mission of the Immortal King of the Galaxy ended?"

"yes."

"It's a pity that I came too late. Apart from advancing the law one step further, I didn't gain anything else."

"Fellow Taoist, you are too greedy. The law goes further. Isn't this a huge gain?"

"That's right. If you want to push the law further, you don't know how much time it takes."

"I am very satisfied with the harvest from watching the Galaxy Immortal King refine weapons this time."

"Yes, the Galaxy Immortal King has a broad mind. I don't know how many cultivators have gained enlightenment from this."

"I don't know how many people have to thank him for this."

Section 785

"Who says it isn't?"

"I heard that there is a senior Immortal Lord over there in the Cang Yue Territory. He solved the bottleneck of Da Luo in one fell swoop because he watched the Galaxy Immortal King refining immortal weapons."

"Later, with the help of Dao Sheng Sect's Tribulation Platform, he was successfully promoted to Daluo Immortal King."

"That's the Great Luo Immortal King, he's really enviable."

...

Zhang Yuhe flew up and landed on Galaxy Peak.

At this time, a group of Dao Ancestor Emperors are still gathered here.

For two million years.

In addition to occasionally taking action to eliminate some powerful king beasts.

They almost didn't leave.

Even Qinglong and other demon clan Taoist ancestors have been gathering at Galaxy Peak.

They all look forward to Zhang Yuhe being able to survive the catastrophe and successfully advance to the realm of Dao Ancestor.

Anyway, two million years, for these Taoist emperors.

It's just a blink of an eye.

Their cultivation level cannot be improved any more. They usually only study a few things and learn from their own hobbies.

There is almost nothing to do.

Everyone gathered at Galaxy Peak, just to kill some time.

Zhang Yu quickly stepped forward and said with a smile.

"I've met all the seniors."

"Sect Master Zhang."

"Galaxy Immortal King."

Everyone came forward to say hello enthusiastically.

At this time, Zhang Yuhe was no longer what he used to be.

Not to mention that he might be promoted to the realm of Dao Ancestor soon.

Even with Da Luoxian's cultivation level, they did not dare to look down upon him.

A ruthless man who can destroy hundreds of supreme-level chaos beasts with just a flip of his hand.

Who dares to underestimate it?

Everyone chatted enthusiastically for a while.

Just at this time.

Li Tianxing suddenly asked Zhang Yuhe.

"The migration operations in the South China Sea Fairyland have all ended."

"When do you plan to start heading to Galaxy Island?"

Zhang Yuhe pondered for a while, then slowly responded.

"Let's rest for a while first."

"After a hundred years, we will go to Galaxy Island and start setting up the tribulation formation to prepare for the coming catastrophe."

"Why don't you adjust for a while?"

"The Dao Ancestor Heavenly Tribulation is no small matter. It is best to make all preparations as much as possible."

"Senior, don't worry, I don't have anything to prepare anymore."

"Having the Renshui Thunder Absorbing Formation is enough to help you survive the catastrophe."

Zhang Yuhe knew very well.

The Renshui Thunder Absorbing Formation is his greatest protection.

If even this great tribulation formation cannot help him successfully overcome the tribulation.

Then no matter how much preparation he makes, it will be of no use.

Li Tianxing nodded lightly and said nothing more.

He had also seen Zhang Yuhe's improved Renshui thunder absorbing array.

This great tribulation formation is indeed the limit of what the Immortal Realm can do.

If all else fails.

Then there is nothing anyone can do.

Everyone continued chatting for a while, and then Zhang Yuhe flew back to Yitian Mansion.

He really needs to adjust.

Two million years of continuous weapon refining operations were also a huge drain on his mind.

Really need to recover first.

Saw Zhang Yuhe returning to Yitian Mansion.

Wu Yiyi jumped off the swing, and she quickly ran to Zhang Yuhe.

He asked with a hint of worry in his expression.

"Are you preparing to survive the tribulation?"

Zhang Yuhe responded with a smile.

"Soon, within the next few hundred years."

Wu Yiyi slowly walked to the pavilion next to her and sat down.

She held her chin with her right hand and said with a somewhat depressed expression.

"The calamity is terrible."

"It's a pity that I can't help with this matter."

Zhang Yuhe walked slowly behind Wu Yiyi and said softly.

"Don't worry, it's just a matter of overcoming the tribulation, it's not that difficult."

Hear this.

Wu Yiyi turned around, a flash of light flashing in her eyes.

She clenched her fists, waved them at Zhang Yuhe a few times, and then said seriously.

"Then it's agreed, you must not be killed by the calamity."

"This girl is still thinking of letting you kill that abominable crocodile monster and take me back to the Sea of Chaos."

Zhang Yuhe smiled slightly but said nothing.

He made a stroke with his right hand.

A vortex of particles the size of a pond appeared slowly in the void.

On the other side of the vortex.

A huge crocodile monster floats quietly in the lake.

See this situation.

Zhang Yuhekou murmured to himself.

"Just wait. After I survive the catastrophe, I will come and beat you to death."

Just at this time.

A shadow slowly appeared above the head of the crocodile monster.

The Supreme True God looked at the whirlpool in the distance and roared in a very angry mood.

"Boy, you're looking for death."

Boom.

The crocodile shadow shot out with its claws, and the void instantly shattered.

The scene in the particle vortex quickly disappeared in front of Zhang Yuhe's eyes.

...

Chapter 582 Return to Yu Fantian

At this time, the heart of the Supreme True God was filled with rage and depression.

Anyone would be depressed if someone peeped at me for nothing.

The last time I was in the Sea of Origin.

Zhang Yuhe had observed the location of the Supreme True God through the particle vortex.

It has only been two million years, and here comes another peek.

No wonder it gets angry.

After a while.

The furious mood of the Supreme True God slowly calmed down.

It looked up into the distance, thoughtfully.

"What kind of magical power did this kid just use? How could he ignore the distance and spy here?"

The Supreme True God was very puzzled by the particle vortex that appeared out of thin air.

It had never seen such a magical power of traveling without regard to distance.

And this magical power was performed by a Daluo Immortal King.

Section 786

It simply makes it difficult to understand.

"Forget it, I'm too lazy to think about it so much. Anyway, this kid will come here and die sooner or later."

The Supreme True God thought silently.

The shadow slowly dissipated and reintegrated into the crocodile monster's head.

Regarding Zhang Yuhe's provocative behavior.

The Supreme True God is indeed helpless.

It can't move, so it can only rely on the pressure of its soul to bully those ordinary virtual gods.

An unparalleled talent like Zhang Yuhe can survive as long as he doesn't get close to the center of the sea of origin.

There's nothing it can do.

However, the Supreme True God was not too worried.

After hundreds of millions of years of cultivation.

The soul that had been disintegrating was now completely stable.

Although he is still unable to perfectly integrate with his divine body.

But there is still no problem after temporarily integrating for a period of time.

As long as Zhang Yuhe dares to come.

The Supreme True God has absolute confidence and can kill Zhang Yuhe with one slap.

With its perfect cultivation in the True God Realm, even if it has not fully recovered.

Dealing with a small Great Luo Immortal is simply not easy.

And the Supreme True God believes it.

Sooner or later, Zhang Yuhe will find the center of the sea of origin.

Because this is the entire fairy world, the only passage to the outside world.

If you want to get out of the fairy world, you must take this passage.

As long as its body remains here.

Then all the monks in the entire fairy world are the cattle and sheep it raises.

Don't even think about running away.

Although the twelve major tribes have been wiped out by Zhang Yuhe.

The monk cannot be captured for the time being, so the sacrifice is for its use.

But in the eyes of the Supreme True God.

This is not a big problem.

At the beginning, it could create twelve major tribes of chaos beasts.

Naturally, it's okay, just create it again.

It's just a matter of spending more time.

It has plenty of time.

As a chaotic beast with perfect true god realm.

In the fairy world.

It is the eternal existence.

Even if the era is destroyed, it can still exist forever.

The epochal destruction of the primitive world cannot kill the true God.

The void shattered and the particle vortex disappeared.

Zhang Yuhe stood silently.

Just at this time.

Wu Yiyi walked to Zhang Yuhe's side at some unknown time.

She said depressedly.

"It's that nasty crocodile monster that's blocking my girl's way back."

"And now the Crocodile Monster's injuries seem to have recovered somewhat."

"It's troublesome."

Speaking of which.

Wu Yiyi looked up at Zhang Yuhe and asked with expectation in her eyes.

"Zhang Yuhe, can you kill that crocodile monster?"

Zhang Yuhe looked into the distance and said calmly.

"Don't worry, we can definitely kill it."

"Yes, we must kill it."

Wu Yiyi waved her little fist and followed fiercely.

Zhang Yuhe smiled and said nothing more.

He already had a rough guess about the strength of the Supreme True God.

If the Supreme True God is in his prime.

Then he will definitely never have a chance.

but now.

The Supreme True God is just a half-dead salted fish, even if he has recovered somewhat from his injuries.

That's only half a life left.

Zhang Yuhe believes it.

Just wait until he is promoted to the virtual god realm.

Killing the Supreme True God should not be a big problem.

...

Ten years later.

Zhang Yuhe slowly stood up from the training platform.

After ten years of adjustment.

At this time, he had returned to his peak state.

Zhang Yuhe raised his head and looked at the sky, his mind seemed to be flying far away.

After a while.

He just muttered to himself.

"It has been 30 million years since I practiced Taoism. I don't know how Lan Xing and Yu Fantian are doing now."

"I really want to go and have a look."

Although in recent years.

There have always been monks from Lan Xing and Yu Fantian who ascended to the Immortal Realm Taoist Sect.

It will also bring some information about the lower realm.

But Zhang Yuhe still wanted to go down and see for himself.

Look at where he fought.

Look at the world where you were born and raised.

"Then go and have a look."

Just do what comes to mind.

Zhang Yuhe did not hesitate for too long.

For ordinary monks in the fairy world.

It is definitely not that easy to descend to the lower realm.

The operation of the Nine Provinces Immortal World has its own rules.

under normal circumstances.

Cultivation levels above that of a true immortal are no longer able to pass through the boundary-breaking formation and descend to the lower world.

Zhang Yuhe's current cultivation level is that of Daluo Immortal Perfection.

Even the incarnation transformed by spiritual power has the perfect cultivation level of the Golden Immortal.

Using normal methods, he would definitely not be able to descend to the lower world.

But for Zhang Yuhe.

This is nothing.

He has the infinite magical power of teleportation.

He can teleport to any place in the fairy world.

A trip to Blue Star and Yu Fantian would naturally be no problem.

I saw him making a stroke with his right hand.

A vortex of particles slowly appeared in the void.

Zhang Yuhe took one step and disappeared from Yitian Mansion in an instant.

Yu Fantian, Yunzhong Mansion.

Zhang Yuhe walked slowly on the street.

Section 787

The current Yunzhong Mansion is compared to when he was the guardian envoy.

It has expanded dozens of times.

The huge city has constant traffic and seems extremely prosperous.

Zhang Yuhe didn't alarm anyone, he just looked at the bustling city in front of him silently.

With his current cultivation level.

As long as you don't take the initiative to show up, even if you stand in front of others.

In Yu Fantian, no one can see him.

Zhang Yuhe walked in the city, then passed through the mountains, and soon came to a sea.

This is the place where he attained enlightenment and ascended.

Standing on the vast sea.

I saw dark clouds filling the sky over the holy land in the distance, and thunder.

Apparently someone is going through a tribulation.

Zhang Yuhe looked into the distance.

Only a light blue light curtain was seen, covering all the holy places.

A beady and beautiful woman stood in the center of the holy land.

The beautiful woman kept pinching the magic formula in her hands.

A golden shield emitted layers of brilliance, protecting her.

The catastrophes continued to strike.

But after being weakened by the peripheral blue light curtain.

The remaining power is already less than one out of ten.

The radiance emanating from the golden shield easily blocked the remaining power of the catastrophe.

On the outskirts of the Holy Land.

Countless figures stood densely packed.

Zhang Yuhe's consciousness swept over.

He soon found out.

The person who is going through the tribulation is Yin Juanjuan, the leader of Yufan Tiandao Holy Sect.

As long as she successfully survives the catastrophe, Yin Juanjuan can ascend to immortality.

However, the power of ascending to the Great Heavenly Tribulation is extremely terrifying.

The thunder in the sky seemed to destroy the entire world.

despite this.

None of the countless monks observing the scene were worried about Yin Juanjuan.

Ever since Zhang Yuhe left this great tribulation formation.

Yu Fantian has never appeared before, and the monk who was killed by the calamity has never appeared before.

Compared to other monks in the world of immortality.

When Yu Fantian's monks overcome the tribulation, the word "stable" stands out.

There are no risks at all.

Even if thirty million years pass.

The Renshui thunder-absorbing array that Zhang Yuhe left behind was still functioning perfectly.

The monks who supported one wave after another successfully survived the catastrophe and successfully ascended to the fairy world.

...

Chapter 582 The Galaxy Ancestor Eternal Eternity

Zhang Yuhe watched quietly for a while at the Galaxy Holy Land, and soon left quietly.

Nobody knows.

The legendary Galaxy Ancestor just came here.

Zhang Yuhe traveled thousands of miles in an instant, walking all over Yufantian.

He walked through the Liuyun Corridor and arrived at the Dao Sheng Sect's mountain gate.

Looking at Yu Fantian's current prosperous appearance.

Zhang Yuhe couldn't help but feel relieved.

Under the control of Daosheng Sect.

Even if thirty million years pass.

Yu Fantian's immortal civilization has not declined at all.

On the contrary, it is developing more and more vigorously.

Thanks to Zhang Yuhe, a large number of fairy spirit stones were buried deep in Yu Fantian's earth veins.

Things like low spiritual energy and depleted resources have never happened to Yu Fantian.

Compared to other worlds of immortality.

Yu Fantian seems to be a real fairyland on earth.

The monks here never have to worry about not having enough spiritual energy.

Don't worry, you won't be able to find training resources.

As long as they are talented enough and practice hard, they will naturally be able to go further.

Zhang Yuhe has been walking all this way.

He took a quick look.

There are nearly a hundred Mahayana monks in the entire Yufan Tiandao Holy Sect.

Almost every thousand years or so, there will be Mahayana monks who transcend tribulations and ascend to the immortal world.

Such a prosperous world of immortality.

It is also very rare in the entire primitive world of Kyushu.

Zhang Yuhe passed through the mountain protection formation and slowly arrived at the top of Daosheng Peak.

Look at the magnificent mountains and rivers in front of you.

A smile couldn't help but appear on Zhang Yuhe's face.

"Let's go and have a look at Blue Star."

After a long time.

Zhang Yuhe came to a deserted wilderness.

I saw his right hand swiping in the void and quickly locating the coordinates of the Blue Star.

Zhang Yuhe took one step forward.

Soon we arrived at a world that was both familiar and unfamiliar.

Blue Star at this time has completely changed from the last time he came here.

Zhang Yuhe raised his head and looked towards the sky.

The originally starry sky has become very sparse.

The sun and moon are still there.

But Zhang Yuhe can see it.

The sun and moon today are no longer what they were before.

It seems to be from another latitude, not in this world.

Zhang Yuhe knows.

The so-called sun and moon now should be the manifestation of the original rules of the primitive world.

It's not something that really exists.

As for the previous sun and moon, they have long been integrated with the blue star.

Once upon a time, the Blue Star people dreamed of conquering the stars, the sea, and the void of the universe.

After nearly 30 million years of evolution, they have all integrated with Blue Star.

It has become a vast world of cultivating immortals.

Zhang Yuhe walked around freely on Blue Star.

He found.

Today's Blue Star is even several times larger than Yu Fantian.

As for the richness of resources and spiritual energy on Blue Star, it is much stronger than that of Yu Fantian.

Oh, no.

Now this place is no longer called Blue Star.

Don't know when it started.

The monks here are used to calling their hometown the Milky Way World.

"Milky Way."

Zhang Yuhe muttered to himself silently.

He looked up into the void.

Section 788

The once magnificent Milky Way has long since disappeared.

The monks may have forgotten the original meaning of the Milky Way.

Maybe they only remember the ancestors of the Milky Way, but don't know that they were in the sky of Blue Star.

There is also a magnificent Milky Way starry sky.

The world is changing and the world is changing.

Only through the inheritance of civilization can it exist forever.

Even if the starry sky disappears, the inheritance of civilization will remain eternal.

Think of this.

Zhang Yuhe couldn't help but smile slightly.

He took one step forward.

Soon it appeared over Kunlun Fairy City.

At this time, Kunlun Fairy City is still so simple and spectacular.

In the center of Kunlun Fairy City, stands a tall fairy statue.

The immortal carries a long sword on his back, just like a god descending to the mortal world.

Zhang Yuhe stood silently in the sky.

Looking at this statue that was carved by Wang Guofeng himself, I couldn't help but be stunned.

Thirty million years have passed.

Now even Wang Guofeng has reached the late stage of Taiyi Immortal.

Maybe one day.

Wang Guofeng can still cultivate to the realm of Taoist ancestors and finally walk out of the fairy world.

Heading towards the vast sea of chaos.

Zhang Yuhe has never doubted Wang Guofeng's future.

Although Wang Guofeng's qualifications can only be regarded as ordinary in the fairy world.

Ninth-grade water spiritual roots are pretty good in the lower realm.

But compared to the spiritual geniuses from all over the fairy world.

Wang Guofeng's talent is indeed too ordinary.

But he has a tenacious heart to seek the truth and a flexible mind, which seems to be accompanied by good luck.

Zhang Yuhe believes it.

People like Wang Guofeng.

The fairy world must not be his end.

maybe one day.

Wang Guofeng can still follow his footsteps towards the vast sea of chaos.

Just at this time.

A group of young monks came from the front of the statue with solemn expressions.

The young monks were uniformly dressed, with a few small words "Galaxy Feixianyuan" embroidered on the left chest.

Zhang Yuhe looked back.

The cultivation level of this group of young people is roughly at the level of foundation building.

One of the middle-aged monks in charge of leading the team looked like he was in the early stage of Nascent Soul.

Probably a teacher from the Immortal Academy.

The teacher leading the group bowed respectfully three times towards the statue.

Then he turned back to the young students behind him and said solemnly.

"Welcome everyone to join Galaxy Feixianyuan."

"According to the tradition left by our ancestors, the first step to enter the Immortal Academy is to worship our ancestors in the Kunlun Immortal City."

"The ancestor of the Galaxy created the immortal civilization and expanded our world from an ordinary mortal world to the world of immortal cultivation today."

"As we embark on the immortal path, we must never forget the kindness of our ancestors."

Speaking of which.

The leading teacher paused for a moment, and then continued.

"Okay, everyone come together."

"As long as you worship sincerely, the ancestor will definitely protect you and make your journey to immortality smoother in the future."

A group of young students walked silently to the statue.

After three kowtows and salutes.

Everyone slowly exited the high platform.

Just at this time.

A young student asked the leader curiously.

"Teacher Hu, tens of millions of years have passed. Is the ancestor of the Galaxy still there? Will we have the opportunity to meet the ancestor of the Galaxy in the future?"

Teacher Hu smiled slightly and then said proudly.

"The ancestors of the Galaxy are eternal and of course they are still here."

"According to the ancient records left by our predecessors."

"The ancestor of the Galaxy is also an invincible power in the fairy world."

"If one day you can cultivate to the point of Mahayana ascension."

"Maybe there will be a chance to meet the ancestor of Galaxy in the fairy world."

Teacher Hu just finished speaking.

The scene was filled with murmurs.

Everyone looked at the statue on the high platform, and their hearts were filled with infinite reverence and yearning.

It took tens of millions of years.

The Galaxy Ancestor is not just a legend, it actually exists.

How could they not be excited?

This is true eternal life.

What does it mean to cultivate immortality?

Isn't it just immortality?

Such a vivid example was quietly placed in front of them.

How can everyone not be excited?

Some young students at the scene quietly returned to the high platform and silently kowtowed and prayed again.

I hope that I can seek the protection of the Galaxy Ancestor so that I can go more smoothly on the road of cultivating immortality.

Maybe we can finally achieve Mahayana ascension and live forever.

Teacher Hu looked at all this, he just smiled and did not stop.

to be honest.

I have been a teacher in Xianyuan for many years, and I have the passionate dream of young people.

He has seen too much.

Wait until after decades of practice.

These young students will know how difficult it is to cultivate immortality.

Teacher Hu looked up at the statue on the high platform.

I sighed silently in my heart.

"Eternal life is so easy to achieve."

...

Chapter 584 Come on!

Zhang Yuhe stands in the void.

Looking at the group of young students, they walked to the high platform again to salute and pray.

A faint smile couldn't help but appear on his face.

[I have not been in this world for 30 million years, but my legend is still circulated in this world.]

Zhang Yuhe's mood at this time was beyond mention how beautiful it was.

People have been away from the fairyland for thousands of years, but the legend still remains.

This shows.

His and Wang Guofeng's efforts were not in vain.

The monks of the Galaxy World have not forgotten their efforts.

"Well, it seems that your prayers are useless."

"I don't practice incense and sacrifice. Even if I pray sincerely, I won't get any feedback."

Looking at the students who were kneeling and praying, Zhang Yuhe was thoughtful.

He felt.

Chapter 789

Meeting is fate, and it would be unreasonable not to give some benefits.

And he is about to break through the False God Realm and usher in the calamity.

Once the tribulation is successful.

He may be leaving Fairyland soon.

I'm afraid it will be difficult to return to Blue Star in the future.

before leaving.

Should we leave something behind to the Milky Way world?

Think of this.

Zhang Yuhe slowly stretched out his index finger and gently pointed at the statue on the high platform.

His magnificent power of law slowly merged into the statue.

After a while.

The statue began to emit a faint light, gradually rippling around.

An inexplicable Taoist aura gently brushed the surroundings.

Teacher Hu, who was leading the team, suddenly felt his body relax, as if some kind of shackles had been released.

The bottleneck that had held him back for many years was instantly resolved.

Among the group of young students around them, some even directly broke through the small realm.

See this situation.

Teacher Hu couldn't help being surprised, and at the same time he looked confused.

His first reaction was to look up at the statue on the high platform.

Don't know what's going on.

He always feels.

This statue that has been standing for nearly 30 million years seems to have undergone some strange changes today.

But he couldn't explain the specific changes.

Teacher Hu was filled with countless doubts.

He muttered to himself.

"Could it be that the ancestor of the Milky Way appeared?"

The group of young students around them were also whispering.

"I don't know what happened just now, but my cultivation suddenly reached the third level of foundation building."

"Me too, I just had a breakthrough out of nowhere."

"Ah, what about you? Have you all made a breakthrough?"

"I didn't make a breakthrough, but I feel like I've learned something new."

"As long as you go back and practice for a while, you will be able to break through soon."

"What's going on? Is the ancestor of the Galaxy showing up?"

Everyone looked at the statue on the high platform, as if it was covered with a mysterious veil.

Teacher Hu, who was leading the team, stretched out his hand to signal, and everyone immediately fell silent.

Everyone retreated slowly.

"It must be reported immediately."

Teacher Hu was shocked.

he knows.

Something must have happened just now that he didn't know about.

And this is definitely a big deal.

If it was just him, the bottleneck would suddenly be resolved.

It can also be said to be luck.

But the group of young students present also made breakthroughs one after another.

That would be so abnormal.

Think of this.

Teacher Hu immediately took out a fairy mirror.

After playing a magic formula.

He took the other students and stayed there silently.

After a while.

Dozens of powerful auras quickly crossed the sky and landed near the high platform in the center of Kunlun Fairy City.

After careful inspection by a group of Mahayana ancestors.

A piece of news that shocked the world quickly spread throughout the entire galaxy.

The statue of Galaxy Ancestor located in Kunlun Fairy City seems to have undergone some strange changes.

As long as you pray sincerely and observe carefully, you may be able to sense some of the great atmosphere.

It is even possible to directly resolve bottlenecks.

On that day, there was an ancestor who was in the early stage of Mahayana, and he directly resolved the bottleneck and was promoted to the middle stage of Mahayana.

As the news spreads rapidly throughout the Milky Way world.

Monks from all over the country rushed to Kunlun Fairy City.

All of a sudden.

The huge Kunlun Fairy City quickly became overcrowded.

Zhang Yuhe stood on the top of a certain mountain and watched the streams of light passing by quickly.

He said silently to himself.

"This is my last help to the monks in the Milky Way World. I hope you can go further in the future."

Just now, he incorporated a hint of law into the statue.

The nine supreme laws and the laws of chaos are endlessly alive in the statue.

It's like the manifestation of his great avenue.

As long as the monks in the Milky Way world can make good use of this trace of law and charm, they will definitely be able to reach a higher level.

Of course.

That's all he can do.

Wait until he survives the catastrophe.

Soon he will leave the fairy world and go to the wider sea of chaos.

Whether I can come back again in the future is hard to say.

After walking towards the Sea of Chaos.

He probably doesn't even care about matters in the fairy world, let alone the Milky Way world.

"It's time to go back and prepare to break through the tribulation."

Think of this.

I saw his right hand drawing in the void, and then taking a step forward.

Zhang Yuhe's figure quickly disappeared from the Milky Way World.

No one knows that he came quietly and left quietly.

But in the great world of the Galaxy, the legend of the appearance of the ancestor of the Galaxy is slowly spreading.

After returning to Yitian Mansion.

Zhang Yuhe stood quietly on the training platform.

After a long time.

He then spoke leisurely.

"Yiyi, I'm going to prepare for the tribulation."

Hear this.

Wu Yiyi, who was sitting on the swing, couldn't help but be stunned.

After a moment of silence.

Wu Yiyi waved her fist and encouraged Zhang Yuhe.

"come on."

Zhang Yuhe smiled slightly, and then took a step out of Yitian Mansion.

Wu Yiyi stared at his figure in the distance, stunned.

She had been in the fairyland for hundreds of millions of years.

Whenever a genius appeared, she would observe silently.

She hoped that one day,

a peerless genius who could defeat the Supreme True God would appear in this fairyland.

This would give her a chance to return to the Chaos Sea.

It was a pity.

Over the past hundreds of millions of years, she had seen too many examples of failure.

Section 790

It's not that the Immortal Realm has never produced a genius.

In the long years.

There have been many geniuses of all kinds.

But without exception, these geniuses eventually fell under the heavenly tribulation.

Until Zhang Yuhe appeared, Wu Yiyi saw hope.

Zhang Yuhe not only had an extraordinary comprehension, but also had extremely terrifying strength.

As long as he successfully survived the heavenly tribulation and successfully advanced to the realm of virtual god.

Then it would be possible to defeat the half-crippled crocodile monster.

But the heavenly tribulation was too strong.

The more peerless the genius, the more terrible the heavenly tribulation they had to face when they broke through.

Wu Yiyi didn't know whether Zhang Yuhe could survive the heavenly tribulation.

But she had no choice.

The heavenly tribulation was a test from the origin rules, and she couldn't help at all.

Looking at the distant direction of Zhang Yuhe, Wu Yiyi was stunned.

After a long while.

She muttered to herself silently.

"I hope you can succeed."

"I have been trapped in this primitive world for too long."

"I really want to return to the Chaos Sea one day earlier."

...

Chapter 585 The Expanded Galaxy Island

Galaxy Peak.

Seeing Zhang Yuhe coming.

The Daozu Emperors immediately stood up and greeted him.

"Master Zhang."

"Galaxy Fairy King."

Zhang Yuhe smiled and nodded.

"Hello, seniors."

Everyone exchanged greetings for a while.

Li Tianxing asked him.

"Are you ready to start?"

"Well, it's almost done. Let's go to Galaxy Island to set up the Renshui Thunder Absorption Array first."

At this time.

The elders and hall masters of the Daosheng Sect heard that Zhang Yuhe was going to set up the array to overcome the tribulation.

Everyone rushed over.

"Master..."

Zhang Yuhe turned his head and glanced at everyone, and nodded slightly.

After nearly 30 million years of development.

Today's Daosheng Sect is no longer comparable to the past.

Even if he leaves the fairyland.

Others can still support the continued development of Daosheng Sect.

At present, in addition to him, Daosheng Sect has two Daluo Immortal Kings.

They are Yang Yueyue and Li Tian.

In addition, Feng Xiaotian and Wang Guofeng have also cultivated to the perfection of Taiyi Immortal.

As long as they polish for a while.

With the help of Shenluo Yitian Pill, they may be able to break through to Daluo Immortal King.

As for the rest of the people, they are not bad.

Lu Yunfei, Yu Liwei and Xie Mingyuan are also in the late stage of Taiyi Immortal.

They also have the opportunity to break through to Daluo Immortal King, or even go further.

In addition.

There are more than a hundred Taiyi Immortal Lords in Daosheng Sect.

You can say that.

Although the strength of Daosheng Sect is indeed slightly inferior to those Daozu Holy Lands.

But compared with other super powers, it is completely comparable.

Even slightly surpassed.

Zhang Yuhe believes.

Even without him, relying on the current foundation of Daosheng Sect.

It can still stand firmly in the fairy world.

Zhang Yuhe never thought of letting Daosheng Sect dominate the fairy world.

There is no need.

Cultivating immortals is about longevity, not the way of hegemony.

As long as Daosheng Sect has enough self-protection power, it will be fine.

On the Milky Way Peak.

Thirty-six Daozu Great Emperors of the human race and the demon race, and hundreds of immortal monarchs and kings of Daosheng Sect, looked at Zhang Yuhe silently.

Everyone was looking forward to it, but also full of worry.

After all, what he was about to face was the terrible Daozu Heavenly Tribulation.

And with Zhang Yuhe's peerless talent.

How terrible would the Heavenly Tribulation he was going to face be?

Everyone dared not imagine it at all.

It is very likely to be the most terrifying Heavenly Tribulation in the history of the fairy world.

Looking at the expressions of everyone on the scene, Zhang Yuhe smiled slightly, and then said lightly.

"Let's go, go to the Milky Way Island first."

After saying this.

Zhang Yuhe made a stroke with his right hand.

A particle vortex the size of a pond slowly appeared in the void.

At the other end of the vortex, the Milky Way Island far away in the Ji'an Sea was clearly visible.

Some people at the scene had seen Zhang Yuhe's teleportation magic.

There were also many people, such as the Taozu Emperor of the demon clan, who had not seen it.

Whether they had seen it before or not.

When everyone saw Zhang Yuhe cut through the void again and opened a stable transmission channel.

Everyone couldn't help but be amazed.

His magic was really amazing.

It seemed that it shouldn't be a magic that a cultivator in the fairy world could have.

Seeing Zhang Yuhe open the transmission channel.

Li Tianxing said with a smile.

"Master Zhang's magic is convenient, so I'll go over first, so I don't have to sit in the transmission array, haha."

After Li Tianxing said this, he took a step forward and stepped into the particle vortex in the void.

His figure quickly disappeared from the Milky Way Peak.

Following closely.

An Tianzuo also quickly jumped into the vortex and disappeared in front of everyone in an instant.

When I was in the Sea of Chaos.

Zhang Yuhe had used the magical power of Tiandi Wuji to teleport them back to the Holy Land.

They had personally experienced the magical power of this magical power before.

Naturally, there was no hesitation.

Seeing Li Tianxing and An Tianzuo successfully pass through the teleportation array and arrive at the Milky Way Island in an instant.

Others did not hesitate any more.

They all jumped into the particle vortex.

After a while.

On the entire Yinhe Peak, Zhang Yuhe was the only one left.
