

Top talent 841

Section 841

Just at this time.

Zhang Yuhe's expression moved slightly.

I saw him wave his right hand.

Two tall stone tablets instantly fell on the front of the fairy ship.

At this time, a faint golden light was blooming on the golden stone tablet.

See this situation.

Zhang Yuhe couldn't help but frown slightly.

"What's happening here."

Just now, I felt that something happened to the stone tablet stored in the space fairy weapon.

He immediately stopped practicing.

These two stone tablets respectively record the upper and lower volumes of the Hunyuan Scripture.

When in the fairy world.

The stone tablet has never changed in any way.

Even Zhang Yuhe tried to attack the stone tablet, but he didn't leave the slightest mark.

But after arriving at the Sea of Chaos.

These two stone tablets began to glow with golden light.

It's just weird.

Zhang Yuhe stood up and slowly took a few steps back.

"This stone monument is not going to explode."

Think of this.

Zhang Yuhe waved his right hand.

Nine fairy swords appeared in a flash, slowly flowing around the body.

At the same time, he also activated the formation on the fairy ship, hoping to cover up the blooming phenomenon of the stone tablet.

At this time Wu Yiyi walked behind.

She asked curiously as she looked at the stone tablet glowing with golden light.

"What's happening here?"

She had seen these two stone tablets before.

When in the fairy world.

Zhang Yuhe has been placing the stone tablet in the valley of Yitian Mansion.

But it was normal before and there has never been any change.

Now these two stone tablets are glowing with a faint golden light.

It's just magical.

Zhang Yuhe shook his head gently.

He didn't know what exactly happened, so he was just on guard.

He tried to put the stele away again.

But the stone tablet didn't move at all.

It is clear.

Before the change ends.

He could not put away the stone tablet.

The origin of the Hunyuan Heavenly Scripture has always been a mystery.

Zhang Yuhe was a little worried.

Could this be a trap set by a powerful person?

As time passed slowly, the golden light blooming on the stone tablet became more and more intense.

Huh.....

Zhang Yuhe suddenly discovered.

The two stone tablets seemed to be slowly getting closer.

After a while.

The two stone tablets gradually merged into one.

at the same time.

The golden light became more and more intense, almost covering the entire void.

Even if he activated all the formations on the fairy ship, he still could not hide this vast golden phenomenon.

Zhang Yuhe looked nervously into the distance, thinking with some worry in his heart.

"It won't be discovered."

He had always wanted to meet the indigenous monks of the Sea of Chaos.

But now I don't want to.

The stone tablet that now records the Hunyuan Scripture has obviously undergone some kind of change.

The vast golden light shines in the endless void.

If discovered.

Wouldn't it make people think that he has found a treasure?

That would be too dangerous.

When in the fairy world.

Zhang Yuhe is an invincible being and is not afraid of anyone.

But in the Sea of Chaos, he didn't dare to be arrogant.

If a god-king with evil intentions appears, he won't even be able to run away.

"Fortunately, this is a deserted void."

Zhang Yuhe looked into the distance and breathed a sigh of relief.

However, he was still cautious.

Even Wu Yiyi, who was originally jumping away, became quiet at this time.

Obviously she also knew that the situation was not good now.

The two stone tablets merged into one, and the golden light bloomed.

Like a candle in the dark, it is so dazzling.

If someone happens to be passing by nearby.

Anomalies are bound to be found.

The fairy ship hovered in place.

Zhang Yuhe and Wu Yiyi looked nervously into the distance and were on guard.

Time passes slowly.

I don't know how much time has passed.

The golden light blooming on the stone tablet finally began to slowly converge.

Another moment passed.

The stone tablet finally fell silent and returned to its original simplicity.

The only difference is.

There were originally two stone tablets, but now they have merged into one.

The size of the stele has also not changed.

I don't know where the extra parts went.

It's just weird.

Zhang Yuhe didn't have time to think too much.

I didn't look carefully at the changes on the stone tablet.

When the golden light completely converges.

He stretched out his right hand and quickly put away the stone tablet.

Then he turned back to Wu Yiyi and said.

"Come on, let's get out of here quickly."

Zhang Yuhe quickly used the magic formula.

The fairy ship turned into a stream of light and disappeared into the vast void in an instant.

...

Chapter 618 Chaos Scripture, Gods and Demons Killing Heaven Sword Formation, Gods and Demons Clone Technique

Zhang Yuhe drove the fairy ship into a stream of light and quickly left the scene of the incident.

At this time, his consciousness was fully unfolded, and he vigilantly checked the surrounding situation.

I was afraid that one or two strange monks would appear.

The vision emitted by the stone tablet just now was truly astonishing.

Section 842

If someone is attracted here, he will be in big trouble.

He has to leave quickly.

After flying for a while.

Zhang Yuhe felt that flying by the fairy ship was still too slow.

They must fly as far as possible in the shortest time.

The farther they run, the safer they will be.

Thinking of this.

Zhang Yuhe turned around and said loudly.

"Yiyi, I'm going to fly with my body skills."

After saying this.

He put away the fairy ship and used his body skills to fly quickly to the distance.

Since he realized the teleportation power of the boundless heaven and earth.

Zhang Yuhe has not used his body skills to the fullest for a long time.

When he was in the fairy world.

He only needed to cut open the void with his hand to teleport to any place.

But in the Chaos Sea, he couldn't do it for the time being.

With his current strength, the teleportation power cannot be used in the Chaos Sea.

Maybe when he is promoted to the True God Realm in the future, he can probably try it.

Zhang Yuhe used all his strength to move forward in the void.

Although the speed of the Galaxy Dragon Body Skill is far from comparable to the teleportation magic,

but when he used all his strength,

it was still much faster than the yellow-level fairy ship.

In fact, in addition to flying by himself,

Zhang Yuhe had a better way to leave the scene quickly.

That was to let Wu Yiyi's Enlightenment Tree take him away quickly.

After all, Wu Yiyi had the cultivation of the True God Realm.

Although she did not have combat magic, her speed of escaping was indeed very fast.

Otherwise,

she would not have been able to escape from Lu Jiuzhou at the beginning.

However, Zhang Yuhe considered that the Enlightenment Tree was too eye-catching.

If someone bumped into it,

that would be a real big trouble.

It would be better to fly by himself.

Although the speed would be slower, there was still room for maneuver.

Even if he ran into other cultivators, he could still deal with them with words.

Zhang Yuhe used all his strength to move forward in the Galaxy Dragon Body Skill, flying quickly all the way.

The surrounding void was completely silent, and he did not encounter any human figure.

This is good news.

Although the strange phenomenon on the stone tablet just now was shocking.

But in the vast area around it, there may be no land where cultivators live.

So no one saw the strange phenomenon just now.

After flying for half a month.

Zhang Yuhe finally breathed a sigh of relief.

Now he has flown such a long distance.

Even if he encounters the native cultivators of the Chaos Sea again.

No one will connect him with the previous strange phenomenon.

Thinking of this.

Zhang Yuhe released the fairy ship.

As the spell was pinched.

The fairy ship turned into a stream of light and continued to fly forward quickly.

After Zhang Yuhe opened all the forbidden formations on the fairy ship.

Then he slowly sat down.

Before, he used all his strength to activate his body skills and flew for half a month.

He was really tired.

Zhang Yuhe silently operated the Hunyuan Heavenly Scripture, and the divine power around him quickly gathered towards him.

The originally tense nerves began to relax gradually.

Three days later.

Zhang Yuhe finally returned to normal.

He stood up slowly, muttering to himself in his heart.

"Let me see, what changes have happened to that stone tablet?"

The two stone tablets that recorded the Hunyuan Heavenly Scripture actually merged into one.

Such a sudden change caught him off guard.

Zhang Yuhe felt vaguely.

This might be a good thing.

Maybe it activated the subsequent exercises of the Hunyuan Heavenly Scripture.

Zhang Yuhe's mind moved slightly.

A tall stone tablet slowly stood at the front of the fairy ship.

The stone tablet was still plain and empty.

If it was placed outside, no one would care.

Zhang Yuhe released a ray of consciousness and carefully touched the stone tablet.

Boom...

A huge amount of information instantly poured into his mind.

"Chaos God and Demon Scripture".

"God and Demon Sword Formation".

"God and Demon Clone Technique".

Zhang Yuhe stood there in a daze, slowly digesting the huge flow of information.

After a long time.

He slowly came to his senses.

At this time, Zhang Yuhe's face could not help but show ecstasy.

He murmured to himself.

"Too powerful."

It turned out that the stone tablet really recorded the subsequent exercises of the Hunyuan Heavenly Scripture.

The subsequent exercises of the Hunyuan Heavenly Scripture are called the Chaos God and Demon Heavenly Scripture.

With a technique.

Zhang Yuhe can practice all the way to the Supreme Realm.

The once foggy road of practice instantly became a smooth road.

Not only that.

In the subsequent exercises, two powerful magical powers are also attached.

They are the God and Demon Zhutian Sword Formation and the God and Demon Clone Technique.

The God and Demon Zhutian Sword Formation is easier to understand.

Zhang Yuhe carefully comprehended it for a while and understood it roughly.

This should be the upgraded version of the Nine Heavens Hunyuan Sword Formation.

The previous Nine Heavens Hunyuan Sword Formation was a comprehensive magical power that combined attack and defense.

Especially in terms of defense, it was extremely powerful.

The new God and Demon Sword Formation was a pure attacking magical power.

The nine swords merged into one, which could destroy the heavens and destroy the Tao.

This was an extremely terrifying magical power.

But what Zhang Yuhe felt sorry for was that

He is currently unable to practice this God and Demon Sword Formation.

Because the starting point for practicing this sword formation is to have the cultivation of the True God Realm.

Section 843

Moreover, it is necessary to promote the natal immortal weapon to the level of true divine weapon.

Only if these two conditions are met.

Only in this way can the magical power of this sword formation be carried and the strength of the sword formation be brought out.

Compared to the Gods and Demons Killing Heaven Sword Formation.

Another newly activated magical power, the art of clones of gods and demons.

Zhang Yuhe was even more shocked.

Because this is a kind of supernatural power.

The clone technique is completely different from the three thousand incarnation magical powers he had practiced before.

The avatar has no independent thought and cannot use fairy weapons.

And it is two levels lower than the main body's strength.

As Zhang Yuhe's strength improved.

Thirty million transformations of this magical power are almost useless.

There are very few scenarios available.

But the clones condensed by this god and demon clone technique are completely different.

According to the description on the stone tablet.

By practicing the art of avatars of gods and demons, one can be divided into nine parts.

Including his own body, there are ten individuals in total.

The clone not only has independent thinking and can independently use fairy weapons and artifacts, but also shares the soul with the main body.

Moreover, every clone has the same cultivation strength as the main body.

Even the clones are okay. They can practice alone and understand the rules and magical powers alone.

As the clone's strength increases, the main body's strength will also increase.

In simple terms.

As long as you successfully cultivate this magical power.

Then Zhang Yuhe is equivalent to becoming ten people.

Ten people practice, and ten people fight.

And once there is a crisis.

As long as there is still a clone, it can be regarded as the main body.

Soon, another nine clones can be condensed again.

This is equivalent to having nine lives.

Who can kill him?

As long as his main body and nine clones are not killed at the same time.

Then he can't die at all.

After Zhang Yuhe successfully cultivates this magical power.

He will definitely arrange one or two of the clones in a secret place that no one knows, and hide and practice quietly.

The main body and other clones are active outside.

In this case.

As long as his clones are not found, no one will dare to attack him, right?

Someone who can never be killed.

Who dares to be invincible?

"It's really too powerful."

Thinking back to the description on the stone tablet about the supernatural power of the God and Demon Clone Technique.

Zhang Yuhe couldn't help but be amazed.

"But I like it, hehe."

...

Chapter 619 Donghua Palace, God King Yuanhe

Looking at the tall stone tablet in front of him, Zhang Yuhe was extremely excited.

The Chaos God and Demon Scripture, the Demon God's Heaven-Slaying Sword Formation, and the Demon God's Clone Technique.

Zhang Yuhe believes it.

Any one of these techniques and supernatural powers would be earth-shattering.

With these things.

Zhang Yuhe had a foothold in the Sea of Chaos.

Even if you don't join any force in the future.

He can also grow gradually.

There is no need to worry about skills and supernatural powers like other monks.

"Where does the Chaos God and Demon Scripture come from?"

Zhang Yuhe looked at the stone tablet in front of him, filled with endless doubts.

There shouldn't be such an awesome technique in the fairy world.

Even Lu Jiuzhou couldn't achieve such a heaven-defying technique.

"Is it the Supreme True God?"

Zhang Yuhe thought silently.

The history of civilization in the fairy world is actually not too long.

Before Lu Jiuzhou entered the immortal world.

The fairyland is still a wild land.

The first creature to discover the immortal world should be the Supreme True God.

This powerful chaotic beast has always regarded the fairy world as its back garden.

But the Chaos Beast is just a savage creature after all.

There is no intention of enlightening living beings and propagating life and civilization.

Until Lu Jiuzhou appeared.

The fire of civilization in the fairy world has only begun to gradually ignite.

Zhang Yuhe guessed.

The Scripture of Chaos Gods and Demons should have nothing to do with Lu Jiuzhou.

He felt the greatest possibility.

The first two stone tablets.

Either it is the Supreme True God, something accidentally brought to the fairy world from the Chaos Sea of the outside world.

Or it is native to the fairyland and naturally conceived.

"A skill naturally nurtured by heaven and earth?"

"Is this possible?"

Think of this.

Zhang Yuhe couldn't help but shook his head silently.

Just at this time.

Wu Yiyi circled around the stone tablet several times.

After a while.

She asked Zhang Yuhe with some suspicion.

"Zhang Yuhe, does this stone tablet really record the skills you practiced?"

"Why do I see all these ghostly symbols?"

"It doesn't look like a skill at all."

Zhang Yuhe smiled slightly but said nothing.

When I was in the fairy world.

The Hunyuan Scripture is very special.

Whether it is placed in the first volume of Yu Fantian or in the first volume of the fairy world.

Except for himself.

No one has ever been able to understand.

Only in the stone tablet in the first volume, it can be vaguely seen that this is a technique called Dao Hunyuan Tianjing.

But no one has ever been able to understand its content.

Now the two stone tablets merge into one.

From the Hunyuan Heavenly Scripture, it became the Chaos God and Demon Heavenly Scripture.

Not even a single handwriting.

Wu Yiyi couldn't tell, this was normal.

Zhang Yuhe always felt that.

Section 844

This may be a technique unique to his chaotic body.

He doesn't even know.

Has there ever been a chaotic body in this world?

Maybe he is the first chaotic Taoist body in this world.

It may also be the only chaotic body.

Only he can comprehend the contents of the Scripture of Chaos Gods and Demons from the stone tablet.

Think of this.

Zhang Yuhe couldn't help but smile.

The only one in eternity.

It's pretty cool just thinking about it.

Maybe this is God's will.

He accidentally embarked on the path of cultivating immortals, accidentally activated the Chaos Dao Body, and accidentally encountered the Hunyuan Heavenly Scripture.

Wu Yiyi circled the stone tablet and after looking at it for a few times, she quickly lost interest.

As a creature born naturally from the origin of chaos.

She doesn't need any skills to automatically refine her divine power for her own use.

Wu Yiyi didn't have much interest in the monk's skills.

Even though this stone tablet records the Scripture of Chaos Gods and Demons, it does look a bit special.

She just felt a little curious.

...

The fairy ship continued to fly forward at great speed in the vast void.

Zhang Yuhe slowly sat down cross-legged.

He couldn't cultivate either of the two magical powers.

Whether it is the Gods and Demons Killing Heaven Sword Formation or the Gods and Demons Clone Technique.

All require cultivation at the True God Realm before you can start practicing.

However, Zhang Yuhe can directly practice the Chaos Gods and Demons Scripture.

Moreover, this technique is actually an evolved version of the Hunyuan Heavenly Scripture.

He doesn't even need to modify it, he can transform it naturally.

As the technique slowly moves.

Zhang Yuhe seemed to be transformed into a god and demon, and the aura of divine power around him quickly swarmed towards him.

Just briefly tried it.

Zhang Yuhe discovered it.

Now his cultivation speed seems to have improved a lot.

Zhang Yuhe made a rough estimate.

If nothing else bothers you.

It is estimated that it will only take a million years.

He can transform all the immortal energy in the Dantian sea into golden divine power.

That is to say, reaching the peak of the first level of the Virtual God Realm.

As for whether he can break through to the second level of the Virtual God Realm.

Then it depends on him whether he will encounter a bottleneck.

When in the fairy world.

Zhang Yuhe has always practiced smoothly and has never felt the existence of a bottleneck.

I wonder if after entering the Virtual God Realm, it will be as smooth as before.

In fact, Zhang Yuhe didn't know much about the common sense of cultivation above the Virtual God Realm.

He once asked Wu Yiyi.

Unfortunately.

Wu Yiyi didn't know much.

Not much better than him.

"Forget it, let's practice slowly first."

Zhang Yuhe did not hesitate.

Anyway, he can practice now.

Moreover, after switching to the Chaos Gods and Demons Scripture, the progress was even faster.

When I was in Daluo Realm.

It would take millions of years for him to break through a small realm.

It only takes a million years now.

You can cultivate to the peak of the first level of Virtual God Realm.

It's already a big miracle.

Logically speaking.

The later the realm, the longer it should take.

But Zhang Yuhe felt that this was not the case for him.

Maybe this is the special effect brought about by the evolved technique.

...

A place far away from Zhang Yuhe.

The sacred mountains tower into the sky, and countless temples stand quietly among the sacred mountains.

This is where the mountain gate of Donghua Palace is located.

Just when Zhang Yuhe came out of the whirlpool passage.

In a certain temple in Donghua Palace, an old man in green suddenly opened his eyes.

I saw him pointing out casually.

A huge formation diagram slowly appeared in the temple.

The formation is extremely complex and mysterious, as if it is a vast world.

Look carefully.

I saw a tiny light spot at the edge of the array, slowly moving forward.

See this situation.

The old man in green frowned slightly and murmured to himself.

"Lu Jiuzhou has been dead for many years. Why did his lead order suddenly appear?"

"Is it a lucky person who accidentally got a pick-up order?"

The old man in green is none other than Donghua Palace, one of the three divine kings.

Yuanhe Divine King.

After Lu Jiuzhou's death, it caused quite a stir in Donghua Palace.

As a seventh-level disciple of the True God Realm, he is also a core disciple of Donghua Palace.

Who dares to attack him?

In order to find the murderer of Lu Jiuzhou.

God King Yuanhe once used Tianyan's magical power to make calculations.

However, the result is.

Lu Jiuzhou accidentally encountered a powerful chaos beast in a primitive world.

In the end, he was defeated by the Chaos Beast and fell.

After the derivation of the God King Yuanhe, these matters have come to an end.

Death at the hands of the Chaos Beast, Donghua Palace was helpless.

In the boundless sea of chaos.

In the vast void, you may encounter a Chaos Beast at any time.

No one would seek revenge on a Chaos Beast.

It is normal for monks to fight against the sky for their fate and die unexpectedly.

After Lu Jiuzhou fell.

His lead order was therefore left behind in that primitive world.

Donghua Palace did not send anyone to retrieve the reception order.

Now the receiving order appears again.

This made King Yuanhe feel a little surprised.

"Could it be that someone in that primitive world passed through the interface channel and came to the Chaos Sea?"

"What a lucky guy."

"Well, no, I have to send someone to pick him up."

"Otherwise, the Chaos Sea is extremely dangerous."

Section 845

"A person who has just stepped out of the virtual god realm of the primitive world may die of various accidents."

...

Chapter 620 Duan Changqing

King Yuanhe looked at the formation diagram in front of him and fell silent into thinking.

Follow the rules of Donghua Palace.

As long as you hold the induction order, you are considered a disciple of Donghua Palace.

Even if he has not arrived at the mountain gate and has not worshiped the ancestor, he is still a disciple of Donghua Palace.

Considering that this new disciple may have just stepped out of the primitive world.

The most powerful one is at the first level of Virtual God Realm.

With such strength, wandering in the chaotic void is really too dangerous.

It would be better to send someone over to pick him up.

Don't make it to the end.

This disciple died outside before he even started.

That would be a bit embarrassing.

Think of this.

King Yuanhe took out a jade talisman.

With a pointing out.

The surface of the jade talisman emits a little spiritual light, which quickly spreads into the distance.

The top of a sacred mountain in Donghua Palace.

Duan Changqing sat cross-legged on the top of the mountain, silently comprehending the illusory rules of the great road.

As early as countless years ago, he had already cultivated the realm of divine power to the perfection of the True God Realm.

But in terms of rules, there hasn't been much progress.

I want to break through to the realm of God King.

Not only do you need to cultivate your divine power to the perfection of true god, but you also need to understand a rule of law to the state of great success.

In his early years, Duan Changqing used the Heaven-Splitting Spear to break through to the true divine realm.

Unfortunately.

The rules are hard to understand.

For so many years.

He only understood the rules of the Sky-Splitting Spear and reached the realm of small success.

If you want to go further, you have absolutely no clue.

He also tried to understand it in a different way.

There are thousands of avenues in the Sea of Chaos.

Theoretically speaking.

There is absolutely no upper limit to the rules and avenues that everyone can comprehend.

As long as the talent matches and the understanding is good enough.

There is really no problem in comprehending ten or eight avenues at the same time.

But in fact.

Every rule and avenue is so illusory and incomprehensible.

Countless monks have wasted hundreds of millions of years, unable to even comprehend the rules and get started.

A large number of False God Realm monks are unable to understand the rules and get started.

In the end, they were all stuck outside the threshold of true God.

Never make any progress in your life.

The road is difficult, nothing like it.

The same is true for Duan Changqing.

He wanted to change to a new path of rules, but in the end he couldn't even get started.

No clue at all.

Later Duan Changqing gave up.

he knows.

Although his progress on the Sky-Splitting Spear Avenue has been extremely difficult.

But this is indeed the path of rules that is most suitable for his cultivation.

No matter how difficult it is.

He can only follow this avenue until the end.

If you want to practice another way, you should at least wait until you are promoted to the God King before considering it.

Just at this time.

Duan Changqing's expression moved slightly.

I saw him stretching out his right hand.

A jade talisman appeared in his hand.

After playing a magic formula.

The voice of God King Yuanhe came faintly from the jade talisman.

"Changqing, come here."

Duan Changqing stood up slowly, and he couldn't help but have some doubts in his heart.

"No major events have happened in the palace recently. Does Palace Master Yuan He have something important to explain?"

There are three great divine kings in Donghua Palace.

Among them, the grand master of the palace, King Donghua, has not shown up for many years.

Duan Changqing has been practicing for countless epochs in Donghua Palace.

I have only met Donghua God King once.

As for the Lord of the Second Palace, King Duantian, I heard that he had traveled far away in his early years.

Duan Changqing has never been seen even once.

He only knew that this Second Palace Lord existed.

Only the Divine King Yuanhe sits in Donghua Palace all year round and is responsible for the specific affairs in the palace.

They can still be seen from time to time.

Of course.

The times mentioned here are at least calculated in units of ten thousand years.

to their level.

If nothing important happens.

Everyone is on their own, staying in the cave to polish their divine power or understand the rules.

Or travel around the world.

He couldn't even remember the last time Yuan He God King summoned him.

Duan Changqing rose into the air and flew quickly towards the distance.

King Yuanhe has summoned him, and there must be important matters.

There can be no delay.

After a while.

Duan Changqing arrived outside a main hall.

【Yuanhe Hall】

He stepped across the threshold and walked slowly into the hall.

"Disciple Duan Changqing, meet the Palace Master."

Saw Duan Changqing arriving.

King Yuanhe said with a smile.

"coming."

"I have something here that requires you to go out for a run."

"Palace Master, please give me your instructions."

Duan Changqing's words were very respectful.

Although he is the core disciple of Donghua Palace, his cultivation has already reached the Perfect God Realm.

Maybe by taking a gentle step, you can be promoted to the realm of God King.

But Duan Changqing knew that this step was like a natural chasm.

Donghua Palace for countless years.

There have always been many disciples of the True God.

But there have always been only three palace masters in the God King Realm.

The gap between true gods and divine kings is almost like the gap between mortals and immortals.

Section 846

The God-King is high above, and the true God walks in the world.

This is the normal state of the Chaos Sea.

Ordinary people may encounter true god monks, but they want to meet a god king.

That's almost impossible.

so.

Although King Yuanhe was famous for his amiable temperament in Donghua Palace.

Duan Changqing still behaved respectfully.

King Yuanhe didn't care.

I saw him wave his right hand.

The huge array slowly appeared in the hall again.

God King Yuanhe pointed to one of the faint light spots on the array diagram, and then said lightly.

"Many years ago, Lu Jiuzhou accidentally fell into a special primitive world, and the receiving order in his hand has reappeared."

"I guess it's a monk from that primitive world who got the order and came to the Sea of Chaos."

"According to the rules of Donghua Palace, those who hold the induction order are considered disciples of Donghua Palace."

"Go and bring him back."

After saying this.

King Yuanhe handed over a formation disk.

Then he continued.

"You should be able to find his location with this formation disk."

"Yes, Palace Master."

Duan Changqing took the formation plate, responded respectfully, then turned around and walked out of the hall.

Standing outside Yuanhe Hall.

Looking at the array disk in his hand.

Duan Changqing couldn't help but frown slightly.

He muttered to himself.

"Why is it in such a remote and remote area? I'm afraid it will take some time this time."

Duan Changqing rose into the air and quickly flew out of the mountain gate.

As he flew, he looked at the formation disk in his hand and silently planned the route.

I want to pick up that junior brother who has not yet started.

He had to switch teleportation arrays countless times, and then had to fly through many dangerous places.

Although I just went out to pick up someone, it was not a combat mission.

But the Sea of Chaos is vast and there are countless dangerous areas.

Ordinary people are traveling far away, and people may disappear while walking.

Duan Changqing knows.

His mission was actually not easy.

Otherwise.

King Yuanhe will not look for him anymore.

There are countless disciples in Donghua Palace.

How could he, the core disciple of True God's Consummation, need to be dispatched for ordinary affairs?

"Fortunately, we are still within the range of Donghuatian. We should be able to pick up people within ten thousand years. It won't take much time."

Duan Changqing flew quickly while silently calculating his trip.

...

Chapter 621 Xilinjiao

Just as Duan Changqing was rapidly moving forward through the continuous transformation of teleportation arrays.

At this time, Zhang Yuhe was standing on the fairy ship, looking into the distance with a solemn expression.

On the left front of the fairy ship.

A huge black vortex is slowly rotating.

As the vortex rotates, the surrounding void shatters, and the terrifying aura faintly spreads into the distance.

"What the hell is this?"

Looking at the black vortex in the distance, Zhang Yuhe had a solemn expression on his face.

Since entering the Sea of Chaos.

He thought that there would be no danger if he couldn't meet anyone in the void.

No idea.

Just now when he was practicing.

The fairy ship almost broke into the terrifying whirlpool.

If Wu Yiyi hadn't reminded him to change direction in time.

The consequences may be unpredictable.

The huge vortex in front of you is like a terrifying black hole that can swallow everything.

Whether it is the surrounding divine aura or other substances.

Even the faint lights in the void were swallowed up.

When the vortex turns.

The void was completely shattered and obliterated.

Looking at the huge vortex in front of him, Zhang Yuhe felt the terrifying aura of destruction.

True destruction.

All things are extinguished, and vitality returns to emptiness.

Looking at the black vortex in the distance.

Zhang Yuhe naturally thought of the Taoist skills he practiced.

Compared with the whirlpool in front of you, the chaos of Taoism is nothing more than child's play.

Although the principles seem to be somewhat similar.

But the size and power are completely different.

the most important is.

The huge vortex in front of me seems to exist forever.

It has been spinning slowly, endlessly.

"What on earth is this vortex?"

"Is it some kind of special scene in the Chaos Sea, or is it the lingering power of a powerful man?"

Zhang Yuhe stood on the fairy ship and looked carefully for a long time, but he couldn't figure out the reason.

He turned to Wu Yiyi and asked.

"Yiyi, do you know what this is?"

"I don't know, I've never seen it."

Wu Yiyi shook her head gently, and then continued.

"But I know that this vortex is very dangerous."

"If I get a little closer, even my body, the Enlightenment Tree, will have no chance of escaping."

Zhang Yuhe nodded lightly.

"Let's take a detour."

For unknown things, it is better to avoid them as much as possible.

Zhang Yuhe didn't have any ideas for curious exploration.

He doesn't want to die yet.

Fortunately, this black vortex is only slowly rotating and expanding.

It won't move,

They just need to go far away and continue on their way.

The fairy ship made a big turn and continued to move in the established direction.

Ever since I encountered this vortex.

Zhang Yuhe no longer dared to immerse himself in cultivation.

There are too many unknown dangers in the Chaos Sea.

Even when you are on the road, you must always pay attention to the surrounding situation.

Otherwise.

There may be accidents.

"Hey, I don't know where this is?"

Driving the fairy ship in the vast void, moving forward quickly.

Section 847

Zhang Yuhe couldn't help but sigh.

This is a place with no village in front and no store in back.

Not even a human figure.

He doesn't know his place either.

It feels like a blind man touching an elephant.

Although it has reached the Sea of Chaos.

But nothing.

"I hope we can find a land where monks live sooner."

Time passes slowly.

Zhang Yuhe continued to fly in the void for nearly ten thousand years.

During this period, he was stunned that he didn't even see a single figure.

He has encountered many dangerous situations.

Inexplicable meteorites crashed down, and terrifying aurora rays swept across.

There were void cracks that suddenly appeared, and he even encountered a Chaos Beast.

However, when Zhang Yuhe was driving the fairy ship, he always vigilantly observed the surrounding situation.

Every time he encounters danger, he can detect it in advance and take a detour.

Zhang Yuhe was speechless.

It flew continuously in the silent void for nearly ten thousand years.

An ordinary monk would probably be a little unable to bear it.

Staying in such a silent environment for a long time can drive people crazy.

That's when.

Wu Yiyi suddenly shouted loudly.

"Look, there seems to be a land over there. It seems to be inhabited."

Um?

Zhang Yuhe looked in the direction pointed by Wu Yiyi.

I saw a faint shadow appearing in the distance ahead.

Where the shadows were, there was a faint glow.

See this situation.

Zhang Yuhe couldn't help but be overjoyed.

"Haha, it does seem to be an inhabited land."

Over the past ten thousand years.

They have also encountered many lands in the void.

But those places were completely silent.

There are no traces of civilization.

Now it is finally possible to find the monks from the Chaos Sea.

How could this make him unhappy?

Humans are social creatures.

Even monks are no exception.

Being in an unknown environment for a long time without seeing anyone is unbearable.

Especially now that he has come to the Sea of Chaos for the first time.

His eyes darkened.

Find a place without people and inquire about the situation in the Sea of Chaos.

He was really worried.

"Come on, let's go over and take a look."

The Void Land seems to be close at hand, but in fact it is extremely far away.

The fairy ship continued to fly for half a month.

Zhang Yuhe finally saw lights flashing around him from time to time.

In the distant void land, some outlines can be clearly seen.

As it flies closer and closer.

Zhang Yuhe was slightly surprised.

Originally he thought.

This might just be a fragment of land on the edge.

However, after seeing clearly the outline of this land.

He just found out.

This is actually a land that is wider than the Immortal World.

"There won't be any powerful monks here, right?"

Think of this.

Zhang Yuhe's heart trembled, and he slowly restrained his aura.

He just wanted to slowly get some information.

It's better to keep a low profile.

Wu Yiyi next to her seemed to know what Zhang Yuhe was thinking.

She said nonchalantly.

"Oh, don't be so nervous."

"A land like this in the void can only have the Void God Realm at most, and there can be no stronger monks."

Zhang Yuhe smiled faintly and said nothing.

Anyway, there is nothing wrong with keeping a low profile.

...

Two days later.

Zhang Yuhe was walking in the city.

After simple observation.

He has learned.

The name of this void land is called Xilinjiao.

The largest city among them is Xilin City at his feet.

There are five virtual gods in the city, representing the three forces respectively and commanding the entire Xilinjiao.

Among them, the most powerful ancestor of Xishan is only at the sixth level of the Virtual God Realm.

Such strength does not pose a threat to Zhang Yuhe at all.

Not only that.

He also inquired.

Xilinjiao is within the scope of Donghuatian.

But this place belongs to the edge of Donghuatian.

I want to go to Donghua Palace from here, where Donghua World is located.

There is still an extremely long distance.

It requires countless transformations of teleportation arrays and a lot of dangerous terrain to reach Donghua Palace.

But the problem is.

There is no teleportation array in Xilinjiao.

The continent with the teleportation array recently, at his flying speed, would probably take thousands of years to fly.

"There's no rush, stay here for a while first, it's best to get a detailed route map to Donghua Palace."

Zhang Yuhe is not in a hurry now.

He planned to learn more about the situation of the Sea of Chaos at Xilinjiao.

By the way, let me ask for the route map to Donghua Palace.

Just think of it as a period of rest.

...

Chapter 622 Xilinyuan No. 9

Chapter 622

East of Xilin City.

The mountains stretch continuously, and luxurious manors are scattered sparsely among the mountains.

Two streams of light quickly passed through the mountains.

A plump female cultivator led the way, and Zhang Yuhe followed unhurriedly.

After a while.

Section 848

They landed outside a manor.

The female cultivator said politely.

"Senior Zhang, this is the Xilin Courtyard No. 9 that you rented."

"The divine power here is strong, and there is a formation defense in the courtyard."

"As long as the formation is turned on, there is no need to worry about being disturbed."

"Xilin City has the old ancestor of the virtual god sitting in charge, and no evil cultivator dares to come and make trouble."

Zhang Yuhe nodded gently, and then said lightly.

"Let's rent it here for 10,000 years first. Here are 200 divine crystals."

After saying this.

He handed over a storage bracelet.

The female cultivator took the bracelet and glanced at it, then took out a formation plate and handed it to Zhang Yuhe.

"Welcome senior to stay in Xilin City, I won't disturb you."

After saying this, the female cultivator turned into a stream of light and left.

Zhang Yuhe glanced at the formation plate in his hand and casually cast a spell.

The gate of the manor slowly opened.

After entering the manor

Looking at the lake and mountains in front of him, the pavilions and towers are all available.

He could not help but nod with satisfaction.

Two hundred divine crystals for a ten thousand year lease.

This price is indeed not cheap.

Zhang Yuhe had just come to the Chaos Sea.

He originally did not even have a divine crystal on him.

A penny can make a hero difficult.

He planned to stay in Xilin City for a while, so he naturally had to find a place to live.

He could not just open a cave outside the city.

Finding a place to live would cost money.

After two days of understanding.

Zhang Yuhe knew.

In the Chaos Sea, cultivators only recognize divine crystals.

There are no fairy stones or spiritual stones here.

No one wants them.

In order to get some divine crystals to spend.

Zhang Yuhe could only dig out a scale from the body of the Supreme True God and sell it to the Xilin Treasure Pavilion in the city.

Not to mention.

The Supreme True God is indeed full of treasures.

Just an ordinary scale was sold for five hundred divine crystals.

But it makes sense when you think about it.

The local strength of Xilinjiao is not that strong.

The scales of the Chaos Beast in the True God Realm may be considered rare treasures.

With their local strength, they are not capable of killing the Chaos Beast in the True God Realm.

Not to mention the Supreme True God, or the Chaos Beast in the Perfection.

The scales on its body are considered a very good treasure.

If it is used to refine an artifact.

It should be possible to refine a good True God artifact.

Things are precious because they are rare.

A scale of the Supreme True God can be sold for 500 God Crystals here,

which is reasonable.

With 500 God Crystals in hand, Zhang Yuhe finally got rid of his poverty.

These God Crystals are enough for him to use for a while.

Anyway, he doesn't plan to stay in Xilin City for too long.

After he has a general understanding of the situation in the Chaos Sea.

He is ready to go to Donghua Palace.

The cultivation civilization of Xilinjiao is really too weak.

In Zhang Yuhe's opinion.

This place is not even as good as the fairyland.

The strongest is only the sixth level of virtual god, and there is not even a true god.

Even in Xilin City, Zhang Yuhe did not see many Daluo realm.

Although.

The Chaos Sea is not full of virtual gods, and Daluo is worse than dogs.

But at a glance, Zhang Yuhe can tell.

This is indeed a remote and backward area.

There is no need to stay for long.

Zhang Yuhe slowly came to the backyard.

He waved his right hand.

One by one, the formation flags fell quickly around.

As the spell was pinched.

A faint light curtain slowly rose, covering the entire manor.

Although the manor originally had a formation defense.

But this is someone else's territory.

Zhang Yuhe is not at ease.

It is better to arrange it yourself.

When the formation was opened.

Zhang Yuhe said with a smile.

"Yiyi, come out."

"We may need to stay here for a while."

"During this time, your Enlightenment Tree can stay in the backyard to practice with peace of mind."

As soon as Zhang Yuhe finished speaking.

The ring on his left hand flew out of his hand.

It soon turned into a sapling about ten feet high, slowly taking root in the backyard.

A faint figure flashed beside the sapling.

Wu Yiyi showed up.

She shouted happily.

"Haha, this girl can finally come out to breathe."

Because she was worried about being discovered.

Wu Yiyi's Enlightenment Tree has been transformed into a ring and worn on Zhang Yuhe's hand.

Now it is temporarily settled.

She can also release her body and absorb the divine power of the outside world at will.

At this time.

A voice came from outside the yard.

"Is Daoyou Zhang here?"

Zhang Yuhe frowned slightly.

He muttered to himself.

"Someone came to me so soon?"

"The Liu family in Xilin City is quite quick."

Zhang Yuhe was not surprised when someone came to him.

When he took out the scales of the Supreme God for trading.

He had expected this to happen.

After all, not everyone can take out the scales of the Chaos Beast in the True God Realm.

Zhang Yuhe sold the scales in the Liu family's treasure pavilion.

The Liu family's people would naturally come to him to test his background.

Section 849

The three families of Xilinjiao, Liu, Chen and Wang jointly rule the entire continent.

Among them, the Liu family is the strongest.

The Liu family has two virtual gods, namely Liu Xishan and Liu Beiwang.

Zhang Yuhe sold the scales because he actually wanted to get in touch with Mr. Liu.

Let's see if we can get some more information from Liu's side.

For example.

Map directions to Donghua Palace.

Zhang Yuhe walked out of the hospital.

I saw an old man in purple robe standing quietly outside the door.

Saw Zhang Yuhe coming out.

The old man in purple robe said with a smile.

"Liu's family in Xiaixin, Liu Beiwan, met Daoyou Zhang."

"Nice to meet you."

Zhang Yuhe bowed his hands towards Liu Beiwan.

He didn't expect it.

He just sold a Chaos Beast scale and attracted Liu's virtual god realm.

But this is for the best.

Talk about being well informed.

In the entire Xiliniao, the Liu family must be the strongest.

Now that Liu Beiwan has come forward in person, he can get some information.

After the two were polite.

Zhang Yuhe then welcomed Liu Beiwan into the front yard.

After sitting down in the small pavilion in the front yard.

Liu Beiwan asked tentatively.

"Fellow Daoist Zhang looks a bit angry, I wonder where he comes from?"

Zhang Yuhe responded with a smile.

"I just broke through to the False God Realm, so I planned to walk around, and happened to come to the precious treasure land."

He was just rambling.

no way.

You can't say that you just came out of the primitive world, right?

Liu Beiwang was noncommittal, but he didn't pay much attention.

In this west corner, the Liu family is the biggest.

Moreover, the three families of King Liu and Chen of Xilin City are connected with each other.

We are not afraid of outsiders making trouble.

for them.

It doesn't actually matter where Zhang Yuhe comes from.

Even Zhang Yuhe, who had committed murder and arson in other places, came to Xilinjiao to take refuge.

That doesn't matter.

They don't know anyway.

The only thing that made Liu Beiwang curious was.

Where did Zhang Yuhe get that chaos beast scale?

When the previous manager of Bao Pavilion found him with the scales.

Liu Beiwang was a little shocked.

He has never seen a Chaos Beast that has reached the perfection of True God Realm.

Now there is someone selling such powerful chaos beast scales in Xilin City.

Naturally, he wanted to come over for a face-to-face meeting.

Moreover, a strange virtual god entered Xilin City.

As a local landowner.

Liu Beiwang had no reason not to come over and take a look.

...

Chapter 623 A hundred years of rest

The two of them were sitting in the pavilion, chatting.

However, the conversation was superficial and the two sides did not discuss anything practical.

Liu Beiwang picked up the tea cup and took a small sip.

After putting down the tea cup.

He tentatively asked Zhang Yuhe.

"Fellow Daoist Zhang, just now, we received the scales of a True God Realm Chaos Beast in the Xilin Treasure Pavilion."

"That was sold by fellow Taoist, right?"

"Yes, I'm a little short of money, so I have to sell the scales in exchange for some divine crystals."

Zhang Yuhe nodded lightly.

"Can I take the liberty to ask, where did you get this scale, fellow Taoist?"

Liu Beiwang finally asked the doubts in his heart.

At this time, Zhang Yuhe did not hide his aura.

Liu Beiwang could tell it at a glance.

Zhang Yuhe's strength is only at the first level of the Virtual God Realm, and it is impossible to defeat the Chaos Beast of the True God Realm.

Could it be that Zhang Yuhe is a disciple from a certain powerful force?

Ordinary monks shouldn't be able to come up with treasures of this level.

to be honest.

The sea of chaos is vast and boundless.

Just within the Donghua Domain, there are countless forces of varying sizes.

The Liu family of Xilin didn't even have the True God realm, so they could only be regarded as inferior beings.

If Zhang Yuhe comes from a certain powerful force.

Then they have to make friends as much as possible.

However, Zhang Yuhe said calmly.

"You said that scale, it was an accidental acquisition when I was wandering in the void."

Zhang Yuhe's words are false.

It doesn't sound like the truth.

But Liu Beiwang didn't care.

He just nodded slightly.

The conversation between the two parties was so superficial that it was impossible for them to tell the truth.

And he didn't mean to delve deeper into it.

Just ask it casually.

In fact, in Liu Beiwang's opinion.

Zhang Yuhe should be a powerful force from a certain True God Realm.

Maybe it was for some special reason that he wandered to Xilinjiao.

A person in the first level of the Virtual God Realm is really not a big shot in the Sea of Chaos.

But it's not Chinese cabbage either.

Usually they are people with some background.

Anyway.

If you can make friends with such people, try to make friends with them as much as possible.

There is no need to offend.

The two of them chatted attentively while sipping tea.

We had a great time talking.

From time to time, Liu Beiwang talked about interesting things about celebrities in Xilinjiao and the nearby mainland.

At this time Zhang Yuhe suddenly asked.

"Brother Liu, does he know how to get to Donghua World from here?"

"Uh, is Brother Zhang planning to go to Donghua World?"

Zhang Yuhe nodded lightly.

Liu Beiwang said with a sigh.

Section 850

"I advise you to give up this idea as soon as possible."

"The Donghua World is an endless distance from here."

"It takes countless transfer arrays to get there."

"The most important thing is that it is not enough to just sit on the transfer array."

"There are many places where there is no transfer array at all, and you can only fly by yourself."

"Just like our Xilinjiao, there is no transfer array."

"The nearest transfer array is Xuanyue City in Zhenji Continent."

"Brother Zhang, do you know how far Zhenji Continent is from here?"

Zhang Yuhe shook his head.

He also asked around in the city these days.

But he didn't get much useful information.

This is the first time he has heard the name of Zhenji Continent.

He doesn't know where it is exactly.

He doesn't know how far it is.

Liu Beiwang continued.

"With our strength, if we want to fly directly to the Zhenji Continent, it may take nearly ten thousand years."

"Ten thousand years does not seem to be a long time, but in fact, the strength of the general virtual god realm cannot fly to the Zhenji Continent at all."

"Why is this? Is there any dangerous place that cannot be bypassed?"

Zhang Yuhe asked in confusion.

He is not worried about spending more time.

Anyway, he has already had an infinite life span, so he can just fly slowly.

Zhang Yuhe is worried that there will be some unavoidable dangers on the road.

He encountered many dangerous situations when flying through the void before.

This is also because he is strong enough and vigilant enough.

Otherwise.

Maybe he would have fallen on the road not long after leaving the fairyland.

Liu Beiwang nodded gently.

"That's right."

"From Xilin Cape to Zhenji Continent, there is a place called the Sea of Mist, which cannot be bypassed at all."

"There lives a special creature in the Sea of Mist, called the Mist Beast."

"Among them, the most powerful Mist Beast is completely comparable to the True God Realm."

"People like us in the Void God Realm cannot pass through the Sea of Mist at all."

"Once you encounter a large group of mist, you will definitely die."

"If Brother Zhang plans to go to the Donghua World."

"I suggest you stay in Xilin City and wait for a while."

"There is a Chaos God Ship in Xilin City. With the speed and protection of the God Ship, you can pass through the Sea of Mist."

"But the Chaos God Ship only travels to the Zhenji Continent once every 100,000 years."

"The Chaos God Ship has not returned yet."

"If you wait for a trip to the God Ship, it will take about 80,000 to 90,000 years."

Hearing this.

Zhang Yuhe couldn't help but fall into deep thought.

He should be able to beat the True God Realm Mist Beast.

Even if he can't beat it, he should be able to run away.

I just don't know if there are many fog beasts of this level.

If there are only a few, then it's okay.

Even if the Hunyuan Guiyi magic is not activated.

Zhang Yuhe is confident that he can beat it.

If he uses a big move.

There is no problem in killing the fog beasts in the True God Realm.

As for.

Waiting for the Chaos Divine Ship in Xilin City, it is not necessary.

It will take another 80,000 or 90,000 years.

He can't wait.

He had a general understanding of the Chaos Divine Ship in the city before.

All forces in the Chaos Sea will invest heavily to purchase the Chaos Divine Ship.

Because the Chaos Divine Ship has super strong defense and speed.

It is the only choice for ordinary cultivators to travel in the Chaos Sea.

If there is no Chaos Divine Ship, like the three families of Liu, Chen and Wang in Xilinjiao.

They can only stay in this small place forever and can't communicate with the outside world.

It's a pity.

Something like the Chaos Divine Ship.

Zhang Yuhe couldn't get it at the moment.

The three families of Liu, Chen and Wang had accumulated the Chaos Divine Ship in Xilinjiao for many years.

They finally got one.

"Let's rest in Xilin City for a hundred years, and then prepare to go to Zhenji Continent."

Zhang Yuhe made a decision quickly.

If you want to go to Donghua World, you have to go to Zhenji Continent first.

In this case.

Of course he has to go there earlier.

Moreover, Zhenji Continent has the True God Realm sitting in charge, and the cultivation civilization is far from comparable to Xilinjiao.

After arriving there, maybe you can get more news.

After sending Liu Beiwang out of the manor.

Zhang Yuhe returned to the backyard and slowly sat cross-legged on the practice platform.

Through Liu Beiwang's words.

He finally had some general understanding of the Chaos Sea.

The Chaos Sea is vast and boundless, and it is already unimaginable within the scope of Donghua Domain.

Without the strength of the True God Realm, it is impossible to go too far.

There are all kinds of dangerous places between the continents.

Some continents that are closer can be connected by teleportation arrays.

But some continents don't even have teleportation arrays.

They can only fly by themselves.

It's far from safe for the Void God Realm in the Chaos Sea.

They can't even travel far.

Even with the help of the Chaos God Ship, they can only travel within a small range.

The Donghua Domain is so vast.

And the Donghua Domain is just a corner of the Great Desert Sky.

How many realms like the Great Desert Sky are there in the Chaos Sea?

Maybe except for those top-level masters, ordinary people don't know at all.

Zhang Yuhe really couldn't imagine it.

How big is the entire sea of chaos?

Is it truly infinite?

...

Chapter 624 Chaos Beast Wu Xiong

"The road of rules is really not that simple."

Zhang Yuhe stood up from the training platform and muttered silently to himself.

A hundred years have passed since Liu Beiwang came to visit last time.

During this time.

Zhang Yuhe went out to attend a party organized by the Liu, Chen and Wang families.

He has never left the manor and has been practicing silently in the manor.
