Chapter 181: Deadweight

Wei Feng quickly said, "Sir, don't bother with him. His words have nothing to do with us!"

Saying this, Wei Feng pulled Lu Dajiang to the back and stopped him from saying anything rude.

If they offended the spatial array master, their rare experience this time might be ruined.

Liu Qingrou also stepped forward and said respectfully, "Sir, I'm really sorry. I apologize for what he said just now."

Seeing this, the old man finally gave up and didn't fuss about it.

He looked at the few of them and said, "Alright. I won't fight with you guys anymore. Everyone is here. Let me tell you about the special requirements to enter Bizarre Plane. You must listen carefully and make sure to do it. It's not only related to your cultivation but also your life!"

Liu Yan and the others immediately listened carefully.

Even the arrogant Ning Shanshan immediately became serious and listened to the old man.

When Lu Dajiang heard the old man, he was a little surprised. He didn't expect this ordinary-looking old man to be a spatial array master of the Bizarre Plane.

Liu Yan also frowned slightly and looked at the old man in front of him curiously.

On the way here, Liu Yan had specially looked up some information. However, he could not find any information about the Southern Warehouse and the spatial array master of the Bizarre Plane.

As for the spatial array masters, rumor said they were very mysterious and powerful. There was no other information at all.

And even though Liu Yan could not detect the slightest bit of cultivation from the old man in front of him, he knew very clearly that this seemingly ordinary or even mediocre old man must be very powerful.

At this moment, the old man explained sternly, "First of all, you can't bring anything out of the Bizarre Plane. If you bring it out, it will become an ordinary item, and it won't have any effect. Moreover, it might bring disaster to you and make you unable to leave the Bizarre Plane!"

Hearing this, Liu Yan and the others nodded slightly. Principal Zhong had already explained to them.

Although there were many treasures in the Bizarre Plane, they could not bring those treasures out. Even if they brought them out, they would become ordinary items and would not have any effect.

Therefore, Liu Yan and the others could only use the treasures in the world of strange things in time to raise their cultivation and increase their strength.

From the spatial array master, Liu Yan and the others also learned that the treasures brought out of the Bizarre Plane would not only have any effect but would also have side effects. It would actually bring them danger, and they would even be unable to leave the Bizarre Plane.

Liu Yan and the others immediately remembered this point.

The old man continued to explain, "The second point is that this Bizarre Plane only opens once every five years. Every time the Bizarre Plane opens, you can only stay there for seven days. During these seven days, you can complete what you want to do as soon as possible, and only the treasures within these seven days will be useful. After seven days, the Bizarre Plane will turn into nothingness. Don't think of staying inside to continue using treasures to raise your cultivation. You have to come out and wait another five years. If you keep staying, you would only die in despair! Remember, you have to leave after seven days. If there is even the slightest delay, you will die in there! When you enter, I will give you an accurate timer for seven days. You will be safe if you leave before the timer reset. Just pay attention to this when the time comes."

Hearing this, Liu Yan and the others could not help but look a little serious. They did not expect the time limit to be so strict. They could not be late for a second.

It seemed that when they entered the Bizarre Plane, they had to pay attention to the time. They could not stay longer than seven days in the Bizarre Plane.

Fortunately, they got a timer, so Liu Yan and the others were a little relieved.

After all, in the Bizarre Plane, the timing might not be accurate. Liu Yan and the others might find it difficult to clear the exact time by themselves.

At this moment, the old man continued, "Lastly, the world of rare items is quite special. We have spent a lot of resources and special methods to send all of you in. Therefore, all of you must enter and exit at the same time. If one of you doesn't come out, the rest can't come out either. If one of you is missing, you won't be able to form the five elements and complete the formation. Is that clear?"

When Liu Yan and the others heard this, they were a little surprised. They didn't expect there to be such a condition.

Liu Yan and the others looked at each other. None of the five people who entered this trip could have any accidents.

As long as one of them had an accident and could not come out, the other four people would suffer as well. If they were unable to leave the Bizarre Plane, they would definitely die in there.

Wei Feng looked at a few of them and said, "When the time comes, we will work together and advance and retreat together. We will help each other to ensure everyone can leave the Bizarre Plane on time."

Liu Qingrou nodded slightly and said, "Yes, we must fight as a team. We must help each other."

When Ning Shanshan heard this, she looked at Liu Yan in a bad mood and said, "We can't bring a deadweight with us. When the time comes, we will have to spend a lot of effort to help him."

When Liu Yan heard Ning Shanshan's words, he immediately felt a little displeased.

However, Liu Yan also knew that these four people were the strongest students of the upper house of Lighthouse Academy. Their strength was indeed stronger than Liu Yan's.

Liu Yan's current strength was completely inferior to the four of them.

Even though Liu Yan had the legendary SSS-grade talent, Divine Extraction, his strength in other aspects was also formidable.

But in the end, Liu Yan's current level was only level 19. The four of them were all at least level 40. Lu Dajiang had already reached level 50. The gap between Liu Yan and them was huge.

The current Liu Yan was indeed still quite a distance away from them. He needed some time to grow and surpass them.

Although they were all top geniuses of the academy, Liu Yan also believed that he would surpass them in a short amount of time.

However, from the looks of it, Liu Yan's strength was indeed inferior to theirs. In this small team, Liu Yan could be considered a deadweight.

Facing Ning Shanshan's ridicule, although Liu Yan was displeased, it wasn't good for him to refute. He could only say indifferently, "Although my strength isn't as strong as yours, I will do my best. I definitely won't drag you guys down."

His indifferent words were filled with firmness in his heart.

Wei Feng saw that a genius like Liu Yan was being ridiculed like this, but he could endure it and did not quarrel with Ning Shanshan. He could not help but admire Liu Yan.

He had seen many geniuses, but a genius with such a calm temperament and humility was really rare.

Wei Feng had a good impression of Liu Yan.

The monstrous genius that Principal Zhong spoke of might indeed be very powerful.

Chapter 182: The Old Man's Reminder

Liu Yan could hold back his anger in the face of Ning Shanshan's ridicule. Seeing Liu Yan's reaction, Liu Qingrou was quite impressed.

The spatial array master glanced at Liu Yan without batting an eyelid. Was this young man the rare genius that his old comrade had mentioned? Was this young man the hope of humanity?

At first, the spatial array master did not believe it. After all, he was an expert who had once reached the tenth level of the Tower. He was very clear about the difficulty.

Countless geniuses and experts died young when they tried to reach higher levels in the Tower.

However, seeing that Liu Yan had such a temperament at such a young age, the spatial array master could not help but look forward to it.

Ning Shanshan ignored Liu Yan and rolled her eyes. She still thought that Liu Yan would drag them down.

Lu Dajiang, who had been pulled to the back and was not allowed to speak, stood up and patted his chest. "It's okay. I'm strong. I'll take care of Liu Yan. It's my duty to look after my junior."

Ning Shanshan rolled her eyes at Lu Dajiang and said, "You silly big guy. You'll suffer for it!"

At this moment, the spatial array master continued, "Alright, just remember what I said just now. Here is the agreement. Those who want to enter Bizarre Plane must sign the agreement. If anything happens to you after you enter the Bizarre Plane, we will not be responsible. Read the agreement and sign it if you have no problem with it."

Liu Yan took the agreement and read it. The main thing was the three rules that the old man had mentioned earlier. He had to agree to the rules.

Then, if anything happened to Liu Yan and the others after they entered, it would have nothing to do with the old man and the academy.

Seeing how serious the old man was, Liu Yan and the others also realized the danger in the Bizarre Plane.

However, they had already decided to charge into the world of rare objects and increase their strength. Without much hesitation, they all signed the agreement.

After they signed the agreements, the old man kept the agreements. Then, he impatiently waved his hand and said, "Alright, alright. That's it for today. I will open the portal at noon tomorrow. Now, hurry up and leave. Don't disturb my sleep!"

Liu Yan and the others were chased away by the old man.

After the few of them left, they discussed setting off tomorrow.

"We are going on a tough adventure, so we must rest well. After entering the Bizarre Plane, we might be busy for seven days. We don't have much time to rest. In addition, we have to come here early tomorrow. We can't be late." Wei Feng thought for a while and said seriously.

Liu Qingrou nodded when she heard Wei Feng. She felt that it made sense. They had to rest well. The following seven days might be tiring for them.

Everything in the Bizarre Plane was unknown to them. No one could predict what would happen after they entered. It was very likely that they would not have much time to rest. Therefore, when they were still outside the Bizarre Plane, they had to seize the time to rest well.

Ning Shanshan curled her lips and said arrogantly, "With our strength, there shouldn't be much of a problem. But we have to worry for this freshman."

Liu Yan touched his nose. Why did Ning Shanshan keep taking shots at him?

Liu Yan thought about it carefully, but he did not understand how he had offended her. Could it be that he had offended her by using Wind Control?

Lu Dajiang said indifferently, "The students who entered before us are all fine. We are much stronger than those geniuses from before. We will be fine. Be more confident in yourselves."

Wei Feng shook his head slightly and said, "According to my understanding, the situation in Bizarre Plane is different every year. Moreover, the situation inside is complicated. Our experience might be irrelevant in the Bizarre Plane. So, we have to be the most careful. I have prepared signal flares here. We will gather six hours early tomorrow. We'll use the signal flares as the gathering beacon."

Wei Feng said with a stern face and handed out a few signal flares.

Liu Yan and the others received them one by one.

Although Lu Dajiang felt that six hours was a bit too much, he didn't say much and agreed.

Liu Yan saw this scene and couldn't help but be curious. Logically speaking, the captain should be Lu Dajiang, who was also the president of the student union.

But after interacting with him today, it seemed that Lu Dajiang always listened to Wei Feng's words.

Liu Yan didn't understand, but he didn't dwell on it. The most important thing now was to enter the Bizarre Plane to gain experience.

Besides the Purple Gold Taisui that Liu Yan needed the most, he would also like to obtain some other treasures.

The awakened who entered the Bizarre Plane couldn't take these treasures away. However, they could use the treasures in the Bizarre Plane to increase their strength and cultivation during these seven days.

Liu Yan had the SSS-grade talent, Divine Extraction, which could increase the grade of the treasures inside the Bizarre Plane.

Therefore, compared to the other awakened ones, Liu Yan's gains after entering were even more terrifying.

If the treasures were increased by a grade, their effects would increase by several times. It meant that Liu Yan's gains were at least several times more than the others.

On this trip, Liu Yan planned to properly increase his strength in all aspects, especially his level.

Liu Yan was very confident in his talent. If his level were similar to Ning Shanshan and the other top students, his strength would not be weaker than theirs!

1

Afterward, they went back to rest. They would gather on time tomorrow.

After Liu Yan returned to the villa, he had a good rest.

The three girls took advantage of the rare opportunity to go shopping while Liu Yan stayed at home to rest.

The next morning, Liu Yan set off early and drove his origin power sports car to Southern Warehouse.

Liu Yan arrived a little earlier. There were still seven hours before the opening of the Bizarre Plane. Liu Yan had arrived at the small house in front of the Southern Warehouse.

What surprised Liu Yan was that the old man was already sitting there.

Seeing Liu Yan's arrival, the old man didn't say anything and continued to lie down to rest.

Liu Yan didn't want to disturb the old man, so he quietly waited at the side.

After a day of rest, Liu Yan was already in good condition.

Not long after, Liu Yan saw a jeep speeding was speeding toward here.

Liu Yan recognized that it was his teammate Wei Feng's car. He didn't expect Wei Feng to come so early.

The old man who had been silent all this time said, "If you search without a purpose, you might be able to find it."

Liu Yan heard the spatial array master's weird words and was immediately baffled. He looked at the old man beside him with some confusion, but the old man didn't seem to be talking to him at all.

Liu Yan couldn't help but doubt. Could it be that he had heard wrongly just now?

Liu Yan scratched his head. He did not understand what was going on nor did he understand the meaning of the old man's words.

At this time, Wei Feng had already arrived, and the jeep stopped.

Seeing that Liu Yan had already arrived ahead of time and was the first to arrive, Wei Feng immediately thought that Liu Yan had come ahead of time because he was nervous.

Wei Feng walked over and patted Liu Yan's shoulder, comforting him, "Don't worry, do your best. We are a team, and we will help you. We will fight together, and we will be fine."

Chapter 183: The 'Shabby' Bizarre Plane?

When Liu Yan heard Wei Feng's words, he immediately laughed in his heart.

Even though Liu Yan's current strength was inferior to these four teammates, he would eventually surpass them.

With his SSS-grade talent, Divine Extraction, Liu Yan was confident in himself.

Although Liu Yan's strength might not be as powerful as theirs now, he had many types of strong skills.

Even though there were dangers and challenges in the Bizarre Plane, Liu Yan believed he could totally protect himself if he were cautious. So, he was not nervous at all.

Even though Wei Feng misunderstood Liu Yan, Liu Yan could sense Wei Feng's good intentions. He smiled and thanked Wei Feng, "Thank you, senior. I will do my best. I won't hold you back."

Not long after, the other team members arrived one after another.

There were still a few hours before they entered the Bizarre Plane, so they waited patiently.

"They said there are all sorts of treasures in this Bizarre Plane. We must make good use of the seven days we have this time to raise our strength." Wei Feng said with some anticipation.

"That's right." Liu Qingrou nodded slightly and said, "This is a rare opportunity. It only opens once every five years. This is our only chance, so we must raise our strength in the Bizarre Plane. However, we must use the following seven days well. We cannot delay the time and not be able to leave."

"Are there really many treasures? Can I make some money?" Lu Dajiang said with some anticipation.

Ning Shanshan, who was by the side, immediately rolled her eyes and said annoyingly, "Big guy, did you hear what the spatial array master said yesterday? We can not bring out any of the treasures."

Liu Yan listened to the discussions of his teammates and also felt some anticipation.

There were a large number of high-grade treasures in the Bizarre Plane. Although they could not be brought the treasures out, they could use these seven days to improve their strength.

If Liu Yan could obtain the Purple Gold Taisui and refine it, it would be even more perfect.

Under their anticipation, time quickly passed.

Seeing that it was almost time, the old man lazily stood up and took out five timers. He said, "This is the timer. It will start counting the time when you enter the Bizarre Plane. Each timer is set for seven days. Before the timer reaches zero, you must leave the Bizarre Plane. Otherwise, you might have to stay there for the rest of your lives."

Liu Yan and the others stepped forward to take it.

At this time, there were only a few minutes left before they entered the Bizarre Plane.

Liu Yan and the others made their preparations. At the same time, they were looking forward to the interior of the Bizarre Plane.

When the time was up, the old man took out some materials and casually scattered them. The dilapidated door behind them opened, emitting light.

"Time is up. You can enter now. You must keep my request in mind!" The old man said in a serious tone.

Seeing this, Liu Yan couldn't help but be a little surprised.

Liu Yan had learned how to set up some simple arrays, including the contract array. Liu Yan had also seen many teleportation arrays. They were divided into two types. The first type was set up in advance and could be used at any time, but sometimes there were some restrictions.

For example, the teleportation array in Eastern Medicine Garden was set up long ago. Only those with identity tokens could get through it

Another method to set up a teleportation array was to set it up temporarily. One needed to use specific materials to set up a specific location, and the process was extremely complicated.

Even if Liu Yan set up a relatively simple contract array, it would still take a lot of time.

As for a teleportation array that involved space, it would be many times more complicated.

However, the old man in front of him set it up almost instantly, and his speed was extremely fast.

Liu Yan was shocked by the old man's skill.

Previously, Liu Yan had already guessed that this seemingly ordinary old man's strength was not weak.

However, Liu Yan thought that he had underestimated this old man. This old man's strength was extremely exaggerated.

Immediately, Liu Yan also withdrew the shock in his heart. Following a few of his teammates, they stepped into the shimmering door of the small house and entered the teleportation array.

The white light was accompanied by a wave of dizziness. The dizziness came and went quickly. Soon, Liu Yan and the others stepped on a real platform. They had entered another space.

Liu Yan opened his eyes and looked around.

A moment ago, they were in front of a small house in the southern desert. But in the blink of an eye, they had arrived in a strange space.

Looking at the surroundings, they seemed to be in an ordinary straw barn. It looked a bit shabby, somewhat different from what Liu Yan and the others had expected.

However, the space was incomparably huge.

Liu Yan and the others couldn't see the end of it at a glance. This was a huge warehouse!

At the same time, the moment Liu Yan entered the Bizarre Plane, the emotions of Treasure Pangolin began to fluctuate.

Liu Yan and Treasure Pangolin had already signed a contract, and their minds were connected. He immediately understood the thought of Treasure Pangolin. It was excited because there were so many treasures ahead.

Liu Yan immediately came back to his senses and hurriedly used the A-rank skill he had obtained from Treasure Pangolin to search for treasures. After probing around, Liu Yan was surprised to find many treasures arranged in front of him. Based on the energy fluctuations, it seemed that the further they went, the more precious the treasures were.

The range of an A-class skill, Treasure Hunting, had a big coverage. There were many treasures it could detect within its coverage.

There seemed to be a large number of treasures in the area that they could not explore in front of them.

Other than that, Liu Yan also discovered that the fluctuations of these treasures were somewhat similar. Each place had its own unique characteristics.

It seemed that the treasures here were arranged according to their type. This way, it would be much more convenient to search for them.

Feeling the excitement of Treasure Pangolin, Liu Yan comforted it, telling it not to be overly excited. After all, these treasures could not run away. They would have time to explore.

At this moment, after Liu Yan's teammates entered the Bizarre Plane, they could not help but start discussing when they saw the scene in front of them.

"I didn't expect the Bizarre Plane to be like this." Liu Qingrou exclaimed in surprise.

"This doesn't look good either. It looks like a straw barn. It's so shabby." Lu Dajiang scratched his head and said in puzzlement.

“The space in front looks huge. Let’s walk forward and find out what it looks like.” Wei Feng suggested.

Ning Shanshan also frowned slightly and said in puzzlement, “Isn’t the Bizarre Plane supposed to be very powerful? Why does it look so shabby? It’s just a bunch of straw barns.”

Liu Yan, who was using his Treasure Hunting skill to probe the surroundings, had long discovered that the walls that seemed to be filled with weeds were actually not the weeds.

Liu Yan immediately smiled and said, “Is it shabby? If you look at what those ‘weeds’ around are, you will have a different idea.”

Chapter 184: Useless Mountains of Gold and Silver

Upon hearing Liu Yan’s words, Ning Shanshan rolled her eyes and asked, “If it’s not weeds, then what is it?”

Wei Feng curiously walked closer to take a look and immediately exclaimed, “Come and take a look.”

They followed Wei Feng.

As Liu Yan and the others walked closer, they discovered that the things on the surrounding walls were not weeds at all. Instead, they were grass made of gold.

Because the surrounding light was dim and the gold plants looked messy, they looked like weeds from a distance.

“Sh*t, these are all gold! Can we take them down?”

Lu Dajiang looked excited when he touched the gold grass.

Ning Shanshan said, “It’s just some gold plants. There are more precious things inside. Let’s go in and look at the others.”

After Wei Feng and Liu Qingrou were shocked, they were also relatively calm.

These old grasses were valuable to ordinary people, but not to them.

They were powerful awakened ones with promising futures, so they were not tempted by these gold grass.

However, Lu Dajiang was different. He immediately saw the money-hungry look on his face and said, “You are all rich people, so you all don’t like it. But I haven’t seen so much gold. I’m not leaving.”

Wei Feng frowned slightly and said, “Dajiang, there are tons of treasures in here. There are kinds of treasures, skill books, medicinal herbs, equipment, scrolls, spiritual treasures, and many things. They are categorized and placed properly. This is just the beginning. These golden grasses are the worst thing here. Let’s move forward.”

When Lu Dajiang heard this, he was immediately tempted. He believed Wei Feng’s words. Moreover, these golden grass seemed to be all over the walls. They should also be there in front of them.

However, Lu Dajiang was reluctant to go with them. The allure of these golden herbs was too great for him. He did not want to go any further.

When Liu Yan saw this, he smiled and said, "I saw that there seemed to be a golden glow in front of us just now. Perhaps there will be more gold ahead. Why don't we walk forward and take a look?"

Liu Yan had used his A-grade skill, Treasure Hunting. He knew there was a large amount of treasure after turning the corner.

Compared to the treasure, the gold grass was nothing.

When Lu Dajiang heard this, he seemed to have made up his mind.

"Okay, we'll go ahead and take a look."

Lu Dajiang looked at the gold grass. Then, he followed his teammates and walked forward reluctantly.

They didn't walk for long. After turning a corner, they suddenly felt a blinding light in front of them.

After getting used to the light, they looked at the source of the light and were immediately stunned.

They saw piles of gold and silver coins in a square in front of them.

The blinding light just now was emitted by these gold and silver coins.

Besides these gold and silver coins, there was also a large amount of gold, jewelry, and many banknotes beside them.

The pile of gold and silver coins was so huge that one could not see the end of it. It looked extremely spectacular.

Even Ning Shanshan, who had previously been disdainful of the golden grass, was dumbfounded.

They were not lacking in money. They were even born into a large family and grew up with a golden key in their mouths. However, they had never seen so much money before. The scene before them was too exaggerated.

Even though Liu Yan already knew what was coming, he was still a little shocked.

Through his Treasure Hunting skill, Liu Yan could sense that there were many other types of treasures in front of him. Those treasures were more valuable than gold and other things.

After all, there were things that no gold, silver coins, and banknotes could buy. Some rare things related to origin crystals could not be bought. The awakened were helpful, but they were still limited.

Treasure Pangolin was thrilled. It could not stay calm after entering the Bizarre Plane. It had been urging Liu Yan to hurry up and see the truly valuable treasures in front of him.

Lu Dajiang was the most exaggerated. He walked forward excitedly and kept scooping the piles of gold and silver coins.

"So many gold and silver coins, so much money. I'm rich, I'm rich, I won't be short of money anymore!" Lu Dajiang shouted excitedly. He ran to the mountain of gold and silver coins and lay on it.

Wei Feng and the others were also a little surprised, so they examined the gold and silver coins. They found out that these gold and silver coins were all real, and the quality was extremely good.

The few of them were a little intoxicated, and they did not want to leave this mountain of gold and silver coins.

Liu Yan glanced at the gold and silver coins and walked away.

These gold and silver coins were valuable, but Liu Yan and the others could not bring them out of the Bizarre Plane at all. These golds and silver coins were useless as the dung.

Liu Yan and the others only had seven days in the Bizarre Plane. These gold, silver, and banknotes couldn't help Liu Yan increase his strength. In other words, they were extremely useless.

The gold and silver coins were the most worthless things in Bizarre Plane.

Liu Yan waited for a while. Seeing that his teammates still had no intention of leaving, he couldn't help but say, "Why don't we go ahead and take a look? There might be even better treasures ahead."

Hearing Liu Yan's words, Wei Feng and the others came back to their senses.

"We already have enough money. We don't have to take more." Ning Shanshan waved her hand and stood up.

Wei Feng also nodded and said, "That's right. Although these gold and silver coins are worth a lot of money, we can't take them with us. It's useless to us."

Liu Qingrou also analyzed, "We only have seven days. We have to think of a way to increase our strength. These gold and silver are useless to us."

The three of them woke up one by one and prepared to leave.

However, Lu Dajiang was still deeply immersed in it. He waved his hand and said, "You guys go first. I want to stay here. I haven't seen so much gold. I want to stay with the gold."

Upon hearing that, Ning Shanshan said impatiently, "We can't stay here! We have to look for other things to increase our strength."

"Yeah, no matter how much gold and silver there is, you can't take it away. It's meaningless." Liu Qingrou also said.

Wei Feng also advised, "Dajiang, it's better to get up and go forward with us. Time is limited. Don't waste it here."

However, Lu Dajiang waved his hand and said indifferently, "I don't care, I don't care. I want to be with money. You guys go, don't care about me."

1

They tried to persuade Lu Dajiang again, but Lu Dajiang seemed to be addicted and couldn't be persuaded at all.

However, Lu Dajiang's strength was also the strongest among them. So, they couldn't force Lu Dajiang away.

They had no choice but to let Lu Dajiang stay here and continued to walk forward.

Wei Feng looked around and said, "It doesn't look dangerous. Let Dajiang stay here for now. We'll go ahead and take a look."

Then, everyone except Lu Dajiang abandoned these mountains of gold and silver and continued to walk forward.

Chapter 185: Skill Book Hall

After leaving Lu Dajiang behind, Liu Yan and the others continued to move forward.

Ning Shanshan turned around to look at Lu Dajiang and said annoyingly, "I don't understand this guy. Why is he so obsessed with those gold and silver? It's useless to us since we can't take it with us."

Wei Feng had known Lu Dajiang for a long time and understood Lu Dajiang's situation.

Wei Feng said helplessly, "Ning Shanshan, you come from a rich family and have never lacked money since you were young. Naturally, you can't understand Lu Dajiang. Lu Dajiang's family had been poor since he was young. Not to mention cultivation, he did not have enough money for his meals. He always had to worry about his next meal. Initially, he came to Tower because he had to earn money. He heard that no matter if he succeeded or failed in entering the Tower, his family would be given a subsidy, so he immediately entered the Tower regardless of the dangers. Later, he often acted as a meat shield for others because he lacked money. In exchange for some compensation, he could continue to cultivate. Lu Dajiang was able to have the strength he has today because he has been through a lot of hardship. He is afraid of poverty. That is why he's unwilling to let go of the gold and silver."

The others were a little surprised when they heard this. They didn't expect Lu Dajiang to have such a story.

"Looks like I've wronged him. I hope that he can continue to move forward. We can't control him anymore." Ning Shanshan stuck out her tongue and said.

At this moment, Liu Yan was also slightly emotional.

Lu Dajiang and Murong Xue were both tank classes. They were both talented and powerful tanks.

However, the two of them were born into different families, and they had different reasons to be a tank.

Murong Xue was born into a rich family, the Murong family. So, she had never lacked money or resources since she was young. Besides, she was also a martial arts prodigy and liked martial arts. That was why she came to the Tower to train and increase her strength.

She chose the tank profession because she was good at it. That was why she chose this path.

Lu Dajiang, on the other hand, was completely different. When he first entered the Tower, he came for money. He became a tank class because of money. He did not consider his talent at all.

Although Liu Yan did not know much about it, Liu Yan could imagine the hardships Lu Dajiang had gone through along the way.

However, they both went the same way. Murong Xue and Lu Dajiang walked on completely different paths, but they had already become powerful tanks. They both had bright futures.

Then, Liu Yan and the others continued to move forward.

After walking for a while, they arrived at a hall.

The hall was dozens of meters high, and the walls around the hall were filled with books.

These books were emitting different lights, red, orange, yellow, green, blue, blue, and purple. They looked extremely dazzling.

At the same time, there were rings of light around these books.

Seeing this scene, Liu Qingrou immediately recognized it and said, "This should be the skill area. There are all kinds of skills here. Looking at the color of these skill books, they should be skill books with different attributes. There are also all kinds of skills. Mental cultivation methods, movement techniques, and cultivation methods are all available."

Ning Shanshan saw the dividing line of the eight trigrams on the ground and said, "Looking at this dividing line, it should be yin and yang. On the left are all kinds of skills with yin attribute, and on the right are all kinds of skills with yang attribute."

"There are so many skills here. I must learn a few powerful skills here!"

Wei Feng said with a fiery gaze. From the looks of it, he was obviously a martial arts fanatic. Wei Feng always wanted to read a ton of skill books.

Following this, Wei Feng rushed forward towards a red-colored skill book. He cultivated cultivation methods of the fire attribute, so the red-colored skill book of fire attribute was the most suitable for him.

However, when Wei Feng rushed forward, the surrounding light of the red-colored skill book flashed for a moment, instantly sending him flying dozens of meters away.

Wei Feng fell to the ground, but he was not injured. He said excitedly, "Such powerful strength."

Seeing this, Liu Yan immediately understood.

Although there were many skill books here, each person could cultivate according to their circumstances and preferences. They could not pick whatever skill books they wanted to take.

Around these skills, books were crystal-like protective barriers.

The protective barriers would not actively attack the awakened, but anyone who wanted to obtain the skill book would have their strength rebounded.

Therefore, to truly obtain these skill books, one would need to spend a lot of effort breaking through these protective barriers to get the skill book.

In addition, Liu Yan also observed for a moment. Although the protective barriers around these skill books were similar, the energy contained within them was different.

It was likely that different skill books had different levels of protective barriers. The higher the grade of the skill book, the more powerful the protective barrier around it would be.

At this moment, Wei Feng had already gathered his strength. With a burst of violent energy burst, he broke through the protective barrier around the red skill book.

Wei Feng panted and said, "This protective barrier is really powerful. I spent three attacks breaking it with my full strength. With such a strong protective barrier, the skill book shouldn't be weak, right?"

With anticipation, Wei Feng walked forward and took out the skill book emitting a red light. He started to look at it.

When the others saw this, they also came to Wei Feng curiously.

Liu Yan did not know Wei Feng's exact strength. But from the energy fluctuation that Wei Feng had released just now, Liu Yan predicted that he would probably need to use all his strength to attack ten times to break through this protective barrier.

Of course, this was under the situation where Liu Yan did not use Attribute Fusion.

Liu Yan did not have the chance to try Attribute Fusion, so up until now, he did not know just how terrifying the power of Attribute Fusion was. Liu Yan still did not know his own limit of strength.

At this moment, Wei Feng looked at the skill book he had obtained and said happily, "It's a C-grade fire attribute warrior battle skill. It's very helpful to me. I want to learn it now!"

As he said that, Wei Feng sat down and started to study with a face full of obsession.

When Liu Yan heard that, he immediately understood.

A C-grade skill was not very precious to Liu Yan. After all, Liu Yan had Divine Extraction, so he could obtain many skills effortlessly.

At the moment, Liu Yan already had a pile of A-grade skills on him. So, he was not interested in C-grade skills.

However, to Wei Feng and the others, C-grade skills were extremely rare.

If they wanted a skill book, the most reliable way was to get it from the upper house of Lighthouse Academy.

However, a C-grade skill book was expensive and difficult to obtain. No matter how much money one had, they could not exchange one if they liked to. One had to have the qualifications to exchange for it.

A C-grade skill book was attractive to Wei Feng.

However, at this moment, Liu Qingrou and Ning Shanshan looked at each other, and there wasn't much anticipation in their eyes.

Ning Shanshan pursed her lips and said, "Although a C-grade skill is powerful, it's not impressive. Our strength could not break through the protective barrier of even more powerful skills. We're unable to obtain even more powerful skills. These skill books aren't of much help to us."

Chapter 186: Medicinal Ingredient Hall

Liu Qingrou nodded slightly and said, "With our strength, we will have a hard time getting a higher grade skill book. Even if we can obtain one, we only have seven days to spend. It will be difficult for us to learn a powerful skill."

When Liu Yan heard this, he also felt that it made some sense.

The ordinary awakened ones were different from Liu Yan. Liu Yan had the Divine Extraction. After directly extracting the skill, he could instantly learn a new skill.

The ordinary awakened ones would need a lot of time to learn a new skill.

The higher the grade of skill, the more time it would take.

The awakened ones with talent like Wei Feng would need at least three to four days to learn a C-grade skill.

There were only seven days in total, which meant that no matter how many skill books there were, they probably could only learn one skill.

Moreover, they would need to use a lot of strength to break through the protective barrier. They might not be able to break through the stronger protective barrier and obtain a more powerful skill book.

To Ning Shanshan and Liu Qingrou, the skill book hall was indeed not of much help to them.

Liu Qingrou was a priest, so she did not have much combat strength to break through the protective barrier. Ning Shanshan was a mage, and her attack power was not bad. However, she would probably spend a lot of time obtaining a C-grade skill.

Although C-grade skills were rare and useful to Ning Shanshan, she was in the Bizarre Plane now. There might be even more powerful treasures here that could increase her strength significantly.

As for Liu Yan, he did not have to stay here.

Liu Yan's purpose for this trip was to obtain the Purple Gold Taisui. Although these skill books weren't bad, they were not as important as the Purple Gold Taisui.

Moreover, Liu Yan also had his SSS grade talent, Divine Extraction. He already had a bunch of skills. Besides, he had many ways to obtain new skills in the future. There was no need for him to spend too much time here.

Based on the situation where Wei Feng had broken through the protective barrier and obtained a C-grade skill book, Liu Yan estimated that he would obtain a C-grade skill book at most.

If Liu Yan were to use Attribute Fusion and produce a powerful burst of strength, he might obtain a B-grade or even an A-grade skill book. But it was not guaranteed.

Rather than wasting his time here, Liu Yan wanted to move deeper. After he increased his strength, he would return here to break through the protective barrier of the skill book.

Liu Yan only needed to break through the protective barrier and obtain the skill book to learn these new skills instantly. He did not need to spend much time.

In addition, through his A-class skill, Treasure Hunting, and the urging of Treasure Pangolin, Liu Yan could also sense that there were even more powerful treasures in the depths of the Bizarre Plane.

Although these skill books were precious, there were still better things beyond them!

Thinking of this, Liu Yan looked at the few of them and said, "Our time is limited. Let's go to the back to take a look first."

"That's right." Liu Qingrou nodded slightly and said, "If there are no better things in the back, we can return here."

Hearing this, Ning Shanshan looked at Liu Yan with surprise and said, "I didn't expect you to be able to focus on the priorities."

However, Wei Feng was focusing on learning the new skill. He said without raising his head, "No matter what is in the back, it is not as important as the skill book. You guys keep going. I will stay here to learn the skill. Seven days is enough for me to learn two skills. If possible, I will definitely learn all the skills here!"

Wei Feng's eyes fixed on the skill book in his hand. His eyes were filled with madness. He was a typical martial arts fanatic.

Liu Yan and the others saw the situation and understood that they couldn't persuade him, so they let Wei Feng stay there.

Then, Liu Yan and the others let Wei Feng continue to learn the skill here while Liu Yan and the others continued to walk deeper into the Bizarre Plane.

Ning Shanshan turned around and saw that Wei Feng had already started to cultivate.

Ning Shanshan immediately said helplessly, "This martial arts fanatic, how is he different from Lu Dajiang just now? One is addicted to gold and silver, while the other is addicted to skill. When he sees something he likes, he can't walk anymore."

When Liu Qingrou heard this, she covered her mouth and laughed, "That's normal. These are the things they like the most. No matter how good the things at the depths of Bizarre Plane are, they aren't important to them. Let's continue to look forward."

Liu Yan nodded slightly and said, "Seven days is not much, but it is not little either. We should go around the Bizarre World and determine what will bring us the greatest improvement. We should make good use of these precious seven days."

Liu Yan and the other two did not walk for long before they smelled various smells mixed together, and it smelled incredibly good.

"This smell seems to be a pile of precious medicinal herb!" Liu Qingrou immediately said somewhat excitedly.

"Is that so? Is this the smell of a medicinal herb?" Ning Shanshan asked somewhat doubtfully.

Liu Yan did not say anything. However, he could already sense a pile of dense treasures in front of them. It seemed to be a pile of medicinal herbs.

Liu Qingrou seemed to be very interested in the medicinal herb. She immediately quickened her footsteps.

Liu Yan and Ning Shanshan hurriedly followed.

They didn't walk for long before they turned a corner and arrived at another hall.

The hall was filled with all kinds of precious medicinal ingredients and medicinal herbs. There were also quite many medicinal pills and potions, all of which were extremely rare.

At the same time, there were quite many tools for refining medicinal herbs on the side, including the small cauldrons in the east and the crucibles in the west.

"There are so many medicinal ingredients, medicinal pills, and medicinal herbs. Even the warehouse of the upper house of Lighthouse Academy did not have so many medicinal herbs!" Ning Shanshan said in surprise.

Liu Qingrou, who had always been relatively calm, had an excited expression on her face as she said, "There are so many medicinal ingredients, medicinal herbs, medicinal pills, and medicinal potions. All kinds of tools are also available. If we were to train here, we could maximize our effort, and our strength will definitely increase rapidly!"

To increase one's strength, in addition to cultivating and killing fierce beasts, one could use all kinds of rare medicinal herbs and potions to increase one's strength by leaps and bounds.

However, not everyone could have so many rare medicinal ingredients and medicinal herbs, and these materials were not available every time. Therefore, very few people were able to cultivate like this all the time.

As a priest, Liu Qingrou had a better understanding of how to use medicinal ingredients to increase one's strength.

After all, it was unrealistic for a priest to kill a fierce beast to increase their strength quickly. Using all kinds of the rare medicinal herb was the fastest and safest way to increase their strength.

"I'll cultivate here. This is the most suitable place for me. I've stayed here for seven days!" Liu Qingrou said as she walked forward and selected some medicinal herb. Then, she immediately began to meditate and cultivate.

Liu Yan couldn't help but be somewhat satisfied with this place. First, he went forward and searched around to see if there was a Purple Gold Taisui.

The result was as Liu Yan had expected. The medicinal ingredient here was extremely precious, and there were even a few thousand-year-old ginseng, but there was still no treasure on the level of a Purple Gold Taisui. After searching around, he still couldn't find the Purple Gold Taisui.

Chapter 187: Equipment Hall

Liu Yan searched all around but could not find the Purple Gold Taisui.

He was slightly disappointed, but after thinking about it carefully, it was reasonable.

After all, the Purple Gold Taisui was a legendary level treasure and was very precious.

Although the medicinal ingredients here were rare, they were still inferior to the Purple Gold Taisui.

Liu Yan looked at the numerous medicinal ingredients around him and hesitated slightly.

There were many rare and precious medicinal ingredients here. If Liu Yan stayed here to cultivate, he could also increase his strength quite a bit.

However, Liu Yan immediately dismissed this idea.

Firstly, Liu Yan did not have a good understanding of all kinds of medicinal herbs. Although staying here to cultivate could also increase his strength quite a bit, compared to Liu Qingrou, who understood all kinds of rare and precious medicinal herbs and even knew how to make her own potion, Liu Yan couldn't maximize the effects of these rare medicines. After all, Liu Yan only got seven days.

Secondly, the purpose of Liu Yan's entry into the Bizarre Plane was to obtain Purple Gold Taisui. These precious medicinal ingredients were not comparable to Purple Gold Taisui.

Only by gathering four treasures could Liu Yan build his perfect foundation.

At present, he already completed half of it. The remaining two treasures were indispensable. Without either one, he would not be able to build a perfect foundation.

In addition, Treasure Pangolin seemed a little excited, wanting Liu Yan to go deeper.

Although many medicines and potions here were precious, it seemed there were better treasures in the depths.

Liu Yan quickly decided to continue going deeper. If there was still time later, he could come back here to train and improve his strength.

Immediately, Liu Yan looked at Liu Qingrou, who was seriously training and did not disturb her. He walked deeper alone.

To Liu Yan's surprise, Ning Shanshan caught up with him after just two steps.

Liu Yan glanced at Ning Shanshan and said with some surprise, "Aren't you cultivating there?"

Liu Yan thought Ning Shanshan would also stay there to cultivate. After all, even Liu Yan was satisfied with the place just now. If he had not come here for the Purple Gold Taisui, Liu Yan might also stay in the Medicinal Ingredient Hall to cultivate.

When Ning Shanshan heard Liu Yan, she rolled her eyes at Liu Yan and said, "I grew up among all kinds of rare medicines, so I don't need more."

As she said this, Ning Shanshan ignored him and walked forward.

When Liu Yan heard this, he also recalled that Wei Feng and the others mentioned Ning Shanshan's background was very powerful. She was born into a rich family, so she naturally did not lack all kinds of rare medicines.

The Medicinal Ingredient Hall just now was attractive to ordinary people. But to Ning Shanshan, who had never lacked any rare potions since she was young, it was a little ordinary.

Following that, Liu Yan and Ning Shanshan continued to walk toward the depths of the Bizarre Plane.

After walking for a while, they passed through a long corridor, and their eyes suddenly lit up.

The multicolored light was extremely dazzling.

In the huge hall, there were all sorts of weapons, defensive equipment, and accessories.

There were all sorts of different types of equipment, and there were many of them.

At a glance, they could even tell that the grade of these pieces of equipment wasn't low.

Ning Shanshan, who was walking in front, hurriedly went forward to take a look. Immediately, she said with a surprised look, "These equipment and accessories are at least B-grade. The high-grade ones are even A-grade and S-grade. There are so many high-level equipment pieces!"

Liu Yan was also a little surprised.

The awakened equipment was extremely rare. Not only did it require a large number of rare materials, but it also required a lot of time to forge a powerful forging stone.

And the higher the grade of the equipment, the more difficult it was to forge. Not only did it require a forger to have powerful skills, but it also required a powerful strength. In addition, it also required certain rare materials. It could be said that one of the three could not be lacking.

For example, in the upper house of Lighthouse Academy, grade-C equipment was already an extremely rare existence.

Grade-C equipment and above was even harder to come by.

Liu Yan shone brilliantly during the freshman test and was praised as a once-in-a-century genius. The vice principal of Weapon Academy, Ling Feng also praised Liu Yan highly. But even so, Ling Feng could only give out a set of B-grade equipment, which was already the highest grade of equipment set in Weapon Academy.

Liu Yan had to use his SSS-grade talent, Divine Extraction, to level up the B-grade equipment to A-grade.

And here, even the lowest grade equipment was B-grade. This was extremely rare.

However, after his shock, Liu Yan said with a slight disappointment, "That's useless. No matter how high the grade of the equipment is, we can't take it away. It's not beneficial to us."

Ning Shanshan turned around, her eyes were filled with joy as she said, "These equipment aren't just high grade. There are also battle techniques sealed inside them. We can temporarily equip these equipment and learn these battle techniques a lot easier. We'll be able to increase our strength quite a

bit. Combat techniques are not skills. They are not that difficult to learn. They are much faster than skills. In these seven days, we will be able to learn quite a few combat techniques here.”

When Liu Yan heard this, he was also a little surprised.

Just like before in the Skill Hall, there were many powerful skills.

However, they had to use a lot of effort to break through the barrier protecting the skill books. Afterward, learning the skill also required a lot of time. This was also the reason why Liu Yan did not stay there.

However, these combat techniques were different.

Although combat techniques were not as strong as skills, they were not weak either. The most important thing was that it was not so difficult to learn. The combat techniques required lesser time to learn.

For Liu Yan and the others, who only had seven days, it was quite convenient. They could learn a lot of combat techniques in a limited time.

In addition, these combat techniques corresponded to these various weapons, defensive equipment, and accessories.

Therefore, after equipping these equipment pieces and learning the battle techniques within them, one could maximize their effort and improve their strength.

At this moment, Ning Shanshan, who had always been arrogant, was already choosing all sorts of high-grade equipment excitedly. Her body was emitting all sorts of lights from different high-grade equipment as if she wanted to dress herself up in dazzling gold light.

Liu Yan could not help but feel a little tempted. Some of them wanted to stay here and cultivate.

In seven days, he would be able to learn a lot of battle techniques, which would greatly increase his battle strength.

However, Treasure Pangolin was becoming more and more restless. As they went deeper into the Bizarre Plane, it could sense the most powerful treasures in the depths. At this moment, Treasure Pangolin was extremely excited.

Liu Yan also remembered that he still had to look for the Purple Gold Taisui. He suppressed the thought of staying here to cultivate and continued to advance.

Glancing at Ning Shanshan, who was already immersing herself in the high-grade equipment, Liu Yan said indifferently, “You cultivate here first. I’ll go deeper and take a look first.”

With that, Liu Yan left the wonderful Equipment Hall without looking back.

Chapter 188: Treasure Hall

In the dark tunnel, Liu Yan continued to go deeper.

The four teammates had already stayed in their favorite areas.

Lu Dajiang, who was a tank, stopped at the fortune area.

Wei Feng, who was a warrior, stopped at the skill area, cultivating all sorts of powerful skills.

Liu Qingrou, who was a priest, stayed in the medicinal ingredient area and used all kinds of rare medicinal herbs to increase her strength.

Ning Shanshan, who was a mage, stayed in the equipment area, trying out all kinds of high-grade equipment, and learning the corresponding combat techniques among the equipment.

Along the way, the four teammates parted away, leaving only Liu Yan alone.

As Liu Yan gradually ventured deeper into the Bizarre Plane, the number of treasures also increased.

If they could bring out treasures from any of the halls, it would be sufficient to completely change the strength of the upper house of Lighthouse Academy.

However, it was a pity that they could not bring any items out of the Bizarre Plane. They could only use and raise their strength here.

Furthermore, it was only opened once every five years, and only five people could enter each time. Hence, the slots were limited.

This time, Liu Yan walked for quite a while before a bright light gradually appeared in front of him.

The bright light was attractive.

At the same time, Liu Yan used his A-grade skill, Treasure Hunting, and detected that there were many treasures in front of him. These treasures were far more precious than any of the previous halls.

At this time, Treasure Pangolin was also extremely excited. It seemed that this was where it wanted to come to the most.

Since there was no one else around, Liu Yan let Treasure Pangolin out.

As soon as Treasure Pangolin appeared, it rushed forward in a hurry. It looked like it couldn't wait any longer.

Seeing this, Liu Yan also hurriedly followed.

After walking out of the somewhat dark tunnel, his eyes suddenly widened.

The light was a little dazzling, and Liu Yan adapted to it for a while.

Then, he looked over, and Liu Yan was shocked.

It was the Treasure Hall, and there were many treasures in the hall.

At this moment, Treasure Pangolin was already bathing in all kinds of treasures.

Liu Yan also followed Treasure Pangolin and looked at the various treasures in front of him.

[Heart Protection Mirror]

Grade: A

Effect: can protect the heart and mind, extremely strong defense

[Soul Calming Bell]

Grade: S

Effect: a mysterious ancient treasure, able to suppress the soul, repel the soul, and directly attack the soul.

...

Liu Yan looked over. There were only a few B-grade and below treasures. Almost all of them were A-grade treasures, and some were even S-grade treasures.

Liu Yan was a little surprised. Any one of these treasures was extremely precious. If he took one out of the Bizarre Plane, he would cause a huge commotion.

Although the quantity was not as much as in the previous Skill Hall, Medicinal Ingredient Hall, and Equipment Hall, there were still several hundred treasures here.

If these high-grade treasures could be taken out, perhaps the strength of the entire upper house of Lighthouse Academy could be doubled.

At this moment, Liu Yan had no time to care about Treasure Pangolin. He hurriedly searched for the Purple Gold Taisui among the many treasures.

After searching for a while, Liu Yan was a little disappointed.

Every treasure here was extremely precious, but none of them was the Purple Gold Taisui that Liu Yan needed the most.

Liu Yan looked around and was stunned.

The previous halls had an entrance and an exit.

This treasure hall only had one entrance, which was the entrance that Liu Yan had just entered.

It meant that there were no other halls anymore. This treasure hall was already the deepest place in the Bizarre Plane.

Liu Yan had carefully searched through the previous few halls but he did not see the Purple Gold Taisui.

Liu Yan was a little puzzled. According to Principal Zhong Yuntian, one could find the Purple Gold Taisui in the Bizarre Plane.

And the treasures in the Bizarre Plane could not be taken away at all, including the Purple Gold Taisui.

Liu Yan was already at the last hall. Logically speaking, the Purple Gold Taisui should be here, but he could not find it. Liu Yan was confused.

If Liu Yan could not find the Purple Gold Taisui, he could not continue his cultivation. His cultivation plan to build a perfect foundation was immediately interrupted and failed. He could not continue.

Liu Yan was instantly disappointed and confused.

Treasure Pangolin played around for a while. When it turned around and saw that Liu Yan was disappointed, it immediately revealed a puzzled expression. It could not understand why Liu Yan was still down with so many treasures here.

Liu Yan sighed, and his heart slightly calmed down.

Since he could not find the Purple Gold Taisui, Liu Yan could only accept the current situation. He had failed his mission, but he couldn't waste his time now.

After all, he still had to stay in the Bizarre Plane for seven days, and more than half of today had passed.

Liu Yan had already finished touring the entire Bizarre Plane. Now, he had to plan how to use the last few days and maximize the benefits.

Liu Yan thought about it briefly. Firstly, the treasures in the first hall were useless to Liu Yan. He couldn't bring them out at all. Those mountains of gold and silver were completely worthless, and they couldn't bring any improvement to his strength.

Liu Yan could obtain a skill in the second hall could get a skill, and he could quickly learn it because of his Divine Extract. However, it was still not worth it.

After all, Liu Yan only needed to fight with a powerful fierce beast and awakened to learn a new skill.

And in the Skill Hall, he needed to break through the protective barrier of the skill books. In seven days, Liu Yan might not be able to obtain any high-grade skills.

The medicinal ingredients in the third hall were quite good for improving Liu Yan's strength, but they did not have a significant effect.

The combat techniques in the equipment in the fourth hall were quite good.

Then, Liu Yan looked at the last hall.

These treasures were precious, and they were even more valuable than the ones in the previous hall.

Unfortunately, Liu Yan couldn't bring them out, so they weren't of much use to Liu Yan.

Besides all kinds of treasures, there were also some extremely rare high-grade casting materials here. Liu Yan's eyes lit up when he looked at them.

Liu Yan was not good at casting equipment, and he could not use these rare materials.

However, Liu Yan immediately thought of his enchanted puppet.

Liu Yan obtained the enchanted puppet on the third level of the Tower. After being upgraded, its comprehensive combat strength had already reached the combat strength of a level-8 awakened.

The advantage of the enchanted puppet was that it did not feel any pain. It did not matter if it was injured or tired. Hence, its combat strength had increased significantly.

However, as Liu Yan's strength increased rapidly, the enchanted puppet was no longer of much help to Liu Yan. As a result, Liu Yan kept the enchanted puppet in his spatial ring and did not use it.

However, when Liu Yan obtained the enchanted puppet, he also obtained the inheritance. Hence, he had the method to upgrade the enchanted puppet in his mind.

After looking around, what surprised Liu Yan was that the high-grade rare casting materials here were enough to refine and strengthen the enchanted puppet!

Chapter 189: The Direction to Advance the Enchanted Puppet

Liu Yan searched for the refining method to upgrade the enchanted puppet in his mind.

The current enchanted puppet was only at tier 2, which was around the combat strength of a level 5 to level 10 awakened.

The combat strength of an enchanted puppet was related to the material. The higher the rank of an enchanted puppet, the rarer and higher the materials needed.

In addition, the enchanted puppet also had different ways to improve its combat strength.

The most basic way was to improve its combat strength using rare and high-grade materials.

However, it would inevitably be harder to improve its combat strength this way, and the further it went, the more difficult it would be.

Because Liu Yan had the SSS-grade talent, Divine Extraction, his combat strength increased absurdly fast. Naturally, the enchanted puppet would have a harder time keeping up with Liu Yan's strength.

If the enchanted puppet could not keep up with Liu Yan's strength, it could not provide practical help to Liu Yan anymore.

Liu Yan checked and found that the materials were relatively complete. The most he could do was to increase the enchanted puppet's combat strength to tier 4. Its strength would be about the same as a level 30 awakened's combat strength.

As such, it would be helpful to Liu Yan, but not in the future.

After all, Liu Yan would need to improve himself in the upper house of Lighthouse Academy. By the time he truly entered the higher levels of Tower, his strength would have improved quite a bit.

At that time, an enchanted puppet whose combat strength was comparable to a level 30 awakened would no longer be able to provide much help to Liu Yan.

And if Liu Yan wanted to advance the enchanted puppet to tier 5 or even higher, the materials here were sufficient. All kinds of rare casting materials such as adamantine, mithril, and other rare materials were available, and it was adequate.

However, higher-level enchanted puppets also needed stronger souls.

However, Liu Yan could not find a stronger soul for the time being.

Besides the basic combat enchanted puppets, there were substitute enchanted puppets, space enchanted puppets, and life enchanted puppets.

When he saw the space enchanted puppet and life-enchanted puppet, Liu Yan's eyes instantly lit up, and he hurriedly checked them.

The space-enchanted puppet could utilize the power of space and transform into an extremely powerful assassin in space. At the same time, it possessed all sorts of functions and was extremely powerful.

As for the life-enchanted puppet, besides its original battle consciousness, it had its own thoughts. It could carry out all sorts of complicated commands from its master and had a certain amount of healing abilities. It was equivalent to a priest. When it reached a certain level, it would even have its own life and become a living being.

Afterward, Liu Yan immediately gave up after looking at the conditions for the completion of the space-enchanted puppet. Not only did it need all kinds of rare materials, but it also needed space power and life power. Currently, Liu Yan had no way of obtaining them.

As for the enchanted puppet that was further behind, Liu Yan had no intention of continuing to look at it. No matter how powerful it was, he could not obtain it. Just looking at it made his heart itch.

Liu Yan could not help but turn his gaze to the second direction, the substitute-enchanted puppet.

As its name suggested, the substitute-enchanted puppet could block a certain amount of attacks for its master.

When it reached a high level, it could directly become a substitute and help its master block fatal attack.

When Liu Yan saw this effect, he became interested. This effect was too powerful. No matter what level Liu Yan's strength had reached, he could still help him.

Liu Yan hurriedly checked the conditions. A puppet that could be used to substitute death many times required a lot of materials to make. Liu Yan had never even heard of a few of the materials. There were not enough materials here.

However, there were enough materials for the one-time use of the enchanted puppet.

Liu Yan immediately became interested and planned to refine it into a one-time use substitute enchanted puppet.

Although it could only be used once, it could save his life once.

As long as Liu Yan had this substitute enchanted puppet, he would have a second life.

No matter what danger he encountered, Liu Yan would be able to escape safely once.

According to what Liu Yan knew, the higher levels of the Tower would be extremely dangerous. There might even be a powerful fierce beast that surpassed its level.

Although a fierce beast on the first three levels of the Tower could be powerful, it would only be at a fixed level. It would not be too ridiculously strong.

However, it was not the case on the higher levels of the Tower. It was very likely that a powerful fierce beast that should have been on the eighth level would appear directly on the fourth level. As a result, the danger would increase exponentially.

On the other hand, if Liu Yan had this substitute puppet, he would be much safer. Liu Yan also had a lot of tolerance for mistakes. He could carry out some risky operations with high rewards. The rewards would be even greater. In any case, he would have a chance to avoid death.

Liu Yan took a quick look. Although refining this substitute enchanted puppet was troublesome, it should be enough to end in seven days.

Thinking of this, Liu Yan hurriedly collected all the materials he needed. He then took out the timer and looked at Treasure Pangolin, who was happily playing among the pile of treasures. He instructed, "Remember to wake me up when there are six hours left on the timer. You must remember that if you miss it, we will all be stuck here."

When happy Treasure Pangolin saw Liu Yan's solemn face, it immediately understood the importance of the matter and nodded hurriedly.

Seeing that, Liu Yan felt relieved and began to refine.

In the next few days, Liu Yan was immersed in refining the substitute enchanted puppet.

As the refinement went deeper, Liu Yan also gradually immersed himself in it.

Slowly, Liu Yan found that during the process of refining the enchanted puppet with the help of the Divine Extraction, his Divine Extraction seemed to have advanced under the influence of these treasures.

At present, Liu Yan's Divine Extraction had already advanced to tier 2 with the help of the golden fruit.

Although Liu Yan could use Divine Extraction on many things, only the fierce beast's corpse or the awakened's corpse would give a greater harvest. Only then could one obtain a large number of attributes or new skills.

After reaching tier 2, there were many improvements. As long as it was a part of the fierce beast or the awakened's gene fragment, it could also be extracted by Divine Extraction. It would yield a good harvest and be a lot more convenient.

Feeling that the Divine Extraction was about to advance, Liu Yan was a little excited.

He did not know what would happen when the Divine Extraction advanced to tier 3.

However, there was no doubt that the SSS-grade talent, Divine Extraction, would bring about a huge improvement every time it advanced. It would improve Liu Yan's strength greatly.

Immediately after, Liu Yan continued to immerse himself in it. He also intentionally came into contact with more treasures during the refining process and used more Divine Extraction to increase the grade of the materials used, allowing the Divine Extraction to complete this advancement.

While Liu Yan was immersing himself in the process, Treasure Pangolin was happily rolling and playing among a pile of treasures. Although these treasures were of no use to it, it would be thrilled as long as it could touch the treasures. From time to time, it would remember Liu Yan's instructions and look at the timer.

Chapter 190: Completed Refinement and Advancement

In the Bizarre Plane.

Liu Yan immersed himself in the refinement of the enchanted puppet. During the process, he came into contact with a pile of treasures. Liu Yan's talent and skill were showing signs of advancing again.

Time flew by. Liu Yan immersed in it for the past few days.

Six days later, Liu Yan finally completed the production of the enchanted puppet.

Looking at the new enchanted puppet in front of him, Liu Yan could not suppress the joy on his face. Liu Yan hurriedly checked the effects of the new enchanted puppet.

[Substitute-enchanted puppet (tier 3)]

Grade: A

Effects: average combat strength, but can block death for its master at any time (can only be used once)

A simple introduction showcased how powerful the new substitute-enchanted puppet was.

In the future, Liu Yan would have two lives. If he encountered any dangerous situation and could not escape, he would be able to use the substitute enchanted puppet to avoid death once.

And with that, Liu Yan's actions on the higher levels of the Tower could be more radical in the future. He could venture the places that he couldn't before. After all, there was a chance to avoid death, and he could afford to make mistake.

Although it was only one time, it was already extremely powerful.

And after using it once, if Liu Yan could continue to find the corresponding materials, he could refine it again. At that time, the substitute-enchanted puppet could help Liu Yan resist death once more.

If there were more rare materials and souls, and he could refine them into a higher-level substitute enchanted puppet, it would not be just one time.

Liu Yan hurriedly put away the enchanted puppet, and then his gaze fell on the many treasures in the hall.

These treasures were of extremely high grade. Although Liu Yan could not take them away, he could use Divine Extraction to raise the grade of these treasures.

During the refining, Liu Yan also discovered that extracting these high-grade treasures seemed to benefit his talent, Divine Extraction.

Thus, during the past few days, Liu Yan had been taking extra time to extract the various treasures in the hall.

At this point, Liu Yan's SSS-grade talent skill was already showing signs of advancing.

Each treasure could only be extracted once and raised by one grade. Plus, there were tons of treasures in the hall. In these six days, Liu Yan had only extracted half of the Divine Extraction.

After refining the substitute-enchanted puppet, Liu Yan was finally free. He immediately picked up a treasure and used Divine Extraction without even looking at it.

Notifications kept appearing before his eyes.

[Divine Extraction of Demon Subduing Tower (A-grade) successful. Congratulations: Celestial Fiend Demon Subduing Tower (S-grade)!]

[Divine Extraction of Heart-Protecting Mirror (B-grade) successful. Congratulations: Spirit-Protecting Mirror (A-grade)!]

...

Liu Yan continued to carry out Divine Extraction on these high-grade treasures. Notifications kept appearing before his eyes.

After an unknown period, a different notification finally appeared before Liu Yan's eyes.

[Congratulations, Divine Extraction (grade SSS, Tier 2) has been successfully upgraded!]

Seeing this, Liu Yan hurriedly stopped what he was doing and checked the effect of his talent skill after it had been upgraded.

[Divine Extraction (Tier 3)]

Grade: SSS

Effect: Divine Extraction can extract everything and obtain a mysterious effect.

Extraction condition: any object can extract a special effect after three seconds of contact.

Seeing the effect of Divine Extraction, Liu Yan's face was instantly filled with joy.

When Divine Extraction was at tier 1, it could extract many things, but most gains were still relatively small. Liu Yan could only get better gains by extracting the corpses of the fierce beast or the awakened.

This was why Liu Yan searched the corpses of all sorts of the fierce beast and the awakened in the Tower during that period. The awakened used the Divine Extraction to increase his strength.

Later, when the Divine Extraction advanced to tier 2, the range of the Divine Extraction became much wider. As long as there was a gene fragment, it could be extracted by Divine Extraction.

Since then, it became much more convenient. Liu Yan had obtained some skills from many fierce beasts and even some humans.

But even so, there were still certain limitations. After all, it was not easy to get a body part with a gene fragment.

But now that Divine Extraction had advanced to tier 3, everything became much more convenient.

Now, it did not need a gene fragment. Liu Yan only needed to contact the subject for three seconds to carry out Divine Extraction.

Liu Yan couldn't help but feel some anticipation. There were many outstanding students and strong instructors in the upper house of Lighthouse Academy. If he could touch all of these people for three seconds, he could use the Divine Extraction to increase his strength.

If Liu Yan could extract all of them, he didn't dare to imagine how powerful he would be.

In the past, Liu Yan didn't dare to think about this at all. But now that he had advanced to the tier of Divine Extraction, everything seemed to be much more convenient.

Although three seconds wasn't a short time, it wasn't long either. It was still relatively easy to achieve.

It wasn't like in the past, where the target could only be extracted if they were directly injured or killed. Now, as long as Liu Yan touched the target for three seconds, he could carry out the Divine Extraction. It was simply too convenient.

Liu Yan immersed himself in joy for a while. He then looked at the many high-grade treasures left in the hall.

Then, Liu Yan continued to use Divine Extraction.

Liu Yan couldn't take these treasures away even if he increased their grades.

However, during the extraction, Liu Yan's SSS grade talent, Divine Extraction, was also becoming more proficient and improved.

If he could extract all the treasures in the hall, perhaps his talent and skill would be able to advance again.

A tier 3 Divine Extraction was already so powerful. If he could advance again, Liu Yan felt that he would be invincible, so he was naturally looking forward to it.

At this time, Liu Yan did not notice that the time was almost up.

Treasure Pangolin, who was playing around, realized there were only six hours left on the timer. It quickly came to Liu Yan's side and pushed Liu Yan, trying to wake him up.

However, at this moment, Liu Yan was completely engrossed in extracting these high-grade treasures. In his eyes, there were only these high-grade treasures.

Treasure Pangolin pushed him for a while, but Liu Yan still did not have the slightest reaction. He was completely engrossed in it.

Treasure Pangolin immediately became anxious. There wasn't much time left before they left the Bizarre Plane, but Liu Yan was still immersed in it.

Treasure Pangolin looked at Liu Yan. He was obviously awake, but there were only these high-grade treasures in his eyes. He couldn't see Treasure Pangolin at all. His eyes were even slightly red. It seemed that Liu Yan had gone mad.

At this moment, Liu Yan had gone crazy. All he could think of was extracting the high-grade treasures in the hall. Then, his Divine Extraction would probably advance once more.

A tier 3 Divine Extraction was already so powerful. A tier 4 Divine Extraction should be heaven-defying!
