Section 82

Zhang Yuhe felt like he was surviving a disaster.

"The power of the Heavenly Tribulation becomes more and more outrageous every time. I really don't know how abnormal the next Ascension Heavenly Tribulation will be."

After being promoted to Mahayana, Zhang Yuhe had to prepare for ascension.

Fortunately, he had enough time to plan slowly.

If you want to trigger the great heavenly tribulation of ascension, you have to practice to the perfection of Mahayana.

This cannot be done in a short while.

Cultivation in the Mahayana realm is very difficult.

Progress is horribly slow.

According to rumors, Feng Xiaotian, the leader of Daosheng Sect, only spent 20,000 years cultivating to the Mahayana realm.

However, another ten thousand years have passed, and Feng Xiaotian is still in the early stage of Mahayana.

Another ancestor in the sect, Wu Yuemin, has been practicing Taoism for more than 80,000 years, and he is only in the middle stage of Mahayana.

From the cultivation progress of these two people, it can be seen that the difficulty of cultivation in the Mahayana period is average.

Although Zhang Yuhe is extremely talented, he doesn't think he can break through to Mahayana perfection anytime soon.

It would take at least three to five thousand years.

With such a long time to prepare, you will always think of ways to deal with the great catastrophe of ascension.

Moreover, in the Dao Sheng Sect, there was a precedent for monks to successfully overcome calamities and ascend.

He can also refer to it then.

See how others have withstood the catastrophe.

Although the great catastrophe he is about to face will definitely be countless times more fierce than other monks.

But looking at the process of overcoming tribulations of others will have some reference value.

He believed that the Daosheng Sect must have corresponding records in its classics.

It's just that he has not broken through to the Mahayana realm before, so he is not qualified to check it.

Zhang Yuhe looked at the surrounding lake and saw that the lake was vast and boundless.

It has a radius of two to three hundred thousand miles.

"This place is really going to turn into a sea."

Looking at the vast lake around him, he couldn't help but feel a little emotional.

He survived three catastrophes in a row here.

Thunder Lake has expanded from a radius of several thousand miles to two to three hundred thousand miles.

he thought.

If the next great heavenly tribulation is ascended, it will be passed here.

Maybe even the entire Yunlang Mountain Range will be destroyed.

The power of the catastrophe is truly terrifying.

I don't know where the energy came from to be able to gather such a fierce catastrophe.

...

Chapter 80 Yin Sheng Island

A streak of light passed from a distance and quickly landed next to Zhang Yuhe.

Li Tian appeared and shouted respectfully.

"I've met my ancestor."

In order to overcome this calamity, he called Li Tian over to protect him.

This guy is very good and Zhang Yuhe is very optimistic about him.

However, Li Tian's heart was very complicated at this time.

Less than a thousand years have passed.

The former junior brother slowly turned into a junior uncle, and now he is actually a Mahayana ancestor.

Thinking that I have been practicing hard every day, I don't dare to relax at all, and I have only just reached the middle stage of cultivation.

Li Tian felt a little sad in his heart.

To be honest, it takes a thousand years to take a big step in the Void Refining Realm, which is already very fast.

However, compared to Zhang Yuhe, Li Tian simply didn't know what to say.

The huge identity contrast made it difficult for him to adapt.

"Brother Li, you're welcome."

Zhang Yuhe was also a little uncomfortable with Li Tian's title.

Although he has been practicing in Yu Fantian for more than a thousand years, based on Blue Star time.

It's only been more than three years.

Does this make him an ancestor?

It always feels a little weird.

"I don't dare, I don't dare, ancestor just call me by my name."

Zhang Yuhe was speechless.

Well, I know monks like to be serious.

It is indeed not good for him, a Mahayana ancestor, to be brothers with someone from the Void Refining Realm.

The key is that they are still in the same sect.

If Li Tian really admits it.

I am afraid that I will be labeled as someone who deceives my teachers and destroys my ancestors.

"Okay, let's go back first."

Zhang Yuhe didn't hesitate anymore.

It doesn't matter what you call it, as long as you have the intention.

After finishing speaking, he took out a flying boat and the two of them quickly boarded the flying boat.

Zhang Yuhe pressed the magic formula, and the flying boat turned into a stream of light and quickly cut across the sky and left.

...

Tianxinghai welcomes the Holy Island.

That is, Zhao Mingyue and the demons found the weak spot in the space.

In order to welcome the arrival of the army from the Demon God Palace, they specially changed the name of this place to Yingsheng Island.

At this time, Zhao Mingyue and several demons were standing on a huge altar.

Around the altar, one hundred and eight tall black pillars were erected soaring into the sky.

Yingsheng Island was originally just an unknown desert island in the Tianxing Sea.

After discovering that the space barrier here is weaker than other places.

The black devil led the remaining six demons to guard this place for a long time and sealed off the surrounding void for a hundred thousand miles.

Originally there were eight of them.

Just to attract the attention of the Dao Sheng Sect, Zhao Mingyue's incarnation led one of the Void Refining Demon Clan.

Temporary passages were opened in various places one after another, hoping to bring great chaos to Yu Fantian.

Let the Dao Sheng Sect be busy clearing out those weak demons to prevent the Holy Island from being discovered.

But how could they know.

If you walk too much at night, you will encounter ghosts.

As a result, during an operation, the temporary passage was discovered by Dao Shengzong before it was opened.

Lu Mingfang personally took action and beat the Void Refining Demon Clan and the incarnation of Zhao Mingyue into scum.

After that, the remaining demons did nothing.

It's just too dangerous.

They will be able to return to the Demon Realm soon.

No matter what, they don't want to take any more risks and don't want to locate the Demon Realm again.

Zhao Mingyue was helpless about this. Without the Demon Clan's coordinates, she couldn't open the temporary passage.

So, they had to stop their actions and gathered on Yinsheng Island, quietly waiting to welcome the arrival of the Demon Clan army.

Fortunately, this place is secret enough.

Until now, it has not been exposed.

Occasionally, some monks broke into this place, and they were killed in time.

No information about this place was exposed.

So far, Daosheng Sect has not discovered their arrangement.

One person and seven demons stood quietly on the altar.

Suddenly, Zhao Mingyue asked one of the demons with a peach blossom face.

"Lord Black Demon, have you located the coordinates of the Demon Realm?"

Black Demon nodded and replied with a formation plate in his hand.

"It has been located."
