Chapter 201: Everything Was Like a Dream

Liu Yan was about to go all out to grab the Purple Gold Taisui.

At this moment, Treasure Pangolin told Liu Yan not to fall for it. That Purple Gold Taisui was not a treasure at all. It was just an illusion, an illusion to lure Liu Yan.

At this moment, Liu Yan also came back to his senses. He used his A-grade skill, Treasure Hunting. Surprisingly, he did not sense any treasure in the direction of the Purple Gold Taisui.

Liu Yan could use Treasure Hunting to sense the ordinary treasures around, let alone the extremely precious Purple Gold Taisui.

Liu Yan immediately understood that he had been tricked. He quickly calmed his mind and steeled his conviction. He looked in that direction again, but it was empty. There was no Purple Gold Taisui at all.

Liu Yan was a little angry. This Bizarre Plane was too strange. It caused his four teammates to lose their sanity and almost trapped them.

Now was the last time to leave, yet Bizarre Plane still created illusions to lure him.

If not for Treasure Pangolin's warning, Liu Yan might have fallen for it.

At this time, the teleportation array had already been opened. Wei Feng and the others also shouted for Liu Yan to prepare to leave. Now was the last time.

Liu Yan turned around and used his A-grade skill, Flame Control to burn the Bizarre Plane. Then, he followed his teammates and stepped into the teleportation array without looking back.

After Liu Yan and the others left, the entire Bizarre Plane was still in flames.

In the past seven days, all the mountains of gold and silver, all types of rare equipment, high-grade medicinal ingredients and medicinal herbs, and a pile of treasures in the Bizarre Plane were all burned to ashes in the flames.

Everything in the Bizarre Plane seemed like a dream. They had disappeared in the fire, leaving Liu Yan and the others far away.

Outside the Bizarre Plane, at the door of the warehouse, Liu Yan and the others came out safely.

At this time, the five of them were a little tired after going through and fighting.

"I feel like Bizarre Plane is like a dream." Lu Dajiang recalled and felt like he had been dreaming for the past seven days.

Wei Feng nodded slightly and said with some emotion, "Bizarre Plane is really strange. We were all bewitched by it. If it wasn't for Liu Yan, we wouldn't have been able to leave safely. We would have definitely fallen into it."

"That's right. It's all thanks to Liu Yan." Liu Qingrou also thanked him.

Lu Dajiang patted Liu Yan's shoulder and said straightforwardly, "Liu Yan, I owe you favor this time. If you need help in the future, feel free to call me!"

Liu Yan touched his shoulder, which was slightly hurt, and smiled.

Lu Dajiang's strength was really strong. With just a casual pat, Liu Yan could feel the pain.

One had to know that Liu Yan's stamina was already very terrifying. Ordinary people could not hurt Liu Yan. Only Lu Dajiang's strength was strong enough to make Liu Yan feel pain with a casual pat.

Liu Yan suddenly realized that he could defeat Lu Dajiang in the Bizarre Plane because of the treasures he used.

Furthermore, Lu Dajiang had lost his mind at that time. He did not use any skill or equipment and only had brute force.

If Lu Dajiang were sober in the Bizarre Plane, it would be impossible for Liu Yan to defeat Lu Dajiang.

At this time, Ning Shanshan had also gradually regained her senses. Through their conversation, she had roughly understood the situation. She had also gone mad in the Equipment Hall. If Liu Yan had not woken her up in time and brought her out, it was likely that she would also be trapped in Bizarre Plane.

Ning Shanshan's eyes were a little strange as she glanced at Liu Yan. However, she did not say anything.

The few of them were sighing over how strange Bizarre Plane was. Everything seemed to have been a dream.

At this moment, Wei Feng sensed his body and said happily, "I still have the skills I have practiced in the Bizarre Plane. Looks like I have gained a lot!"

The rest of them also sensed their bodies.

Liu Qingrou discovered that her strength had indeed increased by a lot. Immediately, her face was filled with joy as she said, "The increase in my strength over the past seven days is much greater than what I usually gain in half a year. Moreover, there are no harmful side effects at all. I have a great harvest this time."

Ning Shanshan also discovered that she still had the combat techniques she had learned from the many treasures in the Equipment Hall. Immediately, her face was filled with wild joy as she said, "I also had a great harvest. My combat strength has increased by a lot."

The few of them were overjoyed. Only Lu Dajiang had a helpless expression as he said, "Why am I the only one who has gained nothing? I was bewitched by the mountain of gold and silver. I have wasted my opportunity."

When the others heard that, they all smiled.

Although they had lost their sanity, they got something, quite a lot actually. It could be said that their experience this time was full of rewards.

Except for Lu Dajiang, because he was obsessed with the mountain of gold and silver. It could not bring him any gains at all. He was undoubtedly the one who failed the most on this trip.

Liu Yan sensed his body for a while and realized he still got what he had obtained from the Bizarre Plane.

First of all, the enchanted puppet had been refined into a tier 3 enchanted puppet. Its combat strength had increased a little, and most importantly, it could block a fatal attack on Liu Yan, which meant that Liu Yan now had two lives. In the future, when Liu Yan entered the higher levels of the Tower, Liu Yan's experience would undoubtedly have a lot of tolerance for mistakes, and he could even try many high-risk and high-reward operations. Since he had two lives, he could be a little reckless.

Apart from that, through the Divine Extraction of a large number of high-grade treasures, Liu Yan's SSS-grade skill, Divine Extraction, had also completed its advancement. Now, he only needed to touch a target for three seconds to carry out Divine Extraction. It had become more convenient and useful.

Especially in the process of defeating and waking up his teammates, Liu Yan had also obtained a lot from them. Liu Yan basically copied what his teammates had gained.

Liu Yan had obtained an A-grade skill, Absolute Defense, from Lu Dajiang.

Liu Yan had also obtained a powerful skill from Wei Feng, and he had also triggered the fusion condition. Liu Yan combined his skills and the skill he copied from Wei Feng to form a new S-grade Skill, Absolute Unrivaled.

After that, Liu Yan also obtained Pure Body from Liu Qingrou, which was of great help to Liu Yan's subsequent training and improvement.

Finally, Liu Yan obtained S-grade skill, Mastery, from Ning Shanshan, which immediately increased the proficiency of all his weapons to the max. His combat strength increased tremendously. In the future, he could even use a powerful throwing combat technique. As long as he had a powerful weapon or treasure, he could instantly increase his combat strength significantly.

Any of the above gains alone would be a huge improvement. It would bring Liu Yan great benefits, not to mention the combination of many benefits.

This time, Liu Yan's gains were undoubtedly the greatest. After all, his own gains were not small, and he had even copied all of his teammates' gains.

Liu Yan felt regretful that he did not find the Purple Gold Taisui because he could not continue on his path of cultivation, which was to build a perfect foundation.

Chapter 202: Getting the Purple Gold Taisui

Liu Yan and the others were about to leave.

Although they had reaped a lot from this adventure in the Bizarre Plane, they were all physically and mentally exhausted.

The many days of bewitching by the Bizarre Plane had already exhausted them.

Just as they were about to leave, Lu Dajiang said in surprise, "Look inside this warehouse. Why is there a fire?"

Hearing that, they all looked inside the Southern Warehouse.

When they entered the Bizarre Plane, they didn't pay attention to the inside of the Southern Warehouse. After all, it was only a tiny house with nothing inside.

At this time, they looked inside the house. Unexpectedly, they saw a flame ball.

The flame ball was not small and was purple. Interestingly, nothing was burning inside the fire.

This flame ball seemed to be burning on its own. It looked extremely strange.

Ning Shanshan suddenly remembered something and said, "I remember when Liu Yan left the Bizarre Plane, he set a fire. Could it be that the two worlds are connected? If that the Bizarre Plane burns, this place will burn as well?"

Wei Feng also remembered and said, "That's true. At that time, the flames in the Bizarre Plane were also purple. They looked exactly the same as the flames here."

"How strange." Liu Qingrou also looked at the flames in front of her with curiosity.

Under their observation, the purple flame was burning fiercely. After a while, the flame gradually burned out.

Then, a purple thing remained after the fire became weaker. It emitted purple-gold flames and looked extremely magical.

Seeing this, the few of them were a little puzzled and walked forward to observe.

Liu Yan walked forward and was immediately stunned. The purple-gold color and its appearance were very similar to a Ganoderma. Wasn't it the Purple Gold Taisui?

"This is the Purple Gold Taisui!" Liu Yan cried out in surprise.

Liu Yan could not find the Purple Gold Taisui even after searching through the entire Bizarre Plane. When he returned to the outside world, he unexpectedly found the Purple Gold Taisui.

When the others heard this, they immediately understood.

"This is the Purple Gold Taisui. Rumor says it is an S-grade treasure. It can bring unimaginable benefits to the user when used for cultivation." Lu Dajiang said in surprise.

Wei Feng nodded slightly and said, "I have also heard about it. Many students of the Lighthouse Academy have come here to look for the Purple Gold Taisui. However, they found nothing and returned in failure."

Liu Qingrou glanced at Liu Yan and said, "Liu Yan, are you here to look for the Purple Gold Taisui this time? Before you left the Bizarre Plane, you also went mad and kept talking about the Purple Gold Taisui."

“Is that so? Do you want this Purple Gold Taisui for a special purpose?” Ning Shanshan also looked at him with puzzlement.

The few of them had heard about the power of the Purple Gold Taisui, but they had no idea how to use it.

Liu Yan didn't avoid the question. He nodded and admitted, “That's right. I came to the Bizarre Plane for the Purple Gold Taisui. I didn't expect that I couldn't find it in the Bizarre Plane. Instead, I found it here.”

At this moment, the old space array master slowly walked over and explained calmly, “In fact, the Bizarre Plane and storage rings that you've seen before are created by the Purple Gold Taisui. It has powerful spiritual power and can create illusions. It can help you improve your strength, but it can also test your mind. The reason why the school has been allowing outstanding students to enter the Bizarre Plane is actually to test the inner weaknesses of outstanding students. After all, your talents are very good. Your state of mind will be the most crucial component of your future cultivation. It allows you to overcome the hardships in the future and truly grow up to become powerful awakened ones.”

Hearing this, Liu Yan and the others finally understood.

No wonder when they were in the Bizarre Plane, they felt a little carried away, and they could not behave and think rationally.

It turned out that they were in an illusionary realm, and with the deception of the Purple Gold Taisui, it was even easier for them to lose their sanity.

Even though Liu Yan's mind was relatively firm, he eventually fell into Purple Gold Taisui's trick as well

If not for Treasure Pangolin using the Soul Suppressing Bell to wake Liu Yan up, Liu Yan would not have been able to recover from the illusion.

“I have never lost my mind before.” Wei Feng nodded.

Lu Dajiang scratched the back of his head regretfully and said with some regret, “So all the gold and silver treasures inside are illusions? They're not real at all? That's such a pity!”

Seeing this, Ning Shanshan immediately said unhappily, “Dajiang, why are you still thinking about those golds and silvers? If it weren't for those golds and silvers, you wouldn't be in such great danger this time. If you don't wake up, you won't be able to come out at all!”

Liu Qingrou was also a little surprised at this moment. She said, “I didn't expect that this illusion could be so real. It's really amazing.”

At this moment, the old man smiled and continued, “The five of you have exceeded my expectation. The previous batch of students could only successfully come out of the Purple Gold Taisui at most, but they didn't break the illusion of Purple Gold Taisui. It seems that this Purple Gold Taisui is destined to be yours. The five of you can decide on your own!”

The few of them looked at each other when they heard this. The Purple Gold Taisui was an extremely powerful treasure. Its grade was as high as an S-grade and extremely precious.

However, there was only one Purple Gold Taisui, and only one out of the five of them could obtain it.

Ning Shanshan, who had always been against Liu Yan, said, "Then give it to Liu Yan. Doesn't he need it?"

Liu Yan was surprised. He didn't expect Ning Shanshan to be the first one to speak up for him.

Lu Dajiang nodded and said, "I have no objections. If it weren't for Liu Yan, we wouldn't have been able to come out of the Bizarre Plane. It's perfectly reasonable to give this Purple Gold Taisui to Liu Yan."

Wei Feng and Liu Qingrou also nodded in agreement.

Although the Purple Gold Taisui was precious, they didn't know how to use it. Even if they got it, they couldn't maximize the benefits.

Liu Yan came to Bizarre Plane to look for the Purple Gold Taisui to continue his cultivation.

In addition, Liu Yan saved the four of them in the Bizarre Plane. He had made the biggest contribution, so he should get the Purple Gold Taisui.

In the end, everyone agreed to let Liu Yan get the Purple Gold Taisui alone.

Liu Yan didn't refuse his teammates' generosity. He nodded and said, "Thank you. I really need the Purple Gold Taisui. I'll take it, haha."

As he said this, Liu Yan went forward and put away the Purple Gold Taisui.

The only regret of this trip was that he had succeeded in obtaining the Purple Gold Taisui.

Liu Yan's trip was undoubtedly extremely successful, and he had reaped a full harvest.

At this moment, Liu Yan finally understood the spatial array master's reminder before entering the Bizarre Plane.

If one searched without a purpose, one might be able to find it.

In that case, that was indeed the case.

Liu Yan did not persist in finding the Purple Gold Taisui in the Bizarre Plane. Instead, he made good use of the treasures inside to raise his strength. He did not waste any time.

Instead, in the end, he successfully obtained the Purple Gold Taisui. Everything went surprisingly well.

Chapter 203: The Last Treasure

On the desert in the southern suburbs.

Liu Yan drove his origin powered sports car and sped past, heading towards the upper house of Lighthouse Academy.

At this moment, when Liu Yan recalled the past few days in the Bizarre Plane, he still felt like he was in a dream.

Although it was an illusion created by the Purple Gold Taisui, everything was so real. Time had passed, and he had a good harvest.

Although it was a little dreamy, the harvest of these seven days was extremely huge.

He had gained three powerful skills, and two of them were even S-grade skills.

However, Liu Yan also knew that he had gained these three powerful skills because of his powerful teammates.

Liu Yan had basically copied what they had gained for the past few days.

Apart from that, Liu Yan also got a substitute enchanted puppet, the advancement of the Divine Extraction, and obtaining the Purple Gold Taisui as he wished.

All kinds of gains were extremely rich.

Besides that, Liu Yan also became closer with his teammates, the Soul Splitting Squad.

The Soul Splitting Squad was currently the strongest in the upper house of Lighthouse Academy. It represented the strongest combat strength of the students of the upper house of Lighthouse Academy.

Liu Yan now had a deep connection with them. They might come in handy in the future.

After all, they were all extremely talented and powerful students. They would definitely ascend to the higher levels of the Tower. In the future, Liu Yan would have the chance to meet them again.

Up to this point, Liu Yan had already found three of the four treasures he needed.

After finding the last one, Liu Yan would be able to go to the principal to complete the creation of the perfect foundation.

This time, the Purple Gold Taisui he got was something else. He could not help but look forward to how powerful the perfect foundation would be.

It was noon. Liu Yan thought it was still early, so he headed straight to the office building of Lighthouse Academy.

He sped all the way to the office building.

After parking the car, Liu Yan went straight to the principal's office.

He came to the door and gently knocked on it.

"Come in."

Principal Zhong Yuntian's kind voice sounded.

Liu Yan pushed the door open and entered.

Zhong Yuntian raised his head and saw that it was Liu Yan. He saw how cheerful Liu Yan was and immediately guessed the result.

"It seems that you have a fruitful yield. Did you obtain the Purple Gold Taisui?" Zhong Yuntian asked.

"Yes, I have obtained the Purple Gold Taisui." Liu Yan nodded and replied.

"Not bad." Zhong Yuntian praised.

Zhong Yuntian knew how hard was it to get the Purple Gold Taisui. It was a huge test of one's temperament. Liu Yan was able to complete the test on time and finally obtain the Purple Gold Taisui. He must have experienced great difficulties.

Zhong Yuntian said nostalgically, "It seems you have experienced many difficulties on this trip. Thinking back to the time when I was cultivating, I also experienced all kinds of difficulties. At that time, I felt frustrated and exhausted, but now it becomes a fond memory. Those were the times."

When Liu Yan heard Zhong Yuntian's words, he looked at Zhong Yuntian with slight confusion. He did not quite understand what Zhong Yuntian meant.

Zhong Yuntian looked at Liu Yan's somewhat dazed look. He immediately smiled and said, "You will understand in the future. Although it is hard to climb the Tower along with the challenges and even life-threatening dangers at any time, it is also the best time for you to improve yourselves. When you are on the battlefield in the future, you will truly understand what cruelty is."

Liu Yan seemed to understand a little when he heard this, but he didn't understand the details.

After all, Liu Yan was inexperienced and hadn't gone to the battlefield. So, he couldn't understand Zhong Yuntian's current state of mind.

Zhong Yuntian waved his hand and said with a smile, "Alright, let's not talk about this anymore. Let's talk about your next treasure acquisition, which is also your last treasure."

Liu Yan heard this and immediately became interested. He looked at Zhong Yuntian.

After all, Liu Yan had already found three of the four treasures needed to create a perfect foundation. He was only missing this last one.

Liu Yan looked forward to collecting the last treasure to create a perfect foundation.

Principal Zhong Yuntian's face turned cold. He began to explain, "This last treasure is the Earth Dragon's Blood needed for blood refinement. You need to go to the Northern Hunting Ground and hunt the Earth Dragon there to obtain its dragon's blood!"

"Earth Dragon?" Liu Yan was immediately filled with anticipation after hearing Zhong Yuntian.

All fierce beasts that were related to dragons were insanely strong. Just like the Ancient Draconic Croc that Liu Yan met on the third level of the Tower. It was originally just a crocodile. One day, it absorbed a little of the dragon's blood and grew into such a powerful SS-grade fierce beast.

If its strength was not restricted, it would not be killed by Liu Yan. Furthermore, the Ancient Draconic Croc would have slowly grown up to be extremely terrifying if it had not met Liu Yan.

An SS-grade fierce beast had unlimited growth potential.

This time, Liu Yan needed to hunt the Earth Dragon. Liu Yan couldn't help but be somewhat expectant. When the time came, what kind of huge harvest could the Earth Dragon bring to him through the Divine Extraction?

Liu Yan was excited, but Principal Zhong Yuntian thought Liu Yan was shocked.

Zhong Yuntian hurriedly smiled and said, "Don't worry, it's just an Earth Dragon. Although it has the bloodline of a dragon, it's extremely rare and hasn't grown up yet. However, this Earth Dragon's strength is still not weak. Its potential is S-grade, and its level has reached level 40. It might be a little difficult for you. You can find your own teammates to hunt it. No matter what method you use, as long as you can obtain the Earth Dragon's Blood in the end."

Hearing this, Liu Yan heaved a sigh of relief. Potential of S-grade and level 40. Although Earth Dragon was powerful, Liu Yan was still confident in fighting it. It was just that he would need to expend some effort.

Previously, he could even deal with the SS-grade Ancient Draconic Croc, Liu Yan, let alone an S-grade fierce beast.

However, Liu Yan knew why he was able to deal with the SS-grade Ancient Draconic Croc back then. It was because the Ancient Draconic Croc had been suppressed, and its strength had been greatly restricted.

If the Ancient Draconic Croc was not suppressed, Liu Yan might not have been a match for it at its peak.

However, the current Liu Yan was no longer the same as before. During these few days in the upper house of Lighthouse Academy, especially during these three training sessions, Liu Yan's strength had received a huge increase in all aspects. His overall combat strength had also increased by several times.

"I understand. I will hunt down the Earth Dragon and get its blood as soon as possible." Liu Yan nodded his head and replied.

Zhong Yuntian saw that Liu Yan did not show any fear, he immediately nodded his head in satisfaction and said, "Not bad. This is very good. Even if the opponent is strong, it is not undefeatable. Just think of a way to overcome the difficulties and win. However, the Earth Dragon rarely appears in the Northern Hunting Ground. It only appears on Sunday. You can go there every Sunday to try your luck. However, you also need to be prepared. You have to make sure you are strong enough to hunt the Earth Dragon. Otherwise, you will end up horribly. That's about it. After you obtain it, come and find me. I will give you the materials needed to refine your internal organs and help you build a perfect foundation!"

"Okay, I understand." Liu Yan replied.

Following that, Principal Zhong Yuntian instructed Liu Yan to leave after telling Liu Yan about some matters he needed to pay attention to in the Northern Hunting Ground.

Chapter 204: Awkward Atmosphere

Liu Yan left the principal's office and returned to his car. He used his smart wristband to search for information about the Northern Hunting Ground.

Unlike the previous three training grounds, which had very little information, the Northern Hunting Ground was a completely open venue for the upper house of Lighthouse Academy. Therefore, he could search for a lot of information about Northern Hunting Ground.

According to the information he had obtained from the smart wristband, Liu Yan had a rough understanding of it as well.

The Northern Hunting Ground was a place that allowed all the students and even instructors to enter. Its hunting grounds were divided into several levels. They were the basic hunting grounds, the intermediate hunting grounds, the advanced hunting grounds, and the top hunting grounds.

According to the information that Liu Yan had obtained, the talent of the fierce beast in the basic hunting grounds was around D-grade, and there were high and low levels fierce beasts.

The grade of the fierce beast in the intermediate hunting ground was generally C-grade.

The grade of the advanced hunting ground was B-grade.

And in the last top hunting ground, most of the fierce beasts were A-grade, and a few S-grade or above fierce beasts.

The fierce beasts in the basic hunting ground, intermediate hunting ground, and advanced hunting ground were the fierce beasts that the academy raised. These fierce beasts were for the students to train their actual combat experience. The students could also capture them as pets.

As for the top-grade hunting ground, it was different from the previous three hunting grounds. There were even fundamental differences.

The top-grade hunting ground was connected to another plane. As for which plane it was, they couldn't find out. They only knew that there were all sorts of the powerful fierce beast inside.

Fortunately, the top-grade hunting grounds also had a protective field. As long as one was inside, they could leave at any time through the smart wristband, reducing the probability of accidents and dangers.

The Earth Dragon's Blood that Liu Yan needed was only obtainable from the Earth Dragon in the top hunting ground.

However, because of the special nature of the top hunting ground, it would only be open for one day on Sunday. It would be close for the rest of the days in the week.

Liu Yan looked at the date. Today was still Thursday. He had to wait two more days.

However, Liu Yan felt that the last treasure was the simplest to get out of the four treasures.

Previously, Liu Yan had to spend a lot of time and effort to obtain the ten-thousand-year-old ginseng from the Eastern Medicine Garden.

Searching for the ice chalcedony in the Western Mine was akin to finding a needle in a haystack. If Liu Yan did not have the A-grade skill Omniscient Insight and his lucky encounter with Treasure Pangolin, he would not be able to find the ice chalcedony easily.

As for the Purple Gold Taisui that he had just obtained, he had also experienced many dangers before obtaining it.

On the other hand, Liu Yan felt that it was relatively easier to get the last treasure, the Earth Dragon's Blood.

After all, Liu Yan's combat strength was almost enough. As long as he could successfully encounter the Earth Dragon, it would be relatively easy to obtain the Earth Dragon's Blood after a battle, not to mention completing the hunt.

Liu Yan knew he was strong enough to fight the Earth Dragon, but Principal Zhong did not think so. So, Principal Zhong asked Liu Yan to find some strong teammates to help him.

Up until now, the most difficult thing was to encounter the Earth Dragon.

After all, Liu Yan could enter the top hunting ground in the Northern Hunting Ground on Sunday. He had to try his luck to look for the Earth Dragon. The probability was undoubtedly low, and he really needed some good luck.

"Forget it, I'll just go there a few more times. I don't believe I won't be able to meet it."

Liu Yan muttered.

Then, Liu Yan drove his origin powered sports car back to his villa.

There were still two days left until Sunday. Liu Yan planned to rest in the villa for two days.

When he returned to the villa, the three women had already returned. They were busy cooking dinner together.

When the three women saw that Liu Yan had returned, they were little surprised.

When Chu Long saw that Liu Yan had returned, she was naturally extremely happy. She hopped over to Liu Yan.

"Brother Liu Yan, you're back! I'm going to cook a few new dishes today. When the time comes, you can have good taste!" Chu Long said with a joyous face.

Liu Yan patted Chu Long's head and said with a smile, "Is that so? You can cook now?"

Liu Yan and Chu Long had been neighbors since they were young, and they had played together since they were young.

Liu Yan knew Chu Long well.

Although Chu Long was the most obedient one, she was lazy to learn how to cook. She didn't know how to cook an egg before, but now she was cooking them dinner.

"Yes, I learned it from Sister Luo Qingcheng. I have to learn how to cook if I am going to the higher levels of the Tower." Chu Long nodded slightly.

Liu Yan smiled and patted Chu Long's head. He also realized Chu Long had changed during this period.

After all, she would encounter all kinds of situations in the Tower.

Chu Long had also gradually grown up. In fact, her temperament had already matured a little

Liu Yan immediately raised his head and saw a pair of somewhat resentful eyes. It was Murong Xue.

When he left the villa last time, Liu Yan 'took revenge' on Murong Xue. Murong Xue probably still held a grudge against him.

When Liu Yan thought of what happened last time, he felt a little embarrassed. At that time, he was too hot-headed and didn't think about the aftermath.

Although Murong Xue had a fierce personality, she was still a woman after all. She still cared about her dignity.

Meanwhile, Luo Qingcheng was watching a good show from the side.

"If you can do it yourself, do it yourself." Luo Qingcheng whispered to Liu Yan.

"Ahem." Liu Yan looked a little embarrassed, but he knew that this matter had to be solved, and he couldn't keep avoiding it.

Immediately, Liu Yan walked forward.

"What are you doing? I'm free today, so I'll help you do it together." Liu Yan said.

Murong Xue said in a bad mood, "Who needs your help!"

Seeing this, Luo Qingcheng tactfully pulled Chu Long away.

"Chu Long, didn't you say you need me to help you with some questions? Let's go now." Murong Xue said.

Hearing this, Chu Long said with some doubt, "Ah? Now? Why don't I go and help them cook first, and then I'll learn it at night."

Murong Xue glanced at Chu Long with an innocent expression. It seemed that she really could not read the room.

"It's okay. They'll be fine. Let's do it now."

As she said this, Murong Xue pulled Chu Long away.

Chu Long turned around and glanced at Murong Xue and Liu Yan. Her face was full of question marks. She felt these two people were acting weird, but she did not know what was strange about them.

In a short while, only Liu Yan and Murong Xue were left in the kitchen.

The atmosphere was a little awkward for a moment. The two of them were silent and didn't know what to say.

Liu Yan thought about it while helping out, but he still took the initiative to ask, "Oh right, I've been busy with my cultivation during this period. How's your progress in the Combat Technique School? Is there anything I can help you with?"

"I'm doing fine. I don't need your help." Murong Xue's attitude was cold.

For a moment, the atmosphere fell silent again.

Liu Yan went speechless, not knowing what to do.

If he had known earlier, he wouldn't have been so impulsive that day.

Chapter 205: Detente

In the kitchen.

The atmosphere was a little awkward. Liu Yan turned his head and saw some of Murong Xue's books. They were all about the Northern Hunting Ground. It seemed that Murong Xue had been studying the hunting grounds in the Northern Hunting Ground recently.

"Are you going to train in Northern Hunting Ground? I happen to be going there as well." Liu Yan said.

Murong Xue finally broke her silence when she heard Liu Yan mention the Northern Hunting Ground.

"Really? Are you going too? I need a strong teammate. When the time comes..."

Murong Xue stopped her sentence. Only then did she remember that she intended not to speak with Liu Yan. At the end, when Liu Yan mentioned the Northern Hunting Ground, she could not hold back anymore.

Recently, Murong Xue had been worrying about this too.

During this period, Murong Xue had been training hard in combat techniques, but she had also achieved some results. She had learned some powerful combat techniques, and her combat strength had increased significantly.

Although she was already extremely familiar with the new combat techniques, she only used them in the hunting ground so far. She had not used them on the battlefield, so she needed to train properly.

Northern Hunting Ground would be the best choice for her training. Murong Xue could practice her combat techniques by fighting the fierce beasts on the hunting ground.

However, Murong Xue started to feel a little worried after knowing some information about Northern Hunting Ground.

Currently, Murong Xue's combat strength was not ordinary. The advanced ground and below were unable to satisfy Murong Xue's need. The B-grade and the fierce beast below B-grade did not pose much of a challenge to her, and training in these areas did not have much of an effect on her.

The top ground would be the best choice. The lowest grade fierce beats in there was A-grade. It was incomparably powerful and could meet the intensity of training that Murong Xue needed.

However, Murong Xue encountered a tricky problem. The top hunting ground was also extremely dangerous. The situation inside was complicated.

If she were to deal with an A-grade fierce beast, she could get rid of it with her full strength. Even if she was unable to defeat an S-grade fierce beast, she could still barely escape.

However, she would be in great danger if she encountered many A-grade or even S-grade fierce beasts.

Under such circumstances, the most suitable solution was to go to the training with strong teammates. At that time, they would have each other's back, so it would be much safer.

Normally, the students would go to the Northern Hunting Ground in a group. After all, there were tons of fierce beasts in there, and accidents could happen. It was safer to go in a group.

However, Murong Xue had no other choice. Liu Yan had been busy with his own cultivation recently. Although Luo Qingcheng and Chu Long were important students of Lighthouse Academy, they were not the combat type awakened. Their combat strength was limited.

Hence, it was not safe for the three girls to go to the Northern Hunting Ground alone.

As for the other students of the same level in the Combat Technique School, their strength was incomparable to Murong Xue. Murong Xue could not find a suitable teammate in the school who could enter the top hunting ground in the Northern Hunting Ground with her.

After a while, Murong Xue still could not find a suitable teammate. She was even thinking about whether or not she should go and try it out with the senior students.

When Murong Xue heard that Liu Yan was also going to the top hunting ground, she could not help but start chatting with him.

At this moment, Murong Xue came to her senses and looked at Liu Yan with an awkward expression. Murong Xue still did not want to talk to Liu Yan, but she wanted to go to the training ground with Liu Yan.

She was very clear about Liu Yan's strength. Liu Yan was extremely powerful. He had once defeated an SS-grade fierce beast on the third level of the Tower.

If she could go with Liu Yan, the two of them would be enough. There was no need to look for another powerful teammate.

At this moment, Liu Yan saw that Murong Xue wanted to speak but did not want to. He immediately felt that it was a little funny, he took the initiative and said, "Do you want to go with me? It should be quite dangerous to go to the top hunting ground alone. Why don't we go together, so that we don't have to look for another powerful teammate?"

Murong Xue hesitated for a moment, but she couldn't help but agree.

After this incident, their relationship finally began to ease up a little.

Soon, they finished preparing dinner together. Then, Liu Yan and the three girls ate together.

Previously, Liu Yan had been busy with his own cultivation, so he did not have time to hang out with the three girls.

Now that he finally had a short break to spend time with the girls.

During the meal, a few of them chatted, and Liu Yan also learned about the current situation of the three girls.

Murong Xue was the most hard-working one during this period. She had been continuously cultivating all kinds of powerful combat techniques and training to increase her combat power. The speed of her learning and improvement was terrifying, and she was extremely famous in the entire Combat

Technique School. Murong Xue had even impressed the higher-ups of the Combat Technique School. They once again increased the investment in resources for her.

Meanwhile, Luo Qingcheng was also doing quite well. Although her talent in combat power was not impressive, her talent in commanding was very good, and she was getting attention from the higher-ups. Recently, she had also been busy learning all kinds of knowledge in commanding.

As for Chu Long, she could be considered the simplest among the three girls. Her direction of development was to become a powerful support member.

As for the other support in logistics, she did not need to consider learning it. After all, with such a great healing talent, she would become strong support in the future.

Because Chu Long had a good talent for support and healing, it was extremely easy for her to learn the new knowledge. During this period, Chu Long was naturally the most relaxed among the three girls.

After the three girls finished talking about their respective situations, Murong Xue could not help but look at Liu Yan curiously and asked, "What exactly have you been busy with during this time? We haven't seen you for a long time. You were not in the Lighthouse Academy, right?"

Upon hearing this, Luo Qingcheng and Chu Long also looked at Liu Yan curiously.

During this period, Liu Yan's whereabouts were mysterious in their eyes. They couldn't see Liu Yan at all. Once in a while, they would see him, and the next day, he would leave without a trace.

Luo Qingcheng added, "Two days ago, I also heard the vice principal of our Command School, Ye He, complaining that the principal's actions were too unethical. On the surface, you belong to the four great schools and the principal's joint training. However, you only went to the Command School on the first day. After that, you have been busy and have never been there again."

Murong Xue and Chu Long nodded in agreement.

"Our Combat Technique School's vice principal, Shi Tian, has also complained."

"Our Support School's vice principal, Yu Zhitong, has also complained."

Hearing this, Liu Yan also remembered that he hadn't been to the four great schools for a while.

Originally, he had to go to the four great schools on the first four days of every week.

In the end, Liu Yan was busy with his cultivation path, so he naturally didn't have time to go to the four great schools.

At the very least, the four great schools placed great importance on Liu Yan. On the first day, they each gave Liu Yan great benefits.

Liu Yan pondered. He was free on these two days, so he had to go to the four great schools. At the very least, he had to put on an act.

Faced with the doubts of the three women, Liu Yan smiled mysteriously and said, "Cough cough, I can't reveal what I have been doing during this period. It's a secret. When we go to the higher levels of the Tower, I will tell you."

Chapter 206: To the Weapon School

The three girls now knew Liu Yan was hiding something. Although they were curious, they had no way of knowing.

“If you don’t want to say it, then save it. Who cares?” Murong Xue said in a bad mood.

They knew that Liu Yan’s matter was a secret. After all, the principal decided to train Liu Yan personally, so they didn’t ask any more questions.

They also guessed that it should be a tough cultivation. Perhaps, Liu Yan’s improvement during this period would be even more terrifying than the three of them.

Chu Long and Luo Qingcheng did not really care about these things. They were not combat personnel, so they did not really care about these things.

In addition, Liu Yan was their teammate. The improvement of Liu Yan’s strength was actually a good thing for them.

Meanwhile, Murong Xue felt a little helpless in her heart. When she first met Liu Yan on the second and a half levels of the Tower, she felt that she was no weaker than Liu Yan. In fact, she even thought that they were on par.

Murong Xue had been working hard on the first three levels of the Tower. Now, she worked even harder in Lighthouse Academy to increase her strength as fast as possible.

However, she found that the gap between her and Liu Yan became bigger and bigger.

Murong Xue looked at Liu Yan helplessly. She couldn’t understand how this guy’s strength could increase so quickly. His talent was really outstanding

The next day at noon.

Liu Yan woke up later than usual. He walked out of Luo Qingcheng’s room.

The three girls had all gone to their respective schools early in the morning, busy with their studies and cultivation. On the contrary, Liu Yan had a rare chance to relax in the past two days.

The top hunting ground in the Northern Hunting Ground would only open on Sunday. Liu Yan could freely use his free time during these two days.

Liu Yan thought for a moment and decided to make a trip to the Weapon School first.

Liu Yan went to the Weapon School first. When Liu Yan was in the Western Mine, besides finding the ice chalcedony, he also obtained a pile of rare ores from Treasure Pangolin.

The precious mithril was the most ordinary item among these ores.

Liu Yan could not recognize most of the rare ores before.

However, Liu Yan currently had the Treasure Hunting skill. He understood these ores were extremely rare. Perhaps they could be made into high-grade equipment.

And the best place to make equipment was undoubtedly the Weapon School.

Liu Yan directly drove to the Weapon School. After entering, he came to the vice principal's office and knocked on the door.

"Come in!"

The cold voice of the vice principal of the Weapon School, Ling Feng, was heard.

Liu Yan pushed the door open and walked in. He said respectfully, "Vice Principal Ling."

Ling Feng was a little surprised to see that it was Liu Yan who had arrived.

During this period, Liu Yan disappeared many times.

Just like the other vice principal, Ling Feng had asked Principal Zhong about Liu Yan, but he received the same reply. Principal Zhong said Liu Yan was busy with his special cultivation, so he didn't have the time to go to the four great schools for the time being.

It made the vice principal of the few schools furious. After all, they had previously agreed that Liu Yan belonged to the four great schools and was jointly nurtured by Principal Zhong. In the end, Principal Zhong had taken all of Liu Yan's time, so the vice principals were not happy.

Although Principal Zhong was powerful, the four great schools each had their extraordinary aspects. After all, to be able to stand tall in the upper house of Lighthouse Academy for so many years, they still had quite a bit of foundation. Naturally, they all wanted to teach Liu Yan their special knowledge and skills.

However, Principal Zhong did not care about their unwillingness. He only said that Liu Yan indeed had important cultivation recently and that Liu Yan could only go to the four great schools after the important cultivation.

The vice principals of the four great schools tried to negotiate with Principal Zhong but to no avail. They could only helplessly return to their respective schools and wait for the results.

When Ling Feng saw Liu Yan's arrival, he was naturally a little surprised. Ling Feng frowned slightly and said, "Have you finished your cultivation with Principal Zhong? Why do you have the time to come to my place?"

When Liu Yan heard Ling Feng's words, Liu Yan felt a tinge of jealousy in Ling Feng's cold tone.

After all, Ling Feng had given him a set of excellent equipment on the first day. At this moment, Liu Yan was still a little embarrassed. After all, he had taken a gift from Ling Feng.

Liu Yan scratched his head. He smiled awkwardly and said, "Cough cough, Vice Principal Ling, I'm sorry. I've had some special circumstances recently, so I haven't come to the Weapon School recently. The principal's special training hasn't ended yet. I'm only here temporarily because I'm free."

Seeing Liu Yan's attitude, the anger in Ling Feng's heart was immediately reduced by half.

He understood the principal and Liu Yan quite well. Having special training could greatly increase one's strength, so it was the most important thing.

“Alright, alright. I know about that. I won’t argue with you. Tell me, why did you come to find me today?” Ling Feng’s tone was slightly gentler.

Although Ling Feng had always been overbearing, his attitude towards Liu Yan was somewhat different.

After all, Liu Yan was a rare genius that only appeared once in a hundred years. Besides, Ling Feng was quite impressed by Liu Yan’s state of mind and attitude.

It was rare to see a genius that could have such an exaggerated talent yet possess a calm state of mind.

Therefore, when he first met Liu Yan, Ling Feng had already determined that Liu Yan would definitely grow into a top-notch expert in the future. It was also why he wanted to participate in the training of Liu Yan and teach Liu Yan everything he learned.

It was a pity that Liu Yan had been busy with special cultivation recently and didn’t have much time, so Ling Feng hadn’t had the opportunity to teach Liu Yan.

When Liu Yan heard Li Feng, he directly opened his storage ring and took out a pile of rare ores.

“Vice Principal Ling, I recently obtained a batch of rare ores by chance. The quality should be very good. I like to ask you to check on them.” Liu Yan said with a smile.

The moment Liu Yan took out these rare ores, Treasure Pangolin let out a dissatisfied voice. It said that these rare ores belonged to it. How could Liu Yan take them out for others to see and even use them?

Liu Yan comforted Treasure Pangolin in his heart. They had been keeping these rare ores. It would be better to put them into good use. Otherwise, it would be very wasteful.

However, Treasure Pangolin didn’t listen to Liu Yan at all. It continued to clamor for Liu Yan to take back the rare ores.

Knowing that he couldn’t persuade Treasure Pangolin, Liu Yan didn’t bother with it anymore. In any case, Treasure Pangolin was now put away. If Liu Yan didn’t let it out, it wouldn’t be able to come out at all. It wouldn’t be able to do anything to Liu Yan.

When Ling Feng heard Liu Yan’s words, he glanced at Liu Yan. As the vice principal of the Weapon School, he had seen all kinds of rare ores before. Naturally, he didn’t care much about the rare ores that Liu Yan took out.

Ling Feng said somewhat helplessly, “I am the vice principal of the Weapon School. If you want to identify these ores, you can take them to the Identification Department. You can also study there. Such small matter...”

However, halfway through his words, Ling Feng suddenly stopped.

When Ling Feng saw the rare ores that Liu Yan took out, his face was filled with disbelief and shock.

Ling Feng couldn’t believe the scene in front of him. Some rare ores were almost extinct!

Chapter 207: A Good Load of Treasures

Liu Yan saw Ling Feng's shocked expression and was certain that these rare ores were indeed very precious. Liu Yan was glad that he had a good harvest.

Meanwhile, Treasure Pangolin was extremely mad. It regretted giving these rare ores to Liu Yan back then.

But at this moment, it was already too late.

Liu Yan looked at Ling Feng and said with a smile, "Vice Principal Ling, how is it? This batch of rare ores should be pretty good, right?"

Ling Feng did not reply to Liu Yan's words. Instead, he walked over to the rare ores that Liu Yan had taken out with a face full of disbelief. He looked at each of them carefully as if he was afraid of damaging these rare ores.

Ling Feng, who had always been arrogant, had such an expression and action at this moment. The scene looked really strange.

Only Liu Yan and Ling Feng were in this office. If there were other people present, they would definitely be extremely shocked. If people spread Ling Feng's reaction out, it would cause a huge commotion within the Lighthouse Academy.

Ling Feng picked up a gray ore and carefully observed it a few times. His voice was slightly trembling as he said, "This is Titan Iron, a top-grade rare ore that can be used to forge S-grade defensive equipment!"

Ling Feng picked up one rare ore after another. After carefully observing and identifying them, his face was filled with shock.

"This is Nether Iron, an ore that can be used to forge S-grade staffs!"

"This burning iron is not bad either. It's an ore that can be used to forge weapons and defensive equipment above A-grade. It's not easy to get this many burning irons."

"This is mithril, a rare ore that can be used to forge high-grade storage rings."

"This is Yanji Ore, a rare ore that can be used to forge special equipment!"

Ling Feng finished identifying the ores one by one. They were all extremely rare ores.

Even the worst one could be used to forge B-grade equipment. Many ores could be used to forge A-grade or even S-grade equipment.

One of them was even one of the materials used to forge SS-grade equipment.

After identifying it, Ling Feng looked at Liu Yan in surprise and said, "Liu Yan, where did you get so many rare ores? These rare ores were not only good in quality, but they were also top-grade rare ores. The entire Weapon School could not produce this many top-grade rare ores. These ores were simply a treasure trove."

Liu Yan was also a little surprised when he heard this. Although Liu Yan did not recognize these rare ores before, through his Treasure Hunting skill, he knew that these rare ores were extremely rare. Their quality should be quite good.

However, Liu Yan did not expect that these ores could be so rare that they could make Ling Feng so excited.

It seemed that he got really lucky. He got a good load of treasures!

Meanwhile, Treasure Pangolin was about to go crazy. Those were the rare treasures it had collected for many years since it was young. In the past, it usually slept with these treasures. With these treasures around, it could sleep soundly.

Then, it met Liu Yan, and its treasures were snatched away by Liu Yan.

At that time, Treasure Pangolin took the initiative to seek Liu Yan's help and placed its treasures with Liu Yan.

At this moment, Treasure Pangolin was regretful. It should never have given these treasures to Liu Yan.

At this moment, Liu Yan quickly lied, "Ahem, Vice Principal Ling, I accidentally found this batch of ores during my training. It is a surprise. Since these ores are very rare, they should be used to forge some high-grade equipment, right? I like to have some equipment pieces for my friends and me."

After hearing Liu Yan's explanation, Ling Feng naturally knew that Liu Yan was hiding something from him. However, Ling Feng did not care. Everyone had their secrets, so he would not ask too much.

Especially a top-notch genius like Liu Yan. Ling Feng thought that Liu Yan had encountered many fortuitous encounters, so he had more secrets about him. There was no need to care about these things at all.

At this moment, Ling Feng had recovered a little from his earlier shock. He had calmed down a little.

When Ling Feng heard that Liu Yan was going to hand over these top-grade rare ores to him to forge high-grade equipment, Ling Feng was instantly delighted and even excited. This was a rare opportunity.

After being excited, Ling Feng quickly calmed down. After thinking for a moment, he said, "These top-grade rare ores are very precious. My skill is enough to forge them. However, I also need to carefully analyze them before I start. In addition, although these ores of yours are rare, there are also many types of them. So, we can make many types of equipment. You have many choices."

When Liu Yan heard that Ling Feng was willing to help him forge, he immediately felt relieved.

Liu Yan knew that although these ores were rare, he did not know how to forge equipment by himself.

Besides, other forgers could not fully utilize these rare ores. Only a top-tier forger like Ling Feng could maximize the use of this batch of rare ores in his hands.

"Vice Principal Ling, thank you for being willing to help me forge equipment. I'm not in a hurry here. You can take it slowly." Liu Yan said gratefully.

Hearing this, Ling Feng waved his hand and said, "Don't worry. It's my honor to use these top-grade rare ores to forge equipment. It's a win-win situation for us."

After hearing Ling Feng's words, Liu Yan roughly understood what Ling Feng meant.

Previously, Liu Yan went to the Weapon School's equipment warehouse to collect equipment pieces. In the entire Weapon School's equipment warehouse, S-grade weapons and defensive equipment could be counted on one's fingers. There were also not many grade-A equipment pieces.

Liu Yan's rare ores could at least forge B-grade equipment. Most of them could forge A-grade equipment and S-grade equipment. The Weapon School did not have these rare ores before.

At this moment, Liu Yan was also extremely happy. He did not expect Treasure Pangolin to be so skillful. It collected many useful ores.

Treasure Pangolin probably found these rare ores in the deepest layer of the Southern Mine.

The deepest and most precious ores had almost been plundered by Treasure Pangolin.

Treasure Pangolin had been collecting treasure for many years, but they were robbed by Liu Yan.

At this moment, Ling Feng also said, "How about this, just tell me whatever equipment you needed later on. I'll follow up and forge it according to the situation. Although your ores are extremely rare, they involve a wide range of things. We might not have enough materials for some of the equipment. For example, we can't forget the SS-grade weapon because we only have a few materials. As for the rest of the materials, forget about our Weapon School, we probably won't find them on the central resting platform of the entire third-and-a-half level of the Tower."

Liu Yan nodded slightly when he heard this. He had already expected such a situation.

Forging high-grade equipment required an extremely large amount of materials, and many of them were extremely rare ores.

Especially equipment that was S-grade or above, which required more precious materials.

Although Liu Yan had a large batch of ores, it was still not enough to forge complete SS-grade equipment. It was enough to forge an S-grade weapon at most.

Liu Yan did not need to bring the ores he did not need. Liu Yan did not know how to forge equipment, so he might as well leave them in the Weapon School. It could be considered Liu Yan's contribution. Or, he could use them to exchange some benefits.

"Then, I'll sell the extra ores to Weapon School. I will tell you what equipment I need after I think about it." Liu Yan thought for a while and said.

Chapter 208: Comfortable Academy Life

When Ling Feng heard this, he was pleasantly surprised.

Liu Yan was willing to give those surplus rare ores to the Weapon School.

Even though they had to buy them from Liu Yan, these rare ores were extremely rare. They were completely priceless.

With these ores from Liu Yan, Ling Feng would be able to gather the remaining materials and forge a batch of high-grade equipment.

With these high-grade equipment pieces, he could greatly increase the strength of the entire upper house of Lighthouse Academy.

Liu Yan's contribution to Lighthouse Academy this time was undoubtedly admirable.

Even Ling Feng, who had always been cold and aloof, looked at Liu Yan with gratitude. "Liu Yan, thank you for these rare ores! However, these ores are too rare. They are not something that can be measured by the federation coin. In the future, I will ask the academy to pay you the corresponding origin crystals."

Hearing this, Liu Yan could not help but feel a little excited.

Origin crystals could only be obtained by killing a high-grade fierce beast.

Although the talent of some fierce beasts that Liu Yan killed on the first three levels of the Tower was very high, their experience level was not high, so Liu Yan did not obtain source crystals.

Normally, the awakened ones could only obtain the origin crystal on the upper levels of the Tower.

The origin crystal was filled with terrifying power. It could be said that it was the source of the fierce beast's power.

The third-and-a-half level central resting platform had advanced technology because of the utilization of the origin crystal.

Using the origin power in the origin crystal to operate various transportation tools and instruments was extremely convenient.

A small origin crystal was equivalent to a large amount of oil and other raw materials.

Naturally, the price of an origin crystal was sky-high.

Currently, the market price of an origin crystal was about 100 million federation coins.

Liu Yan could not help but feel somewhat expectant. Would this origin crystal benefit him in any other way?

The awakened were not able to absorb the energy within the origin crystal.

However, Liu Yan was different. Liu Yan had an SSS-grade talent, Divine Extraction. Perhaps he could use his Divine Extraction talent to extract the origin crystal and obtain other benefits.

However, these were matters for the future. At this moment, Liu Yan was thinking about the equipment he needed.

As for the defensive equipment, Liu Yan already had an A-grade Turin Assassin set. His weapons were the S-grade Flying Cloud Mystic Bow, the S-grade Blade of the Night, and the A-grade Soft Blade Boxing Gloves.

It was not worth upgrading his defensive equipment now. An A grade set was already quite powerful.

Although these ores were rare, there were many types. It would be challenging to gather enough material for a high-grade set.

In terms of weapons, Liu Yan had two S-grade weapons and one A-grade weapon.

With these materials, they could probably make an S-grade weapon at most.

Although he had the materials to create an SS-grade weapon, forging an SS-grade weapon required a large amount of all sorts of rare materials. It would be difficult to gather all of them in a short amount of time.

Liu Yan could upgrade an S-grade weapon to SS-grade by using Divine Extraction.

In that case, it would be best if he could obtain an S-grade weapon like a glove. Then, Liu Yan could improve his strength quite a bit.

Liu Yan pondered for a moment and said, "It would be best if you could make an S-grade glove. Forget about the low-grade ones. As for the rest of the items, you can use them to make high-grade equipment for the priest, tank, and commander. A-grade and above will be sufficient."

Liu Yan had no other choices.

Although these materials were rare, Liu Yan already had many high-grade equipment pieces due to the improvement from Divine Extraction. He had two S-grade weapons and one A-grade weapon already.

Therefore, the equipment made from these rare ores would not bring many upgrades to Liu Yan. It would be good to use the ores to upgrade his gloves.

As for the extra ores, Liu Yan could use them on the three women. Their current equipment was relatively ordinary, so using these rare ores to upgrade the girl's equipment would be the best choice.

Hearing this, Ling Feng took down Liu Yan's words. He agreed, "Alright, I will try my best to make equipment according to your requirements, but it may take a long time. After all, we need to gather other materials, and it will also take a lot of time to make high-grade equipment."

"Time is not a problem." Liu Yan smiled and said.

Soon after, Liu Yan and Ling Feng discussed the specific details of the equipment requirements and then left.

Liu Yan had leisure time in the next two days.

He went to all the four great schools.

However, he did not stay at the other three schools for long. Liu Yan had a tight schedule, so he could not study and train in the other three schools. He could only continue to do so when he was free.

Sunday morning.

Today was the opening time of the top hunting ground in the Northern Hunting Ground.

Initially, only Liu Yan and Murong Xue were going to the top hunting ground for the trial. However, Chu Long and Luo Qingcheng were also free. After learning that Liu Yan and Murong Xue were going to the Northern Hunting Ground, they also wanted to tag along.

However, the two of them would not participate in this trial. After all, the top hunting ground was still too dangerous. Normally, the freshmen would not be allowed to enter the top-grade hunting ground.

The trial was to improve their actual combat ability and increase their strength. If they were injured or even killed, it would be really bad.

Only the outstanding freshmen like Murong Xue and Liu Yan, who had strong combat strength, were allowed to enter the top hunting ground.

Chu Long and Luo Qingcheng followed them to broaden their horizons. They could only watch from the outside and would not enter the top hunting ground.

Liu Yan drove his origin power sports car and brought the three girls through the Lighthouse Academy to the north.

Luo Qingcheng said curiously, "I heard that the Northern Hunting Ground is magical. There are many fierce beasts in it. It was built by the academy with a huge amount of resources."

Chu Long, who was at the side, said, "I also heard about it. And I heard that some fierce beasts in there could be subdued as pets. I'm envious of the job classes that can raise pets!"

Murong Xue didn't care much about these things. She didn't care much about the other areas of the Northern Hunting Ground.

She only wanted to enter the top hunting ground and have a good trial. She wanted to show her combat strength. She also wanted to test out the skill she had recently learned in actual combat. She wanted to test her growth since she entered the upper house of Lighthouse Academy.

"It's been almost two months since I last fought. My hands have been itching for a fight. I can finally have a real battle this time!"

Murong Xue rubbed her hands together and said with some anticipation.

Liu Yan turned his head to look at her. He felt a little helpless. Murong Xue was really a militant.

The awakened ones might prefer the peaceful training and life in the academy. They were more afraid of the higher levels of the Tower. After all, it was full of dangers.

However, Murong Xue was the exact opposite. She did not like these peaceful days. She looked forward to actual combat and the days in the Tower full of dangers and excitement.

However, this kind of character was usually easier to increase one's strength and become a powerhouse.

Liu Yan could not help but look forward to it. After he built a perfect foundation this time, he should be able to break through to the higher levels of the Tower after a good upgrade.

Chapter 209: Northern Hunting Ground

On the desert in the northern suburbs.

Liu Yan drove in a sports car, heading towards the Northern Hunting Ground.

It was almost noon when Liu Yan and the others arrived at the Northern Hunting Ground.

Just as they got off from the car, Liu Yan heard a burst of exclamations.

“Is this the Northern Hunting Ground? It looks so epic!” Chu Long exclaimed.

Luo Qingcheng also agreed, “The Northern Hunting Ground is known as one of the four core areas of the academy. I wonder how the other three are doing.”

“Not everyone can go to the other three. Only those who are qualified can go.” Murong Xue explained.

Hearing this, Liu Yan secretly laughed in his heart. If the three girls knew that he had already been to the other three core areas, they would be dumbfounded.

Liu Yan looked towards Northern Hunting Ground and was also a little surprised.

The buildings at the entrance of Northern Hunting Ground were extremely imposing.

The towering buildings were more than a hundred meters tall.

Unlike the Eastern Medicine Garden and the Southern Warehouse, the Northern Hunting Ground occupied a vast area. There were many people too.

At a glance, there were tons of students who came here.

“There are quite a lot of people.” Liu Yan smiled and said.

Murong Xue had done her homework in advance, so she had a better understanding of the Northern Hunting Ground. She explained, “Usually, there will be quite a lot of people in Northern Hunting Ground on weekends, especially on Sundays. After all, the top hunting grounds are only open to the public on Sunday. Although most of the students are unable to enter, they can still observe the situation inside through the technology projector outside. They can watch the battle between the powerful students and the powerful fierce beasts. It’s extremely lively.”

When Liu Yan heard this, he immediately understood.

In the top-grade hunting grounds, there were A-grade or even S-grade fierce beasts, which was extremely rare.

Most of the students who were able to enter were not weak. Even if they did not have the combat strength to deal with an S-grade fierce beast, they were still able to fight an A-grade fierce beast.

The students did not have many chances to watch an intense battle, so they came over here to watch and learn.

Northern Hunting Ground was naturally extremely lively today.

“Let’s go, let’s go in now!” Murong Xue called out.

Immediately, a few people entered and used the smart wristband to authenticate the students.

Luo Qingcheng and Chu Long were both here to play. Their qualifications could only allow them to enter the top hunting ground. They were unable to enter the advanced hunting ground. However, they could only watch from the hall.

Liu Yan and Murong Xue were qualified to enter the top hunting ground.

After completing their verification, Liu Yan and the others entered the Northern Hunting Ground.

Although Northern Hunting Ground was said to be a hunting ground, it was actually a huge building.

Each hunting ground area was an independent space that could be accessed through a special teleportation array.

This building was mostly used for the office of the staff. There was also a leisure hall for the spectators. All kinds of supporting facilities were available here.

Liu Yan and Murong Xue were not in a hurry to enter. They wanted to understand the situation first. It was also time for lunch, so they had to eat before entering.

They went to order some food and then walked through the hall for a tour.

In the hall, there were many large screens, which were the projections of each hunting ground area.

These projections were using the technology of origin power to project each hunting ground area, so people could conveniently watch what was happening in the hunting grounds.

Liu Yan and the others first walked through the basic hunting ground area, the intermediate hunting ground area, and the advanced hunting ground area's projection viewing hall.

The lower the grade of the hunting ground area, the fewer people there were in the viewing hall. There were basically no people watching the basic hunting ground. After all, all of them could enter and hunt the low-grade fierce beasts.

The basic hunting ground area was mainly used for the freshmen to gain actual combat experience, or for support personnel to gain experience. After all, their combat strength was relatively average.

However, there were more students in the lower grade hunting grounds.

On the other hand, there were not many students in the higher grade hunting ground. Instead, many students were watching in the viewing hall.

Right at this moment, there was a commotion in the crowd.

"It's the Soul Splitting Squad's Explosive Mage, Ning Shanshan!"

"Is she Ning Shanshan? She's too good-looking!"

"Goddess, can you look at me!"

"Stop dreaming, you guys. Ning Shanshan has always been arrogant and powerful. No one dares to provoke her!"

"The last time I saw her fight, it was too terrifying. The nickname Explosive Mage isn't just for show!"

“She’s a member of the Soul Splitting Squad. The Soul Splitting Squad is the strongest squad in our academy.”

“...”

Liu Yan and the others also heard the discussions around them.

Not far away, Liu Yan also saw a familiar figure. It was Ning Shansha. She had gone through the trial with him in the Southern Warehouse.

At this moment, Ning Shanshan walked past the crowd with an arrogant look on her face.

She did not pay attention to the crowd exclaiming about her and directly ignored them.

Luo Qingcheng looked at Ning Shanshan, who was not far away. She could not help but say in surprise, “It is said that Ning Shanshan is the number one mage in our academy. She is known as the Explosive Mage. She is different from other mages who hide behind and cast spells to deal damage. Ning Shanshan always charges to the front and uses violent spells to attack. Her fighting style is extremely impulsive and radical. That’s why she has the nickname of Explosive Mage!”

“Is that so? No wonder she looks so cold and aloof. She has such strong strength.” Chu Long nodded slightly.

However, Murong Xue curled her lips and said disdainfully, “Just you wait. I will train harder and become strong enough to defeat her!”

Luo Qingcheng heard Murong Xue. She smiled and said, “Murong Xue, you are really too aggressive. Ning Shanshan is a member of the Soul Splitting Squad, and Soul Splitting Squad is the legendary squad in our academy. If you want to defeat her, you need to cultivate for a long time.”

At this moment, Ning Shanshan ignored everyone and walked toward the top hunting ground.

The surrounding people were all curious and followed from afar to watch.

When Ning Shanshan passed by Liu Yan and the others, she caught a glimpse of Liu Yan. She immediately stopped and walked toward Liu Yan.

“Liu Yan? Are you also here to cultivate?” Ning Shanshan took the initiative to ask.

When the surrounding people saw this, they were instantly shocked. Ning Shanshan, who had always been extremely arrogant, actually greeted a man?

Even Ning Shanshan, who had always been expressionless and extremely cold, had a rare smile on her face at this moment.

When the boys noticed the three ladies beside Liu Yan, each with different types of beauty, they instantly became envious, jealous, and hateful.

Every one of them looked at Liu Yan with eyes filled with hatred.

If stares could kill, Liu Yan felt that he had already died countless times.

Feeling the enmity of the people around him, Liu Yan did not care much. He smiled faintly to Ning Shanshan and nodded, "Yes, I'm also here for a trial. The top hunting ground only opens for today."

Murong Xue, Luo Qingcheng, and Chu Long, who were beside Liu Yan, were surprised when they saw that Ning Shanshan actually knew Liu Yan. They looked at Liu Yan and Ning Shanshan curiously.

Chapter 210: Enter the Top Hunting Ground Area

Ning Shanshan nodded slightly when she heard Liu Yan.

Previously in the Bizarre Plane, she had already witnessed Liu Yan's terrifying combat strength.

Although Liu Yan was a new student, he was absolutely qualified to come to the top hunting ground in the Northern Hunting Ground.

Ning Shanshan had already lost her consciousness in the Bizarre Plane because of the bewitchment of Purple God Taisui during the battle with Liu Yan.

However, she now had a clear memory of the battle with Liu Yan.

After coming out of the Bizarre Plane, the more Ning Shanshan thought about it, the more ridiculous she felt.

Although she had lost her consciousness, her combat strength was extremely terrifying.

She did not expect Liu Yan could defeat her under such circumstances.

After this incident, Ning Shanshan also realized how powerful Liu Yan was. She finally understood why the principal had arranged for Liu Yan to enter the Bizarre Plane to train with Soul Splitting Squad.

"You shouldn't need help, right?" Ning Shanshan asked again.

Previously in the Bizarre Plane, Liu Yan had saved her life. If Liu Yan needed help, she was willing to give a hand.

However, she was clear about Liu Yan's terrifying combat strength. Perhaps Liu Yan didn't need her help at all.

When Liu Yan heard Ning Shanshan, he smiled and shook his head. "There's no need."

"Then I'll be leaving." Ning Shanshan said coldly and left.

Liu Yan was not surprised by Ning Shanshan's reaction. He already knew Ning Shanshan's character.

Seeing Ning Shanshan leave, Luo Qingcheng could not help but ask, "Liu Yan, how do you know Ning Shanshan? She is my idol!"

Chu Long also asked curiously, "Yes, she is one of the legendary figures in our Lighthouse Academy. Brother Liu Yan, how did you meet such a powerful person?"

Murong Xue, on the other hand, said with a strange expression, "Liu Yan, what happened between you and Ning Shanshan? Why do I feel that your relationship is not ordinary?"

Murong Xue could tell that Ning Shanshan was an extremely arrogant person. From the fact that Ning Shanshan looked down on almost everyone around her, it could be seen that her character was extremely arrogant.

And for such an arrogant person to take the initiative to greet and chat with Liu Yan, they must have an unusual relationship.

When Liu Yan heard Murong Xue's words, he suddenly felt her tone was a little strange. Why did it have a hint of jealousy?

Liu Yan secretly laughed in his heart, but he said calmly, "We were training together as teammates. That's how I know her. We aren't that close."

"Brother Liu Yan, you teamed up with Ning Shanshan? That's neat!" Chu Long exclaimed when she heard it.

Luo Qingcheng was also surprised, "I didn't expect your strength to improve so quickly."

Murong Xue was also a little surprised when she heard that.

They were all clear about Liu Yan's talent. It was undoubtedly terrifying.

However, Liu Yan was only a new student after all. He had just come to Lighthouse Academy not long ago, and his strength had not fully grown.

As for Ning Shanshan and the rest of the Soul Splitting Squad, they were the legendary figures of the Lighthouse Academy. They were the top combat strength among the students of the Lighthouse Academy.

As a new student, Liu Yan was already able to form a team with the top combat-strength students. It was quite impressive.

Luo Qingcheng suddenly came over curiously, "Tell me, what Ning Shanshan is like in private?"

Chu Long also came over with a curious look.

Liu Yan saw the situation and also felt a little helpless. Ning Shanshan was a famous figure in the Lighthouse Academy. Her strength was strong, and she was cold. Naturally, she was full of mystery, which made the students of the Lighthouse Academy very curious.

Liu Yan did not have much contact with Ning Shanshan, but after interacting with her for seven days, Liu Yan also realized that Ning Shanshan was not cold. She did not like to pay attention to people who had nothing to do with her.

Following that, Liu Yan briefly chatted with the three girls about some private matters of Ning Shanshan while he headed to the top hunting ground.

The gazes of the people around Liu Yan were filled with envy, jealousy, and hatred.

A cold goddess like Ning Shanshan greeted him, and he had three beauties beside him. They were three beauties with different styles. One was a cute girl, the other was a sexy lady, and the other was a fierce goddess. It was really enviable.

“Who is this guy? He knows goddess Ning Shanshan, and he has three beauties beside him. He’s a b*stard!”

“I’m already satisfied with having such a beauty by my side. He has three. No, four by his side!”

“Why do I feel that this guy looks a little familiar? I feel like I’ve seen him somewhere before.”

“Isn’t that Liu Yan!”

“Isn’t that the Liu Yan who shone brilliantly in the freshmen examination? He’s known as a once-in-a-century genius?”

“It’s Liu Yan. He can be said to be the most talented student in our Lighthouse Academy at the moment.”

“So what? Talent doesn’t mean strength!”

“He’s heading towards the top hunting ground. Let’s follow him and take a look!”

“…”

Many students were instantly extremely curious about Liu Yan. With such a great talent and so many beautiful women by his side, it was truly enviable.

Following this, many of the students followed Liu Yan over.

At this moment, Liu Yan and the others had arrived at the top hunting ground. They saw that there were even more people in the hall, and it was almost full. All of them were watching the situation in the top hunting grounds on the projection.

Liu Yan observed for a moment. The top hunting ground had just opened, so the students who entered had not encountered any powerful fierce beasts. Almost all of them were A-grade fierce beasts.

However, even if they were A-grade fierce beasts, they were already extremely powerful. It was difficult for the students who entered the hunting ground to fight them.

Many students could not defeat the powerful fierce beasts and fled in all directions.

Liu Yan looked at Luo Qingcheng and Chu Long and said, “You two wait here first. Murong Xue and I will go in first.”

“Okay!”

Luo Qingcheng and Chu Long nodded.

After that, Liu Yan brought Murong Xue to the teleportation array of the top hunting ground.

After submitting their identity verification, the two of them stepped into the teleportation array.

After a flash of white light, Liu Yan and Murong Xue appeared in the top hunting ground area.

This was an independent space. Looking up, it was a vast expanse of white, and nothing could be seen.

Looking from afar, it was relatively empty. There were many small hills of different heights. The entire environment looked empty.

There were many other trial-takers in the surroundings.

Although it was very difficult for most of these trial-takers to kill an S-grade fierce beast, they still wanted to enter and try their luck.

If they could pick up scraps or kill an S-grade fierce beast together, they could instantly become rich.

Even if they didn't meet one, there was still a pile of A-grade fierce beasts here. It would allow them to have a good trial and train their actual combat ability.

Murong Xue looked at her surroundings and said, "This is the outer area. It is where the teleportation array is. There aren't many fierce beasts here. We will only encounter fierce beasts after we go deeper. We should look out for each other. We should look after each other and try our best not to end this trial earlier. Try to stay here for a while longer."

Liu Yan was clear about the rules here. If they encountered a strong fierce beast and the situation became extremely dangerous, they could use the teleportation ring to leave this place instantly.

However, that would also mean that he had ended this trial. If he wanted to enter the top-grade hunting ground again, he would have to wait until next week.

Everyone would only have one chance to enter the top-grade hunting ground once a week for the trial. It was a rare opportunity, so they naturally had to cherish it.
