Section 871

Pagoda hanging in the sky

The majestic Taoist aura continued to flow down from the pagoda.

Duan Changqing's lightning-fast spear silhouette slowed down instantly.

He Rufeng turned around and said to the two people next to him.

"Deal with Duan Changqing first, and don't worry about that weakling for the time being."

"Yes, Hall Master."

Originally, He Rufeng was still thinking about it.

First deal with Zhang Yuhe, and then concentrate all your efforts to slowly grind Duan Changqing to death.

But now it seems that it doesn't work.

Because Duan Changqing worked too hard.

If Duan Changqing is not killed first.

They couldn't even get away.

That being the case.

Then let's deal with you first.

The three weakened versions of the God King and the True God soon fought Duan Changqing to pieces.

In an instant.

The pagoda hangs in the air, the spears are like a forest, and the sword energy stretches across the sky and the earth.

Zhang Yuhe stood on the Chaos Divine Boat, silently observing the battlefield in the distance.

Judging from the situation.

Duan Changqing should have the advantage for the time being.

But Zhang Yuhe knew.

This advantage will not last long.

The three people on the opposite side are just weakened versions, not weaklings.

Especially the monk in linen.

A body of terrifying divine power, extremely terrifying.

If not for it, the force of tyrannical rules suppresses it.

There is no way Duan Changqing can be his opponent.

not to mention.

There are two True God Realm assistants beside the opponent.

They are not easy characters to deal with.

Zhang Yuhe looked around.

He's thinking about it.

Where should I start?

Of course it was impossible for him to just sit back and watch like this.

Should we directly open up and join the battlefield, or should we first try to break through the surrounding formations.

The other party had prepared a huge blockade formation nearby in advance.

Cut off the surrounding area from the outside world.

Even if they were beaten to pieces here.

No one outside knows either.

If this banning formation can be broken through, the crisis will be resolved immediately.

After all, this is the territory of Donghua Palace.

Even if Chaos Xinghai is a bit special, it is still the territory of Donghua Palace.

Just break the big formation.

Zhang Yuhe believes it.

Reinforcements from Donghua Palace will arrive soon.

if that is the case.

It's up to the other party to consider how to escape the siege of Donghua Palace.

How can I find the angle of formation?

Think of this.

Zhang Yuhe couldn't help but frown slightly.

Actually at the beginning.

He has been there, silently observing the banning formation in the distance.

However, he didn't notice anything unusual.

The opponent's formation level is very high and has been planned for a long time.

We will never let them break through the formation easily.

It might not be that easy for Zhang Yuhe to break the formation.

...

As time passes slowly.

Duan Changqing felt more and more pressure.

The three opponents had majestic divine power, especially He Rufeng, the supreme divine king.

It was very difficult for him to deal with it.

Duan Changqing knows it very well.

If this continues.

He might not be able to bear it anymore.

Think of this.

Duan Changqing couldn't help but feel a little anxious.

"Damn the Boleyn Demon."

Since he was banned by the opponent's formation, he couldn't send a distress message at all.

If this formation is not broken.

Sooner or later, he will be slowly consumed by the other party.

Think of this.

Duan Changqing shouted loudly.

"Junior Brother Zhang, find the corner of the formation as soon as possible and break the outer formation."

"As soon as the formation is broken, the palace master will quickly come over to support."

In fact, Duan Changqing also knew.

Zhang Yuhe's hope of finding the corner of the array was very slim.

After all, this is a great formation arranged by a god-king himself.

It's definitely not that easy for Zhang Yuhe to crack.

He Rufeng was just suppressed by the origin of the Chaos Sea and the power of rules.

It does not affect his formation level.

In front of you is this forbidden formation.

Even Duan Changqing himself.

So far, he hasn't found any flaws.

Zhang Yuhe is only in the virtual god realm, and his knowledge is limited.

There is almost no chance to break this formation.

despite this.

Duan Changqing still couldn't help but pinned his hopes on Zhang Yuhe.

no way.

Now it's just the two of them, trapped here.

Except Zhang Yuhe.

Duan Changqing couldn't find any help.

He can only hope that this junior brother who has not yet officially entered the profession.

Will there be any special means of breaking the formation?

Otherwise.

The two of them might die in a famous place like Chaotic Star Sea.

...

Chapter 638 Sadness starts from the heart

Zhang Yuhe jumped into the air from the Shenzhou and moved quickly.

He also refers to it as a sword.

Section 872

Sword lights flashed towards the surrounding void.

Zhang Yuhe wanted to use the sword lights to find the flaws of this forbidden formation.

However, after struggling for a long time, he still found nothing.

"The mystery of this forbidden formation is far beyond my understanding."

"I can't find any flaws at all."

After countless attempts, Zhang Yuhe slowly stopped.

Feeling the divine power around him, he was stagnant by the formation.

Zhang Yuhe couldn't help but think silently in his heart.

"With my current strength, whether I want to find a flaw or break the formation with brute force, it's impossible."

Looking at the battlefield in the distance.

At this time, Duan Changqing already showed some signs of exhaustion.

I'm afraid that if he delays for a while, he will fall behind.

Thinking of this.

Zhang Yuhe couldn't help but feel anxious.

Once Duan Changqing loses, they will definitely die.

Under the ban of the opponent's formation, they can't ask for help from the outside.

They can only rely on themselves.

"Or I can just use my ultimate move and see if I can kill those two True God cultivators first."

Looking at the battlefield in the distance, Zhang Yuhe's eyes flashed with a sharp look.

He must be unable to kill the hemp-clothed God King.

Even with the blessing of the Hunyuan Guiyi magical power, it is difficult for him to have much impact on the Supreme God King.

But he should have a chance to kill those two True God cultivators.

After all, a True God without the power of rules is not much stronger than a normal Chaos Beast.

When he was in the fairy world.

He could even kill the Supreme True God, such a fierce Chaos Beast.

There is no reason why he can't kill these two weakened True God cultivators.

The aura of these two True God cultivators is not as strong as the Supreme True God.

It is definitely not in the state of perfection, and it is estimated to be between the fifth and seventh heavens.

As long as the Hunyuan Guiyi magical power is activated, there is a chance to take down these two people.

Zhang Yuhe looked at the battlefield in the distance, his brain was working rapidly.

Even if he can't kill them directly.

That doesn't matter.

As long as he can suppress the two for a moment through the sword formation and the return of chaos to the void.

Duan Changqing can definitely seize the opportunity to kill the two.

As long as the two true gods are dealt with, the remaining hemp-clothed God King.

It is estimated that it will not take long.

Duan Changqing is very strong, even if he is not as strong as the weakened version of the hemp-clothed God King.

It is estimated that it is not much different.

If there is no assistance from the two true gods, it is still unknown who will win.

"Let's do it."

Zhang Yuhe no longer hesitated.

There is still a chance of a comeback if he tries hard.

Continuing to look for flaws in the formation is tantamount to waiting for death.

Thinking of this.

Zhang Yuhe quickly took off and rushed towards the battlefield in the distance.

At the same time, he decisively activated the magical power of the return of chaos.

The vast momentum continued to rise from his body.

The first, second, and ninth levels of the virtual god realm.

Almost in an instant.

The aura of Zhang Yuhe rushed directly to the peak of the virtual god realm.

There was even a tendency to break through to the true god realm.

Seeing Zhang Yuhe suddenly burst out.

The four people on the battlefield were stunned.

What kind of magical power is this?

It can temporarily improve the strength of almost an entire realm.

This is too outrageous.

Seeing such a situation.

Duan Changqing couldn't help but be greatly surprised.

He knew that Zhang Yuhe was very strong.

When he didn't burst out.

Zhang Yuhe could easily control the Chaos Beast at the peak of the virtual god realm.

Now that he has burst out to the peak of the virtual god realm, wouldn't it be completely possible to be on par with the true god cultivators?

Thinking of this.

Duan Changqing shouted loudly.

"Junior brother, kill the two true god realms first."

Compared with Duan Changqing's surprise.

The three Bolin cultivators on the opposite side didn't care too much.

They were just curious about what magical power Zhang Yuhe relied on to burst out so fiercely.

As for Zhang Yuhe's strength, they didn't take it to heart at all.

Even if it explodes, what can it do?

Isn't this still the Void God Realm?

The peak of the Void God Realm is still the Void God Realm, which is far from being comparable to the True God.

Zhang Yuhe is willing to come up and die.

They are so happy that they are in a hurry, so why would they worry.

Leaving Zhang Yuhe outside is also a hidden danger.

What if Zhang Yuhe is lucky enough to break the forbidden formation.

That would be a big trouble.

Now Zhang Yuhe is rushing up, isn't it just what they want.

He Rufeng's eyes flashed, and he whispered to the two people next to him.

"You find a chance to get rid of that weak chicken."

"It's a bit annoying to put him aside."

"Yes, Hall Master."

Zhang Yuhe rushed forward quickly.

He just waved his right hand.

Nine immortal swords flashed and appeared, falling quickly towards the distance.

Zhang Yuhe didn't even get close.

He pinched the magic formula from a distance.

A huge sword formation slowly rose.

The majestic invisible sword energy crisscrossed the sky and earth, quickly sweeping towards the three members of the Bolin Divine Cult.

The sword energy carried a terrifying divine power, covering the entire battlefield.

Almost at the moment when Zhang Yuhe's sword formation fell.

He Rufeng and others felt a sense of inexplicable pressure.

Especially the two True God monks.

After the sword energy cut.

The power of various laws crushed them, causing them to stagnate.

Not only that.

Almost at the same time as the sword formation rose.

A huge millstone quietly hung in the sky.

As the millstone slowly turned.

The terrifying power enveloped the world.

Section 873

Under the grinding of the millstone, even He Rufeng, the supreme god-king.

They all felt a little bit of pressure.

Not to mention the two true gods.

They were driven back to the void by Chaos, and the millstone that emerged directly suppressed them on the spot.

Seeing such a situation, Duan Changqing couldn't help but be greatly surprised.

"The good opportunity is now."

I saw him vibrating the spear.

Two dazzling spear lights flashed past silently, directly pinning the two True God cultivators in the void.

Well.....

The two men didn't even have time to scream and turned into ashes.

that's all.

They were first suppressed by Zhang Yuhe's sword formation and Taoism, and were unable to respond at all.

Then Duan Changqing passed through him with a spear.

The powerful Sky-Splitting Spear Intention instantly tore these two true god monks from the Bolin Sect into pieces.

There was nothing left at the scene except two gleaming divine swords.

"Ah ah ah, you are looking for death."

Seeing the sudden death of the two people around him, He Rufeng was so angry that he went crazy.

Their branch of the Bolin Sect in Donghua Domain had been hit continuously.

Apart from these two people, all the other True God cultivators had long been swept away by Donghua Palace.

Now even these two people have died at the hands of Duan Changqing and Zhang Yuhe.

Doesn't that mean.

He Rufeng, the branch leader, has now become a polished commander?

Although there are still some monks under the True God in the Pauline branch.

But those people are only suitable for hiding and secretly preaching.

It's impossible to get it out at all.

Thinking of losing all his elite men.

He Rufeng couldn't help but feel sad.

The entire elite force of the Bolin branch is now dead.

Can he continue to be the leader of the hall?

The Eternal Palace Master who sits in the Desert Sky must not tear him into pieces.

...

Chapter 639 He wants to run away

At this time, He Rufeng was completely panicked.

This is not just because all the elite forces in his hands are dead.

Turned him into a polished commander.

After the matter is over, the Eternal Palace Master who sits in Desert Sky will definitely hold him accountable.

more importantly.

The situation was originally a sure thing, but after Zhang Yuhe intervened.

The tables have turned completely.

Before, they were three against one, no matter how fierce and powerful Duan Changqing was.

He Rufeng didn't have any worries.

Because he knows.

Duan Changqing's powerful explosion certainly cannot last for long.

As long as they can withstand the opponent's fierce attack, it will be their turn to exert their strength.

However.

As soon as Zhang Yuhe took action, the huge sword formation and the terrifying millstone magical power suppressed it.

They were suppressed on the spot, allowing Duan Changqing to seize the opportunity.

He directly beat his two true god assistants into ashes.

Now, he was the only one left on his side, while the two people on the opposite side were intact.

Duan Changqing is very strong, and he is not confident of dealing with him alone.

Because he was suppressed by the origin of the Chaos Sea, He Rufeng was able to exert his strength.

Not much better than Duan Changqing.

And there was Zhang Yuhe on the other side, watching eagerly from the side.

How could He Rufeng not panic?

Now he doesn't dare to treat Zhang Yuhe as a weakling.

Such a powerful virtual god realm was completely beyond his imagination.

A ruthless person who can suppress even those in the True God Realm with his backhand.

Will he still be a weakling?

One against two, there is absolutely no chance of winning.

You must run quickly.

He Rufeng took a deep breath and forced himself to calm down.

I saw him wave his right hand.

The pagoda hanging in the sky instantly emitted a blazing light.

The black millstone that was originally rotating slowly was melted by the light on the spot.

"So strong."

See this situation.

Zhang Yuhe couldn't help but feel a chill in his heart.

This was the second time he saw that the millstone manifested by Chaos Guixu was shaken away by others.

Last time it was the Supreme True God, but this time it was the Supreme God King in front of me.

On strength.

Of course, the Supreme True God cannot compare to the linen-clad God King in front of him.

Even if he is suppressed by the origin of the Chaos Sea, the strength that Mai Yi God King can exert is still very terrifying.

Far from being comparable to the Supreme True God.

But Zhang Yuhe was not too worried.

Now he is not alone, and he is not even the main force.

Duan Changqing is the main attacker.

Zhang Yuhe only needs a little help from the side.

Under his constant interference.

Maybe Duan Changqing would find an opportunity to kill the Maid God King on the spot.

After consecutively killing the opponent's two True God cultivators, Duan Changqing continued his offensive.

The shadows of guns all over the sky covered the entire sky, tightly trapping He Rufeng in it.

At this time, a hint of excitement flashed in his eyes.

The Hall Master He of the Bolin Religion in front of him is the true God King Realm.

Even if he is suppressed by the origin of chaos, he is still a supreme god king.

If He Rufeng could be beaten to death, that would be for him.

It would be a supreme honor.

In the True God Realm, he defeated the God King.

Such a feat, let alone in their Donghua Domain.

Even the entire desert sky has not said it for a long time.

more importantly.

Success in the step-up challenge can sublimate his entire belief.

Maybe he can still use this as an opportunity to break through to a higher level in the future.

Killing a god king was something that happened in the past.

Duan Changqing didn't dare to think about it at all.

But now, it seems like there is an opportunity.

Without the constraints of the two true god monks, he could devote himself wholeheartedly.

And next to him, there is Zhang Yuhe, a helper.

Think of this.

Duan Changqing shouted excitedly.

Section 874

"Haha, He Rufeng, you're dead today."

After saying this.

He turned around and shouted to Zhang Yuhe.

"Junior brother Zhang, this person is the head of the branch of the Bolin Divine Religion in Donghua Territory."

"He has caused many major turmoil in Donghua Territory."

"Even the Palace Master has tried several times, but he couldn't catch his little hair."

"This is an opportunity. As long as you kill him, the Palace Master will reward you with resources."

"It's definitely enough for you to have no worries before the True God Realm."

Hearing this.

Zhang Yuhe's eyes flashed.

At this time, he looked at He Rufeng as if he saw some kind of rare treasure.

He knew that this foreign demon must be of great origin.

After all, he is an almighty God King, so he is naturally not a simple character.

But Zhang Yuhe didn't expect that this was actually a head of a hall.

It is estimated that he is one of the biggest threats in the entire Donghua Territory.

As long as they can, they can solve this hemp-clothed God King.

Even if he just helps.

The resources rewarded by Donghua Palace must be quite a lot.

Thinking of this.

Zhang Yuhe's mind couldn't help but become active.

He is a poor man now.

Except for the body of the Supreme True God, which is probably worth some money.

He has almost nothing.

If they can successfully kill this hemp-clothed God King.

It will solve a major hidden danger for Donghua Palace.

Then he will probably never have to worry about resources in Donghua Palace again.

At least before the True God Realm, it is like this.

He only needs to stay in the sect and practice quietly.

Until breaking through to the True God Realm.

Zhang Yuhe suddenly felt that the hemp-clothed God King in front of him seemed a little cute.

How could this be a domain evil demon?

This is a walking five million.

He must be killed.

Thinking of this.

Zhang Yuhe quickly pinched the magic formula.

The millstone transformed by Chaos Return to Void enveloped it again.

At the same time.

The outer Nine Heavens Hunyuan Sword Formation also quickly narrowed its range.

Duan Changqing was holding him back in front.

Zhang Yuhe was not worried that the sword formation would be broken by the hemp clothed God King.

The opponent had no chance at all.

Duan Changqing's gun shadows were no joke.

The vast sky-breaking gun intent.

Zhang Yuhe felt a little frightened even if he just watched from a distance.

And the hemp clothed God King, who was under the gun shadow, was even more exhausted to deal with it.

He had no time to pay attention to the outer sword formation and millstone phantom.

However, his ignorance did not mean that they did not exist.

As Zhang Yuhe quickly pinched the magic formula.

The boundless sword energy crisscrossed the world.

Whenever the sword energy passed through his body, He Rufeng would feel terrified.

But what made him more troublesome was the terrible millstone in the sky.

As the millstone turned gently.

He Rufeng felt that the pressure on his head was getting bigger and bigger.

Even dodging and controlling the artifact in his hand became less smooth.

He wanted to find time to break the millstone above his head several times.

But they were all stopped by Duan Changqing.

He didn't let him have a chance to succeed.

He Rufeng even thought about it.

He would find a chance to deal with Zhang Yuhe in the distance first.

As long as Zhang Yuhe didn't interfere.

Even if he was the only one left now.

He Rufeng was confident that he could kill Duan Changqing.

Realm is always an advantage.

Even if it is a realm suppressed by the origin of chaos.

However.

Zhang Yuhe didn't give him any chance at all.

Because Zhang Yuhe stayed far away from the battlefield.

He didn't get close at all.

He just relied on two magical powers to suppress interference.

Zhang Yuhe's main attack was.

If he couldn't kill you, he would disgust you to death.

Facing such an opponent, He Rufeng was completely helpless.

What's more.

He had to be very alert to deal with Duan Changqing's gun shadows.

He couldn't get away at all to pay attention to Zhang Yuhe in the distance.

As time passed slowly.

He Rufeng knew.

He had to think of a way to get out and run away.

If he didn't leave.

Then he really didn't need to leave anymore.

Just wait to be beaten to death.

He Rufeng didn't want to die.

He wanted to run.

...

Chapter 640 This is a dead end.

He Rufeng pointed with his right hand.

The pagoda in the sky landed on his head.

The pagoda cast a faint light, transforming from the original sealing power to the protection power.

It firmly guarded his body.

Immediately afterwards.

He Rufeng quickly pinched the sword formula again.

The magic sword was like a dragon, swinging in the sky.

All the fierce gun shadows of Duan Changqing were blocked back.

After doing all this.

He Rufeng's eyes flashed, constantly observing the situation around him.

He wanted to run.

If he didn't run, he would definitely die.

But in the current situation.

It doesn't mean that he can run away if he wants to.

Section 875

Under the suppression of Zhang Yuhe's two magical powers, his current strength has been greatly affected.

Even the operation of divine power is not as smooth as before.

not to mention.

In front of He Rufeng.

There is also Duan Changqing, who is as fierce as a tiger.

If he didn't pay attention, he might be stabbed through by Duan Changqing.

As time passes slowly.

He Rufeng became more and more anxious.

Because he suddenly discovered.

Zhang Yuhe's millstone magical power slowly rotated.

Divine power is becoming more and more terrifying.

If it drags on any longer.

Maybe he will be like the two true god monks before.

He was directly suppressed by Mopan Shenwei and unable to move.

"No, this millstone must be broken up first."

Think of this.

He Rufeng quickly moved his sword skills.

The divine sword turned into a stream of light and rushed towards Zhang Yuhe in the distance.

"Humph, I still want to fight to the death."

Duan Changqing snorted coldly.

I saw him vibrate his spear and quickly intercept the opponent's divine sword.

Duan Changqing knows very well.

in this war.

Zhang Yuhe's role is crucial.

If Zhang Yuhe is not here.

He might not even be able to defeat He Rufeng, let alone kill him on the spot.

Therefore, he would never let He Rufeng have the opportunity to threaten Zhang Yuhe.

However.

He Rufeng's divine sword was just a vain move.

At the moment Duan Changqing's spear intercepted the divine sword.

He Rufeng used his right hand.

The pagoda hanging in the sky once again bloomed with blazing light.

As the light sweeps across, the millstone is slowly turning in the sky.

He was defeated again.

See this situation.

Duan Changqing couldn't help but look gloomy.

he knows.

I was deceived.

He Rufeng is indeed a supreme divine king.

This man is not only powerful, but also extremely experienced in combat.

This move, pointing east and west, really knocked him open.

despite this.

Duan Changqing was not discouraged.

It is naturally not that easy to kill a supreme god king.

It is almost impossible to take down the opponent without fighting for half your life.

Think of this.

Duan Changqing took a deep breath.

The spear in his hand turned into a dragon and quickly attacked He Rufeng again.

He has completely given up on defense now.

The sharp spear shadow pointed directly at He Rufeng's vitals.

Duan Changqing knows.

Following Zhang Yuhe's magical power of the millstone, he was blown away by He Rufeng.

If he doesn't step up his attack, the opponent will most likely take the opportunity to run away.

Don't let a duck fly if it reaches its beak.

This kind of opportunity to reversely kill the God King would take hundreds of millions of epochs.

It's impossible for him to meet him again.

Duan Changqing secretly made up his mind.

Even if you fight for half your life, you still have to keep the other person behind.

And that's exactly what happened.

The moment the magical power of the millstone above his head began to dissipate.

He Rufeng felt relieved.

He immediately drew the divine sword to block the incoming spear.

Then his body quickly retreated.

Prepare to take the opportunity to escape from the battlefield.

He Rufeng thought.

As long as he can escape, Duan Changqing's spear power will cover the area.

He can quickly get rid of the opponent's attack and then escape.

Unfortunately.

Just at this time.

Another black millstone appears in the sky again.

The grindstone turned slightly.

The huge divine power struck again.

He Rufeng's figure, as fast as a phantom, also slowed down.

See this situation.

He Rufeng was absolutely furious.

How could such a powerful millstone magical power come from the hands of a virtual god?

Can you still use it continuously?

This is very unscientific.

Where did Zhang Yuhe get so much immortal power to support such a huge consumption.

This is a big move, use it as a small skill, right?

He Rufeng didn't know.

Since practicing the Hunyuan Heavenly Scripture.

Zhang Yuhe's Dantian has long since become completely different from ordinary people.

His Dantian, as wide as the sea, contains majestic immortal power.

Not to mention just casting Chaos Return to the Void three times.

Even if I come again a few times.

He is also stress-free.

But Zhang Yuhe could only do this one step.

As for whether he can be beaten to death, this terrifying God King in linen clothes.

It just depends on whether Duan Changqing can do his best.

In addition to using the sword array and the Chaos Guixu magical power, Zhang Yuhe suppressed and interfered.

and can't do much more.

Of course he is not, he only knows these two magical powers.

things.

Zhang Yuhe had already learned all the powerful supernatural powers in the immortal world.

Unfortunately.

Those magical powers may indeed be pretty good in the fairy world.

But trying to deal with a supreme god-king is obviously a fantasy.

There are only Nine Heavens Hunyuan Sword Formation and Chaos Returning to the Void, because they have the power of imprisonment.

Only then can he have some influence and interference on the Maid God King.

Section 876

The protagonist of this battle is destined to be Duan Changqing.

After all, Duan Changqing's perfect strength in the True God Realm is no joke.

He is only a thin line away from the God King Realm.

The Maid God King opposite was just a weakened version of the false God King.

With the help of Zhang Yuhe, there should be a chance to kill him.

At this time, He Rufeng had become more and more anxious.

He tried various means, but in the end he couldn't get out.

Duan Changqing's gun shadow filled the sky, like a life-threatening arrow.

Locked firmly around his body.

In fact, He Rufeng also knew.

Such a ferocious outburst like Duan Changqing's would definitely not last long.

If only he could hold on a little longer.

The opponent's offensive will inevitably slow down.

But I can't hold it any longer.

Facing Duan Changqing, he attacked like a storm.

He already needed to brace himself to deal with it.

There is simply no way to distract it.

But the problem is.

There are sword energies everywhere around him, and the terrifying millstone above his head is spinning slowly.

Facing Zhang Yuhe's two magical powers, he couldn't just let them go.

If that's the case.

Then he is not far from death.

However.

How to manage it?

Those invisible sword energies are relatively easy to deal with.

He Rufeng leaned against it, and the radiance coming from the pagoda could completely destroy those invisible sword energies.

All partitions are outside the body.

But that damn millstone, he had no other choice.

under normal circumstances.

He only needed to strike hard to disperse the millstone shadow.

But the problem is.

No chance.

Duan Changqing was fooled once.

It's impossible to give him a second chance.

Moreover.

Even if He Rufeng scatters the shadow of the millstone again, what will happen?

Zhang Yuhe can summon magical powers again by simply tapping the magic formula.

No solution.

This is a dead end.

Think of this.

He Rufeng's heart felt cold.

He felt that he might die soon.

He died under the combined efforts of a true god and a false god.

He was a supreme god king, but he was beaten to death by the false god and the true god.

This is simply a big joke.

And he, He Rufeng, is the protagonist of this joke.

"Ahhhh..."

The thought that I might die.

He Rufeng screamed wildly.

He was not willing to die like this.

He wanted to try again.

Maybe we can find a way out.

Think of this.

He Rufeng quickly gave up his defense.

All he saw was a finger from his right hand.

The pagoda guarding the top of the head rotated rapidly.

Soon it flew over Duan Changqing.

The pagoda sheds a faint light, carrying a tyrannical sealing power.

Suppressing Duan Changqing.

at the same time.

He Rufeng stirred up the majestic divine aura and surrounded him.

Barely blocking the periphery, there were countless invisible sword energies.

As for the terrifying millstone magical power above his head, there was nothing he could do.

It can only be ignored for the time being.

Rely on your own strength.

He wanted to try again.

He Rufeng thought.

As long as Duan Changqing can be repelled.

He still has a way to survive.

If you don't fight, you will definitely die. Only by fighting hard can you have a chance of survival.

He had no choice.

If you want to survive, you have to fight.

He Rufeng completely let go of his hands and started to attack Duan Changqing frantically.

...

## Chapter 641 The Death of the God King

He Rufeng struggled hard, trying to find a way to survive.

However, as the millstone slowly rotated, the pressure on his head became more and more intense.

It was even so big that his body was no longer very flexible.

Duan Changqing's terrifying gun shadow passed by him several times.

Almost penetrated him.

He Rufeng knew.

My own end is coming, but there is nothing I can do about it.

It's not that he can't beat Duan Changqing.

to be honest.

Even if he cannot use the power of rules, the strength he can exert will definitely not be weaker than Duan Changqing.

It was Zhang Yuhe's two magical powers that had a great influence on him.

Especially the black millstone above his head brought him great pressure.

Every time the millstone turns, the huge divine power will deepen.

He Rufeng even doubted it.

If this square millstone could keep turning.

It is estimated that he can be directly imprisoned in place, unable to move.

Although he knew very well that Zhang Yuhe's magical power of the millstone posed a great threat to him.

But understanding it is one thing, and whether it can be solved is another.

He Rufeng was completely powerless against the magical power of the millstone displayed by Zhang Yuhe.

He could only try his best to avoid Duan Changqing's gun shadow that filled the sky.

Do this to delay your own death.

Zhang Yuhe looked into the distance.

The boundless sword energy spread across the world, and the huge millstone's divine power shrouded all directions.

Among them was a terrifying spear shadow, like a dragon.

Section 877

Locked firmly on He Rufeng.

See this situation.

Zhang Yuhe muttered to himself.

"It looks like you're not dead now."

he knows.

This linen god king is already dead.

Zhang Yuhe looked at the millstone in the sky in the distance while twisting the magic formula.

At this time, the shadow of the millstone has almost completed a full circle.

to be honest.

Ever since he mastered the art of Chaos Returning to the Void.

When Zhang Yuhe was facing the enemy.

Never before has the phantom of the millstone turned a full circle.

Generally, by turning about half a circle, the enemy can be crushed directly into ashes.

have to say.

This linen god king is indeed strong enough.

He was able to persist until now, and he was still under the shadow of the millstone.

He could also perfectly avoid Duan Changqing's gun shadow that filled the sky.

He is worthy of being a supreme divine king.

The strength is far beyond imagination.

Zhang Yuhe even doubted it.

If he encountered it alone.

He probably wouldn't even be able to catch a casual blow from this linen god king.

The realm of the God King is indeed very terrifying.

Click...

Just at this time.

Suddenly there was a soft sound in the sky.

The huge millstone finally completed a full circle.

The terrifying divine power shrouded down, and it actually directly stopped He Rufeng in place.

"not good."

It bears the power of the huge millstone.

He Rufeng suddenly found that he could not move at all.

This surprised him.

He knows it very well.

This means something.

In this ever-changing battle.

Once one's body is imprisoned, it means death is coming.

"Ah ah ah, open it for me."

He Rufeng was filled with fear.

He frantically activated his divine aura, trying to break free from the confinement of the millstone.

However it was already too late.

Seeing He Rufeng, he was suddenly imprisoned.

How could Duan Changqing let go of such a good opportunity?

I saw him turn his gun.

The spear, with its terrifying sky-splitting intent, directly pierced He Rufeng.

Well.....

Seeing the spear passing through his body, a trace of disbelief flashed in He Rufeng's eyes.

It never occurred to him.

He will die in the hands of the two false gods and the true gods.

How could he, the majestic Supreme God King, die like this?

However, no matter how hard the wind is, no matter how unwilling it is.

These are unchangeable facts.

As the spear passed through his body, the look in his eyes slowly dimmed.

Boom...

Duan Changqing shook his spear.

The terrifying sky-splitting spear intent directly shook He Rufeng's body into ashes.

despite this.

Duan Changqing still didn't stop.

In order to prevent He Rufeng and the remaining souls from escaping.

He waved his spear, and the gunfire enveloped all directions, scanning every corner carefully.

Zhang Yuhe saw this situation in the distance.

He was a little speechless.

Do you need to be so careful?

That sack-clothed god-king was dead a long time ago.

It was simply impossible for any remaining soul to escape.

Moreover.

Isn't there the Nine Heavens Hunyuan Sword Formation he arranged on the periphery?

Even the Maid God King had some special means of escape.

Even if he can divide the remaining soul into thousands.

Under the sweeping sweep of the boundless sword energy.

Can he still run?

After a while.

Duan Changqing took a deep breath and put the spear back behind him.

This battle was too difficult.

He almost tried his best.

Duan Changqing even had a hunch that if it was delayed for a while.

He probably didn't even have the strength to move the spear.

fine.

He Rufeng was finally beaten to death.

At this time, Changqing's face flashed with excitement.

He muttered to himself.

"Finally dead."

"I killed a supreme god-king."

Duan Changqing became more and more excited as he thought about it.

This was a supreme god king, and he was actually beaten to death.

To know.

As far as their Donghua Palace is concerned, there have only been three god kings in countless years.

The God King is definitely the most important pillar of power in the entire Chaos Sea.

Now there is a god king who has fallen into his hands.

How could Duan Changqing not be excited about this.

even though.

After entering the Sea of Chaos, the extraterrestrial evil gods will be suppressed by their origin.

Unable to display true strength.

But that is also a god king.

Moreover, He Rufeng was lurking in Donghua Territory and had caused many turmoils.

It is the worry of the entire Donghua Palace.

Even Yuanhe Shenwang took action several times, but ultimately failed to catch this man's little tail.

Extraterrestrial evil gods rarely show up on their own initiative, and usually act in secret.

Duan Changqing didn't expect it either.

This time, He Rufeng actually arranged an ambush in advance in the Sea of Chaotic Stars.

Wanted to ambush them.

Section 878

Then he and Zhang Yuhe joined forces to fight back.

have to say.

Things in the world are indeed very wonderful.

Now the hall master He Rufeng has fallen.

Presumably, the activities of the extraterritorial cults in the Donghua Territory will cease for a while.

Looking at the pagoda and divine sword floating in the void in the distance.

Duan Changqing took a deep breath.

I saw him put away these two things with a wave of his right hand.

When the extraterritorial evil god takes action, in addition to necessary treasures.

Storage equipment is generally not carried.

So they killed three people in a row, but didn't even see a storage bracelet.

But that's enough.

The tower and sword left by He Rufeng are no ordinary items.

The divine sword is He Rufeng's natal artifact, and the pagoda has both sealing and defensive capabilities.

It is also a rare artifact.

more importantly.

These two things are truly divine weapons.

It is an equipment exclusively used by the God-King.

Each piece is of infinite value.

Even excluding the rewards that might be given by Donghua Palace.

But with these two divine weapons, they also made a fortune this time.

The gold belt for murder and arson.

A wave of fat.

I made a lot of money this time.

...

Chapter 642 What kind of world is the Sea of Chaos?

Zhang Yuhe waved his right hand.

The nine fairy swords flew back and quickly disappeared into his sleeves.

He quickly rose into the air and landed in front of Duan Changqing.

"Senior Brother Duan, are you okay?"

Looking at Duan Changqing, he was breathing heavily.

Zhang Yuhe couldn't help but asked with concern.

"Haha, it's okay, just take it slow."

Although Duan Changqing looked tired, his excitement could not be concealed at all.

He took a deep breath and said excitedly.

"Junior Brother Zhang, we killed a God King, the Supreme God King."

Zhang Yuhe nodded lightly.

He wasn't too excited.

Because throughout the whole battle, he only cooperated.

Although his role is also crucial.

But I have to say that the protagonist of this battle is undoubtedly Duan Changqing.

He was just assisting.

Zhang Yuhe knows very well.

If Duan Changqing hadn't been in front, he wouldn't have been able to hurt even a single hair of the sack-clothed God King.

After a while.

The Chaos Divine Boat sailed through the void and continued to fly forward.

As for the sealing formation covering all directions, after He Rufeng died.

Naturally, it has long since dissipated.

Duan Changqing sat cross-legged at the front of the Shenzhou, and the aura of divine power rushed in around him.

Zhang Yuhe stood behind him, guarding silently.

In the battle just now.

Duan Changqing was almost exhausted.

Fortunately, he was not injured, just a little exhausted.

As long as you recover for a while, you should be fine.

Half a month later.

Duan Changqing stood up slowly, and the aura on his body returned to its former glory.

"Senior brother."

Duan Changqing nodded gently.

I saw him wave his right hand.

Four gleaming artifacts slowly floated in front of the two of them.

Three divine swords and a pagoda.

Duan Changqing said excitedly.

"The harvest this time is good, two true artifacts and two divine king artifacts."

"It just so happens that each of us gets one piece."

"Junior brother, you choose first."

Zhang Yuhe looked at the four artifacts in front of him and pondered for a while.

Then he shook his head and said.

"It's up to you to handle these four artifacts."

"I can't use it for the moment, how about you exchange it for the divine crystal for me directly, senior brother?"

"Okay, then we'll deal with it after we return to the sect."

Duan Changqing didn't hesitate.

Artifacts vary from person to person, and more powerful ones are not always better.

They couldn't use the powerful artifact at all.

For example, those two divine king weapons.

Not to mention Zhang Yuhe, even he himself couldn't activate it.

He can only return to the sect.

Take these artifacts and exchange them for the items you need in the treasure house.

The two briefly discussed the distribution plan of the items.

Duan Changqing has no idea of eating alone.

he knows.

If Zhang Yuhe was not here, he would definitely be in trouble today.

He did not want to take advantage of more because he contributed more.

Totally unnecessary.

Although artifacts are good, friendship is more important.

In the previous battle.

The strength displayed by Zhang Yuhe completely shocked him.

It never occurred to him.

Zhang Yuhe was able to suddenly raise his cultivation level to the peak of the Virtual God Realm in a short period of time.

This is a continuous crossing of nine small realms.

And Zhang Yuhe's two magical powers are really terrifyingly powerful.

Especially that strange millstone.

It was actually able to influence the Supreme God King, even to the end.

He Rufeng was directly imprisoned in place, completely unable to move.

To know.

Now Zhang Yuhe is only at the first level of Virtual God Realm.

How terrible would it be if he waited until he broke through to the true god realm?

Duan Changqing couldn't imagine it at all.

Maybe wait until Zhang Yuhe is promoted to the True God Realm.

You can really do it and kill the Supreme God King in reverse.

Section 879

Rather than like himself.

It's so laborious to kill a weakened version of the God King.

Without Zhang Yuhe's assistance, he might not be able to defeat him.

How big is the gap?

Duan Changqing couldn't be more clear.

not to mention.

In Duan Changqing's view.

Zhang Yuhe's future is definitely not as simple as the True God Realm.

Maybe one day he can break through to the God King Realm, and there is even a slight possibility.

Finally being promoted to the Eternal Emperor is something that is hard to say.

Faced with such a big thick leg.

If he doesn't hug him properly now, he would be a fool.

Zhang Yuhe was not pretentious either.

If Duan Changqing is willing to give it, he will take it.

Who allowed himself to be poor now?

...

The Chaos Divine Boat sailed through the void, flying forward quickly.

There is still a long way to go from Chaos Xinghai to Donghua Palace.

They still need to fly for a long time to reach the next teleportation array.

Duan Changqing took out a desk case.

The two of them sat cross-legged.

Zhang Yuhe picked up the tea cup and took a small sip.

After putting down the tea cup.

he asked with some confusion.

"Senior Brother Duan, weren't those people from before the monks from the Sea of Chaos?"

"Are there other worlds beyond the Chaos Sea?"

"Are the levels of those worlds higher than the Sea of Chaos?"

Now that the situation has calmed down, Zhang Yuhe finally asked his doubts.

During the previous war.

Duan Changqing just said that the sack-clothed god king was an evil god from some Bolin universe.

Moreover, they were actually suppressed by the source in the Sea of Chaos.

Unable to exert the power of rules.

With one's strength, 90% of 100% of them were suppressed.

Otherwise.

How could the two of them kill the Supreme God King?

But the problem is.

Where did those people come from?

There can't be a world at a higher level than the Sea of Chaos.

If this is the case, it would be terrible.

Hearing Zhang Yuhe's words.

Duan Changqing stood up slowly, looked into the void in the distance, and then said softly.

"Junior brother, what kind of world do you think the Sea of Chaos is?"

Zhang Yuhe was slightly startled.

He really didn't know how to describe it.

in his impression.

The Sea of Chaos is huge and vast.

The monks in the Sea of Chaos are very powerful.

True God, God King, Eternal Emperor, and even the Invincible Supreme in legend.

The Supreme God King is already terrifyingly powerful.

It's hard for Zhang Yuhe to imagine.

The Eternal Emperor and the Invincible Supreme, how powerful must they be.

However, that's all he knew about the Sea of Chaos.

If you really want him to describe it in detail.

He really couldn't tell.

Think of this.

Zhang Yuhe shook his head gently.

"have no idea."

He really didn't know what kind of world the Sea of Chaos was.

After all, he had only arrived not long ago.

In Zhang Yuhe's original imagination.

The Chaos Sea may be the end of endless chaos.

It includes countless continents, countless primitive worlds, and even new universes can evolve.

But now it seems.

That's obviously not the case.

Otherwise.

Where did that linen-clad God King come from?

Is it outside this sea of chaos?

Is there really a world, and it is even higher than the level of the Sea of Chaos?

You will never be invincible and supreme.

Is there a higher realm?

The road is endless, is there really no end?

Zhang Yuhe thought silently.

...

Chapter 643 Donghua World

Duan Changqing looked into the void in the distance and spoke slowly.

"The Sea of Chaos is vast and boundless, and is composed of nineteen realms, collectively known as the Nine Heavens and Ten Earths."

"The desert sky where our Donghua Domain is located is just one of them."

"Legend has it that beyond the Sea of Chaos, there is a long river of Chaos that runs through eternity."

"In the long river of chaos, countless universes and worlds were born."

"Our Chaos Sea is just one of them."

"And the name Chaos Sea is just the name of our local monks."

"People from the outside generally call our place the Wilderness Universe."

"The wild universe?"

Hear this.

Zhang Yuhe couldn't help but frown slightly.

This is not a good name.

It feels like I'm talking about a bunch of rubes.

Is it so powerful, such a vast and boundless sea of chaos?

In the eyes of outsiders, are they just a bunch of bumpkins?

Duan Changqing glanced at Zhang Yuhe, and then said helplessly.

"Yes, in the eyes of outsiders, our Sea of Chaos is just a wilderness."

"Who told us that the Sea of Chaos has never given birth to an invincible supreme being."

"There is no Supreme Being in the Sea of Chaos?"

Hearing Duan Changqing's words.

Zhang Yuhe couldn't help being surprised.

He kept hearing it.

The realms above Virtual God are True God, God King, Eternity, and Supreme.

Since the realms are clear, how could there be no Supreme Being in the Sea of Chaos?

Duan Changqing continued to speak softly.

Section 880

"That's right, there is indeed no Supreme in the Chaos Sea."

"If there is an Invincible Supreme, how dare those evil gods from outside the domain easily enter the Chaos Sea."

Zhang Yuhe frowned slightly, and he asked with some doubt.

"In that Chaos River, are there many universes like our Chaos Sea?"

"Do they all have Invincible Supremes?"

Duan Changqing said.

"The Chaos River is vast and boundless."

"Worlds like our Chaos Sea are probably as numerous as stars."

"I have never been out, and I don't know the specific situation."

"As for the Invincible Supreme."

"As far as I know, there are a total of three universes around the Chaos Sea with Invincible Supremes."

"It's hard to say for places farther away, and there is no record in the classics."

Hearing this.

Zhang Yuhe couldn't help but fall into deep thought.

The Chaos Sea does not have an Invincible Supreme, so its strength must be a level lower than others.

There are three universes around it, and they all have Invincible Supremes.

Then why didn't these invincible supreme beings invade the Chaos Sea?

Instead, they sent cultivators like the Hemp Cloth God King to quietly wreak havoc everywhere.

This is unscientific.

If the invincible supreme beings came directly to kill.

Who could stop the Chaos Sea?

Duan Changqing seemed to have seen Zhang Yuhe's thoughts.

He said with a smile.

"Although we don't have an invincible supreme being, the cultivators in the Chaos Sea are not vegetarians either."

"Because of the suppression of the origin of the universe, even if the supreme being from outside the domain enters the Chaos Sea."

"They can't exert their full strength."

"So they don't dare to break in easily."

"The most important thing is that the Eternal Emperor of the Chaos Sea has built a stable sky gate at the entrance of the long river."

"Almost all the Eternal Emperors sit in the sky gate all year round."

"The invincible supreme being from outside the domain can't break in at all."

"They can only constantly send some cultivators below eternity to sneak into the Chaos Sea through the occasional cracks in time and space."

"However, after these people entered the Chaos Sea, their strength was suppressed by half."

"In addition to hiding in the dark and causing damage, they can't do anything big."

"As long as they dare to show up, they will be eliminated soon."

Hearing this.

Zhang Yuhe finally understood the general idea.

First of all, there are many universes like the Chaos Sea outside the domain.

Around them, there are three powerful universes, all of which are guarded by the Invincible Supreme.

As for places without the Invincible Supreme, even further away.

There may be more similar universes.

Secondly, those universes with the Invincible Supreme have always wanted to invade the Chaos Sea.

It's just because of the suppression of the origin, plus the Eternal Emperor guarding the Heavenly Gate.

Those Invincible Supremes can't get in at all.

Or the cost is too high, and those Supremes don't want to take risks.

They just send monks to sneak into the Chaos Sea to cause damage.

Thinking of this.

Zhang Yuhe couldn't help but fall into deep thought.

It's obvious.

In the eyes of others, the Chaos Sea is a big piece of fat meat.

It's just because this piece of meat is a little hot for the time being.

Those Invincible Supremes can't eat it.

But the problem is.

It's not a solution to keep guarding like this for a long time.

What if the Heavenly Gate is lost one day.

A large number of foreign monks poured into the Chaos Sea.

Then they are finished?

Although there is suppression from the origin.

But Zhang Yuhe believed that this suppression must have a certain limit.

If too many foreign cultivators enter.

I am afraid that even the origin of the Chaos Sea may collapse.

Thinking of this.

Zhang Yuhe couldn't help shaking his head.

"Why bother so much, I am just a small virtual god realm cultivator now."

"There are tall people to support the sky when it falls."

...

Time passed slowly.

The Chaos Boat flew over the Chaos Star Sea, and then they switched teleportation arrays one after another.

Quickly crossed the continents and passed through countless dangerous places.

Five thousand years later.

A vast continent slowly came into Zhang Yuhe's sight.

Duan Changqing stretched out his hand and pointed forward, then smiled and said.

"Junior brother, that is the Donghua World."

The Chaos Boat passed through the void and quickly flew into the sky above the continent.

Zhang Yuhe suddenly felt that there seemed to be some mysterious aura flowing around him.

He couldn't say what it was specifically.

It just felt that this place was completely different from the chaotic void outside.

There was a heavy feeling.

Duan Changqing said with a smile.

"You also felt it, right?"

"This is the aura of the Palace Master."

"The Great World of Donghua is not a naturally formed continent, but was moved and transformed by the Great Palace Master himself."

"The aura of the Palace Master's rules covers the entire continent."

"It can be said that as long as you enter the Great World of Donghua, you don't have to worry about safety issues."

"No one dares to cause trouble here."

Hearing this.

Zhang Yuhe was shocked.

Such a vast continent was actually transformed by the Donghua God King himself.

And the aura of the rules of the Donghua God King can actually cover the entire continent.

How powerful is that.

"Is this the strength of the Nine-Step God King?"

Zhang Yuhe sighed silently.

There will naturally be a big difference between God Kings.

He had heard of it a long time ago.

Donghua God King had mastered many rules of the Great Dao and had already entered the realm of the Nine-Step God King.

Even in the entire Great Desert Heaven, he was the top existence.

Zhang Yuhe had no idea about this before.

Now seeing this big world in front of him.

He finally understood.

The power of the Nine-Step God King was far beyond his imagination.

Like the hemp-clothed monk they met in the Chaos Star Sea before.
