

Top talent 851

Section 851

After entering the virtual god realm, the progress of cultivation is extremely difficult.

Even though Zhang Yuhe is extremely talented and has the blessing of the Enlightenment Tree.

If he wants to be promoted to the second level of the Virtual God Realm, it will take at least a million years.

It is naturally impossible for Zhang Yuhe to stay in Xilin City for millions of years.

This still does not consider bottlenecks.

In order to improve your own strength as much as possible.

Zhang Yuhe tried to start with the rules.

According to the training system of Chaos Sea.

After the monks are promoted to the virtual god realm, they can start to understand the rules.

And every time you advance to a greater realm, you also need corresponding rules to support it.

For example, if a virtual god monk wants to be promoted to the true god realm, he must understand at least one rule of law.

Only then are you qualified to attack the True God Realm.

Zhang Yuhe thought.

He himself is very knowledgeable, and he also has Wu Yiyi by his side.

Isn't it trivial to understand and get started with a rule?

If he can successfully understand the rules, his strength will definitely improve a lot.

Thus.

It will be of great help to him when he goes to Zhenji Continent next.

However, the reality was like a basin of cold water poured on his head.

Zhang Yuhe quietly comprehended for a hundred years without touching the threshold of any regular avenue.

He had no idea where to start.

"Maybe I went in the wrong direction?"

Zhang Yuhe thought silently.

In the sea of chaos.

This is usually the case for monks when they have no way to advance in the realm of divine power.

Only then will you start to think about understanding the rules.

Because the rules of the road are too illusory.

Not only does it take a lot of time, but it also requires studying a large number of classics.

Find a hint of inspiration from the ancient books.

Only then is it possible to touch the threshold of the rules.

Zhang Yuhe has nothing.

I haven't read any classics, so I just want to understand the rules out of thin air.

It is indeed a bit of a fantasy.

Understanding is only an accelerator.

If there is no corresponding base speed, no matter how fast the acceleration is.

The final result is still zero.

After entering the sea of chaos.

The only classic that Zhang Yuhe obtained was probably the Chaos Gods and Demons Scripture, a newly evolved technique.

It's just that this technique may be too high-end.

Zhang Yuhe has been studying quietly for a hundred years, but still has not reached the threshold of the rule road.

He didn't even know what specific rules he could comprehend in this technique.

Maybe it's the rules of chaos?

Zhang Yuhe silently guessed.

The Chaos Gods and Demons Scripture may contain the rules of chaos.

But the rules of chaos are obviously not that easy for him to understand.

Chaos encompasses all things and contains endless changes and power.

To understand this avenue of rules not only requires a lot of time.

Maybe it still requires a certain amount of accumulation, and it also needs support from a higher realm.

He had just been promoted to the virtual god realm and wanted to understand the rules of chaos.

It was just a dream.

"Forget it, let's put aside the matter of understanding the rules for now."

"Anyway, with my current strength, I should be able to cross the Sea of Mist."

Zhang Yuhe still has great confidence in his own strength.

When he was in the fairy world, he could hammer the Supreme True God to death.

To know.

The Supreme True God is the perfect true God state of the Eight Sutras.

Even if it is placed in the Sea of Chaos, it is an extremely terrifying existence.

Although the Supreme True God was seriously injured at the beginning.

Zhang Yuhe also used tricks to force out the soul of the Supreme True God by relying on the supernatural power of the Soul-Destroying Finger.

Then he killed him in one fell swoop.

But anyway.

With his current strength, he would face the average true god realm.

He should be able to beat it, at least he won't be at a disadvantage.

If that doesn't work, he can still use his ultimate move.

The magical power of Hunyuan Guiyi has never let him down.

Think of this.

Zhang Yuhe took out a jade slip and looked at it carefully.

This was exchanged from Liu Beiwang at the last party.

The above is a detailed record of the route map from Xilinjiao to Zhenji Continent.

Especially the sea of mist on the way is described emphatically.

Look at the contents in the jade slip.

Zhang Yuhe was thoughtful.

It turns out that the Mist Beast is an illusory creature and has no entity.

Different according to color.

The monks divided the mist beasts into three types: black, silver, and gold.

Among them, the black mist beasts are the most numerous and can be found almost throughout the entire mist sea.

However, the strength of the black mist beast is not very strong, it is only equivalent to Tai Luo Xian among monks.

Relatively speaking, the number of silver mist beasts is not too large.

Normally.

There are only one or two mist beasts in each team.

The strength of the Silver Mist Beast is equivalent to the False God Realm among monks.

It's no longer considered weak.

However, after crossing the foggy sea, the biggest threat comes from the golden fog beast.

The strength of every golden mist beast is comparable to that of a True God cultivator.

The strength is extremely terrifying.

Ordinary False God Realm, when crossing the Sea of Mist.

Once you encounter the golden mist beast, you will almost die.

So under normal circumstances.

The monks from several nearby continents wanted to cross the Sea of Mist.

They will all slowly wait for the Chaos Divine Boat.

Although the Shenzhou ferry ticket is very expensive, and if you miss the time.

It might take a hundred thousand years.

But for your own safety.

Everyone will be waiting.

...

While Zhang Yuhe was still studying the contents on the jade slip carefully.

When planning to find a relatively safe route.

At this time, he was in the void not far from Xilinjiao.

A huge lizard beast quietly revealed its figure.

The terrifying might of the giant lizard beast shrouded a large area of void.

Section 852

obviously.

This is a powerful chaos beast.

Around the Chaos Beast, there are fragments of broken fairy ships everywhere.

A bunch of gleaming fairy weapons floated feebly.

As for the owners of these immortal weapons, they disappeared without a trace.

Apparently it had been devoured by the Chaos Beast.

The giant lizard rolled its tongue, with a drunken expression on its face, and said to itself excitedly.

"It still smells like a monk."

"I didn't expect that Wu Xiong, the beast master, has been wandering in the void for countless years, and I can still encounter a small continent of monks here."

"If we eat up all the monks on this continent."

"It should allow me to evolve to the true god realm."

Looking at the Xilinjiao Continent in the distance, Wu Xiong drooled.

Chaos beasts grow by devouring everything.

In their eyes, monks are the best food for evolution.

If they can swallow a large number of monks, they can evolve and grow quickly.

Unfortunately.

In the sea of chaos, the overall strength of the monks is extremely powerful.

Far from being able to compete with Chaos Beasts, they can only wander in the endless void.

Unless it is a powerful Chaos Beast.

Otherwise.

They simply don't dare to break into the monk's territory.

How could Wu Xiong not be excited when he unexpectedly came across a small continent of monks.

If you can devour all the monks on this continent.

That's a wave of fat.

It is better than wandering in the chaotic void for countless epochs.

"Observe carefully first. I hope there won't be too powerful monks on this continent."

Wu Xiong's huge eyes seemed to be flashing with the light of wisdom, and he looked at Xilinjiao Continent quietly.

...

Chapter 625 The Chaos Beast Attacks

Wu Xiong's huge body quickly and silently shuttled through the void outside Xilinjiao.

The monks who occasionally met outside were easily swallowed by it.

After repeated confirmation.

Wu Xiong couldn't help but reveal an excited smile in his huge lizard eyes.

"Sure enough, it's just a small continent. There are no powerful monks here."

"The strongest one is the sixth level of the False God Realm."

"Haha, I'm going to be strong."

"Hurry up and eat up all the monks on this continent, and then run away quickly."

Wu Xiong knew very well.

Once the continent where the monks were located was attacked by chaos beasts.

They will send a message for help soon.

The powerful monks nearby may come to support them soon.

Although the small continent in front of us does seem to be isolated.

The nearest continent is extremely far away.

Even if the monks here ask for help, it will probably take many years before a powerful monk arrives.

despite this.

In order to avoid long nights and many dreams.

Wu Xiong still planned to do it as quickly as possible.

Run away after eating.

It didn't want to be caught by a powerful monk.

In case there are True God Realm monks nearby, please come and provide support.

Then it's finished.

Think of this.

Wu Xiong's huge lizard body carries a terrifying pressure.

He quickly swooped towards Xilin City.

It has been checked out.

There are only six virtual gods in total on this continent in front of them.

And they are all concentrated in the city below.

Just kill these six virtual gods.

Then the remaining monks will no longer pose a threat.

It's just food.

Just when Wu Xiong's figure appeared in the sky above Xilin City.

The city suddenly heard loud sirens.

A huge light curtain slowly rose in the city.

In the north of Xilin City.

A majestic palace stands quietly among the mountains.

At this time, Liu Beiwang was talking to an old man in white.

Suddenly an alarm bell was heard.

The old man in white stood up suddenly.

The two quickly flew outside the hall.

Liu Beiwang couldn't help being shocked when he saw the huge figure in the sky.

He turned back to the old man in white next to him and asked tremblingly.

"Ancestor, what level of chaos beast is that? It can't be in the true god realm."

Feel the terrifying pressure of the Chaos Beast in the sky.

Liu Beiwang was completely panicked.

He has never seen such a powerful chaos beast.

That's ok.

The strength of this chaotic beast must be countless times stronger than his own.

The old man in white next to him is none other than the first monk in Xilinjiao and the ancestor of the Liu family, Liu Xishan.

Looking at the huge lizard monster in the sky.

Liu Xishan's face was solemn.

After a while.

He said slowly.

"We're in big trouble."

"Although this Chaos Beast is not in the True God Realm, it is probably already at the peak of the False God Realm."

"Immediately send a message for help. I hope there will be a true god nearby."

Liu Xishan knows very well.

Facing the Chaos Beast at the peak of the False God Realm, they had absolutely no chance of winning.

Even if they rely on the formations in the city, they probably won't be able to hold on for long.

Their only hope is that there happens to be a true god passing by around them.

Otherwise.

Not to mention their Xilin Liu family.

I am afraid that all the monks in the entire continent will eventually become food for the Chaos Beasts.

Except for those in the False God Realm, they might still have a chance to escape.

Other cultivators couldn't even run away.

Boom...

Wu Xiong waved his huge claws and fiercely slapped the light curtain above Xilin City, making a deafening sound.

A large part of the light curtain suddenly collapsed, and then slowly recovered.

The formation of the Chaos Sea is obviously not comparable to the Immortal Realm.

When in the Immortal Realm.

Section 853

Due to the huge size of the Chaos Beast, its attack power is extremely fierce.

No level of defensive formation can stop the Chaos Beast's attack.

However, the formation of Chaos Sea is obviously somewhat different.

Even facing Wu Xiong, a powerful chaotic beast.

Xilin City's defensive formation did not shatter instantly.

But that's it.

Anyone with a discerning eye can see it.

Defensive formation alone obviously cannot sustain it for long.

At this time, the city was in chaos.

A large number of monks rose into the sky.

Looking at the huge lizard beast in the sky, everyone was completely panicked.

They have lived in Xilinjiao Continent for countless years.

Although they had been attacked by chaos beasts before, they were eventually repelled by the three families of Liu, Chen and Wang.

But the Chaos Beast in front of him was obviously different.

The terrifying power is extremely terrifying to look at.

Just at this time.

Three figures quickly crossed the sky and landed next to Liu Xishan.

This is the virtual god monk from the Chen and Wang family.

Facing the threat of chaos beasts.

They immediately ran over to join Liu Xishan.

King Liu and Chen of Xilin City have three families connected by the same spirit.

Whenever encountering danger, under the leadership of Liu's Xishan ancestor.

The three of them work together and can always get through it.

Chen Yudong, the ancestor of the Chen family, asked Liu Xishan with a solemn expression.

"Brother Xishan, why did a Chaos Beast suddenly attack? What should we do now?"

"Yes, the aura of this Chaos Beast is so terrifying. Doesn't it feel much weaker than the True God?"

"I'm afraid we are no match."

"Brother Xishan, please come up with a charter. How should we respond?"

The ancestor of the Wang family next to him also said anxiously.

Liu Xishan took a deep breath, and then spoke slowly.

"I have sent out a message for help. I hope there is a true god passing by nearby."

"We'll face the enemy now, if we really can't hold on."

"Then we have no choice but to give up our foundation and leave our country."

After hearing this, everyone fell silent.

There is still a chance to run them.

After all, these five of them all have cultivation levels in the Virtual God Realm.

And among them, Liu Xishan is still at the sixth level of the Virtual God Realm.

Face the Chaos Beast in front of you.

Even if they can't be beaten, they should still be able to escape.

But they can run away, but what about the others?

There are so many monks in Xilinjiao.

Almost all of them are descendants of the three families. Should they all be abandoned?

"Meet the enemy first."

Just when Wu Xiong waved his huge paw, he was about to take the photo for the second time.

Liu Xishan quickly rose into the air.

A divine sword with a spiritual light like water turned into a dazzling stream of light and quickly cut towards the lizard monster's claws.

Boom...

The divine sword only cut a faint white mark on the lizard monster's claws.

He was quickly shot and flew out.

Not only that.

The divine sword that was originally shining with aura dimmed instantly.

Wu Xiong just slapped the sword casually, and the sword was seriously damaged.

Liu Xishan stretched out his hand and the divine sword fell back to his side.

At this time, his face was completely pale.

His divine sword was damaged, and he was also seriously injured.

Just a single move from a distance could injure him.

The Chaos Beast in front of them was beyond what they could deal with.

But there is no way.

They can't run now.

He didn't want to abandon Xilinjiao's foundation as long as there was a chance.

This is the inheritance that their Liu family has built for generations.

We can't just die in his hands.

And not now, not until the end.

Maybe there's still a chance.

Think of this.

Liu Xishan roared.

"Let's go together and find a way to repel the Chaos Beast."

"This is the territory of the monks. As long as we persist for a while, powerful people will surely come to our aid."

The five virtual gods in the city took action at the same time.

They harnessed the semi-artifacts and faced the terrifying enemy in the sky.

All of a sudden.

The sword light shines in the sky above Xilin City, and the sword is like a rainbow.

As for the monks under the False God, they are all relieved now.

Everyone quickly rushed to the fighting position.

Someone rushed to the city wall, controlled the defensive equipment, and launched an attack on the chaos beast in the sky.

Some people guarded the formations everywhere in the city to ensure that the defensive formations were not lost.

Everyone understands.

As long as they stick to it, they still have a way to survive.

Once the Chaos Beasts are allowed to break through the formation, they will enter the city.

Then these people will surely die.

No way to survive.

...

Chapter 626 Watching the battle quietly

A huge lizard beast is coming.

The battle in Xilin City broke out instantly.

Various ballistae on the city wall emitted fiery light, striking directly at the giant beast in the sky.

The ancestors of the five virtual gods each control semi-artifacts and are protected by the city's defensive formations.

They all faced the giant lizard beast.

Liu Xishan and others understand it very well.

There is definitely no advantage in confronting them head-on.

If you are not careful, you will be beaten to death by that terrifying chaos beast.

They can only hide under the protection of the defensive formation and constantly interfere with the actions of the Chaos Beast.

Whenever the Chaos Beast wants to attack the defensive light curtain.

They will attack together to attack the vital points of the Chaos Beast.

Even if the Chaos Beast cannot be hurt, it cannot be allowed to attack wantonly.

Otherwise.

The defensive formation of Xilin City will definitely not last long.

For a moment.

The sky above Xilin City was filled with sword energy and knives like long rainbows.

Section 854

The firepower of various crossbows, like flowers scattered by fairies, enveloped the Chaos Beast.

Under the vigorous attacks of the monks in the city, they fought back and forth.

The Chaos Beast's huge claws did not even have a chance to hit the defensive light curtain above the city.

However, Liu Xishan and others knew in their hearts.

This stalemate would not last too long.

They had already tried their best, and the Chaos Beast in front of them, in order to avoid injury.

had not yet started to exert its strength.

Once the Chaos Beast ignored it and pounced on it fiercely.

They would definitely not be able to stop it.

If there was no strong support, Xilin City would definitely be broken.

At this time.

In the void far away from Xilin City.

A stream of light quickly crossed the sky.

Duan Changqing carried a spear on his back and quickly shuttled through the void.

Ten thousand years had passed since he left Donghua Palace.

He kept changing the teleportation array along the way, and then crossed countless dangerous places.

Now he was finally getting closer and closer to the location of the reception order.

Duan Changqing took out a formation plate.

After casting a spell.

A bright spot of light shone gently on the formation plate.

Seeing this situation.

Duan Changqing couldn't help but breathe a sigh of relief.

"Finally, we are almost there."

"In order to pick up this junior brother who has not yet entered the sect, it has taken a lot of effort."

Duan Changqing smiled slightly, without any complaints on his face.

Donghua Palace has been passed down in the Chaos Sea for countless epochs, relying on the unity of the upper and lower levels.

As long as they are disciples of Donghua Palace, they are worthy of his full help.

Zhang Yuhe is holding the reception order, and he is already a disciple of Donghua Palace.

For Duan Changqing.

Now he is just coming to pick someone up, which is not a big trouble.

Just think of it as coming out and relaxing.

Duan Changqing said to himself silently.

"I don't know what the talent of this junior brother who has not yet entered the sect is?"

"The talent of the Void God Realm who came out of the primitive world should not be bad."

"But it doesn't matter, as long as he enters Donghua Palace."

"No matter how poor his talent is, he still has a place in this Chaos Sea."

Duan Changqing put away the formation plate and was about to continue on his way.

Suddenly he frowned slightly, and a jade talisman appeared in his hand.

After playing the spell.

An anxious voice came from the jade talisman.

"Xilinjiao was attacked by a Chaos Beast, suspected to be at the peak of the Void God Realm."

"Are there any senior Taoist friends nearby? Please come to support as soon as possible. I, Liu Xishan, will be grateful."

Hearing the message in the jade talisman.

Duan Changqing was stunned.

The entire Donghua Domain is the territory of Donghua Palace, but this does not mean that it is a peaceful place.

Various threats have always existed.

There are hostile forces in the Chaos Sea, many foreign cults, and of course, Chaos Beasts.

Donghua Palace has already set the rules.

When the continents are in danger, they must immediately send a message to the surroundings.

After receiving the message, the nearby monks.

As long as their strength allows, they must provide full support.

If someone does not help and is eventually found out.

Donghua Palace will definitely investigate to the end and will never tolerate it.

It is precisely because of this system of mutual assistance.

Donghua Palace can firmly control such a large territory with the power of a sect.

Otherwise.

Donghua Domain spans the endless vast world.

How can Donghua Palace control it with such a small number of people.

Once those remote areas encounter danger.

Even if Donghua Palace wants to save, it will be too late.

By the time they run over, the daylily will be cold.

So it depends on the monks to save each other.

Duan Changqing put away the jade talisman, thinking in his heart.

He just came out to pick up someone, but he didn't expect to meet someone asking for help.

And it was a Chaos Beast at the peak of the Void God Realm.

It seems that I have to hurry over there.

Chaos beasts grow by devouring everything.

For them, cultivators are the best food for evolution.

If I go too late.

I am afraid that all the cultivators in Xilin Corner will be devoured by the Chaos Beast.

"Xilin Corner..."

"No, that junior brother who has not yet entered the sect seems to be in Xilin Corner."

At this time, Duan Changqing suddenly remembered.

The location shown by the light spot on the array just now is not in Xilin Corner?

"We must rush over to rescue immediately."

"Otherwise, what if that junior brother who has not yet entered the sect falls at the hands of the Chaos Beast."

"Then this joke is too big."

Lu Jiuzhou died at the hands of the Chaos Beast, and then the disciple who held his guide order died at the hands of the Chaos Beast.

If this is really the case.

Then where will their Donghua Palace put their face?

Thinking of this.

Duan Changqing stretched out his right hand.

The long spear on his back appeared in his hand instantly.

The spear was like a rainbow, and the man was like a stream of light, running quickly towards the direction of Xilin Corner.

...

Xilin Courtyard No. 9.

Zhang Yuhe stood quietly in the backyard, watching the battle in the sky with interest.

A purple ring was worn on the middle finger of his left hand.

When the Chaos Beast attacked, Zhang Yuhe found something unusual.

But he didn't care too much.

It was just a Chaos Beast in the Void God Realm.

Even if it was at the peak of the Void God Realm, it was only the Void God Realm.

He could kill such a Chaos Beast with a flick of his hand.

But he was not in a hurry to attack.

After Wu Yiyi transformed the Enlightenment Tree into a ring.

Zhang Yuhe stood in the manor and watched the battle quietly.

He wanted to know more about the fighting methods of the Chaos Sea monks.

This was the first battle he encountered after entering the Chaos Sea.

Naturally, he had to observe it carefully.

See how big the gap is between the Void God Realm here and the Dao Ancestor in the Immortal Realm.

Section 855

Looking at the sword energy in the sky, the light of the sword is like a rainbow.

Continuously intercept the attacks of the Chaos Beast outside the defensive light curtain.

Zhang Yuhe couldn't help but sigh.

The average strength of the Chaos Sea monks is compared to that of the Immortal World.

It really needs to be improved to a higher level.

Don't say anything else.

Liu Xishan and other five people in the virtual god realm actually have semi-divine weapons in their hands, and there are more than one.

To know.

Semi-artifacts are equivalent to innate Taoist tools in the fairy world.

At the beginning, there were only three innate Taoist tools in the entire Immortal Realm.

In this small Xilinjiao, everyone can actually make one, and there is still a surplus.

Not only that.

The magical powers of Liu Xishan and others are also extremely extraordinary.

Otherwise.

Facing the Chaos Beast at the peak of the False God Realm, they couldn't hold on for so long.

even though.

Among them are the city's defensive formations and the reasons why other monks control the city's defense equipment to help.

But no matter what.

The five virtual gods in Xilinjiao are far more powerful than the Taoist ancestors in the fairy world.

Even An Tianzuo, the strongest in the immortal world, is probably on par with Liu Beiwang, the weakest.

Maybe even slightly worse.

"The difference is obvious."

See this situation.

Zhang Yuhe couldn't help but sigh silently.

...

Chapter 627 You are really looking for death!

Time passed slowly.

Despite the fierce resistance of the monks in the city, Xilin City is still safe and sound.

The defensive light curtain that shrouded the city showed no signs of being breached.

At this time, the Chaos Beast Wu Xiong had become more and more violent.

Originally in its view.

It's just a small continent of monks, not even a true god.

With its strength at the peak of the Virtual God Realm, isn't it easy to capture?

However, the result made Wu Xiong feel greatly disappointed.

Because of the resistance of the monks in the city, it was difficult to succeed for a while.

Those dense city defense equipment, and the five False God monks.

It was a bit tired to deal with it, and there was no chance to attack the city's defensive light screen.

Logically speaking.

The Chaos Beast's defense is strong, and attacks from ordinary monks have no chance of hurting it.

But the problem is.

It can't really ignore such an intensive attack.

If it really has to carry a few waves, it will be seriously injured.

Wu Xiong didn't want to get hurt.

Because this is the territory of the monks.

If one or two powerful monks suddenly appeared, and he was injured in advance.

Isn't it possible that we will fall into a big trap?

So in the beginning.

Wu Xiong only wanted stability, but he did not go all out.

"No, we have to solve it quickly. If we delay it any longer, I'm afraid there will be a bigger accident."

"Fight."

Roar.....

Think of this.

Wu Xiong let out a shocking roar.

I saw it waving its huge lizard claws hard towards the defensive light curtain that shrouded Xilin City.

Completely ignoring the attacks from the monks in the city.

"Stop it quickly."

Seeing the Chaos Beasts, he completely ignored their attacks and rushed directly towards the formation light screen.

Liu Xishan couldn't help but feel anxious.

He controlled the divine sword, broke out of the formation's light screen, and directly killed the chaos beast in the sky.

By this time.

Liu Xishan understands.

It won't work if we don't fight.

If you really want to let this ferocious chaos beast take a few more shots.

The defensive light curtain over Xilin City will definitely be broken.

After Liu Xishan rushed out, Liu Beiwang and other four False God monks also rushed out.

They harnessed semi-artifacts and frantically attacked the Chaos Beasts.

All of a sudden.

The violent fluctuations of magical power shook the entire void.

Countless swords, sword shadows, and the blazing light from the ballista quickly struck Wu Xiong.

Balls of blood mist kept erupting from its huge body.

In order to be able to break through the monks' city in front of us as soon as possible.

Wu Xiong didn't care at all.

Relying on its strong defense, it still bombarded the formation light screen above the city arrogantly.

Boom...

As the huge lizard claws kept slapping down.

The defensive light curtain that shrouded the city finally began to be unable to hold up.

Terrifying cracks continued to appear on the light screen.

At this time, Liu Xishan had a gloomy face and a violent aura of divine power.

As if they didn't want money, they poured into the Excalibur crazily.

With a terrifying aura, the divine sword quickly carved out terrifying scars on the Chaos Beast.

However, compared to the huge body of the Chaos Beast.

Such an injury is nothing to worry about.

Liu Xishan was almost desperate.

It can't be beaten at all.

This time the Chaos Beast ignored him.

If there is a dead target there, he can't even hit it.

How are we still fighting this battle?

Could it be that the inheritance of our ancestors was really failing in his hands?

Looking at the formation light curtain covering the city, terrifying cracks kept appearing.

At this time, the monks in the city were already in a state of confusion.

They don't know what to do now.

The chaos beast in front of me is really too powerful.

The powerful city defense equipment on the city wall hit the Chaos Beast.

It's like scratching an itch.

It can only break a layer of skin at most, and it cannot repel the Chaos Beast at all.

Even if the five virtual gods used all their strength, they still could not threaten the Chaos Beast.

"What should we do?"

The thoughts of fear continued to spread in the hearts of the monks in the city.

They could not fight and could not defend.

Section 856

Can they just wait to die?

Some monks ignored Liu Xishan's orders and began to flee outside the city.

Liu Xishan ignored these people.

If you can really escape some people, that would be a good thing.

But he knew.

These people can't run away.

Facing the Chaos Beast at the peak of False God Realm, even he felt very powerless.

How could those monks under the Void God run away from the Chaos Beast?

Roar.....

really.

I saw some monks flying out of the city.

Wu Xiong let out a violent roar.

The shocking roar shook the world, and those monks had no protection from the formation.

He was stunned in mid-air by the huge roar.

Wu Xiong opened his big mouth and sucked in fiercely.

One after another human figures were swallowed directly into his belly.

"Humph, at this point, can I still let you run away?"

"It's all my food, no one can escape."

Wu Xiong's cold eyes flashed with a frightening light.

At the same time, its huge claws did not stop at all.

The defensive light curtain above the city was still beating wildly.

See this situation.

Liu Beiwang shouted loudly.

"Ancestor, what should we do now?"

The Xushen monks from the surrounding Chen and Wang families also looked at Liu Xishan.

At this point everyone understands.

They can no longer hold on to their foundation in Xilinjiao.

It's too late to run now.

In order to devour more monks, the Chaos Beast may not focus on them.

They still have a chance to run away.

Once Xilin City is breached, let this chaotic beast free its hands.

They may not be able to escape.

Liu Xishan looked back at the city and couldn't help but hesitate.

Of course he knows.

If you want to run, you have to run early.

But he really couldn't bear it.

Just when Liu Xishan was still struggling.

A faint voice came from the east side of the city.

"The little Chaos Beast of the False God Realm actually dares to run wild on the monk's territory."

"You're really looking for death."

The sound was not loud, but it could cover the roar of the battlefield.

transmitted clearly to everyone's ears.

Everyone looked back subconsciously.

I saw a figure rising slowly from the city.

See this situation.

Liu Beiwang couldn't help being shocked.

"Fellow Daoist Zhang?"

The other four people also quickly recognized the figure of the person coming.

Zhang Yuhe has lived in the city for nearly a hundred years.

During this period, I also attended a party organized by Xilin Liu Family.

Everyone has met each other.

But none of them thought that Zhang Yuhe would take action.

When the Chaos Beasts attacked, they didn't even think of inviting Zhang Yuhe to help.

Because in their opinion.

Zhang Yuhe's strength is only that of the newly promoted Virtual God Realm.

It's just the first level of Virtual God Realm.

Much weaker than them all.

more importantly.

As an outsider, Zhang Yuhe would definitely not fight for Xilinjiao.

Maybe at any time, I'll run away with oil on my feet.

That being the case.

One more of him is not more, and one less of him is not less.

Of course.

If Zhang Yuhe was a true god and powerful, that would be another matter.

But the problem is.

From the beginning, they clearly sensed Zhang Yuhe's cultivation level.

It is indeed the first level of Virtual God Realm.

It is precisely because of this.

Liu Xishan and others never had any hope for Zhang Yuhe.

What do you expect him to do?

Do I need an extra backrest?

It's not necessary.

...

Chapter 628: Suppression with hands

Seeing that Xilin City's defensive formation was about to be breached by the Chaos Beasts.

Zhang Yuhe finally decided to take action.

It doesn't take much effort anyway.

Moreover, a Chaos Beast at the peak of False God Realm should be worth a lot of money.

Now that the Chaos Beast is delivering the goods to his door, how can he refuse to accept it?

It happened that he was planning to leave Xilinjiao and prepare to go to Zhenji Continent.

Just accept these gifts before leaving.

Zhang Yuhe slowly flew over the city and looked calmly at the Chaos Beast in the distance.

Wu Xiong slapped the formation light screen with his paw, and then took two steps back.

Its cold gaze was fixed on Zhang Yuhe.

It was Zhang Yuhe's words that really stimulated it.

What is a small False God Realm Chaos Beast?

I am so powerful and mighty, can't you see it?

Wu Xiong was a little angry.

It wants to give this kid a little color.

Roar.....

Wu Xiong roared wildly, stared at Zhang Yuhe, and then said coldly.

"Boy, I originally thought you were hiding in the city, but I planned to save it for later."

"Since you are in a hurry to die, I don't mind. Let's have some appetizers first."

After saying this.

Wu Xiong's huge body quickly turned into a bolt of lightning and rushed towards Zhang Yuhe.

Now it doesn't even care about Xilin City and wants to kill Zhang Yuhe first.

Maybe in Wu Xiong's opinion.

Zhang Yuhe, who had just been promoted to the virtual god realm, could not block its attack at all.

It doesn't cost much.

Section 857

"Huh, crazy."

Seeing the Chaos Beast charging towards him, Zhang Yuhe couldn't help but snorted.

"Be careful, fellow Daoist Zhang, and stay out of the way."

Liu Xishan in the distance warned loudly.

At the same time, the divine sword in his hand, carrying the majestic aura of divine power, struck straight at the Chaos Beast.

He was worried that Zhang Yuhe wouldn't be able to react, so he planned to intercept the Chaos Beast for a while.

Buy Zhang Yuhe time to dodge.

However.

Zhang Yuhe did not dodge.

I saw him wave his right hand.

The nine fairy swords flashed out and quickly fell around the Chaos Beast.

Follow the magic formula and pinch it.

A huge sword array light curtain quickly rose in all directions.

The sword array light curtain carried terrifying power and instantly enveloped the Chaos Beast.

Endless sword energy spread across the sky and earth, quickly sweeping across the entire void.

All of a sudden.

The sword energy is like a cloud, shining for billions of miles.

Wu Xiong's rapid forward momentum was quickly stopped.

Roar.

I felt the huge coercion coming from the sword formation.

It couldn't help being surprised.

How could a newly promoted False God Realm have such terrifying power?

Wu Xiong let out a panicked roar.

At this time it suddenly discovered.

The terrifying pressure in the sword array actually had the tendency to imprison it.

"No, I have to rush out quickly."

Wu Xiong knows.

This time it was careless.

There are countless geniuses in the Chaos Sea.

Some of them are peerless geniuses, relying on their powerful magical powers and rules.

It is completely possible to kill enemies by leaping up.

Crossing a large realm to kill enemies may be a bit exaggerated.

But he is a genius who continuously crosses several small realms and defeats his enemies.

There are still many in the Sea of Chaos.

Wu Xiong understood instantly.

The invisible and invisible virtual god monk in front of him is such a peerless talent.

Meeting such a peerless talent.

If you can't kill him, it's best to run away.

Who knows how many more back-ups the other side will have?

Roar.....

Wu Xiong let out a shocking roar.

It waved its claws vigorously, trying to break the confining force around it.

At this time, it is no longer as arrogant as before.

It just wants to break through the confinement and run away.

Wandering in the void for countless years.

Wu Xiong understood a truth.

Being cautious is the way to save your life.

Since you encounter uncontrollable factors, of course the best strategy is to take action immediately.

It had absolutely no interest in trying Zhang Yuhe's strength.

At this moment, Wu Xiong had only one thought in his mind.

That is to run quickly.

However.

Now that Wu Xiong wanted to run away, it was obviously too late.

Between the vertical and horizontal sword energy.

The huge power of law is like a quagmire, making it difficult to move forward.

"Open it for me."

Wu Xiong clenched his claws into fists and quickly punched in all directions.

The huge pressure brought by the invisible sword energy was instantly relieved.

But before it could even take two steps.

A huge millstone suddenly appeared in the sky.

As the grindstone rotates gently.

The terrifying divine power enveloped him instantly.

Wu Xiong's huge body seemed to have been cast on a body-holding spell.

Completely unable to move.

Zhang Yuhe stood in the void and quickly pinched the magic formula in his hand.

He would like to take a look.

Can this chaotic beast escape from the power of Taoist Chaos Guixu?

When I was in the fairy world.

With a flick of the tail of the Supreme True God, the millstone manifested by Chaos Guixu was scattered.

This matter has always bothered him.

This is his strongest magical power.

Unable to suppress the Chaos Beast.

But when I think of the Supreme True God, he has a terrifyingly high level of cultivation.

Zhang Yuhe felt a little relieved.

But the chaotic beast in front of him was only at the peak of the False God Realm.

He should be unable to break away from Chaos Guixu's suppression.

Roar.....

As the millstone slowly rotates.

Wu Xiong's huge body erupted into clouds of blood mist from time to time.

Then under the shroud of the millstone.

These bursts of blood mist disappeared strangely in an instant.

Seeing Zhang Yuhe, he suppressed the powerful Chaos Beast in the void with his backhand.

Everyone at the scene was stunned.

The monks in the city cheered.

they know.

My life was saved this time.

"Who is this senior? I don't think I've seen him before."

"I don't know. I have never seen or heard of any senior who can use such terrifying sword formations and millstone magical powers."

"He must be from out of town. He may be passing by and staying in Xilin City temporarily."

"I guess so. Fortunately, this senior is here."

"Otherwise, we will be dead."

There was a lot of discussion among the monks in the city.

The shock in the hearts of Liu Xishan and others was beyond words.

Because they knew very well how powerful the chaotic beast in front of them was.

There were so many of them, and they had formations to help them, but they couldn't do anything to this chaotic beast.

However.

Zhang Yuhe just used two magical powers at will and suppressed the Chaos Beast on the spot.

And look at that posture.

This chaos beast should be close to death.

Zhang Yuhe's magical power is too sudden and weird.

Section 858

It was as if the powerful Chaos Beast was being directly wiped out.

"What kind of magical power is this?"

Everyone looked a little confused.

They have been practicing in the Sea of Chaos for countless years.

I have actually seen a lot of all kinds of powerful supernatural powers.

They have even seen the true God take action.

But they couldn't understand the magical power Zhang Yuhe displayed.

That sword formation magical power is not bad.

Although incredibly powerful.

But it's still within their understanding.

But the strange millstone really frightened them.

What a terrifying magical power this is.

It was actually able to suppress the Chaos Beast at the peak of False God on the spot, and also wipe out the vitality of the Chaos Beast.

It's just terrible.

To know.

Zhang Yuhe's own strength is only at the first level of the Virtual God Realm.

With all your strength.

The aura on Zhang Yuhe's body was still the same as before.

It is the first level of Virtual God Realm.

That is to say.

There is no possibility of hiding your cultivation.

At the first level of the Virtual God Realm, one can kill the Chaos Beast at the peak of the Virtual God.

And it's so easy and comfortable.

It simply subverts everyone's perception.

Where did this peerless genius come from?

Couldn't it be the core disciples from Donghua Palace who came out to practice?

Congren silently guessed.

...

Chapter 629 Duan Changqing's shock

Duan Changqing used the sky-splitting spear to break through the void barrier, speeding with lightning all the way.

When he received Liu Xishan's message asking for help, he immediately felt something was wrong.

If the Chaos Beast just swallowed up all the monks in Xilinjiao.

The most he could do was feel sad, and then try to find a way to find the chaos beast.

Revenge for the dead monks would be the end of the matter.

After all, in the Sea of Chaos, countless monks die from various accidents every day.

Even if he wanted to, he couldn't.

But the problem now is.

According to the display on the array, the location of the reception order happened to be at Xilinjiao.

This is not talking.

The person he was going to pick up was a junior who had not yet started.

Right now in Xilinjiao, he could be eaten by a Chaos Beast at any time.

This is very bad.

He had to rush over as soon as possible.

Duan Changqing prayed silently while racing through the void.

I hope the monks in Xilinjiao can support it for a while longer.

He did not hope that the person who still held the pick-up order had not entered Donghua Palace yet.

He died directly from the mouth of the Chaos Beast.

If that's the case.

That would be so embarrassing.

This would not only disgrace Duan Changqing, but also disgrace Donghua Palace.

Duan Changqing looked indifferent, but he was quite anxious in his heart.

He didn't know how long the monks in Xilinjiao could last.

Normally.

In a small land like this in a remote area, the monks are not very strong.

Generally speaking, there are only two or three people in the virtual god realm sitting in charge.

And he is still the weakest virtual god realm monk.

Facing the Chaos Beast at the peak of False God.

I'm afraid I won't last long.

The spear broke through the void, and Duan Changqing flew quickly.

The outline of Xilinjiao in the distance began to slowly appear in his field of vision.

Just at this time.

Duan Changqing suddenly stopped.

He raised his head and looked towards Xilin City in the distance.

At this time, the defensive light curtain over Xilin City was still operating normally.

obviously.

Xilin City did not and was attacked by the Chaos Beast.

But that's not the point.

The key is what did he see?

I saw in the distance outside Xilin City, the sword energy was as vast as clouds.

A terrifying sword array suppressed all directions.

Not only that.

In the sky above the sword formation, there is also a huge black millstone that is slowly rotating.

Under the millstone.

A huge Chaos Beast was struggling hard.

Apparently he was dying soon.

"How is this going?"

Duan Changqing accelerated his flight and soon flew near Xilin City.

See the scene before you.

He was completely stunned.

I saw a young man in white, his left hand behind his back, and his right hand was rapidly performing magic tricks.

There were several False God monks around, standing outside the city watching the battle from a distance.

"Who is this person and how can he be so brave?"

Duan Changqing simply couldn't believe his eyes.

The aura of the young man in white was clearly that of the first level of the False God Realm.

However, he can rely on a sword formation and a mysterious millstone magical power.

He suppressed the powerful Chaos Beast directly on the spot.

At this time, the aura on the Chaos Beast's body has become weaker and weaker.

He was obviously going to die soon.

A monk at the first level of the Virtual God Realm, a Chaos Beast at the pinnacle of the Virtual God Realm.

However, the monk easily suppressed the Chaos Beast and was able to successfully kill it quickly.

Why does this picture look so unreal?

Crossing nine small realms in a row, you can also kill the chaos beast in reverse.

Where did this peerless genius come from?

How come he has never heard of it in this remote Xilinjiao.

Is there such a ruthless person?

Not to mention Xilinjiao.

Even in the entire Donghua Territory, I have never heard of such a fierce peerless talent.

"Could it be that the geniuses from other regions came to Donghua Region to gain experience?"

"No way."

Section 859

Think of this.

Duan Changqing couldn't help but shake his head.

The Sea of Chaos is vast and boundless, and how far a monk can go is entirely related to his own strength.

Normally.

Monks below the True God level rarely leave the local area.

In fact.

Without the leadership of a powerful monk.

Monks below the True God level cannot leave the local area at all.

Not to mention the unfathomable distance, there are endless dangers on the road.

Without the strength of the True God Realm, it would be impossible to survive.

Duan Changqing thought silently.

"This person should be a local monk from the Donghua Territory."

"Forget it, let's take a look first and then talk."

Duan Changqing thought for a long time, but still couldn't figure out where this person came from.

He was in no rush to show up.

Instead, he hid his figure and quietly observed from the side.

The danger is now over.

No need for him to take action.

The Chaos Beast was about to be killed.

That being the case.

Then just observe it for a while.

Duan Changqing subconsciously took out the array disk.

Look at the light spots on the array disk.

He couldn't help but be stunned.

"This peerless genius couldn't be the younger junior brother who hasn't even started yet."

Looking at the light spots on the formation plate, they obviously overlapped with the positions of the young men in white outside the city.

obviously.

The pick-up order left by Lu Jiuzhou may be on this person.

See this situation.

Lu Changqing was completely stunned, and then turned into ecstasy.

He muttered to himself.

"It can't be true, right? Donghua Palace has found a treasure now."

Duan Changqing never thought about it at all.

He just came here to pick up a junior brother who had not yet started.

No idea.

This junior brother seems to be a little too fierce.

Continuously cross nine minor realms and kill the Chaos Beast at the peak of Virtual God Realm.

Such a cruel person.

Is it possible that he will be a disciple of Donghua Palace in the future?

"Are the monks who came out of the primitive world so fierce?"

Think of this.

Duan Changqing couldn't help but shake his head.

In the endless sea of chaos, there are not many primitive worlds.

Occasionally, there will be monks who leave the primitive world and slowly merge into the Sea of Chaos.

The natural strength of these monks is indeed much stronger than that of ordinary Chaos Sea monks.

You can say that.

As long as they are monks who come out of the primitive world.

Basically, they are all extremely talented people.

But a monk as fierce as the young man in white in front of him.

Duan Changqing has never seen it.

Never even heard of it.

At the first level of the Virtual God Realm, one can kill the Chaos Beast at the peak of the Virtual God Realm.

And the process is still so easy and comfortable.

Completely at ease.

Could such a fierce man really be his junior brother?

Think of this.

Xi Changqing closed her eyes slightly and silently sensed the scent of the order.

The formation disk given by Yuan He Shenwang at the beginning could only determine the approximate range.

It won't necessarily be accurate.

Duan Changqing wanted to confirm very much.

Did Lu Jiuzhou's receiving order belong to this fierce man?

If that's the case.

Then their Donghua Palace has really found a treasure.

After a while.

Duan Changqing couldn't help but reveal a faint smile.

"As expected."

"That lead is on this person."

After confirming it is correct.

Duan Changqing was very excited.

At this time, he looked at Zhang Yuhe as if he had seen a unique treasure.

Such a proud person.

Once you join Donghua Palace.

In the future, he will definitely be able to advance to the realm of true gods.

Become the top combat force of Donghua Palace.

If the opportunity is right.

There is even a slight possibility that he will be successfully promoted to a powerful God King.

That is the power of the God King.

Donghua Palace has gone through countless epochs, and only three god kings have emerged in total.

These are the three current palace masters.

If Donghua Palace could produce another powerful God King.

Then their influence in Desert Sky will definitely increase greatly.

Think of this.

Duan Changqing's thoughts began to gradually fly away.

...

Chapter 630 When will I be so strong? It will be great

Zhang Yuhe raised his hands in the air and looked at the giant lizard in the distance with an indifferent expression.

As the millstone slowly rotates.

At this time, the aura on the Chaos Beast's body has become weaker and weaker.

Now he has not activated the Hunyuan Guiyi magical power, but only relies on his normal strength.

It can suppress the Chaos Beast at the peak of False God.

Until this time.

Zhang Yuhe finally had a clearer understanding of his own strength.

To say that I am invincible under the true God is not an exaggeration at all.

Even if it is an ordinary true god realm.

Zhang Yuhe is also confident that he can give it a try.

If you activate the magical power of Hunyuan Guiyi.

A weaker True God Realm should probably not be able to defeat him.

Looking at the Chaos Beast that was still struggling to its death, Zhang Yuhe thought silently.

He didn't know about this.

Section 860

In the void not far from Xilin City, there is a top true god.

Watching the battle silently.

Duan Changqing's cultivation realm is far from the ordinary True God realm.

And he deliberately concealed his figure.

Zhang Yuhe and others were naturally unable to discover them.

Roar.....

Wu Xiong raised his head with difficulty and looked into the endless void in the distance.

It knows.

He is going to die soon.

Thinking of myself wandering in the void for countless years.

Always be cautious.

Whenever they encounter a powerful enemy, they will immediately run away from them.

This time, I suddenly discovered a small continent of monks.

Wu Xiong originally thought.

It's your chance.

As long as all the monks on this continent are swallowed up.

Then it has a great chance to be directly promoted to the True God Realm.

With the strength of the True God Realm, he is no longer a small player no matter where he is.

As long as it doesn't go, it will deliberately provoke those powerful monk forces.

You can always be in the sea of chaos, free and easy.

Unfortunately.

What it thought was an opportunity before turned out to be a huge pit.

Wu Xiong never thought about it.

In this small continent, you would encounter such a ruthless person as Zhang Yuhe.

At this time, it still had some doubts in its heart.

Where did this person come from?

How could there be such a powerful genius?

How could it just happen that it happened to happen?

Tough luck.

I feel that my vitality is passing quickly.

Wu Xiong let out a low roar.

Then soon, it became silent.

It's dead.

A powerful chaos beast died unwillingly like this.

Its powerful divine power has not even had time to show itself.

Zhang Yuhe suppressed him with his hands.

It can be said.

Wu Xiong died a little frustrated.

Zhang Yuhe waved his right hand.

The black millstones in the sky began to slowly disperse, and the nine fairy swords flew back.

Soon it disappeared into the sleeves and disappeared.

Then he sacrificed a pagoda and collected the corpses of the Chaos Beasts on the ground.

Zhang Yuhe thought.

This is a Chaos Beast at the peak of False God Realm, so it should be worth some money.

Now he is a poor man.

Since leaving the fairy world.

Except for the last time I sold scales and got 500 pieces of divine crystals.

There is no more income.

Moreover, two hundred of the five hundred divine crystals have been used to pay the rent.

What can I do with the three hundred divine crystals left?

It is estimated that even sitting in the teleportation array may not be enough.

We have to find a way to make more money.

It's hard to move without money.

Where else to go? Donghua World.

In the Sea of Chaos, it is not as convenient as in the Immortal World.

When in the fairy world.

Zhang Yuhe is the leader of a sect.

Even if he doesn't have to do anything, all kinds of resources will come rolling in.

If he wants to do something, he just needs to give an order, and someone will immediately do it for him.

But in the Sea of Chaos, that's not possible.

He is alone now.

You have to do everything by yourself.

"Perhaps things will change after I go to Donghua World and join Donghua Palace."

"I don't know if this induction order can really allow me to join Donghua Palace."

Zhang Yuhe took out the pick-up order and thought silently in his heart.

experience during this period.

He truly felt that there was no protection from any major force.

There is really no sense of security in this sea of chaos.

He only stayed in Xilin City for less than a hundred years.

They were attacked by Chaos Beasts.

If it weren't for myself and there were some means.

I'm afraid that if I haven't just left the fairy world, I will perish.

Zhang Yuhe realized it deeply.

The Sea of Chaos is dangerous.

He is not strong enough now to protect himself.

You have to find a big force to protect you.

It is said that it is good to enjoy the shade under the big tree.

There is no future in being a lone wolf.

"Fellow Daoist Zhang."

"Thank you, fellow Daoist Zhang, for your help and relieving the crisis in Xilin City."

While Zhang Yuhe was still deep in thought.

Liu Xishan and others walked up quickly and shouted to him respectfully.

At this time, their hearts were still filled with endless shock.

They originally thought.

Zhang Yuhe is just an ordinary monk who wandered from other places.

At most, they are disciples from a certain true god force.

However.

After seeing Zhang Yuhe's action just now.

They never dared to think that way again.

A ruthless man who can kill a Chaos Beast at the peak of the False God Realm with his strength at the first level of the False God Realm.

It was simply more shocking than when they saw the power of the true God.

Liu Xishan is almost certain.

Zhang Yuhe must be a disciple who went out to practice in Donghua Palace.

Perhaps he is still one of the core disciples of Donghua Palace.

Maybe somewhere around here.

There is the true power of Donghua Palace protecting him.

At this moment, Zhang Yuhe's image instantly became extremely tall in the hearts of everyone.

Let's not talk about Zhang Yuhe's identity.

Take Zhang Yuhe and save the lives of all the monks in Xilinjiao.

It was enough to make them admire him from the bottom of their hearts.
