

Top talent 79

Chapter 79

The vortex dissipated and instantly turned into purple thunder all over the sky.

"Fuck, Nine Heavens Thunder?"

Li Tian stood in the distance and was stunned when he saw the purple thunder all over the sky.

What is Nine Heavens Thunder?

Normally, only the great heavenly tribulation caused by the great Mahayana Perfection cultivator before the ascension will cause Nine Heavens Thunder.

Now Zhang Yuhe has just been promoted to the fusion realm, and the Nine Heavens Thunder has appeared.

This is too ridiculous.

Li Tian didn't even think about it, and quickly turned into a stream of light and turned around and ran.

Nine Heavens Thunder is extraordinary and covers a very wide range.

Although his current location is very far from the place where Zhang Yuhe passed the tribulation, it is still not safe.

He thought that it would be better to run further.

After flying a million miles away, Li Tian slowly stopped.

Along the way, he saw many weak monsters, who were frightened to incontinence and trembling on the ground.

Looking at the purple thunder in the distance, Li Tian muttered to himself.

"How could the Nine Heavens God appear? This is too unreasonable."

"How abnormal is Junior Brother Zhang's talent to attract the Nine Heavens God Thunder when he breaks through the fusion realm."

"I don't know if Junior Brother Zhang can survive it."

"I hope so."

Li Tian could do nothing to help with the matter of the tribulation.

He could only stand in the distance and pray silently.

But when he thought of the previous tribulation, Zhang Yuhe was relaxed.

Li Tian felt that although the Nine Heavens God Thunder was fierce, Zhang Yuhe might not be unable to survive it.

In particular, the formation that looked like the Renshui Thunder Absorption Formation left a great impression on him.

After the heavenly tribulation passed through the formation, the power was greatly weakened.

"I don't know where Junior Brother Zhang got this powerful formation from."

"With this formation, he should be able to withstand the attack of the Nine Heavens Thunder."

Li Tian felt an indescribable envy for the second-level Renshui Thunder Absorption Formation arranged by Zhang Yuhe.

He felt that if Zhang Yuhe could withstand this wave of heavenly tribulation, he would have to discuss it.

See if he could borrow this formation to use.

If he could borrow this formation, it would be easy for him to overcome the tribulation in the future.

When he broke through, the heavenly tribulation he triggered was not as abnormal as Zhang Yuhe's.

If he had the help of Zhang Yuhe's magical formation, he would have no pressure to overcome the tribulation.

He didn't even need to make other preparations.

...

Zhang Yuhe stood in the middle of the lake, looking at the purple thunder in the sky, his expression solemn.

He muttered to himself.

"I knew it wasn't that simple, but I didn't expect that the Nine Heavens Thunder would appear."

Facing the purple thunder in the sky, Zhang Yuhe didn't dare to be careless at all.

Now he could only rely on the Nine Heavens Hunyuan Sword Formation.

He madly operated the Hunyuan Heavenly Scripture, and his mana was injected into the nine flying swords as if it was free.

The sword formation was also bright and dazzling, forming one sword energy light curtain after another.

Layers of sword energy light curtains extended from his side to thousands of miles away.

Boom...

The purple thunder in the sky quickly gathered, forming a large thunder waterfall.

The purple thunder waterfall, like a downpour, quickly poured towards the center of the lake.

When passing through the blue light curtain above the lake, the purple thunder was instantly dispersed and slid down.

One after another, tiny purple thunders, like raindrops, quickly fell on the lake.

It set off waves of shocking waves.

At the same time, the purple thunder scattered on the edge of the lake split the tall peaks into powder.

Although weakened by the Renshui Thunder Absorption Formation, the remaining purple thunder was still extraordinary.

The thunder kept bombarding the sword energy light curtain around Zhang Yuhe.

Layers of sword energy light curtains were shattered

But under the support of his surging mana, these shattered light curtains quickly returned to their original state.

This repeated continuously.

It was unknown how long it lasted, and the last piece of purple thunder finally dissipated.

"Huh..."

Seeing the sky return to clarity, Zhang Yuhe breathed a sigh of relief and said to himself

"Fortunately, I improved the Renshui Thunder Absorption Array, otherwise, it would definitely not be able to withstand the bombardment of the Nine Heavens Thunder."

This time, the power of the heavenly tribulation was at least several times greater than the one that broke through the Refining Void Realm more than a hundred years ago.

However, the improved second-level Renshui Thunder Absorption Array was indeed powerful enough.

This formation not only weakened the power of the heavenly tribulation by more than half.

After withstanding the last nine-color thunder, the Renshui Thunder Absorption Array was still intact.

Zhang Yuhe looked at the tall thunder-absorbing pillars in the distance, and he couldn't help but feel a little relieved.

He waved his right hand and took back the thunder-absorbing pillars.

These lightning-absorbing pillars are all middle-grade Tongtian Lingbao, and they should be useful for the next tribulation.

Of course, he still has to continue to improve the Renshui lightning-absorbing array.

However, as the basis of the array, these lightning-absorbing pillars should not be replaced for the time being.

It is easy to refine middle-grade Tongtian Lingbao, as long as there are enough spirit stones, you can find all the materials with some effort.

But if you want to replace all these lightning-absorbing pillars with top-grade Tongtian Lingbao, don't even think about it.

At least for the time being.

Top-grade Tongtian Lingbao is the top treasure that can be refined in Yufantian.

It requires ninth-level materials to be refined.

He wanted to find all the materials needed to refine 108 high-grade Tongtian Lingbao in Yufantian, which was simply a foolish dream.

It was estimated that even if the entire Daosheng Sect's treasury was emptied, it might not be able to get them.

"Forget it, I'll think of a way to deal with it later."

Zhang Yuhe did not dwell on this matter.

He estimated that with the current ability of the second-level Renshui formation, it should be able to help him survive the next heavenly tribulation.

That is, the heavenly tribulation of promotion to Mahayana.

As for the great heavenly tribulation before ascension, he would slowly think of a way later, anyway, it was still early.

Zhang Yuhe looked into the distance and saw that the Thunder Lake had expanded several times.

After he survived the tribulation here twice.

This lake, which was originally only a few thousand miles in radius, was about to become an inland sea with a radius of tens of thousands of miles.

A stream of light passed from afar and quickly landed beside Zhang Yuhe.

Li Tian looked at Zhang Yuhe and asked with a puzzled look.

"Junior brother, oh no, Uncle Zhang, are you okay?"

Seeing that Zhang Yuhe had no injuries on his body, he found it difficult to connect the terrifying Nine Heavens Thunder just now.

How could he not be injured at all in the face of such a terrifying heavenly tribulation?

What a pervert.

At the same time, Li Tian also changed the way he addressed Zhang Yuhe.

There was no way, the realm of the cultivator was one level higher, and it was completely different.

Except for the two Mahayana cultivators, Sect Master Feng Xiaotian and Ancestor Wu Yuemin.

The cultivators in the fusion realm are also the top existences in the Daosheng Sect.

According to what he knew, there were not too many fusion cultivators in the Daosheng Sect.

There were only about thirty people.

...

Chapter 78 Let it blow from the southeast, northwest, and north, I will not be able to practice

Two streams of light flew quickly out of Yunmang Mountain.

After surviving the heavenly tribulation, Zhang Yuhe and his companions did not stay, but chose to return directly.

He was not injured and did not need to rest.
