

## **Top talent 801**

Section 801

He looked up into the sky.

I saw the dark clouds getting denser and denser.

Thick clouds seemed to be pressing on top of his head.

Not only that.

As the situation changes.

The clouds, which were originally as dark as ink, gradually shone with a burning golden light.

slowly.

The clouds turned golden.

The golden clouds are like the sea, covering the entire fairy world.

Golden clouds gather quickly.

After a while.

Just above Galaxy Island, a huge vortex formed.

The golden vortex stretched across the sky, as if it were a huge eye.

Looking down at Zhang Yuhe on the high platform.

Exploding thunder sounds continued to come from the golden vortex.

It's like something terrifying is ready to burst out of the sky at any time.

The terrifying divine power quickly spread to Galaxy Island along the golden vortex.

At this time, Zhang Yuhe felt as if he had a whole world weighing on his head.

The power of the entire world is quickly attacking him.

despite this.

Zhang Yuhe still looked calm.

Although the power of this calamity does seem very extraordinary.

A little too fierce.

But Zhang Yuhe was not too worried.

This is all to be expected.

It never occurred to him.

He can easily survive the catastrophe.

Based on past experience.

Every time he goes through a tribulation, doesn't the tribulation have to come up with some new tricks?

This Dao Ancestor Heavenly Tribulation is obviously no exception.

Zhang Yuhe had already been mentally prepared.

With his incredible talent.

When you are promoted to the Dao Ancestor Realm, it is strange that the catastrophe that befell you will be simple.

Zhang Yuhe looked up at the sky and murmured to himself.

"Come on, let me see how perverted this disaster can be."

Boom...

A loud roar came from the golden vortex.

The thunder was so terrifying that it seemed to silence the entire fairy world.

Just at this time.

The vortex in the sky suddenly burst into intense golden light.

Endless golden thunder emerged from the vortex and headed towards Zhang Yuhe on the high platform.

This is not one or two rays of thunder, nor is it a hundred rays and a thousand rays.

Almost at the same moment the thunder sounded.

Countless golden thunders filled Zhang Yuhe's vision.

In his eyes at this time.

Apart from the golden thunder, it seemed that nothing else could be seen anymore.

Endless golden thunder carries terrifying divine power.

It seemed like it was crushing everything.

"finally coming?"

Zhang Yuhe muttered silently to himself.

I saw him quickly using the magic formula.

A huge millstone appeared above Galaxy Island in an instant.

As the millstone slowly rotated, the golden thunder in the sky was gradually shattered.

Then it turned into nothingness and slowly disappeared without a trace.

See this situation.

Zhang Yuhe felt happy.

The art of Chaos Returning to the Void is indeed very powerful.

Even such a terrifying catastrophe can still be shattered into nothingness.

The only pity is.

The number of golden thunders that appeared this time was really too much.

Even if it was mostly shattered by the Chaos Returning to the Void Taoist Technique.

The remaining thunder was still rushing towards Galaxy Island.

Boom...

When the golden thunder arrived over Galaxy Island.

Layers of light blue light curtains vibrated slightly.

The endless golden thunder is constantly weakened and pulled by these blue light curtains.

Quickly slide towards the outskirts of Galaxy Island.

The scattered thunder bombarded the surrounding sea, making a loud noise that shook the sky.

Huge waves rose into the sky, turning everything upside down.

Zhang Yuhe stands on the high platform.

The Nine Heavens Hunyuan Sword Formation slowly unfolded.

However.

The remaining thunder was weakened layer by layer by the blue light curtain.

When they arrived at the head of Zhang Yuhe, there were only some thunder threads left.

You don't even need the Nine Heavens Hunyuan Sword Formation.

Zhang Yuhe blasted out his fist and destroyed the remaining thunder.

"This Heavenly Tribulation is a bit weak."

After a round of catastrophe.

Zhang Yuhe is safe and sound.

He didn't even use the sword formation.

With only one fist, he easily withstood this round of catastrophe.

He almost had an illusion.

Is this Heavenly Tribulation too weak?

It looks terrifying, but is it just an embroidered pillow?

Of course.

This ridiculous thought just popped into my head and disappeared quickly.

Zhang Yuhe knows.

The reason why he was able to withstand the first round of natural disaster easily.

It's not because Tianjie is weak.

It's because the ultimate version of the Renshui Thunder Absorbing Formation is indeed powerful enough.

After being intercepted and weakened by the formation light curtain.

No matter how powerful these golden thunders are, there won't be much left in the end.

not to mention.

At the very beginning, he also used the Chaos Return to Void Technique.

Most of the golden thunder was wiped out.

The remaining natural disasters will naturally not pose much of a threat.

Moreover.

Now the catastrophe has just begun.

The best is yet to come.

The Dao Ancestor Heavenly Tribulation is a protracted battle.

Section 802

When he was going through the Great Luo Heavenly Tribulation, he had to carry it for three full days.

According to classic records.

The duration of Dao Ancestor's Heavenly Tribulation was ninety-nine days.

It's still very early.

The golden thunder just now was just an appetizer.

The real test is yet to come.

Zhang Yuhe raised his head and looked into the sky.

I saw the blue light curtain held up by Renshui's thunder-absorbing array, safe and sound.

The light curtains layer upon layer and flow slowly.

Zhang Yuhe, the first loyal person who designed this tribulation formation, wanted to achieve a weakening effect.

Rather than a head-on interception.

It is precisely because of this.

No matter how powerful the Heavenly Tribulation is, it will be difficult to break through the Renshui Thunder Absorbing Formation.

The power of water is extremely soft.

And if you can't stop it, let it go.

I won't bear it with you.

Facing such a formation, how could it be easily damaged?

After a while.

The second round of heavenly calamity quickly surged from the vortex.

This time, Zhang Yuhe did not use the Chaos Returning to the Void technique.

Although the power of Taoism is indeed powerful enough.

Even the catastrophe can be erased.

However, the consumption of performing Taoist magic is really not small.

The entire process of overcoming the tribulation will last for ninety-nine days.

Even if Zhang Yuhe has abundant immortal energy, it cannot be consumed at will.

Just tested it.

Just know it works.

Next, let's use the sword formation and take it slowly.

Wait until the heavenly tribulation reaches the final stage, and then use the Chaos Return to Void Technique.

Boom...

The golden thunder passed through the light curtain again and headed towards Zhang Yuhe on the high platform.

The remaining power of these thunders is slightly stronger than before.

But it's also very powerful.

Zhang Yuhe opened the sword array.

Golden thunder bombarded the sword array light curtain.

The sword array light curtain trembled slightly for a few times, and soon returned to normal.

The remaining golden thunder failed to shatter even a layer of sword energy light curtain.

Don't take it too easy.

In general.

The power of the Heavenly Tribulation is not too strong now.

As for Zhang Yuhe.

That's right.

He only needs to use a little strength to easily withstand the catastrophe.

The sword formation slowly unfolded and continued to extend into the distance.

Zhang Yuhe stood on the high platform, quietly waiting for the next round of catastrophe to arrive.

...

### Chapter 593 The Ancestor's Unparalleled Power

The golden thunder, carrying the world-destroying power, continued to strike towards Galaxy Island.

However, Zhang Yuhe, who was standing on the high platform, was relaxed and happy at this time.

He had absolutely no expression of nervousness or exertion on his face.

A huge sword array slowly unfolded around him.

The sword energy light curtains are layered one upon another, extending to the outskirts of Galaxy Island.

Those terrifying golden thunders, after being continuously weakened by the Renshui Thunder Absorbing Formation.

Even the outermost sword energy light curtain cannot be shaken.

That being the case.

What does Zhang Yuhe have to worry about?

Completely rock solid.

At least for now.

...

After the catastrophe began to fall.

The shocking coercion that originally shrouded the entire fairy world was concentrated in the direction of Galaxy Island.

Everyone felt relieved and looked towards the South China Sea Immortal Realm.

I saw that the sky above the distant South China Sea Fairyland looked like the end of the world.

The golden light splits the sky, and the thunder shines across the world.

However, because the distance is too far, no one can see the specific situation on Galaxy Island.

No one knows what Zhang Yuhe's current situation is.

Galaxy Peak.

The Taoist ancestors looked into the distance with heavy hearts.

Dao Ancestor Cang Yue closed his eyes slightly and kept pinching the magic formula in his hand.

In front of him.

A Bagua disk rotates rapidly.

Every Taoist ancestor has his or her own expertise.

Like Cang Yue Daozu, he is good at calculating cause and effect.

Because the distance is too far, no matter what means they use.

It is also impossible to see the situation on Galaxy Island in the distance.

until.

Cang Yue Daozu planned to use calculation techniques to try to calculate the outcome of Zhang Yuhe's tribulation.

puff.....

Sudden.

Cang Yue Daozu spit out a mouthful of blood.

Seeing such a situation, everyone couldn't help but be shocked.

Li Tianxing, who was next to him, quickly asked.

"Cang Yue, how is the situation? Has the result been calculated?"

Daozu Cang Yue took a deep breath and calmed down the overflowing breath a little.

After a while.

He just opened his eyes, shook his head and said.

"I can't count anything. I only saw the horrific scene of world destruction."

"As for the outcome of Sect Leader Zhang's tribulation, it is completely impossible to predict."

Hear this.

Everyone looked indifferent.

In their opinion, there is no need to deliberately calculate.

Hovering over the South China Sea Immortal Territory is the terrifying image of world destruction.

It was simply impossible that anyone could survive.

Before, everyone was full of confidence in Zhang Yuhe's ability to overcome the tribulation.

Now no one is optimistic about it.

This catastrophe is really terrible.

Although there were once three supreme geniuses who led the Tao Ancestor's calamity to come.

But the calamity they faced was compared to Zhang Yuhe.

Totally childish.

Section 803

Everyone couldn't understand it at all.

They were both supreme geniuses.

Why was the heavenly tribulation that Zhang Yuhe brought down so terrible?

Could it be because Zhang Yuhe had comprehended more supreme laws?

Everyone looked into the distance, their expressions silent.

They had never seen such a scene before.

The sky was full of golden clouds, and thunder destroyed the world.

This was completely leaving no way for people to survive.

After a long while.

An Tianzuo spoke lightly.

"Let's wait for the result slowly. It's useless for us to be anxious here."

"The heavenly tribulation has just begun now. With the strength of Sect Master Zhang."

"Even if the heavenly tribulation is fierce, he will definitely be able to survive the previous period."

"I'm afraid of the last day."

"Yes, the Daozu heavenly tribulation lasts for ninety-nine days."

"On the last day, the power of the heavenly tribulation will be almost ten times stronger."

"The heavenly tribulation is so terrible now."

"Ten times the power, I dare not even think about it."

The Daozu stood on the top of the mountain, silently looking into the distance.

...

Yitianfu.

Wu Yiyi stood in the air.

The shadow of a giant tree that covered the sky slowly unfolded behind her.

With the shadow of the Enlightenment Tree.

She finally saw the scene on the Galaxy Island clearly.

"Hey, it seems very relaxed."

Wu Yiyi looked at the Galaxy Island in the distance with the help of the Enlightenment Tree.

Zhang Yuhe stood on the high platform, and nine immortal swords opened layers of light curtains.

He was firmly protected in it.

As for the terrifying golden thunder.

After being weakened by the Renshui Thunder Absorption Array, it couldn't even reach Zhang Yuhe.

It was stopped by the sword energy light curtain billions of miles away.

Seeing this situation.

Wu Yiyi couldn't help but feel happy.

She murmured to herself.

"It's a pity that this girl was still worried for a long time. I'm afraid you will fall asleep during the tribulation."

Wu Yiyi waved her hand.

The shadow of the tree slowly dissipated.

She happily landed in Yitian Mansion, then sat on the swing, gently swinging.

At this time, Wu Yiyi's mood was completely joyful.

Zhang Yuhe had no worries about overcoming the tribulation.

This meant that she would be able to go back soon.

She could return to the Chaos Sea.

That was her hometown.

And only in the Chaos Sea could she practice and improve.

A low-level primitive world like the Immortal Realm was not enough to support the practice of the True God Realm.

Wu Yiyi had been trapped in the Immortal Realm for billions of years.

She had long been bored.

Now she finally saw the hope of leaving.

How could she not be happy.

The swinging swing at this time was just like her mood.

It revealed a sense of ease and joy.

...

To the north of the Galaxy Immortal City, the mountains stretched endlessly.

Since the establishment of the Immortal City.

The disciples of the Daosheng Sect usually set up their own caves.

In these mountains.

At this time.

Almost all the disciples walked out of the caves.

Everyone looked at the direction of the Milky Way Island in the distance.

They knew.

Their legendary leader was facing a terrible heavenly tribulation.

Although everyone was full of confidence in Zhang Yuhe.

But looking at the shocking vision in the distance, everyone was still a little worried.

Yang Yueyue stood quietly above the hall.

At this time.

Li Tian floated to the side.

He smiled and said.

"Junior Sister Yang, are you also worried about the leader?"

Yang Yueyue shook her head gently, and then responded lightly.

"I never worry."

"The ancestor is so talented that nothing in this world can stop him from moving forward."

"Not even the heavenly tribulation."

Unlike other people.

Yang Yueyue has always called Zhang Yuhe [Ancestor].

In her impression.

Zhang Yuhe will always be the omnipotent ancestor she met in Kunlun Immortal City.

Even though she has now been promoted to Daluo Immortal.

Yang Yueyue still remembers.

The scene when she met Zhang Laozu in Kunlun Immortal City.

If it weren't for the Laozu who rescued her.

Maybe they would have died somewhere inexplicably.

The Laozu not only saved her life.

He also taught her the Supreme Immortal Canon [Taiyin Immortal Canon].

Yang Yueyue has been practicing this supreme technique in the immortal world until now.

Not only that.

The Laozu also sealed three special marks on her body.

During Yu Fantian's years of practice.

She encountered danger twice, both times relying on activating the marks sealed by the Laozu.

That's how she escaped.

The last mark left, Yang Yueyue has kept it until now.

Although after ascending to the immortal world.

This mark with only the power of a true immortal has no effect on her.

But Yang Yueyue never thought of getting rid of this mark.

Instead, she kept it silently.

This is what the peerless Laozu left for her.

She will follow this mark and keep following the footsteps of the ancestor.

Until eternity.

Yang Yueyue looked into the distance, her mood was calm.

Although the heavenly tribulation is strong.

Section 804

But the ancestor's unparalleled power is not something that can only be achieved by a mere natural disaster.

Different from others.

Yang Yueyue never had any worries.

Maybe this is out of a kind of inexplicable worship.

...

Chapter 594 Be prepared at any time

Hearing Yang Yueyue's words, Li Tian couldn't help but smile.

Like Yang Yueyue, he was full of confidence in Zhang Yuhe's ability to overcome the catastrophe.

Different from other people.

It can be said that Li Tian watched Zhang Yuhe grow up to where he is now step by step.

Back when Zhang Yuhe was just starting out in the Yufan Tiandao Sect.

He is already the Great Perfection of God Transformation.

However, Zhang Yuhe made rapid progress and soon caught up.

The two of them were promoted to the Void Refining Realm at the same time and became the elders of the Dao Sheng Sect.

Later, Zhang Yuhe became even more out of control.

Whenever Li Tian thinks about his experience of protecting Zhang Yuhe during the tribulation, he can't help but laugh.

This sect leader of my family, my former junior brother, is really not an ordinary person.

How could it be possible to defeat him in a mere Dao Ancestor Heavenly Tribulation?

Although this catastrophe seems to be a bit ridiculously strong.

But was there any of the catastrophes Zhang Yuhe had gone through in the past that was not outrageous?

Wasn't it all in the end, did you get through it smoothly?

Even after the tribulation.

Li Tian had never seen the slightest sign of embarrassment in Zhang Yuhe.

This indicates that.

Every time he faced a natural disaster, Zhang Yuhe was always at ease.

Didn't feel any pressure.

Li Tian believes.

It's the same this time.

He had watched Zhang Yuhe cross the tribulation too many times.

There has never been an accident.

It is precisely because of this.

There is no need to worry about being a genius.

Seen too much.

What's there to worry about?

The emperor is not in a hurry, does he want the eunuch to die in a hurry?

The two of them stood high above the main hall, their expressions indifferent.

There was no trace of nervousness at all.

...

Time passed slowly.

The catastrophe in the direction of Galaxy Island has been continuing.

The divine power of the Heavenly Tribulation overwhelms the heaven and the earth, enveloping the entire South China Sea Immortal Territory.

Except Galaxy Island.

In the entire South China Sea Fairyland, there are no more islands that can still be preserved intact.

All these islands were crushed into ashes by the divine power of the Heavenly Tribulation.

Just a hint of the remaining power of the heavenly calamity.

Destroy all the islands in the South China Sea Immortal Domain.

The horror of Dao Ancestor's Heavenly Tribulation can be seen from this.

Tsunamis soaring into the sky and huge waves tens of thousands of feet high continued to sweep through the entire South China Sea Immortal Territory.

Galaxy Island is because it has been specially transformed and protected by formations.

That's why it can barely be preserved.

As for other places.

It has long since become the same as the original sea.

All turned into nothingness.

Apart from the endless sea water and huge waves, there is no other scenery to be seen.

Zhang Yuhe stands on a high platform.

The golden thunder passed through the blue light curtain and quickly bombarded the outer sword energy defense circle.

The dense defensive circle shook violently.

The layers of sword energy light curtains were shattered by golden thunder.

Zhang Yuhe kept urging the immortal power to replenish the sword energy light curtain.

After passing through one-third of the sword energy light curtain, the golden thunder began to gradually dissipate.

See this situation.

Zhang Yuhe said silently to himself.

"It's the last day, and the power of the heavenly tribulation has indeed become stronger."

As time goes by, the power of the heavenly tribulation is gradually increasing.

However, in the early stage, it was not obvious that the Heavenly Tribulation was strengthened.

After being weakened by the Renshui Thunder Absorbing Array.

Zhang Yuhe could easily block it by relying on the defense of the Nine Heavens Hunyuan Sword Formation.

But as of today.

It doesn't seem to work.

Because today is the last day.

The power of the Heavenly Tribulation is now incredibly powerful.

Even with the defensive capabilities of the Nine Heavens Hunyuan Sword Formation, it was still penetrated layer by layer.

It wasn't until one-third of the way through that it slowly stopped.

Zhang Yuhe knows.

He was reaching his limit.

If no measures are taken.

Maybe the next round of heavenly tribulation might hit him.

Of course he has a way.

Activating the magical power of Hunyuan Guiyi can increase your strength tenfold.

The defensive capabilities of the sword array can be greatly enhanced.

That would be enough to block the bombardment of the Heavenly Tribulation.

It's just that the duration of Hunyuan Guiyi's magical power is limited.

Zhang Yuhe doesn't know.

How long is there until the end of the catastrophe?

Not until the last moment.

Definitely can't use the ultimate move.

"In the next round of heavenly calamity, start using Taoism."

Zhang Yuhe thought silently.

Apart from being more expensive, Taoism has no other restrictions.

It's the last day anyway.

Zhang Yuhe believes it.

With his Dantian sea as vast as the universe, even if he uses Taoism continuously.

It should be able to withstand a day.

Zhang Yuhe raised his head and looked into the sky.

Boom...

Behind the golden vortex in the sky, it seemed that some kind of terrifying beast was brewing.

There were constant bursts of terrifying thunderous sounds.

Just at this time.

Countless golden thunders spurted out from the vortex.

Section 805

The golden light came straight towards Galaxy Island with its sharp power.

See this situation.

Zhang Yuhe quickly used the magic formula.

A huge millstone slowly appeared in the void.

As the grindstone rotates gently.

The golden thunder that shrouded the sky over Galaxy Island was quickly wiped out by more than half.

Zhang Yuhe was slightly happy.

The art of Chaos Returning to the Void is really a bit scary.

It has a bit of a strong flavor.

Even though the catastrophe at this time has been strengthened countless times.

But this magical power can still destroy the thunder.

to be honest.

Even Zhang Yuhe himself felt a little incredible.

The art of Chaos Returning to the Void is really too powerful.

He doesn't even know.

Where is the limit of this Taoism?

Is there no limit?

As long as his strength improves.

This Taoist magical power can be infinitely strengthened?

If that's the case.

That would be terrible.

Boom...

Just when Zhang Yuhe was still sighing.

The golden thunder has passed through the Renshui thunder-absorbing array and quickly bombarded the sword energy light curtain.

Just because of passing by, Taoism Chaos Guixu intercepted it in advance.

The remaining golden thunder only shattered several layers of sword energy light curtains.

It quickly dissipated without a trace.

"It's not difficult."

Zhang Yuhe raised his head to the sky, thinking silently in his heart.

It's the last day now.

He still didn't feel too much pressure.

If the Dao Ancestor Heavenly Tribulation was only of this extent.

Then it would be too easy for him to overcome the tribulation this time.

But Zhang Yuhe knew.

It's certainly not that simple.

Based on his past experience in overcoming tribulations.

The real test is actually the last round of heavenly tribulation.

The last time he was promoted to the Great Luo Realm.

The last round of catastrophe even destroyed the Renshui Thunder Absorbing Formation at that time.

If it weren't for him, he would immediately activate the Hunyuan Guiyi magical power.

At that time, he would be killed by that terrifying catastrophe.

so.

Although it's very relaxing now.

But Zhang Yuhe still didn't have any carelessness.

He stared at the golden vortex in the sky.

Once you find something is wrong.

Immediately activate the magical power of Hunyuan Guiyi.

The Dao Ancestor Heavenly Tribulation was not good at this time.

There is no fixed number of rounds.

Zhang Yuhe only knows.

The Dao Ancestor Heavenly Tribulation will last for ninety-nine days.

As for the specific number of heavenly tribulations, it's hard to say.

According to the power and interval of the heavenly tribulation, everyone is a little different.

He doesn't know either.

When will the last round of catastrophe come?

You can only be prepared at all times.

But there is one thing that Zhang Yuhe is very clear about.

When the last round of catastrophe occurs.

It will inevitably be accompanied by extraordinary visions.

He just needs to pay attention and observe.

You can definitely find it.

Don't worry about being attacked by a catastrophe.

The divine power of the heavenly calamity is brilliant.

How could he make such a ridiculous move as a sneak attack?

...

Chapter 595: Careless

Time goes to the last day.

Zhang Yuhe continued to use Taoism to return chaos to the void.

Before the golden thunder fell, most of it had been wiped away by Taoism.

Although the catastrophe has already reached its final stage.

The power is indeed very terrifying.

But Zhang Yuhe had the help of Taoism and could deal with it easily.

The remaining golden thunder passed through the Renshui thunder-absorbing array.

There is not much power left.

It was easily blocked by the Nine Heavens Hunyuan Sword Formation.

All around Zhang Yuhe.

Layers of sword energy light curtains extended to the outskirts of Galaxy Island.

The remaining golden tribulation only shattered the outermost layers of sword energy light curtains.

Slowly it dissipated.

In general.

This time, the Dao Ancestor Heavenly Tribulation has not appeared yet, posing a decent threat to Zhang Yuhe.

Another moment passed.

Boom...

Suddenly there was an explosion in the sky.

Zhang Yuhe raised his head and looked into the sky.

He couldn't help being surprised.

I saw the golden vortex in the sky suddenly exploded.

The golden vortex is expanding violently.

soon.

The entire sky was shrouded in golden vortex.

If.

at the beginning.

The golden vortex still looks like a devil's eye.

So now.

It has become an endless abyss.

A golden abyss.

If you look at it from a distance.

Golden vortices stretched across the sky.

Almost the entire South China Sea Immortal Territory is completely covered.

Section 806

All the golden clouds are rapidly gathering into the vortex.

Waves of terrible thunder continued to explode in the whirlpool.

See this situation.

Zhang Yuhe's heart trembled.

he knows.

This is the final stage.

What awaits him will be the most terrifying test.

Zhang Yuhe believes it.

The power of this final round of heavenly tribulation may be a hundred or a thousand times that of the previous one.

See this situation.

Zhang Yuhe did not dare to be careless in the slightest.

He decisively activated the Hunyuan magical power.

A terrifying aura continued to rise on Zhang Yuhe.

The first level, the second level, and the third level of the Virtual God Realm.

soon.

The aura of Zhang Yuhe.

From the newly broken-through Virtual God Realm, I rushed to the Virtual God Great Consummation.

There is even a faint tendency to rush to the true god realm.

This is Zhang Yuhe's strongest state.

In such a state.

Zhang Yuhe completely dared to confront the Supreme True God head-on.

Although the power of the Heavenly Tribulation is indeed far stronger than that of the Supreme True God.

But the Renshui thunder-absorbing array he deployed was not a vegetarian either.

No matter how powerful the disaster is.

As long as it passes through the Renshui Thunder Absorbing Formation, it will be weakened by more than half.

Zhang Yuhe went all out.

He believes it.

I must be able to bear it myself.

...

Galaxy Peak.

The Taoist ancestors looked in the direction of Galaxy Island with expressions of silence.

At this time, a huge golden abyss hung over the South China Sea Immortal Domain.

The golden abyss is so huge that it almost completely covers the entire fairyland.

They had never seen such a terrifying sight.

Or.

From the very beginning.

The calamity caused by Zhang Yuhe was beyond their imagination.

It's just that now it's become even more outrageous.

An Di Tianzuo said calmly.

"It's coming. This should be the last round of heavenly tribulation. I don't know if Sect Master Zhang can withstand it."

"I hope so."

Everyone looked into the distance, their hearts filled with expectations.

Originally at the beginning of the catastrophe.

Everyone is almost desperate.

However.

The Heavenly Tribulation bombarded Zhang Yuhe continuously for ninety-nine days, but Zhang Yuhe was helpless.

This makes everyone.

Hope was restored.

By this time they had understood.

Zhang Yuhe's strength must be far beyond their imagination.

Otherwise.

Facing such a fierce disaster.

It is impossible for Zhang Yuhe to be able to carry it for so long.

If it were them.

Facing such a terrible disaster.

They may not even be able to block it for one round.

But Zhang Yuhe persisted for ninety-nine days.

It is completely unimaginable to everyone.

How strong is Zhang Yuhe?

So now comes the problem.

There should be only one last wave left in the catastrophe.

Can Zhang Yuhe still be able to stop him?

No one has a bottom line.

Because everyone suddenly discovered it.

They knew nothing about Zhang Yuhe.

Everyone doesn't know Zhang Yuhe's strength, nor do they know where his limit is.

The impressions of the Taoist ancestors on Zhang Yuhe.

Still stuck.

When he swept through the supreme Chaos Beast.

But now it seems.

Zhang Yuhe's strength is obviously far more than that.

Compared with the disaster in front of me.

The Exalted Chaos Beast is nothing.

Not worth mentioning at all.

Everyone looked into the distance with a little more hope in their hearts.

I hope Zhang Yuhe can succeed.

at this time.

Almost all the immortal monks were silently looking towards the sky above the South China Sea Immortal Domain.

Look at the golden vortex that covers the sky and the sun.

Everyone knows it implicitly.

Now should be the most critical moment for the Galaxy Immortal King.

Just get over this hurdle.

Then the Galaxy Immortal King will become the true Galaxy Taoist.

Zhang Yuhe slowly activated the sword array while staring at the golden vortex in the sky.

Boom...

Sudden.

There was a violent explosion in the sky.

The golden vortex covering the sky suddenly exploded and turned into countless golden thunders.

The thunder is endless.

The entire South China Sea Fairyland is reflected into a golden ocean.

"go....."

Zhang Yuhe drank lightly.

Follow the magic formula and pinch it quickly.

A huge millstone slowly appeared in the void.

As the grindstone rotates gently.

A large amount of golden thunder was quickly wiped out and turned into nothingness.

However.

More golden thunder soon spread over.

It completely made up for the vacancy that was erased by Taoism.

"not good."

Section 807

See this situation.

Zhang Yuhe couldn't help being surprised.

he knows.

I was still careless.

Face the endless golden thunder.

Taoism is chaotic and has little effect.

Although there are indeed many thunders that have been wiped out.

But compared to the endless golden ocean.

Not worth mentioning at all.

That is to say.

Facing this last wave of ferocious disasters, Taoism was of little help.

It was purely a waste of his immortal power.

The only ones that can help him now are the Renshui Thunder Absorbing Formation and the Nine Heavens Hunyuan Sword Formation.

Boom...

Endless golden thunder rushed towards Galaxy Island quickly.

Zhang Yuhe thought about nothing.

He frantically mobilized the immortal power in his Dantian and continuously injected it into the sword formation.

The Nine Heavens Hunyuan Sword Formation is his last guarantee.

Once the Heavenly Tribulation completely breaks through the sword formation.

Then he will surely die.

Even if his immortal body has been transformed by the laws of chaos.

It is many times stronger than the ordinary Dao Ancestor Emperor.

But Zhang Yuhe understood.

It is completely unreliable to rely solely on the immortal body to withstand the catastrophe.

Even the remaining trace of the power of the Heavenly Tribulation can chop him into flying ash.

Zhang Yuhe frantically activated the sword array.

Layers of sword energy light curtains rapidly expanded into the distance.

In the end, it even spread beyond Galaxy Island.

However.

Facing the terrifying sea of thunder.

As soon as the sword energy light curtain extended out of Galaxy Island, it was instantly dissolved without a trace.

It's like snowflakes hitting the sun.

Before being weakened by the Renshui Thunder Absorbing Formation.

The power of these golden thunders is simply terrifying.

The defensive light curtain of the Nine Heavens Hunyuan Sword Formation cannot even block a single breath.

despite this.

Zhang Yuhe ignored it.

Still immersed in the sword formation crazily.

Regardless of whether it works or not.

First, expand the defensive range of the sword array as much as possible.

...

Chapter 596 Fairy sounds linger, and golden lotuses fall from the void!

Zhang Yuhe ignored it and frantically focused on activating the Nine Heavens Hunyuan Sword Formation.

He expanded the scope of the sword array as much as possible.

Even after extending out of Galaxy Island.

The sword energy light curtain will melt instantly.

Zhang Yuhe ignored it.

Because he knows.

The dissolution of the sword energy light curtain is not meaningless.

At least it can consume more of the power of the golden thunder.

The golden thunder is endless.

If he doesn't think of a way to intercept part of it on the periphery of Galaxy Island.

Zhang Yuhe was a little worried.

He was afraid that the Renshui Thunder Absorbing Formation would not be able to withstand it.

If that's the case.

Then he will be finished.

The Renshui Thunder Absorbing Formation was his source of confidence to withstand the catastrophe.

If even this great tribulation formation was shattered by the tribulation.

Then this last round of catastrophe.

He definitely couldn't handle it.

It is precisely because of this.

Only then did Zhang Yuhe think about trying his best to extend the Nine Heavens Hunyuan Sword Formation to the outside of Galaxy Island.

The farther and wider the sword array spreads, the better.

Boom...

Endless golden thunder quickly fell towards Galaxy Island.

Soon he came into contact with the blue light curtain on the periphery.

Layers of light curtains slowly flowed.

Golden thunder filled the sky, pressing down horizontally.

The blue light curtains supported by these Renshui thunder-absorbing arrays began to shake violently.

Fortunately, the current Renshui Thunder Absorbing Formation is far from what it was before.

Nearly ten million layers of light curtains are interlocking.

One layer within another.

Driven by the endless water source on the sea.

These blue light curtains have been flowing slowly and endlessly.

No matter how fierce, horizontal or numerous the golden thunder is.

These blue light curtains supported by the great tribulation formation were only shaking violently.

There are no signs of collapse.

The blue light curtain is endless, as if it exists eternally.

Let the calamity become more severe.

It can only pass through the light curtain.

It is impossible to directly smash these blue light curtains.

The power of water is so soft that it has no fear of destroying the breath.

The golden thunder quickly passed through the Renshui thunder-absorbing array and headed straight towards the high platform in the center of Galaxy Island.

Zhang Yuhe buried his head in urging the sword formation.

The layers of sword array light curtains were constantly being shattered, and then quickly restored.

The wave of golden thunder has not completely dissipated.

The second wave of golden thunder quickly passed through the blue light curtain.

Go straight to the high platform in the center of Galaxy Island.

Fortunately, after opening the magical power of Hunyuan Guiyi.

At this time, the defensive capabilities of the Nine Heavens Hunyuan Sword Formation were extremely astonishing.

Under the blessing of Zhang Yuhe's majestic immortal power.

Countless sword energy light screens have been steadily blocking the golden thunder from around him.

However, there is no end to the golden thunder.

I don't know when it will be.

The sky above the entire South China Sea Fairyland is completely a golden ocean.

Zhang Yuhe knows.

Unless all these golden oceans are consumed.

Otherwise.

His process of overcoming the tribulation this time cannot be said to be over.

Section 808

Zhang Yuhe didn't think about anything.

The outer Renshui lightning absorption array supported thousands of layers of blue light curtains.

The light curtain was as stable as Mount Tai.

In the inner circle of the Galaxy Island.

The sword energy light curtain supported by the Nine Heavens Hunyuan Sword Array.

There were countless layers.

Under the full urging of Zhang Yuhe.

After the sword energy light curtain was shattered by the heavenly tribulation, it quickly returned to normal.

Zhang Yuhe at this time.

Relying on these two large arrays, he fought a tug-of-war with the heavenly tribulation.

It depends on who can hold on to the end.

But Zhang Yuhe has confidence.

His vast Dantian sea, like the universe, provides the sword array with a vast and endless immortal energy.

Zhang Yuhe believes.

Only the blessing effect of the Hunyuan Guiyi magical power is still continuing.

He can keep going.

There is no need to worry about collapse due to insufficient successors.

As Zhang Yuhe's strength continues to improve.

The duration of the Hunyuan Guiyi magical power is no longer comparable to the past.

At the beginning.

The Hunyuan Guiyi magical power can only last for less than a quarter of an hour at most.

However, now.

Zhang Yuhe can make this magical power last for at least an hour.

He doesn't believe it.

The last wave of terrifying golden thunder can continue to bombard him for an hour.

It's not that perverted.

...

The golden thunder is like a storm, pouring madly on the Milky Way Island.

At this time, Zhang Yuhe is like a reef in the sea, standing firmly on the high platform.

The sky is full of golden clouds, thunder is raging, and the remaining power of the heavenly tribulation rolls up huge waves.

The doomsday scene swept across the entire South China Sea Fairyland.

I don't know when it will end.

Countless cultivators in the entire fairyland watched all this silently.

The shock in everyone's heart has long been beyond description.

On the Milky Way Peak.

The Taoist ancestors walked back and forth anxiously.

Then they looked eagerly towards the distant South China Sea Fairyland.

"Why hasn't it ended yet? How can such a fierce calamity last so long?"

"I don't know, just wait."

"I really want to get closer to the South Sea Fairyland and take a look over there."

"Such a terrible calamity, I don't know how Sect Master Zhang survived."

"Don't seek death, the South Sea Fairyland is absolutely barren now."

"Even if you get a little closer, you will be directly blasted into slag by the terrible calamity."

"Yeah, we can't even get a little closer."

"But Sect Master Zhang can, in the center of the calamity, and has been holding on until now."

"It's incredible."

An Tianzuo looked into the distance and said lightly.

"Sect Master Zhang has great power, he can hold on until now, which means he can continue to hold on."

"Just wait."

"He should be able to survive this calamity."

Everyone nodded silently.

Some things have a limit.

As long as you can bear the limit, you can continue to bear it.

Looking at the thunder in the distance.

Everyone actually knows.

Zhang Yuhe has already endured the limit of this calamity.

As for the remaining heavenly tribulations, it was nothing more than a tug-of-war.

Everyone believed.

Zhang Yuhe would win the final victory in this tug-of-war.

The heavenly tribulations on the Galaxy Island continued.

The golden thunder swept and raged.

But under the interception of the sword formation.

These golden thunders did not even advance to the range of tens of millions of miles from Zhang Yuhe.

Although the golden thunders were very fierce and the number was terrifying.

But this was far from reaching Zhang Yuhe's limit.

Zhang Yuhe believed.

Even if the power of the heavenly tribulation was stronger, he could withstand it.

Time passed slowly.

The golden ocean in the sky began to fade and become thinner.

Seeing this situation.

Zhang Yuhe breathed a sigh of relief.

He knew.

This heavenly tribulation would soon pass.

After a while.

As the last wave of thunder fell.

The golden light dissipated, and there were no clouds in the sky.

The sky became clear again.

Waves of immortal sounds seemed to be gently transmitted from the distant sky.

Golden lotuses appeared out of thin air.

Slowly falling to the ground.

Immortal sounds lingered, and golden lotuses fell from the void.

This was a gift from the Heavenly Dao, and also a celebration for the cultivators.

The Heavenly Dao congratulated Zhang Yuhe for successfully advancing to the Void God Realm.

This is the last realm in the Immortal Realm.

Normally speaking.

In the primitive world, the limit of cultivators is the Void God Realm.

After reaching the Void God Realm.

You have to leave the Immortal Realm and find a new direction.

It's a pity.

The way out of the Immortal Realm has long been blocked by the Supreme True God.

Otherwise.

How could those Daozu Emperors be trapped in the Immortal Realm?

Zhang Yuhe looked into the distance.

Listening to the immortal sounds lingering and watching the golden lotuses falling.

He muttered to himself in his heart.

"Wait, the road ahead will soon open up."

It was as if some unknown existence had heard Zhang Yuhe's ambition.

The fairy music became more and more cheerful, and the golden lotuses falling in the sky became more and more numerous.

Zhang Yuhe suddenly had an inexplicable enlightenment in his heart.

Perhaps this fairyland was encouraging them to go out.

Section 809

After all, if so many Daozu emperors were concentrated in the fairy world.

It would also be a pressure on the entire fairy world.

Only when the cultivators continue to grow and then go out.

The Great Dao can circulate continuously and endlessly.

A pool of stagnant water is not the Great Dao.

...

Chapter 597 The Great Emperor of the Galaxy

The immortal sound lingers, and the golden lotus falls from the void, gradually spreading to the entire fairy world.

This is the feedback of the heaven to the fairy world.

Whenever a cultivator breaks through, he will definitely take away a huge amount of energy.

If there is no replenishment.

Even if the immortal spirit is abundant, the entire fairy world will slowly become a wasteland.

This is especially true for those like Zhang Yuhe who break through the virtual god realm.

At this time, the cultivators in the fairy world are completely boiling.

Everyone's face is filled with excited smiles.

The immortal sound lingers in the ears, like the sound of the Great Dao, allowing many people to instantly resolve bottlenecks.

The golden lotus falls, and the pure immortal energy allows countless people to quickly improve their cultivation.

The huge energy feedback has benefited countless cultivators.

How can everyone not be excited?

...

Yinghe Xiancheng, Yitianfu.

Wu Yiyi sat on the swing, she reached out to touch the golden lotus falling from the sky.

She said to herself excitedly.

“I knew you could do it.”

On the Yinhe Peak.

The Dao ancestors could not hold back their joy and talked loudly.

"Haha, Sect Master Zhang has survived the heavenly tribulation."

"It's not easy. This time we will definitely have a chance to open up the way out of the fairyland."

"This is inevitable."

"Such a terrifying heavenly tribulation, Sect Master Zhang can survive it."

"Defeating the Supreme True God is not a problem at all."

"Yes, yes."

"I really want to go to the fairyland to take a look."

"See how vast the world outside is."

"See what kind of realm is above the Taoist Ancestor."

"Wait, it should be soon."

"After Sect Master Zhang consolidates his cultivation, he will definitely kill his way to the Sea of Origin."

"I must go to the scene to watch the battle at that time."

"Back then, I was imprisoned by the phantom of the Supreme True God. Just thinking about it makes me very unhappy."

"I hope Sect Master Zhang can kill it with one punch, hehe."

"Haha, then we will go together."

"Go together, we must go together."

...

At this time, there was jubilation in the Galaxy Fairy City.

Countless disciples of the Taoist Saint Sect cheered.

Everyone knew.

The legendary leader of his family has been promoted to the realm of Daozu.

This is the last realm of the fairy world, and it is also the ceiling of the fairy world.

From then on.

Daosheng Sect is a veritable holy place for cultivation.

And they are the disciples of the holy place.

This card is completely different.

Yang Yueyue stood in the air, with a faint smile on her face.

Li Tian stood above the hall, with no joy or sorrow in his heart.

His face showed an expression of "as expected".

...

In the center of the sea of origin.

The Supreme True God woke up from his deep sleep again.

Listening to the fairy music lingering in the sky and watching the golden lotus falling in front of him.

The expression on its face couldn't help but be a little solemn.

After a long time.

It muttered to itself silently.

"This kid is not simple."

"Such a fierce heavenly tribulation, he has survived it."

"Maybe it won't be long before this kid comes looking for me."

"What a trouble."

"It seems that I have to merge with the divine body as soon as possible, even if I lose some souls."

The Supreme True God knows.

It's trouble coming.

Zhang Yuhe will come looking for him sooner or later after he is promoted to the realm of virtual god.

If he doesn't merge with the divine body.

It can't deal with Zhang Yuhe with just the soul phantom.

If things go wrong.

It will be directly wiped out by Zhang Yuhe, who has restored it for billions of years.

Thinking of this.

The soul phantom of the Supreme True God began to shrink slowly and become more solid.

When the soul phantom shrank to a size of a hundred feet.

It slowly merged into the crocodile divine body in the lake.

...

Zhang Yuhe stood on the high platform, silently feeling the changes in himself.

After the heavenly tribulation dissipated.

At this time, his powerful aura overwhelmed the whole world.

Even the surrounding sea surface was pressed into a flat mirror.

There was no ripple on the sea surface.

Zhang Yuhe slowly circulated the Hunyuan Heavenly Scripture.

Only then did he realize.

After the spiritual energy passed through the meridians, it could not gather in the Dantian.

Instead, it returned to the world again.

Zhang Yuhe had an inexplicable enlightenment.

He had reached the limit of the fairy world.

No matter how much he practiced, it was impossible to improve a little bit.

If he wanted to improve his realm again, he had to leave the fairy world.

Go to a wider world.

The fairy world could no longer accommodate him.

He could walk in the fairy world, and he could also fight in the fairy world.

But he could no longer practice.

How could he live like this?

For Zhang Yuhe.

If he could not practice.

Section 810

What's the difference between that and being in jail?

At this time, he finally understood the plight of other Daozu.

It's hard for these Daozu emperors to be trapped in the fairy world for so many years.

If it were him.

Even if there is no hope.

He would go to fight the Supreme True God.

Maybe the gap is too big.

Other Daozu emperors can't even get close to the Supreme True God.

How can they defeat the Supreme True God and leave the fairy world?

Thinking of this.

Zhang Yuhe couldn't help shaking his head.

"Go back first and rest for a while."

He just saw his right hand swiped.

A particle vortex the size of a pond slowly appeared in the void.

Zhang Yuhe took a step and soon appeared on the top of the Milky Way Peak.

Seeing Zhang Yuhe coming.

The Daozu came forward one after another.

"Congratulations to fellow Daoist Zhang, you have successfully passed the heavenly tribulation and achieved the Great Dao."

"Congratulations, congratulations."

At this time, including the Qinglong of the demon clan, Daozu emperors were a little too enthusiastic and came forward to congratulate.

This made Zhang Yuhe feel a little uncomfortable.

He smiled and responded.

"Thank you for your support, fellow Taoists."

"If you hadn't provided help, it would not be so easy to survive this heavenly tribulation."

Zhang Yuhe was telling the truth.

From collecting materials to migrating the creatures in the South Sea Fairyland.

It was finally accomplished with the full support of the Dao Ancestors.

Otherwise.

Relying on himself alone, or relying on the power of the Dao Sheng Sect.

It would take hundreds of millions of years to get these things done.

Breaking through the tribulation should be done as soon as possible.

If it drags on for a long time.

What if he is not fully prepared and can't suppress the opportunity for breakthrough.

That would be a big trouble.

So.

Zhang Yuhe's words were indeed sincere.

Without the help of the Dao Ancestors.

His troubles would not be small.

If he is not careful, he will fail to survive the tribulation.

At this time.

Li Tianxing said with a smile.

"Master Zhang, you are too polite. We just did some trivial things."

"Besides, helping you is helping ourselves."

"We old guys have been trapped in the fairyland for too long."

"Everyone has long wanted to get out of the fairyland and see the vast world outside."

"It's a pity that with the strength of us, we can't even see the face of the Supreme True God."

"We can't even be sure where the extraterritorial passage is."

Speaking of this.

Li Tianxing paused for a moment, then bowed solemnly and said.

"Galaxy Emperor, whether we can get out of the fairyland in the future depends on you."

At this time, Daozu Cangyue took over the conversation and said.

"Haha, the title of Galaxy Emperor is not bad, we will call you Daoyou Zhang in the future."

...

Chapter 598 Peeping again, it's really annoying

Galaxy Emperor?

This title is also pretty good.

Zhang Yuhe smiled slightly, he didn't reject it.

There is actually not much difference between the titles of Daozu and Emperor.

This is just a habitual name.

However, compared to the Galaxy Daozu, Zhang Yuhe prefers the title of Galaxy Emperor.

There is no reason.

It just sounds comfortable.

Everyone congratulated Zhang Yuhe for breaking through the Daozu realm and discussed it enthusiastically for a long time.

At this time.

Li Tianxing suddenly sighed and said.

"It's a pity that the Demon Emperor is dead."

"Among the Demon Emperor's relics, there is also a photo stone, which records a scene of a space channel."

"That should be the channel from the fairyland to the outside world."

"It's a pity that the Demon Emperor has long fallen, and we don't know where the space channel is exactly."

"Then there is no need to think about it, it must be in the Sea of Origin."

"That's right, we have searched other places in the fairyland countless times."

"Only the Sea of Origin is out of our reach."

"Except for the Sea of Origin, I can't think of any other possibilities."

"That's right, but the Sea of Origin is too big."

"Not only can we not determine the specific location of the space channel, we can't even determine the location of the Supreme True God."

"After fellow Daoist Yinhe consolidates his cultivation, I'm afraid it will be difficult to find it."

"Why don't we go to the periphery of the Sea of Origin first and search carefully?"

"Find a way to determine the location of the space channel and the Supreme True God first."

"Then fellow Daoist Zhang can take action directly and get rid of the Supreme True God."

For them,

If we can get rid of the Supreme God one day earlier, and open the space channel one day earlier.

That would be the best of course.

First determine the location, and then let Zhang Yuhe take action directly.

This is indeed a good choice.

However, at this time.

Zhang Yuhe smiled and said.

"No need to be so troublesome."

"I have already determined the location of the space channel."

"It is in the center of the Sea of Origin."

"There is a huge island there, or a continent."

"The space channel out of the fairyland is above that continent."

"The body of the Supreme God is also there."

"Fellow Daoist Zhang, are you sure?"

Hearing Zhang Yuhe's words, everyone felt very incredible.

This group of people has been busy for billions of years, but they still haven't found the location of the space channel.

Even the Supreme God, no one has ever seen it with their own eyes.

Only a few Daozu emperors have ever encountered the shadow of the Supreme God's soul.

As for where its body is, no one knows.

Now Zhang Yuhe actually said that he had already found it out.
