

Towers 191

Chapter 191: Gone Crazy

In the Treasure Hall.

Liu Yan was surrounded by a pile of treasures. Treasure Pangolin could not wake Liu Yan, and it immediately became anxious.

Soon after, Treasure Pangolin looked at the Soul Calming Bell at the side and had an idea.

It didn't know how to use other treasures, but this Soul Calming Bell was relatively simple to use.

Treasure Pangolin quickly came to the Soul Calming Bell and slammed it down.

The heavy bell rang. The bell sound penetrated deep into Liu Yan's soul. Liu Yan, who was immersed in the treasure, slowly woke up.

When Treasure Pangolin saw Liu Yan wake up, it excitedly came in front of Liu Yan and gestured.

Through telepathy, Liu Yan immediately understood what Treasure Pangolin was thinking.

It was extremely worried about Liu Yan. It could not wake Liu Yan up no matter how hard it tried. Liu Yan seemed to have changed into a different person. His eyes were even slightly red. It was only with the help of the Soul Calming Bell that he finally woke Liu Yan up.

Liu Yan came back to his senses at this time. He immediately broke out in cold sweat and was extremely scared.

Recalling the past few days, Liu Yan suddenly felt like he was in a dream. He felt a little muddle-headed.

Especially after he finished refining the substitute-enchanted puppet, Liu Yan did not have much memory. It was as if he was immersed in all kinds of treasures and could not stop at all.

At this moment, Liu Yan recalled what happened and was immediately frightened. Looking at the timer, there were still six hours before he left The Bizarre Plane.

Fortunately, Treasure Pangolin was there and woke Liu Yan up. If Liu Yan continued to immerse himself in it, he would not be able to stop at all. He would miss the time to leave The Bizarre Plane and be trapped. He might even directly die here.

Liu Yan vaguely felt that something was wrong. There seemed to be some kind of spell that could confuse people. Liu Yan had completely lost himself just now, and it was terrifying.

"It's all thanks to you."

Liu Yan smiled and touched the head of Treasure Pangolin.

The treasure-seeking pangolin was happy to receive Liu Yan's praise.

Immediately after, Liu Yan retreated to Treasure Pangolin. No matter how many treasures there were in The Bizarre Plane, they could not take any treasure out.

Liu Yan and his teammates had to return to the real world.

It was almost time. Liu Yan followed the original agreement and released the signal flare. He wanted to gather his teammates and prepared to leave together.

However, after the signal flare was released, there was no reaction.

According to the original agreement, when they saw the signal flare, they would also release the signal flare and then leave together.

However, after Liu Yan released the signal flare, there was no response at all.

Liu Yan immediately knew that something had happened to his other teammates. He had to quickly find them.

Liu Yan quickly set off. He was too lazy to take down the pile of treasures on his body. He hung them on his body first and would take them down when he left The Bizarre Plane.

Not long after, Liu Yan went to the Equipment Hall and found Ning Shanshan.

At this time, Ning Shanshan was still experimenting with all kinds of equipment to learn combat techniques. Seeing this, Liu Yan heaved a sigh of relief. It seemed that nothing had happened.

“Did you see me release the signal flare? There’s not much time left. Quickly pack up and get ready to leave. I’ll inform the others!”

As Liu Yan spoke, he did not pay much attention to Ning Shanshan and left immediately.

One by one, they came to the previous area. Their teammates were all in their original areas, doing their things. Nothing bad happened, which made Liu Yan sigh in relief.

After shouting one by one, Liu Yan finally came to the treasure hall at the front and found Lu Dajiang.

At this time, Lu Dajiang was still immersed in all kinds of mountains of gold and silver.

Seeing this, Liu Yan was a little speechless. The rest of his teammates had more or less gained something from the areas they stayed in. Lu Dajiang was the most useless one. He lay in a pile of mountains of gold and silver for more than six days, and he didn’t do anything. Lu Dajiang could not take these mountains of gold and silver. It meant that Lu Dajiang didn’t gain anything from this trip at all.

Originally, Liu Yan, Wei Feng, and the others had planned to walk forward for a while. After a while, they would call Lu Dajiang back and let him play. Then, they would get down to business.

However, Wei Feng and the others stayed in their respective areas. Even Liu Yan stayed in the Treasure Hall. He stayed for more than six days and completely forgot to inform Lu Dajiang.

Liu Yan didn’t expect Lu Dajiang could immerse himself in the useless mountain of gold and silver for more than six days. It was a total waste of precious time.

“Brother Lu, what are you still doing here? You can’t take this mountain of gold and silver out of here. It’s useless. We don’t have much time. Quickly pack up and prepare to leave The Bizarre Plane. If we miss it, we’ll have to stay here for another five years.” Liu Yan shouted.

Lu Dajiang, who was lying on a golden brick mountain, scolded Liu Yan, "What should I leave? I'm fine staying here. I can stay here for another five years. I can stay here forever."

Liu Yan was surprised when he heard Lu Dajiang's reply. He didn't expect Lu Dajiang to be so obsessed.

However, Liu Yan had to persuade Lu Dajiang. After all, when they entered The Bizarre Plane, the spatial array master had made it clear that the five of them had to enter and leave together. No one could be left behind.

If Lu Dajiang didn't leave, Liu Yan and the others wouldn't be able to leave at all. They had to stay here forever. Liu Yan wasn't willing to do so.

Liu Yan walked forward and climbed up. He came in front of Lu Dajiang and pulled Lu Dajiang. "Stop lying. Get up and get ready to leave."

"Don't mind me!" Lu Dajiang pushed Liu Yan away. His attitude was harsh. He did not have a friendly and simple-minded attitude from before.

At this moment, Liu Yan saw that Lu Dajiang's eyes were a little red. He immediately felt that something was wrong.

At this moment, Treasure Pangolin told Liu Yan that he looked like Lu Dajiang before. His face was extremely cold, and there was a red light in his eyes. He had completely changed into a different person.

Liu Yan froze for a moment, and he realized the seriousness of the matter.

When Liu Yan called out to his other teammates just now, he also felt that something was wrong. However, he didn't think too much about it at that time, and since he was rushing to inform his other teammates, he didn't pay much attention to it.

Now that he thought about it, he felt that something was very wrong. Those teammates' attitudes were extremely cold as if they didn't know Liu Yan at all.

Even Ning Shanshan, who had been picking on Liu Yan and taking shots at him in all sorts of ways, treated Liu Yan like a total stranger.

Liu Yan suddenly realized that these teammates might have been affected by something, and had already gone crazy.

There wasn't much time left, only six hours left. Liu Yan had to try to wake up these teammates one by one. He had to wake every single one of them up before he could leave this place.

If he failed to leave, he would stay here for another five years if he was lucky. If he was unlucky, he might die here!

Chapter 192: Absolute Defense

Liu Yan looked at Lu Dajiang, whose eyes were red, and immediately slapped him, wanting to wake him up.

"Dajiang, wake up quickly! We're leaving now!" Liu Yan shouted.

However, Lu Dajiang showed no signs of waking up. The red light in his eyes was even brighter.

“How dare you disturb my time with my gold and silver!” Lu Dajiang got up and roared as he rushed toward Liu Yan.

However, Lu Dajiang had lost his mind at this time. He was not as intelligent as he used to be.

Liu Yan used his superb agility to dodge Lu Dajiang’s assault instantly.

Turning his head back and looking at Lu Dajiang, whose eyes were red, Liu Yan gradually realized that he had to wake Lu Dajiang up. It was impossible to wake him up directly.

Liu Yan was strong, but Lu Dajiang’s level was too high. Liu Yan was no match for him.

However, the situation was different now. First of all, Liu Yan had many powerful treasures on him. Although they could not bring the treasures out of the Bizarre Plane, they could use these treasures there. Liu Yan was using these treasures to increase his strength temporarily.

On the other hand, Lu Dajiang only had mountains of gold, mountains of silver, and banknotes. They were not of any help in increasing his combat strength.

Lu Dajiang had lost his mind, and his combat strength dropped drastically.

In this way, Liu Yan might have a chance to defeat Lu Dajiang.

Thinking of this, Liu Yan picked up the Thunder Hammer on his back and walked forward.

The Thunder Hammer was originally an A-grade treasure, but after Liu Yan’s Divine Extraction, it had already reached S-grade, and its power was astonishing.

Even with Liu Yan’s terrifying strength, using the Thunder Hammer was strenuous.

Facing the powerful Lu Dajiang, Liu Yan didn’t dare to lower his guard. He directly activated his B-grade skill, Power of Desolation, and Liu Yan’s strength instantly received a terrifying increase.

With the strength amplification of ten times, Liu Yan could use the Thunder Hammer effortlessly.

At this moment, Lu Dajiang had already charged toward Liu Yan with a crazed expression.

Even though he did not use any skill or equipment, his terrifying stamina was not something an ordinary person could withstand.

Liu Yan immediately raised the Thunder Hammer and smashed Lu Dajiang.

“Bang!”

A loud sound rang out as the Thunder Hammer directly hit Lu Dajiang. Lu Dajiang was pushed back a few meters and fell to the ground.

However, Lu Dajiang immediately got up and charged toward Liu Yan once again.

From the looks of it, not only was he not injured, but he was pissed. The impact on his entire body was even more terrifying.

Seeing this, Liu Yan immediately clicked his tongue. Lu Dajiang was indeed one of the strongest students of the upper house of Lighthouse Academy. His strength was so terrifying. He used his physical strength to withstand the strike of the S-grade weapon, Thunder Hammer. It did not leave any marks on him.

Lu Dajiang's stamina was too overwhelming.

Immediately, the two of them continued to battle.

As the battle progressed, Liu Yan activated some elemental energy to attack.

Liu Yan's strongest attack was still using the S-grade weapon, Blade of The Night, or the S-grade weapon, Flying Cloud Mystic Bow. However, the damage would be too great, and it would hurt Lu Dajiang.

After all, Lu Dajiang was not an enemy, but a teammate. He had only temporarily lost his mind. Liu Yan only wanted to wake him up, not to hurt him.

And the process of waking him up was undoubtedly extremely difficult.

In the exchange of blows, Liu Yan had relied on the Thunder Hammer and his own powerful strength to cause quite a bit of damage to Lu Dajiang.

But at the same time, Liu Yan also received some hits. In the face of Lu Dajiang's terrifying stamina, Liu Yan was somewhat unable to hold on.

At this moment, the two were fighting in close combat.

Although Liu Yan's physical strength was not as good as Lu Dajiang's, he had the B-grade skill, Power of Desolation, to increase his strength. In addition to the way Liu Yan had trained in the Eastern Medicinal Garden, he could still barely resist Lu Dajiang.

At this moment, after close contact, Liu Yan suddenly had an idea. He remembered that he had just completed the advancement of Divine Extraction.

Liu Yan had already been in contact with Lu Dajiang for more than three seconds. So, he should be able to use Divine Extraction on Lu Dajiang. Thinking of this, Liu Yan used Divine Extraction on Lu Dajiang.

A white light enveloped Lu Dajiang, and a notification immediately appeared in front of Liu Yan.

[Divine Extraction of Lu Dajiang (A-grade talent, level 51) successful. Congratulations: Absolute Defense (A-grade) !]

[Absolute Defense]

Level: A grade

Effect: After activation, will be immune to all physical damage for a certain period, and will be physically invincible!

Current duration: 1 second (upgradable)

Current usage: 3/3,8 hours recovery time (upgradable)

When Liu Yan saw that he had successfully extracted the skill, he was a little surprised. He obtained a defensive skill, and its level had reached A-grade.

Previously, Liu Yan already had a defensive skill, Counterattack Storm, which was also a grade.

Counterattack Storm was a great defensive skill. It could defend against physical attacks as well as elemental attacks. It could also counterattack, but it was not invincible.

As for Absolute Defense, although it didn't have any offensive ability and couldn't counterattack, its defensive ability was over the top. As long as he activated Absolute Defense, he would be immune to all physical attacks.

One second might seem very short, but in reality, in a battle between experts, one second was already very long. It was enough to change the situation.

Currently, it could last for one second and could be used three times at most.

The duration and number of times of Absolute Defense could be increased as Liu Yan increased his strength.

Without a doubt, this Absolute Defense was an extremely powerful defensive skill.

If the increase in time after that lasted longer, then Liu Yan's combat strength would improve.

Seeing Lu Dajiang charging at him again, Liu Yan didn't choose to dodge this time. Instead, he directly activated the A-grade skill, Absolute Defense.

Liu Yan used the skill he had obtained from Lu Dajiang to deal with Lu Dajiang.

Immediately, Liu Yan's entire body flashed with a golden light, and he entered his invincible state.

Lu Dajiang crashed into the golden barrier, and his bulky body suddenly stopped. He could not move forward at all.

Lu Dajiang's collision also caused Liu Yan any damage.

When Liu Yan saw the effect of Absolute Defense, he immediately had a look of admiration on his face. It was truly a top-notch defense skill.

At the same time, Liu Yan's hand movements were not idle. He lifted the Thunder Hammer and used all the terrifying stamina in his body to hit Lu Dajiang.

Relying on Absolute Defense, Liu Yan was invincible. Liu Yan withstood Lu Dajiang's attacks and kept attacking Lu Dajiang at the same time.

Three seconds did not seem to be a long period, but it was enough for Liu Yan to hit Lu Dajiang seven or eight times with the Thunder Hammer.

When the third time of Absolute Defense was about to end, Lu Dajiang finally fell. The red light in his eyes gradually disappeared, and his eyes returned to normal. He gradually regained consciousness.

Chapter 193: Absolute Unrivaled

“Dajiang, how are you? Are you okay?”

Liu Yan pushed Lu Dajiang and asked.

Lu Dajiang was exhausted and a little confused. He looked like he was about to collapse. He asked faintly, “What happened to me just now?”

Liu Yan saw how clueless Lu Dajiang was and immediately understood. Lu Dajiang should have lost consciousness just now, but he still had memories.

“You must have been affected by something in Bizarre Plane. You must be alert. Don’t lose your consciousness again. I’ll call the others. We don’t have much time left. We have to wake everyone up before we can leave this place!” Liu Yan hurriedly said. Then, he quickly left.

Lu Dajiang regained his senses and looked at the mountain of gold and silver beside him. He quickly resisted the temptation and looked away from the gold and silver.

Lu Dajiang had almost lost himself in these golds and silvers.

On the other side, after Liu Yan left the Fortune Hall, he hurried to the next Skill Hall.

When Liu Yan arrived at the Skill Hall, he saw that Wei Feng was still immersed in cultivation. Wei Feng was cultivating all kinds of skills and seemed very obsessed with them.

And from the looks of his cultivation, Wei Feng had succeeded. It seemed that Wei Feng had already mastered a combination skill and was practicing it more skillfully.

“Brother Wei, wake up. We have to leave now!” Liu Yan shouted.

Wei Feng ignored Liu Yan and continued to cultivate.

At the same time, Liu Yan noticed that Wei Feng’s eyes were also slightly red, even more so than Lu Dajiang’s. Apparently, Wei Feng had also lost consciousness.

At this time, there was not much time left. Liu Yan could not waste any more time. He had to wake them up quickly.

Liu Yan came to Wei Feng’s back and grabbed Wei Feng’s shoulder, stopping him from cultivating.

“Brother Wei, stop cultivating. You’ll have plenty of time to cultivate after you get out of here.” Liu Yan shouted.

Wei Feng thought that Liu Yan had ruined his good deed, so he turned around and roared, “Don’t ruin my cultivation!”

Wei Feng directly attacked Liu Yan after roaring at him.

Liu Yan had already expected Wei Feng’s reaction. He immediately lifted his soft blade boxing gloves and activated his B-grade skill, Power of Desolation. With the strength amplification of 10 times, Liu Yan’s strength had reached a terrifying level.

At the same time, Liu Yan activated his Blazing Tyrant Fist and clashed with Wei Feng.

Wei Feng's strength was strong. Moreover, he was a warrior class, so he was good at attacking and defending.

Although Lu Dajiang was also incredibly strong, he was still a tank. Lu Dajiang was good at defense, but his offensive ability was limited.

When fighting with Wei Feng, Liu Yan instantly knew Wei Feng's offensive ability was much stronger than Lu Dajiang.

Therefore, Liu Yan used his full strength in close combat during the fight. He didn't dare to be careless.

However, Liu Yan was still at a disadvantage. He barely held on even after using treasures to increase his strength.

Liu Yan gritted his teeth and continued to parry Wei Feng.

Finally, the contact time reached three seconds. After meeting the requirements for Divine Extraction, Liu Yan directly used Divine Extraction on Wei Feng.

A white light flashed, and a notification appeared before Liu Yan's eyes.

[Divine Extraction of Wei Feng (A-grade talent, level 45) successful. Congratulations: Unrivaled (A-grade) !]

[Unrivaled (A-grade) , Absolute Defense (A-grade) , Counterattack Storm (A-grade) , Blazing Tyrant Fist (A-grade) successfully fused. Congratulations: Absolute Unrivaled (S-grade)!]

Liu Yan was a little surprised when he saw this. He did not expect that after obtaining the new skill, Unrivaled, from Wei Feng. Moreover, he could fuse the four powerful grade-A skills into one grade S skill!

Liu Yan quickly checked the skill effects of both peerless and true peerless.

[Unrivaled]

Grade: A

Effect: Offensive combination skill. Among tens of thousands of soldiers, the head of a general will be taken. It has a terrifying continuous offensive ability!

[Absolute Unrivaled]

Grade: S

Effect: Offensive and defensive combination skill. The offensive ability is terrifying and the defensive ability is also incredible. At the same time, it allows users to counterattack with explosive attacks after receiving damage. During the attack process, the fire elemental power can be fused to increase the power.

Seeing the description of the skill, Liu Yan's face was instantly filled with ecstasy. After all, it was an S-grade skill and incomparably powerful.

The previous four skills were all extremely powerful. Counterattack Storm and Absolute Defense were both powerful defensive counterattack skills. On the other hand, Blazing Tyrant Fist was a powerful explosive attack skill.

As for the Unrivaled that Liu Yan newly obtained skill from Wei Feng, it was a combination of offensive skills. Although the explosive power wasn't as terrifying as Blazing Tyrant Fist, it had the advantage of being able to maintain its combat strength. It was a combination of powerful continuous combat strength.

At this moment, the four powerful skills had directly merged into an S-grade skill, Absolute Unrivaled. It had become a powerful combination skill that could be used in both offense and defense and could be used in battle continuously.

With Absolute Unrivaled, Liu Yan's close combat strength had received a huge increase.

Facing Wei Feng who was charging at him once again, Liu Yan directly activated Absolute Unrivaled.

The terrifying S-grade skill's power allowed Liu Yan to finally face Wei Feng head-on.

Liu Yan used the skill he obtained from Wei Feng to deal with Wei Feng.

However, Liu Yan's Absolute Unrivaled was even more powerful. After all, it had merged with the other three powerful skills.

Even though Liu Yan's physical strength was weaker than Wei Feng's, Absolute Unrivaled was much stronger than Unrivaled. In an instant, he made up for the difference in physical strength between Liu Yan and Wei Feng.

The two of them were equally strong, facing each other head-on.

It had been a long time since Liu Yan fought with someone with similar strength, so he was happy.

However, after fighting for a while, there was still no winner, and Liu Yan could not wake Wei Feng up.

1

Liu Yan was aware of it. He could not continue to delay any longer because time was limited.

When Liu Yan came out from the innermost part of the Bizarre Plane to call them, there were only six hours left.

And just after waking up Lu Dajiang, there were only five hours left.

Five hours. Liu Yan had to wake up Wei Feng and the other three, and they couldn't go any further than that.

If they delayed for even one second, they would be trapped in this Bizarre Plane.

If they stayed in the Bizarre Plane, they would be unable to leave for the rest of their lives. Liu Yan didn't want this to happen.

Immediately after, Liu Yan directly activated his A-grade skill, Flame Control, and his body was covered with a terrifying fire elemental power.

Under the cover of the fire elemental power of Flame Control, the might of Absolute Unrivaled instantly increased by a lot. Liu Yan instantly suppressed Wei Feng.

Very quickly, Liu Yan gained an upper hand in the battle. He continuously launched attacks that overwhelmed Wei Feng.

In the end, Liu Yan suddenly unleashed the attack that he had just received from Wei Feng.

With the explosion, two punches sent Wei Feng flying, and he crashed into a wall far away with a loud sound.

Liu Yan stepped forward and arrived in front of Wei Feng.

At this time, Wei Feng had woken up. The red light in his eyes disappeared, and he regained his consciousness. Seeing that Liu Yan was about to step forward and attack again, Wei Feng hurriedly said, "I'm awake, stop!"

Seeing this, Liu Yan finally noticed that Wei Feng had woken up and stopped what he was doing.

"Brother Wei, you're finally awake."

Chapter 194: Purity

Wei Feng looked at Liu Yan doubtfully.

"What happened to me just now? I felt like I was bewitched, and I attacked you."

Wei Feng recalled the experience and had a puzzled look on his face.

At the same time, Wei Feng also looked a little weak. Because he had immersed himself in cultivation for many days, his body had long been exhausted.

In addition, it was unknown what had affected him, so his entire spirit was also extremely exhausted.

In the end, Liu Yan beat him up, so he looked tired.

"I'm not too sure either." Liu Yan shook his head and said, "All of you are acting like that. I just woke up Dajiang. Rest for a while. Don't look at these skill books. After we go out, we have plenty of time to cultivate. I'll hurry up and call the remaining two."

As Liu Yan said that, he hurriedly left.

Wei Feng looked at Liu Yan's back as he left, feeling extremely puzzled.

Although Wei Feng didn't have consciousness as if he was possessed just now, he still had memories. He could remember the process of fighting with Liu Yan just now.

He knew Liu Yan's talent. Liu Yan was extremely powerful and was known as a once-in-a-century genius in the academy.

However, Liu Yan had just entered the upper house of Lighthouse Academy, and his strength had yet to truly grow. Logically speaking, Wei Feng should have stronger strength than Liu Yan as a top student of the academy.

If the two of them were to fight, the situation was supposed to be one-sided, especially since Wei Feng had just learned a powerful combat skill, Unrivaled.

But the result was not what Wei Feng expected. At the start of the battle, he could only suppress Liu Yan, but he could not defeat Liu Yan.

As the battle continued, Liu Yan immediately used a new skill, and the situation was reversed.

In the end, Liu Yan increased his strength. After the fire element appeared on Liu Yan's body, Wei Feng was no match for Liu Yan and was defeated instantly.

At this moment, Wei Feng was a little puzzled. How could this junior be so strong? Liu Yan had just entered the upper house of Lighthouse Academy not long ago, but Liu Yan's strength was already not weaker than his.

On the other hand, he was also somewhat curious about the skill that Liu Yan had just used.

"Why do I feel that the skill he just used is similar to my Unrivaled? It seems to be much more profound." Wei Feng scratched his head in puzzlement.

In the Medicinal Ingredient Hall.

Liu Qingrou was currently immersed in cultivation. The medicinal ingredients and tools here were all complete. Some medicinal herbs were hard to find in the outside world, but here, they could be seen everywhere.

Liu Qingrou immediately immersed herself in it over the past few days. According to an ancient method, she used a crucible to refine an extremely powerful medicinal ingredient, Purity!

If this medicinal ingredient could be successfully refined, it would speed up the user's ability to absorb all the other medicinal herbs, and there would be almost no future problems.

The awakened could use all kinds of rare medicinal herbs to increase their strength. But when using the rare medicinal herb, some medicinal dirt would remain in the body.

The medicinal dirt would affect the user's ability to absorb the medicinal herb in the future, reducing the increase in strength.

If the amount of medicinal dirt reached a certain level, it would also affect the user's strength. If it was serious, the user might not even be able to continue increasing their strength.

Therefore, in large clans, even though there were many kinds of rare medicinal herbs, there were restrictions on the younger generation using all kinds of rare medicinal herbs. They were worried that if the younger generation used too many rare medicinal herbs, it would affect their strength. It would also affect their future potential.

However, if the awakened used Purity, they could absorb many rare and precious medicinal herbs without future problems.

Purity could speed up the absorption of medicinal herbs, and at the same time, there would be no future problems.

Previously, Liu Qingrou had already noticed the usage of Purity, but it required many types of rare and precious medicinal herbs to make one. It was difficult to see one of the ingredients, let alone gather all of them.

However, there were all kinds of rare and precious medicinal ingredients in the Medicinal Ingredient Hall.

In these few days, Liu Qingrou had finally succeeded in making Purity. At this moment, she was using Purity to absorb the medicinal effects of many medicinal ingredients.

By using Purity, Liu Qingrou could absorb many rare and precious medicinal ingredients without any side effects and quickly raise her strength.

At this moment, Liu Yan rushed to the Medicinal Ingredient Hall and shouted, "Liu Qingrou, wake up quickly. We are about to leave here!"

Liu Qingrou, who was immersed in the process, was interrupted. She immediately looked at Liu Yan with extreme dissatisfaction. Her eyes were filled with red light.

"Don't disturb me. Get lost!"

Liu Qingrou, whose eyes were filled with red light, was now facing Liu Yan with a cold expression. She did not have the gentleness that she had before.

Seeing this, Liu Yan was not surprised. He knew that Liu Qingrou was similar to Lu Dajiang and Wei Feng. At this moment, they had lost their self-awareness and only knew how to improve their strength. They did not know anything else or anyone.

Liu Yan looked at the situation in the hall and was surprised.

There used to be tons of rare and precious medicinal ingredients in the Medicinal Ingredient Hall, but they were much lesser now. It was obvious that Liu Qingrou had used them.

Liu Yan had never thought that Liu Qingrou would be able to use so many rare and precious medicinal ingredients and herbs in these few days. It was a little exaggerated.

At this moment, Liu Yan looked at Liu Qingrou and shouted again, "Liu Qingrou, there's not much time left. We have to hurry up and prepare to leave here. Otherwise, we would trap here!"

Just now in the Skill Hall, Liu Yan had used nearly two hours to fight Wei Feng.

At this point, time was extremely tight. There were only three hours left before they left the Bizarre Plane.

Within these three hours, Liu Yan needed to wake up Liu Qingrou and Ning Shanshan.

One person could not be missing. Liu Yan could only successfully leave the Bizarre Plane if he did not have enough time.

If he could not meet any of the conditions, he would not be able to leave the world of strange objects. He could only stay here. This was a situation that Liu Yan did not want to see at all.

At this moment, when Liu Qingrou heard Liu Yan's persuasion, she immediately had a displeased look on her face. Her face was filled with anger as she said, "I said stop disturbing me. Scram to the side. Don't you understand?"

As she said this, Liu Qingrou raised her hand and struck out. A ray of light directly attacked Liu Yan.

Fortunately, Liu Yan had an A-grade perception skill, Omniscient Insight. He had sensed Liu Qingrou's attack and hurriedly dodged.

The moment Liu Yan dodged, the ground suddenly shook, and the floor cracked open.

Liu Yan turned back to look and was a little surprised. He hadn't expected Liu Qingrou's attack to be so powerful. It pierced through the floor.

The floor of the world of strange objects was extremely sturdy. Even though Liu Yan and Wei Feng had fought so fiercely, they hadn't damaged the floor a bit. It showed how powerful Liu Qingrou's attack was.

Liu Yan looked at Liu Qingrou with some confusion. He didn't understand. Wasn't her a priest? She should only know healing and all sorts of support skills. Logically speaking, she shouldn't have any attack power, or her attack power was weak. Why was Liu Qingrou's attack power even stronger than Wei Feng, who was a warrior?

Chapter 195: Pure Body

Liu Yan looked at the ground that had been attacked by Liu Qingrou, his face full of confusion. He could not understand how a priest could have such a powerful attack.

At this moment, Liu Qingrou's attacks had already arrived continuously.

At this moment, it was already too late for Liu Yan to dodge. He could only Dodge in time.

Liu Yan only had two choices now. He could activate his S-grade skill, Sonic Speed, and easily dodge it. Or, he could use his newly acquired S-grade skill, Absolute Unrivaled, to take it head-on.

Naturally, Liu Yan chose Absolute Unrivaled. Liu Yan did not want to use his trump card, Sonic Speed, except his life was in danger.

A flash of light flashed across Liu Yan's body. Absolute Unrivaled activated it, and his defense increased significantly. He directly took this attack head-on.

After taking the attack head-on, Liu Yan was immediately shocked. Liu Qingrou's attack was much stronger than Wei Feng's.

Previously, when Liu Yan used Absolute Unrivaled to face Wei Feng, it was relatively easy.

However, Liu Yan could not take Liu Qingrou's attack even though he used Absolute Unrivaled.

After fighting for a while, Liu Yan quickly realized something was wrong.

After Liu Qingrou fought for a while, some rare and precious medicinal herbs flew toward her. After that, the medicinal herbs quickly withered. Obviously, Liu Qingrou had absorbed the essence of the medicinal herbs.

Liu Yan was surprised that Liu Qingrou could absorb the power of the medicinal herbs so quickly. At the same time, he also had a rough guess. The reason why Liu Qingrou's current strength was so strong was probably because of the large number of medicinal herbs.

Because Liu Qingrou had absorbed a large number of rare medicinal herbs, the power in Liu Qingrou's body was boosted for a short period. It was not inferior to Lu Dajiang and Wei Feng.

At this moment, Liu Qingrou was a priest, yet her combat strength was this terrifying.

After roughly understanding the situation, Liu Yan immediately complained bitterly in his heart. He initially thought that the priest Liu Qingrou should be the easiest to defeat and the best to wake up. In the end, it turned out to be so troublesome.

Now, withstanding Liu Qingrou's attack was already extremely difficult for Liu Yanlet alone, defeating Liu Qingrou. Liu Qingrou's light attack contained terrifying power.

However, Liu Yan's eyes were filled with anticipation. Liu Qingrou's strength had increased by so much. If he could get close to her for three seconds and use Divine Extraction, it would bring him unimaginable benefits.

Thinking of this, Liu Yan immediately activated Absolute Unrivaled and approached Liu Qingrou.

Liu Qingrou continued to attack. However, Liu Yan used Absolute Unrivaled and did not dodge. He resisted the attack and rushed forward.

Liu Yan had a hard time dodging Liu Qingrou's attacks, and it wasted a lot of time. So, he might as well not dodge.

After Liu Yan withstood several attacks from Liu Qingrou, he was already in front of Liu Qingrou.

Seeing Liu Yan approaching her, Liu Qingrou raised her hand and struck again. Her eyes were glowing with intense red lights.

However, Liu Yan raised his hand and caught Liu Qingrou's wrist, stopping Liu Qingrou's attack.

"You!"

Liu Qingrou was stopped by Liu Yan. She wanted to use her other hand to attack again but was also grabbed by Liu Yan.

Even though Liu Qingrou was a priest and her physical strength was not strong, with the support of the many rare medicinal herbs, her strength was not weaker than Liu Yan's.

Seeing that he could not hold on any longer, Liu Yan hurriedly activated his B-grade skill, Power of Desolation. His strength instantly increased by ten times, and he gained the upper hand in battle.

At this time, the contact time had already reached three seconds. Liu Yan hurriedly used his SSS-grade talent skill, Divine Extraction, on Liu Qingrou.

A white light flashed, and a notification appeared before Liu Yan's eyes.

[Divine Extraction of Liu Qingrou (A-grade talent, level 48) successful. Congratulations on obtaining Pure Body (A-grade)!]

When Liu Yan saw the notification, his eyes immediately flashed with joy. Pure Body?

Liu Yan hurriedly checked the effects of the newly obtained skill.

[Pure Body]

Grade: A-grade

Effect: Passive skill. It can significantly increase the absorption effect of medicinal ingredients, medicinal herbs, potions, and so on. It will not leave behind any medicinal dirt. During daily cultivation, it can also double the efficiency of absorbing the essence of the sun and moon, increasing strength. It will give endless benefits to future cultivation.

Seeing the effect, Liu Yan was a little surprised. He didn't expect such a passive skill to be more like a cultivation body.

Pure Body not only allowed Liu Yan to increase the absorption effect when he used all kinds of medicinal herbs in the future, but it also didn't have any side effects. In daily cultivation, it could also bring Liu Yan many benefits.

Liu Yan immediately understood. It seemed that Liu Qingrou could absorb so many medicinal herbs in the past few days because she had refined Purity. It allowed her to absorb so many rare medicinal herbs.

At the same time that he understood everything, Liu Yan also felt a little helpless.

Liu Qingrou had made Purity, allowing her to absorb the power of the surrounding rare medicinal herbs. This was why she could temporarily possess extremely powerful strength.

Such a powerful Liu Qingrou wasn't so easy to defeat. In fact, she was even harder to defeat than Wei Feng, who had just become a warrior.

At this moment, a terrifying power erupted from Liu Qingrou's body, and she broke free from Liu Yan.

Under the terrifying power, Liu Yan was sent flying dozens of meters away. He landed on the wall before stopping, and a loud sound rang out from the impact.

Liu Yan stood up with his arm. If not for the terrifying strength of his own body, he would have been either dead or injured.

Liu Yan looked at Liu Qingrou in front of him with some fear. He was thinking about how to deal with her.

Liu Yan had a stronger attack method. Whether it was the S-grade weapon, Blade of the night, or the S-grade weapon, Flying Cloud Mystic Bow, he could use elemental power to burst out with terrifying strength.

However, that would also hurt Liu Qingrou.

After all, Liu Yan only wanted to wake Liu Qingrou, not hurt her.

Moreover, if Liu Yan hurt Liu Qingrou so severely that she couldn't leave the world of strange things, Liu Yan would lose more than he gained.

Liu Yan didn't want to hurt Liu Qingrou and caused him to be trapped in the Bizarre Plane.

At this moment, Liu Qingrou didn't continue to attack Liu Yan. It seemed that the attack just now had used up a lot of her strength. At this moment, she was grabbing a pile of rare medicinal herbs and absorbing them to extract their strength.

Seeing this scene, Liu Yan's eyes immediately lit up.

Liu Qingrou used Purity to absorb the strength of these rare medicinal herbs for her own use, temporarily increasing her combat strength by a large margin. It gave Liu Yan a hard time defeating her.

Although Liu Yan did not have Purity to absorb the power of these rare medicinal herbs, he had just obtained Pure Body, so he should be able to achieve this step. He should also be able to use rare medicinal herbs like Liu Qingrou to increase his own strength temporarily.

Thinking of this, Liu Yan immediately tried it.

Regardless of whether he could temporarily increase his strength or not, Liu Yan had Pure Body and could also quickly absorb these rare medicinal herbs. It would not bring any harm to Liu Yan, only benefits.

Liu Yan grabbed a pile of rare medicinal herbs beside him. He did not look carefully at what it was and directly eat it.

In the past, Liu Yan would not have dared to swallow so many rare medicinal herbs so quickly. He might have died instantly.

However, now that he had Pure Body, Liu Yan seemed to have no scruples.

Chapter 196: Dominator

Liu Yan stuffed a pile of rare and precious medicinal herbs into his mouth and ate them.

He didn't care what kind of rare and precious medicinal herbs they were. He used his Pure Body to do whatever he wanted.

After eating the pile of medicinal herbs, Liu Yan felt that his lower abdomen was boiling hot.

Liu Yan didn't choose to slowly absorb medicinal herbs to increase his long-term strength. Instead, he directly absorbed it to temporarily increase his strength.

Soon, the medicinal herb's effects were absorbed by Liu Yan in a short period, and his body was instantly filled with strength.

Facing Liu Qingrou once again, Liu Yan was instantly filled with confidence.

He directly used Absolute Unrivaled and charged forward.

Liu Qingrou continued to attack, but Liu Yan had Absolute Unrivaled's powerful defense. In addition to the increase in strength brought by the medicinal herb, he could now withstand Liu Qingrou's continuous powerful attacks.

Not long after, Liu Yan arrived in front of Liu Qingrou. He used Absolute Unrivaled to reflect all of Liu Qingrou's attacks.

Under the powerful explosive force, Liu Qingrou was sent flying dozens of meters away and directly fainted.

Liu Yan used a healing magic treasure, the Night Healing Pearl, to quickly heal Liu Qingrou and wake her up.

When Liu Qingrou woke up, the red light in her eyes had already disappeared, and she looked exhausted.

"What happened to me just now?" Liu Qingrou looked at Liu Yan with a puzzled face.

When Liu Qingrou first came to the Medicinal Ingredient Hall, she was thrilled that there were many rare and precious medicinal herbs.

She knew how to use all kinds of rare and precious medicinal herbs, so she immediately began to use these rare medicinal ingredients.

After that, she was pleasantly surprised to find that the medicinal ingredients here were very diverse. Many rare medicinal ingredients that were rarely seen in the outside world could be found everywhere in this place, and they even met the conditions for making the stainless.

Then, she spent several days using a crucible and countless rare medicinal ingredients to make Stainless according to a specific method.

With the Stainless, she could absorb these rare medicinal herbs in large quantities without any problem.

Following that, she began to absorb these medicinal herbs to quickly increase her strength.

As Liu Qingrou absorbed them, she gradually became immersed in them. She gradually became infatuated and even lost her consciousness.

When Liu Yan stopped her just now, she didn't even think about it and directly attacked him.

When Liu Qingrou thought about it, she was extremely scared. How could she be so terrifying and powerful just now? Why did she attack her teammate?

Liu Yan's expression was also a little serious. He said, "There should be something here that can make people obsessed over something they desired. I almost did the same before. The four of you seem to be like this. I have already woke up Lu Dajiang and Wei Feng. There's not much time now. I have to hurry in and wake up Ning Shanshan. I have to wake her up before the time up. After you recover, hurry up and find Wei Feng and Lu Dajiang. We will leave this strange object world together."

Liu Qingrou came back to her senses and realized she had gone mad. She looked at Liu Yan apologetically.

She had attacked Liu Yan ruthlessly just now. Fortunately, Liu Yan was strong. Otherwise, she might have hurt Liu Yan.

"I'm really sorry about what happened just now." Liu Qingrou apologized guiltily.

"It's okay. I know you were not yourself. We don't have much time. I have to go now."

Liu Yan waved his hand and said indifferently, then quickly left.

Liu Qingrou looked at Liu Yan's back as he left, but her expression was somewhat complicated.

She felt guilty towards Liu Yan, but more than that, she was shocked.

Just now, she had absorbed so many rare medicinal herbs, and the power in her body was so terrifying. Logically speaking, Liu Yan should not be able to withstand a single blow from her.

After all, no matter how good Liu Yan's talent was, his strength had yet to truly grow.

But in the end, Liu Yan could withstand a blow from Liu Qingrou and even came to fight her.

Towards the end of the battle, Liu Yan exaggeratedly ate many rare medicinal herbs. It temporarily increased his combat strength and was enough to face Liu Qingrou.

In the end, his terrifying explosion defeated Liu Qingrou.

Liu Qingrou was a little puzzled. Wasn't Liu Yan a new student? How could he be so powerful? She felt that Liu Yan's combat strength might not be inferior to Wei Feng and Lu Dajiang.

Liu Qingrou was a little confused, but she noticed that there wasn't much time left. She realized she didn't have time to think anymore, so she immediately got up and walked outside, hurriedly meeting up with Wei Feng and Lu Dajiang.

In the tunnel, Liu Yan noticed that there was only one more hour left, and the time was getting tighter and tighter.

Liu Yan worried there wasn't enough time, so he directly used his S-grade skill, 16 times Sonic Speed. He was as fast as lightning. In the blink of an eye, Liu Yan had arrived at the Equipment Hall.

At this moment, in the Equipment Hall, Ning Shanshan's entire body was shining with golden light, and she was wearing all sorts of high-grade rare equipment.

From the looks of it, she had already worn all kinds of equipment pieces she could wear. There were seven or eight rings on her hands, which looked extremely strange.

Her back and waist were also filled with all sorts of weapons. It was obvious that she was wearing all sorts of weapons, defensive equipment, and accessories.

In addition, Ning Shanshan was carrying an ancient-looking bag, which seemed to be a storage bag.

Ning Shanshan was constantly searching for all kinds of weapons, defensive equipment, and accessories. She put these high-grade rare equipment into her storage bag, looking unsatisfied.

In the huge Equipment Hall, there were so many kinds of weapons, defensive equipment, and accessories, but Ning Shanshan had already found almost all of the equipment. It seemed that she had put all of them into her storage bag.

At this moment, Ning Shanshan's eyes were red, and she had already lost her mind.

In the beginning, Ning Shanshan still immersed herself in training in all kinds of weapons and combat techniques.

But later, as time passed, she came into contact with more and more high-grade equipment and learned many of the combat techniques. She even revealed a rare talent in mastering many combat techniques. Now, she learned a new spell, Dominator!

It was a rare spell and also an extremely rare combat technique.

The awakened could at most use one or two weapons to fight at the same time.

No matter how many weapons there were, no matter how high the grade of the weapon was, it was impossible to use them at the same time.

But after mastering the Dominator, she could control many weapons at the same time, and she could also throw weapons and activated their special spells.

Throwing a magic staff would automatically activate the spells contained in the magic staff and burst out a terrifying power.

Throwing a sword would automatically activate the powerful sword techniques contained in the sword, and unleash a terrifying combat strength.

Throwing a war hammer would automatically activate the powerful hammer techniques contained in the war hammer, which had a terrifying power.

The Dominator's special throwing attack was no longer purely a physical attack or a magic attack, but a combination of the two. At the same time, it possessed powerful magic and physical attacks, possessing terrifying explosive power.

Chapter 197: Tricky

After learning the Dominator, Ning Shanshan could use many equipment pieces in Equipment Hall.

Previously, she could only learn the combat techniques one by one. But after having the Dominator, the more equipment she had, the stronger she became.

Gradually, she began to have ideas about many weapons and equipment. She gradually became greedy and gradually became obsessed.

Liu Yan frowned when he saw Ning Shanshan's appearance. Ning Shanshan's condition seemed more serious than the other three, and her obsession was even more severe.

Ning Shanshan kept collecting all kinds of high-grade weapons and equipment wantonly. Her mind was in terrible shape.

At this time, Liu Yan did not even make a sound. When Ning Shanshan saw Liu Yan's arrival, she opened her storage bag, and more than a dozen weapons flew out and circled her. They moved rapidly as if they were ready for battle.

When Liu Yan saw this, he was a little surprised. He did not expect Ning Shanshan to be able to control so many weapons.

These weapons were all high-grade and rare weapons in the Equipment Hall. The power contained in them was naturally extremely terrifying.

Liu Yan frowned slightly and said, "Ning Shanshan, do you still have consciousness? Hurry up and follow me. We are about to leave the world of strange objects."

Hearing Liu Yan's question, Ning Shanshan did not respond. Her eyes were cold as she stared at Liu Yan.

Seeing this, Liu Yan immediately sighed helplessly. It seemed that they still had to fight for a while.

"Forget it, forget it. I'll defeat you today before leaving." Liu Yan said unhappily.

Although Ning Shanshan's strength was powerful, there was still a gap between her and Wei Feng, Lu Dajiang, and the others.

Moreover, Liu Yan had just obtained a powerful S-grade skill, Absolute Unrivaled. Furthermore, he had just eaten a large amount of rare medicinal herbs in the Medicinal Ingredient Hall. At this moment, Liu Yan's strength had temporarily increased by a large margin.

At this moment, Liu Yan was naturally more confident in his own strength. He was not afraid of Ning Shanshan at all.

As soon as Liu Yan finished speaking, he charged forward and attacked Ning Shanshan.

Ning Shanshan looked coldly at Liu Yan. With a wave of her hand, a dozen of weapons in the surroundings charged toward Liu Yan.

Liu Yan hurriedly used his S-grade skill, Absolute Unrivaled, to deal with those powerful weapons.

At the same time, Liu Yan was also somewhat puzzled. What kind of new skill had Ning Shanshan learned that she could control more than a dozen weapons at once?

These weapons were from the Equipment Hall. They were extremely rare and contained terrifying power.

Even if Liu Yan used S-grade skill Absolute Unrivaled, coupled with the increase in strength brought about by the many rare medicines in his body just now, he could only deal with these powerful weapons at this moment.

Liu Yan could only defend himself, and he could not launch an attack.

Liu Yan frowned slightly. Ning Shanshan seemed to have learned some powerful skills.

At this moment, Ning Shanshan did not seem to be satisfied with this. With a wave of her hand, more than ten weapons flew out of her storage bag.

“Sh*t! Why do you have more weapons?” Liu Yan’s expression immediately turned bitter after seeing this scene.

Liu Yan could barely deal with more than ten weapons. Now, there were more than twenty weapons. How could he withstand it?

However, Ning Shanshan had no intention of letting these weapons join the attack. Instead, she waved her hand, and one of the axe-shaped weapons flew towards Liu Yan.

Liu Yan saw that it was just a weapon flying over, and he heaved a sigh of relief in his heart.

However, Liu Yan’s expression changed drastically.

The axe that flew toward him executed a Cleave attack on Liu Yan. The power contained within it was incredibly terrifying. It was even more powerful than a dozen of weapons.

Liu Yan tried to use Absolute Unrivaled to block the axe head-on. However, after catching the axe, Liu Yan was instantly sent flying several tens of meters away. His thumb and forefinger ached.

Liu Yan struggled to get up and looked at Ning Shanshan in the distance with a face full of fear.

Originally, Liu Yan was still a little confident, but he did not expect to suffer such a huge loss. He did not expect Ning Shanshan to be so powerful.

At this moment, Ning Shanshan had already put away all her weapons. More than twenty powerful weapons surrounded her, and she could freely put them away.

Ning Shanshan looked at Liu Yan coldly and said, “Get lost!”

In the equipment hall, there were still a few pieces of equipment. Ning Shanshan seemed to be planning to continue collecting them because Liu Yan’s interruption made her extremely angry.

“I won’t leave.” Liu Yan replied unhappily, his face full of stubbornness.

Even though Ning Shanshan was unexpectedly powerful, Liu Yan still wouldn’t retreat in the slightest.

After all, if he left, he couldn’t wake Ning Shanshan up. Without Ning Shanshan, Liu Yan and the others wouldn’t be able to leave Bizarre Plane, so they had to stay in this world.

Liu Yan had to leave the world of strange objects and continue his cultivation.

Even though he did not manage to find the Purple Gold Taisui this time, Liu Yan still had to return to his cultivation. He could not afford to delay his subsequent attempts to reach the higher levels of the Tower.

When Ning Shanshan heard Liu Yan’s reply, she looked at Liu Yan coldly. Without further ado, she waved her hand, and a magic staff flew towards Liu Yan.

At the same time that the magic staff smashed toward Liu Yan, it contained a terrifying power. At the same time, a light flashed on the magic staff, and a huge flame blast spell flew toward Liu Yan. It also contained a terrifying power.

Facing the terrifying attack of both physical and magic, Liu Yan knew that even if he relied on his S-grade skill, Absolute Unrivaled, it would be difficult for him to block it. He hurriedly dodged.

However, when Liu Yan wanted to dodge the attack, the staff had already landed on the spot where Liu Yan was originally standing. A terrifying explosion spread out, and the shockwave hit Liu Yan. In an instant, Liu Yan was blown more than ten meters away and fell far away. He was in an extremely sorry state.

However, Liu Yan still stood firm as he fought. He looked at Ning Shanshan in the distance, thinking about how to deal with her.

From the looks of it, Liu Yan only had two choices. One was to use his trump card at all costs. He would use his S-grade weapon, Blade of the Night, and his s-class weapon, Flying Cloud Mystic Bow. Then, he would try to use the explosive power of Elemental Fusion to defeat Ning Shanshan.

However, if he did that, he might hurt Ning Shanshan. Without her, Liu Yan would still be unable to leave this world of strange things. It was not a situation that Liu Yan wanted to see.

The remaining method was naturally to get close to Ning Shanshan.

As long as he could get close to Ning Shanshan and touch her for three seconds, Liu Yan could use Divine Extraction on her. It was very likely that he would be able to extract this powerful new skill.

Currently, Liu Yan was not a match for Ning Shanshan. However, if he learned the same skill as Ning Shanshan, he would have a better chance of defeating her.

Thinking of this, Liu Yan hurriedly used his S-grade skill, Absolute Unrivaled, and rushed toward Ning Shanshan.

However, Ning Shanshan waved her hand, and a sword flew toward Liu Yan, containing a terrifying power.

When the treasured sword reached the middle, it directly used a powerful sword move, covering the terrifying sword qi, and attacked Liu Yan.

Chapter 198: S-grade Skill, Mastery

Facing the sword charging at him, Liu Yan used a powerful sword move that contained terrifying sword qi.

Liu Yan frowned slightly. The power was too strong, and Liu Yan could not block it head-on. He could only dodge.

While dodging, Liu Yan wanted to continue charging toward Ning Shanshan. But, another magic staff flew over and released a flame blast at the same time.

Liu Yan was outgunned by Ning Shanshan in the battle.

Ning Shanshan continuously threw all sorts of powerful weapons.

These weapons were all high-grade weapons with strong power. When they were thrown over by Ning Shanshan, they contained a powerful physical impact force.

However, when they were thrown over, these powerful weapons would also use the terrifying moves contained within. They became a terrifying attack that had both physical and magic.

Faced with such a terrifying attack, Liu Yan could only dodge.

Liu Yan was affected by the shockwaves and was blown more than ten meters away many times.

Behind Liu Yan, there was the sound of explosions.

The entire Equipment Hall was in a mess after Ning Shanshan's bombardment. It was a total mess.

Liu Yan finally caught his breath and looked at Ning Shanshan in the distance with fear.

At this moment, Ning Shanshan was like a robust magic machine gun. She kept throwing out all kinds of powerful weapons with strong power and powerful spells or moves.

On the other hand, Liu Yan found it extremely difficult to dodge, let alone take on these attacks. So, he took the initiative to attack Ning Shanshan.

This time, Liu Yan could feel the power of a powerful mage.

A powerful mage would become very strong when they used their full strength. There was basically no chance for one to defeat a powerful mage head-on.

Liu Yan once again dodged a shield thrown by Ning Shanshan. Even if he dodged, he could still feel the terrifying power generated by the shield falling not far away. The entire ground shook.

Liu Yan glanced at the timer. There was only one hour left.

Liu Yan's expression immediately became serious. In this last hour, Liu Yan had to defeat Ning Shanshan and wake her up. Then, the five of them would gather and enter the teleportation array together. Only then could they leave the Bizarre Plane unscathed.

Otherwise, they would be left in the Bizarre Plane forever and would never be able to return.

Liu Yan could not help but feel a little helpless. At this moment, he had a hard time defending Ning Shanshan's attacks. How could he defeat Ning Shanshan?

Seeing that Ning Shanshan had attacked once again, Liu Yan saw that it was already too late, so he could not care too much. He directly used his S-grade skill, 16 times Sonic Speed.

Instantly, an afterimage was left on the spot, and Liu Yan had already appeared behind Ning Shanshan.

Sixteen times Sonic Speed was already extremely terrifying. One could not catch Liu Yan's movement with naked eyes.

Liu Yan arrived behind Ning Shanshan and immediately used his S-grade skill, Absolute Unrivaled, to attack Ning Shanshan's back.

However, after a series of attacks, there was no effect at all.

As a mage, Ning Shanshan's close combat ability was not strong. However, she wore many powerful equipment pieces and had an impeccable defense. Liu Yan's melee attacks did not cause much damage to Ning Shanshan.

Liu Yan was not surprised when he saw the change. Fortunately, it had already been three seconds. Liu Yan hurriedly used his SSS grade talent skill, Divine Extraction.

A white light landed on Ning Shanshan, and a notification immediately appeared in front of Liu Yan's eyes.

[Divine Extraction of Ning Shanshan (S-grade talent, level 42) successful. Congratulations: Mastery (S-grade) !]

When Liu Yan completed the Divine Extraction, Ning Shanshan used a teleportation ring on her finger. Her figure disappeared from where she was and reappeared in the distance, pulling away from Liu Yan.

As Ning Shanshan pulled away, she launched another attack.

Ning Shanshan was even more furious as if she was attacked by Liu Yan. Then, she threw three weapons toward Liu Yan.

These three weapons simultaneously used the terrifying moves contained within them in mid-air.

Three weapons with great impact force were flying toward Liu Yan, as well as an overwhelming bombardment of magic.

Liu Yan hurriedly used his S-grade skill, Sonic Speed, to easily dodge.

At this moment, Liu Yan could not care too much. If he did not use Sonic Speed, not only would it be difficult for Liu Yan to defeat Ning Shanshan, even his defense would be extremely difficult. It would not be long before he would be beaten half to death by Ning Shanshan.

While dodging, Liu Yan finally had the time to look at the newly acquired powerful skill.

[Mastery]

Grade: S

Effect: The proficiency of all weapons will automatically be maxed out. When a new weapon is acquired, the user will automatically comprehend a powerful combat skill related to the weapon. Additionally, the user could throw weapons out. The weapon contains a terrifying physical impact, the weapon will automatically display a powerful move within it. At the same time, it will cause a magic explosion!

Seeing the powerful effect of the newly acquired skill, Liu Yan's face was instantly filled with joy.

On the bodies of the previous few people, they had only obtained an A-grade skill.

Unexpectedly, Liu Yan obtained an S-grade skill directly from Ning Shanshan's body.

And this S-grade skill Mastery was indeed worthy of being an S-grade skill. It was incredibly powerful. When using all sorts of weapons, one's proficiency would increase to the max. It meant that in the future, Liu Yan could use any type of weapon to attack.

At the same time, when he obtained a new weapon, he could automatically comprehend a related combat technique. This skill was ridiculously powerful.

In the future, if Liu Yan could come into contact with a large number of new weapons, he would be able to quickly comprehend a bunch of powerful combat techniques. It was truly overwhelming.

The most powerful part of Mastery was it allowed user to throw the weapons to launch attack. It could throw a weapon that contained a terrifying physical impact. At the same time, it also contained a terrifying magic explosion.

The combination of physical and magic attacks was incredibly powerful.

At this moment, Liu Yan finally understood why Ning Shanshan could throw a weapon. It contained such a terrifying power that even Liu Yan could not put up any resistance.

Although the message did not cause any substantial damage to Ning Shanshan and did not have any substantial attack effects, it allowed her to obtain her powerful skill through divine extraction.

Ning Shanshan had spent many days learning and comprehending the powerful fusion skill, but Liu Yan could quickly learn it through Divine Extraction. In an instant, he obtained the fruits of Ning Shanshan's efforts over the past few days.

Originally, Liu Yan could not do anything to Ning Shanshan. Now that he had a new S-grade skill Mastery, he naturally had a way to deal with her.

If he could not beat her, he would join in and use Ning Shanshan's powerful skill to deal with Ning Shanshan.

However, at this moment, Liu Yan Zhou did not have any weapons. Liu Yan naturally could not bear to throw out his S-grade weapon, Blade of the Night, and his S-grade weapon, Flying Cloud Mystic Bow.

Looking down, Liu Yan saw a pile of magic treasures on his body.

When he left the Treasure Hall, Liu Yan was carrying a pile of all kinds of powerful magic treasures.

Liu Yan laughed to himself. Although the weapons in the Equipment Hall were powerful, they were not as powerful as the treasures in the Treasure Hall. Wouldn't he be more powerful than Ning Shanshan if he threw these treasures?

Chapter 199: Intense Battle

The Equipment Hall was already in ruin.

Ning Shanshan's expression was cold as she threw another high-grade battle axe weapon over. The battle axe automatically activated the powerful combat technique contained within.

At the same time, attacks that contained physical and magic skills charged fiercely toward Liu Yan.

This time, Liu Yan did not choose to dodge. Instead, he did not even glance at it. Liu Yan casually picked up a treasure and used his S-grade skill, Mastery. Then, he threw it out.

Only then did Liu Yan notice that he had thrown out a Heart Protection Mirror.

After going through Divine Extraction, the Heart Protection Mirror had already become an A-grade treasure.

The Heart Protection Mirror flew in the mid-air and activated its combat technique. A defensive-shaped light barrier appeared around the Heart Protection Mirror and directly rushed forward as an attack skill.

Ning Shanshan threw her battle axe, and it struck the light barrier. The collision caused a flash of light. Then, the battle axe lost its momentum.

The battle axe was instantly knocked down, while the Heart Protection Mirror thrown by Liu Yan continued to fly towards Ning Shanshan.

Under the huge light shield, Ning Shanshan had no time to escape. She was knocked down to the ground by the light shield.

However, this angered Ning Shanshan even more. She got up and took out a bunch of weapons from her storage bag. She continued to throw them crazily at Liu Yan. This time, the attack was even more fierce and crazier.

Liu Yan was not afraid at all. He continued to pick up the treasures and threw them at Liu Yan.

Although he was wearing a limited number of treasures, he had a treasure storage bag. There were more than half of the treasures from the Treasure Hall in the treasure storage bag.

This storage bag belonged to Treasure Pangolin. Treasure Pangolin wanted to pack the treasures into the treasure storage bag. However, Liu Yan told it that it could not take the treasures out of the Bizarre Plane, so it could only look at them. Treasure Pangolin had no choice but to hand these treasures to Liu Yan.

However, Liu Yan did not expect these treasures would play a crucial role at this time. They became the key weapon that he used to fight against Ning Shanshan.

In the Equipment Hall, violent sounds of collisions were constantly emitted. The shockwaves kept scattering in all directions, and all kinds of lights were flashing out.

The treasures in Liu Yan's hands were all quite powerful. In addition, after Liu Yan's upgrade, they were even more powerful. Therefore, the power of his throw was slightly more powerful than the equipment in Equipment Hall.

However, the equipment in the Equipment Hall was not low-grade either. It was only slightly inferior to those treasures.

It also caused Liu Yan to have the upper hand. Although he had been suppressing Ning Shanshan, he still could not defeat her. They were still at a stalemate.

Seeing this, Liu Yan felt somewhat helpless. He could only speed up the throwing of the treasures in his hands. He hoped that he could use force Ning Shanshan used up her equipment in the storage bag. Then, he could defeat Ning Shanshan so he could wake her up.

After all, there was not much time left for Liu Yan.

They had less than half an hour left before they could leave the Bizarre Plane.

At the same time, Lu Dajiang, Wei Feng, and Liu Qingrou met up in the Fortune Hall.

The three of them had been possessed for the past few days and were immersed in their own halls. After the battle with Liu Yan, the three of them were exhausted physically and mentally. Their strength had been greatly reduced.

“You guys are here. I went mad just now. If it wasn’t for Liu Yan waking me up, I would really be finished.” Lu Dajiang rubbed the back of his head and said somewhat awkwardly.

As the leader of this mission, Lu Dajiang was also the strongest one among the five of them. Before entering the Bizarre Plane, Lu Dajiang had even promised to protect his junior, Liu Yan.

However, Lu Dajiang did not expect that after entering the Bizarre Plane, he would become the one who would drag the team down. If it was not for Liu Yan’s help, he might have harmed a few of his teammates. At this moment, Lu Dajiang was naturally a little ashamed.

Wei Feng and Liu Qingrou looked at each other. Their faces were also a little embarrassed.

“Cough, cough, Dajiang, this is normal. We have also gone mad. Those battle techniques are too tempting. In the beginning, I was still conscious, but later on, I gradually went mad. I really owe Liu Yan.” Wei Feng said somewhat helplessly.

Liu Qingrou nodded slightly and said, “My situation is similar to yours. It is also thanks to Liu Yan. This Bizarre Plane is really strange. It seems there is something that can affect our minds, causing us to go mad.”

“This Bizarre Plane is indeed very strange.” Lu Dajiang also reacted at this moment.

Wei Feng looked at the timer and said somewhat worriedly, “There is less than half an hour left. I wonder if Liu Yan will be able to wake up Ning Shanshan in time and leave together. Time is really tight.”

At this time, the intense battle in the Equipment Hall caused the entire Bizarre Plane to shake. The three of them could feel waves of shaking from the innermost Equipment Hall.

“The shaking seems to be coming from deep inside. Liu Yan and Ning Shanshan are probably fighting right now.” Liu Qingrou analyzed.

Seeing this, Lu Dajiang hurriedly said, “Looks like Liu Yan is in trouble. Should we go in and help?”

Wei Feng Thought for a while, but he shook his head and said, “Listen to the noise. The battle is very intense. We could not help Liu Yan even if we were in our best shape. We are physically and mentally exhausted, and our strength is damaged. If we go in now, not only will we not be able to help, but we will also cause trouble for Liu Yan.”

Liu Qingrou nodded slightly and agreed, “That’s right. If we go in now, we won’t be able to help much. Let’s just wait here. We can only hope that Liu Yan is strong enough to turn the tide.”

Just as Lu Dajiang and the other two were anxiously waiting in the Fortune Hall, Liu Yan and Ning Shanshan were still fighting intensely.

After an intense battle, the two of them stopped for a while and were panting heavily.

Using S-grade skill Mastery to throw high-grade weapons was a huge drain on Liu Yan and Ning Shanshan. It put a huge burden on their bodies.

At this moment, so many equipment and treasures had been thrown, and the two of them were panting.

Ning Shanshan, who had lost her mind, did not think too much. She just looked at Liu Yan coldly, as if she would not stop until Liu Yan was defeated.

Meanwhile, Liu Yan's expression was slightly serious. There was no other reason. Liu Yan's treasures had already reached the bottom, and there were only a few left.

On the other hand, although Ning Shanshan's equipment pieces were not as good as Liu Yan's treasures, she had a huge advantage in numbers. At this moment, it seemed like there were still quite a few pieces of equipment she could throw.

Other than that, the most crucial thing was time. There were only ten minutes left. Time was extremely tight. Liu Yan had to defeat Ning Shanshan as soon as possible and then leave together with his teammates. Otherwise, all of them would be trapped in Bizarre Plane.

Unfortunately, Liu Yan could not even defeat Ning Shanshan at this time. He did not have enough treasures, which meant that Liu Yan could not continue the battle.

At this moment, a thought came from the Treasure Pangolin, which seemed to be able to help Liu Yan.

Chapter 200: The Final Temptation

In the Equipment Hall.

The originally luxurious and sturdy Equipment Hall had experienced the terrifying battle between Ning Shanshan and Liu Yan just now. Under the bombardment of the two, the entire Bizarre Plane continuously trembled and suffered a certain amount of damage.

The Equipment Hall was even more severely damaged. At this moment, it was already in ruins. Some of the walls seemed to be on the verge of collapsing.

Liu Yan, who had a serious look on his face, could sense the thoughts of Treasure Pangolin.

Treasure Pangolin said it had woken Liu Yan with the treasure Soul Suppressing Bell. That treasure seemed to be very helpful in waking people who had gone mad, so Liu Yan could give it a try.

When Liu Yan heard this, his eyes immediately lit up.

Previously, Liu Yan was also used to thinking he could only wake people who had gone mad by defeating them.

However, that was not the case. Defeating Ning Shanshan was only one of the methods. Another method was to use the Soul Suppressing Bell to awaken her.

After Liu Yan's Divine Extraction, the Soul Suppressing Bell had reached S-grade. It was an effective S-grade treasure.

In addition, the Soul-suppressing Bell was a weapon that could directly attack the soul. Using the Soul Suppressing Bell to intimidate the opponent's soul would naturally have the effect of awakening those who had gone mad.

After all, Liu Yan had also been awakened by Treasure Pangolin.

Thinking of this, Liu Yan immediately saw a life-saving straw. He hurriedly searched for it and found the Soul Suppressing Bell in the corner.

At this time, Ning Shanshan had already rested and continued her fierce attacks. Two powerful weapons were thrown toward Liu Yan again.

Liu Yan conveniently used the last treasure and activated his S-grade skill Mastery. He directly threw it out to counter Ning Shanshan's attack.

As for Liu Yan himself, he directly charged toward the Soul Suppressing Bell.

In mid-air, the two powerful weapons Ning Shanshan threw collided with Liu Yan's treasure, canceling each other out.

Ning Shanshan was about to continue attacking, but at this moment, Liu Yan had already picked up the Soul Suppressing Bell and struck it fiercely.

The deep sound of the bell rang out, and Liu Yan felt his mind shake as he was slightly affected.

As for Ning Shanshan, who was facing the main impact of the Soul Suppressing Bell, she suddenly froze and immediately covered her head, looking extremely uncomfortable.

Seeing that it seemed to be effective, Liu Yan knocked on the Soul Suppressing Bell twice in succession.

Ning Shanshan directly covered her head in pain and continued to roll on the ground.

After a while, Ning Shanshan gradually sat up. Her face was full of fatigue, and her eyes were full of confusion. It was obvious that she had woken up.

Liu Yan saw that he had finally woken up Ning Shanshan and he immediately heaved a sigh of relief.

Among the four of them, Ning Shanshan was not the strongest, but the mentally deranged Ning Shanshan was the most troublesome one. It took Liu Yan a lot of effort to finally wake her up.

Fortunately, Treasure Pangolin reminded Liu Yan that he could use the Soul Suppressing Bell.

Otherwise, if the battle continued, even if Liu Yan had a way to defeat Ning Shanshan and wake her up, they would have no time to leave Bizarre Plane. At that time, Liu Yan and the others would be trapped in the world of strange objects.

At this time, Liu Yan directly came in front of Ning Shanshan.

Ning Shanshan looked at Liu Yan with a confused look and said, "What exactly happened? I seem to have had a dream just now. Why did I fight with you?"

Although Ning Shanshan did not like Liu Yan from the beginning, she was just bickering with him. After all, they were both students of the upper house of Lighthouse Academy. This time, they were temporary teammates. Ning Shanshan didn't really have the intention to fight Liu Yan.

Liu Yan smiled helplessly and said, "I'll explain when we get out. We don't have time now. We have to hurry out and meet up with the three of them to leave this place. There are only a few minutes left."

When Ning Shanshan heard this, she glanced at the timer. There were only five minutes left, and her face immediately became serious.

"Okay, I'll get up now. Let's go out and meet up with them."

As Ning Shanshan said this, she struggled to get up.

However, Ning Shanshan had gone mad and fought with Liu Yan. She had already used up too much stamina and mental strength. At this moment, Ning Shanshan was extremely tired. Just as she got up, she lost her balance and almost fell.

Seeing this, Liu Yan quickly held Ning Shanshan and asked, "How are you?"

Ning Shanshan looked a little helpless and said, "I'm fine. I'm just too tired and can't walk properly."

Seeing this, Liu Yan couldn't care less. After all, time was of the essence. He directly carried Ning Shanshan and rushed out.

Ning Shanshan, who was held in Liu Yan's arms, suddenly froze. It was the first time she was so close to a man, and her face couldn't help but blush.

From this angle, Ning Shanshan could see Liu Yan's handsome and resolute face up close.

Feeling the heat on Liu Yan's body and his firm chest, Ning Shanshan's heart could not help but beat wildly.

1

Liu Yan did not notice Ning Shanshan's reaction. He picked up Ning Shanshan and rushed out.

In less than two minutes, the two of them arrived at the Fortune Hall, the entrance to the world of rare objects.

Lu Dajiang and the other two, who were waiting anxiously, saw the situation and hurried over excitedly.

"They finally came out. There's still time!" Wei Feng said.

Liu Qingrou saw that Ning Shanshan was carried out by Liu Yan. Her expression was a little strange. She went up and asked with concern, "What happened to Ning Shanshan?"

"She's fine. She's just a little tired. Let's hurry up." Liu Yan shook his head and said.

Wei Feng looked at the time and said, "There are still four minutes left. The teleportation array will open in three minutes. At that time, the five of us must enter together!"

Liu Yan and the others nodded. They understood the importance of this matter.

At this moment, Liu Yan turned his head and saw a treasure floating not far away. It looked like a flower that was emitting purple light. It looked sacred.

Liu Yan immediately recognized it at a glance. That was the Purple Gold Taisui that he needed the most.

Liu Yan entered this strange object world to train. His main goal was to find this Purple Gold Taisui.

However, he did not expect that after searching for a few days, he could not find it. The moment when he was about to leave, this Purple Gold Taisui appeared at the last moment.

Liu Yan's eyes were filled with desire. With this Purple Gold Taisui, he could continue to build a perfect foundation for his cultivation path.

Without this Purple Gold Taisui, he would not be able to continue on his path of cultivation.

Liu Yan hesitated. If he missed this opportunity, he would wait for another five years. He did not want to wait this long.

Liu Yan was tempted and wanted to go back and get it.

While the two of them were fighting, Liu Yan could not hold it in any longer. He planned to go back and get the Purple Gold Taisui and continue on his path of cultivation.

However, at this moment, the thought of Treasure Pangolin came to Liu Yan's mind.
