Chapter 663 The world is so big, where can't we go?

Time passed slowly.

Zhang Yuhe has been immersed in the perception of the God and Demon Clone Art.

After the Chaos God and Demon Heavenly Scripture was opened, the two new magical powers activated were indeed extremely complex.

Before that.

He could learn any magical power quickly with just one look.

Even the thirty-six supreme magical powers treasured in the Daozang Hall of Donghua Palace.

Zhang Yuhe learned it effortlessly.

It only takes half a day at most to learn it easily.

However.

Facing the God and Demon Clone Art recorded in the stone tablet in front of him.

Zhang Yuhe seemed to have walked into a dead end and could not comprehend it successfully for a long time.

"Did I misunderstand?"

"This magical power is not something that a true god cultivator can learn?"

"Does it have to wait until you reach the God King realm, or even the Eternal Emperor, to learn this magical power of clone art?"

"It shouldn't be."

Looking at the stone tablet in front of him, he carefully comprehended thousands of years.

Zhang Yuhe couldn't help but fall into self-doubt.

With his heaven-defying comprehension, and the Enlightenment Tree behind him.

There is no reason why he can't learn this divine and demon clone art?

Unless there are other fundamental requirements to learn this magical power.

There shouldn't be.

Thinking of this.

Zhang Yuhe carefully recalled the content about the divine and demon clone art in the stone tablet.

After repeated confirmation.

He can be sure.

The basic condition for practicing the divine and demon clone art is that the cultivation level has reached the true god realm.

There are no other additional requirements.

"Damn it, come again."

"I don't believe that I can't handle this magical power."

Zhang Yuhe took a deep breath and slowly closed his eyes.

I was immersed in the perception again.

I don't know how long it has been.

Zhang Yuhe suddenly had an idea.

He quickly pinched the magic formula.

An illusory figure slowly appeared beside him.

As the divine power continued to flow in.

This illusory figure was gradually becoming solid.

Soon.

A clone that looked exactly like Zhang Yuhe stood quietly on the training platform.

"Haha, I finally got it."

Zhang Yuhe could feel it clearly.

The clone had the same soul and spirit as himself, and the same thinking.

He didn't even need to control it deliberately.

The clone could also practice autonomously, and even fight autonomously.

Zhang Yuhe's mind moved slightly.

The clone slowly walked down the training platform.

Soon, he found a corner at random in Yitian Mansion and sat down silently.

The divine power around him began to slowly gather towards the location of the clone.

After a while.

Zhang Yuhe clearly felt that the divine power in his Dantian had improved slightly.

Isn't it possible to upgrade while lying down?

You don't have to do it yourself, the clone can help you practice.

Awesome.

This divine clone technique is really awesome.

"Next, make all nine clones."

Feel the changes brought by the clone.

Zhang Yuhe was very excited.

If he doesn't make good use of such an awesome magical power.

Then he would be a fool.

Soon.

All nine clones appeared.

They each found a remote corner in Yitian Mansion and began to practice silently.

Time passed slowly.

Zhang Yuhe felt that his cultivation was growing rapidly.

Originally, after a cultivator entered the True God Realm, his cultivation progress would be very slow.

A normal True God cultivator.

Even if he only cultivated to the perfection of the first level of the True God Realm.

It may take tens of billions of years.

Or even longer.

However, when the nine clones began to practice at the same time.

Zhang Yuhe silently estimated.

It would take at most ten million hours for him to cultivate to the perfection of the first level of the True God Realm.

"Well, there seems to be no need to rush the cultivation. Let's learn the God and Demon Sword Array first."

As Zhang Yuhe's thoughts turned slightly.

The nine clones immediately stopped practicing and began to comprehend the God and Demon Sword Array.

Zhang Yuhe sat cross-legged on the practice platform.

The original body plus the nine clones comprehended the magical power together.

The comprehension was surprisingly smooth.

Whenever one of the clones went astray, the other clones or the original body would correct it immediately.

Ten people shared their thinking, even if this God and Demon Sword Array was also extremely complex.

There were all kinds of forks and difficulties in the middle.

But he still quickly conquered them one by one.

This is the effect of one plus one, which is far greater than two.

Ten people comprehended the magical power together, which was hundreds and thousands of times faster than him alone.

It took only about sixty years.

With the joint efforts of the nine clones.

Zhang Yuhe learned the God and Demon Sword Formation.

The whole process was surprisingly smooth, just like learning an ordinary magical power.

He slowly stood up and said to himself silently in his heart

"I have to find a place where no one is around to try out the power of this new sword formation."

After learning a new magical power, you naturally have to try it out first.

Otherwise.

He doesn't even know how powerful this magical power is.

That would be embarrassing.

Thinking of this.

Zhang Yuhe stood up.

He then made a move with his right hand.

Section 912

Soon, a two-meter-square particle vortex appeared in the void.

He took one step forward and instantly appeared in an endless distance.

"It's right here."

Zhang Yuhe used the magical power of Wave Dao.

Waves of invisible fluctuations rippled rapidly towards the distance.

As the waves sweep across a wide area.

After confirming that there is no one around.

Zhang Yuhe waved his right hand.

Nine fairy swords appeared in a flash, slowly flowing around him.

Follow the magic formula and pinch it.

The fairy swords instantly merged into one and turned into an oversized golden sword.

The giant sword hung in mid-air, emitting a hot sword light that enveloped the entire world.

"cut."

Zhang Yuhe drank lightly.

The giant sword slashed across the sky, and even the void became a little distorted.

Boom...

The thundering roar resounded throughout the void.

As the giant sword struck down.

A small, uninhabited landmass in the distance was split in half in an instant.

Then it slowly turned into gray and dissipated into the void.

"Destroy heaven and earth."

"This is the real destruction of heaven and earth."

Seeing such an amazing scene, Zhang Yuhe murmured to himself.

He himself was a little shocked.

I can't believe that he did everything in front of me.

He knew that the Gods and Demons Killing Heaven Sword Formation was very powerful.

Killing the sky and destroying the Tao, how can it not be strong?

But Zhang Yuhe never thought about it.

When he actually used this sword formation, it became so terrifyingly powerful.

A small landmass was split open by him like this.

It even turned into ashes in the end, not even a stone was left.

It's a bit scary.

If it hits the monk.

Then who can stop it?

"Even if he is the Supreme God King, he is probably nothing more than this."

Zhang Yuhe thought silently.

Although he has never seen it, the real Supreme God King takes action with all his strength.

I don't know what the specific power of the God King monks is.

But compare the last battle between Duan Changqing and He Rufeng.

Zhang Yuhe can also make a rough guess.

If he had the strength now.

How can I use it? It's so troublesome.

It is estimated that it only takes one sword to kill He Rufeng, that false god king.

This was just now, before he activated the Hunyuan Guiyi magical power.

If the ultimate move is enabled.

Even facing the real supreme god king.

Zhang Yuhe is also confident that he can fight hard a few times.

Maybe he can still gain the upper hand.

Relying on the God-Demon Heaven-Slaying Sword Formation, it has great power.

It is possible to kill a weaker God King.

"Ha ha."

Zhang Yuhe looked up to the sky and roared.

Until now.

He could finally say that he could establish a firm foothold in the Sea of Chaos.

Gods and Demons Killing Heaven Sword Formation, Clone Technique, Teleportation Magical Power.

There are these three powerful supports.

Who can do anything to get him?

Think of this.

Zhang Yuhe suddenly became full of pride.

The world is so big, where can't we go?

...

Chapter 664 The mission is coming

Feeling the terrifying power of the Gods and Demons Killing Heaven Sword Formation.

Zhang Yuhe's excitement could not calm down for a long time.

It's too strong.

With this magical power.

There will never be a situation where we are unable to tackle difficult problems again.

Even a Chaos Beast with strong defenses might not be able to block a strike from the Heaven-Slaying Sword Formation.

"Go back first and upgrade the natal sword to a true artifact."

Zhang Yuhe made a stroke with his right hand.

A two-meter-square particle vortex slowly appeared in the void.

He took one step forward and soon returned to Yitian Mansion.

Standing on the training platform.

Zhang Yuhe took out his identity token and looked at the information in the sect's treasure house.

He couldn't help but frown slightly.

If you want to upgrade the natal sword to the level of a true artifact, you need to consume a lot of materials.

And basically none of these materials are cheap.

The issue is.

Zhang Yuhe doesn't just need to upgrade to a set of natal immortal swords.

His nine clones are still empty-handed.

Why don't we all get a set of Nine Heavens Hunyuan Sword and arrange it?

Zhang Yuhe had no intention of letting the clone stay in Yitian Mansion to practice.

This is meaningless.

In case Donghua Palace is in danger.

Wouldn't that mean that people would be served a pot?

Zhang Yuhe plans.

After he assigned a set of natal divine swords to all the clones.

Send them out immediately.

The Chaos Sea spreads out as far as possible across the nine heavens and ten lands.

Anyway, when you need to fight.

The clones can also be teleported and gathered together immediately.

In normal times.

It's better to spread it out as much as possible.

Put safety first.

Zhang Yuhe put away his identity token and quickly went to the sect's treasure house.

When he comes back.

The original contribution value of 10,000 has basically bottomed out.

"No matter how much the sect contributes, we can't help but spend it."

Looking at the identity token, there are only a few dozen contribution points left.

Section 913

Zhang Yuhe couldn't help but feel speechless.

After assisting Duan Changqing and killing He Rufeng, God King Yuanhe rewarded 10,000 sects for their contribution.

He originally thought it was a huge sum of money.

I am afraid that even if it takes tens of billions of years, it may not be able to be spent completely.

However.

Now it is just to prepare the materials needed to refine the natal divine sword.

It was all consumed.

Of course.

It's totally worth it to contribute a little and spend it.

If Zhang Yuhe is not a disciple of Donghua Palace.

He wanted to collect so much material by himself in the outside world.

I don't even know when it will be done.

Each of the nine clones has a set of natal divine swords, which is eighty-one true artifacts.

In addition, his own natal sword will also be promoted to a true artifact.

It is indeed not that easy to get so many artifact materials.

It is convenient to have a big force behind you.

...

Zhang Yuhe took the materials to the refining room next to him and sat down silently.

Refining a complete set of ten sets of natal divine swords will probably take a lot of time.

At this time, eight of his nine clones were scattered throughout Yitian Mansion, practicing quietly.

As for the other clone, he came to Daozang Hall with his identity token.

Zhang Yuhe wanted to know as much as possible about the situation in the Sea of Chaos.

For the time being, we can only start from Daozang Hall.

Read more books.

The huge collection of books in Donghua Palace contains a variety of information.

Just give it a rough look.

He will no longer be unfamiliar with the Sea of Chaos.

...

The original deity is sitting cross-legged in the weapon refining room, while the nine clones are doing their own thing.

About a hundred thousand years passed.

Zhang Yuhe slowly walked out of the weapon refining room.

I saw him wave his right hand.

Nine divine swords appeared in a flash.

The divine sword slowly circulated, emitting a faint spiritual pressure.

"Finally done."

Looking at the divine swords surrounding him, Zhang Yuhe could not help but reveal a faint smile.

After the natal divine sword is promoted to the level of a true artifact, its power has undergone a qualitative change.

If the Gods and Demons Killing Heaven Sword Formation is used again, who knows how terrifying the power will be?

After a while.

Zhang Yuhe stood on the training platform, silently looking up at the sky.

I saw particle vortices slowly appearing in the sky above Yitian Mansion.

The nine clones rose into the sky one after another and soon disappeared without a trace.

He was the only one left in the huge Yitian Mansion.

It was as if the nine clones had never appeared before.

Zhang Yuhe asked these clones to go to various places in the Chaos Sea.

Each of them found a private place to practice quietly.

He didn't want these clones to go out for adventure and experience.

no need.

In Zhang Yuhe's thoughts.

There has never been any risk-taking experience.

He just needs to practice quietly.

for him.

Cultivation has always been a matter of course, and there is absolutely no need to fiddle with it.

There is no need to force yourself to make it more difficult.

...

Time passes slowly.

Millions of years later.

Zhang Yuhe, who was sitting cross-legged on the training platform, suddenly changed his expression slightly.

An identity token soon appeared in his hand.

After playing a magic formula.

The voice of King Yuanhe came faintly from the token.

"Zhang Yuhe, come here."

"Yes, Palace Master."

Zhang Yuhe put away his identity token and stood up slowly.

he knows.

The task is coming.

According to what Duan Changqing said before.

After Donghua Palace disciples are promoted to the True God Realm, they will be sent to various places to take on guard duties.

"I have been practicing peacefully in Donghua Palace for tens of millions of years. It's my turn to do something for the sect."

Zhang Yuhe muttered silently to himself.

He had no objection to the task of guarding Donghua Palace.

As a sect disciple, you naturally have to shoulder your own responsibilities.

This is the same for any force.

At first he was in the Yufan Tiandao Holy Sect.

When Zhang Yuhe was in the God Transformation Realm, he also served as the guardian of Yunzhong.

"I don't know where Palace Master Yuanhe will arrange for me to guard."

"Forget it, why are you thinking so much? Just go and take a look and you will know."

Zhang Yuhe jumped into the air and flew quickly towards Yuanhe Shrine.

After a while.

He came to a magnificent palace.

Step into the hall.

Looking at the old man in green sitting at the top.

Zhang Yuhe shouted respectfully.

"Disciple Zhang Yuhe, meet the palace master."

King Yuanhe stood up slowly. He looked at Zhang Yuhe and asked with a smile.

"How is your cultivation going recently? Your realm has stabilized, right?"

Zhang Yuhe nodded lightly.

"Thank you Palace Master for your concern. After millions of years of practice, your realm has been stabilized."

Hear this.

A faint smile couldn't help but appear on the face of God King Yuanhe.

He believes it.

Zhang Yuhe knew the purpose of his question.

After the disciples of Donghua Palace are promoted to the True God Realm, they need to perform guarding tasks.

This is no secret.

But not all disciples of the True God will accept the task willingly.

Some disciples have advanced to the True God Realm.

Will find various reasons to shirk.

For example, not long after the breakthrough, the cultivation state is not yet stable.

In other words, the new magical power has not yet been fully developed and needs time to be pondered.

It is not convenient to perform the task temporarily.

Section 914

Wait.

There are thousands of reasons.

Actually, I just don't want to go out.

It's not as comfortable as being in the sect when I'm out there as a garrison commander.

Donghua Palace has many enemies.

Whether it's the foreign evil gods or the powerful Tianyang Sect, they are all their mortal enemies.

And the powerful families scattered in various places are not easy to deal with.

Maybe they will secretly use their companions.

Although the garrison commander of Donghua Palace has high power in various positions.

But all this is completely related to one's own strength.

If the strength is not enough.

The local wealthy families will not ignore you at all.

There have even been occasional incidents of colluding with foreign enemies to attack and kill the garrison commander of Donghua Palace.

Otherwise.

How could there be only more than 10,000 True God disciples left after countless epochs of inheritance in Donghua Palace?

Because many True God disciples died when they were out as garrisons.

Due to various accidents.

The Chaos Sea is very large, and there will naturally be many people who take risks.

Even if they will be suppressed by Donghua Palace, there will still be people who take risks.

That is why.

It is actually a dangerous task for Donghua Palace disciples to go out and serve as garrison commanders.

It is normal for some disciples of the True God to be unwilling to take on such tasks occasionally.

Yuanhe God King will never force these people.

Without the strong heart to suppress everything, these people are destined to not go far.

He does not need to pay attention to them anymore.

But Zhang Yuhe is obviously different.

Facing the upcoming garrison mission.

Zhang Yuhe's expression is indifferent, without any resistance at all.

This is the backbone of Donghua Palace.

The great waves wash away the sand.

Those who can stay are the elite.

And Zhang Yuhe is such a person.

Thinking of this.

Yuanhe God King's face can't help but show a faint smile.

...

Chapter 665 Tianfeng Garrison Commander

Tianfeng Continent, Haoyue Mountains.

A two-meter square particle vortex suddenly appeared in the air.

A graceful figure in white slowly walked out of the vortex.

This is one of Zhang Yuhe's clones.

Earlier.

Yuanhe God King assigned him a garrison mission.

Let him go to Tianfeng Continent and serve as the garrison commander.

Of course, Zhang Yuhe would not come here by himself.

There are nine clones here.

These things are not necessary, just do it yourself.

Just send a clone and leave it there.

Anyway, as a garrison commander, you don't have to do any real work.

Things will naturally be done by the subordinates.

The clone is placed here just to serve as a face and sit in charge of one side.

For Zhang Yuhe.

It is equivalent to giving the clone a different place to practice.

It's not a big deal.

Even if something really happens and he needs to suppress it.

It doesn't matter.

After being equipped with his own divine sword, the clone's strength is the same as his.

There is no difference.

It is enough to suppress a place.

Moreover, the clone is exactly the same as himself in appearance and soul.

Others don't know that this is just his clone.

Strictly speaking.

There is actually no big difference between Zhang Yuhe's original body and clone.

Wherever he sends his main consciousness, that is his original body.

After returning to Yitian Mansion.

Zhang Yuhe sent his clone over, and then continued to immerse himself in cultivation.

He never took a step forward again.

Yitian Mansion's formation was activated.

No one knew that he was still in Donghua Palace at this time.

Everyone thought.

He had already set off for Tianfeng Continent to serve as the garrison commander.

Haoyue Mountains.

Zhang Yuhe stood in the air, looking at the mountains in front of him.

He took out a jade slip and roughly determined the direction.

Then he quickly soared into the air, his figure turned into a stream of light, and soon disappeared in the distance.

Tianfeng City.

As the largest city in the entire continent, it is also the location of Donghua Palace's garrison.

At this time, Hu Yue was anxiously waiting in the teleportation hall.

Not long ago.

He received a message from Donghua Palace, saying that there will be a new true god disciple.

Came to Tianfeng Continent as a garrison commander.

After receiving the message.

Hu Yue immediately led people to the teleportation hall in the city.

In his opinion.

The fastest way for Donghua Palace disciples to get to Tianfeng City.

Of course, it is to transfer directly through the teleportation array.

Although Tianfeng Continent is located in a remote area, it is a super continent and has an important location.

Donghua Palace built a teleportation array here a long time ago.

From Donghua World to Tianfeng Continent, after passing through many dangerous places in the middle.

You can transfer directly.

As the manager who stayed in Tianfeng Continent.

Donghua Palace has a garrison commander coming, Hu Yue naturally has to prepare in advance to welcome him.

If he neglects the new garrison commander, he will not have a good time.

If the new garrison commander is unhappy with him, he will drive him out of the garrison.

He has offended so many people before, especially the local wealthy families.

He would be eaten in one bite.

Next to Hu Yue.

There were several monks walking back and forth in the teleportation hall.

These people had a strong aura, and they were all in the virtual god realm.

In the absence of a garrison commander.

Section 915

They represent Donghua Palace and are the main force that governs the entire Tianfeng Continent.

At least on the surface, that's the case.

At this time.

A blue-robed monk whispered to Hu Yue.

"Manager Hu, it usually takes thousands of years for the garrison commander to get here from Donghua Palace."

"We don't need to wait here early."

Hu Yue snorted coldly.

"Hmph, what do you know?"

"We came to the teleportation hall as soon as we received the news. We can't control when the garrison commander will come."

"But we must be ready to welcome him early. This represents our attitude and we must not be careless."

Perhaps he felt that his tone just now was a bit too harsh.

Hu Yue quickly relaxed his expression and spoke slowly.

"Of course I understand the truth."

"From Donghua Palace to here, you need to cross many dangerous places."

"Those places are not connected by teleportation arrays, and you must rely on the cultivators to fly by themselves."

"Even if the garrison commander is powerful and his flying speed is far faster than ours."

"It will probably take three to five thousand years to reach Tianfeng Continent."

"But the current situation of Tianfeng Continent, I believe you all know."

"The three great families of Ye, Zhao, and Wang all have ancestors in the realm of true gods."

"Since the last garrison commander left office, Tianfeng Continent has not welcomed a garrison commander for hundreds of millions of years."

"Over the years, the three families of Ye, Zhao, and Wang have been ready to make a move, and they have long since stopped taking us, the people of the garrison, seriously."

"We have been guarding here early to tell them."

"The situation will be different in the future."

"Tianfeng Continent will welcome a new garrison commander, and the people of the three families of Ye, Zhao, and Wang must be honest and not be too presumptuous."

"The garrison commander represents Donghua Palace, and he is not as easy to control as us."

Hu Yue's voice had just fallen.

Everyone couldn't help but show anger on their faces.

Everyone complained loudly.

"Who said it wasn't."

"Over the years, the three families of Ye Zhao Wang have relied on the presence of the True God Ancestor."

"They have become more and more arrogant, and they don't take our garrison seriously at all."

"Last time, when our people went to the Ye clan to collect the annual tribute, they were beaten out by them."

"Even when I went there in person, I didn't receive half a piece of divine crystal in the end."

"They don't even want to pay the annual tribute to Donghua Palace."

"I think the three families of Ye Zhao Wang probably want to rebel."

"Maybe they want to leave Donghua Palace and climb up the ladder, or want to build their own family."

"Humph, I think they are looking for death."

"It's just that Donghua Palace doesn't really focus on Tianfeng Continent."

"Otherwise In other words, the three families of Ye, Zhao and Wang, with only three True Gods, are nothing but clowns. "

"Once the thunderous wrath of Donghua Palace is triggered, they can be destroyed in a blink of an eye."

"Alas, I don't know how strong the garrison commander who came this time is, and whether he can suppress these three wealthy families."

"Don't worry, as long as there is a garrison commander, the three families of Ye, Zhao and Wang will honestly tuck their tails between their legs."

"They don't have the courage to confront the real disciples of Donghua Palace head-on."

"They can only bully us, the managers of the garrison."

"That's right, wait slowly."

"I hope the new garrison commander can arrive earlier."

Just as everyone was whispering.

A stream of light passed by in the distance.

A figure in green landed in the teleportation hall.

He quickly came to Hu Yue and said excitedly.

"Manager Hu, the new garrison commander has arrived at the garrison. You should go back and greet him."

"This..."

Looking at the excited look of the visitor, everyone looked at each other.

How could it be so fast?

Didn't they just receive the message from Donghua Palace?

How come the new garrison commander has already arrived?

And he was guarding the teleportation array and didn't see anyone coming.

Could it be that.

This new garrison commander had actually arrived in Tianfeng Continent a long time ago.

He had been visiting Tianfeng Continent for a long time, so Donghua Palace reissued the message?

Everyone imagined it.

Everyone soon became excited.

It's good that the garrison commander has come.

With the garrison commander of Donghua Palace, they have a backer.

This huge garrison can truly suppress the four directions.

No one will dare to jump in front of them in the future.

Thinking of this.

Hu Yue said excitedly.

"Let's go, let's go back and welcome the garrison commander."

...

Chapter 666 Is this garrison commander a scoundrel?

Hu Yue led everyone and quickly returned to the garrison.

When they came to the main hall.

They saw a handsome figure standing quietly in it.

A vast breath like the abyss emanated faintly from the figure.

Everyone looked at each other and immediately shouted respectfully in unison.

"Greetings, garrison commander."

Zhang Yuhe turned around and looked at Hu Yue and others, with a hint of dissatisfaction in his heart.

As for the information about Tianfeng Continent, he had naturally been in Donghua Palace for a long time and had already understood it clearly.

As far as he knew.

The atmosphere of cultivation in Tianfeng Continent was very prosperous.

Various wealthy families were scattered all over the continent and took root and developed.

Among them, the most noteworthy were the three major families of Ye Zhaowang.

These three families all have True God cultivators in charge, and they are a force that cannot be underestimated.

However.

Today, when he, the garrison commander, took office, no one came out to greet him.

Even though he waited for a long time.

In the end, he waited for the forces that originally belonged to the garrison.

As for the forces of the major families, no one came.

Not to mention the True God cultivators of the three major families, they did not come to greet him.

Even those small families did not send anyone over.

"The water in this Tianfeng Continent seems to be a bit deep."

"No wonder Yuanhe God King must send me here."

"He repeatedly reminded me in advance, fearing that I would be careless and overturn."

"It seems that the things here are indeed a bit complicated."

Zhang Yuhe thought silently in his heart.

Even when he, the garrison commander, took office, the local powerful families did not send anyone to greet him.

This obviously did not take him seriously.

To be precise.

Section 916

I didn't take Donghua Palace seriously.

"I hope you don't commit suicide, otherwise, don't blame me for being rude."

Zhang Yuhe muttered to himself in his heart.

Suddenly.

He turned around and looked at everyone, then asked lightly.

"What is the situation in Tianfeng Continent recently? Is there anything that needs attention?"

"This..."

Hu Yue and others looked at each other, and no one spoke.

Facing this new garrison commander, they really didn't know what to do.

They didn't know Zhang Yuhe's true thoughts.

So much so that for a moment, they didn't know what to say.

Zhang Yuhe asked with a smile.

"Just tell the truth, don't take it too seriously."

Hearing this.

Hu Yue gritted his teeth and spoke excitedly.

"Reporting to the Lord of the Garrison."

"The current situation in Tianfeng Continent is indeed a bit bad."

"Under the leadership of the three major families of Ye Zhaowang, the wealthy families in various places have long stopped listening to the orders of the Garrison."

"Even the managers we sent out to collect the annual tribute are often attacked inexplicably."

"To be honest, except for the areas around Tianfeng City."

"The orders of the Garrison are completely ineffective in Tianfeng Continent."

"Oh, there is such a thing?"

Zhang Yuhe responded lightly, looking a little surprised.

He knew that the wealthy families in various places would definitely be arrogant and domineering.

But he didn't expect that these people would be so arrogant.

They didn't even want to pay the annual tribute of the Garrison.

They even dared to attack the managers of the Garrison.

You know.

The Garrison in various places represents the face of Donghua Palace.

Whether there are true god disciples or not, they are serving as Garrison.

The garrisons are also the agencies of Donghua Palace in various places.

They belong to Donghua Palace and are the peripheral forces stationed in various places.

The major nobles in Tianfeng Continent are so disrespectful to the garrisons.

Are they thinking of rebellion?

Where do they get the courage to confront Donghua Palace?

Are they tired of living?

The garrisons collect annual tributes from various places, which is the basic policy of Donghua Palace to rule the four directions.

In fact, the annual tributes collected by the garrisons in various places are not too much.

It's just a gesture to show that they are still willing to submit to the rule of Donghua Palace.

In fact, if you don't want to pay the annual tribute, you can do it.

Like the three major families of Ye Zhaowang, because there are true god cultivators in charge.

As long as these true god ancestors are willing to obey the orders of Donghua Palace and become guest officials of Donghua Palace.

Their families will no longer have to pay annual tributes.

And there are many benefits for becoming guest officials of Donghua Palace.

They can also obtain contribution points by completing the tasks of Donghua Palace.

With contribution points, they can be like the disciples of Donghua Palace.

They can exchange items in the treasury and even consume contribution points.

Enter the Daozang Hall of Donghua Palace to view the magical books within a specific range.

Despite this.

The true god ancestors of the three families of Ye, Zhao and Wang did not join Donghua Palace and become guest worshippers.

Although Donghua Palace has tried to win them over many times, these three people have always refused.

They don't want to pay annual tribute, nor do they want to become worshippers and obey the orders of Donghua Palace.

What's even more outrageous now is.

These three families actually win over other wealthy families to fight against the garrison together.

This is probably true, and they are a little impatient to live.

Do you really think Donghua Palace is a decoration?

No wonder before leaving, Yuanhe God King kept telling him to be careful.

Especially pay attention to these three families, don't accidentally ignite the other party's Tao.

Now it seems.

It's really interesting.

I don't know who is backing the other party? Could it be the Tianyang Sect?

It can't be an evil god from outside the domain.

Do they think that the Donghua domain is vast and boundless, and the emperor is far away.

Donghua Palace can't control them?

Naive.

Thinking of this.

Zhang Yuhe's face showed a trace of disdain.

What kind of things are they?

They dare to jump in front of Donghua Palace.

Seeing Zhang Yuhe, he stood quietly in the same place without saying anything.

Hu Yue asked in a low voice.

"Do you need us to inform all parties and let them come to pay homage to the adults?"

Hearing this.

Zhang Yuhe waved his hand and said lightly.

"No need, those who want to come will come naturally."

"For those who don't want to come, don't force it too much."

Zhang Yuhe believed.

The news that he came to serve as the garrison commander must have been known to the major forces in Tianfeng Continent.

Those who know what's interesting will naturally come to pay homage.

As for those who don't know what's interesting, it doesn't matter.

Anyway, they will soon become a group of dead people.

For a group of dead people

Does he still need to care?

Hearing Zhang Yuhe's words.

Hu Yue and others couldn't help but be stunned.

He really didn't understand Zhang Yuhe's true thoughts.

Could it be that this garrison commander just came here to do the mission?

He didn't intend to truly represent Donghua Palace and suppress the local evil forces?

Thinking of this.

Everyone couldn't help but feel a little disappointed.

Everyone thought in their hearts.

They were dealing with a scumbag garrison commander.

I'm afraid their future life will be difficult.

Although they thought so in their hearts.

Hu Yue and the others did not say anything else.

After all, even if Zhang Yuhe was just here to do a mission.

He was also a high-ranking True God cultivator, and he also represented Donghua Palace.

What could they do?

Could they still persuade him?

Oh...

Section 917

Thinking of this.

Hu Yue couldn't help but sigh.

Originally, he thought that after the arrival of the garrison commander.

They could show their strength and revive the authority of the garrison in Tianfeng Continent.

Now it seems that there is no hope.

The new garrison commander obviously didn't have such an idea.

He was unwilling to even summon representatives of various tribes.

This made him a little helpless.

But what can I say.

At least there is a garrison commander now.

The wealthy families in various places, no matter how arrogant they are, can't jump in front of the garrison commander.

Their future work should be smoother than before.

Although it didn't meet everyone's expectations before.

But at least it can make the garrison stand steadily in Tianfeng Continent.

Hu Yue believes.

No matter how arrogant the three major families are, they dare not attack the personnel of the garrison again.

If that were the case.

That would be a rebellion.

Even if the new garrison commander wants to continue to be a scoundrel.

I guess Donghua Palace won't agree.

Hu Yue was disappointed, thinking silently in his heart.

With the garrison commander here, the situation won't get worse at least.

...

Chapter 667 Ye Zhiqiu's Thoughts

Although Hu Yue was a little disappointed, he still asked respectfully.

"Sir, garrison commander, what do you need us to do next?"

"Everything will remain the same, just pretend I'm not here."

Zhang Yuhe responded indifferently.

Hearing this.

Hu Yue was even more disappointed.

Just as he was about to take everyone away.

Suddenly he heard Zhang Yuhe ask.

"How much power does Tianfeng Garrison have now? What is its specific strength?"

Hu Yue's expression was lifted, and he answered respectfully.

"The power under the garrison commander's jurisdiction is divided into two armies, the Earth and Fire."

"Among them, the Earth Army is responsible for guarding Tianfeng City, with a total of 100,000 troops. Except for the commander, all of them are in the Daluo realm."

"The Fire Army is stationed in various places, and most of the soldiers are in the Taiyi realm."

Zhang Yuhe nodded gently.

He looked around at everyone, and then asked again.

"How many people are there in the Void God Realm under the jurisdiction of the Garrison?"

In his opinion.

Conventional armies are useless in this huge Tianfeng Continent.

The Earth Army is better, at least they all have the strength of the Daluo Realm.

What the hell is the Fire Army?

Most of the soldiers are actually in the Taiyi Realm.

This is even worse than the Immortal Realm.

Isn't it said that the cultivation atmosphere in Tianfeng Continent is prosperous, and there are many high-level cultivators?

Even in the three major families, there are True God Realms.

Why is the power of their Garrison so weak?

Can't they recruit people?

It's simply incomprehensible to him.

Looking at the five or six people in front of him.

Zhang Yuhe couldn't help but guess.

It's not that his Garrison only has these few Void God Realms.

That's really miserable.

With such weak strength, I don't know how they used to guard this huge Tianfeng Continent.

It's just as Zhang Yuhe expected.

Hu Yue responded helplessly.

"Reporting to the Lord, there are only five of us left in the Void God Realm of the Guard House."

Hearing this.

Zhang Yuhe was speechless.

No wonder the three major families don't take the Tianfeng Guard House seriously.

Such weak strength.

How could they look up to it?

Thinking of this.

Zhang Yuhe waved his hand, and then said lightly.

"You go out first."

"Yes, sir."

Hu Yue led everyone and slowly left the main hall.

Everyone looked at each other.

There was no excitement and excitement before, only a trace of helplessness.

...

After everyone left.

Zhang Yuhe stood in the center of the hall, silently thinking about the response strategy.

He was ordered by the God King Yuanhe to come to Tianfeng Continent as the Guard.

Not to mention the development and prosperity of this place, at least all those unruly people must be cleared and suppressed.

Otherwise.

What is the use of him as the Guard?

Originally he was still thinking.

With the power of the garrison, maybe he doesn't need to take action.

If everyone does their own thing, they can maintain the stability of Tianfeng Continent.

Now it seems that it is obviously not possible.

The garrison is too weak and is just a decoration.

If he doesn't take action.

It will only be more troublesome in the future.

Maybe it will cause a bigger mess.

"Let me see what the three families of Ye, Zhao and Wang rely on to dare to be so presumptuous."

Thinking of this.

Zhang Yuhe silently pinched the magic formula.

Waves of gentle fluctuations, with the garrison as the center, quickly spread to the entire Tianfeng Continent.

As the fluctuations passed.

The situation of the entire Tianfeng Continent was in his sight.

North of Qiuye City.

A magnificent hall stood quietly on the top of the mountains, overlooking the entire city.

This is the ancestral land of the Ye family.

With Qiuye City as the center, the Ye family continued to expand to various parts of Tianfeng Continent.

It has gradually developed into the first force in Tianfeng Continent.

Especially the ancestor of the Ye family, Ye Zhiqiu, had already been promoted to the realm of true god a long time ago.

As the Ye family grew stronger, they collected a large amount of rare resources from all over the place.

Section 918

Ye Zhiqiu's strength is still steadily improving.

As early as one billion years ago.

He made another breakthrough and was promoted to the ninth level of the True God Realm.

Such strength.

Even if placed in Donghua Palace, it is the top existence.

No wonder Ye Zhiqiu was disdainful of Donghua Palace's recruitment.

Maybe he was still thinking.

If one day he broke through to the God King Realm, he could replace Donghua Palace.

Let the entire Donghua Domain become his Qiuye Domain.

At this time, in the hall in the north of Qiuye City.

Three cultivators with powerful auras were toasting from a distance, talking and laughing.

In addition to Ye Zhiqiu, the other two were Zhao Zheng, the ancestor of the Zhao family, and Wang Jiangyuan, the ancestor of the Wang family.

The new garrison commander of Donghua Palace arrived, but they did not go to greet him.

Instead, they gathered together and talked and laughed.

Obviously, each of them had their own confidence and did not take Donghua Palace seriously.

Zhao Zheng picked up the wine glass and drank it all. He smiled and asked Wang Jiangyuan beside him.

"Brother Wang, I heard that the new garrison commander has arrived. Why don't you go to greet him? How can you still have time to come and drink with us?"

Wang Yuanjiang is a burly man with a face full of flesh, and he looks like a rough man.

But people who are familiar with him know.

This is just a superficial phenomenon.

In fact, Wang Yuanjiang is very thoughtful and cunning.

If you are not careful, he will be calculated.

Wang Yuanjiang put down the wine glass and responded with a smile.

"I don't have the ability to clone myself. How dare I break the appointment when the two brothers invited me."

"As for the new garrison commander, it's okay to go and see him when I have time in the future."

"Anyway, our Wang family is law-abiding and respectful to Donghua Palace, and never does anything to insult it."

"I believe that the garrison commander will definitely not blame me."

Hearing this.

A trace of disdain flashed in Zhao Zheng's eyes.

Compared with their Zhao family and Ye family.

The Wang family is just a nouveau riche, rising suddenly and inexplicably.

If they say they are clean.

He does not believe it at all.

Of course.

Zhao Zheng did not expose it.

They are all the same kind of people.

Their Zhao family is naturally not a loyal subject of Donghua Palace.

Otherwise.

He would not be here now, but in Tianfeng City to welcome the new garrison commander.

Hearing that the Zhao Wang and the others were talking about wit again.

Ye Zhiqiu, who was sitting in the main seat, had a calm expression.

He invited the two of them here just to ask for a common future.

If Donghua Palace really blames them, then everyone will bear it together.

It's good to have a companion.

Of course.

To say how good the relationship between the three families is, that's not entirely true.

Ye Zhiqiu had already found out the details of the Zhao family.

Didn't they just join the Tianyang Sect?

Even Zhao Zheng's son joined the Tianyang Sect and became an inner disciple of the Tianyang Sect.

I heard that many years ago, he had been promoted to the realm of true god, and his strength was stronger than Zhao Zheng.

However, Ye Zhiqiu did not take the Zhao family seriously.

Even if the Tianyang Sect was stronger, what could it do?

They could not come to the Tianfeng Continent.

This was the territory of the Donghua Palace.

The Tianyang Sect did not dare to be presumptuous, and at most they would raise a few lackeys like Zhao Zheng.

To be honest.

Ye Zhiqiu looked down on such people the most.

He did not want to pay attention to the Donghua Palace, because he was confident that he could break through the realm of God King.

He did not need to rely on others.

With his current strength, even if he occupied the Tianfeng Continent, the Donghua Palace would not necessarily start a war.

When he was promoted to the Supreme God King, he could completely build a large domain independently.

He was the master of his own house.

Like Zhao Zheng, he had no ability, but wanted to step on several boats.

He was simply courting death.

Ye Zhiqiu never took such a dying person to heart.

The origin of the Wang family was mysterious.

About 300 billion years ago, Wang Jiangyuan suddenly rose up and broke through to the realm of true god.

Then he created the huge Zhao family.

Ye Zhiqiu once tried his best, but he couldn't find any trace of Wang Jiangyuan.

This person seemed to have suddenly appeared out of thin air.

Facing such a person of unknown origin, Ye Zhiqiu has been secretly on guard.

Fearing that he would be used by the other party.

Although he is powerful.

But Ye Zhiqiu is not so arrogant that he thinks he can be invincible.

This time he invited the two people.

He actually wanted to find out Wang Yuanjiang's background.

But looking at the cunning look.

Facing Zhao Zheng's sharp words, Wang Yuanjiang did not show any expression.

It is estimated that it was a waste of effort again.

"Forget it, as long as I am careful and have less dealings with the Wang family in the future."

Ye Zhiqiu picked up the wine glass and took a sip gently.

Thinking silently in his heart.

...

Chapter 668 Tianyang Sect Liu Yuanguang

The three great True Gods seemed to be chatting and laughing on the surface, but they were all harboring evil intentions.

Although the Tianfeng Continent was very large.

But the three True God families were in the same place, which seemed a bit small.

The usual fights between the three families had never stopped.

It was only because they were afraid of each other and needed to face the pressure from Donghua Palace together that they did not fight.

But the relationship between them was definitely not very good.

Wang Yuanjiang was just squeezed by Zhao Zheng with words.

Soon he launched a counterattack not to be outdone.

He put down his wine glass and asked Zhao Zheng with a half-smile.

"Brother Zhao, I heard that your Zhao family has a wide range of businesses and has expanded its business to the Tianyang Region."

"I wonder if I can bring my little brother with me. Let's make a fortune together."

Hear this.

Zhao Zheng couldn't help being shocked.

He didn't know if Wang Jiangyuan had something else in mind.

If it's just about doing business, of course there is no problem.

Section 919

As a true god family, they will naturally not be limited to the Donghua region.

It is also normal to seek development outside.

But looking at Wang Jiangyuan, that half-smile expression obviously contains deep meaning.

Zhao Zheng was nervous.

He asked himself that the matter of hooking up with Tianyang Sect was done very secretly.

There should be no outsiders who know about it.

Where did Wang Jiangyuan get the news?

"Is he testing me?"

Thinking of this.

Zhao Zheng took a deep breath and said solemnly.

"Brother Wang, don't talk nonsense, this is not a joke."

"We just opened a few shops in Tianyang Region, and it's not a big business."

"Oh, that may be a misunderstanding."

Wang Jiangyuan picked up the wine glass and responded with a rather playful expression.

Zhao Zheng was very uneasy because Wang Jiangyuan almost revealed his true colors.

He didn't want to stay for a moment.

Or just go back quickly.

Thinking of this.

Zhao Zheng stood up quickly and said to Ye Zhiqiu.

"Brother Ye, I still have things to deal with in my clan, so I'll take my leave first."

Ye Zhiqiu stood up slowly.

He picked up the wine glass and drank it all, then slowly spoke.

"The new garrison commander has arrived, and we can't not express our gratitude."

"How about this, let's make an appointment and go to pay a visit together."

"Okay, let's go together then."

Zhao Zheng made some polite remarks and left quickly.

Looking at the direction he left, Wang Jiangyuan said playfully.

"Brother Zhao left in a hurry, don't you really have something to hide?"

Ye Zhiqiu glanced at him and said lightly.

"Who doesn't have something to hide?"

Being pushed back by Ye Zhiqiu neither soft nor hard, Wang Jiangyuan's expression was deleted.

Originally, he was still thinking whether he could pull Ye Zhiqiu together to suppress the Zhao family's limelight.

Now he dare not say it.

If he said too much and exposed his past, it would be a bit bad.

On this Tianfeng Continent, the person he feared the most was Ye Zhiqiu.

Ye Zhiqiu was powerful and had reached the ninth level of the True God Realm.

If the God King did not come out, few people could suppress him.

In a remote place like Tianfeng Continent.

As long as Ye Zhiqiu was willing, he would definitely be the overlord of one side.

No one dared to offend him easily.

Even the people behind him told him not to provoke him easily.

He hit a soft nail with Ye Zhiqiu.

Wang Jiangyuan didn't know what to say for a while.

He took a deep breath and said politely to Ye Zhiqiu.

"Since Brother Zhao has left first, I will not bother you anymore."

"Wait until Brother Ye confirms the time, and then we will go to visit the garrison commander together."

After saying this.

Wang Jiangyuan bowed to Ye Zhiqiu and soon took off.

His figure turned into a stream of light and disappeared into the distant sky.

Ye Zhiqiu stood quietly at the door of the hall.

Looking at the direction where the two disappeared, he couldn't help but fall into deep thought.

Both of them had a hidden agenda.

The Zhao family hooked up with the Tianyang Sect, and he didn't even find out who was behind the Wang family.

"It might not be good if it goes on like this."

"What if they start to move and attract the attention of the Donghua Palace, will they also implicate me?"

"Maybe I should cut off ties with them as soon as possible."

"I don't want to get involved in their mess."

"Let's wait until I meet the new garrison commander."

Ye Zhiqiu thought silently.

Unlike the two Zhao Wangs,

he is a pure cultivator who doesn't want to be bound by anything.

Even if he established the Ye family, it was just to collect cultivation resources for himself.

He didn't want to rely on anyone.

As long as it doesn't affect his cultivation, who will be the master of the Tianfeng Continent.

For him, it doesn't matter.

But now it seems.

Whether it is the Tianyang Sect behind the Zhao family or the mysterious forces behind the Wang family.

I guess they will not let the Tianfeng Continent continue to be peaceful.

Maybe one day, a great chaos will break out.

If that time really comes.

He has to stand on the side.

This is not the situation he wants to see.

In Ye Zhiqiu's opinion.

It is better to maintain the status quo.

"Maybe I should find an opportunity to remind the new garrison envoy."

"With the help of the power of Donghua Palace, sweep all the forces behind the Zhao and Wang families out of the Tianfeng Continent."

"Forget it, wait until I meet the garrison envoy and see the attitude of Donghua Palace."

Thinking of this.

Ye Zhiqiu slowly walked into the depths of the hall, came to the training platform and sat cross-legged silently.

Strength is the foundation.

If he can be promoted to the God King realm, all chaos will no longer be a problem.

Break all laws with one force.

These intrigues made him a little tired.

...

Zhao Zheng flew quickly all the way.

A huge city soon appeared in sight.

This is the clan land of the Zhao family.

Zhengyang City.

Zhao Zheng flew to the north of the city, and a magnificent hall landed.

Several purple-clothed disciples outside the hall saw Zhao Zheng coming back.

They immediately shouted respectfully in unison.

"Greetings, ancestor."

"Yes."

Zhao Zheng waved his sleeves, responded casually, and then hurried into the hall.

Passing through the corridors, he soon came to a large secret room.

In the center of the secret room.

A tall array platform stood quietly in it.

Endless and mysterious runes continued to fall from the array platform.

Close the door of the secret room.

Zhao Zheng walked onto the array platform.

Section 920

Donghua Palace sent his new envoy, and today he was almost exposed by Wang Jiangyuan.

This made him very uneasy.

He wanted to get in touch with Tianyang Sect as soon as possible.

Look at how far the plan over there has progressed.

If it drags on any longer.

Zhao Zheng was afraid that he would not be able to bear it.

He is not Ye Zhiqiu.

He neither has Ye Zhiqiu's strength nor Ye Zhiqiu's confidence.

What if he defected to Tianyang Sect and was brought to Donghua Palace?

The consequences are simply unimaginable.

The Wrath of Thunder in Donghua Palace, he is a little true god monk.

I can't bear it at all.

Think of this.

Zhao Zheng took a deep breath.

He stood on the formation platform and quickly performed the magic formula.

The runes on the array platform flashed.

Dazzling light filled the entire secret room.

After a while.

A faint white-haired shadow slowly appeared on the formation platform.

Even across an endless distance.

The pressure emanating from the phantom still made Zhao Zheng tremble.

This is the Supreme God King Liu Yuanguang, the master of Tianyang Sect's Sifang Hall.

Sifangdian conquered various places to expand territory for Tianyang Sect.

Forces from outside the region such as the Zhao family who have taken refuge are also under the command of Sifangdian.

Looking at the white-haired silhouette on the formation platform, sinking into the abyss like a sea.

Zhao Zheng shouted respectfully.

"Zhao Zheng from Tianfeng Continent, pay homage to the palace master."

...

Chapter 669 Paulin Branch

Liu Yuanguang looked at Zhao Zheng opposite the communication platform and couldn't help but frown slightly.

He asked calmly.

"What's up?"

The Zhao family of Tianfeng Continent is an important chess piece placed by their Tianyang Sect in the Donghua Domain.

It will not be officially launched until the critical moment.

To facilitate communication.

He also specially asked people to set up a communication array directly leading to Tianyang Sect in Zhengyang City of the Zhao family.

Moreover, this communication array is directly controlled by him.

In order to prevent being noticed by Donghua Palace.

Liu Yuanguang had already explained it.

If there is no urgent matter, the Zhao family is not allowed to open the interrogation array.

Now Zhao is opening the communication array. Could it be Tianfeng Continent or Donghua Palace?

What major changes occurred?

Seeing Liu Yuanguang, his face seemed to be filled with joy.

Zhao Zheng whispered anxiously.

"Reporting to the Palace Master, Donghua Palace has sent a guard envoy to Tianfeng Continent."

"The new guardian has arrived."

"You started the communication array just to talk about this."

Liu Yuanguang suppressed his anger and asked calmly.

In his opinion.

Isn't it normal for Donghua Palace to send out envoys?

After all, Tianfeng Continent is still under the control of Donghua Palace.

King Yuanhe arranged for his disciples to go to Tianfeng Continent to take on guard duties.

This is perfectly normal.

In the past, didn't Donghua Palace always arrange for guardian envoys in Tianfeng Continent?

It is only in recent years, perhaps due to a shortage of manpower, that there have been vacancies among the Tianfeng Guardian Envoys.

Just such a trivial matter, is it worthy for Zhao Zheng to specially activate the communication array to find him?

What the hell, I'm afraid I don't want to brush up my sense of presence in front of him.

Fortunately, the two of them are far apart.

If Zhao Zheng is right in front of him.

Liu Yuanguang was afraid that he wouldn't be able to bear it anymore and just beat this useless guy to death.

Liu Yuanguang felt angry in his tone.

Zhao Zheng explained quickly.

"It's like this. Wang Jiangyuan was insinuating on me today. He seems to have discovered our details."

"I'm worried that he will bring this matter to the town hall."

"The purpose of summoning the Palace Master this time is to ask how far the plan has been carried out."

"I'm worried that if this goes on any longer, sooner or later the governor's office will find out about me."

Zhao Zheng was really scared.

What if Donghua Palace discovers that their Zhao family is colluding with Tianyang Sect.

Then isn't he finished?

Donghua Palace doesn't even need to deploy additional power.

As long as the governor's office makes the matter public, it is estimated that Ye Zhiqiu and Wang Jiangyuan will be happy to do it for them.

The Zhao family will be wiped out to the point where not even the scum will be left.

Liu Yuanguang was silent for a while, and then said in a gentle tone.

"It's still early for that plan. As long as God King Donghua is still there, it's impossible for us to make any big moves."

"As for Wang Jiangyuan you mentioned, there is no need to worry at all."

"He just has some suspicions, and there is no direct evidence."

"Even if I stab you at the town guard's house, I won't be able to do anything to you."

Speaking of which.

Liu Yuanguang pondered slightly.

He seemed to be thinking about something.

After a while.

Then he continued to speak.

"However, there is a guardian envoy in Tianfeng Continent, which will indeed cause great inconvenience to your actions."

"Let's do this. I'll let someone find an opportunity to lure him out and kill him."

"I don't believe that Donghua Palace can always send guardian envoys to Tianfeng Continent."

"There are only a few True God disciples in Donghua Palace. If we want to guard the huge Donghua Domain, we simply can't spare our manpower."

"Thank you, Lord."

Zhao Zheng responded excitedly.

If Tianfeng Continent had no guardian envoy, he would be able to sit back and relax.

Even if others knew that he was colluding with Tianyang Sect.

So what?

You can't go directly to Donghua Palace, right?

There is no communication bridge like the town government.

Even if someone reports it to the emperor, Donghua Palace may not believe it.

On the communication array, the white-haired shadow slowly disappeared.

Zhao Zheng couldn't help but breathe a sigh of relief.

It's better to have a strong backing.

When there is a problem, find a strong backer.

Things can be easily solved.
