He needs to carefully organize these magical powers and consider the usage scenarios of these magical powers.

That is, when and what magical power is most simple and effective to use.

These issues also need to be thought through and sorted out first.

Ten days later, Zhang Yuhe walked out of the cave.

At this time, Wang Guofeng was already waiting outside.

He took out a jade slip, handed it over respectfully, and said at the same time.

"Senior, this is the information I asked the Immortal Cultivation Alliance to compile about the demons."

"There are only these at the moment. No player has seen the thirteen demons mentioned by the senior yet."

"If there is any new situation in the future, we will report it to our seniors in a timely manner."

Zhang Yuhe took the jade slip and looked at it carefully with his spiritual consciousness.

I saw that the demon clan's action route was recorded in detail in the jade slips.

Regarding the number of the demon army, the jade slip also gave a rough estimate.

According to rough statistics from the Immortal Cultivation Alliance, the number of the demon army should be between 5 billion and 8 billion.

At present, the demons have landed on the border of Mingzhou and have fully deployed their formation.

Billions of demons were divided into tens of thousands of units and advanced westward in a mighty way.

According to reports from players who witnessed it, no humans or animals were left behind wherever the demon army passed.

They killed everyone on sight, and even Yu Fantian's monsters and monsters were not spared.

The demons acted as if they wanted to kill all the creatures in Yu Fantian.

The cruelty of the interface war was still beyond his imagination.

But there is good news.

According to the overall analysis of the Immortal Cultivation Alliance, the demon army is not advancing very fast.

Ten days have passed, and they are still sweeping the boundaries of Mingzhou, with no sign of rapid advancement.

It seems that the demons will not continue to advance unless they wipe out all the rear.

Zhang Yuhe thought.

If the demons advance at this speed, they may not be able to reach the Liuyun Corridor in another three to five years.

This is definitely good news for Dao Sheng Sect.

This shows that they still have enough time to deploy defensive measures in Liuyun Corridor.

Zhang Yuhe quietly read the contents on the jade slip, and then praised it repeatedly.

"Very well done."

The power of players cannot be underestimated.

It only took ten days to sort out such detailed information.

What I'm talking about here is Yu Fantian's time.

If calculated according to Blue Star time.

From the time he informed Wang Guofeng to now, at most just over an hour had passed.

But in this information, no player has seen the thirteen demons Mahayana.

But this is not surprising.

Those demons, Mahayana, will definitely not take action easily, and they are probably at the core of the army.

It's normal that the players didn't see it.

Putting away the jade slips, Zhang Yuhe happily said to Wang Guofeng.

"The information you provided is very important. I will continue to have people collect and sort out the information on the demon army, and report to me once a day from now on."

After finishing speaking, he took out another storage ring, handed it over and said.

"You can use the contents here to reward players who provide information, and try to find out more useful information."

"Yes, thank you, senior."

Wang Guofeng took the ring respectfully and thanked him repeatedly.

He wasn't being pretentious.

If you want to mobilize players to do something, you will naturally need to spend some money. You can't get any useful information by talking in vain.

If you want your horse to run, you have to prepare fodder.

Zhang Yuhe often refines some small items, many of which have no effect on him.

But for players, it is the top treasure.

Wang Guofeng put away the ring, turned and left.

At this time, a stream of light passed from a distance and fell on the top of Galaxy Peak.

Feng Xiaotian appeared.

Seeing Wang Guofeng coming down the mountain, Feng Xiaotian asked curiously.

"Junior brother, is this your follower?"

"Yes."

"This person shouldn't have been practicing Taoism for a long time, but he has already reached the state of becoming a god. His talent is probably very extraordinary."

When a monk reaches the Mahayana realm, he can see through ordinary people at a glance.

Apart from not knowing that Wang Guofeng was a player, Feng Xiaotian could tell his age at a glance.

Zhang Yuhe replied.

"His name is Wang Guofeng, he has a ninth-grade water spirit root. He was the one I hired to serve as my assistant in Yunzhong Mansion."

"By the way, Sect Master, I want him to join the sect and become an inner disciple. I don't know if it's feasible."

Zhang Yuhe suddenly remembered that he had to give Wang Guofeng the identity of a sect disciple.

However, the procedures for recruiting formal disciples of Daosheng Sect are still quite troublesome.

It is not only necessary to look at the individual's cultivation qualifications, but also to investigate the origins of each person.

Moreover, the Tao Sheng Sect will not accept monks who have already been trained.

Therefore, if he wanted Wang Guofeng to join the Dao Sheng Sect, he had to ask Feng Xiaotian to speak.

Normal procedures are not possible.

"It's a small thing."

After Feng Xiaotian finished speaking, a purple jade token appeared out of thin air in his hand.

He reached out and quickly carved on the jade tablet.

[Dao Sheng Sect Inner Sect Wang Guofeng], several big characters slowly appeared on the jade plaque.

After the carving was completed, Feng Xiaotian threw the jade token.

The jade sign turned into a stream of light and quickly chased Wang Guofeng who was going down the mountain.

At the same time, a voice came into Wang Guofeng's ears.

"From now on, you are an inner disciple of the Daosheng Sect. You must remember the rules and ancestral teachings of the sect and not let the sect's reputation slip."

Wang Guofeng was stunned when he heard the voice. He stretched out his hand to grab the jade card, and then he was ecstatic.

He turned back to the top of the mountain and thanked loudly.

"Thank you for your teachings, senior. I will live up to the expectations of the sect."

Wang Guofeng didn't know that the person standing on the top of the mountain was the leader of the Daosheng Sect.

He thought it was an elder in charge of disciple affairs.

Zhang Yuhe had said before that he could recruit him into the inner gate of the Daosheng Sect.

Unexpectedly, it was done so quickly.

Thinking of this, Wang Guofeng's awe of Zhang Yuhe deepened.

The identity jade card was engraved by the leader himself and introduced into the inner gate.

This is unique in the entire Daosheng Sect.

Feng Xiaotian stood on the top of the mountain and looked at the entire Daosheng Sect mountain gate.

Recruiting Wang Guofeng into the inner gate.

For him, it was just a trivial matter.

Since it was Zhang Yuhe who asked.

Naturally, there was no need to go through other procedures, he could just do it directly.

For the Daosheng Sect, the Mahayana Patriarch can do whatever he wants.

As long as he can stand up and help the sect at the critical moment, that's enough.

In Feng Xiaotian's view, how to deal with the upcoming demon army is the real top priority.

He turned around and asked Zhang Yuhe.

"Do you need to make any preparations, Junior Brother?"

"No."

"Then let's set off now and head to the Flowing Cloud Corridor."

"Okay."

The two turned into streams of light and flew quickly out of the mountain gate.
