

Top talent 791

Section 791

Zhang Yuhe looked around, looking at the magnificent Galaxy Fairy City in front of him.

He couldn't help but sigh, and then quickly stepped into the vortex.

...

Ji'an Sea, Galaxy Island.

Compared with the past.

At this time, the Galaxy Island has expanded countless times.

The area of the entire island is far more than hundreds of millions of miles.

It may be the largest island in the South China Sea Fairyland.

For Zhang Yuhe's formation needs.

As early as two million years ago.

A large number of Daosheng Sect disciples began to move mountains and fill the sea here.

Countless disciples have been busy for hundreds of thousands of years to make the Galaxy Island have the current scale.

In the center of the Galaxy Island.

A huge ten-thousand-foot high platform rises from the ground.

This will be his tribulation platform.

Daozu Tribulation Platform.

There is only one in the fairy world.

You can never find a second one.

And it is unlikely that there will be a second Daozu Tribulation Platform in the future.

The reason is very simple.

In order to build this tribulation platform.

Zhang Yuhe almost slaughtered all the king-level chaos beasts in the entire fairy world.

Even if someone wants to copy the gourd in the future, they won't be able to find a king beast to kill.

As for using other materials and methods to set up the Daozu Tribulation Platform.

Then don't think about it.

If there are other ways, they won't wait until now.

Since Lu Jiuzhou passed down the immortal civilization.

Billions of years have passed.

No one has ever been able to set up the Daozu Tribulation Array.

It's not that they haven't thought about it.

But they can't do it at all.

Building the Daozu Tribulation Array is not only about the attainments of the array.

Materials are the more important key.

Without enough materials, no matter how many ideas there are, it's useless.

If there weren't a large number of chaos beasts in this fairy world.

Even Zhang Yuhe probably couldn't think of other solutions.

A good cook can't cook without rice.

The materials are not all gathered.

Who can do it?

Zhang Yuhe stood on the platform, looking at the entire Galaxy Island, and nodded with satisfaction.

Now this Galaxy Island is not comparable to those ordinary deserted islands.

Every inch of land on the island has been reinforced layer by layer by the disciples of the Daosheng Sect using their magical powers.

As for the platform under his feet.

It was personally taken care of by Yang Yueyue, the Daluo Immortal King.

With the power of the Taiyin Law, it was frozen and reinforced many times.

Now this platform is even harder than many fourth-level immortal mines.

The divine power of the Daozu Heavenly Tribulation is extremely terrifying.

Even a trace of the aftermath of the divine power can turn the world upside down.

If the Galaxy Island is not specially reinforced.

I am afraid that a round of heavenly tribulation will come.

The whole island will be blown to ashes.

If even the foundation is blown away by the heavenly tribulation.

What is the tribulation platform, it is a joke.

So it is necessary to reinforce the tribulation place as much as possible.

Zhang Yuhe stood on the platform and looked around silently.

In order to help him successfully overcome the heavenly tribulation.

Now the entire South Sea Fairyland has been cleared out.

Not only were all the cultivators relocated to the Chaos Continent, but even all the mortals were also relocated.

The monsters and spirits that originally lived in the South Sea Fairyland were either directly wiped out by the cultivators or captured and relocated.

Except for a few deserted islands, there are still a few plants growing.

The entire South Sea Fairyland is like a place of extinction.

There is no sign of life at all.

The Galaxy Island is naturally no exception.

When the expansion of this island was completed, all the disciples of the Daosheng Sect had evacuated.

No one was arranged to stay.

At present, in the entire South Sea Fairyland.

I am afraid there are only a hundred of them.

A group of Daozu Emperors looked into the distance, constantly pointing and talking, and discussing something in a low voice.

Hundreds of immortals and immortal kings of the Daosheng Sect stood quietly behind Zhang Yuhe, silent.

Zhang Yuhe looked into the distance, with no joy or sadness in his heart.

Compared to other people.

Facing the unknown Daozu Heavenly Tribulation.

He himself was not too worried.

He had been preparing for so many years, so what was there to be afraid of.

He wanted to see.

With his understanding of the nine supreme laws and the law of chaos, plus his heaven-defying talent.

When he breaks through the realm of virtual god, how terrible will the heavenly tribulation be.

But before that, he has to set up the Renshui Thunder Absorption Array first.

...

Chapter 586 Talent determines the upper limit

The Daozus stood on the high platform, looking at the magnificent sea in the distance, constantly whispering and talking.

Suddenly.

Daozu Cangyue asked Li Tianxing.

"Tianxing, will you be the one to set up the great tribulation array later?"

Hearing this.

Li Tianxing was stunned.

It is actually normal for Daozu Cangyue to have such an idea.

After all, in the eyes of everyone.

In this fairy world.

In terms of the attainments of the formation.

If Li Tianxing is second, no one dares to claim first place.

But that is a thing of the past.

After seeing Zhang Yuhe's improved version of the Renshui Thunder Absorption Formation,

Li Tianxing never dared to be arrogant again.

Zhang Yuhe was able to improve an ordinary mortal-level formation to such an exaggerated degree.

His attainments in formations must have surpassed him long ago, and he is already far ahead of the entire fairy world.

And the entire Tribulation Array, from designing and improving the array method to preparing materials.

Even the final refining of the lightning-absorbing column was completed by Zhang Yuhe alone.

Obviously.

Section 792

In Zhang Yuhe's opinion, this matter should not be suitable for other people to intervene.

Of course.

Another point.

Li Tianxing read the formation method recorded by Zhang Yuhe on the jade slip.

He was indeed not sure that he could completely lay out this great tribulation formation.

After many improvements by Zhang Yuhe.

The ultimate version of the Renshui Thunder Absorbing Formation is really too complicated.

Even Zhang Yuhe gave a detailed description on the jade slip.

Li Tianxing couldn't guarantee that he would be able to create this formation by himself.

In the entire fairy world.

Maybe only Zhang Yuhe has such ability.

Li Tianxing thought silently for a while, then said with a smile.

"Brother Cang Yue thinks highly of me."

"The complexity of this formation designed by the Galaxy Immortal King is far beyond imagination."

"Except for himself, it is probably very difficult for anyone else to understand, let alone set up a formation."

Hear this.

The Dao Ancestor Emperors nearby couldn't help but feel surprised.

Cang Yue Daozu asked quickly.

"Not even you? Is the Galaxy Immortal King more accomplished in formations than you?"

Li Tianxing shook his head, and then spoke slowly.

"The beauty of the Milky Way is far beyond what we old people can compare to."

"His attainments in formations have long surpassed mine."

Speaking of which.

Li Tianxing paused for a moment, then said with a smile.

"You will know after a while how magical the array arranged by the Galaxy Immortal King is."

Hearing what Li Tianxing said.

Everyone's curiosity couldn't help but be aroused.

Originally, they were full of expectations for this formation that could support the Dao Ancestor's Heavenly Tribulation.

Now that I hear Li Tianxing say this, I am even more curious.

Everyone turned their attention to Zhang Yuhe, who was not far away.

I want to see how magical this unprecedented and peerless formation is.

Zhang Yuhe stands on a high platform.

Suddenly he rose into the air and flashed quickly along the edge of the Milky Way Island.

Before setting up the formation, he had to make a final confirmation.

Does this Galaxy Island meet the formation requirements?

If there are any errors, they must be rectified immediately.

After a while.

Zhang Yuhe returned to the high platform again.

I saw him wave his right hand.

The lightning-absorbing pillars turned into streams of light and headed straight to the edge of the island in the distance.

A total of ten million lightning-absorbing pillars, like Optimus Pillars, stand on the edge of Galaxy Island.

Soaring straight into the sky.

So many lightning-absorbing pillars at the level of top-notch immortal weapons were laid out around Galaxy Island.

Even if there are no formations connected yet.

There are so many lightning-absorbing pillars, faintly emitting spiritual light.

It has covered the entire island.

This is definitely the most massive project in the history of the Immortal Realm.

none of them.

Tens of millions of top-quality immortal weapons.

No one would dare to think otherwise.

Even those Dao Ancestor Holy Lands cannot afford such a big deal.

Zhang Yuhe looked into the distance, silently confirming whether the position of the lightning-absorbing pillar had been accurately arranged.

After a while.

Zhang Yuhe took a deep breath.

He quickly rose into the air, slowly stretched out his right index finger, and kept carving in the void.

Arrays of formations flashed continuously on his hands.

The formation pattern is like a spiritual light, slowly connecting the lightning-absorbing pillars together.

The complex formation patterns on Zhang Yuhe's hands were like some kind of art.

It passes through the void and then hides under the sea.

A group of Dao Ancestor Emperors stood silently on the high platform.

Looking at Zhang Yuhe's hands, various formation patterns continued to flash.

Everyone couldn't help but be amazed.

As the saying goes, laymen watch the excitement, while insiders watch the door.

Of course, no one who can cultivate to the level of Dao Ancestor will be a simple person.

Even if some of them don't have the knowledge of formations, they put too much energy into it.

But their knowledge is not comparable to that of ordinary monks.

The formations depicted by Zhang Yuhe seem light yet heavy, simple yet complex.

In fact, every formation pattern contains countless possibilities and changes.

A pattern like this.

Even just carving out a line requires a lot of effort and energy.

But Zhang Yuhe seemed to be a normal person.

His hands kept carving in the void.

It is as easy as drawing an ordinary landscape painting on white paper.

This state of relaxation and comfort is simply out of reach for them.

Li Tianxing watched silently as formation patterns flashed across the sky.

My heart was filled with wonder.

He is also a formation master.

I have also imagined Zhang Yuhe, who uses heaven and earth as talisman paper and formation patterns as pen and ink.

Describe a supreme formation.

But he couldn't do it.

This is a higher level of formation realm beyond what he is now.

to be honest.

If not for this journey, I would have watched Zhang Yuhe grow to this state.

Li Tianxing would even be suspicious.

Zhang Yuhe might not be from the immortal world.

Maybe he is from a higher level world outside the territory, just like the Kyushu Power.

But Li Tianxing knew.

Zhang Yuhe was actually the same as them, even lower than their starting point.

Zhang Yuhe is a monk who ascended to the immortal world from a lower world of cultivation.

Zhang Yuhe's growth seems incredible.

But there are traces.

This is true.

As for Zhang Yuhe's achievements, why are they so exaggerated?

That can only be attributed to his talent.

In the fairy world.

There has always been a saying.

Talent determines the upper limit.

If a person's talent is limited.

Then no matter how hard he works, no matter how good the opportunity is.

In the end, it is difficult to go further.

Section 793

Of course.

The talent mentioned here does not only refer to spiritual root talent.

Talent includes many things.

In addition to spiritual root talent, it also includes understanding, physique, luck, and even personality, etc.

Only if there are no major shortcomings in all aspects can it be possible to go further.

Otherwise.

If there is any one of them, the upper limit is too low.

On the monastic path.

It may be easy to get stuck or even fall off the path.

And Zhang Yuhe.

He is obviously a person with perfect talent and even no upper limit.

His ceiling may be infinitely high.

Needless to say, Zhang Yuhe's talent must be extremely exaggerated.

Otherwise, he wouldn't have cultivated so quickly.

As for his understanding, let alone that.

It is definitely more outrageous.

Otherwise.

It is impossible for Zhang Yuhe, in just 30 million years.

He comprehended the nine supreme laws, and even comprehended an additional one, the power of a higher level law.

Li Tianxing thinks.

Zhang Yuhe's understanding may be the most incredible in the history of the immortal world.

It will be impossible for someone to rival Zhang Yuhe in terms of understanding in the future.

As for physical fitness, it's hard to say.

No one has ever noticed the aura of special physique in Zhang Yuhe.

But just because everyone can't notice it, doesn't mean it doesn't exist.

It's just that no one discovered it.

The same is true when it comes to luck.

By observing Zhang Yuhe's growth process.

Li Tianxing discovered.

Zhang Yuhe's journey seemed to be smooth sailing.

He has never encountered any bad luck or anything beyond his control.

No disaster or disaster, this is naturally not just strength, but a sign of great good luck.

obviously.

Zhang Yuhe's luck, even if it is not very good, is definitely not bad.

Another thing is character.

Zhang Yuhe has a tough and low-key character.

Even if he achieves such a high level of achievement.

He has never been as showy as other peerless geniuses.

Instead, he has been practicing silently.

Zhang Yuhe's tenacious pursuit of truth is even more persistent than these old guys.

Except for practicing.

Zhang Yuhe hardly wastes too much time on other things.

Talent, understanding, physique, luck, character.

Zhang Yuhe has almost no shortcomings.

It seems that he was born for the road.

Characters like him.

Li Tianxing believes it.

The fairyland is certainly not Zhang Yuhe's end.

maybe one day.

When Zhang Yuhe went outside the territory, he could still shine with blazing light.

This is a perfect monk.

Think of this.

Li Tianxing couldn't help but sigh enviously.

...

Chapter 587 Peerless Formation

Watching Zhang Yuhe draw complex formations one after another with ease and ease.

Li Tianxing couldn't help but be amazed.

Some people are born to cultivate immortality.

And Zhang Yuhe is such a person.

Because Zhang Yuhe's talent is so perfect.

Cultivation of immortality.

As long as Zhang Yuhe is willing.

With any one of them, he can reach the peak that others cannot reach in their lifetime.

Just like the way of formation.

As far as Li Tianxing knows.

Zhang Yuhe basically didn't spend much energy on the research on the formation.

If it weren't for the purpose of setting up the tribulation formation.

Maybe Zhang Yuhe doesn't know how to study formations at all.

However, Zhang Yuhe only used a small amount of strength.

His achievements in the formation method are far higher than those he has studied for a lifetime.

How could Li Tianxing not be envious of this?

It's really annoying to compare people to each other.

The other Dao Ancestor Emperors around looked at Zhang Yuhe waving his hands to carve formation patterns.

I was also extremely shocked.

Everyone felt that the formation pattern drawn by Zhang Yuhe showed an unparalleled beauty.

Just at this time.

Cang Yue Daozu said with emotion.

"The Galaxy Immortal King's attainments in formations are truly unfathomable. They are much better than those of us old guys."

"Yes, Galaxy Immortal King's formation attainments have probably reached an extremely high level."

"Watching the Galaxy Immortal King carving formation patterns is simply a pleasure."

"Who says it isn't?"

"We have been cultivating immortals for hundreds of billions of years. Compared with the Galaxy Immortal King, we are like living like a dog."

"It can't be compared. It can't be compared at all."

"Perhaps only a person like him can be called a true peerless genius."

The Dao Ancestor Emperors discussed in low voices, feeling silently in their hearts.

Most of them were not familiar with Zhang Yuhe.

I just know that Zhang Yuhe is very strong.

Hundreds of supreme-level chaos beasts were destroyed in a flash.

As for how strong Zhang Yuhe is and what achievements he has made.

In fact, they don't know much about it.

I just know a little bit about it from other people's mouths or from the information collected.

Before seeing it with your own eyes.

In fact, many of them here still have doubts about Zhang Yuhe's ability.

But now I see Zhang Yuhe taking action to carve the formation pattern.

They no longer had any doubts.

Even in the art of formation, Zhang Yuhe can reach such a high level.

Then is there any need to talk about other aspects?

You have to know.

From the information collected normally.

Section 794

Zhang Yuhe is not famous for his formation skills.

The reputation of the Galaxy Immortal King comes more from his terrifying strength.

And extremely fast cultivation progress.

Not many people know about his achievements in skills.

In a field that he is not very specialized in, Zhang Yuhe can achieve such high achievements.

Then wouldn't he be even more terrifying in terms of fighting and training?

Think of this.

For the first time, everyone was full of confidence in Zhang Yuhe's ability to successfully survive the catastrophe.

they believe,

A peerless genius like Zhang Yuhe will definitely not fall easily.

You will definitely survive the catastrophe smoothly.

Relative to those great Taoist emperors.

The Immortal Lord and Immortal King of the Daosheng Sect are a little less knowledgeable.

They looked at Zhang Yuhe and kept swaying and carving in the void.

But I can't see why.

I just know it's awesome.

They had never worried about Zhang Yuhe crossing the tribulation.

In their view.

This patriarch of my family is omnipotent.

There is nothing that can stop him.

Just surviving a catastrophe.

Even if it is the Dao Ancestor Heavenly Tribulation, it is still not a problem.

Everyone in the Daosheng Sect has a mysterious confidence in Zhang Yuhe.

They never worried that Zhang Yuhe would not be able to survive the catastrophe.

The Dao Ancestors discussed in a low voice, while the Immortal Lord and Immortal King of the Dao Sheng Sect stood silently behind them.

Time passed slowly.

Zhang Yuhe stands tall in the sky, waving his hands constantly to depict.

Formation patterns flashed in the wind.

I don't know how much time has passed.

The entire Galaxy Island was slowly enveloped in a blue glow.

These blue rays of light are not the effects brought about by turning on the Renshui Thunder Absorbing Array.

Zhang Yuhe has not yet finished carving all the formation patterns.

It will take some time before the formation is activated.

despite this.

When the formation pattern connects most of the thunder-absorbing pillars together.

The blue glow in the sky has already begun to cover the entire Milky Way Island.

This is a manifestation of Tao Yun.

The Renshui Thunder Absorbing Formation has used the two great laws of water and thunder to the extreme.

Even if the formation has not been completely drawn yet.

The Taoist aura carried by the formation could no longer be concealed.

It manifested naturally.

Hundreds more years passed.

As the last formation pattern was carved.

The blue glow in the sky has completely enveloped the entire sea area.

If viewed from a distance.

You can't even tell where is the sea and where is the Milky Way Island.

Boundless water power fills the sky above Galaxy Island.

This vast area turned into a sea.

The autumn water has the same color as the sky.

Zhang Yuhe flew down on the high platform.

The Taoist ancestors immediately stepped forward.

"Sect Master Zhang."

"Galaxy Immortal King."

"The great tribulation formation you arranged is really an eye-opener for us."

"Yeah, I never thought that someone could use simple water power to such an exaggerated degree."

Just at this time.

Li Tianxing laughed and said

"Haha, now you know it."

"Sect Leader Zhang's attainments in formations are incomparable to those of you frogs in the well."

"Hmph, old ghost Tianxing, you said we are frogs in a well?"

"Then how can you be better?"

"I don't believe that you can set up such a tribulation formation like the Galaxy Immortal King."

"Well."

Li Tianxing was speechless for a moment.

He really doesn't have this ability.

When I first saw the jade slips.

He also thought that he might be able to give it a try.

Even if it cannot be arranged, at least part of the complete Renshui thunder-absorbing array can be created.

But after watching the whole process of Zhang Yuhe carving the formation patterns.

Li Tianxing knew it.

He's still too far gone.

Not to mention creating a partial formation.

He might not even be able to draw a few formation patterns.

To know.

The entire Renshui Thunder Absorbing Formation is extremely huge.

There are more than hundreds of millions of complex formations?

If it were him.

I'm afraid I can't even describe a corner of this formation.

Li Tianxing walked up to Zhang Yuhe and said expectantly.

"Sect Master Zhang, please activate the Renshui Thunder Absorbing Formation so that everyone can open their eyes."

"Okay, let's try it."

After the formation is completed.

Zhang Yuhe was in a good mood.

Follow the magic formula and pinch it.

A blue light curtain slowly rose, slowly covering the entire Galaxy Island.

Everyone stood on the high platform and looked up into the sky.

I saw layers of blue light curtains, and they were interlocking.

As the water on the sea rises with force.

The blue light curtain flows slowly, endlessly.

Li Tianxing did a rough calculation.

A blue light curtain like this actually has tens of millions of layers.

Each layer of light curtain is both an independent individual and closely connected with the entire formation.

See this situation.

Li Tianxing couldn't help but sigh.

Facing such a tight formation, what kind of catastrophe can't be prevented?

Such a dense defensive light curtain.

No matter how powerful the Heavenly Tribulation is, it can't break through them all.

And more importantly.

The main function of the Renshui Thunder Absorbing Formation is not to completely intercept the Heavenly Tribulation.

But to weaken the Heavenly Tribulation.

Section 795

This weakens it layer by layer.

No matter how powerful the catastrophe is, it will wait until it finally falls.

There probably isn't much power left.

【Peerless Formation】

At this moment, these four words suddenly appeared in Li Tianxing's mind.

He felt that maybe there were only these four words.

Only then can I briefly describe this great tribulation formation.

...

Chapter 588 The unsurpassable peak

Looking at the layers of blue light curtains covering Galaxy Island.

Even Taiyi Immortal Lords like Lu Yunfei can see the mystery of this tribulation formation.

When Zhang Yuhe improved the Renshui Thunder Absorption Array, the principle he used was very simple.

That's superposition.

Infinite stacking.

In fact, the defensive capabilities of a single-layer light curtain are compared with the previous third-order Renshui mine-absorbing array.

Even if it is strengthened.

That's too strong.

But Zhang Yuhe knew.

The Dao Ancestor Heavenly Tribulation he is about to face must be extremely terrifying.

If you don't use some means.

It's really possible that he can get through it.

But if you want to continue to strengthen the ability of this great tribulation formation to weaken the tribulation.

In fact, there is no way out.

After all, the initial principle of the Renshui Thunder Absorbing Formation was too simple.

It is to use the endless water source power in the sea to form a Taoist aura.

To draw in and weaken the power of the Heavenly Tribulation.

It's just that no matter how much or how strong the water source power is, there will be a certain limit.

Zhang Yuhe knows.

This limit was not enough to help him survive the terrifying Dao Ancestor Heavenly Tribulation.

So he found another way.

Zhang Yuhe thought.

Since the first layer of formation light curtain cannot be greatly strengthened.

Then I'll do a few more layers.

Each layer of light curtain weakens some of the power of the tribulation.

If you add countless layers.

Then when the catastrophe befalls him, won't there be very little left?

Of course.

The idea is really simple.

Infinite stacking?

Who wouldn't?

But what I really want is to perfectly superimpose and fuse the layers of array light curtains together.

How could it be that easy?

If that's the case.

Then who would want to delve into the profound methods of formation?

When needed.

If you just keep superimposing it, it will be over.

If it is a defensive formation.

If you can't defend yourself with one layer, then build thousands of layers.

If it is an attack formation.

If the attack power of the first layer formation is not enough.

Then just get ten thousand and eight thousand?

Things obviously won't be that simple.

Not to mention like Zhang Yuhe, who stacks tens of millions of layers of formation light curtains together.

Even if two identical array light curtains are effectively fused and superimposed.

That is extremely difficult.

At least so far.

Zhang Yuhe has not discovered that anyone in the immortal world has achieved this step.

The idea is simple.

But let this idea have practical effects.

That would be very difficult.

In order to break down this Renshui thunder-absorbing formation into layers, they can then be connected to each other and perfectly integrated into one.

Zhang Yuhe put a lot of thought into it.

The key to this.

It lies on the formation pattern he designed.

The formation pattern depicted by Zhang Yuhe.

Each one is extremely complicated, and each one is different.

Each has its uses.

It is through these complex formations.

The improved Renshui mine-absorbing array will take on its current appearance.

Tens of millions of layers of formation light curtains, layer upon layer, are connected to each other and have the same aura.

Fusion into a complex and perfect formation.

You can say that.

This Renshui thunder-absorbing array is in front of you.

It is Zhang Yuhe, the pinnacle of the art of formation.

This is the best he can do in the fairy world.

It has reached a point where nothing can be changed or progress can be made.

This is the fairy world, the pinnacle of the formation method.

That is to say, Zhang Yuhe's understanding is incredible, plus he has the blessing of the Enlightenment Tree.

If replaced by an ordinary immortal formation master.

Even if it took hundreds of millions of years, it would be impossible to design even one such formation.

I want to design such a complex and perfect formation.

This requires extreme understanding and creative ability.

It is simply impossible for an ordinary immortal formation master to do this.

Zhang Yuhe believes it.

Even if hundreds of millions of years pass, even if an even more unparalleled genius appears in the fairy world.

It is also impossible to arrange a great tribulation formation that surpasses this Renshui thunder-absorbing formation.

Because this is the ultimate.

It is an unsurpassable peak.

...

Everyone looked at the layers of light curtains in the sky.

I was completely shocked beyond words.

Although I was watching Zhang Yuhe carve the formation patterns just now.

Everyone already knows.

Zhang Yuhe's attainments in the formation method must be very extraordinary.

This tribulation-transmitting formation carefully built by him will definitely be extraordinary.

However, when they saw the effect of the Renshui Thunder Absorbing Array being activated.

Everyone was completely shocked.

Can you still do this?

There must be tens of millions of layers stacked up.

Section 796

Can you still arrange the formation like this?

How did Zhang Yuhe perfectly integrate so many formation light screens together?

This simply overturned their understanding of the formation.

You can say that.

Zhang Yuhe has created a new formation school.

Of course.

This new school is probably not something that anyone can learn.

They, the Daozu Emperors, have been standing by and watching for so long.

They still don't understand how Zhang Yuhe did it.

If it were an ordinary cultivator, it would be even more difficult to understand.

Not to mention.

You have to put this formation idea into practice.

It's impossible.

This is Zhang Yuhe's original creation, and it is very likely to be the last sound in the fairy world.

No one will be able to arrange a similar formation again.

Even if it is simplified a million times, no one can do it.

Everyone looked silently at the magnificent blue light screen above their heads.

After a long while.

Li Tianxing slowly spoke.

"With the help of this peerless formation, it should not be too risky for Sect Master Zhang to survive the heavenly tribulation this time."

An Tianzuo, who was standing next to him, also said in amazement.

"Yes, such a complex and perfect formation, with tens of millions of layers of formation defense and weakening effects."

"Even if the power of each heavenly tribulation can be comparable to that of the Supreme True God."

"After being weakened by the formation layer by layer, it is estimated that there will not be much power left."

"Yes, with the help of this peerless formation, the Galaxy Immortal King will definitely be able to rest assured when he survives the tribulation this time."

"I congratulate the Galaxy Immortal King in advance for successfully surviving the heavenly tribulation and being promoted to the realm of Daozu."

"Congratulations to Sect Master Zhang for successfully surviving the heavenly tribulation and being promoted to the realm of Daozu."

Now Zhang Yuhe has not started to break through, and there is no sign of the heavenly tribulation.

But seeing the huge light curtain with tens of millions of layers above the Galaxy Island.

Everyone is almost certain.

It is a sure thing for Zhang Yuhe to survive the heavenly tribulation this time.

There will definitely be no accidents.

Because they had seen the Supreme Heavenly Pride overcome the Dao Ancestor's Heavenly Tribulation before.

Although the power of the Heavenly Tribulation is indeed very terrifying.

It can even be compared with the pressure of the Supreme True God.

But Zhang Yuhe has this perfect Great Tribulation Array to help him.

What else is there to worry about?

It is completely stable.

It will definitely succeed.

A group of Dao Ancestor Emperors came up to congratulate in advance.

This made Zhang Yuhe feel a little speechless.

This is too much.

He immediately bowed to everyone and said modestly.

"Thank you for your good words, seniors."

In fact.

Zhang Yuhe is also full of confidence in overcoming the Heavenly Tribulation.

He does not only have the Renshui Absorbing Thunder Array as a trump card.

In addition to the Great Tribulation Array, which can steadily weaken the power of the Heavenly Tribulation.

The Nine Heavens Hunyuan Sword Array also has a heaven-defying defense ability.

If the defense is fully contracted.

Zhang Yuhe is confident.

With the help of the Nine Heavens Hunyuan Sword Formation, he can block the attack of the Supreme True God.

Not only that.

Zhang Yuhe also has the Hunyuan Guiyi magical power.

If he is really forced into a corner.

Then he can just use the ultimate move.

Zhang Yuhe still doesn't believe it.

After opening the Hunyuan Guiyi magical power, he will still not be able to withstand the heavenly tribulation.

This is almost impossible.

In addition to these.

Zhang Yuhe also has the Taoist art of Chaos Return to Void.

This Taoist art can turn everything into Chaos Return to Void.

It can wipe out all matter.

Zhang Yuhe thought.

The heavenly tribulation should also be the manifestation of some kind of matter.

He even considered.

Can this Taoist art be used to directly wipe out the heavenly tribulation.

Well!

This is indeed a very good idea.

When the heavenly tribulation comes later.

You can try it.

Zhang Yuhe thought silently.

...

Chapter 589 Three Thousand Years of Spiritual Energy Frenzy

Looking at the magnificent tribulation formation in front of them, the Taoist ancestors were extremely excited.

Originally, they were a little worried that Zhang Yuhe would not be able to withstand the heavenly tribulation.

After all, the heavenly tribulation of the Dao Ancestor that the Supreme Heavenly Prodigy needs to face is indeed very terrible.

In the history of the Immortal Realm, there were three Supreme Heavenly Prodigies who had reached this step.

Even if they tried their best and provided all possible help.

Those three Supreme Heavenly Prodigies eventually fell under the heavenly tribulation.

With such a precedent.

How could everyone not worry?

What's more.

Zhang Yuhe's talent is even more outrageous than the three Supreme Heavenly Prodigies before.

In other words.

The heavenly tribulation that Zhang Yuhe needs to face may be more fierce.

However, when they saw that Zhang Yuhe activated the Renshui Absorbing Thunder Array.

Appearing above the Milky Way Island, behind the layers of blue light curtains.

Everyone can finally rest assured.

They believe.

With the help of this ultimate tribulation formation.

Zhang Yuhe will definitely be able to successfully survive the heavenly tribulation.

Everyone discussed excitedly and enthusiastically.

Zhang Yuhe looked up at the sky.

After a long time.

He slowly spoke.

"I'm going to start a breakthrough, so I'll send you back first."

"Okay, then we'll stay in the Galaxy Fairy City and wait for the news that you've successfully ascended to the Daozu realm."

The power of the Daozu Heavenly Tribulation is extremely terrifying, and the coverage area is also incredibly large.

Section 797

Therefore, when Zhang Yuhe broke through, they were unable to observe on the spot.

Not to mention near Galaxy Island.

Even if it goes out of the Ji'an sea area, it still won't work.

They could only go back to Galaxy Fairy City first and wait for news about Zhang Yuhe's successful breakthrough.

Whether it is the Dao Ancestor Emperors or the Immortal Lords and Immortal Kings of the Dao Sheng Sect.

Everyone's eyes were full of anticipation.

Zhang Yuhe's gaze gently swept across the crowd.

He looked at Yang Yueyue, Li Tian, Feng Xiaotian, Xie Mingyuan, and the other Immortal Lords and Immortal Kings.

Then he nodded slightly.

Normally.

Before a monk makes a breakthrough, he will hand over his important affairs to his confidants.

In case the tribulation fails after the breakthrough.

Some precious things were also chopped into ashes by the catastrophe.

Let a close friend keep it for safekeeping, just in case.

But Zhang Yuhe did not do this.

He never worried that he would not be able to survive the catastrophe.

There are some things that he can explain before he leaves the fairy world.

Zhang Yuhe made a stroke with his right hand.

A vortex the size of a pond slowly appeared in the void.

Everyone looked back at Zhang Yuhe, and then jumped into the vortex one after another.

As the vortex slowly closed.

Zhang Yuhe was the only one left on the entire Galaxy Island.

He looked up to the sky.

He muttered to himself.

"Let me see how ferocious this ancestral calamity is."

Zhang Yuhe walked to the center of the high platform and slowly sat down cross-legged.

As the Hunyuan Scripture moves silently.

The fairy energy in the surrounding sea quickly swarmed towards Galaxy Island.

The spiritual energy gathered more and more, like a frenzy, sweeping the entire world in an instant.

The spiritual energy frenzy spread rapidly from Galaxy Island to the surrounding area.

After a while.

The ferocious spiritual energy frenzy spread from the Ji'an sea area to the entire South China Sea Immortal Territory.

Zhang Yuhe sat cross-legged on the high platform and silently circulated the Hunyuan Scripture.

The influx of fairy energy quickly converges towards the Dantian through the meridians.

At this time, huge waves had already set off in the sea of his dantian.

After reaching the state of perfection.

Zhang Yuhe's dantian could no longer contain even a trace of aura.

Unless there is another breakthrough.

Otherwise.

The gathered fairy energy will soon disappear from the dantian.

Above the sea in Zhang Yuhe's Dantian.

A mini Nascent Soul slowly opened its eyes.

On the surface of Nascent Soul, ten strange lights shine.

Nascent Soul is enlightened.

This is the path that a monk must take after reaching the True Immortal.

It's just different from ordinary monks.

The limit of ordinary monks is after cultivating to Taiyi Immortal.

A total of nine orifices can be opened.

But Zhang Yuhe not only opened the Nine Apertures in Taiyi Realm.

After breaking through to the Great Luoxian, he also opened the tenth aperture.

This is a skill that has been developed more often.

Not only does it make his cultivation speed much faster than others.

Moreover, Zhang Yuhe's strength more than doubled as a result.

Nascent Soul opens ten orifices, which is a special secret technique from the Hunyuan Heavenly Scripture.

to be honest.

Until now.

Zhang Yuhe has not yet figured out the true origin of the Hunyuan Heavenly Scripture.

At the very beginning.

Zhang Yuhe thought that maybe Lu Yunfei was lucky and accidentally obtained the inheritance of a certain Taoist ancestor.

The Hunyuan Heavenly Scripture is part of the inheritance.

With the growth of knowledge.

Of course Zhang Yuhe knew about it later.

The Hunyuan Scripture has nothing to do with Taozu.

There have only been so many Taoist ancestors in the immortal world.

The inheritance of these people can be traced.

And Zhang Yuhe didn't believe it either.

Which Taoist ancestor can create such a heaven-defying technique?

Later, Zhang Yuhe felt that the Hunyuan Tian Jing was a skill.

Maybe from Lu Jiuzhou.

After all, Lu Jiuzhou came from the Chaos Sea outside the fairy world.

That is a higher level world.

It is not an exaggeration to say that it is a divine realm.

Moreover, Lu Jiuzhou was not an unknown casual cultivator in the Sea of Chaos.

He is the true disciple of Donghua Palace and can be regarded as the core figure of Donghua Palace.

As a powerful force with the Nine-Step God King on one side.

There is no doubt about the strength of Donghua Palace.

It is normal to have some profound Kung Fu books.

Lu Jiuzhou brought the classics to the fairy world, and then died unexpectedly.

The two stone tablets recording the Hunyuan Scripture eventually fell into the hands of the Chaos Beast.

This seems reasonable.

I only learned about it later through communicating with Wu Yiyi.

A big power like Donghua Palace would never let its disciples take the classics out of the palace.

It's even less likely to be left behind.

That is to say.

It is absolutely impossible that the Hunyuan Scripture was brought by Lu Jiuzhou.

Then here comes the problem.

There is no way that such a mysterious book as the Hunyuan Heavenly Scripture could come from the immortal world.

It's not like Lu Jiuzhou brought him here.

So what is the origin of these two stone tablets?

Could it be the Supreme True God? Where did he get it?

This shouldn't be the case either.

Ordinary chaos beasts do not practice martial arts.

Even if it is a chaotic beast like the Supreme True God, a true god realm.

They also have their own cultivation system, which is completely different from monks.

How could the Supreme True God collect the Hunyuan Heavenly Scripture and the skills of such monks?

When the Chaos City of Supreme Mountain was wiped out.

Zhang Yuhe was still in the city and searched carefully.

He did not find any valuable clues.

The origin of the Hunyuan Heavenly Scripture has always been a mystery.

However, Zhang Yuhe did not get too entangled.

Section 798

Anyway, this technique is suitable for him to practice.

Maybe after he enters the Sea of Chaos, he can figure out the origin of the Hunyuan Scripture.

Time passed slowly.

The spiritual energy frenzy in the South China Sea Immortal Territory has become more and more fierce.

Even the Taoist ancestors as far away as Galaxy Immortal City can feel this shocking craze.

Everyone stood on the Galaxy Peak and silently looked in the direction of Galaxy Island.

The ferocious spiritual energy craze soon spread to the surrounding fairyland.

till the end.

The spiritual energy of the entire fairy world is being pulled towards Galaxy Island.

The shocking spiritual energy craze lasted for three thousand years.

And I don't even have the slightest intention of stopping.

As time passes slowly.

The Dao Ancestors also gradually became a little anxious.

Everyone stood on the Milky Way Peak and couldn't help but look at each other.

I've never seen this happen before.

Zhang Yuhe hasn't even started to break through yet.

How could this spiritual energy frenzy be so violent?

...

Chapter 590 Promotion to Dao Ancestor

The spiritual craze triggered by Zhang Yuhe lasted for three thousand years.

And there is no sign of stopping yet.

This made the Taoist ancestors staying on Galaxy Peak a little bit unable to sit still.

even though.

Breaking through the realm of Tao Ancestor is indeed not that simple.

Except for those terrible thresholds.

It is normal for the entire breakthrough process to last for hundreds of years.

But like Zhang Yuhe.

It has lasted endlessly for three thousand years, and we don't know how long it will end.

This is a bit beyond everyone's awareness.

Everyone looked into the distance.

Cang Yue Daozu suddenly turned his head and asked Li Tianxing.

"Brother Tianxing, when you had your breakthrough, how long did it last for?"

Li Tianxing pondered silently for a while, and then slowly spoke.

"It's been so long ago that I can't even remember it clearly."

"It should be around five hundred years."

Cang Yue Daozu Dao sighed, and then said softly.

"If I am not mistaken."

"When I made my breakthrough, the whole process probably lasted more than 360 years."

"I have never seen a situation like that of the Galaxy Immortal King, which has lasted for three thousand years without a formal breakthrough."

"yes."

Everyone agreed.

Everyone, you say something to me.

Slowly recalling the process of my breakthrough back then.

To sum it up.

They were more than thirty Dao Ancestor Emperors when they were making a breakthrough.

The entire continuous process basically did not exceed five hundred years.

Even if there is an error, it is not much different.

Just at this time.

An Tianzuo suddenly spoke.

"When I made a breakthrough, it lasted less than eight hundred years."

"I have done some research on this issue."

"The duration of breaking through to the Dao Ancestor Realm may be related to personal talent, the techniques practiced, the laws comprehended, etc."

"In general, the stronger one's talent is, the more advanced the techniques he practices, and the more powerful the laws he understands."

"Then when you break through to the Dao Ancestor Realm, it will last longer."

"If I am not mistaken."

"When one of the three supreme geniuses broke through to the Dao Ancestor realm."

"The whole process lasted for nearly a thousand years."

"It's a pity that when he was going through the tribulation later, he couldn't survive it."

Hearing An Tianzuo's words.

Everyone was silent.

If An Tianzuo's speculation is correct.

So Zhang Yuhe's breakthrough lasted for a long time, which is actually a good thing.

Because that's what it means.

As long as the breakthrough is successful, Zhang Yuhe's strength will become extremely terrifying.

If that's the case

Then after Zhang Yuhe breaks through, it is entirely possible to defeat the Supreme True God.

Just like this.

So what should we do in the next catastrophe?

The duration of the entire breakthrough process is so long.

It's hard for everyone to imagine.

The calamity that Zhang Yuhe will face next will be terrible.

Originally after the Renshui thunder absorbing array was opened.

Everyone is not too worried about Zhang Yuhe crossing the tribulation.

Just now...

It seems a bit unclear.

As time passes slowly.

The spiritual craze triggered by Zhang Yuhe became more and more fierce.

Almost the entire fairy world's fairy energy is rushing towards the Milky Way Island.

Many monks who were in retreat were swept away by Zhang Yuhe because of their spiritual energy.

And had to go to end the retreat.

Countless monks walked out of the cave and looked silently at the South China Sea Immortal Realm.

Many people know it.

This should be the Galaxy Immortal King, who is breaking through the realm of Tao Ancestor.

After all, Zhang Yuhe had never deliberately concealed his breakthrough.

And the original migration of the South China Sea Immortal Territory.

There was such a big commotion.

Even if he wanted to hide it, he couldn't.

Immortal Lords and Immortal Kings who have some knowledge only need to think about it for a moment.

You can make a rough guess.

Zhang Yuhe sat cross-legged on the high platform and silently circulated the Hunyuan Scripture.

He paid no attention to the changes in the outside world.

At this time, above his Dantian Sea, the surface of the mini Yuanying was emitting a faint golden light.

A huge tree that supported the sky slowly revealed its shape in the ten acupoints.

A mysterious aura gently flowed between the branches of the tree.

In the center of the Dantian Sea, a huge land had become more and more solid.

These were all signs of breaking through the Daozu realm.

But Zhang Yuhe knew.

He was still a long way off.

This was just the beginning.

Section 799

...

Time passes slowly.

I don't know how much time has passed.

Just at this time.

The mini Nascent Soul in Dantian suddenly opened its eyes.

A burst of intense golden light slowly bloomed on the surface of Nascent Soul.

As the golden light swept across the Dantian sea.

The entire Dantian sea seemed to be covered with a layer of golden clouds.

The tree of law contained in the aperture also began to slowly unfold.

The originally illusory tree of laws has become somewhat substantial.

It's like it's a real giant tree.

And it is located in the middle of the Dantian sea.

On that huge land.

The mountains and rivers are already clearly visible.

It was as if it was a real continent.

Along with the surface of Nascent Soul, golden light bloomed.

The spiritual energy craze around him became more and more fierce.

Boom...

A silent sound of the great avenue suddenly sounded in Zhang Yuhe's ears.

Zhang Yuhe slowly opened his eyes.

He muttered to himself.

"Is this the beginning of a breakthrough?"

He glanced quickly at himself.

I saw that the huge Dantian sea was expanding rapidly.

If.

Originally, his Dantian was as wide as the ocean.

So now.

His Dantian has the tendency to evolve into a boundless universe.

Zhang Yuhe slowly closed his eyes and silently circulated the Hunyuan Scripture.

With the rapid expansion of Dantian.

The surrounding fairy energy quickly gathered in the dantian like a violent storm.

Another long time passed.

This spiritual energy frenzy that lasted for nearly a hundred thousand years dissipated in an instant.

Zhang Yuhe stood up slowly.

At this time, a powerful aura continued to rise on his body.

Astonishingly, he has been promoted to the realm of Dao Ancestor.

The terrifying coercion quickly swept from Galaxy Island to the entire fairy world.

At this time, all the monks in the fairy world had a mysterious feeling.

Everybody knows.

A new Taoist ancestor was born in the immortal world.

Zhang Yuhe was silent, feeling the changes in himself.

While looking up to the sky.

I saw dark clouds all over the sky gathering quickly, and the terrifying sound of thunder came along with the rolling dark clouds.

The dark clouds in the sky started from Galaxy Island and quickly spread to the entire fairyland.

After a while.

The entire fairy world was shrouded in dark clouds.

The dull breath oppressed the entire fairy world.

It was as if something terrible was brewing.

This terrible thing seems to destroy the entire fairy world.

Looking at such a terrifying vision in the sky.

Zhang Yuhe muttered to himself.

"There seems to be something about this catastrophe."

At this time he had a strange feeling.

It seemed that what he was about to face was not an ordinary disaster.

Instead, you need to fight against the entire world.

It seems that the power of a world is about to overwhelm.

...

Chapter 591 The world-destroying catastrophe!

Dark clouds filled the sky, pressing down on the entire fairy world.

Seeing such a shocking sight.

Countless monks walked out of the cave.

Everyone gathered in small groups, discussing something in a low voice.

"Brother Wu, does he know what caused this shocking vision?"

"No need to ask, didn't you feel it just now?"

"This is a powerful man who has been promoted to the realm of Tao Ancestor."

"It's just that we don't know yet which Immortal King has made the breakthrough just now."

"It should be the Galaxy Immortal King."

"In the past two million years, there has been so much movement in the Dao Sheng Sect."

"All the monks from the entire South China Sea Immortal Domain migrated to the Chaos Continent."

"It is said that it is to make room for the Galaxy Immortal King to overcome the tribulation."

"The talent of the Galaxy Immortal King is truly terrifying."

"I heard that he has been cultivating for only 30 million years, and he actually broke through and became the Dao Ancestor Emperor."

"Yeah, I think I was trapped for hundreds of millions of years in the early days of Taiyi Realm."

"The Galaxy Immortal King is able to progress bravely and diligently all the way, as if there is no bottleneck."

"It's really enviable."

"Who says it isn't?"

"Galaxy Immortal King, oh, no, I should call him Galaxy Daozu now."

"It's too early to say this. Only when he successfully survives the catastrophe can he be considered a true Taoist ancestor."

"Ordinary heavenly tribulations are extremely terrifying, let alone the Dao Ancestor heavenly tribulation."

"I don't know if the Galaxy Immortal King can handle it."

"It might work."

Countless monks looked silently at the direction of the South China Sea Immortal Domain in the distance.

They are either looking forward to it, envying it, or jealous.

Thoughts vary.

In the middle of the distant sea of origin.

A huge crocodile monster corpse was floating quietly on the lake.

The vision of the Heavenly Tribulation spread rapidly and soon reached here.

Just at this time.

A faint shadow slowly rose from the top of the crocodile monster's head.

snort.....

At this time, the Supreme True God was in a very unhappy mood.

In order to lock the soul into being.

This has been keeping myself in a deep sleep state as much as possible.

However, I don't know what happened recently.

There are always various things that wake it up from its deep sleep.

Huh.....

The Supreme True God looked into the distance, looking at the terrifying vision of heavenly tribulation in front of him.

It couldn't help but let out a soft "eh".

"Is there a cultivator going through a tribulation?"

Section 800

"It seems to be that damned boy."

"Hmph, I wonder how you can get through such a fierce heavenly tribulation."

"Well, let the heavenly tribulation kill that boy directly, and save me a lot of trouble."

The Supreme True God just glanced at the distance and soon knew what happened outside.

Originally, it thought.

Zhang Yuhe was powerful and might cause it some trouble in the future.

If it didn't merge with the divine body, it really had no way to deal with Zhang Yuhe.

But when it saw the terrible heavenly tribulation in front of it.

The Supreme True God felt.

It no longer had to worry about this matter.

Because Zhang Yuhe would definitely be killed by the heavenly tribulation.

"The prodigies of the primitive world are really pitiful. The heavenly tribulation is the threshold that they cannot cross."

In the long river of history.

The Supreme True God has seen too many peerless prodigies in the fairy world.

But without exception, these people were killed by the heavenly tribulation.

Otherwise,

How can it stay here so peacefully to recover and recuperate?

Thinking of this.

The face of the Supreme True God could not help but show a gloating smile.

...

Yinghe Fairy City, Yitian Mansion.

Wu Yiyi looked at the terrible heavenly tribulation in the sky, and her heart was silent.

After a long while.

She murmured to herself.

"Zhang Yuhe, don't be killed by the heavenly tribulation."

"I'm still waiting for you to take me back to the Chaos Sea."

Yinhe Peak.

At this time, all the Daozu Emperors were completely stunned.

They had known for a long time.

Once Zhang Yuhe broke through to the Daozu realm, the next heavenly tribulation would be extremely terrifying.

But no one expected it at all.

The heavenly tribulation that Zhang Yuhe brought down would be so terrible.

It hasn't even started yet.

The heavenly tribulation is still brewing, and its power is already so terrible.

The dark clouds in the sky completely enveloped the entire fairy world.

Such a situation was unheard of by everyone.

How could there be such a terrible heavenly tribulation?

It was just like the end of the world.

If they hadn't known in advance that Zhang Yuhe was breaking through the tribulation.

They might have thought that the destruction of the era might come early.

Looking at the situation in front of them.

Li Tianxing muttered to himself.

"One hundred thousand years, the breakthrough process of Sect Master Zhang lasted for a full hundred thousand years."

"So the heavenly tribulation he brought down would become so terrible?"

The Dao ancestors beside him were silent.

No one responded.

Because this really touched their blind spots in knowledge.

No one had ever seen such a terrible scene.

To be honest.

When the spiritual energy frenzy was surging fiercely before.

They were a little happy.

Because the longer the spiritual energy frenzy lasted.

It means that Zhang Yuhe absorbed more energy when he broke through.

After the breakthrough.

Zhang Yuhe's strength will definitely be stronger.

The stronger the strength, the better.

After all, there is the Supreme True God, this obstacle blocking their way out.

If Zhang Yuhe's strength is not strong enough.

Then how can this obstacle be removed?

Zhang Yuhe's entire breakthrough process lasted for nearly 100,000 years.

During this period, everyone was not too worried.

They were still looking forward to.

Wait until Zhang Yuhe successfully breaks through.

How terrible will his strength be.

However.

Looking at the terrible heavenly tribulation in front of them.

The mood of the Daozu instantly sank to the bottom.

This is not a heavenly tribulation.

This is the catastrophe of the destruction of the world.

Compared with the heavenly tribulation in front of them, the might of the phantom of the Supreme True God is simply not worth mentioning.

In other words.

The heavenly tribulation Zhang Yuhe faces is far stronger than the Supreme True God.

Everyone no longer has confidence.

Even if they saw the magnificent momentum of the Renshui Absorbing Thunder Array on the Galaxy Island.

They still have no confidence.

Because this heavenly tribulation looks really scary.

This is not like a test from heaven to cultivators.

It is purely to wipe out Zhang Yuhe.

Everyone looked at the direction of the Milky Way Island in the distance, and prayed silently in their hearts.

They hoped that Zhang Yuhe could successfully survive this terrible heavenly tribulation.

Although this hope is already very slim.

But everyone still wondered if there would be a miracle.

After all, Zhang Yuhe's existence itself is a great miracle.

In their opinion, it is impossible for anyone to survive this heavenly tribulation.

Maybe Zhang Yuhe can withstand it.

In fact.

They don't know what kind of trump cards Zhang Yuhe has.

If Li Tianxing hadn't asked Zhang Yuhe for help last time.

No one knows.

Zhang Yuhe, a Daluo Immortal King, actually has such a strong strength.

He can sweep away hundreds of supreme chaos beasts.

Now more than two million years have passed. Who knows if Zhang Yuhe's strength has been improved by leaps and bounds?

If you think about it this way.

Maybe Zhang Yuhe can really survive this heavenly tribulation.

Even though they thought so.

The Dao Ancestors still just stared into the distance silently, and no one spoke.

...

Chapter 592 It's so easy

Zhang Yuhe stood on a high platform, nine immortal swords surrounded him, slowly flowing.
