"After we go there, we don't know where we will appear specifically."

...

Chapter 611 Yitian City

Zhang Yuhe roughly described the space channel and the situation of the Chaos Sea on the opposite side.

Unfortunately.

He didn't know much.

All the information Zhang Yuhe knew came from Wu Yiyi.

But the problem is.

As a True God Realm Enlightenment Tree, Wu Yiyi is actually like a newbie.

She doesn't know anything.

She doesn't even know many common sense questions about the Chaos Sea.

There's no way.

Who made her just born and was chased by Lu Jiuzhou all the way.

Wu Yiyi didn't have time to understand the situation of the Chaos Sea.

She was driven into the fairyland by Lu Jiuzhou.

As for her True God Realm, it was not from cultivation.

When Wu Yiyi was born from the origin, she was already in the True God Realm.

Born in the True God Realm.

When Zhang Yuhe first heard Wu Yiyi say this.

He was simply stunned.

His eyes were red with envy.

At the same time, he was filled with infinite yearning for the Chaos Sea.

There are creatures like Wu Yiyi in the Chaos Sea, who are born in the realm of true gods.

The great Dao civilization there must be prosperous.

The endless great Dao is what cultivators pursue.

Primitive worlds like the fairyland.

Zhang Yuhe has seen the end at a glance, and it is completely boring.

...

After everyone continued to chat for a while, they quickly dispersed to explore the island.

Maybe it was because of the battle between Lu Jiuzhou and the Supreme True God.

The entire Origin Sea, all other places were destroyed.

Except for this huge island under everyone's feet.

There is not even a deserted island in other places.

However, the island occupied by the Supreme True God is indeed big enough.

After everyone roughly explored it.

Only then did they discover.

The area of the island under their feet is actually larger than the entire South China Sea Fairyland.

Such a huge island, it is not an exaggeration to say that it is a continent.

In the center of the continent, there was originally a lake with a radius of billions of miles.

But in the previous war.

Zhang Yuhe used a Taoist technique, Chaos Return to Void, to evaporate all the lake water.

After a period of replenishment, it is now only a shallow layer.

In the center of the lake.

There is a strange spiritual spring, which is flowing.

The rich Taoist breath slowly emanates from the spiritual spring.

The Taoist breath is so rich that it even forms some faint natural runes above the lake.

Everyone only needs to take a look to understand.

This is the fifth innate spiritual gathering treasure land in the fairy world.

No wonder the Supreme True God has been resting here all the time.

A few days later.

Everyone gathered above the lake again.

An Tianzuo looked up and saw the vortex channel in the sky, and asked Zhang Yuhe solemnly.

"Daoyou Zhang, I wonder when we will set off for the Chaos Sea?"

Zhang Yuhe looked into the distance and said lightly.

"No hurry, I will set up a formation first to temporarily seal and block the space channel."

"I plan to build a super giant city with this lake as the center."

"With this giant city as the core, connect the fairy cities in the four directions of the fairy world with a teleportation formation."

"After doing this, everyone will go to the Chaos Sea separately."

Everyone nodded gently.

Although Zhang Yuhe did not say it too clearly.

But everyone knew what he meant.

Zhang Yuhe's meaning was very clear.

No one can leave until the affairs of the fairy world are settled.

After the affairs are settled, no one can stay in the fairy world.

All the Daozu emperors have to leave the fairy world.

Zhang Yuhe doesn't want to.

After he leaves, there are still Daozu left.

That will destroy the balance of the fairy world.

If you want to leave, everyone will leave together.

I understood Zhang Yuhe's hidden meaning.

None of the Daozu objected.

Just kidding.

Zhang Yuhe's divine power is unparalleled, and everyone has seen it with their own eyes.

Even the Supreme God was beaten to death by him.

Even if some Daozu may have some small thoughts.

They will never show it.

In fact, everyone understands.

On the surface, Zhang Yuhe looks very kind.

But this does not mean that he will allow others to mess around.

Everyone believes.

Once someone gets into trouble.

Then Zhang Yuhe's thundering means will probably fall soon.

No one can stop it.

Of course.

None of the Daozu are willing to stay in the fairy world.

Except Zhang Yuhe.

Even the youngest Daozu has practiced for two or three hundred billion years.

They have long wanted to leave the fairy world and find a new way out.

Now the road is ahead.

Naturally, they have no intention of staying.

...

The news that the Supreme God was beaten to death by Zhang Yuhe quickly spread in the fairy world.

At the same time.

A large number of cultivators quickly gathered towards the Yitian Continent through various channels.

Zhang Yuhe named the island where the Supreme God resided as the Yitian Continent.

He also drew a large number of monks from various holy places to come and build the immortal city.

As for the large area near the lake, it had already been sealed by him using formations.

The huge vortex channel in the void had already disappeared.

With the influx of a large number of monks.

Section 832

A huge super fairy city rises from the ground.

The fairy city is centered on the lake in the center of Yitian Continent, with a length and width of one billion miles each.

The tall city wall towers into the sky, enveloping the entire fairy city.

There is a city gate on each side of the fairy city.

On the plaque on the top of the city gate, there are three characters "Yitian City" engraved on it.

The handwriting is vigorous and powerful, like the light of a sword cutting through the sky.

It also seems to contain endless Taoist charm.

People will be fascinated by it just by looking at it.

To the north of the fairy city, mountains stretch continuously, with towers and pavilions looming.

A tall mountain gate stands among the mountains.

On the crossbeam of the mountain gate is written the three characters "Dao Sheng Zong".

According to the results of Zhang Yuhe's discussion with the Taoist ancestors.

From now on, Yitian City will be jointly managed by all the holy places in the immortal world.

Including the Taoist Sect, there are a total of 37 Taoist Holy Lands in the immortal world.

Each Holy Land has established a branch in Yitian City.

From now on, Yitian City will be the core of the entire fairy world.

If something big happens.

It is decided by 37 holy places.

...

Daosheng Sect Yitiancheng branch.

Zhang Yuhe sat at the head of the hall.

All the Immortal Kings and Immortal Lords are gathered below.

Zhang Yuhe glanced at everyone, and then said lightly.

"The construction of Yitian City is about to come to an end."

"I will leave the fairy world soon."

"I don't know if there will be a chance to come back in the future."

"The Great Dao is endless. From now on, you can only rely on yourselves for the affairs of the Dao Sheng Sect."

"metropolitan....."

Hear this.

Everyone looked sad.

Although they had known for a long time that Zhang Yuhe would leave the fairy world sooner or later.

But when that day comes.

Everyone was still a little blind and at a loss.

They have become accustomed to relying on Zhang Yuhe.

There is Zhang Yuhe to intimidate all sides.

Everyone just concentrates on cultivating and doesn't need to worry about anything else.

No one is looking for trouble with the Dao Sheng Sect.

Now Zhang Yuhe left suddenly.

No one knows what to do in the future.

Can they support Dao Sheng Sect, such a large sect, on their own?

Everyone has no confidence.

Zhang Yuhe said with a smile.

"You don't have to worry too much."

"I'll put everything in order before I leave."

"The other Dao Ancestor Emperors will also leave together."

"From now on, there will be no Dao Ancestor Emperor in the immortal world."

"The Dao Sheng Sect has two immortal kings, Yang Yueyue and Li Tian, sitting in charge."

"As long as you act cautiously, I believe there will be no problem in protecting yourself."

Just at this time.

Yang Yueyue said solemnly.

"Sect Master, please rest assured, we will definitely protect Dao Sheng Sect."

"Let the Dao Sheng Sect be spread forever in the immortal world for thousands of years."

Zhang Yuhe nodded lightly.

...

Chapter 612 The new leader of Daosheng Sect, Yang Yueyue

Zhang Yuhe was deeply relieved to hear Yang Yueyue's words.

After he left.

Dao Sheng Sect is not without strength.

There are two Immortal Kings, Yang Yueyue and Li Tian, as well as many Taiyi Immortal Lords.

Compared to the major holy places in the immortal world, it is indeed inferior.

But compared with those superpowers, they are basically only strong but not weak.

There is absolutely nothing wrong with protecting yourself.

This is still a short period of time for the development of Daosheng Sect.

Slowly lengthens over time.

After those younger generations have grown up.

The strength of Dao Sheng Sect will only get stronger and stronger.

As long as you don't cause trouble.

maybe one day.

The Dao Sheng Sect developed into a dominant force in the fairy world.

Those are hard things to say.

Looking at the Immortal Kings and Immortal Lords of the Dao Sheng Sect in the main hall.

Zhang Yuhe felt a little proud in his heart.

To know.

When he first ascended to the fairy world.

There are only two golden immortals left in Daosheng Sect, living in the sea area of Ji'an and struggling hard.

That desolate look seemed like he might be destroyed at any time.

However, only thirty million years have passed now.

Dao Sheng Sect has developed into a very important force in the immortal world.

Even after he left, no one dared to look down upon him.

Think of this.

Zhang Yuhe was a little proud.

This is all brought up.

Otherwise.

How could the Dao Sheng Sect be like it is today?

In the main hall.

Zhang Yuhe was in front of Dao Sheng Sect, all the Immortal Kings and Immortal Lords.

The golden seal symbolizing the status of the sect leader was solemnly handed over to Yang Yueyue.

From now on.

Yang Yueyue is the leader of Daosheng Sect.

In the world of monks, everything is based on strength.

Among the Immortal Kings and Immortal Lords of Dao Sheng Sect, Yang Yueyue is the strongest.

Of course Zhang Yuhe would not choose anyone else.

Being a sect leader does not necessarily require you to be able to manage affairs.

But you must have the strength to be able to control the situation.

Strength is fundamental.

Yang Yueyue is strong enough.

Although she is currently a Da Luo Immortal King who has just been promoted.

Still in the early stage of Da Luo realm.

But with the innate magical powers activated by her Taiyin Holy Body.

Section 833

Even if facing the late Daluo Immortal.

Yang Yueyue will never be at a disadvantage.

After all those Daozu Great Emperors leave the Immortal Realm.

The late Daluo Immortal is basically the top force in the Immortal Realm.

Zhang Yuhe believes.

Yang Yueyue is enough to suppress everything and lead the Daosheng Sect to stable development.

What's more.

Yang Yueyue has only been practicing for a short time, and she is still in a period of rapid progress.

There is still a lot of room for growth.

There is also a great possibility of being promoted to the Daozu realm in the future.

...

After the simple handover ceremony, the others left the hall.

Only Zhang Yuhe and Yang Yueyue were left in the hall.

After a slight pause.

Zhang Yuhe said to Yang Yueyue with a smile.

"In the future, the burden of Daosheng Sect will be handed over to you. I hope you can lead everyone and continue to stand tall in the fairy world."

"But you don't have to be too stressed. Everything should be based on cultivation."

"The great way is boundless, only strength is the foundation."

"When the strength reaches a certain level, the so-called troubles are just a palm away."

"It's not a big deal at all."

Yang Yue took a deep breath and responded solemnly.

"Please rest assured, ancestor, Yueyue will not let you down."

Zhang Yuhe nodded gently.

He took out a scroll and handed it over, then said slowly.

"This is a space fairy weapon, which cultivates various spiritual medicines and fruits."

"As long as it is properly taken care of, it is enough to supply Daosheng Sect."

After saying this.

Zhang Yuhe gently tapped the scroll with his finger.

A figure walked out of the scroll.

Zhang Can now shouted respectfully to Zhang Yuhe.

"Young Master."

In the past 30 million years.

Zhang Can has eaten all kinds of good things.

At this time, the aura on his body was already in the late stage of Taiyi Immortal.

As a thousand-year-old snow ginseng that has become a spirit.

It is a miracle that he can cultivate to the current realm.

Meeting Zhang Yuhe is his greatest opportunity.

Otherwise.

Maybe he would have been refined into medicine dregs long ago.

How could he have achieved what he has now?

Looking at Zhang Shen in front of him.

Zhang Yuhe said with a smile.

"I will leave the fairyland soon, so you can stay in Daosheng Sect in the future."

"If one day you can be promoted to the realm of Daozu, you can also come to Chaos Sea to find me."

"Yes, young master."

Zhang Shen had no objection.

For him.

As long as he can farm happily, it's fine to stay in Daosheng Sect.

As for being promoted to the realm of Daozu, he dare not think about it.

He, a thousand-year-old snow ginseng that has become a spirit, can cultivate to the current realm.

It is already incredible.

How dare he expect to reach the realm of Daozu.

Zhang Yuhe waved his right hand.

A jade bottle about a foot high slowly flew out of the scroll.

Time Immortal Artifact, Heaven-Holding Bottle.

Zhang Yuhe took the Heaven-Holding Bottle in his hand and stroked it gently.

He sighed silently in his heart.

"This is a good thing."

"It's a pity that it's of no use to me now."

Zhang Yuhe handed the Heaven-Holding Bottle to Yang Yueyue, and then slowly spoke.

"This is the Heaven-Holding Bottle, a time immortal artifact. The bottle can gather the Nine Heavens Immortal Dew every day, which can accelerate the growth of spiritual medicine and immortal fruit."

"I usually let Zhang Shen take it to cultivate the spiritual medicine and immortal fruit in the scroll."

Yang Yueyue took the Heaven-Holding Bottle and was filled with infinite shock.

The ancestor is too powerful. He actually has such a heaven-defying thing.

No wonder she has never seen the ancestor go out on adventures.

But the resources in his hands will never be lacking.

And it can also supply a large amount of what the disciples of Daosheng Sect need for cultivation.

I'm afraid that a big reason for this is from this Heaven-Holding Bottle.

Yang Yueyue thought silently, and then put away the Heaven-Holding Bottle.

Of course she would not take it to plant spiritual medicine by herself.

In the future, she would still give it to Zhang Shen for use.

But before that.

She needed to find time to refine the Heaven-Holding Bottle.

Only after she refined it herself could she safely give it to others for use.

Just like before.

It seemed that the Heaven-Holding Bottle had always been in Zhang Shen's hands.

But Zhang Yuhe could take it at any time.

Because he had already refined the Heaven-Holding Bottle into his own treasure.

Zhang Yuhe handed over various treasures, skills and magical books to Yang Yueyue one after another.

Finally, he took out a jade box.

As the jade box slowly opened.

A fairy sword with shining spiritual light lay quietly in the jade box.

When the jade box was opened, the tyrannical killing aura almost froze the entire hall.

The Tao rhyme rose on the fairy sword, and countless mysterious runes continued to flow on the surface of the fairy sword.

However, when Yang Yueyue looked carefully,

But he found that this immortal sword was not a physical object, but was completely transformed by immortal energy.

Obviously.

This was a special talisman sword condensed by Zhang Yuhe with his unparalleled divine power.

Zhang Yuhe closed the jade box and handed it to Yang Yueyue.

Then he said solemnly.

"This talisman sword contains the strongest magical power I have used."

"As long as this talisman sword is activated, except for the user, people and animals within a radius of hundreds of millions of miles will be annihilated."

"Even the Daozu Emperor cannot withstand the attack of the talisman sword."

"This talisman sword can only be activated three times. You must keep it carefully and use it well."

"Thank you, ancestor."

Yang Yueyue took the jade box respectfully and put it away carefully.

She knew.

This will be the strongest foundation of Daosheng Sect in the future.

With this thing.

The Daosheng Sect will not be afraid of any threat.

Section 834

She had the honor to witness Zhang Yuhe's magical power.

He could even kill the Supreme True God.

Now Zhang Yuhe condensed his magical power into the talisman sword.

Once the talisman sword is fully activated.

Who in the fairy world can stop him?

Not to mention the Daozu emperors, who will leave the fairy world with him.

Even if there are Daozu left.

They can never stop the attack of this talisman sword.

This is a real killer.

With this thing.

It is equivalent to Zhang Yuhe's incarnation in the fairy world.

It is enough to deter all disobedience.

...

Chapter 613 Yitian Oath

In a quiet garden in Yitian City.

Li Tianxing sat quietly in the pavilion, and Liuyue Immortal King silently served behind him.

Li Tianxing picked up the teacup, took a sip gently, and then slowly spoke.

"Liu Yue, I have already told you everything that needs to be said."

"After we leave, this huge Tianxing Holy Land will depend on you to maintain."

"Remember, you must try your best to maintain a good relationship with the Dao Sheng Sect."

"As long as we stay with the Dao Sheng Sect, even if there is any trouble in the fairy world in the future, our Tianxing Holy Land can survive safely."

Hearing this.

Liu Yue Immortal King frowned slightly, and she said with some confusion.

"Master, the Galaxy Emperor will also leave the fairy world."

"Without the Galaxy Emperor, does the Dao Sheng Sect still need to pay so much attention?"

Li Tianxing put down the teacup.

He stood up and looked into the distance.

After a long time.

Li Tianxing slowly spoke.

"You don't understand."

"The Galaxy Emperor has the ability to penetrate the heavens and the earth. He can kill the Taoist ancestors with just a little trick, let alone you."

"Even after leaving, he will leave many back-ups."

"These back-ups are enough to protect the Taoist Saint Sect from worry."

"There is another point."

"Although we leave the fairyland and go to the Chaos Sea this time, there is almost no chance to come back."

"But the Galaxy Emperor is different."

"A peerless genius like the Galaxy Emperor will shine with infinite light no matter where he is."

"He will definitely have a chance to return to the fairyland again in the future."

Liu Yue Immortal King nodded silently.

Li Tianxing told her similar words many times.

She also knew.

People like the Galaxy Emperor are always worth making friends with.

Because no one knows where his upper limit is.

The Galaxy Emperor was only in the early stage of Taiyi Immortal.

She was already a veteran Daluo Immortal.

However, how long has it been?

The Galaxy Emperor has grown into an existence that she looks up to.

Even the Supreme True God, the terrifying Chaos Beast, died at the hands of the Galaxy Emperor.

Who dares to predict the future of such a person?

Just as Li Tianxing was still telling the Immortal King Liuyue.

The same thing happened in various places in Yitian City.

Without exception.

The Dao Ancestors carefully told their descendants to seriously maintain the relationship with the Dao Sheng Sect.

Even the Dao Ancestors of the demon clan were no exception.

They had seen with their own eyes the divine power displayed by Zhang Yuhe.

That huge momentum was enough to scare them.

No one dared to go against the Dao Sheng Sect.

Even if Zhang Yuhe left, it was the same.

That terrible power had long been deeply engraved in their hearts.

...

Three days later, Wangtian Peak.

The Dao Ancestors gathered together again.

At this time.

A stream of light passed from a distance.

Zhang Yuhe appeared and landed on Wangtian Peak.

Everyone shouted enthusiastically immediately.

"Master Zhang, you are here."

Zhang Yuhe looked around at the crowd and nodded gently.

Including himself, all the thirty-seven Dao ancestors in the fairy world are here.

All of them are here.

Zhang Yuhe said with a smile.

"Are all things arranged?"

"After we take this step, it may not be so easy to come back in the future."

"Everything is arranged."

"In fact, there is nothing to explain."

"Descendants will have their own blessings. I just want to pursue my own path."

"As long as I can take a look at the world of a higher level, I will not hesitate even if it will fall soon."

"Yes, if I hear the truth in the morning, I can die in the past."

The Dao ancestors were excited.

They have been trapped in the fairy world for too long.

If it weren't for Zhang Yuhe, who sealed the space channel.

They would have left long ago.

How could they stay until now?

Zhang Yuhe nodded gently, and then said lightly.

"Okay, in that case, let's set off now."

Standing on Wangtian Peak.

Zhang Yuhe made a stroke with his right hand.

A huge lake soon appeared in front of everyone.

This was the lake that the Supreme True God had occupied.

When building Yitian City.

Zhang Yuhe specially arranged a formation to seal the area around the lake.

If there was no special token.

Even the Daozu Emperor would not be able to find the location of the lake.

"Let's go."

Zhang Yuhe waved his right hand and flew into the sky above the lake.

After a while.

Everyone came to the center of the lake.

Everyone looked up at the sky.

They saw a magnificent palace floating quietly in the void.

Section 835

As for the space passage that was originally here, it is completely invisible.

Everyone knows.

Zhang Yuhe used this Void Palace to completely seal the location of the space passage.

If they don't enter the palace, they can't find the space passage.

Not to mention passing through the passage and heading to the Chaos Sea.

Everyone took off into the air and soon flew outside the palace.

At this time, the bronze door of the palace was closed.

On the plaque above the bronze door, three vigorous and powerful characters were engraved:
[Yitian Palace].

Everyone looked around the palace curiously.

I saw a tall stone tablet standing quietly in the square in front.

The stone tablet was plain and empty, and there was not even a single word.

Everyone was confused.

Everyone didn't know.

What was the purpose of Zhang Yuhe putting this stone tablet here.

Li Tianxing asked puzzledly.

"Daoyou Zhang, does this stone tablet have any special purpose?"

Zhang Yuhe smiled slightly and didn't say anything.

He just punched the stone tablet lightly.

Boom...

The stone tablet suddenly burst into a dazzling light.

Wait until the light converges.

Lines of handwriting slowly appear on the stone tablet.

[Yitian Oath: Walk out of this world, forget everything, and never reveal any information you see, know, or think in this world.]

Zhang Yuhe stretched out his hand on the stone tablet and gently carved a few times.

[Zhang Yuhe] Three small words were slowly carved below the oath.

Boom...

When Zhang Yuhe carved his name on the stone tablet.

The door of the Yitian Palace behind him finally opened slowly.

The endless void, the mysterious and deep space channel, appeared in front of everyone again.

"This..."

Seeing this situation, everyone was shocked.

They already understood.

The purpose of Zhang Yuhe setting up this stone tablet.

It's very simple.

If you want to enter the hall and walk out of the fairyland, you must sign the oath.

Qinglong Daozu looked at Zhang Yuhe and asked hesitantly.

"Fellow Daoist Zhang, what is the purpose of the oath on this stone tablet?"

Zhang Yuhe turned his head and looked at everyone, and said calmly.

"After we go out this time, it will be difficult to come back."

"But just because we can't come back doesn't mean that others can't come."

"Back then, Lu Jiuzhou was able to come to the fairyland from the Chaos Sea."

"Then other people can naturally come in."

"As far as I know, as long as the strength reaches the true god realm, and then finds the location of the passage to the outside world, you can enter the fairyland."

Speaking of this.

Zhang Yuhe paused for a while, and then said solemnly.

"We don't know what the situation is like on the Chaos Sea."

"But it is obviously necessary to hide the information of the Immortal Realm."

"Otherwise, if an evil person finds out where the Immortal Realm is, it will be very bad."

"After all, this is our home, and I don't want outsiders to come in."

"As long as you use the power of the Taoist ancestor to attack this stone tablet, the oath will be revealed."

"If you want to enter the Yitian Palace, you must sign an oath."

"Not only us, but future comers will also need to sign an oath before they can leave the Immortal Realm."

"Unless someone's strength exceeds mine and can forcefully open the Yitian Palace."

...

Chapter 614 Take care of each other, and see you in the Chaos Sea!

After listening to Zhang Yuhe's narration, everyone nodded gently.

Everyone felt that what Zhang Yuhe said made a lot of sense.

Although it may be difficult for them to come back after leaving the Immortal Realm this time.

But this is everyone's hometown after all.

There are also many relatives, friends, and disciples of the sect living in the Immortal Realm.

No one wants a powerful outsider to break into the fairyland.

But so many of them are heading to the Chaos Sea at the same time.

It is hard to guarantee that no one will leak information about the fairyland.

After all, people's hearts are hidden.

Everyone can only guarantee that they will not leak information about the fairyland.

But it does not guarantee that others can do the same.

Especially when it is necessary.

For example, under coercion or soul search.

It is difficult to guarantee that the information of the fairyland will not be leaked.

So the best way is to make a vow together.

Use the vow to restrain everyone.

Once the vow is signed, it will be engraved in the depths of the soul sea.

In this way.

Whether actively or passively, they must abide by the content of the vow.

Cannot leak information about the fairyland.

Unless there is a powerful person who can break the Yitian oath.

Otherwise.

Even if someone is imprisoned and soul searched, only a blank can be found.

Moreover, the Yitian oath set by Zhang Yuhe will not have too many restrictions on everyone.

It just does not allow people to have the opportunity to leak information about the fairyland.

There are no restrictions on other things.

It can be said that this oath is actually very loose.

It is a bit similar to the protection of the major forces for their own martial arts books.

Before the disciples of the major forces in the fairy world check the martial arts books of the sect,

they all need to sign the corresponding soul oath to ensure that the contents of the books will not be leaked.

The purpose of the Yitian oath is the same.

In fact, normally.

As a primitive world.

The location of the fairy world is originally very secretive, and it is difficult for people from the outside to find it.

There is no fixed channel vortex in the outside world.

At the other end of the Chaos Sea, the channel vortex is erratic.

And most of them are closed.

Only occasionally will the channel to the outside world be opened.

So it is actually very difficult to enter the fairyland from the Chaos Sea.

Despite this.

Zhang Yuhe is still worried.

Everyone must sign an oath before they can leave the fairyland.

In Zhang Yuhe's mind.

Protecting the secrecy of the fairyland is only one of the purposes.

Section 836

His most important purpose is not to let outsiders know about the existence of the Enlightenment Tree.

The auxiliary effect of the Enlightenment Tree on monks is far beyond the imagination of ordinary people.

The fruit of enlightenment can be permanent and increase the monk's understanding.

And practicing under the Enlightenment Tree makes people feel like they have been experiencing enlightenment.

Whether it is comprehending the skills, magical powers, or comprehending the laws, it is like divine help.

Not only that.

Staying under the Enlightenment Tree for a long time can also greatly increase the speed of cultivation.

Such a heaven-defying spiritual creature.

Once the news leaks out.

Let the people in Chaos Sea know.

There have been traces of the Enlightenment Tree in the fairy world.

It's hard for Zhang Yuhe to imagine.

In the end, how many powerful people will come to the fairy world.

So in the beginning.

Zhang Yuhe sealed the space.

No one is allowed to leave the fairyland before confidentiality measures are taken.

Building Yitian City was not his main purpose.

Zhang Yuhe wanted to take advantage of the construction of the city to build the Yitian Palace to control the vortex passage.

And establish an oath to obey heaven.

It was not until recently that he completed this matter.

Zhang Yuhe then summoned all the Taoist ancestors and let them out of the fairy world.

If there are no reliable confidentiality measures.

He won't let these people out.

Zhang Yuhe didn't want to.

As soon as he steps out of the fairy world, he will be in a lot of trouble.

The Sea of Chaos is not a fairyland.

There is a great gathering of power.

False gods are like rain, and there are also many in the realm of true gods.

There is also the supreme divine king and the supreme eternal emperor.

Even in legend.

There is also an illusory Supreme Being in the Sea of Chaos.

Zhang Yuhe is not afraid of the True God Realm.

If you can't beat him, you can run away.

But facing the God King, even the Eternal Supreme.

He couldn't even get a chance to run away.

Zhang Yuhe wanted to practice safely in the sea of chaos.

Then he must seal all information about him and the Enlightenment Tree in the immortal world.

Can't let anyone outside know.

Only in this way.

Only then can he assume the identity of a newbie who has just emerged from the primitive world.

Practice peacefully in the Sea of Chaos without worrying about being disturbed.

The Taoist ancestors looked at the content of the oath on the stone tablet and did not hesitate too much.

In their view.

This is just an ordinary confidentiality oath and does no harm to anyone.

Everyone attacked the stone tablet one after another, and then signed their names.

Zhang Yuhe will enter Yitian Palace and sets two thresholds.

One is to test the strength.

If you are not strong enough to reach the Dao Ancestor Realm, you will naturally have no chance to get out of the Immortal Realm.

Therefore, this oath monument also has the function of testing strength.

The content of the oath will be revealed only after passing the strength test.

The second threshold is to sign the oath.

Only complete these two steps.

Only then can you open the Yitian Palace and see the vortex of passage out of the fairy world.

Wait until all the Taoist ancestors have left their names on the stone tablets.

Zhang Yuhe said with a smile.

"Let's go into the main hall."

After saying this.

Zhang Yuhe stepped into Yitian Palace, and the others immediately followed.

Looking at the situation in the hall, everyone was slightly surprised.

I saw a golden Optimus Pillar, standing quietly in the center of the hall.

Mysterious runes slowly flowed on the surface of the golden pillar.

The tall golden pillar connects the lake below to the void channel.

It seems to hold up a whole world.

Everyone can see it at a glance.

This long golden pillar is a precious innate treasure.

And it is also the core of the operation of the entire hall.

Zhang Yuhe used this innate treasure to create a magnificent formation.

Completely seal the entire lake area and the space passage above.

If you don't sign the oath, it's impossible to get in.

Taking the innate treasure as the foundation of the formation, coupled with Zhang Yuhe's attainments in formation techniques.

No one can break in by force.

Looking at the long golden pillar in front of him, Zhang Yuhe felt quite proud.

This long golden pillar is the innate treasure, the Nine Heavens Flying Spirit Stick.

Because this treasure has not yet reached the Taoist level.

It doesn't do much for him.

So Zhang Yuhe had no intention of taking it to the Sea of Chaos.

Instead, it will be placed here as the basis for the formation.

Just in the middle of the lake below, there is also an innate soul gathering treasure place.

As the base of the formation, it supports the entire Yitian Palace while operating normally.

It can also allow the Jiutian Feiling Spirit Root to be slowly cultivated here.

Maybe in a few billion years.

This Nine Heavens Flying Spirit Stick will slowly grow into a Taoist weapon level.

When the time comes, use the power of the innate Taoist weapon.

Yitian Palace is as stable as Mount Tai.

Even a powerful person in the realm of true gods cannot easily break through it.

Zhang Yuhe believes it.

After this arrangement.

The world of immortality will be guaranteed to be worry-free.

At the same time, he can also practice safely on the other side of the Chaos Sea.

There is no need to worry about someone sneaking out and accidentally leaking information about him and the Enlightenment Tree.

Zhang Yuhe really put a lot of thought into arranging these things.

Everyone looked up at the whirlpool passage above the hall.

My heart is filled with infinite expectations.

This is their way forward.

They want to keep moving forward along this road.

From then on, he walked out of the fairyland, towards a broader world, and pursued a higher level of avenue.

An Tianzuo took a deep breath, looked at Zhang Yuhe and asked in a deep voice.

"Fellow Daoist Zhang, can we set off now?"

Zhang Yuhe pondered for a while, then said seriously.

"You all still remember what I said before."

Section 837

"This space vortex leading to the Chaos Sea has extremely strong rules and restrictions."

"Only those who have reached the Daozu realm can move forward safely in the passage."

"And there are countless forks in the passage."

"There are thousands of great ways, each of us takes a different path, and we cannot travel together."

"You must not take weak creatures out."

"If your space fairy weapon carries other intelligent life, release it now."

"Otherwise."

"Once you enter the space passage, not only will the space fairy weapon be crushed by the rules."

"Even you will fall under the crushing of the rules."

"There is no chance of luck."

There was a hint of solemnity in Zhang Yuhe's words, and it was obviously not a joke.

He learned about the rules of the space passage from Wu Yiyi.

Wu Yiyi had walked through this passage before, so she naturally knew the rules.

Hearing Zhang Yuhe so solemnly, everyone responded in unison.

"Don't worry, Daoyou has already made a strong statement about this matter. We will not dare to take any chances."

Zhang Yuhe nodded gently.

He has said everything he should say.

If someone wants to take the risk, it is none of his business.

An Tianzuo held the spear in his hand, he looked back at everyone, and then said loudly.

"Everyone, I'm leaving first, see you in the Chaos Sea later."

After saying this.

He took off into the air and jumped into the vortex channel.

Soon he disappeared in front of everyone.

...

Chapter 615 Didn't we go to the wrong place?

Looking at An Tianzuo's disappearing figure, everyone no longer hesitated.

Daozu Cangyue turned around and bowed to everyone, then jumped into the vortex channel in one step.

Following closely.

Daozu Qinglong and others also flew towards the vortex one after another.

When everyone disappeared.

Li Tianxing smiled and said to Zhang Yuhe.

"Daoyou Zhang, I am leaving too. I wish you a long-lasting prosperity. We will see each other in the Chaos Sea."

"See you in the Chaos Sea."

Zhang Yuhe waved to Li Tianxing.

After a while.

He was the only one left in the whole hall.

Zhang Yuhe stood there, looking at the vortex passage in front of him.

He said to himself silently in his heart.

"Is there still a chance to meet in the Chaos Sea?"

Thinking of this.

He couldn't help but shake his head.

The Chaos Sea is vast and he doesn't know how big it is.

From Wu Yiyi's words,

Zhang Yuhe can imagine.

Without a certain strength, maybe he can only live in a secluded island in the Chaos Sea for his whole life.

And there are countless forks in the vortex passage.

After everyone goes out, they don't know how far they will be scattered.

The chance of meeting again is probably very slim.

Zhang Yuhe stood there.

At this time.

A figure flashed beside him.

Wu Yiyi showed up.

Looking at the magnificent vortex channel in the sky.

She said excitedly.

"Zhang Yuhe, are we leaving now too?"

At this time, the joy on Wu Yiyi's face was beyond words.

Zhang Yuhe pondered for a while, and then asked solemnly.

"Yiyi, you said before that in an interface channel like this, because of the rules and restrictions, cultivators are not allowed to travel together."

"Then how do we go? Do we have to separate?"

To be honest.

Zhang Yuhe was a little reluctant to separate from Wu Yiyi.

Wu Yiyi's enlightenment tree body was of great help to him.

With Wu Yiyi by his side.

Zhang Yuhe had confidence.

Even in the Chaos Sea where powerful people gathered, he could quickly practice and rise.

Another point is.

Wu Yiyi has a simple temperament.

If she was allowed to go alone.

Zhang Yuhe was really a little worried.

What if this silly girl was abducted by someone, what should I do?

It's just that he had heard Wu Yiyi say it before.

The vortex channel between these interfaces has very terrible rules of suppression.

After entering the vortex, the monks cannot travel together.

Even if they set out together, they will soon separate due to the pressure in the channel.

What can we do?

Are they going to go separately?

If that's the case.

Then how can they meet up in the Chaos Sea?

Hearing Zhang Yuhe's words, Wu Yiyi laughed.

"Don't worry, I'm a real god."

"The rules of this vortex channel can only suppress you native virtual gods."

"If you want to suppress me, you're still a long way off."

"Why didn't you say it earlier."

Zhang Yuhe was speechless.

Why didn't you make it clear before, causing him to worry about this for a long time.

Say it earlier.

Really.

Zhang Yuhe took a deep breath.

He waved his right hand.

Nine immortal swords flew up and slowly flowed around him.

Zhang Yuhe turned and said to Wu Yiyi.

"Yiyi, let's go."

"Haha, I can finally leave this damn primitive world."

After saying this.

She turned into a stream of light and merged into the ring on Zhang Yuhe's left hand.

Wu Yiyi did not plan to pass through the vortex channel with her real body.

Maybe it was because she had been chased by Lu Jiuzhou before.

She has no intention of showing her true self outside.

Except Zhang Yuhe.

Section 838

Wu Yiyi couldn't believe any monk.

She was afraid that others would take advantage of her.

Zhang Yuhe looked at the ring on the middle finger of his left hand, and a smile appeared on his face.

It's great to be able to take Wu Yiyi with me.

He looked up to the sky, took a deep breath, and then took to the air.

Quickly jump into the vortex channel.

After Zhang Yuhe left.

The door of Yitian Palace slowly closed.

At this time, in Yitian City, countless monks were looking into the distance.

They all know it.

My ancestor may have left the fairy world now.

From then on, this fairy world was in an era without Tao Ancestor.

It may take hundreds or even hundreds of billions of years to wait for the new Dao Ancestor to rise.

...

After flying into the vortex channel.

Zhang Yuhe immediately felt the squeezing force around the passage rushing towards him.

despite this.

Zhang Yuhe still looked calm.

The squeezing force of the interface channel is for the average Dao Ancestor.

Maybe it is, and it needs to be handled with caution.

Otherwise.

You might stumble.

But for Zhang Yuhe.

This is totally not the case.

Not to mention that the nine swords slowly unfolded, forming a dense protective barrier around him.

Even without the help of the sword array.

This kind of regular pressure in the vortex channel does not pose a threat to him.

To know.

After comprehending the Law of Chaos.

The power of Zhang Yuhe's Immortal Body is already comparable to that of Chaos Beasts of the same level.

A mere squeeze of rules can only be considered a minor problem.

It had absolutely no effect on him.

Zhang Yuhe slowly closed his eyes, silently comprehending.

In the vortex channel.

At this time, he seemed to be unable to feel the changes in space and time.

It's like standing in a state of chaos.

The huge suction force in the vortex channel was carrying him forward quickly.

Forked roads kept passing by.

Zhang Yuhe knows.

Every fork in the road leads to a different location in the Sea of Chaos.

He didn't want to forcefully change the direction of travel.

If he wants to do that.

It can indeed be done.

But in a strange environment.

Zhang Yuhe did not dare to act recklessly.

What if something happens in the passage?

Then he'd be in big trouble.

Zhang Yuhe doesn't like trouble, so it's better to let nature take its course.

As for where they will be in the Sea of Chaos after leaving.

How far is it from Donghua Palace?

Then you can just let it happen.

Zhang Yuhe just wanted to reach the Sea of Chaos safely first.

As for the next thing, you can wait until you get out before making plans.

He really wanted to visit Donghua Palace.

After all, it was a powerful force with the Nine-step God King as its commander.

Moreover, he still had Lu Jiuzhou left to receive the lead order.

If you can successfully join Donghua Palace, it will be equivalent to finding a big backer.

It was enough to protect him and practice in the Sea of Chaos for a long time.

Of course.

If you have bad luck.

After going out, it was too far away from Donghua Palace, and I couldn't even find the location of Donghua Palace.

Then there is no other way.

"Forget it, I'm too lazy to think about it so much. Let's go to the Sea of Chaos first."

Zhang Yuhe touched the ring on his hand and thought silently in his heart.

Wu Yiyi is still by his side.

They did not separate because of the squeezing force of the vortex channel.

As time passes slowly.

I don't know how much time has passed.

Maybe it was endless years, or maybe it was just a moment.

Sudden.

A bright light appeared at the end of the vortex.

Before Zhang Yuhe could react.

A ferocious force spurted out from the vortex channel.

The huge force directly threw him away.

After a while.

Only then did Zhang Yuhe stabilize his body.

He looked back behind him.

All he saw behind him was a vast void.

As for the imaginary vortex channel, I don't know where it has been moved.

Zhang Yuhe slowly closed his eyes, silently comprehending.

After a while.

He just muttered to himself.

"I can feel the location of the fairy world, but now I can't find the way back."

"Forget it, maybe I'm not strong enough."

"When we become stronger in the future, we can find a chance to go back and have a look."

Zhang Yuhe calmed down and looked at the vast void in front of him.

He thought with some uncertainty in his heart.

Is this the Sea of Chaos?

You can't go to the wrong place.

...

Chapter 616 Sea of Chaos

Looking at the silence all around.

Zhang Yuhe almost doubted whether he had gone to the wrong place.

Was it because the channel vortex just now didn't send him to the Sea of Chaos?

Is this the Sea of Chaos?

Isn't it said that the sea of chaos is vast and mighty like clouds?

What the hell.

Let alone a human figure, he didn't even feel any sign of a living being.

It's like a place of nothingness here.

Section 839

"Will it be that the vortex channel throws me to a closed and dangerous place?"

Zhang Yuhe's heart trembled.

He closed his eyes slightly and silently felt.

It's different from the fairyland.

Zhang Yuhe did not feel the breath of the fairy spirit here.

But it was replaced by a more grand and heavy breath.

Zhang Yuhe suddenly had an epiphany.

As long as he refines these breaths, he can slowly improve his cultivation level.

"Is this divine power?"

Feeling the breath around him.

Zhang Yuhe can basically be sure that this is the Chaos Sea.

Because the vast breath must be true.

He can practice here and improve his cultivation.

In the fairyland.

This is impossible.

The ceiling of the realm in the fairyland is the first level of the virtual god realm.

After breaking through to the virtual god realm.

No matter how hard they try, they can't improve a little bit.

But here they can.

Obviously.

This is undoubtedly the Chaos Sea.

However, another headache soon appeared in Zhang Yuhe's mind.

Where is this Chaos Sea?

Where can I find land and where the monks gather?

Zhang Yuhe looked into the void, feeling lost.

He couldn't determine his position or the direction.

It was dark.

At this moment.

A figure flashed beside him.

Wu Yiyi showed up.

Feeling the familiar atmosphere around.

She jumped up excitedly.

"Haha, I'm finally back."

Wu Yiyi jumped and flew around quickly.

Like a young bird that had just escaped from a cage.

After a long while.

Wu Yiyi flew and landed beside Zhang Yuhe.

She said happily.

"Zhang Yuhe, thank you, I'm finally back."

Looking at Wu Yiyi's happy look.

Zhang Yuhe was worried.

There was nothing he could do.

He didn't know where he was and where he was going.

He was very confused.

Zhang Yuhe tried and asked Wu Yiyi.

"Yiyi, do you know where we are now?"

Wu Yiyi blinked, also looking confused.

"I don't know."

Zhang Yuhe was speechless.

He knew it.

It was useless to ask Wu Yiyi.

He shouldn't have too many expectations of Wu Yiyi.

Although Wu Yiyi was born in the Chaos Sea and was a True God.

But when she entered the fairyland, she was actually just born not long ago.

It was equivalent to a human infant.

Can you expect a child to show you the way?

Of course not.

Wu Yiyi didn't know anything.

But Zhang Yuhe didn't show too much disappointment.

It was expected, so there was nothing to be disappointed about.

We still have to find a way to determine the location first, and then find the gathering place of the cultivators.

As long as we can meet a cultivator, we can naturally inquire about some information.

"Try to see if the boundless power of heaven and earth can be used in the Chaos Sea."

"If this teleportation power can be used here, it would be so convenient."

Thinking of this.

Zhang Yuhe made a stroke with his right hand.

However, there was no fluctuation in the void.

Not even a ripple could appear.

Zhang Yuhe frowned slightly.

He could feel that the space of the Chaos Sea was also composed of countless tiny particles.

Theoretically.

The boundless power of heaven and earth should be usable.

But in reality, it is not possible.

Zhang Yuhe pondered for a while.

He soon figured out the key.

When in the Immortal Realm.

He enlarged the tiny particles through abundant immortal energy.

This can open a series of transmission channels that go straight to the endless distance.

But in the Chaos Sea, it is impossible to do it.

Because the void here is countless times more stable than the Immortal Realm.

Even if he tried his best, he could not expand the particle vortex a little bit.

In the final analysis.

Or maybe his realm is too low and his strength is too weak.

He has a perfect teleportation theory but cannot put it into practice.

It's a bit sad.

Teleportation doesn't work, what should I do now?

Zhang Yuhe was very entangled.

You can't just find a direction and fly forward.

What if you get the wrong direction and go in the wrong direction, wouldn't that be nonsense?

Just when Zhang Yuhe was very distressed.

Wu Yiyi next to him said nonchalantly.

"Why do you think so much, just find a direction and fly forward."

"Sooner or later, you will encounter cultivators or find land where cultivators gather."

Hearing this.

Zhang Yuhe couldn't help but feel a little bit nervous.

"Is this okay? It won't fly farther and farther, right?"

Wu Yiyi said with a smile.

"Don't worry."

"What do you think the Chaos Sea is? Is it a vast ocean?"

"Of course not."

Section 840

"The Sea of Chaos is just an endless void."

"In this endless void, there are realms of different sizes scattered around."

"These realms are like islands in the sea."

"And each realm is composed of countless large and small void lands."

"The scope of each realm is extremely vast. Even the mighty God King cannot travel across a realm."

"If I guessed correctly, the realm we are in now should be Desert Sky."

"Desert Sky?"

Zhang Yuhe's mind moved slightly.

He knew the name of this place.

Back then, Lu Jiuzhou had left records on the stone tablet.

The continent where Donghua Palace is located falls within the scope of Desert Sky.

"Yiyi, are you sure?"

Zhang Yuhe asked with some uncertainty.

"It's definitely true. Although the exit of the passage in the original world is highly random, it will definitely not leave the boundary."

"I entered your primitive world from the desert sky."

"After I come back now, no matter how far I deviate, it will definitely not go beyond the desert sky."

Zhang Yuhe pondered slightly.

If Wu Yiyi is right.

They are within the scope of the Desert Heaven Realm.

The desert sky is composed of countless void lands and continents.

No matter which direction they fly, they will eventually encounter land and the local monks in the Sea of Chaos.

That being the case.

Then don't worry.

Think of this.

Zhang Yuhe waved his right hand.

A huge fairy ship appeared in front of the two people instantly.

This is just an ordinary yellow-level fairy ship.

Zhang Yuhe did not bring the Galaxy Fairy Ship.

He left the Immortal Ship Galaxy at the Dao Sheng Sect.

But it doesn't matter.

Even if it is an ordinary yellow-level fairy ship, there is still no problem in traveling.

"Yiyi, let's go."

"okay."

The two jumped onto the fairy ship.

Follow the magic formula and pinch it.

The fairy ship turned into a stream of light and quickly shuttled forward in the vast void.

...

Chapter 617 Changes in Hunyuan Scripture

A stream of light quickly passed through the void.

Zhang Yuhe sat cross-legged at the front of the fairy ship, while Wu Yiyi happily jumped back and forth on the fairy ship.

But at this time, Wu Yiyi was just an incarnation.

Her body, the Dao Enlightenment Tree, still transformed into a ring and was worn on Zhang Yuhe's hand as before.

Ever since being chased by Lu Jiuzhou.

Wu Yiyi was obviously a lot more cautious.

Before settling down.

She didn't dare to let her true body appear in the outside world.

The aura of the Enlightenment Tree is vast and boundless.

If there is no special cover, it will be easily discovered.

Wu Yiyi is scared now.

Except Zhang Yuhe.

She didn't dare to let anyone discover her existence.

Anyway, her body turned into a ring and was worn on Zhang Yuhe's hand.

It can also slowly absorb the divine power from the outside world.

It is equivalent to an automatic practice.

As a creature born from the origin of chaos.

The growth rate of the Enlightenment Tree is extremely slow.

So Wu Yiyi was not in a hurry.

It doesn't matter if you practice slowly.

Safety first.

"I don't know how long it will take to fly before we reach land."

"Why don't you try practicing the Hunyuan Heavenly Scripture first and see if it has any effect."

Although according to what Wu Yiyi said.

They should be within the desert sky.

As long as you fly in one direction, sooner or later you will encounter the land where the monks gather.

But Zhang Yuhe knew.

This requires luck.

If you're lucky.

It may only take a few hundred years of flight before you encounter an inhabited void land.

If you have bad luck.

That's a bit hard to say.

In the same realm, the distance between void lands is not fixed.

You only need to fly for a while to see it.

If it's too far apart.

Even the power of a true god would take hundreds of millions of years to fly.

It might even be longer.

Zhang Yuhe was not sure how long it would take them to find inhabited land.

During this long period of time, he must find something to do.

For example, practice.

Normally.

The skills in the immortal world can only allow people to practice to the first level of the Virtual God Realm.

After arriving at the Sea of Chaos, if you want to continue practicing.

You must find new techniques.

But the Hunyuan Heavenly Scripture he practiced was different from other techniques.

Zhang Yuhe always feels that.

Hunyuan Tianjing seems to have no upper limit.

You can keep practicing.

"Try it first."

Just do it.

Zhang Yuhe sat cross-legged at the front of the immortal ship, silently running the Hunyuan Scripture.

The vast aura around him slowly gathered towards him.

"It seems like it could really work."

Zhang Yuhe was slightly happy.

He can feel it.

As the Hunyuan Heavenly Scripture circulates, the surrounding divine aura auras.

Along the meridians, it is slowly gathering into the sea of dantian.

Dida...

The aura of divine power gathered into golden drops, gently dripping into the Dantian sea.

Golden ripples slowly swayed in the Dantian sea.

The crisp sound makes people feel as if they have become ethereal.
