Then he asked leisurely.

"Do you know about He Rufeng's matter?"

Wu Wei nodded gently.

He hesitated for a while, then slowly spoke.

"I have also heard some rumors about this matter."

"It is said that He Rufeng was preparing to ambush Duan Changqing, a disciple of Donghua Palace."

"He was caught off guard and was killed by the other party."

Speaking of this.

Wu Wei felt a little embarrassed.

He Rufeng, the dignified Supreme God King, actually died at the hands of a True God cultivator.

It is simply a strange story for the ages.

But this matter is so widely circulated outside.

It should not be false.

To be honest.

Until now.

He is still not very clear.

How did He Rufeng die?

Could Duan Changqing, the True God disciple of Donghua Palace, really kill a Supreme God King?

As the head of the four pillars of Donghua Palace.

Wu Wei naturally knew the name of Duan Changqing a long time ago.

And he has also paid special attention to it.

But in his opinion.

With Duan Changqing's strength, there is no reason why he can beat He Rufeng to death.

Is there any secret in this?

Wu Wei looked at Lu Yuan respectfully.

He also wanted to get some accurate answers from the hall master.

Lu Yuan looked into the distance and said with a helpless look.

"Yes, the Supreme God King of the Party Hall actually died at the hands of a True God."

"This is indeed incredible."

"According to my detailed investigation during this period."

"On the day of the incident, the other True God disciples of Donghua Palace did not make any unusual movements."

"Even the Yuanhe God King did not step out of Donghua Palace."

"In other words, the person who beat He Rufeng to death was really Duan Changqing."

"Maybe there are some secrets that we don't know about."

"But it doesn't matter anymore."

"The key now is that the idiot He Rufeng is dead."

"Our branch hall in Donghua Domain is in a state of complete chaos."

"If we don't rectify it."

"Perhaps it won't be long before the power of the God Cult will be completely expelled from Donghua Domain."

Speaking of this.

Lu Yuan paused for a moment, he looked at Wu Wei under the stage, and then said solemnly.

"I called you here this time because I plan to send you to Donghua Territory to be the head of the branch hall."

"I wonder if you have any ideas."

"I will follow the orders of the Palace Master."

Wu Wei's expression remained unchanged and he responded respectfully.

Although in his heart,

Letting himself go to Donghua Territory to be the head of the branch hall was really a waste of talent.

Wu Wei was originally the right protector in the Bolin Temple.

And his strength, before entering the Chaos Sea.

He had already reached the perfection of the God King Realm.

Even now, suppressed by the Chaos Sea Origin.

The strength he can exert is far beyond the ordinary God King Realm.

He is not a fake God King like He Rufeng.

If they fight head-on.

Wu Wei even has the confidence that he can kill the God King Yuanhe.

Did the Palace Master send him to Donghua Territory to completely destroy the Donghua Palace?

Thinking of this.

He couldn't help but feel a chill in his heart.

The Donghua Palace is not easy to deal with.

The Yuan Shen Wang who has been in charge of Donghua Palace for many years is nothing.

He is confident that he can deal with it.

But the problem is.

Donghua Palace is not, there is only Yuanhe Shen Wang, the supreme Shen Wang.

In addition to Yuanhe Shen Wang.

Donghua Palace's Duantian Shen Wang and Donghua Shen Wang are tough characters.

Especially Donghua Shen Wang.

It is said that he has already comprehended all nine kinds of rule power to perfection.

Maybe he only needs a little opportunity to enter the eternal realm.

Facing such a tough character.

Even if the hall master takes action personally, it may not be easy to take it down, right?

If you really want to fight Donghua Palace.

Relying on their Great Desert Tianbo Lin Temple is probably not enough.

Unless the branch halls in other realms will send enough support.

Otherwise.

This battle cannot be fought.

Just when Wu Wei was still struggling.

Lu Yuan spoke slowly.

"There are two main purposes for asking you to go to Donghua Territory."

"One is to reintegrate the local believers."

"After all, we have limited manpower from the Bolin Holy Realm to the Chaos Sea."

"If you want to make a difference, you must develop a large number of believers."

"Only in this way can the glory of Supreme Bolin spread throughout the Chaos Sea."

"A head-on confrontation will not work."

"Remember, your goal is to develop in secret, and you can't act easily."

"Yes."

Hearing this.

Wu Wei couldn't help but breathe a sigh of relief.

He thought at first that the hall master was going to kill people in Donghua Territory.

If it was just to develop believers in secret, there would be no problem.

They are very familiar with this matter.

It has been a long time since they came to the Chaos Sea from the Bolin Holy Realm.

Of course, they have their own way of survival.

Normally speaking.

As long as they don't commit suicide, it is difficult to be discovered by the local forces in the Chaos Sea.

At this time.

Wu Wei suddenly remembered.

There are two things that the hall master said just now, and asked him to go to Donghua Territory to do.

Developing followers is just one thing, what is the other thing?

Thinking of this.

He asked respectfully.

Section 892

"Palace Master, what is the second thing?"

A trace of anger flashed across Lu Yuan's face.

He took a deep breath, and then spoke slowly.

"As for the second thing, it is to find out how that idiot He Rufeng died."

"I don't believe that Duan Changqing can beat He Rufeng to death."

"Yes, Palace Master."

"I will carefully investigate."

Wu Wei's heart trembled, and then he responded respectfully.

He knew.

This matter is not that simple.

It is very tricky.

It is not easy to deal with.

He Rufeng has been dead for so long.

The information that can be found must have been found out by the Palace Master.

As for more secret information.

Unless Duan Changqing, the person involved, is caught.

Otherwise.

There is no way to start.

Despite this.

Wu Wei still agreed.

As for the arrangement of the Palace Master.

He can only agree.

Otherwise.

He will not have a good harvest.

Wu Wei is very clear.

The Palace Master in front of him.

Although he looks harmless, like a weak scholar.

But once the Lord of the Palace gets angry.

Then the sky and the earth will surely change color, and blood will flow like a river.

Fortunately, the Lord of the Palace did not give a time limit.

Then he will slowly investigate after he arrives in Donghua Territory.

Anyway, there is no rush.

...

Chapter 651 Nine Heavens of the Void God Realm

Time passed slowly.

Fifty million years later.

The majestic aura of divine power permeated the entire lake island.

The aura of divine power in the sky was swarming towards Yitian Mansion.

Zhang Yuhe closed his eyes slightly and sat cross-legged on the practice platform silently.

Behind him.

A small purple tree swayed gently in the wind.

Wu Yiyi emerged from the small tree.

Looking at Zhang Yuhe not far away.

At this time, a trace of depression appeared on her face.

"How can this guy cultivate so fast?"

"It's only been a short time, and he's about to reach the ninth level of the Void God Realm."

"This girl has been cultivating for so many years, but she hasn't even reached the second level of the True God Realm."

"Will this guy catch up with me in a few years?"

"Oh, it's so annoying."

Looking at the aura on Zhang Yuhe's body, which is slowly improving.

Wu Yiyi is happy, but also a little depressed.

Thinking back to the past.

When Zhang Yuhe just entered the Daluo Realm, she was already in the first level of the True God Realm.

So many years have passed.

Zhang Yuhe is about to reach the ninth level of the Void God Realm, and she is still in the first level of the True God Realm.

She has also been working hard.

Even her beloved swing hasn't been swinging much recently.

However, cultivation is like this.

There is no way to improve quickly.

It takes a long time to slowly polish.

Isn't it the same for everyone?

Why is it completely different for Zhang Yuhe?

It only took 50 million years.

He broke through from the first level of the Void God Realm to the ninth level of the Void God Realm.

This is too fast.

Is it really that amazing?

"No, I have to slow down first."

Thinking of this.

Wu Yiyi waved her right hand.

A swing made of vines suddenly appeared on the branches of a purple tree.

She landed on the swing in one step.

As the swing swayed gently, Wu Yi rested her chin on her back and silently looked at Zhang Yuhe in the distance.

The spiritual energy continued to surge.

Fortunately, Donghua Palace was large enough.

And the island in the middle of the lake where Zhang Yuhe was located was remote.

No one paid attention to it.

After all, a Void God cultivator breaking through a small realm would not cause much noise.

Zhang Yuhe silently operated the Chaos God and Demon Sutra, guiding the surrounding divine energy to slowly converge into the sea of Dantian.

At this time, his Dantian was completely a golden ocean.

Even the huge illusory continent in the center of Dantian.

All turned into a golden color.

Not only that.

Compared with the past.

Now Zhang Yuhe's Dantian has expanded several times.

The Dantian sea is boundless, as if it has turned into a vast chaotic universe.

The divine power around it quickly gathered.

This chaotic universe is still expanding.

Boom...

I don't know how long it has been.

A silent roar suddenly sounded in the depths of Zhang Yuhe's heart.

The powerful aura swept across the four directions, and then slowly converged.

Zhang Yuhe opened his eyes, and a faint joy appeared on his face.

He slowly stood up from the practice platform.

Feeling his own surging power.

Zhang Yuhe muttered to himself silently.

"After practicing for 50 million years, I finally broke through to the ninth heaven."

Since joining Donghua Palace.

He has never walked out of the island in the middle of the lake.

He was not in the mood to even play with the beautiful lakes and mountains outside.

Section 893

From the fairy world to the sea of chaos.

Zhang Yuhe deeply felt that his own strength was insufficient.

Before being promoted to the True God Realm.

He has no sense of security at all.

Now it's finally the final step.

Just continue to advance your cultivation to the state of perfection, and then understand the rules.

Then you can start the matter of advancing to the True God Realm.

Looking at the rippling blue waves in the distance.

Zhang Yuhe's heart suddenly moved slightly.

He turned to Wu Yiyi and said.

"Yiyi, let's go boating?"

"Yeah."

"This girl has long wanted to go out for a walk. Staying in this cave every day will almost suffocate me to death."

Zhang Yuhe smiled slightly and said nothing more.

Cultivation is indeed a very boring and boring thing.

Not everyone can insist on long-term retreat.

Some people can't calm down, but force themselves to practice in seclusion.

Even went crazy in the end.

Cultivation is about following one's heart.

No matter how talented you are, you don't have a heart that loves the great road.

It's hard to go too far.

In Zhang Yuhe's view.

Wu Yiyi lacks a firm heart towards the Tao.

In recent years.

While he was practicing.

Zhang Yuhe often found that Wu Yiyi secretly stopped practicing and played around the manor.

Think of this.

He couldn't help but shake his head.

Let her be.

Zhang Yuhe didn't force himself.

After all, Wu Yiyi was already in the True God realm when she was born.

If you count it carefully.

Wu Yiyi now may be just equivalent to a young child among humans.

Can you expect a child to sit quietly and practice in seclusion all the time?

Think of this.

Zhang Yuhe said with a smile.

"Come on, let's go boating."

After saying this.

I saw him wave his right hand.

The sword light flew out and split a giant tree covering the sky in half in the distant mountain peak.

With the sword light flashing.

Half of the giant tree was quickly cut into a small boat.

Zhang Yuhe waved his sleeves.

The canoe flew up gently and slowly landed on the lake in the distance.

The two people jumped into the air and quickly landed on the wooden boat.

The canoe moved without wind, moving forward slowly on the lake.

"Look, there seems to be fish there."

Wu Yiyi looked at the fish that occasionally jumped on the lake like a curious baby.

Shouting loudly with joy.

Zhang Yuhe smiled slightly and ignored it.

He found a comfortable position on the canoe and lay down quietly.

The canoe floated aimlessly on the lake, moving with the wind.

Wu Yiyi occasionally stretched out her bare hands and touched the fish in the lake.

Occasionally, I would fly out of the canoe and look for novel things on the surrounding lake.

Zhang Yuhe lay quietly.

But she was alone and having a great time.

Later, she even conjured up a fishing pole and wanted to fish in the lake.

Of course.

Fishing is not the purpose.

Just play.

If you really want to fish.

With Wu Yiyi's cultivation level, are these fish in the lake still at her disposal?

Zhang Yuhe cleared his mind and lay quietly on the canoe.

There is no need to worry about cultivation matters for the time being.

He has now broken through to the ninth heaven.

All that's left is how to understand the rules of a great avenue.

The rules are hard to understand.

This is something recognized by the Chaos Sea monks.

Countless virtual god monks spend their entire lives.

There is no way to successfully understand the rules and get started.

For example, when I was in Xilinjiao.

There are five virtual gods in the three families of Liu and Chen.

Not even one person understands the rules.

Among them, Liu Xishan, who has the highest level of cultivation, has even reached the sixth level of the Virtual God Realm.

Neither has the power to master the rules.

They were not like Zhang Yuhe, who had just stepped out of the Immortal Realm and arrived at the Sea of Chaos.

A virtual god monk from the Liu, Chen, and Wang families.

Who hasn't been cultivating for thousands of trillions of years?

despite this.

They still failed to grasp the power of any rules.

One can imagine the difficulty of this.

However, Zhang Yuhe was not too worried.

The rules are hard to understand, they are for other people.

for him.

It shouldn't be too difficult.

Just find the rules that suit you and then slowly understand them.

...

Chapter 652 Daozang Hall

The canoe is on the lake, swaying gently in the wind.

Wu Yiyi was alone and having a great time on the canoe.

Zhang Yuhe put out a bench and lay quietly on the canoe.

He's thinking about it.

What kind of Taoist rules will suit you?

It allows him to quickly comprehend and at the same time display impressive combat power.

It is best to be able to use it in conjunction with the Nine Swords Hunyuan Sword Formation and the Taoist Chaos Guixu.

Of course.

Zhang Yuhe also knew.

It seems that my request is a bit too high.

For normal monks.

Section 894

It is already very good to be able to successfully comprehend a rule of the Great Dao.

How dare you be picky.

In fact, Zhang Yuhe did not think much.

Just find a rule of the Great Dao that suits you, and then comprehend it.

Let yourself break through to the True God Realm first.

If the rule of the Great Dao is not powerful enough.

You can find a way to comprehend other rules in the future.

There are thousands of great Daos, countless.

And there is no upper limit to the rules that each cultivator can comprehend.

Theoretically.

Everyone can comprehend countless rules of the Great Dao.

As long as you have enough understanding and enough time.

Zhang Yuhe once planned to start with the Five Elements Rules.

Because there has been such a legend in the Chaos Sea.

In the early days of the universe.

The Chaos Sea originally only had five original rules of gold, wood, water, fire and earth.

As for other rules of the Great Dao, they were slowly comprehended and evolved by the cultivators from the Five Elements Rules.

The Five Elements Rules are the foundation of building the world, and they are also very powerful.

Legend has it that the five elements rules all contain magical immortal characteristics.

As long as one of the rules is comprehended to the state of great perfection.

You can obtain an immortal body.

For example, the immortal body of water and the immortal body of wood.

According to legend.

The Great Desert Emperor had already comprehended the earth rule to the state of perfection.

Thus, he obtained the immortal body of earth.

No matter how powerful the opponent is, the Great Desert Emperor is almost immortal.

No one can kill him.

According to the records in the classics.

The Great Desert Emperor once confronted the Supreme Bo Lin in the long river outside the domain.

The two sides fought for dozens of days.

The Supreme Lin Bo could not do anything to him.

It is precisely because of this.

Zhang Yuhe is full of infinite desire for the five elements rules.

Who doesn't like an immortal body?

It's a pity.

After many attempts, Zhang Yuhe gave up soon.

As the basic rule for constructing the universe.

Any of the five elements rules seems to be extremely simple, but in fact it is extremely mysterious and profound.

It's not that easy to comprehend.

Maybe it takes a special opportunity.

Zhang Yuhe had thought about it.

Can I comprehend the rules of chaos from the Chaos God and Demon Heavenly Scripture?

The result also disappointed him.

Chaos is all-encompassing and illusory.

It's impossible to figure it out.

There's no place to start.

Later, Zhang Yuhe figured it out.

Although his comprehension is against the sky, and he has the blessing of Wu Yiyi's enlightenment tree.

But there is really no shortcut to the rules of the Tao.

You have to take it step by step.

At least you have to get started first.

You haven't even stepped into the threshold.

No matter how great your comprehension is, it's useless.

"It's better to read the collection of Donghua Palace like other disciples."

Zhang Yuhe thought silently.

When he reads through countless classics, he will naturally find a rule that suits him.

...

The wooden boat drifted aimlessly on the lake.

One day a year later.

Wu Yiyi sat on the edge of the wooden boat, and she said to Zhang Yuhe in boredom.

"It's so boring to play."

"Why don't we go back."

Zhang Yuhe couldn't help but smile.

Wu Yiyi's words perfectly explained what it means to play and get tired.

Even if you love playing, you can't help playing every day.

When it comes to killing time.

It's still faster to practice.

Zhang Yuhe smiled slightly and said softly.

"Okay, then let's go back."

The two took off and flew quickly towards Yitian Mansion.

There was only an unmanned wooden boat on the lake, slowly drifting with the wind.

After settling Wu Yiyi down.

Zhang Yuhe soon came to a magnificent palace.

On the plaque above the palace, there were two mysterious and endless characters [Dao Zang].

"Dao Zang..."

Looking at the handwriting on the plaque, Zhang Yuhe muttered to himself silently.

"Collection Avenue."

"This has a good meaning."

"I hope the books inside will not disappoint me."

Although he has joined Donghua Palace for nearly 50 million years.

But Zhang Yuhe has never been to this Daozang Hall.

To be precise.

The vast area of the entire Donghua Palace.

Except for the first time he entered the sect, he followed Duan Changqing to Yuanhe Palace.

He has never been to other places.

He has been staying in Yitian Mansion, practicing alone in silence.

He is really oblivious to the outside world.

Zhang Yuhe stood outside the Daozang Hall and looked around.

There was no one around.

There are not many disciples in Donghua Palace, only a total of 100,000.

Naturally, there are not many people who can come to the Daozang Palace to read books.

Moreover, the Daozang is operated by the formation and does not need guards.

Zhang Yuhe wanted to find someone to inquire about some information, but he couldn't find anyone.

"Forget it, let's go in and take a look first."

Fortunately, the identity token records various information about Donghua Palace in detail.

He would not go to the wrong place or commit any taboo.

Zhang Yuhe took out his identity token and stepped through the palace gate.

A faint breath swept over him and then disappeared without a trace.

Identity verification passed.

"Oh my god, so many classics?"

Section 895

"I'm afraid I won't be able to read all these classics even if I read them for millions of years."

Zhang Yuhe stood blankly at the door of the hall.

Looking at the vast smoke-like books, he was speechless.

There are really too many classics collected here.

It's scary how many there are.

Rows of bookshelves look like streets in a city.

The horizon is as far as the eye can see.

Zhang Yuhe randomly pulled out a classic from the bookshelf at the door and opened it.

[Flame Knife Technique] is suitable for training below the level of God Transformation.

[Heaven-turning Palm] is suitable for cultivation of Golden Immortal and below.

After reading several classics in succession.

Zhang Yuhe couldn't help but sigh.

As expected, he is the Daozang of a powerful force.

It's truly all-encompassing.

There are everything from the most common mortal world classics to fairy world classics.

Zhang Yuhe did not, because the level of these classics was low.

And have any contempt.

Everything can be understood by analogy.

Zhang Yuhe knows.

Every powerful magical power is slowly deduced by monks from the most common spells.

By looking through these ordinary magical books, you may be able to understand some of the evolution of magical powers.

It is easier for monks to understand the corresponding rules of the great road.

This is the basic foundation that a great force should have.

Although these classics are ordinary, they are crucial.

Of course.

This needs to reach a certain amount.

If the quantity is too small, it will be meaningless.

The Daozang Hall in Donghua Palace has enough books.

This is the result collected by countless sect seniors over a long period of time.

It's definitely not something that happens in one fell swoop.

Zhang Yuhe was on the bookshelf at the door, flipping through several classics.

He quickly walked towards the depths of Daozang Hall.

He has not yet reached the point where he needs to deduce magical powers and evolve rules.

For Zhang Yuhe now.

Books that contain mature rules and principles are what he needs now.

If you really can't find it, a book of rules suitable for your own understanding.

It's not too late to come back and read it slowly.

...

Chapter 653 This magical power is a bit interesting

Zhang Yuhe walked quickly towards the depths of Daozang Hall along the rows of bookshelves.

The vast smoke-like books outside are not of much use to him for the time being.

Maybe wait until he is promoted to God King, or maybe he has no clue at all.

It is impossible to understand any one of the rules and get started.

It is these massive classics that are needed to continuously expand his knowledge.

But it's totally unnecessary now.

Zhang Yuhe knows.

There are thirty-six supreme classics in Donghua Palace.

These classics are stored deep in the Daozang Hall.

Each of these classics points directly to the road of rules.

Moreover, there are already senior monks who have understood the rules of the Great Dao.

This is the path that our predecessors have successfully taken.

There is a right path to take.

Zhang Yuhe naturally didn't need it, so he slowly explored it by himself.

Unless the rules of the Tao contained in these thirty-six supreme classics are not suitable for him to understand.

He was unable to understand the power of the rules at all.

If that's the case.

Then there is no other way.

You can only explore on your own and take your time.

Zhang Yuhe walked quickly among the bookshelves.

Suddenly he stopped slightly.

I saw a disciple in purple clothes in the distance, holding a book in his hand and immersed in it.

He didn't even notice Zhang Yuhe coming.

Zhang Yuhe gently walked around the bookshelf and walked past.

He made no noise to disturb.

Maybe they are at a critical moment in some kind of deduction.

Zhang Yuhe passed by quickly.

Occasionally, you can see Donghua Palace disciples on the road, carefully looking at the classics.

Some people would smile and nod when they noticed him coming.

No one knows each other.

Just nod your head.

Zhang Yuhe knows.

In fact, these disciples are also very helpless.

The reason why they are looking through the classics here is because they have never been able to understand the rules.

Or after getting started, there is no progress at all.

The thirty-six supreme classics in Donghua Palace are not suitable for them.

at no choice.

Only then would they think about finding a hint of inspiration from this massive collection of classics.

I want to find my own path of rules.

The road is difficult.

Hope they can succeed.

Think of this.

Zhang Yuhe couldn't help but shake his head.

After a while.

He then came to the end of Daozang Hall.

There are no bookshelves here.

There are only wide platforms.

On the high platform.

Tall stone monuments stand quietly among them.

Countless mysterious and profound Taoist auras are constantly falling from the stone tablet.

Even the void around the stone tablet trembled slightly.

Just stone tablets recording classics can make the Taoist charm appear.

It can be seen from this.

The contents in these classics are so powerful.

Zhang Yuhe took a general glance.

There are exactly thirty-six stone tablets, corresponding to thirty-six supreme books.

He looked all the way over.

Sky-splitting axe, sky-breaking knife, one-yuan plate...

Looking at the various powerful supernatural powers recorded on the stone tablet, Zhang Yuhe couldn't help but yearn for it.

The magical powers recorded on the stone tablets are not static.

Section 896

Just like the Sky-Splitting Spear Dao that Duan Changqing understood, it actually evolved from the Sky-Splitting Ax magical power in the first stone tablet.

The ax was replaced with a spear, and the same power of rules evolved.

The rules evolved in this magical power are highlighted by the word "split".

Under the shroud of rules, everything is broken.

Zhang Yuhe has a deep understanding of the power of this magical power.

Back then, Duan Changqing was using the Sky-Splitting Spear.

One shot penetrated He Rufeng.

The powerful power of rules directly tore the supreme god king into pieces.

This avenue of rules is really overbearing.

Zhang Yuhe heard Duan Changqing say it.

This sky-splitting ax magical power was created by God King Donghua.

With this magical power, Donghua God King can be invincible in the desert sky.

Even in the long river outside the territory.

The reputation of Donghua's Sky-Splitting Ax spread throughout several big worlds around it.

Look at the content on the stone tablet.

Zhang Yuhe was slightly moved.

This magical power is very good.

If you can understand the power of the sky-splitting rules.

Then his Nine Heavens Hunyuan Sword Formation can definitely be improved to another level.

"I don't know if this rule is suitable for me to understand."

"Look at the other stone tablets first."

Zhang Yuhe looked all the way back.

The Sky-Breaking Sword comes from the Sky-Breaking Divine King, and the Yiyuanpan magical power was created by the Divine King Yuanhe.

Some of the next thirty-three magical powers were accidentally obtained by the three palace masters.

Some are also created by their deductions.

It's just that the reputation of these magical powers that follow these rules is not as great as those recorded on the first three stone tablets.

"Try them all first."

Zhang Yuhe randomly found an open space and slowly sat down cross-legged.

He looked at the first stone tablet and felt silently in his heart.

to him.

It is not too difficult to learn the magical powers on the stone tablet.

Although it has not reached the point where you can learn it just by looking at it.

But it's not too far off.

However, magical powers are easy to learn, but rules are difficult to understand.

Zhang Yuhe silently evolved his magical powers.

When he wanted to evolve this sky-splitting ax magical power to the level of rules.

But I found that I seemed to have entered a dead end, with no way out.

"This rule doesn't suit me."

Zhang Yuhe muttered silently to himself, feeling helpless in his heart.

Maybe it's me who lacks the unparalleled courage.

So there is absolutely no compatibility with this magical power.

Even if it takes billions of years.

It is not necessarily possible to understand the rules of splitting the sky from this magical power.

"Let's look at the next stone tablet."

Time passed slowly.

Zhang Yuhe continuously learned thirty powerful magical powers.

But the power of rules contained in magical powers cannot be understood.

This made him feel a little annoyed.

even though.

It is not that easy to understand the power of rules.

Other disciples of Donghua Palace want to learn the magical powers on the stone tablet.

Most of them take millions of years.

And then I don't know how long it will take to comprehend the power of rules from my magical powers.

Zhang Yuhe has just started, there is no need to rush.

Think of this.

He couldn't help but take a deep breath and slowly calm down his anxious mood.

he knows.

It was because I was too successful before.

When in the fairy world.

Even the supreme law can be understood easily by him.

But now in the Sea of Chaos, everything is different.

It was not his understanding that declined.

It's because the rules are harder.

It is countless times more difficult to understand than the power of law.

Zhang Yuhe carefully recalled his experience of viewing the stone tablet just now.

He found.

Not all the magical powers on the stone tablets are not suitable for you to understand the rules.

In fact, he still has some insights into some magical powers.

As long as it evolves over a long period of time, it is very likely that the power of the rules will be understood.

He needs some patience.

"Well, let's take a look at the last six stone tablets first."

Zhang Yuhe plans to master all thirty-six magical powers.

Then consider making your choice.

Choose a magical power that suits you best and try to evolve the rules of the avenue.

The stone tablets I looked at before were not without any results.

But Zhang Yuhe felt that the progress of understanding was too slow.

It may take tens of millions, or even hundreds of millions of years.

Only then can you understand the power of the rules and get started.

Zhang Yuhe didn't want to wait too long.

He wanted to find a magical power that suited him best and understand the power of its rules.

If you really can't find it.

Then we can only choose the best among the weak.

"Hey, this magical power is kind of interesting."

When Zhang Yuhe saw the thirty-third stone tablet, he couldn't help but feel refreshed.

...

Chapter 654 Fluctuating Path

When he saw the thirty-third stone tablet, Zhang Yuhe couldn't help but be a little surprised.

Because this is a magical power that is completely different from other stone tablets.

The magical power recorded on this stone tablet is called [The Way of Waves].

The magical power itself is nothing special.

It doesn't even have much power.

According to what the stone tablet says.

This magical power of the Wave Dao was unexpectedly obtained by God King Donghua.

The great power who created this magical power was once a famous eternal emperor.

However, this emperor had already fallen in the long river outside the domain.

So this magical power would slowly spread outside.

Finally, it was obtained by Donghua Divine King.

Although this magical power was created by Yongheng Emperor, it is not very famous.

Because this is not a combat-type magical power, but a detection-type magical power.

Section 897

According to the content on the stone tablet.

The main principle of this magical power is to quickly fluctuate to the periphery by vibrating the divine power.

The fluctuation of divine power is like a pebble thrown into a calm lake.

Theoretically it can spread to infinite distance.

Wherever the fluctuation passes, the surrounding situation can be clearly conveyed to the monk's mind.

And this fluctuation is silent.

When exploring, no one will notice it at all.

In short, this is a strange detective power.

It is countless times easier to use than a monk's spiritual consciousness.

Although the emperor only wanted to explore his abilities when he created the magical power.

The function of this magical power is indeed only for investigation.

However.

After the magical power was created.

The Eternal Emperor was surprised to find out.

He actually realized a new power of rules from it.

That is the wave channel rule.

The rules of the Wave Path are extremely strange, and they can be perfectly integrated into any magical power.

And this kind of extreme power of fluctuation can make other magical powers powerful.

been greatly enhanced.

It can be said.

This is an almost perfect, omnipotent power of rules.

After acquiring this magical power, Donghua Divine King felt like he had found a treasure.

Immediately retreat to enlightenment.

Unfortunately.

Even if he studied for countless years.

Although he has learned magical powers long ago, the power of rules contained within them.

But I couldn't understand it at all.

Later, God King Donghua gave up.

He placed the stone tablet recording supernatural powers in the Daozang Hall.

I hope that some of the disciples of Donghua Palace will be able to understand the rules of the Wave Path.

However.

Maybe the rules of the wave path are too special.

Countless epochs have passed.

There was no one in Donghua Palace who could understand the rules of this great avenue.

Look at the content on the stone tablet.

Zhang Yuhe couldn't help but fell into deep thought.

no doubt.

This is a good magical power.

Even if it doesn't contain the power of rules, it's just a strange detection method.

It is worth learning from him.

If you are lucky, you will understand the rules of the wave path.

Wouldn't that be developed?

Think of this.

Zhang Yuhe quickly focused his attention on the stone tablet.

The endless Taoist aura slowly blended into his mind.

After a long time.

Zhang Yuhe finally recovered.

He muttered to himself.

"Bodao said, so that's what happened."

"Try it."

Just do what comes to mind.

Zhang Yuhe quickly used the magic formula.

The divine aura around him vibrated slightly.

Invisible waves rippled rapidly around.

Fluctuations swept across the heaven and earth, passed through the mountain gate of Donghua Palace, and soon spread to the Donghua world outside.

The picture of the entire big world was clearly reflected in Zhang Yuhe's mind.

It's like watching a movie.

See all the situations in the entire Donghua world.

This is simply like the legendary heaven seeing and earth hearing.

It works even better than that.

"What a powerful magical power."

Feeling the effect of the magical power of Wave Dao, Zhang Yuhe couldn't help but be overjoyed.

This magical power is so practical.

After unfolding his magical powers, he could actually explore the entire Donghua world.

How terrible this must be.

To know.

If you rely only on your spiritual consciousness.

Zhang Yuhe couldn't even destroy one percent of Donghua Palace.

And the gate of Donghua Palace only occupies a small corner in the whole big world.

The magical power of Wave Dao covers such a wide range.

Far from comparable to divine consciousness.

And when the spiritual consciousness sweeps across, others will notice it immediately.

under normal circumstances.

Monks generally don't know how to use all their strength to detect spiritual consciousness.

This is a taboo thing.

But using the magical power of Wave Dao, there is no such scruple at all.

The magical power of Wave Dao is silent and will not be discovered at all.

This is really a voyeuristic skill.

Zhang Yuhe couldn't help but sigh.

This is just the magical power itself, which has such an extraordinary effect.

If he could understand the power of the rules.

Wouldn't that be very developed?

Think of this.

Zhang Yuhe felt hot in his heart.

"You are the one."

After learning magical powers.

Zhang Yuhe is very easy to use, unlike the magical power of the Sky-Splitting Ax.

He feels.

I should be able to understand the rules of the Wave Path.

"Go back to retreat."

"If you don't understand this rule, you won't be able to escape."

Think of this.

Zhang Yuhe stood up.

He didn't even look at the last three stone tablets.

Now that I have found my own path, there is no need to look at other magical powers for the time being.

Let's get the rules of this wave path first and then talk about it.

Zhang Yuhe quickly walked out of Daozang Hall.

Just at this time.

A purple-clothed disciple passed by him.

Zhang Yuhe nodded slightly.

Section 898

Those who come to Daozang Palace to read books are naturally disciples of Donghua Palace.

Although I don't know him.

But it doesn't hurt to nod and say hello.

Just when Zhang Yuhe was about to leave Daozang Hall and return to Yitian Mansion.

Suddenly I heard someone shouting from behind.

"In front of you is Zhang Yuhe, Junior Brother Zhang."

Zhang Yuhe turned back to look at the purple-clothed disciple he had just passed by.

He was a little confused.

"How does this person know me?"

Although the time he joined Donghua Palace is not short.

But the only people I have actually met are Duan Changqing and Yuan He Shenwang.

He had never seen anyone else.

How could this person know him?

You won't be called a human anymore.

Zhang Yuhe looked at the purple-clothed disciple in front with a somewhat confused expression.

This person's aura is vast and powerful, not inferior to Duan Changqing at all.

Obviously he is also a top true god.

Zhang Yuhe's heart trembled.

He immediately stepped forward and shouted politely.

"I've met senior brother."

"Haha, it is indeed Junior Brother Zhang. I thought I was mistaken at first."

"My name is Wan Fenghai. I have long heard of Junior Brother Zhang's reputation from Senior Brother Duan."

"Today I finally get to see a real person."

Wan Fenghai laughed loudly.

Recently I feel that my understanding of rules has reached a dead end.

Once the rules are established, they can no longer make any progress.

So he planned to come to Daozang Hall to have a look.

See if you can, and try to understand another Taoist rule.

If possible.

Then go another way.

Anyway, there are many avenues.

As long as you understand any one of the rules, you will realize the state of great success.

Then we can start to break through to the God King Realm.

Wanfenghai didn't expect it at all.

He actually met the legendary figure Zhang Yuhe outside Daozang Hall.

This made him very happy.

...

Chapter 655 Introduction to Rules

55After seeing Zhang Yuhe.

Wan Fenghai immediately put aside his thoughts of going in to check out the classics.

He walked forward quickly and said happily to Zhang Yuhe.

"I have long heard of Junior Brother Zhang's reputation, but I have never been able to meet him."

"Since we met today, I must have a good drink with my junior brother."

Looking at Wan Fenghai, he looked so enthusiastic that he was exaggerated.

Zhang Yuhe was speechless.

Big brother.

What kind of trouble are you trying to make?

Didn't you come to this Taoist Palace to read a book?

Why are you still interested in having a drink with me?

And we just met for the first time.

This enthusiastic look is very uncomfortable.

Think of this.

Zhang Yuhe responded politely.

"Senior brother, let's wait for another day."

"I was in Daozang Hall just now, and I happened to be touched by something."

"I need to go back to retreat immediately."

"Next time I have a chance, I will definitely have a good drink with my senior brother."

"That's it."

"Then it'll have to happen next time."

Hearing that Zhang Yuhe was moved by reading the classics, Wan Fenghai didn't know what to say.

Monks naturally focus on cultivation.

If there is some kind of opportunity, it should be grasped firmly.

Otherwise.

In case the opportunity disappears.

There is really no place to regret going.

Wan Fenghai did not feel that Zhang Yuhe's words were meant to be evasive.

The monk triggering the opportunity was originally an illusory thing.

No one can tell.

Wanfenghai believes it.

A peerless genius like Zhang Yuhe would disdain to lie about this kind of thing.

Zhang Yuhe raised his hands towards Wanfenghai and saluted.

Then he jumped into the sky and flew quickly towards Yitian Mansion.

Wan Fenghai stood there and looked at the direction Zhang Yuhe left.

He seemed to remember something and suddenly shouted loudly.

"wrong."

"The aura on Junior Brother Zhang just now seemed to be from the ninth level of the Virtual God Realm."

Until this time.

Only then did Wanfeng Hai react.

His mouth opened slightly, shocked beyond measure.

If Duan Changqing was right what he said before.

When Zhang Yuhe joined Donghua Palace, he seemed to be at the first level of the Virtual God Realm.

How long has it been?

Fifty million years?

In just 50 million years, he had broken through from the first level of the Virtual God Realm to the ninth level.

What the hell, he's on a rocket.

Can the speed of cultivation after the Virtual God Realm be so fast?

This is impossible.

Wan Fenghai thought carefully.

Back then, he went from the first level of the Virtual God Realm to the ninth level of the Virtual God Realm.

How long did it take in total.

It seems to be 600 billion years, or 700 billion years.

That's it.

He was pretty good and didn't get stuck in the bottleneck for too long.

under normal circumstances.

Those true god disciples in Donghua Palace.

When they were in the virtual god realm.

Which one has not been practicing for hundreds of millions of years or more?

Some disciples have limited talents.

He even practiced for an entire era.

Section 899

As for the more disciples, they have been practicing for several epochs and are still wandering in the virtual god realm.

It only took Zhang Yuhe 50 million years to walk the path they had taken for hundreds of millions of years.

What kind of cultivation speed is this?

Even though he was extremely talented, he didn't encounter any bottlenecks.

It can't be so fast.

Wanfenghai couldn't understand it at all.

"Perhaps this is the true genius."

He thought silently.

"Well, let's talk to Senior Brother Duan first."

"I guess he won't believe it after hearing the news, hehe."

Think of this.

Wan Fenghai took out his identity token and quickly cast a spell.

...

After returning to Yitian Mansion.

Zhang Yuhe quickly walked to the training platform and slowly sat cross-legged.

He silently recalled the contents of the fluctuating passage on the stone tablet.

What is wave channel.

In Zhang Yuhe's view.

This should be looked at from two aspects.

First of all, wave channel is a kind of information dissemination.

This kind of communication cannot be presented in a vacuum, but requires the use of various media.

Just like the previous blue star, regarding the propagation of sound.

It needs to rely on air as the medium. Ordinary people cannot hear the sound in a vacuum environment.

Of course.

In addition to air, other media no matter what form they are.

can be used to spread sound.

For example, if you knock on a railroad track, the sound may be heard several kilometers away.

Same thing.

The eternal emperor who created the magical power of the Wave Path also relied on media to spread it.

To obtain surrounding information, to achieve the effect of investigation.

However, the medium he relies on is not air, but the omnipresent aura of divine power in the sea of chaos.

As long as there is a divine aura, this magical power can be used.

Even outside the Chaos Sea, in the long river outside the territory.

The aura of divine power is still prevalent.

It can be said.

This magical power of the Wave Dao has a very wide range of applications.

In addition to spreading information.

The wave path should also include another level.

That is high-frequency vibration.

Because it wants to transmit the fluctuations of divine power to endless and distant places.

It is required that the frequency of this fluctuation must be high to a certain extreme.

Otherwise.

If a stone is thrown into a lake, how far will it travel?

One hundred meters or two hundred meters?

High-frequency fluctuations will bring another special effect.

That is infinite power.

Zhang Yuhe knows.

The power of high-frequency fluctuations is very terrifying.

This is also the key to understanding the power of rules from the magical power of Wave Dao.

This high-frequency fluctuation may be the embodiment of fluctuation rules.

Zhang Yuhe thought silently.

he thinks.

If you want to understand the rules of the Wave Path, you have to start from this aspect.

Think of this.

Zhang Yuhe quickly used the magic formula.

Waves of invisible fluctuations slowly rippled around.

Invisible waves passed through palaces and swept across mountains, rivers, lakes and seas.

has been transmitted to the infinite distance.

Through these invisible fluctuations, the vast and boundless world of Donghua.

It came into his mind clearly.

Zhang Yuhe was meditating while occasionally using the magic formula.

Constantly experiment with the magical power of Wave Tao.

Through constant experimentation.

Zhang Yuhe seemed to be immersed in it.

It's like I am a particle in the wave.

Following the fluctuations, he quickly leaped across the vast land.

"How can we evolve these fluctuations into the power of rules?"

Zhang Yuhe continued to experiment while silently falling into deep thought.

The fluctuations are silent and naturally have no power.

Even if it is used in conjunction with other magical powers, it will not have any blessing effect.

If you want to embody the power of fluctuations, you must understand the rules.

Rules are a higher level of power.

"Maybe I should increase the frequency of the fluctuations, or focus the direction of the fluctuations?"

Zhang Yuhe thought while trying.

Sudden.

After he pinched the magic formula.

Invisible fluctuations swept across.

A mountain peak in the distance on the island in the middle of the lake seemed to have been attacked by some terrible attack.

Collapsed suddenly without warning.

"Haha, it's done."

Zhang Yuhe quickly stood up.

Looking at the collapsed mountain peaks in the distance.

he knows.

I have already understood the rules of this wave path.

Zhang Yuhe soared into the sky and soon appeared above the lake.

He slowly pushed out a palm.

Waves of invisible fluctuations quickly spread across the lake.

Invisible fluctuations gradually increase.

Soon there was a huge wave on the lake.

"It really worked."

See this situation.

Zhang Yuhe was ecstatic.

The palm he launched just now did not have any divine power attached to it.

It's like an ordinary mortal pushing out a palm normally.

Then this palm contains infinite power.

This is the power of rules.

Wave channel rules.

This was the first rule he understood.

After getting started with the rules.

He can then start preparing to break through to the True God Realm.

Section 900

...

Chapter 656 The Virtual God Realm is complete and the rules are completed

Zhang Yuhe stands tall over the lake.

Feeling the rules of the wave path and all the wonderful uses after getting started.

He couldn't help but look happy.

"After practicing Taoism for 50 million years, I finally mastered a rule."

Although he has only learned the rules of the wave path and has just realized the entry level.

But the rules of the avenue are on another level entirely.

After mastering the rules.

Zhang Yuhe clearly felt that his strength had been greatly improved.

Every move and every move has extraordinary power.

"Let's try this wave path rule first to see if it can be integrated with the Nine Heavens Hunyuan Sword Formation."

Just do what comes to mind.

I saw him wave his right hand.

The nine fairy swords fell rapidly towards the distance.

Follow the magic formula and pinch it.

A faint sword Qi light curtain slowly rose on the lake.

Zhang Yuhe tried to integrate the power of rules into the sword formation.

The boundless sword energy emits high-frequency fluctuations and quickly sweeps across the lake.

In an instant.

The situation above the lake changed, and huge waves hit the sky.

Wherever the sword energy passed, the heaven and earth shook.

See this situation.

Zhang Yuhe couldn't help but be overjoyed.

After integrating the wave path rules into the sword formation.

The current Nine Heavens Hunyuan Sword Formation seems to have undergone earth-shaking changes.

Originally, this sword formation was more about trapping and imprisoning enemies.

The lethality of the invisible sword energy itself is not too outstanding.

Facing monks of the same level, they are all a little powerless.

As for saying.

If you want to kill the enemy by jumping up and down just by relying on the power of the sword formation.

That's almost impossible to do.

As long as others are prepared.

You can easily intercept the invisible sword energy.

If it weren't for this sword formation, it would still have strong confinement and sealing power.

He was almost eliminated by Zhang Yuhe.

The lethality is really, a little bit behind his level.

It can only be used to bully some weaklings.

But now after incorporating the power of rules.

That's completely different.

With the blessing of the rules of the wave path.

The sword energy vibrated at a high frequency, even the void was shaken by it.

At this time, the power of these invisible sword energies is far from what it was before.

Under the shock of the sword energy, it is estimated that even the defense of the True God cultivator can be easily cut through.

"wild."

After testing the power of the sword array, Zhang Yuhe was very happy.

After understanding the rules of the wave path, he is no longer the weakling he used to be.

In this sea of chaos, he has a place to stand.

Even facing ordinary true god monks.

He doesn't need to activate Hunyuan Guiyi's magical power, he can probably beat him to death.

If you activate the magical power of Hunyuan Guiyi.

Zhang Yuhe is confident.

Even if it's a True God Perfection cultivator like Duan Changqing.

He can take it too.

As for the real Supreme God King, I guess he is still a bit unbeatable.

We have to wait until he breaks through to the True God Realm.

The power of rules is a qualitative improvement to the monk's strength.

Now Zhang Yuhe has finally reached this level.

"But it's not enough."

"Rules are just amplifiers of strength."

"I want to be strong enough to protect myself in the Sea of Chaos."

"Then you must step into the realm of true gods."

Zhang Yuhe thought silently.

Because after entering the True God Realm, he should be able to activate the teleportation power of Heaven and Earth Wuji in the Sea of Chaos.

If it could be teleported at will.

The vast and boundless sea of chaos is no longer a problem to him.

And when facing strong enemies.

If you can't beat him, you can teleport away at any time.

No one can catch up.

Even the Eternal Emperor cannot catch up with the magical power of teleportation.

And in addition to teleporting magical powers.

After the Chaos Gods and Demons Scripture was activated, two new magical powers were also recorded.

They are the God and Demon Clone Technique and the God and Demon Heaven-Slaying Sword Formation.

If Zhang Yuhe successfully breaks through to the True God Realm, he can learn these two new magical powers.

Think of this.

Zhang Yuhe couldn't help but feel a little excited.

Clone technique.

Divided into nine, plus the main body, there are ten in total.

Moreover, the clone and the main body share the same soul and strength.

The clone can not only use artifacts, but can even practice alone and understand the rules.

Completely like an independent monk.

One sentence.

Just learn this magical power.

Zhang Yuhe is no longer alone.

Instead, it became ten people.

Ten people practice together, and ten people fight together.

It's exciting just thinking about it.

But the most important thing is.

The God and Demon clone will give him unparalleled life-saving abilities.

Because clones can be resurrected indefinitely.

As long as there is still a clone, even if the main body dies.

You can also quickly summon the other eight clones and the main body again.

This is simply an invincible life-saving magical power.

As long as Zhang Yuhe hides one of the clones.

Who can beat him to death in the future?

If you don't find all his nine clones.

Even if the Supreme takes action.

I'll probably take him too, there's nothing I can do about it.

"We must break through to the True God Realm as soon as possible and then learn this magical power."
