Section 80

After flying out of the Yunmang Mountains, Zhang Yuhe even ran around to several surrounding cities.

It was discovered that there was no beast wave outbreak this time.

Perhaps it was because of the last catastrophe that the monsters in the Yunlang Mountains were frightened.

Those high-level monsters may have migrated to other places, far away from the vicinity of Thunder Lake.

As for those weak monsters, they had long been frightened by the calamity and were lying on the ground, unable to run away.

Naturally, there is no way to start another wave of beasts.

This is good, as it will save you some sins.

The two flew forward quickly.

Along the way, Li Tian was silent.

Seeing Zhang Yuhe's brave and diligent cultivation, he broke through to integration so quickly.

And facing the terrifying Nine Heavens Divine Thunder, Zhang Yuhe remained unharmed.

Thinking of these, Li Tian felt a little yearning.

"This is what cultivation should be like."

Li Tian secretly made up his mind to practice harder in the future.

He felt that Zhang Yuhe was able to break through quickly because of his incredible qualifications.

But more importantly, work hard enough.

Apart from practicing in seclusion, Zhang Yuhe would never do anything meaningless.

Unlike other monks, they are proud of their breakthroughs.

Even if you occasionally succeed in refining a treasure, you have to celebrate it grandly.

How can anyone like Zhang Yuhe, who has only been practicing Taoism for more than two hundred years, break through to the realm of integration, but he is completely indifferent.

There was no surprise after the breakthrough, and no ostentatious move.

Suddenly, Li Tian asked Zhang Yuhe.

"Uncle Zhang, the sect master ordered the formation of demon-suppressing armies in various places. Do you know about this?"

"Know."

Zhang Yuhe was a little uncomfortable hearing Li Tian's words of "Master's uncle".

Li Tian calls him Uncle Master, so why should he call him Li Tian?

Could it be called Master Li's nephew?

It feels a little weird.

"I wonder what Uncle Master thinks about this matter?"

"What else can you think of? Just practice hard. No matter what happens in the future, strength is the foundation for your own footing."

Zhang Yuhe responded calmly.

Feng Xiaotian ordered the formation of demon-suppressing armies in various places, which obviously meant that something big was going to happen.

Maybe the Dao Sheng Sect got the information and the demons might invade in a big way?

That's why Fengxiao Genius would do this.

And from some other details, we can also get a general idea.

For example, Dao Sheng Sect suddenly strengthened its efforts in cultivating its disciples.

The inner disciples' years of merit have been changed from one point per year to five points.

If you go out to serve as a garrison envoy, you will receive ten points of merit a year.

The meritorious service that outer sect disciples can obtain by completing tasks has also been greatly improved.

However, the items exchanged for merit did not increase in price.

Not only that, according to the information provided to him by Wang Guofeng.

Things that the outside world couldn't buy originally, such as high-level skills and supernatural powers.

Now as long as you have enough spirit stones, you can buy them.

There are general signs that Feng Xiaotian is trying every means to improve the overall strength of monk Yu Fantian.

As for why he would do this.

There is only one reason, and that is that Yu Fantian is about to face a great disaster.

It is precisely because of this that Genius Feng Xiao will spare no effort to enhance Yu Fantian's overall strength.

Combined with some time ago, the Demon God Cult caused two demonic disasters in a row.

It's easy to come to the conclusion.

Maybe the demon army is really coming soon.

The storm is coming, and the wind is filling the building.

The catastrophe that happened one hundred thousand years ago may happen again soon.

Hearing Zhang Yuhe's words, Li Tian admired him.

No matter how the wind blows from the southeast to the northwest, I will not be able to cultivate on my own.

As long as you practice until you are strong enough.

No matter how big the storm is, it doesn't matter.

...

After a while, the two of them quickly returned to Dao Sheng Sect.

They went out quietly and returned quietly.

The whole Dao Sheng Sect had no idea that there was another Fusion Realm elder in the sect.

Zhang Yuhe didn't mean to keep a low profile.

It's just his nature.

It's just a breakthrough to the combined state, so there's no need to make it public.

After returning to the cave.

Zhang Yuhe first promoted the natal magic weapon to the top grade Tongtian Lingbao.

Then he re-refined the array plates and array plates required for the Five Elements Spirit Gathering Array.

He has already prepared the materials.

A few days later.

Zhang Yuhe walked out of the weapon refining room, came to the training platform and sat down slowly.

He waved his right hand, and five powerful formation flags flew around.

Take out the array disk and activate the third level Five Elements Spirit Gathering Array.

According to the description on the jade slip, the third-level Five Elements Spirit Gathering Array can increase the speed of cultivation five times.

"I hope I can break through to the Mahayana realm as soon as possible."

Zhang Yuhe muttered silently to himself.

Yu Fantian is about to face a catastrophe.

As an elder of Daosheng Sect, he naturally cannot stay out of the matter.

Although Zhang Yuhe is a player from Blue Star, he can choose to go offline and avoid it.

But he had no such idea at all.

Daosheng Sect provided him with a good cultivation environment, so he should fight for the sect.

This is a responsibility and a cause and effect.

If he chooses to go offline and avoid it, his thoughts may be difficult to understand.

To put it simply, it means that the mood is not going well.

People who practice Taoism pay attention to great freedom.

The mood is not smooth and one cannot feel at ease.

Then what's the use of cultivating Taoism?

Zhang Yuhe sat cross-legged on the training platform.

As the Hunyuan Heavenly Scripture circulates, the surrounding spiritual energy quickly gathers into the Dantian.

Five times the cultivation effect is indeed very powerful.

However, after a while, Zhang Yuhe opened his eyes and muttered to himself.

"Is the cultivation of the Fusion Realm so slow?"

Through the practice just now, he made a rough estimate.

Even with the blessing of the third-level Five Elements Spirit Gathering Array, I want to cultivate to the perfection of unity.

It may still take eight or nine hundred years.

It's too long.

I don't know if I can break through to the Mahayana realm before the demon army arrives?

The road to cultivation is one step at a time, and the further you go in cultivation, the more difficult it becomes.

Zhang Yuhe has been practicing for only more than two hundred years.

However, it would take eight to nine hundred years to break through from the integration to the Mahayana realm.

Of course, this is just his rough estimate and may not be accurate.

And this does not include the time of card bottleneck.
