

Towers 141

Chapter 141: The Free Liu Yan

The Free Liu Yan

Afternoon.

Liu Yan returned to his villa.

It was located in the sub-prosperous area of Lighthouse College.

Although it wasn't the most prosperous area, every inch of the three and a half stories was extremely expensive. After all, it took the ancestors a lot of hardship and resources to cultivate it.

And for the sub-prosperous area of Lighthouse Academy, every inch of land was worth a lot of money.

Liu Yan inserted the key card and entered the villa.

The first thing he saw was a simple and comfortable decorative style, giving off a technological vibe.

After a rough inspection, the place wasn't small. There were three upper stories and two lower stories. In addition, it felt high-tech. Well equipped with all sorts of smart devices, all kinds of functionalities were available.

Following that, Liu Yan took a rest in the villa and enjoyed the rare peace.

At the same time, he informed the three women of the address so they could gather over for dinner after they finished their studies and training missions in the academy.

When it was almost dusk, the three women arrived at Liu Yan's villa one after another.

When they saw the new villa that Liu Yan had obtained, the three women were a little surprised.

Chu long and Liu Yan were both ordinary people and neighbours. Their living environment was relatively simple and crude. Never had they lived in such a villa before. Chu Long was immediately a little surprised.

"Brother Liu Yan, you bought a villa? This villa looks great!" Chu Long said in surprise.

Murong Xue asked with some doubt, "You have the qualifications to buy it so quickly? I also planned to buy it, but I have to apply for the qualifications to buy it. The vice principal has already arranged for people to help me buy it."

Murong Xue was originally from a large family background, so she did not lack money at all. She could also afford to buy a villa.

However, the houses within the lighthouse academy were not something that could be bought just because they had money. They also needed the qualifications to buy it.

It was very difficult for ordinary students to apply for the qualifications to buy it. They had to meet certain conditions before they could buy it.

This also meant that if one wanted to own a house or even a villa within the lighthouse academy, just having money was not enough. One had to have the corresponding capability or status.

However, as an important student of the combat institute, Murong Xue naturally had the qualifications. It was just that she had to go through some procedures.

However, Luo Qingcheng knew something and smiled, "I'm afraid this villa didn't cost a single cent, right?"

Hearing this, Chu Long and Murong Xue looked at Luo Qingcheng and Liu Yan with some doubts.

Seeing this, Liu Yan also nodded slightly and directly admitted, "Not bad, it was vice principal Ye who gave it to me today. In addition, he also gave me a luxury car."

"So comfortable? That's good, then I won't buy it too. Anyway, I won't be staying on the third and a half floor for too long. You have quite a number of rooms, I'll just stay here!" Murong Xue said straightforwardly.

Liu Yan was a little speechless when he saw that Murong Xue didn't treat him as an outsider at all. This woman really didn't care about these things.

However, since Murong Xue didn't care, Liu Yan naturally didn't care either.

"Alright, then Luo Qingcheng and Chu Long will move here too. This place is better than your student dormitory. It will be easier to take care of each other too." Liu Yan nodded his head and said.

"Alright, I have never lived in a villa before!" Chu Long's face was filled with joy as she pulled Murong Xue along and started strolling around the villa.

Meanwhile, Luo Qingcheng's face was slightly red. The things that had happened between her and Liu Yan previously and now that they were living together, didn't that mean...

After that, the few of them rested for a while and went to buy some ingredients together. Then, they cooked some delicious meals together.

After eating, they went off to their own business.

Although it was relatively more comfortable in the lighthouse academy on the third and a half floor, they were not idle.

Each of them had a lot of learning and training tasks.

Especially since they were key students of the academy, the learning and training tasks assigned to them were even heavier. The academy allocated more resources to these key students expecting them to make serious preparations before charging to the higher floor of the tower. This would also bring a certain return to the upper house of Lighthouse Academy and the entire human race.

Bored after seeing that the few girls were all busy with their own matters, Liu Yan also went to read the few basic books on commanding and team combat that vice principal Ye had given him today.

After reading for a while, Liu Yan also had some insights.

Previously, because Liu Yan's individual strength was stronger, he didn't care about these things at all. Acting alone didn't matter at all.

If he could win, he would fight. If he couldn't, he would run. In any case, his strength was both strong and rapid in growth. Even if he couldn't win, he would be able to win sooner or later.

After all, the speed at which Liu Yan's strength increased was extremely terrifying.

However, this was only for Liu Yan. The other awakened ones weren't like this. Not every awakened had Liu Yan's extremely strong strength. At the same time, he wasn't weak in any specific aspects and didn't have any weaknesses at all.

The awakened ones would only be able to combine their strength together if they worked together as a team. They would use their strengths and avoid their weaknesses. They would help each other and rely on each other to display even more powerful strength.

Liu Yan did not need it himself, but he might need to command others in the future. Therefore, he studied more seriously. In any case, he only studied one day a week, so it did not take up a large proportion.

After studying for a while, by the time he finished, the sky was already completely dark.

Liu Yan went to check on the other three girls. They were almost done with their studies and were preparing to rest.

The three girls had all chosen their favourite rooms. Anyway, there were seven or eight empty rooms in the villa, so it was more than enough.

Liu Yan saw that it was almost time, so he fumbled his way into Luo Qingcheng's room.

Luo Qingcheng had just taken a shower when she noticed Liu Yan's arrival. Her face turned slightly red as she whispered, "Why are you here? Aren't you afraid of being discovered by them..."

"It's fine. Both of them are resting. It's not a big deal to be discovered anyway." Liu Yan said he went up for a hug.

It was a villa after all and the soundproofing was excellent. The movements of Liu Yan and Luo Qingcheng did not affect the other two girls in the slightest.

The next morning, the three girls woke up early to have breakfast and went to their respective academies. Their learning and training tasks were very heavy and each academy also set a time for them to report in the morning. The requirements were extremely strict.

On the other hand, there was Liu Yan. The academy did not have any requirements for him. He only had to go to the four academies for the first four days of the week and report to the principal for the next three days.

Liu Yan was considered an exception among all the new students, he was extremely free.

After finishing his breakfast lazily, Liu Yan also drove his car to the academy of the day, the Combat Technique Academy.

Liu Yan was still extremely looking forward to the Combat Technique Academy. He heard that the Combat Technique Academy had many powerful combat techniques.

Unlike other awakened ones where learning a new combat technique would require a lot of time and energy, Liu Yan had the divine extraction. He could learn anything instantaneously.

Liu Yan could not help but look forward to it. Would he be able to obtain any amazing battle results in the Combat Techniques Academy today?

Currently, Liu Yan had a lot of skills on him, almost in all aspects.

What he lacked was undoubtedly the assassin's skill. He had the powerful Night Ranger class, the powerful critical strike ability, and the s-ranked weapon, night edge. However, for the assassin's skill, Liu Yan only had a c-ranked skill, backstab. There was no doubt he was lacking in the assassin's skill.

Chapter 142: A Big Gift

A Big Gift

In the parking lot of the Combat Techniques Academy, Liu Yan alighted from his luxurious sports car.

Looking around, he saw that the Combat Techniques Academy had a large number of students. The overall scale of the academy was much larger, and its grandeur was magnificent.

The Command Academy from before was filled with a mysterious feeling, while the buildings were more complex and mysterious.

However, the Combat Techniques Academy was different. The architectural style was simple, but it was grand and domineering, filled with spirit.

After all, it was the academy with the largest number of students out of the four great academies of the Lighthouse Academy. Its scale was huge, and it occupied a vast area.

Compared to the quietness of the command academy, the Combat Techniques Academy was much noisier.

On a few training grounds in the distance, a large number of academies were carrying out various types of training.

There were all sorts of combat techniques, endurance training, and combat training.

Even though they were so far away, the roars from the training could still be clearly heard.

"Training is really tiring. These people must have put in a lot of sweat in order to display their strength." Liu Yan sighed.

Then, Liu Yan stopped paying attention and walked toward the vice principal's office.

After all, this had nothing to do with Liu Yan. Liu Yan didn't need too much training. He could quickly increase his strength through divine extraction.

Compared to the rapid increase in strength brought about by the divine extraction, Liu Yan did not think much of this small increase in strength after training.

Arriving at the vice principal's office, Liu Yan knocked on the door and entered.

At this moment, Shi Tian was reprimanding a few of the academies.

Compared to Shi Tian's usual carefree and forthright personality, he had a serious look on his face at this moment.

Shi Tian looked at the few students in front of him, his face flushed red. He did not hold back as he scolded, "All of you are old students. You have been in my Combat Techniques Academy for a few years. Your strength has risen so slowly and you want to enter the higher levels of the tower? If you guys go, you will be sending yourselves to your deaths. If you go, you will also be embarrassing our Combat Techniques Academy. If you guys are like this, you might as well not go. You can just go back home and farm!"

The few old students being scolded dared not to raise their heads and remained silent.

Shi Tian, who was scolding them, saw Liu Yan's figure at the door. His expression changed and his face was filled with joy.

"Alright, alright, you guys, go back and train well. Remember, if you don't have the talent, you have to work twice as hard. If you can't work twice as hard, you have to work three or four times as hard. As long as you don't die from training, you have to train hard. Leave, leave, don't stand in the way!" Shi Tian waved his hand and said.

The few students immediately left as if pardoned.

At this time, Shi Tian came in front of Liu Yan with a smile on his face and said politely, "Liu Yan, you're here. How's your new life these days? What have you been training recently?"

"I haven't been training," Liu Yan said casually.

Shi Tian was stunned, but he didn't care. He smiled and said, "That's normal. For a genius like you, usual trainings might not lead to much improvement. It's good to train less, so you can relax and enjoy your life!"

The few academies that had just walked out of the door heard Shi Tian's sudden change in expression and words. They were taken aback and looked at Liu Yan with envy.

It was good to be talented. Not only did he avoid scoldings from the vice principal, he even got praised for not training!

However, these few students also understood that there was nothing they could do. They were not as talented. They could only leave helplessly.

Shi Tian politely pulled Liu Yan to sit down in the office and started chatting.

"Liu Yan, I have great trust in your strength. You must be extremely powerful. However, are there any areas that you are lacking in? I can help you to improve." Shi Tian smiled and said.

Liu Yan thought for a while and nodded slightly, "Assassin's job skill. There is nothing else that I am lacking in."

“That’s easy.” Shi Tian smiled and said, “I’ll give you a high-level skill, and an A-ranked Assassin’s skill. Learn it well, and tell me if you need anything later.”

Hearing that, Liu Yan was a little surprised. Shi Tian was so rich, giving him an A-ranked skill right away.

An A-ranked skill was already extremely rare, and its value was extremely expensive.

Furthermore, Liu Yan had the divine extraction. As long as he obtained an A-ranked skill book, he would be able to directly level up to S-rank. This would greatly increase Liu Yan’s combat power.

Immediately after, Liu Yan hesitated for a moment before asking, “Can I have a few more? One isn’t enough.”

Shi Tian was stunned when he heard this, and his expression immediately became a little awkward.

A-ranked skill books were extremely rare and expensive.

Even if he was the vice principal of the Combat Techniques Academy, it would still take a lot of time to create an A-ranked skill book.

For normal students, even if they were geniuses with great talent, it would already be good enough if they were able to obtain a C-ranked skill. A B-ranked skill was already their peak. He immediately offering Liu Yan an A-ranked skill book was good enough, but he did not expect Liu Yan to be discontented.

Shi Tian’s expression suddenly became slightly serious. “Liu Yan, an A-ranked skill book is already very good, very rare. I have already used a lot of authority to give it to you. Also, it’s not that I don’t want to give it to you. Learning a skill takes a very long time. I know that you have great talent. You may be able to learn a skill faster than normal people, but this is an A-ranked skill. This will take you some time to learn. You can’t bite off more than you can chew. You should choose a powerful A-rank skill and learn it well first.”

According to Shi Tian’s experience, even a genius student would need about a week to learn a C-ranked skill.

To learn a B-ranked skill, one would need about a month to master it.

As for an A-ranked skill, it would take at least three months.

The higher the level of the skill, the more complicated it would be, and the more difficult it would be to learn.

As for higher-levelled skills, many of the awakened ones might not be able to learn them in their entire lives.

And these were only the initial stages of mastery.

If one wanted to use them in actual combat, one would need at least three times the time to master them.

This way, the time required would be much, much longer.

Shi Tian had given Liu Yan an A-rank skill when Liu Yan first arrived because he had taken into consideration that Liu Yan's talent was very good. Liu Yan might have the opportunity to learn an A-ranked skill in a short amount of time. He did not expect Liu Yan to be so greedy, unsatisfied with one A-ranked skill and wanting more.

When Liu Yan heard this, he understood Shi Tian's concerns. Shi Tian was worried Liu Yan might learn too many skills and end up not being able to master any of them.

Shi Tian was hoping that Liu Yan would learn a skill well first, and then learn more.

However, Liu Yan had the divine extraction, so there was no need for him to worry.

Thinking of this, Liu Yan grinned, he smiled and said, "Hey, don't worry, vice principal Shi. I learn skills very quickly. How about this, if I can master this new A-rank skill by the time I come over next week, can you give me some more good skills?"

As Liu Yan said this, he looked at Shi Tian with anticipation.

Hearing this, Shi Tian was instantly stunned.

Master an A-ranked skill in a week? How was this possible?

Not to mention mastering an A-ranked skill, a genius might not even be able to understand the skill in a week.

Without thinking, Shi Tian said, "Alright, if you can really do it next week, I will give you a big gift. I guarantee that you will be satisfied!"

Chapter 143: Dance of the Fire Sickle

Dance of the Fire Sickle

Hearing this, Liu Yan appeared composed, but deep down, he was overjoyed.

Putting A-ranked skills aside, even an S-ranked skill would not take a week. Liu Yan only needed a day to master it.

He did not tell Shi Tian directly because he did not want to be too exaggerated and arouse suspicion.

A week's time to master was something impossible for others, but for Liu Yan, it was already a very, very long time.

"Alright, then it's settled!" Liu Yan smiled.

After that, Liu Yan and Shi Tian discussed some experience on how to use battle techniques in actual combat and left.

Shi Tian watched as Liu Yan took his departure and was secretly surprised.

He originally wanted to teach Liu Yan how to use battle techniques better in actual combat. But after chatting for a while, he was surprised to find that Liu Yan had a lot of actual combat experience. He also seemed to be experienced in various combat techniques.

This caused his original teachings to turn into discussions.

Shi Tian was even more surprised to find that Liu Yan's understanding of some types of combat techniques was not even above his.

For example, when it came to the use of speed-type combat techniques, Liu Yan was more experienced than him. This really surprised Shi Tian.

"As expected of a once-in-a-century genius. He can't be measured by the standards of an ordinary person. I believe it won't take long for an expert to be born from our lighthouse academy." Shi Tian sighed slightly.

At the same time, Shi Tian couldn't help feeling a little expectant about the number of A-ranked skills that Liu Yan had just said he could master in a week.

Previously, Shi Tian had thought that Liu Yan was boasting and being naive. However, after the discussion just now, Shi Tian's view of Liu Yan changed.

Shi Tian could not help but be somewhat expectant of whether Liu Yan could really do it.

If he could really master an A-ranked skill within a week, then he would once again break the academy's record.

..

After Liu Yan left the office of the Combat Techniques Academy's vice principal, Shi Tian, he headed straight to the Combat Techniques Collection Hall.

The authority of the skill book that Shi Tian had given him had already been entered into the smart wristband. As long as Liu Yan went to the Combat Techniques Collection Hall, he would be able to choose to receive an A-ranked assassin class skill.

Very quickly, Liu Yan followed the map in the smart wristband and arrived at his destination, the Combat Techniques Collection Hall.

The Combat Techniques Collection Hall was somewhat similar to the libraries in the outside world. However, the scale was much larger, and the security measures were also very good.

After all, this was an important resource of the academy. It couldn't allow others to easily steal the combat techniques within it.

The awakened ones would need to spend a lot of resources and time to create any combat technique skill book.

Therefore, any combat technique skill book was extremely crucial. After all, it was a treasure that could allow the awakened ones to learn new skills.

Liu Yan went to the front desk and submitted his smart wristband for verification. On the screen in front of him, a few A-ranked assassin class skills appeared.

There were many combat skills in the Combat Techniques Collection Hall, but A-ranked skills were extremely rare. Even for lighthouse academy, they were extremely rare treasures.

In addition, it was an assassin-type A-ranked skill, so there weren't many choices left.

Liu Yan looked over one by one, and finally, his gaze stopped on a skill.

[Fire Sickle Triple Stab]

Level: A-ranked

Effect: With a swing of a dagger or sickle, three consecutive stabs can be executed in an instant. All three stabs can deal critical damage, and the damage bonus is: 20% , 30% , 40%!

Currently, what Liu Yan lacked the most was an assassin-type high explosive skill.

After all, Liu Yan currently had the Night Ranger's high explosive skill. In addition, he also had the powerful S-ranked weapon, Night Edge.

However, for assassin-type attack skill, he only had a C-ranked backstab.

In this aspect, Liu Yan undoubtedly needed to strengthen himself.

The Fire Sickle Triple Stab in front of him was undoubtedly pure assassin-type high explosive skill. It was extremely suitable for the current Liu Yan.

For the rest of the assassin A-ranked skills, although many of them were very powerful, they were more or less related to movements or concealments.

Liu Yan had the S-ranked skill, Sound Speed, as well as the A-ranked skill, Shadow Cloak, and the A-ranked skill, Aura Concealment. These aspects were hence not very crucial for him. The Fire Sickle Triple Stab was undoubtedly the most suitable for the current Liu Yan.

Following which, Liu Yan immediately chose to exchange for Fire Sickle Triple Stab.

The number of skill exchanges in the smart wristband disappeared. The staff member took out a skill book and handed it to Liu Yan.

Meanwhile, Liu Yan also saw the option for the Fire Sickle Triple Stab disappear on the display screen.

It was very obvious that in the entire Combat Technique Collection Hall, there was only this sole Fire Sickle Triple Stab skill book. After Liu Yan exchanged for it and took it away, no one else would be able to obtain it.

This was also the reason why skill books were rare. After spending a large amount of resources and time for an expert to produce it, there was only one chance to use it.

There were also some skill books that could be used repeatedly and by many people, but those were only low-level skills.

High-level skills could not be made into a permanent skill book at the moment.

Especially when the skill book reached A-ranked, it was basically a top-tier skill book in the Combat Technique Collection Hall. It was said to cost several top-tier experts a lot of time to make one skill book, so it was naturally extremely rare.

Liu Yan sized up the skill book of the Fire Sickle Triple Stab in front of him. Its entire body was purple in colour, and its size was half the size of a human. Its thickness was around thirty to forty li, and it was extremely large.

However, in his hand, it was extremely light, as if it was air. It was extremely magical.

Liu Yan took the skill book of the Fire Sickle Triple Stab and returned to his sports car. Then, he directly used his SSS-ranked talent, divine extraction.

White light enveloped the skill book and a notification appeared in front of Liu Yan.

[Divine extraction of Fire Sickle Triple Stab skill book (A-ranked) successful. Congratulations on obtaining Fire Sickle Dance (S-ranked)!]

At the same time when the system notification sounded, the skill book in Liu Yan's hand had also disappeared, turning into a ray of light and entering Liu Yan's body.

Liu Yan suddenly felt that he had an additional skill, Fire Sickle Dance.

This skill seems to be innate to him, extremely familiar, and can be used skillfully at hand.

It was divine extraction after all. Liu Yan was extremely happy that he had learned the skill immediately.

Following which, Liu Yan also started to check.

Liu Yan had quite a number of A-ranked skills, but even Liu Yan did not have many S-ranked skills. Any S-ranked skill was an extremely powerful existence.

1

[Fire Sickle Dance]

Level: S

Effect: Swings a sickle or dagger, infuses with fire attribute power, and instantly completes five consecutive stabs (can be increased), five consecutive stabs and the damage bonus is: 20%, 40%, 60%, 80%, 100%. The last hit will definitely trigger a critical hit!

Seeing the effect of the new S-ranked skill, Fire Sickle Dance, Liu Yan's face was instantly filled with ecstasy.

From the original three consecutive stabs, it became five consecutive stabs. Moreover, the bonus increases each time by quite a bit, and on the last hit, it even reached a 100% bonus.

And the most surprising thing was that the last hit would definitely trigger a critical hit. It was truly abnormal.

And Liu Yan was even more clear that these five stabs were completed in an instant, completed in a second. Compared to the Liu Yan from before, the overall explosive power has increased by ten times in an instant!

In addition, it could also add fire attribute power. The more fire attribute power that was injected into it, the stronger the explosive power would be.

Finally, this skill could continue to evolve and grow. In the future, there might be more stabs and bonuses without a definite cap!

Liu Yan was instantly extremely satisfied. All of a sudden, he had an extremely terrifying high explosive skill. His battle prowess had increased by a large margin.

Liu Yan truly gained a lot today.

Chapter 144: A Set of A-ranked Equipment

A Set of A-ranked Equipment

After obtaining the Fire Sickle Dance, Liu Yan left the Combat Technique Academy with a full harvest.

To train as hard as the other freshmen, Liu Yan had no need for this.

After training hard for a week, the increase in his attributes might not be as much as what Liu Yan had obtained from randomly extracting a fierce beast's corpse.

As for learning and familiarizing himself with battle techniques, Liu Yan had no need to do so.

Liu Yan was very familiar with all the skills in his body, so he could masterfully perform them.

He only needed to use them more in actual combat later on to accumulate actual combat experience. Training was completely meaningless to Liu Yan.

After returning to the villa, the other three girls had yet to return. They were all busy with their own tasks.

Every student of Lighthouse Academy was extremely busy, not to mention the three key students. Their training missions were even busier.

Every new student was clear that their capability wasn't only affecting their future, but also determined their life and death.

Thus, those with great strength did their utmost to continue to raise their strength, wanting to head to the higher levels of the tower, head to a wider world, and become an expert.

Those with mediocre strength would also keep their heads down and chase after them.

Even if their talent was mediocre, they still had the chance to become an expert through hard work. At most, they would just become an expert later in life.

And they were also very clear that if they were to lower their guard now, it would very likely lead to their deaths in the future. Every minute and every second now was extremely crucial.

Liu Yan waited until it was late in the day before the three girls returned to the villa exhausted.

"I'm so tired. I didn't expect that the Command Academy needs to read so many books and learn so much knowledge. To be a leader, there are so many things to consider." Luo Qingcheng complained.

As she complained, she ate in large mouthfuls. It was obvious that she was very tired today.

Today could be considered the first day of study and training for the three girls. Yesterday, they just entered the academy and familiarized themselves with the academy.

Chu Long's face was full of agreement, she said, "Being a support also requires a lot of learning. In the past, I thought that I only needed to stand at the back and properly use my skill to help others. I didn't expect that there would be so many details. Training is also very tiring."

Compared to Chu Long and Luo Qingcheng, Murong Xue was undoubtedly the one who was the most tired.

The training in the Combat Technique Academy was the most tiring. In addition, Murong Xue was strong and was a key student. The Combat Technique Academy took care of her even more.

Besides better resources and guidance, it was also more rigorous training.

At this moment, Murong Xue's face was full of fatigue and her whole body was covered in sweat.

It was hard for Liu Yan to imagine that with her strong physique, what kind of cruel devilish training had she gone through that made her so tired.

Murong Xue casually ate two mouthfuls, then she got up tiredly and said, "I can't take it anymore. I'm going to take a shower and go to sleep. I still have to continue training tomorrow. But fortunately, it's worth the effort. I feel that my strength is improving!"

As Murong Xue spoke, she quickly left.

After Luo Qingcheng and Chu Long finished eating, they also left to rest.

Seeing this, Liu Yan also smiled bitterly. The three girls were really busy.

However, this was also a good thing. Being busy was a good thing for them.

Being busy and feeling tired meant that they were moving forward. Each of them was improving themselves.

Only by working hard now could they increase their strength in all aspects. In the future, they would have a higher chance of survival in the higher levels of the tower.

On the other hand, Liu Yan was more relaxed. As a once-in-a-century genius, the academy gave Liu Yan very good treatment in all aspects, and also gave him a lot of freedom.

Because Liu Yan had the divine extraction, it was extremely convenient for him to increase his strength. Naturally, he didn't need to go through the trouble like them.

However, Liu Yan was also clear that his training in Lighthouse Academy hadn't officially started yet. The four great academies had limited training for Liu Yan. After all, each academy only had one day, so it was very difficult for the various vice principals to arrange training tasks too heavy for Liu Yan. It wasn't good for them to occupy too much of Liu Yan's time.

And Liu Yan's real training would begin at the principal's place.

Liu Yan had learned from his conversation with the two vice-principals yesterday and today that the principal's training might be very tiring, so he had to adjust his state of mind and prepare himself mentally.

After eating dinner, Liu Yan went to rest leisurely.

The next day, Liu Yan went to the Weapons Academy. The Weapons Academy's Ling Feng valued Liu Yan very much, and his attitude was very friendly.

It was rumoured that he was the extremely arrogant vice dean of the Weapons Academy, Ling Feng. When he faced Liu Yan, he spoke quite a lot, and he meticulously taught Liu Yan some knowledge about making weapons and equipment.

When it came to making weapons and equipment, Liu Yan was quite attentive. After all, Liu Yan had the talent of divine extraction.

He could use divine extraction on the basis of those equipments he made to raise its rank.

Upgrading a level would bring about an earth-shaking change to the weapons and equipment. The difference would be huge, and it was a qualitative upgrade.

Through learning, Liu Yan learned that in addition to the method of making weapons and equipment, materials were also very important.

The better the materials, the easier it would be to produce high-level weapons and equipment.

No matter how good the technique was, without the corresponding high-level materials, it was impossible to produce good weapons and equipment. After all, it was hard to cook without rice.

And this aspect was not very difficult for Liu Yan. After all, Liu Yan had the SSS-ranked talent, divine extraction. He could easily obtain many good materials. Liu Yan even discovered that some of the materials stored in his storage ring were extremely rare and even extinct in Lighthouse Academy.

These high-level materials should only be obtainable at the higher levels of the tower. However, Liu Yan obtained them directly from the lower level through divine extraction.

However, in order to avoid being exposed and arousing suspicion, Liu Yan did not reveal this point.

Otherwise, if Ling Feng knew that Liu Yan had many high-level materials in his storage ring, he would probably be extremely shocked.

Liu Yan also wanted to learn how to make weapons and equipment, so that he could use high-level materials to make better weapons and equipment in the future.

He could even use divine extraction to raise its level again.

And from the vice principal of the Weapon Academy, Ling Feng, Liu Yan had also obtained a set of B-ranked equipment.

A set of B-ranked equipment was already extremely expensive. It was obvious how much Ling Feng valued Liu Yan.

Liu Yan was also somewhat grateful to Ling Feng. He thought about contributing to the weapon academy in the future when given an opportunity.

After all, according to Liu Yan's knowledge, the current Weapon Academy lacked talents, and it had been in decline for the past few years.

This set of A-ranked equipment was also extremely rare for the Weapon Academy.

After bidding farewell to Ling Feng, Liu Yan went to the Weapon Academy's treasure room, intending to exchange for a set of A-ranked equipment.

Liu Yan's current equipment was a set of D-ranked equipment, and it was obtained on the first and a half floor of the tower. It had long been unable to keep up with Liu Yan's strength.

Liu Yan could not help but look forward to what kind of improvement a B-ranked equipment would bring him.

Chapter 145: Turin Assassination Set

Turin Assassination Set

Weapon Academy's Treasure Room.

The simple and unadorned treasure room didn't have a gorgeous appearance. In fact, it even looked a little ugly.

In terms of appearance, there was no consideration for any aesthetics at all. It was rather simple and crude.

However, Liu Yan noticed that the structure of the entire treasure room was extremely special, and even extremely precise.

With special materials and special structure, the entire treasure room seemed to be extremely sturdy, capable of withstanding high-level attacks.

Liu Yan sighed inwardly. It was the treasure room of the Weapon Academy after all. It was very similar to the style of the Weapon Academy. It didn't consider aesthetics at all, and only considered practicality.

However, even if it didn't consider aesthetics, because the entire treasure room was incomparably huge, it looked like a huge specially-made metal box from the outside. It still looked incomparably spectacular.

Liu Yan entered and went to the equipment exchange office. He handed in his smart wristband.

The number of exchanges on it disappeared. The staff also let Liu Yan choose the equipment on the display screen.

Liu Yan flipped through the equipment and started searching.

There were many types of B-ranked equipment. Cloth armour, light armour, leather armour, heavy armour, plate armour, and so on.

Equipment of the same level had different characteristics. They had their own strengths and weaknesses.

According to classes, although Liu Yan's strength and vitality attributes were extremely shocking, even if he chose warrior or tank typed equipment, which was heavy armour or plate armour, it wouldn't be a problem.

But heavy armour and plate armour, in the end, mainly added various aspects of defence attributes.

Liu Yan had the S-ranked skill, Sonic Speed. In addition to his high agility and the Night Ranger's extremely nimble movement technique, his entire person was extremely nimble.

As for the defence attribute, Liu Yan did not have much of a need for it. Currently, he had enough of it.

In addition to the fact that Liu Yan was so nimble, it was actually very difficult for him to be hit by his opponent. There was no need for him to further strengthen his defence attribute.

Moreover, in terms of defence, Liu Yan still had an A-ranked skill, Counter Storm. Being able to enter an absolute defence state, his defence would instantly increase several times.

Of the remaining types of equipment, the one that suited Liu Yan the most was undoubtedly leather armour. Leather armour was also the type of equipment that suited assassins and night rangers the most.

Aside from being a B-ranked leather armour equipment, Liu Yan also wanted something that was a whole set, there were not many options left. In the end, there were only three sets of equipment that he could choose from.

In the end, Liu Yan's gaze landed on one of the sets.

[Turin assassin set (B-ranked)]

The various attributes of the equipment were not bad. The reason why Liu Yan was so interested in it was because of the set bonus. It could increase the critical strike rate. Although the increase was very little, only 5%, it was still not bad.

In reality, the other two sets of equipment were not inferior to the Turin assassin set bonus in all aspects. The other equipments even had some active skills, so the set bonus effect was not bad.

However, Liu Yan's strength was already extremely strong, so the additional skills were not of much use to Liu Yan.

On the contrary, the Turin Assassin's set bonus increased the critical strike chance, which was extremely useful to Liu Yan.

Although it was only 5%, that was only for now.

Liu Yan could still use divine extraction to increase his level. He believed that after upgrading the Turin Assassin's set bonus, the critical strike chance would increase by a lot.

The current Liu Yan was very eager to increase the critical strike chance.

Liu Yan's own critical strike chance was 10%, and the S class weapon night edge had a 20% critical strike chance, adding up to 30%. The probability was not low, but it was not high either.

On the other hand, Liu Yan's attack power was very powerful. As long as he triggered a critical strike, he could triple the damage. It was very terrifying.

In addition, he had just obtained the S-ranked skill, Fire Sickle Dance. He could instantly deal multiple bursts of damage, and each burst of damage could be a critical hit.

If the critical hit rate was increased, Liu Yan's combat power would increase several times.

Without a doubt, increasing the critical hit rate was what Liu Yan needed the most at the moment.

"This Turin assassin set," Liu Yan said to the staff.

"Okay, please wait a moment!"

Not long after, a Turin assassin set appeared in Liu Yan's hands.

Being leather armour, even a whole set of equipment was not very heavy.

Liu Yan took the Turin assassin set and returned to his sports car to check it out.

[Turin Assassin's leather armour chest plate]

Level: B

Category: Leather Armor

Effects: Physical Defense + 400, Magic Defense + 500, Agility + 480, Strength + 240

[Turin Assassin's leather armour shoulder plate]

[Turin Assassin's leather armour leg plate]

[Turin Assassin's leather armour boot plate]

..

There were a total of seven pieces of equipment. Although the various bonuses were not much, they were not little either.

When the seven pieces of equipment were added together, the various attributes were already quite a lot.

The most eye-catching part was still the set bonus, which was also the reason why Liu Yan chose this set of equipment.

[Turin Assassin's set bonus]: Increases critical strike chance by 5%, agility by 10%, stance by 10%

Liu Yan used divine extraction on each piece of Turin Assassin's equipment.

White light enveloped each piece of equipment, and notifications appeared in front of Liu Yan.

[Divine Extraction of Turin Assassin's leather chest plate successful (B-ranked) Congratulations on obtaining Turin Assassin's leather chest plate (A-ranked)!]

[Divine Extraction of Turin Assassin's leather armour chest plate successfully (B-ranked) Congratulations on obtaining Turin Assassin's leather armour back plate (A-ranked)!]

[Divine Extraction of Turin Assassin's leather armour shoulder plate successfully (B-ranked) Congratulations on obtaining Turin Assassin's leather armour shoulder plate (A-ranked)!]

..

It did not take long for the seven pieces of equipment in front of Liu Yan to be completely new.

The pitch-black equipment did not even reflect any light.

After all, it was a leather armour set that suited assassins, and it was extremely suitable for the job class of an assassin.

It gave up the flashy appearance and focused on practicality.

With this kind of equipment, there was no need to deliberately hide during night operations. It would probably have a good hiding effect.

Liu Yan immediately checked the effects of the new equipment.

[Turin Assassin's leather chest plate]

Level: B

1

Class: Leather Armor

Effect: Physical Defense + 800, Magic Defense + 1,000, Agility + 980, Strength + 340

[Turin Assassin's leather shoulder plate]

[Turin Assassin's leather leg plate]

[Turin Assassin's leather boots]

..

The attributes of a single piece of equipment had increased a lot. Now, with a Turin assassin set and seven pieces of equipment, the combination of attributes was already very impressive.

Liu Yan's various attributes were already extremely exaggerated to begin with. After such an increase, he had directly increased his attributes by nearly half.

A few of his attributes had even exceeded 10,000. It was extremely exaggerated.

He was clearly only level 19, but his terrifying various attributes and the addition of his equipment had already exceeded 10,000.

If Liu Yan remembered correctly, even if an ordinary awakened one reached level 40, it would be impossible for them to achieve such a feat.

This also meant that even if Liu Yan did not rely on any powerful skill, just with his equipment and his terrifying attributes, his combat power had already surpassed that of a normal level 40 awakened one. It was extremely exaggerated.

Liu Yan was even clearer that other than the various attribute points that the Turin assassination set bonus provided, the most eye-catching effect was still the set bonus.

Liu Yan's face was filled with anticipation as he quickly checked the set bonus of the Turin assassination set.

Chapter 146: Wind-Chasing Purple-Feathered Falcon

Wind-Chasing Purple-Feathered Falcon

[Turin's assassination set bonus]: Increases critical strike chance by 20%, agility by 20%, and movement speed by 20%

Liu Yan looked at the Turin's assassination set bonus in front of him, and his face immediately lit up with joy.

As expected, after levelling up through divine extraction, its attributes had increased a lot.

Its critical strike chance had reached 20%.

A mere 20% critical strike chance was only relatively strong. Combine it with Liu Yan's own 10% critical strike chance and his S-ranked weapon Night Edge's 20% critical strike chance.

With the addition of the two, Liu Yan's critical strike chance had reached a terrifying 50%.

Basically, he could critically strike once every two strikes, so the probability was much higher.

Triggering a critical strike would cause three times the damage. Coupled with Liu Yan's extremely high attack, Liu Yan's explosive strike was already extremely terrifying.

If he used the S-ranked Flame Sickle Dance again, he could instantly unleash five attacks.

Liu Yan didn't even dare to imagine such an explosive strike.

Liu Yan even felt that if he met the ancient Dragon Crocodile now, with the many buffs, he would probably be able to instantly kill the ancient dragon crocodile with the flame sickle dance.

Such explosive power was truly terrifying.

Liu Yan took off his D-ranked Wind Whisperer set and changed into the Turin assassin leather armour set.

After putting it on, Liu Yan could clearly feel that his various attributes had increased by quite a bit.

The strength in his body had increased by quite a bit, and the increase in agility was even more exaggerated. Liu Yan felt that his speed and agility had increased by a large margin.

It was still an A-ranked equipment set after all. Although it was only an A-ranked equipment, not S-ranked yet.

However, it was still a set equipment after all. It was not a single piece of equipment, but a complete set with seven pieces of equipment.

When the seven pieces of equipment were combined, their strength was not any weaker than a S-ranked equipment. The critical hit rate was as high as the S-ranked weapon, Night Edge. Both were 20%.

The attribute bonuses were even more ridiculous when combined. It was not weaker than a S-ranked equipment at all.

The only thing that made Liu Yan feel a little regretful was that there was no powerful God's effect.

Liu Yan guessed that the God's effect could only be obtained after the extraction had reached s-rank.

However, Liu Yan did not care too much. After all, the others needed at least an SS-ranked weapon or equipment in order to have the God's effect. For him to have the God's effect on an S-ranked equipment was already very powerful.

Besides being powerful, the Turin assassination set was also a high-level leather armour set. Liu Yan felt extremely comfortable wearing it. There was no inconvenience at all. It was still very convenient for him to move around.

Liu Yan was satisfied. He drove back in his sports car.

On Thursday, Liu Yan went to the Logistics Academy as usual.

However, the vice principal of the Logistics Academy, Yu Zhitong, happened to have something on and had left the academy.

However, Yu Zhitong had asked her assistant to pass some things to Liu Yan.

First of all, there were a few books on logistics.

Liu Yan was not likely to work in logistics, so he did not need to study too carefully. He only needed to know a little about it. He might be able to use it sometimes in the future.

In addition to the few books, Yu Zhitong gave Liu Yan a flying pet.

A pet for entering the academy? Liu Yan was a little surprised. Looking at the falcon-liked pet in front of him, Liu Yan was also a little curious, so he quickly checked it.

[Wind-Chasing Purple Feather Falcon]

Potential: B-ranked

Level: 5

Description: Functional Pet. Extremely fast and extremely stealthy. It can be used to deliver letters or supplies. (note: It is rumoured that the Wind-Chasing Purple Feather Falcon has a trace of Phoenix bloodline. If it really awakens, it will be a powerful battle beast.)

Looking at the Wind-Chasing Purple Feather Falcon's introduction, Liu Yan's face was full of joy.

Although it was a functional pet and it did not have much combat power.

However, the current Liu Yan did not lack combat power. In terms of pets, he also had the Fire and Ice Dragon Wolf. Its rank was SS, and its combat power was very good.

Currently, there were not many fierce beasts that could help Liu Yan in terms of combat power.

1

Although the Wind-Chasing Purple-Feathered Falcon in front of him was a functional pet, its potential was not low. It had also reached B-rank, and its speed was extremely fast. It was very convenient to use it to send messages.

When they were in the world of the tower, it was not convenient to communicate. Previously, when Liu Yan moved separately from Murong Xue and Chu Long, they could not be too far apart because of this. Midway, they had to let the Shadow Wolf run on both sides to send messages, it was indeed a little troublesome.

And with this wind chasing purple feather falcon, it was much more convenient.

In addition, Liu Yan also noticed that the remarks said that this Wind-Chasing Purple Feather Falcon contained a trace of Phoenix bloodline. Liu Yan could not help but be somewhat expectant. When he could come into contact with related treasures or fierce beasts, he wanted to see if he could activate the wind chasing Purple Feather Falcon's Phoenix bloodline.

If it was successfully activated, perhaps the Wind-Chasing Purple-Feathered Falcon would grow and evolve into an extremely powerful fierce beast.

Liu Yan stepped forward and touched the Wind-Chasing Purple-Feathered Falcon. The Wind-Chasing Purple Feather Falcon looked at Liu Yan curiously, somewhat guarded.

Seeing this, Liu Yan couldn't help but be somewhat satisfied.

The Wind-Chasing Purple Feather Falcon was still in its juvenile state. It was pretty good to be guarded at such a young age.

Then, Liu Yan took out some materials and signed a contract with the Wind-Chasing Purple Feather Falcon.

The Purple Hexagram array appeared. The Wind-Chasing Purple Feather Falcon looked at it curiously.

Liu Yan came to the Wind-Chasing Purple Feather Falcon and asked if it was willing to sign a contract with him.

The Wind-Chasing Purple Feather Falcon looked up at Liu Yan. After hesitating for a while, it agreed.

After all, it was a pet nurtured by the Logistics Academy. Unlike the fierce beast outside, it was still very easy to sign a contract.

The main reason was that the Wind-Chasing Purple Feather Falcon was relatively young. The younger the fierce beast was, the easier it was to sign a contract.

When the fierce beast grew up and had its own ideas, it was basically difficult to sign a contract with a human.

Immediately, six lights enveloped Liu Yan and the Wind-Chasing Purple Feather Falcon.

After signing the contract, Liu Yan and the Wind-Chasing Purple Feather Falcon were instantly connected by their souls. He could feel some of the thoughts in the Wind-Chasing Purple Feather Falcon's mind.

At this time, the Wind-Chasing Purple Feather Falcon also felt a connection with Liu Yan and inexplicably became closer to Liu Yan.

Liu Yan touched the forehead of the Wind-Chasing Purple Feather Falcon. The Wind-Chasing Purple Feather Falcon rubbed against Liu Yan with a face full of intimacy. Then, it flew onto Liu Yan's shoulder and stood on Liu Yan's shoulder.

Currently, the Wind-Chasing Purple Feather Falcon was still in its juvenile state. It was relatively small, only the size of two hands.

When it grew up, it would be half the size of a human.

As for what would happen if the trace of Phoenix bloodline in its bloodline was activated, Liu Yan didn't know.

Bringing the Wind-Chasing Purple Feather Falcon along, Liu Yan returned to his villa.

Unexpectedly, he had already obtained some pretty good things from the four vice principals on the first four days.

The four vice principals placed great importance on a once-in-a-century genius like Liu Yan. They gave him all sorts of gifts.

Over at the command academy, Liu Yan had obtained a villa and a luxurious car. It was undoubtedly much more comfortable and convenient for him to live and move around in the Lighthouse Academy.

From the Combat Technique Academy, he had obtained an A-ranked battle skill. After Liu Yan used divine extraction, it had become a powerful S-ranked skill.

From the Weapon Academy, he had obtained a B-ranked equipment set, and after using divine extraction, it had become a powerful A-ranked set.

A S-ranked skill and an A-ranked set. With the addition of this, Liu Yan's strength had once again received a large increase.

Although the Wind-Chasing Purple-Feathered Falcon obtained from the Logistics Academy did not have much combat strength, Liu Yan liked it very much. It would have a certain effect in the future, not to mention the possibility of activating a trace of the Phoenix bloodline.

Chapter 147: The Wrong Person

The Wrong Person

In the villa.

Liu Yan and the three women had dinner and were resting.

Today, the three women finally had some time. They sat in the living room and chatted idly, talking about the three days of academy life.

“Why do I feel that cultivating in Lighthouse Academy is even more tiring than training in the world of the tower? Every day, other than sleeping, I’m studying and cultivating.” Chu Long stuck out her tongue and said.

These few days of school life were indeed a little rushed.

Chu Long originally thought that the Logistics Academy was not very important and would be more relaxed.

In the end, it was the exact opposite. The Logistics Academy was responsible for logistics and support work. It was also extremely important and involved many aspects of work.

Naturally, in the Logistics Academy, there were many things to study and train.

Especially for Chu Long, with such a good talent, an S-ranked talent, Holy Healing, in addition to the rare job of Holy Priest in the class transition. She naturally received a lot of training from the Logistics Academy. Compared to the other students in the logistics academy, her training load was even heavier, almost suffocating Chu Long.

At this moment, Luo Qingcheng’s expression was relatively calm. As an important student of the Command Academy, she was also extremely busy.

However, this was the life she wanted. Only then would she have the chance to go to the higher levels of the tower to look for her sister.

Luo Qingcheng’s expression was relatively calm as she said, “The amount of training is very heavy. However, only by improving your abilities in all aspects of the Lighthouse Academy will you be able to survive the subsequent experiences in the world of the tower. In the future, you will also be able to break through to the higher levels of the tower.”

Murong Xue, who was exhausted at the side, nodded her head and said, “That’s right, sweat more now, and bleed less in the future.”

As one of the key academies of the Battle Technique Academy, Murong Xue’s learning and training was relatively simple. She kept learning battle techniques and training to show her strength.

All she could feel was exhaustion.

In order to increase her strength, not to mention catching up to Liu Yan, even if it was to close the gap between her and Liu Yan, she had been training hard these few days.

“I know, I’m just complaining.” Chu Long smiled.

She also understood this principle. Although Chu Long did not have any big ambitions, she still wanted to go to the higher levels of the tower and stay by Liu Yan’s side.

Only by increasing her strength would it be useful to Liu Yan. Otherwise, following Liu Yan would only be a burden, and Chu Long would not be willing to continue following Liu Yan.

Liu Yan saw that although the three women were busy during this period of time, their gains were also quite good. He nodded slightly and praised, "Not bad. The three of you just need to properly increase your strength."

When the three women heard this, they looked at Liu Yan with some disdain.

They had all noticed how idle Liu Yan had been these few days.

It would be a lie to say that they were not envious.

When Liu Yan saw this, he smiled but did not say anything.

These few days, although Liu Yan was relatively free, his strength had increased by quite a bit.

With the generous treatment from the vice principals and the fact that Liu Yan had the SSS grade talent, Divine Extraction, Liu Yan's strength had increased by quite a bit these few days.

Normally, the stronger one was, the harder it was to increase one's strength. However, because Liu Yan had the SSS grade talent, Divine Extraction, it was the complete opposite. The speed at which his strength grew did not decrease by any bit, and even showed signs of increasing.

At this moment, Murong Xue suddenly thought of something, she said, "Liu Yan, you understand you are about to head to the principal's place right? I heard from our academy's vice principal that the principal does not tutor new students easily. The principal might not even tutor one student out of a few batches. However, as long as one is selected, there will be a lot to go through. His training is said to be extremely disgusting. You have to be mentally prepared."

"Is that so?" Liu Yan was a little surprised when he heard this, but he wasn't afraid. He smiled and said, "It just so happens that I've been idle for a few days. I'll see how disgusting the principal's training is tomorrow, and whether or not it can torment me."

Liu Yan knew that his current strength wasn't on the same level as the new students. He was already far ahead of them.

The vice principals probably knew this as well, so they did not arrange too much training for Liu Yan. They knew that the training for ordinary or key new students would not be of much help to Liu Yan. It would not bring much improvement to Liu Yan's strength. On the contrary, it would be a waste of Liu Yan's time.

But the principal was different. Although the vice principal was powerful and had a high status, the gap between him and the principal was huge.

Liu Yan could not help but look forward to the training at the principal's place tomorrow. He wanted to know what it would be like and whether it would help him to continue to improve his strength.

The few of them chatted for a while more, but they were all exhausted so they went back to their rooms to rest.

The three girls were all exhausted. Only Liu Yan was considered to be relatively free.

Liu Yan read some books in his room, studied some books given by the Command Academy and the Logistics Academy, and briefly learned some knowledge.

Seeing that it was almost time, Liu Yan also walked towards Luo Qingcheng's room.

Liu Yan estimated that he would be busy from tomorrow onwards and wouldn't have much time in the future. Naturally, he wanted to "catch up" with Luo Qingcheng tonight.

When he arrived at the door of Luo Qingcheng's room, Liu Yan was just about to knock on the door when he realized that the door of Luo Qingcheng's room wasn't locked. He was a little surprised.

"This woman, she didn't even lock the door. Did she know that I was coming?"

Liu Yan pushed open the door and entered.

The room was pitch black and the lights were completely dark. It was obvious that Luo Qingcheng was resting.

Liu Yan immediately got onto the bed. He touched a body and hugged it.

The other party sensed that Liu Yan had arrived and wanted to break free.

How could Liu Yan let her go? He hugged her directly and covered her mouth. His other hand went towards the sensitive area.

Then, Liu Yan took off her clothes and prepared to get down to business.

However, as soon as he took off her clothes, Liu Yan felt that something was amiss.

Firstly, the clothes inside were not the same as before. Liu Yan felt around for a while before he could untie them.

Secondly, after he untied them, the body inside was not the same.

It seemed to be much plumper than before. The other parts of the body had a lot of muscles. It was not as soft as before.

For a moment, Liu Yan felt a little strange.

Could it be that the Command Academy also practised physical skills? In just a few days, the strength of her body had increased by so much.

At this moment, Liu Yan heard a cry of surprise.

"Liu Yan? Why are you here?"

It was Luo Qingcheng's voice. However, this voice did not come from the figure in Liu Yan's arms, but from the side.

Liu Yan was puzzled.

If Luo Qingcheng was beside him, then who was the woman in his arms?

At this moment, the lights were turned on and the dark room suddenly lit up.

Liu Yan immediately saw the scene in front of him clearly.

Luo Qingcheng was wearing pyjamas on the other side of the bed.

And the woman in Liu Yan's arms who had been stripped naked was actually Murong Xue...

At this moment, Murong Xue with a plump and somewhat exaggerated figure, looked full of embarrassment and anger.

Seeing this, Liu Yan said awkwardly, "Ahem, I've got the wrong person."

Chapter 148: A Trace of the Power of Law

A Trace of the Power of Law

Friday morning.

Liu Yan and the three girls were eating.

The atmosphere today was a little strange. Liu Yan, Murong Xue and Luo Qingcheng were all eating breakfast and were silent the whole time.

Seeing this, Chu Long had a puzzled look on her face.

In the past few days since they entered the upper house of Lighthouse Academy, the few of them had been relatively busy. Busy with their own studies and training, they had less time to gather together.

However, the atmosphere had never been this silent before. The three of them had not say a word in the early morning.

"What's wrong with the three of you? Why aren't you talking?" Chu Long asked with some doubts.

Murong Xue's face was a little embarrassed as she said, "It's fine, it's fine."

"It's fine, you eat your food." Luo Qingcheng also said.

Murong Xue and Luo Qingcheng had a good relationship these few days.

Therefore, Murong Xue went to chat with Luo Qingcheng last night. The chat lasted quite late hence she decided to sleep in Luo Qingcheng's room.

However, Liu Yan came over unexpectedly in the middle of the night. He even got the wrong person and such an embarrassing thing happened...

Luo Qingcheng's expression was also a little awkward at this moment. Obviously, she did not tell Chu Long and Murong Xue about her and Liu Yan. As a result, everything was exposed last night.

At this time, Murong Xue had already finished her breakfast and was ready to leave. When she passed by Liu Yan, her face was a little strange as she said, "Your progress is going quite fast!"

After saying this, Murong Xue rushed out of the door.

Seeing the situation, Chu Long still had a puzzled look on her face as she said, "What does sister Murong Xue mean by this? What progresses fast?"

“Ahem, it has nothing to do with you. Eat your food.” Liu Yan said awkwardly.

What happened last night also made Liu Yan feel a little awkward. However, when he thought of what happened last night, Liu Yan could not help but feel a little surprised.

He had touched Murong Xue before and knew that Murong Xue’s figure was very exaggerated.

However, after seeing it with his own eyes last night, he was still a little shocked.

After breakfast, Liu Yan stopped thinking about these things and left immediately.

Today was Friday, so Liu Yan also needed to go to the principal.

He drove and stopped at the office building. Liu Yan entered the building, located the principal’s office and knocked on the door.

“Come in.” Zhong Yuntian’s voice came.

Liu Yan pushed the door open and entered.

The calm-looking principal Zhong Yuntian raised his head and looked up. When he saw that it was Liu Yan, his face was immediately filled with joy.

“You’re here, Liu Yan. Come here, come here, come here. Come here and sit down.” Zhong Yuntian said with a smile.

When Liu Yan saw this, he was somewhat baffled.

The other vice principals were also this enthusiastic and valued Liu Yan. However, principal Zhong Yuntian also seemed to be genuinely fond.

Liu Yan went forward and sat down in front of the principal.

“How’s your life in the academy these few days? Those vice-principals didn’t make things difficult for you, did they?” Zhong Yuntian said enthusiastically.

“No, the vice principals treat me very well. I’ve been quite used to it these few days.” Liu Yan smiled and said.

“That’s good.”

Principal Zhong Yuntian nodded slightly and said, “If those vice-principals dare to make things difficult for you, tell me. See if I’ll fix them.”

Zhong Yuntian looked like an old grandfather who doted on the younger generation. His face was full of kindness, and he did not have the authoritativeness of a superior at all.

Liu Yan could not help but feel less pressured. He got adjusted to chatting with principal Zhong Yuntian.

After a brief chat, Zhong Yuntian said with a proud look, “Let me tell you, I am a retired veteran. In this life, I have really made many outstanding military achievements. Let me tell you, I have climbed up to the tenth floor of the tower at the highest!”

Liu Yan was a little surprised when he heard this. Every level of the tower was exponentially more dangerous.

Moreover, Liu Yan had only experienced the first three levels of the tower, which was considered a relatively beginner friendly stage.

The fourth level of the tower was where the true danger unfolds.

It was said that once one reached the sixth level of the tower, one would be a hero to mankind.

When one reached the eighth level, one would be an expert.

And to reach the tenth floor of the tower, one would be a top-notch expert of the human race. It was the limit attainable by the human race.

The principal had reached the tenth floor of the tower before?

Liu Yan looked at Zhong Yuntian, who was smiling unseriously, and couldn't help but feel suspicious.

At this moment, Zhong Yuntian said with a slightly regretful expression, "What a pity. It was during the crucial battle on the tenth floor of the tower. In order to protect my comrades, I was heavily injured. From then on, I fell from the top of the pyramid. Because my injuries were too severe, I developed several underlying illnesses. I couldn't go to the front line anymore. I could only take up this management position. I could only be a principal."

Hearing this, Liu Yan's expression was a little strange. Looking at principal Zhong Yuntian's unserious expression, he started to doubt the authenticity of his words.

Principal Zhong Yuntian did not notice Liu Yan's strange expression. He did not know that Liu Yan was doubting the authenticity of his words. Instead, he continued on, "When I see you, it's like seeing myself back then. I'm also a prodigy of a generation, a top-notch genius!"

Liu Yan secretly ridiculed this principal's shamelessness. It was a big lie. After all, Liu Yan had already broken the decade long record. Even if the principal was really a genius back then, he was definitely not as monstrous as Liu Yan was now.

At this time, principal Zhong Yuntian came back to his senses from his memories. When he saw Liu Yan's expression, he immediately guessed that Liu Yan was doubting him.

"Don't doubt me. Everything I said is true," Zhong Yuntian argued.

Liu Yan smiled awkwardly and did not say anything. However, his expression could not be any more obvious. He simply did not believe Zhong Yuntian's words.

Zhong Yuntian opened the door behind the chair. He took out a seemingly ordinary jade tile and placed it on the table. With a mysterious smile, he said, "Your strength now should be enough. Come and feel it."

Hearing this, Liu Yan lowered his head and looked at the jade tile.

At first, Liu Yan didn't think much of it. However, after he carefully felt it, Liu Yan immediately felt the terrifying power within the jade tile.

Liu Yan had never seen such a terrifying power before, whether it was from the golden armoured blue ape or the ancient dragon crocodile he met on the third floor of the tower.

Even after including the few powerful vice principals he met in the upper house of Lighthouse Academy, their auras were completely incomparable in front of this jade tile.

A small piece of jade tile actually concealed such terrifying power?

The scene before his eyes immediately somewhat exceeded Liu Yan's comprehension.

Principal Zhong Yuntian saw the shocked expression on Liu Yan's face and immediately had a smile on his face, he said, "Looks like your strength is indeed good. You can already feel the power within this jade tile. Let me tell you, just a trace of the power of the laws within is already so terrifying. Back when I was at my peak, my entire body was filled with this power of the laws."

"Brat, I admit that your talent is simply a once-in-a-century genius, much better than me back then. However, you must understand that there are always people better than you. You must not be arrogant and complacent. Do you understand?" Zhong Yuntian reprimanded him with a slightly serious expression.

Chapter 149: The Arduous Path of Cultivation

The Arduous Path of Cultivation

Upon hearing this, Liu Yan's face was instantly filled with shock.

This was actually nomological power?

Previously, Liu Yan had heard that a top-tier expert could directly use nomological power, using the laws of Heaven and Earth as their own power. It was incomparably powerful.

Feeling the terrifying energy within the jade tile in front of him, Liu Yan was extremely shocked. This was only a trace of nomological power, yet it was already so terrifying.

If an entire body was filled with nomological power, how terrifying would it be? Liu Yan didn't dare to imagine it.

And after hearing principal Zhong Yuntian's teachings, Liu Yan instantly understood.

Even though he had the SSS-ranked talent, Divine Extraction, even though his talent was already top-notch.

He had to admit that there was always someone better than him.

In addition, no matter how good his talent was, if he couldn't grow stronger, it would be useless if he couldn't become an expert.

Right now, he only had the best start. Liu Yan still had a long way to go. He had to be humble and work hard to end up as an expert.

"I understand." Liu Yan lowered his head slightly and said seriously.

"It's good that you understand."

Zhong Yuntian, who was a little serious a moment ago, suddenly regained a smile with an unserious look.

Then, principal Zhong Yuntian continued, "Liu Yan, let me tell you. Your current talent is very good, but it's actually not considered top-notch yet."

Liu Yan heard this and immediately looked at principal Zhong Yuntian with some doubt. His current talent was not considered top-notch?

However, after what had just happened, Liu Yan also understood that principal Zhong Yuntian was unfathomable. He quietly waited for principal Zhong Yuntian to continue.

Principal Zhong Yuntian continued, "I've looked at you. Your body's strength is already very high. Your foundation is also quite good, but it's not the most perfect. If you continue to cultivate, it won't affect you for now. It's just that your strength will improve a little slower. However, at the later stages, the gap will be revealed. Therefore, you must seize the time now and change your foundation."

Hearing this, Liu Yan couldn't help but feel that it made sense.

Liu Yan was clear that his body's talent wasn't considered good. It was just that he possessed the SSS-ranked talent, Divine Extraction. Only after continuously obtaining large amounts of attributes had his body's toughness increased quickly.

However, if he didn't have the SSS-ranked talent, Divine Extraction, Liu Yan's body's toughness wouldn't be that great. There was a huge gap between him and a genius like Murong Xue.

"Then how do I change my foundation?" Liu Yan asked with some anticipation.

Zhong Yuntian smiled and said, "Don't worry, I can help you. If you want to break through the current limits and re-establish a perfect foundation, you must re-temper your skin, flesh, bones, blood and internal organs. Only then will you be able to rise to the next level! By then, not only will your body's toughness rise, it will also be easier to raise your body's toughness in the future. You will also be able to cultivate beyond the four basic elements of wind, fire, water, and earth, to the superior elements: wood, thunder, ice, and metal."

Hearing this, Liu Yan's face was filled with admiration.

Liu Yan did not know much about the elements, but he had heard about them.

The four basic elements were wind, fire, water, and earth.

And above these, there were some superior elements.

Basic elements could be cultivated by everyone. It was just that the result from cultivating varied with their talent.

However, superior elements were not something that everyone could cultivate. Awakened ones who could cultivate superior elements were extremely rare.

Correspondingly, as long as one could cultivate superior elements, their strength would not be weak in any sort. After all, the strength of superior elements was far stronger than basic elements.

At this moment, Zhong Yuntian's expression was slightly solemn as he said, "Other than superior elements, there are even divine nomological powers such as light, darkness, time, space, and so on. If you can cultivate divine nomological powers, you will definitely become a top-tier expert among humans in the future. There is no limit to your future!"

Upon hearing this, Liu Yan's face was instantly filled with yearning.

In fact, Liu Yan had already dispelled some of the superior elements. The lightning attribute in his body was a superior element, and it was indeed extremely powerful.

As for the legendary divine elements, Liu Yan had not even seen them before.

It was rumoured that any divine element was a mysterious and powerful existence. As long as one could cultivate divine elements, they would be an absolute expert without any exception!

Principal Zhong Yuntian saw Liu Yan's expression of yearning and immediately nodded in his heart. This student was not bad. Not only did he have a talent that only appeared once in a hundred years, but he also had the determination to pursue the limits of his strength and become an expert.

As long as such a student was properly nurtured, he might be a rising star for humanity in the future, or even the hope of mankind's future!

Even Zhong Yuntian could not help but look forward to it at this moment. If he carefully nurtured Liu Yan, what kind of heights would the future Liu Yan reach?

Principal Zhong Yuntian said with a serious face, "Next is your cultivation path. I need you to go to the Eastern Suburbs Medicinal Garden, the Western Suburbs Mine, the Southern Suburbs Warehouse, and the Northern Suburbs Hunting Ground to cultivate. Get the ten-thousand-year-old ginseng for skin refining, the purple-gold taisui (flesh-refining Ganoderma) for flesh refining, the ice-type chalcedony for bone refining, and the Earth Dragon Blood for blood refining!"

"Ten-thousand-year-old ginseng, purple-gold taisui (flesh-refining Ganoderma), the ice-type chalcedony, and the Earth Dragon Blood?"

Liu Yan was surprised when he heard that. These were all extremely rare top-tier materials.

Firstly, the ten-thousand-year-old ginseng. Let alone ten thousand years, it was already very precious even if it was a hundred years old. It was almost impossible to see a thousand years old one. No matter how much money you spent, you wouldn't be able to obtain it. But now, he had to obtain a ten-thousand-year-old ginseng?

As expected of a top-grade foundation. The materials needed were all top-grade in existence.

"That's right."

Zhong Yuntian nodded slightly and said, "Only after obtaining these can you return to me. I will give you the giant whale incense that you need to refine your internal organs. When the time comes, I will personally help you rebuild your body. How about it? Will you accept this kind of training? You must consider it carefully. This path of cultivation is fraught with difficulties. However, as long as you succeed, you will be able to build a perfect-grade foundation. Your future is limitless. But at the same time, you

will face the possibility of failure. Not only will you waste a lot of time, but you might also waste your current talent.”

Liu Yan did not even think about it and directly nodded and said, “Of course I will accept it. If I can’t become a top-tier expert, then what’s the point of exploring the limits of my power?”

Liu Yan didn’t want to just become an expert and obtain a good status and enjoy the rest of his life. Liu Yan had to explore the limits of his power and find out the truth of this world. At the same time, he had to figure out the reason behind his reincarnation.

Zhong Yuntian saw the determination on Liu Yan’s face and was instantly satisfied.

“Good, good, good! You’re a student I admire indeed. So ambitious!” Zhong Yuntian praised. Then, he took out a metal box and threw it on the ground.

The special metal box was extremely heavy. When it landed on the ground, there was a loud sound.

“Open it and take a look. This is the equipment that you need to wear to seal your strength when you train.” Zhong Yuntian said with a smile.

Chapter 150: Sealing Strength

“Equipment that seals strength?”

Liu Yan was a little confused, but when he saw principal Zhong Yuntian’s strange smile, he immediately had a bad feeling.

Liu Yan opened the special metal box. Inside the box were a pair of wrist bands and a pair of leg bands.

Seeing this, Liu Yan was a little surprised. Could a pair of wrist bands and a pair of leg bands be so heavy?

Liu Yan picked it up and looked at it. Although it was very heavy, Liu Yan’s body was strong, so it was not difficult to pick it up.

Zhong Yuntian with a strange smile on his face said, “Think it through. After you wear it, unless you complete your cultivation or give up on cultivating, you can not take it off. Without me, no one can open this pair of wrist bands and leg bands.”

Hearing this, Liu Yan was a little surprised, but he did not think much about it. This was Liu Yan’s choice to begin with, so there was no need for him to shrink back and hesitate. No matter how difficult it was, Liu Yan would do his best to overcome it.

“I’m done thinking.”

As Liu Yan said this, he put on the wrist band and leg band.

Once he put them on, the wrist band and leg band automatically tightened. Liu Yan tried for a while, but it was impossible to take them off again.

Immediately after, Liu Yan felt a heavy weight.

The wrist band and leg band were both extremely heavy. It was so heavy that it was extremely difficult for Liu Yan to stand.

Liu Yan immediately had a strange expression on his face. These wrist bands and leg bands were clearly not that heavy. It was not a problem for him to wear them. Why did they suddenly become so heavy?

Liu Yan carefully felt them and immediately understood.

It was not that these wrist bands and leg bands had become heavier. It was that Liu Yan's own strength had become weaker. In fact, it was weakened by more than just a little bit.

After carefully sensing it again, Liu Yan was immediately surprised to find that the wrist bands and leg bands had a magical power that directly sealed Liu Yan's powerful strength.

Liu Yan's body clearly had incomparably powerful strength, but he was completely unable to mobilize it.

He could only mobilize a very, very small portion. It was similar to his body before he entered the tower world. He was an ordinary person without having been awakened.

In fact, the current Liu Yan was even weaker than before he entered the tower world.

The current Liu Yan only had the strength he had before he entered the tower world. Furthermore, he also had a heavy pair of wrist bands and leg bands.

The usual training and movement aside, even standing was extremely strenuous for Liu Yan.

At the same time, Liu Yan was also surprised to find that his bunch of skills were also sealed and could not be used.

The current Liu Yan was not even comparable to an ordinary person who had not awakened yet.

Liu Yan immediately looked at principal Zhong Yuntian in surprise. "What is this? It's so magical."

As for the sealed equipment, because it was too secretive, Liu Yan knew very little about it.

He only heard that it could use the power of laws to seal strength. It was extremely magical.

He did not expect that he would actually wear such a magical sealing equipment today.

Zhong Yuntian smiled and said, "That's not the main point. You don't need to pay attention to it. You should hurry up and follow the training mission that I gave you to obtain those four top-tier materials. The earlier you obtain them, the better you will be able to get rid of this sealing equipment. Of course, there is another way to get rid of this sealed equipment. That is to give up on this training. At that time, you will still be a top-tier genius of our academy and will still receive important training. However, by then, you are no longer worthy of being personally trained by me."

Hearing this, Liu Yan waved his hand with difficulty and said, "Don't worry, I will not give up."

"I will wait and see." Zhong Yuntian smiled and said.

Following that, Liu Yan took heavy steps and left the office building with great difficulty, getting into his own car.

It was a short stretch of road but Liu Yan walked with great difficulty. When he got into the car, he was already covered in sweat.

This was the first time Liu Yan realized that walking could be this tiring.

Looking at the wrist bands and leg bands on his body, Liu Yan was speechless.

These seemingly ordinary wrist bands and leg bands actually had such terrifying power, sealing off all skills and physical strength. It was truly miraculous.

It was tiring but at the same time, Liu Yan also had a strange feeling.

Ever since he entered the tower world and awakened his SSS-ranked talent, Divine Extraction, he had been continuously obtaining large amounts of attributes and all sorts of powerful skills. His strength increased rapidly, causing Liu Yan to feel as if the strength in his body couldn't be used up at all, and that he was not able to fully display his strength.

And now that he wore the wrist band and leg band, he felt as if he had returned to the past. It could be considered a pretty good experience.

Liu Yan thought about it. Could it be that he had gone from frugality to extravagance? Now that he had gone from extravagance to frugality, although it was torturous, he was actually enjoying it?

Following that, Liu Yan drove his car to the Eastern Suburbs Paradise and embarked on his own difficult journey of cultivation.

Driving his sports car, Liu Yan shuttled through the Lighthouse Academy and headed towards the Eastern Suburbs medicinal garden.

At this moment, Liu Yan felt extremely fortunate. Fortunately, the vice principal of the Commanding Academy had given him this sports car. Otherwise, if he did not have this sports car, Liu Yan really would not know how to go to the Eastern Suburbs medicinal garden.

If he were to rely on himself to walk there, Liu Yan, whose strength was now sealed and even walking was extremely difficult, felt that he might as well die.

Liu Yan checked the information of the Eastern Suburbs Medicinal Garden on the way there. He found out that the Eastern Suburbs medicinal garden was the largest medicinal garden on the entire three and a half stories. It was also one of the core of the Lighthouse Academy. Considered to be of the utmost importance, a large amount of rare medicinal herbs would be produced from within every once in a while.

Only with these medicinal herbs would they be able to help the students of the Lighthouse Academy cultivate. It would allow them to build a better foundation and cultivate better.

This could also be considered one of the benefits of the Lighthouse Academy. It was one of the reasons why a large number of the awakened ones outside were trying their best to squeeze their way into the Lighthouse Academy.

After all, this large number of rare medicinal herbs was practically free of charge in the Lighthouse Academy.

Outside of lighthouse academy, other than the price being much higher, even if most of the awakened could afford it, they would only be able to buy a small amount and couldn't use it for a long period of time.

But in reality, outside of lighthouse academy, no matter how rich they were, they wouldn't be able to buy such a large amount of rare medicinal herbs. It was a situation where there was a demand but no supply.

After all, cultivating so many rare medicinal herbs wasn't something that anyone could just do.

Cultivating these rare herbs was rumoured to require great strength, rare cultivation methods, and resources.

Other than that, there was also the most important point, the rare herb field where the spiritual energy of Heaven and Earth was gathered.

This Eastern Suburbs Medicinal Garden was the best herb field on the three-and-a-half-story central resting platform. With the Lighthouse Academy's management, it was able to cultivate many rare herbs.

However, the smart wristband had no record on how to obtain the ten-thousand-year-old ginseng in the Eastern Suburbs Medicinal Garden.

There weren't even records on how to enter the Eastern Suburbs Medicinal Garden.

All the information about the Eastern Suburbs Medicinal Garden was extremely rare on the smart wristband.

Clearly, the Eastern Suburbs Medicinal Garden as one of the cores of Lighthouse Academy had an extremely secretive existence. A lot of information was not made public.

Seeing this, Liu Yan was not in a hurry. He first went to the Eastern Suburbs Medicinal Garden to see how he could enter, and then slowly try to find a way to obtain the ten-thousand-year-old ginseng.
