

Top talent 901

Section 901

Thinking of this.

Zhang Yuhe took a deep breath and said to himself silently.

"Go back and continue practicing."

He stretched out his hand and waved.

The sword energy curtain on the lake surface dissipated instantly.

The nine immortal swords flew back and soon sank into his sleeves.

Zhang Yuhe soared into the air and flew quickly towards the island in the middle of the lake.

...

Time passed slowly.

Soon another nine million years passed.

Zhang Yuhe stood up slowly from the practice platform.

Feeling the surging divine power in the sea of Dantian.

He muttered to himself.

"Finally reached the state of perfection."

He flicked his finger.

Buzz...

A series of slight waves passed silently across the sky and earth, and quickly rippled towards the distance.

The clouds in the sky were silently shattered.

Obviously.

Zhang Yuhe's current mastery of the wave path rules has made great progress.

It is far from the entry level, so simple.

After nine million years of cultivation.

Zhang Yuhe not only advanced his cultivation to the perfection of the Void God Realm.

And he also comprehended the rules of the wave path to the realm of minor success.

I have to say.

This great rule is really in line with him.

Zhang Yuhe didn't even deliberately comprehend it.

In the past nine million years.

He has devoted himself to cultivation.

How could he have the mind to comprehend the rules.

Despite this.

This wave rule still naturally promoted to the realm of minor success.

Zhang Yuhe even had some doubts.

If it weren't for the limitation of cultivation.

Maybe he could directly comprehend the rules of the wave path to the realm of perfection.

Of course.

This is impossible.

The power of rules is closely related to the cultivation of the cultivator himself.

A Void God cultivator can only comprehend the power of rules to the realm of minor success at most.

If you don't break through your cultivation to the realm of the True God.

Even if your comprehension is against the sky, it is impossible to push the power of rules one step further.

Similarly.

The power of rules mastered by a true god cultivator cannot exceed the Great Success Realm.

Only the Supreme God King can comprehend a rule to perfection.

Cultivation is the foundation that determines the Great Dao.

"Take a break for a while and slow down a bit."

"Then prepare to break through the True God Realm."

Zhang Yuhe thought silently.

...

Chapter 657: Changes in the Wind

Now Zhang Yuhe's cultivation has been advanced to the perfection of the Void God Realm.

He has also comprehended the rules of the wave path, and even raised the power of rules to the realm of small success.

There is no obstacle to breaking through to the True God Realm.

After advancing his cultivation to perfection.

Zhang Yuhe, like before, did not feel the existence of a bottleneck.

That is to say.

As long as he accumulates enough divine power, he can break through to the True God Realm.

"After adjusting the state, start to break through."

Thinking of this.

Zhang Yuhe looked back at the Enlightenment Tree behind him.

At this time, a trace of divine power was slowly gathering towards the Enlightenment Tree.

Seeing this situation.

Zhang Yuhe couldn't help but smile faintly.

Wu Yiyi is still practicing.

It's a bit rare.

...

A small boat floated slowly on the lake.

Zhang Yuhe emptied his mind and lay quietly on the wooden boat.

Since joining Donghua Palace.

He spent almost all his time in practice.

For the entire 60 million years, his nerves were always tense.

In this state.

If he tried to break through the True God Realm, he might encounter an accident.

Although he was well prepared and didn't feel the bottleneck.

But it's not a trivial matter for a cultivator to break through a great realm.

Not to mention that he wants to break through the True God Realm.

Even when he was in Yu Fantian, every time he broke through a great realm.

He needed to adjust his state well.

Otherwise.

Who knows if there will be any accidents.

There are many examples of cultivators overturning during breakthroughs.

Zhang Yuhe doesn't want to be used as a negative example and passed down in history.

The breeze blows, and the blue waves ripple.

The wooden boat drifted with the wind.

Zhang Yuhe emptied his mind and forgot everything.

He no longer thought about cultivation, nor did he consider the rules of the Tao.

He just lay there quietly.

It seemed that everything in this world had nothing to do with him.

...

Yitianfu.

The purple tree swayed gently.

Wu Yiyi transformed and rose up.

She saw that there was no figure of Zhang Yuhe on the cultivation platform.

She was very surprised.

"Hey, where is he?"

Wu Yiyi quickly took off into the air, and her eyes swept around.

Soon, she saw a floating wooden boat on the lake in the distance.

Puff...

Looking at Zhang Yuhe lying on the wooden boat.

Section 902

Wu Yiyi couldn't help but laugh out loud.

She smiled to herself.

"It turns out you are tired too."

"I thought a cultivator like you would never feel tired."

Looking at the wooden boats on the lake.

Wu Yiyi did not go over to disturb him, but floated quietly over Yitian Mansion.

Just watch quietly.

Looking at the leaf boat on the lake in the distance.

Looking at the unique young man on the wooden boat.

She couldn't help but feel a little crazy.

...

Time passes slowly.

I don't know how much time has passed.

Zhang Yuhe woke up from his deep sleep.

At this time, he felt that his mental state was fuller than ever before.

Zhang Yuhe roared loudly.

The sound vibrated on the lake and spread quickly to the distance.

"It's also time to start breaking through to the True God Realm."

A long time passed.

Zhang Yuhe soared into the sky and soon returned to Yitian Mansion.

Looking at Wu Yiyi floating in the sky, he couldn't help but frown slightly.

It didn't matter that Wu Yiyi wasn't practicing, she didn't even go around to play.

Why are you just standing there like that?

And he seemed to be still smiling.

It's not like you've been practicing for a long time and have inner demons.

Think of this.

Zhang Yuhe shouted softly.

"Yiyi, what are you doing?"

She heard Zhang Yuhe calling her.

Wu Yiyi suddenly came back to her senses.

She blushed slightly and snorted.

"Humph, I can't stand here and look at the scenery."

After saying this.

Her figure quickly dissipated and slowly merged into the Enlightenment Tree.

See this situation.

Zhang Yuhe couldn't help but feel euphemistic.

Sure enough, he is still a child.

...

After a while.

Zhang Yuhe took a deep breath.

He walked to the training platform and slowly sat down cross-legged.

It took so long to adjust.

It's time for him to break through.

As long as you successfully advance to the True God Realm, the world will be different from now on.

True God Realm is also a backbone force in the Sea of Chaos.

Don't look at just one Donghua Palace, there are more than ten thousand True God disciples.

I feel like the True God Realm is like Chinese cabbage.

actually not.

To know.

The more than ten thousand disciples of the True God in Donghua Palace have slowly accumulated over countless epochs.

In those remote continents.

Any true god monk is an overlord-like existence.

Even in Donghua Domain.

Donghua Palace will also try its best to win over those True God cultivators scattered all over the place.

Either to recruit as a guest, or to maintain friendly contact.

As long as he is not a true god cultivator who deliberately goes against Donghua Palace.

Donghua Palace is generally not easily offended.

You can say that.

As long as you are successfully promoted to the True God Realm, you will be able to roam freely in the Sea of Chaos.

Since leaving the fairy world.

Zhang Yuhe has been waiting for this day for too long.

He has been sitting in Donghua Palace for nearly 60 million years, just for this moment.

Now the moment has finally arrived.

I hope nothing unexpected happens.

Zhang Yuhe sat cross-legged on the training platform.

As the Chaos God Demonic Meridian slowly circulates, the surrounding divine power surges in.

In an instant, the situation changed.

The spiritual energy frenzy quickly spread from the island in the middle of the lake to the entire lake.

It is even spreading rapidly to distant places.

Until it swept the entire Donghua Palace.

Countless disciples walked out of the cave.

Everyone looked at the craze of spiritual energy in the distance and couldn't help but be a little surprised.

"Hey, there's so much movement."

"Is this junior brother about to break through to the true god realm?"

"probably."

"But the scale of this spiritual energy craze seems to be a bit too big."

"Is this just a breakthrough, or is it already coming to an end?"

"Not sure."

"Suddenly, there was such a big movement. It must have just started."

"It seems to be in the direction of Bibo Lake?"

"When I first joined Donghua Palace, I often went fishing there."

"But I remember that no one seems to be there. Let's open up a cave."

"After all, that place is really too remote."

"Does anyone know which junior brother is making the breakthrough?"

"Not sure."

Looking at the craze of spiritual energy in the distance, countless true god disciples pointed.

Talking quietly.

Everyone speculated who the disciple who was making the breakthrough was.

There are not many disciples in Donghua Palace, but they are not few either.

Almost no one can recognize all the disciples.

For people like Zhang Yuhe who never leave home, not many people know about him.

Compared to those disciples of the True God, they could still talk and laugh while walking around and looking into the distance.

Those disciples under the True God had envious expressions on their faces.

Look at the frantic movement of spiritual energy.

Anyone with a discerning eye will know.

This is someone who is breaking through to the True God Realm.

I think they have been practicing in Donghua Palace for countless years.

Isn't it just for this moment?

However.

How many disciples can truly advance to the True God Realm?

Section 903

The 100,000 disciples below the True God in Donghua Palace have been eliminated one after another.

Endless years have accumulated.

So far, there are only more than 10,000 people who have successfully promoted to the True God realm.

Now they see someone who is about to take this step.

How can they not envy.

Although everyone in Donghua Palace is equal and there is no distinction between high and low.

But there is a big difference between True God and Virtual God after all.

In terms of power.

After being promoted to the True God realm, they will soon be assigned to the major cities in Donghua Territory to serve as guards.

Control the power of a place and the life and death of hundreds of millions of people.

And the Virtual God disciples can only serve as patrols in various places at most.

And this kind of patrol mission can only be grabbed by snatching.

If you are a step slower, the mission will be taken away by others.

And the True God disciples guard the four directions, and this mission does not need to be snatched at all.

Donghua Palace still thinks that there are not enough True God disciples to guard such a large territory.

As long as you successfully promote to the True God realm.

The garrison mission will be sent down soon.

If there is no special reason, you can't even refuse.

The gap between them is simply incomparable.

The realm of true gods.

One step forward, that is a world of difference.

...

Chapter 658 Is it going to fail?

Changqing Mansion.

Duan Changqing stood quietly on the top of the mountain.

Originally, he had been immersed in the comprehension of the rules.

During the last battle of Chaos Star Sea.

Duan Changqing showed his divine power and killed the supreme god king He Rufeng from outside the domain.

Although this was mainly due to the help of Zhang Yuhe.

But that battle did bring him a great touch.

He felt some opportunities.

Maybe with just a slight push, it is possible to push the rules of the sky to the realm of great success.

It is precisely because of this.

In these tens of millions of years.

Duan Changqing almost didn't go out.

The discussion gatherings organized between the brothers in the sect.

He rarely participates now.

Even the guarding mission arranged by Yuanhe God King was postponed by him.

Duan Changqing planned to take advantage of this opportunity to advance the Sky-Splitting Rules to the Great Perfection in one fell swoop.

If he could do this step.

Then he could be considered to have truly entered the ranks of the top True God cultivators.

After the rules are perfected.

Maybe he only needs a few more opportunities to break through to the God King realm.

However.

Just now.

Duan Changqing was suddenly awakened by the violent spiritual energy frenzy.

Someone broke through to the True God realm in the sect.

Although.

There are many disciples in Donghua Palace.

Occasionally, individual virtual god disciples break through to the True God realm.

It is not a strange thing.

But this time is different.

This spiritual energy frenzy came very suddenly and very violently.

"That place must be the cave of Junior Brother Zhang."

Looking at the source of the spiritual energy frenzy in the distance, Duan Changqing muttered to himself silently.

At this moment.

A stream of light quickly crossed the sky.

Wan Fenghai now flew and landed beside Duan Changqing.

He said excitedly.

"Brother Duan, is that Junior Brother Zhang?"

Duan Changqing nodded gently, and he slowly spoke.

"Looking at the source of the spiritual energy frenzy, it should be him."

"No doubt."

"Bi Bo Lake is located in a remote area. Apart from Junior Brother Zhang, no one else has set up a cave there."

Hearing Duan Changqing's confirmation.

Wan Fenghai was stunned.

He muttered to himself.

"This is too fast."

"Is this the demeanor of a peerless genius?"

"In less than 60 million years, he broke through from the first level of the Void God Realm to the True God Realm."

"Such a cultivation speed, let alone our Donghua Palace."

"I'm afraid it's unprecedented in the entire Desert Heaven."

"No wonder Junior Brother Zhang said he was touched last time in the Daozang Hall."

"I guess he found the aura to comprehend the law at that time."

Duan Changqing next to him was silent.

To be honest.

He knew that Zhang Yuhe was extremely talented, far beyond the reach of ordinary disciples.

But Zhang Yuhe could rush directly to the True God Realm in such a short time.

This was something Duan Changqing had not expected.

It was really too fast.

Zhang Yuhe's cultivation speed was so fast that it was beyond his comprehension.

How could someone cultivate so fast?

Even if there was no bottleneck.

It couldn't be so fast.

What's more.

For a Void God cultivator to break through to the True God Realm, he still needed to comprehend a rule to the entry level.

How did Zhang Yuhe do it.

While practicing quickly, he could also comprehend the rules?

Duan Changqing was very puzzled about this.

He could only attribute it to.

Maybe this was due to his talent.

The progress of the peerless genius was completely beyond his imagination.

Duan Changqing and Wan Fenghai stood quietly on the top of the mountain, both of them silent.

They were really shocked.

...

Yi Tianfu.

Zhang Yuhe sat cross-legged on the cultivation platform.

As the Chaos God and Demonic Scripture slowly circulated, a mighty tide of spiritual energy surged in.

A huge amount of divine energy quickly gathered towards the Dantian Sea through the meridians.

Section 904

At this time, huge waves had already set off in the sea of his dantian.

The golden waves hit the sky one after another in the dantian.

It was as if this surging force was going to widen the vast Dantian sea again.

Zhang Yuhe kept his mind tight.

Feeling the surging spiritual energy around him, he couldn't help but frown slightly.

"It seems like it's still not enough."

The spiritual energy craze came one after another, but still couldn't let him take the most crucial step.

Zhang Yuhe thinks.

Maybe it's because the aura of divine power around him is still missing.

Maybe he wasn't prepared enough.

Zhang Yuhe originally thought.

Breakthrough within the sect.

With the strong aura of divine power in Donghua Palace, there is no need for any other preparations.

It is completely enough to support him and break through to the true god realm.

After all, there have been countless disciples who have achieved breakthroughs in Donghua Palace.

Now it seems.

He was still a little careless.

At this critical moment, the problem of insufficient spiritual energy actually occurs.

This is a bit embarrassing.

"I hope these divine crystals can support my breakthrough to the true divine realm."

Zhang Yuhe's expression moved slightly.

A storage bracelet came out.

Countless sparkling divine crystals quickly poured out from the bracelet around the training platform.

The massive amount of divine crystals soon became like mountains.

Surround the entire training platform.

This is what I gained after killing He Rufeng.

After Duan Changqing sold the two divine king artifacts, he gave him most of the divine crystals.

During these years of practice.

Zhang Yuhe has already used up a lot of it.

However, there are still many divine crystals left, at least a billion or so.

When he felt that there was not enough spiritual energy around him to break through the barrier of the True God Realm.

Zhang Yuhe could only place his hope on these divine crystals.

If the breath of divine power is still not enough.

Then he would be really in big trouble.

If not, the breakthrough will fail.

...

Time passed slowly.

The surrounding mountains of divine crystals are shrinking rapidly.

The majestic spiritual energy frenzy set off boundless waves in the sea of Zhang Yuhe's dantian.

But he still felt that something was not enough.

The barrier of the True God has still not been broken.

"Is it really going to fail?"

Zhang Yuhe was a little depressed.

In fact, it is normal for breakthroughs to fail.

After a period of rest, you can try again.

After the breakthrough failed, there were many monks who succeeded in attacking again.

despite this.

Zhang Yuhe is still a little depressed.

He has made it all the way to where he is now.

There has never been a breakthrough failure.

Is this sea of chaos just so conquerable?

Since leaving the fairy world.

Zhang Yuhe always felt that everything was not going well.

First, at Xilinjiao, we encountered the Chaos Beast attacking the city.

Then he followed Duan Changqing and returned to Donghua Palace.

In the Chaotic Star Sea, he was ambushed by an evil god from outside the territory.

It's not easy to break through now.

The result was due to lack of preparation.

It's actually possible to fail.

Who should I talk to to reason with this?

Other disciples in Donghua Palace can break through to the True God Realm normally.

I have never heard of anyone failing due to lack of spiritual energy.

Not to mention breaking through to the True God Realm.

Based on the richness of the aura of Donghua Palace.

Even if he breaks through to the God King Realm, it probably won't be a problem.

Why did you come to him?

Aura is not enough?

"Can you defeat me?"

In fact, Zhang Yuhe now knows the problem.

Since practicing the Hunyuan Heavenly Scripture.

His Dantian is completely different from other people's.

Every time there is a breakthrough.

His vast Dantian sea needs to absorb a huge amount of spiritual energy to be able to support a breakthrough.

When I was in the fairy world before, there was no such problem.

Because when I was in the fairy world.

He can gather the spiritual energy of the entire fairy world for his own use, and there is no need to worry about insufficient spiritual energy.

But in Donghua Palace, it doesn't seem to work.

Donghua Palace is shrouded in formations and covered by the rules of Donghua Divine King.

The aura of divine power outside cannot circulate normally in Donghua Palace.

It is precisely because of this.

This will cause Zhang Yuhe to have a problem of insufficient spiritual energy when he breaks through.

Think of this.

Zhang Yuhe was very depressed.

Should have known so.

He might as well be outside and find a random wild continent to break through.

Unfortunately.

At this time.

There is no place to buy regret medicine.

Maybe I'll have to wait until next time.

...

Chapter 659: You won't suck the Donghua World dry, right?

Zhang Yuhe concentrated his mind and silently circulated the Chaos God and Demon Scripture.

Although the spiritual energy is slightly lacking.

But he didn't give up.

As long as the Reiki craze lasts, he will continue.

Maybe it's just that little difference that will lead to a successful breakthrough.

A steady wave.

Maybe there's still a chance.

Zhang Yuhe took a deep breath.

Section 905

He was not panicking.

It's already this time.

There's no use panicking.

Let's find a way to keep going.

As long as we keep going, there's hope for success.

...

Far away from the Bi Bo Lake.

A magnificent palace stood quietly between the mountains.

Yuanhe God King sat cross-legged in front of the palace.

Feeling the changes in the spiritual energy frenzy outside, he couldn't help but frowned.

"What's going on? How could a disciple have insufficient spiritual energy when breaking through the True God Realm?"

Yuanhe God King walked out of the palace and looked in the direction of Bi Bo Lake in the distance.

He muttered to himself.

"It turned out to be him, no wonder."

Yuanhe God King only took a glance and knew that the person who was breaking through was Zhang Yuhe.

At the same time, he also knew where the problem was.

When he first met Zhang Yuhe.

He felt the majestic aura of immortal energy from Zhang Yuhe.

But at the time, he didn't think it was too strange.

After all, Zhang Yuhe was able to assist Duan Changqing in killing He Rufeng, the foreign god king.

There must be something unusual about him.

Yuanhe God King once guessed.

Either Zhang Yuhe's physique is different from that of ordinary people, and he can accommodate a large amount of immortal energy in his dantian.

Or Zhang Yuhe's practice is somewhat special.

That allowed him to open up an extra-large dantian that is different from ordinary people.

Otherwise.

At the beginning, he could not activate such a terrible magical power and directly imprison and suppress He Rufeng.

Yuanhe God King is very clear.

The power of magical power is closely related to the strength of the cultivator.

If there is not enough strength to support it.

Even if the magical power is powerful, ordinary people can't activate it.

Zhang Yuhe can activate such a terrible magical power.

Obviously, his own strength must be very extraordinary.

"But even so, there should not be a lack of spiritual energy when breaking through."

Yuanhe God King is still a little confused.

You know.

Donghua Palace is not an ordinary place.

In order to build the mountain gate station into a sacred place for cultivation that will last forever.

At that time, Donghua God King moved many high-level divine veins from the long river outside the domain.

With these divine veins.

Not only are they enough for the sect disciples to practice.

Even for the true god disciples to break through to the God King realm, there is no problem.

At that time, he himself successfully broke through in Donghua Palace.

But now.

Zhang Yuhe only broke through to the true god realm, but he actually had insufficient spiritual energy.

What's the situation?

What kind of pervert can suck the spiritual energy of the entire Donghua Palace dry?

Now it's not only sucked dry, but it's not enough for him to absorb.

This is a bit outrageous.

Thinking of this.

Yuanhe God King couldn't help but feel helpless.

Since the establishment of Donghua Palace, there has never been such a heaven-defying person.

"Maybe the future of Donghua Palace will be placed on this disciple."

Yuanhe God King muttered to himself silently.

Feeling the surging spiritual energy in the distance, he was very optimistic about Zhang Yuhe.

If it was just that the speed of cultivation was fast, it would not be a big deal.

Donghua Palace was not short of geniuses.

The speed of cultivation was only a temporary advantage.

Maybe it would slow down later.

As long as a bottleneck appeared.

It might be stuck for countless years, or even never break through.

It took Zhang Yuhe only 60 million years to break through to the True God Realm.

This cultivation speed was indeed very good.

At least in the history of Donghua Palace, there has never been such a person.

But looking at the entire Chaos Sea.

That's not too surprising.

There are people who cultivate faster than him.

There are a few examples that Yuanhe God King knows.

Once in a certain eternal holy land, there was a peerless genius.

It took only a million years to break through from a mortal to the ninth level of the True God Realm.

He was called the first peerless genius in the history of the Chaos Sea.

But what can he do?

In the end, because of the power of rules, he was unable to advance to the great success.

That peerless genius has been stuck in the realm of true god.

Many people who were originally slower than him in cultivation later slowly caught up.

Some even surpassed him and became the supreme god king one step ahead.

And that peerless genius.

In the end, during an experience, he was unexpectedly ambushed and killed by the evil god from outside the domain.

From then on, he disappeared in the long river of history.

Yuanhe God King has seen countless geniuses.

But there are only a few who can make it to the end.

A temporary benefit is nothing.

The key is to be able to move forward steadily.

In his opinion.

Zhang Yuhe is such a person.

Looking at the vast and endless spiritual energy frenzy in front of him.

He could hardly imagine how great Zhang Yuhe's potential was.

"Let me help him."

Looking at the spiritual energy frenzy, one wave higher than the other.

But Zhang Yuhe has not succeeded in breaking through.

Yuanhe God King muttered to himself silently.

Then.

He took out a formation plate and tapped it gently.

A flash of spiritual light flashed quickly.

The formation covering the sky above Donghua Palace disappeared without a trace in an instant.

There was no formation to restrain it.

The spiritual energy frenzy quickly swept across the entire Donghua world with Bi Bo Lake as the center.

It was even spreading towards the outer void.

A huge amount of divine power quickly gathered towards the direction of Bi Bo Lake.

The Yuanhe God King stood in the sky, his divine sense covering all directions, and he vigilantly observed the surrounding situation.

Section 906

After removing the formation.

At this time, Donghua Palace was completely undefended.

If someone with bad intentions takes the opportunity to sneak into Donghua Palace.

The consequences would be unimaginable.

But in order for Zhang Yuhe to successfully break through to the True God Realm.

He had to do it.

Otherwise.

If the disciple fails to break through due to insufficient spiritual energy.

That's a big joke.

The moment God King Yuanhe removed the formation.

Countless Donghua Palace disciples immediately felt something unusual.

Duan Changqing and Wan Fenghai looked at each other, and then quickly turned into flowing light.

Flying towards the mountain gate.

They know it very well.

A sect's garrison is so fragile when it is not protected by formations.

Just at this time.

The voice of God King Yuanhe suddenly reached the ears of all the disciples.

"In order to gather the spiritual energy craze, I temporarily closed the sect's mountain protection formation."

"Everyone is dispatched immediately to pay attention to the situation outside the mountain gate."

"We cannot allow foreign enemies to sneak into the sect, and we cannot allow anyone to influence Zhang Yuhe's breakthrough."

King Yuanhe had just finished speaking.

Countless disciples rose into the sky, and everyone was no longer in the mood.

Let's continue to watch Zhang Yuhe's breakthrough.

They went to various places with tacit understanding.

A wide cordon was opened outside Donghua Palace.

at the beginning.

Everyone thought that Zhang Yuhe had not yet succeeded in making a breakthrough.

Maybe it's still brewing.

No one would have thought that it would be due to lack of spiritual energy.

When they flew out of the mountain gate.

Watching the vast spiritual energy craze sweeping across the entire Donghua world.

Everyone was completely shocked.

"What kind of perversion is this?"

"I'm afraid it's not about sucking up the entire Donghua world."

Everyone is on guard.

The shock in my heart has already become overwhelming.

They have never seen such a magnificent scene.

Even if it is to break through to the God King Realm.

It's not that exaggerated.

...

Chapter 660 Once you attain the Tao and prove the true God

Countless Donghua Palace disciples rushed out of the mountain gate.

They set up a wide cordon outside Donghua Palace.

The spiritual energy craze swept across the continent and filled the entire Donghua world.

It is even spreading towards the outside of Donghua World.

See this situation.

Countless monks living in the Donghua world were extremely shocked.

"What happened?"

"Why did such a violent spiritual energy craze suddenly erupt?"

"I don't know. I haven't received any news before."

"Look at Donghua Palace, a large number of Donghua Palace disciples are setting up defenses outside."

"It should be someone in Donghua Palace who is breaking through to the God King Realm, right?"

"Breakthrough to the God King Realm? Who is it?"

"Is it Duan Changqing, or Wan Fenghai, Fu Feixue, or Sun Zhenshan?"

"Except for the four of them."

"The other people in Donghua Palace should not be qualified to attack the God King Realm."

"It doesn't seem right."

"I have seen all four pillars of Donghua Palace."

"Although the four of them are extremely talented, there is probably still a long way to go before they can reach the God King Realm."

"Probably not them.:

"Who could that be?"

"Could it be that there are other more powerful True God disciples hidden in Donghua Palace?"

"It's hard to say."

The sudden spiritual energy frenzy and Donghua Palace suddenly withdrew its defensive formations.

Countless disciples flew out of the mountain gate and set up a cordon around the perimeter.

This made the monks in Donghua Great World feel very puzzled.

Look at the raging spiritual energy frenzy.

Even many veteran monks who think they are well-informed.

I mistakenly thought that someone in Donghua Palace was breaking through to the Divine King Realm.

After all, this surging spiritual energy phenomenon.

No matter how you look at it, it doesn't look like an ordinary breakthrough to the True God Realm.

There must be someone who has broken through to the God King Realm.

As for who is breaking through.

Everyone has different opinions, and no one can give an accurate answer.

It happened so suddenly.

Even the well-informed people didn't get any information.

I saw something unexpected happened in Donghua Palace.

Even the defensive formation was withdrawn directly.

There are some people with evil intentions.

I just wanted to take advantage of the chaos and get into Donghua Palace.

For ordinary monks.

Donghua Palace is a unique treasure.

If you can sneak in quietly, you can find something.

It is enough for them to benefit endlessly.

Unfortunately.

These brave people have not even gotten close to Donghua Palace.

He was immediately killed on the spot.

With so many disciples of Donghua Palace patrolling back and forth, how could they allow outsiders to take advantage of the situation?

Donghua Palace's iron-blooded methods finally made those unscrupulous people wake up.

Everyone soon understood.

Donghua Palace is not kidding.

Anyone who tries to fish in troubled waters will be beaten to death on the spot.

Although there is no defensive formation, it is impossible to accurately monitor all directions.

But there is Yuanhe Palace Master, the supreme god king sitting in charge.

Moreover, all the disciples who stayed behind in the sect went out to set up defenses.

There is absolutely no chance for those young people to get lucky.

...

Bibo Lake, Yitianfu.

Zhang Yuhe sat cross-legged on the training platform.

Section 907

Although the spiritual tide surged around him, he still felt a little inadequate.

Even if he tried his best, he still couldn't break through the barrier of the True God Realm.

Just when Zhang Yuhe thought that this breakthrough was probably going to end in failure.

Just at this time.

An even more violent wave of spiritual energy suddenly surged from a distance.

Zhang Yuhe was stunned at first.

Then his face couldn't help but reveal a look of ecstasy.

Although he doesn't know.

What is the reason for the sudden change in the spiritual energy trend?

But Zhang Yuhe knew.

This was his last chance and he had to seize it.

Zhang Yuhe concentrated his mind and silently ran the Scripture of Chaos Gods and Demons.

A large amount of divine power quickly gathered through the meridians towards the Dantian sea.

The golden spiritual liquid is like raindrops, rapidly dripping into the Dantian.

The violent golden wave instantly swept across the entire Dantian sea.

Boom...

Sudden.

A silent roar sounded deep in Zhang Yuhe's heart.

His whole body felt relaxed instantly.

It's like entering a wider world.

An extremely powerful and violent aura, centered on Bibo Lake.

It quickly swept across the entire Donghua Palace and gradually spread towards the Donghua World.

The pressure spreads across the world, and once he attains the Tao, he will prove the true God.

A long time passed.

The raging spiritual energy frenzy finally slowly stopped.

The storm has receded and the sun is shining brightly.

The vast Donghua Palace has regained its former atmosphere.

It was as if what had happened just now had never happened.

Zhang Yuhe slowly stood up.

He muttered to himself.

"Finally a breakthrough."

behind him.

Wu Yiyi emerged from the purple tree.

Feel the violent and vast aura on Zhang Yuhe's body.

A sweet smile couldn't help but appear on her face.

"Oops, not good."

"This guy has now broken through to the True God Realm. Doesn't that mean he has caught up with me?"

Think of this.

Wu Yiyi puffed her mouth, obviously a little depressed.

Just at this time.

Countless streams of light passed by in the distance and quickly stopped outside the island in the middle of the lake.

Duan Changqing shouted loudly.

"Congratulations to Junior Brother Zhang for being promoted to the True God Realm. From now on, he will be free and happy without any worries."

Others also shouted loudly.

"Congratulations to Junior Brother Zhang (Senior Brother Zhang) for being promoted to the True God Realm."

"Haha, thank you all brothers and sisters for congratulating me."

Zhang Yuhe rose into the sky, quickly flew out of Yitian Mansion, and soon arrived on the lake.

With a wave of his right hand, he opened the large formation outside the island in the center of the lake.

At the same time, he smiled and said to everyone.

"It's rare for all of you, brothers and sisters, to come to my place."

"Why don't we all go in and have a drink."

"Haha, Junior Brother Zhang has been promoted to the True God Realm, so he must drink this glass of wine no matter what."

Wan Fenghai was nearby and shouted excitedly.

People who don't know may think that he made the breakthrough on his own.

"Brothers, please."

Zhang Yuhe extended his hand to invite him.

He quickly led everyone to the wide square in the front yard of Yitian Mansion.

As for the backyard, it was where he practiced, and Wu Yiyi was there.

Of course it is inconvenient to let everyone in.

Zhang Yuhe waved his right hand.

A square table plan soon covered the entire square.

All kinds of delicacies and delicacies are placed on all tables.

Many people came to congratulate me today.

Hundreds of True God disciples came, and there were even thousands of False God realm disciples of all kinds.

So many people packed the wide front yard to the brim.

But except for Duan Changqing and Wan Fenghai.

Zhang Yuhe didn't know any of the others.

It was in vain that he had been practicing in Donghua Palace for nearly 60 million years.

Facing all the brothers and sisters who came to congratulate him, he didn't even recognize them.

It seems a little embarrassing.

Just at this time.

Duan Changqing walked forward and said with a smile.

"Let me introduce you."

He stretched out his hand to guide him to the side, and then slowly introduced.

"This is Junior Brother Wanfeng Haiwan. You should have met him before."

"This is Junior Brother Fu Feixue."

"Senior Brother Fu."

Zhang Yuhe quickly stepped forward and shouted politely.

Fu Feixue smiled and nodded, and said with emotion.

"Senior Brother Duan told us about you a few years ago."

"You are said to be extremely talented and have an unlimited future."

"I didn't expect it."

"Just tens of millions of years have passed, and you have been promoted to the realm of true gods."

"What a terrifying life."

"Senior Brother Fu, you're so polite. I'm just lucky."

Zhang Yuhe responded modestly.

Duan Changqing continued to take him and introduce him to others.

"This is Junior Brother Sun Zhenshan."

"Senior Brother Sun."

Zhang Yuhe stepped forward and shouted politely.

Sun Zhenshan smiled and nodded.

Under the introduction of Duan Changqing.

Zhang Yuhe slowly got to know everyone in the square one by one.

have to say.

Duan Changqing is very much like a senior disciple of the sect.

Despite the large number of people present.

He was stunned that not even a single person was left behind.

Introduce them one by one to Zhang Yuhe.

Thousands of people came around in a circle, which really took a lot of time.

Although in Donghua Palace, there is no distinction between high and low.

Section 908

But among the disciples.

Duan Changqing is the oldest and most powerful.

the most important is.

He's a good person.

There is something about welcoming people and treating people that makes people feel like they are in the spring breeze.

Veteran, capable and magnanimous.

So in the eyes of everyone.

Everyone regards Duan Changqing as their senior brother.

...

Chapter 661 The situation in Donghua Palace

Everyone toasted to congratulate each other in Yitian Mansion, creating a festive atmosphere.

Everyone looked at Zhang Yuhe in the main seat and couldn't help but feel deeply.

Especially those disciples of the False God Realm, their eyes turned red with envy.

They didn't know until now.

Zhang Yuhe's joining Donghua Palace only lasted 60 million years.

Before joining Donghua Palace.

He is just a virtual god monk who has just stepped out of the primitive world.

In such a short period of time.

He broke through from the first level of the Virtual God Realm to the True God Realm.

Such a speed of cultivation, such a superb talent.

How can you not be envious of those False God disciples in Donghua Palace who are still struggling.

To know.

among them.

Some people have been practicing in Donghua Palace for hundreds of billions of years.

There are even some veteran False God disciples who have been practicing for nearly a trillion years.

They are either stuck at a bottleneck or unable to understand the rules.

Therefore, he is still wandering in the virtual god realm.

What's even more despairing is.

If there is no unexpected chance.

In this life, they may have no choice but to remain as false gods, with no hope of becoming true gods.

Speaking of which, they are quite lucky.

At least there is Donghua Palace to rely on.

Maybe with the various conveniences provided by Donghua Palace, there will be a chance to try again.

The monks scattered across the continents were actually even worse off than them.

Once your cultivation is stagnant, it will be difficult to move forward.

Not even a chance to fight.

...

Zhang Yuhe, Duan Changqing and others were sitting in the main seats in the courtyard.

After three drinks.

Duan Changqing said slowly.

"Junior Brother Zhang has been promoted to the True God Realm and will take on more responsibilities in the future."

"Have you thought about where you want to serve as a guard next?"

Zhang Yuhe asked with a somewhat puzzled expression.

"Is it a mandatory task for true god disciples to go out to serve as guards?"

It wasn't that he didn't want to go, he was just a little curious.

In fact, it's good to go out for a walk.

Staying in the sect to practice all the time will make people numb.

And after entering the true god realm.

He will soon be able to practice the art of clones of gods and demons.

When the time comes, arrange for a clone to go out to guard, it will be no different from him going there himself.

Duan Changqing pondered for a while, then slowly spoke.

"It's semi-mandatory."

"Generally speaking, after a disciple breaks through to the true god realm for a million years, the palace master will send a guard mission."

"As for where to guard, you can choose within a certain range based on everyone's abilities or preferences."

"Of course."

"If you really can't get away and don't want to go out as a guard, the palace master won't force you."

"After all, monks cultivate a free mind, and no one likes to be bound by rules."

Speaking of which.

Duan Changqing paused for a while, and then said solemnly.

"It's just that as disciples of Donghua Palace, it is our common responsibility to safeguard the interests of Donghua Palace."

"Those False God disciples are unable to suppress the situation due to lack of strength."

"Only we, disciples of the True God, can guard the four directions and intimidate the little ones everywhere."

"How did the current peaceful situation in Donghua Palace come about?"

"It is precisely because there are many True God disciples guarding the four directions that others can stay in the sect and practice safely."

After listening to Duan Changqing's narration.

Zhang Yuhe asked curiously.

"Senior brother, do we still have many enemies in Donghua Palace?"

He has been practicing in the sect and has not even read a few common sense books.

Regarding the situation in the Sea of Chaos.

In other words, I really don't know much about the situation in Donghua Domain.

At this time, Wan Fenghai next to him laughed loudly.

"How can there be no enemies?"

"Monks fight against the sky and the earth, and all kinds of cultivation resources must be fought for and snatched."

"If you don't fight for it, it belongs to others."

"Donghua Palace has stood in the Sea of Chaos for countless epochs, so naturally it offends many people."

"But most of them don't need to take it to heart."

"Those people have either been beaten to the dust a long time ago, or they were forced to leave their hometowns by the palace master."

"There are actually only two enemies that really deserve our attention."

"One is the evil god from outside the territory, and the other is the Tianyang Territory."

"You have seen the evil god from outside the realm before."

"Those people from outside the territory are always thinking about causing great turmoil in various places in order to attract armies from outside the territory."

"They use their idols to confuse all living beings, causing countless people to lose their minds and become manipulated puppets."

"In fact, you don't need to care too much about the strength of the extraterritorial evil god."

"If they hadn't been hiding in the mouse hole, they would have been killed by all the powerful forces."

"What's really scary is that they use the Supreme God Statue to control a large number of local monks."

"Once unrest breaks out, it will be out of control."

"It's enough to turn countless continents into dead areas."

"Even the destruction of the entire domain is possible."

"So, Junior Brother, don't be soft on these evil gods from outside the domain."

"Kill them when you see them."

Zhang Yuhe nodded gently.

He had some understanding of the evil gods from outside the domain.

These people were equivalent to the colonists of the Blue Star's Age of Navigation.

They wanted to colonize and rule the entire Chaos Sea.

As a native of the Chaos Sea, Zhang Yuhe certainly couldn't let them do what they wanted.

Otherwise.

He was afraid that he wouldn't even have a foothold in the Chaos Sea.

But for so many years.

The cultivators from outside the domain had never been able to capture the Heavenly Gate built at the entrance of the long river by many eternal emperors in the Chaos Sea.

Section 909

Even if the Extraterrestrial Supreme took action, he would not take any advantage.

They could only send some scattered True God and God King monks.

Through the occasional cracks in time and space, enter the sea of chaos to lurk.

These things that are not on the table should not be too big of a threat.

Just be careful and watch out.

On the other hand, we really need to be more vigilant about Tianyang Territory.

Tianyang Domain is adjacent to their Donghua Domain across the endless void.

Just like Donghua Palace.

Tianyang Sect controls the entire territory.

Moreover, Tianyang Sect was far more powerful than Donghua Palace.

I heard that the entire Tianyang Sect alone has tens of thousands of True God disciples.

As for the disciples under the True God, they number in the hundreds of millions.

Tianyang Sect's huge sect size and the resources it consumes are naturally extremely staggering.

So they have always been expanding outwards wantonly.

With such a neighbor in the Donghua Palace stall, I can't even seek peace.

Various conflicts often occur between the two parties due to competition for resources.

But there is one thing that Zhang Yuhe has always felt very strange.

Tianyang Sect expanded like this.

As the overlord of Desert Sky.

Why does the Desert Courtyard never come out to take care of it?

If the Emperor of the Desert sends a message.

Presumably Tianyang Sect will no longer dare to act rashly.

Think of this.

Zhang Yuhe then asked.

"Senior Brother Wan, what is the specific strength of Tianyang Sect? Is it much stronger than us?"

"Why are they expanding everywhere, and the Desert Courtyard doesn't even care about it?"

Wan Fenghai said with a smile.

"In terms of overall strength, Tianyang Sect is indeed far stronger than our Donghua Palace."

"But our Grand Palace Master of Donghua is not comparable to the ordinary Supreme God King."

"The Grand Palace Master masters the rules of the nine great avenues, and has already understood them to the level of perfection."

"Ordinary supreme god kings are no match for the Grand Palace Master."

"Although Tianyang Sect has ten great divine kings, they don't dare to be presumptuous in front of the Grand Palace Master."

"Under the intimidation of the Grand Palace Master, Tianyang Sect only dares to make some big moves."

"They don't dare mess around."

"Once the Grand Palace Master of Donghua is angered, let alone wipe out their Tianyang Sect."

"At least we can beat them to a pulp."

"As for the Desert Courtyard."

"How can I say this?"

"The desert sky is too vast. Even if they want to control it, they can't."

"For Desert Sky."

"As long as the major forces are open and can obey orders."

"As for the life-and-death fight between us and the Tianyang Sect, they don't bother to care about it, and they can't control it."

"Such things happen everywhere and there is no way to control them."

Zhang Yuhe nodded lightly.

The world is too big, and it is difficult to establish orderly rules and order.

No matter how powerful an individual is, he cannot control such a vast world.

Unless you can incarnate the source of rules like the Supreme Being from outside the territory.

Rule a world with the power of the original source.

Otherwise.

All we can do is let it go and maintain the current situation, which is already pretty good.

...

Chapter 662 I can finally use the magical power of teleportation

Two days later.

News of Zhang Yuhe's breakthrough gradually spread throughout the Donghua world.

Only then did everyone react.

It turns out that the amazing spiritual energy phenomenon before was not from Donghua Palace. Someone broke through to the Supreme God King.

But there is a disciple who has been promoted to the True God Realm.

After the news spread.

It made countless monks in Donghua World feel extremely surprised.

Will just being promoted to the true god realm lead to such an exaggerated spiritual energy frenzy?

This can't be a smoke bomb released by Donghua Palace.

Some well-informed people quickly obtained information about Zhang Yuhe.

Everyone was shocked to find out.

Zhang Yuhe had only cultivated for 60 million years in Donghua Palace before he broke through to the True God Realm.

This speed of cultivation is simply beyond the understanding of many people.

After confirming that the message is correct.

An idea couldn't help but arise in everyone's mind.

A new peerless genius will surely rise in Donghua Palace.

Moreover, this new genius may achieve far more achievements in the future than the four pillars of Donghua Palace.

...

Bibo Lake, Yitianfu.

Zhang Yuhe walked up to the training platform and slowly sat down cross-legged.

After being promoted to the True God Realm, the world will become broader from now on.

The sense of urgency that originally weighed on his heart was now much more relaxed.

No matter where they are, true god monks are not cabbages.

If placed on any ordinary continent, it would be an overlord-level existence.

Moreover, Zhang Yuhe's combat power was incredible, far beyond the comparison of ordinary True God cultivators.

Now he is no longer the weakling he was before.

If he were an ordinary person who had no pursuits, he would be able to roam freely in the Sea of Chaos now.

But Zhang Yuhe did not relax.

In his opinion.

The True God Realm is just a new starting point.

The road is boundless.

There is still a long way to go.

After the true God, there is the Supreme God-King, the Eternal Emperor, and even the illusory Invincible Supreme.

Maybe there are higher levels and more powerful unknown beings.

Zhang Yuhe knows.

I have just been promoted to the True God Realm, and I am far from the time to relax.

He was still thinking about it.

If I have a chance in the future, I will go to the outer river to have a look.

Go there to see the style of the Eternal Emperor and the Invincible Supreme.

See if the vast outer river really has no end.

Zhang Yuhe sat cross-legged on the practice platform, thinking silently.

He was thinking about his future practice plan.

According to Duan Changqing.

It is estimated that in a million years, the Yuanhe Palace Master may assign him a guarding mission.

Before that.

He wants to improve his strength as much as possible.

Especially the two magical powers attached to the Chaos God and Demon Heavenly Scripture.

Section 910

You must learn it as soon as possible.

"No, there is also the teleportation power of Tiandi Wuji."

Zhang Yuhe seemed to have remembered something.

He stood up immediately.

"With my current strength, I should be able to use this teleportation power in the Sea of Chaos."

Zhang Yuhe murmured to himself.

I saw him making a stroke with his right hand.

A particle vortex two meters square appeared slowly in the void.

The vortex is not big, but it is big enough for people to pass through.

"Haha, it sure works."

Seeing this situation, Zhang Yuhe was extremely excited.

Being able to use the magical power of teleportation would be so convenient.

Thinking back to when he first came out of the fairy world.

In order to find an inhabited continent, he has been flying in the void for tens of thousands of years.

Later, he followed Duan Changqing and returned to Donghua Palace from Xilinjiao.

It's another time to transform the teleportation array, and it's another time to fly over various dangerous places.

It also took thousands of years.

If only I could use the teleportation power from the beginning.

There is no need to go to such trouble.

Isn't this something you can get there with just a wave of your hand?

The Sea of Chaos is really too big.

Even the Eternal Emperor cannot reach other realms quickly.

Likewise, it can only fly slowly.

But Zhang Yuhe is different.

Now he can use teleportation powers.

On the ability to hurry.

It is definitely the only existence in the entire Chaos Sea.

Go wherever you want.

Arrived instantly.

No need to waste any time at all.

"Well, try finding a remote place."

Zhang Yuhe cut through the void again.

Swirls of particles illuminate distant places.

"If I remember correctly, that should be the place where you came out of the fairy world, right?"

"Go over and have a look."

Think of this.

Zhang Yuhe rose into the sky and flew into the whirlpool.

After a while.

He appeared in a desolate void.

Feel the familiar atmosphere around you.

Zhang Yuhe muttered to himself.

"Yes, this is it."

Here, he can clearly feel the atmosphere of the fairy world.

Unfortunately.

He could also feel the approximate location of the fairy world.

As for the passages leading to the fairy world, they are not visible for the time being.

The location of the passage changes.

If you want to find the location of the passage, you need a certain amount of luck.

Of course.

If the strength is strong enough.

It's not impossible to just forcibly open a passage.

It's just that he can't do it yet.

"If you have a chance in the future, let's go back to the fairy world to see it."

Zhang Yuhe didn't hesitate.

He can't go back to the fairy world for the time being, so that doesn't matter much.

Anyway, he doesn't have much nostalgia in the fairy world.

As for Dao Shengzong.

He doesn't have to worry about it at all.

Zhang Yuhe believes it.

There are those backhands he left behind.

As long as the Dao Sheng Sect and its successors don't seek death, they can always stand firm in the immortal world.

"It's better to go back to Yitian Mansion and continue practicing."

Zhang Yuhe looked around in the void for a while.

Then make a stroke with your right hand.

Soon he returned to Yitian Mansion.

It took 20,000 years to travel, but now we can reach it in an instant.

That feels very good.

Think of this.

Zhang Yuhe stood on the training platform, a faint smile couldn't help but appear on his face.

"Hurry up and learn the Demon God Clone Technique and the God-Demon Heaven-Slaying Sword Formation first."

Think of this.

Zhang Yuhe waved his right hand.

A tall stone tablet stood quietly in front of him.

Endless and vast aura is constantly falling from the surface of the stone tablet.

Mysterious runes slowly rose around the stone tablet.

When he first entered the Sea of Chaos.

The two stone tablets that recorded the Hunyuan Scripture underwent drastic changes.

The last two stone tablets merged into one.

The breath also became vaster and grander.

"I hope these two new magical powers won't be too difficult to learn."

Zhang Yuhe slowly sat down cross-legged on the training platform.

He looked up at the stone tablet in front of him, silently comprehending the Taoist charm in it.

Although the two magical powers recorded in the stone tablet had already been engraved in his mind.

Even without taking out the stone tablet.

He never forgets a word.

But Zhang Yuhe thought.

Since the two magical powers, the God and Demon Clone Technique and the God and Demon Killing Heaven Sword Formation, come from the stone tablets.

Then it should be easier to learn something by understanding the Taoist rhyme in the stone tablet, right?

Zhang Yuhe looked up at the stone tablet while recalling the content of the God and Demon Clone Technique.

Countless thoughts kept flashing through his mind.

"This should be."

"No, maybe it should be done this way?"

The supreme magical power of the God and Demon Clone Technique was countless times more complicated than he imagined.

With Zhang Yuhe's incredible understanding, he couldn't even find a clue for a while.

But he wasn't in a hurry.

Take your time.

The more difficult it is to practice a magical power, the more powerful the effect is.

He has long been full of expectations for this magical power.

Even if it takes billions of years.

You must also learn this invincible life-saving magical power.
