

Towers 221

Chapter 221: Submit or Die

In the viewing hall of the top hunting ground.

Many students were nervously staring at the battle on the big screen.

No one had expected that Liu Yan would still be able to stand up despite being injured. Moreover, he would erupt with even stronger combat strength to fight against the Earth Dragon.

In fact, Liu Yan was even able to fight against the Earth Dragon with his physical strength. It completely broke their understanding.

His opponent was an S-grade Earth Dragon, a powerful high-level fierce beast with the dragon bloodline. It was undoubtedly a monster-level fierce beast, and its combat strength was terrifying.

In their understanding, some human experts could defeat the Earth Dragon.

However, they had never thought of facing the Earth Dragon head-on with physical strength.

The Earth Dragon was dozens of times larger than Liu Yan. No matter how they looked at it, its strength was on a completely different level from Liu Yan's.

However, they had no choice but to believe what they were seeing. The seemingly small Liu Yan was actually on par with the terrifying Earth Dragon.

Everyone watched nervously. At the same time, they couldn't help but worry for Liu Yan.

After all, Liu Yan and the Earth Dragon were on par with each other at the moment. It might not be the case after Liu Yan's stamina was exhausted.

Liu Yan was a human after all. Under normal circumstances, his stamina was completely incomparable to the dragon-type fierce beast, the Earth Dragon.

Just when everyone was worried about Liu Yan, Liu Yan suddenly erupted with strength and sent the Earth Dragon back more than ten steps with a punch.

When everyone saw this, they were instantly shocked.

"Damn, what's going on?"

"Aren't they evenly matched? Why did the Earth Dragon take more than ten steps back?"

"Looks like they're not evenly matched. Liu Yan has a chance of defeating this powerful Earth Dragon alone!"

"He's even using his physical strength to defeat the Earth Dragon. Isn't this too exaggerated?"

"Liu Yan's physical strength is so terrifying. How could a human have such powerful physical strength!"

"Liu Yan is my idol!"

"..."

At the same time, the battle between Liu Yan and the Earth Dragon was in full swing.

When Liu Yan saw that he had triggered a critical strike and defeated the Earth Dragon, his eyes lit up.

Previously, Liu Yan had forgotten about this matter. Other than using his dagger to attack, his other methods could also trigger the Dark Ranger's Critical Strike Effect.

Liu Yan didn't use the Blade of the Night, so the critical strike chance was lower. That was why he had only triggered it once after so many attacks.

Although the chance of triggering a critical hit was low, as long as it was triggered once, it would be able to break the balance of combat strength between the two sides.

Liu Yan's punch caused heavy damage to the Earth Dragon.

In the later battles, Liu Yan would naturally be able to relax a little.

As long as Liu Yan triggered the critical hit once or twice, Liu Yan would be able to defeat the Earth Dragon. Moreover, he could defeat the Earth Dragon with his physical strength. There was no need for him to compete with the Earth Dragon in terms of stamina consumption.

The Earth Dragon looked at Liu Yan in shock. It did not understand how this puny human could suddenly erupt with such terrifying strength.

However, the Earth Dragon's arrogance did not allow itself to lower its head or escape. It charged toward Liu Yan once again. It was still using only its physical strength to attack.

Liu Yan naturally did not retreat. Instead, he advanced and charged toward the Earth Dragon as well.

The human and beast once again collided violently. Under the fierce battle between the human and beast, the ground continuously trembled.

After the exchange of blows, the situation was similar to what Liu Yan had expected.

Because the explosive punch just now had caused many injuries to the Earth Dragon. Now that they had exchanged blows again, Liu Yan was able to suppress the Earth Dragon. The scales of victory gradually shifted towards Liu Yan.

It was another intense battle. Just when Liu Yan was starting to feel a little exhausted, Liu Yan's violent punch triggered the critical hit again.

The Earth Dragon, which was already slightly injured, was knocked down to the ground by Liu Yan's punches again and again.

Liu Yan seized the opportunity and rushed up to the back of the Earth Dragon. He kept punching and punching down.

Fist after fist filled with power continuously aggravated the Earth Dragon's injuries. The Earth Dragon no longer could resist. It gradually stopped resisting and lay on the ground.

Liu Yan saw the situation and said arrogantly, "Do you submit or not? Submit or die!"

Liu Yan spent so much effort. He could have easily defeated the Earth Dragon with the other attack methods, but he did not use them. He only used his physical strength. Liu Yan had to fight until he was injured to defeat the Earth Dragon.

His goal was to defeat the Earth Dragon head-on in the close combat the Earth Dragon was best at.

Only in this way would Liu Yan have a chance to make the arrogant dragon-type fierce beast submit and willingly follow him.

If he could not subdue it, Liu Yan had no choice but to kill the Earth Dragon.

The Earth Dragon looked at Liu Yan in despair and fear. It did not expect a human to have such terrifying strength.

This human looked so young and insignificant.

The proud Earth Dragon finally chose to submit and chose to follow Liu Yan.

The Earth Dragon was more willing to follow such a powerful human and did not feel humiliated.

When Liu Yan saw that the Earth Dragon was willing to submit, he immediately let out a sigh of relief. He quickly endured the injuries and fatigue on his body and took out some materials from his storage ring. He placed them in a position to activate the soul contact.

A complicated purple hexagonal array appeared, and Liu Yan and the Earth Dragon began to sign the soul contact.

The awakened ones in the surroundings were all astonished when they saw this.

They had never expected that the horrifying Earth Dragon that they looked up to would not only be defeated by Liu Yan alone but also be subdued by Liu Yan.

It was an S-grade fierce beast, and it was an extremely rare and powerful dragon-type fierce beast. To be able to subdue such a fearsome fierce beast, one's strength would be incomparably powerful in the future.

And the higher the grade of the fierce beast, the harder it was to subdue it. It would often rather die than submit.

The dragon-type fierce beast was even more so. It was extremely arrogant, and the arrogance in its bones made it impossible for it to submit to any living creature, especially humans who were insignificant in their eyes.

At this moment, Ning Shanshan was dumbfounded, but she suddenly thought of something. She couldn't help but say, "No wonder Liu Yan didn't use any other attack methods, and only used his physical strength to fight against the Earth Dragon. It turns out that he wanted to defeat the Earth Dragon with his fists. Only then would the Earth Dragon be convinced and willingly follow Liu Yan!"

The doubts in Ning Shanshan's heart were instantly swept away. She understood Liu Yan's motive for doing so.

At the same time, Ning Shanshan was also shocked by Liu Yan's strength. They were all thinking about how to defeat the Earth Dragon, but Liu Yan was thinking about how to defeat and subdue the Earth Dragon.

Ning Shanshan finally understood why Liu Yan wanted to fight the Earth Dragon alone. If the two of them joined hands, even if they defeated the Earth Dragon in the end, it would be impossible to subdue it. The Earth Dragon would not be convinced and would rather die.

Liu Yan's plan was good, but it was based on his terrifying strength. Using physical strength to defeat the Earth Dragon was simply impossible for others.

Chapter 222: Exceeded the Goal

After the students heard Ning Shanshan's explanation, their faces were filled with disbelief.

Previously, they had been wondering why Liu Yan insisted on challenging the Earth Dragon alone. During the battle, he only used his physical strength and did not use any other attack methods.

At that time, they had thought that Liu Yan overestimated himself.

After all, the physical strength of a normal fierce beast was much stronger than that of a human awakened at the same grade. It was what fierce beasts were good at, and the weak point of a human awakened.

Especially since the Earth Dragon was an earth-attribute S-grade fierce beast with the dragon bloodline, its physical strength was even more terrifying.

At first, when they saw that Liu Yan insisted on using his physical strength to fight the Earth Dragon, they thought it was Liu Yan who was out of his mind.

Now, it seemed that Liu Yan was a few levels higher than them.

From the beginning to the end, Liu Yan never intended to kill the Earth Dragon, but how to subdue it. This was also why he chose a seemingly stupid yet impossible plan. Liu Yan fought the Earth Dragon head-on, thus subduing the Earth Dragon.

Everyone admired Liu Yan's achievement, they were also extremely envious. It was an S-grade Earth Dragon. Its strength was extremely terrifying. It could continue to grow in the future, and its strength would become tremendously strong.

The others knew they might never surpass Liu Yan because Liu Yan now had Earth Dragon as his strong pet. They could only be jealous of Liu Yan because they knew they would never achieve what Liu Yan did.

The previous batch of awakened ones fought the Earth Dragon, but they were instantly crushed by the Earth Dragon.

Only a monster like Liu Yan could defeat the Earth Dragon alone and even subdue it.

At this moment, Liu Yan had already completed the signing of the contract. The purple light that fell on Liu Yan and the Earth Dragon gradually disappeared.

Liu Yan and the Earth Dragon had also established a kind of connection, a telepathic connection.

At the same time, a notification appeared in front of Liu Yan.

[Divine Extraction successful. Congratulations: Dragon Mark!]

Seeing this notification, Liu Yan immediately had a baffled expression.

He had only signed a contract and didn't use Divine Extraction. How could he suddenly obtain something?

It was the first time such a situation had occurred after Liu Yan obtained Divine Extraction.

Liu Yan tried to check the information about the Dragon Mark, but there was no introduction to the Dragon Mark in the smart wristband.

Liu Yan did not even know where the Dragon Mark came from or what it was.

Liu Yan did not understand, so he could only figure it out later.

However, Liu Yan had a hunch that this Dragon Mark should be related to the deepening of the dragon bloodline in his body and the successful subduing of the Earth Dragon with the Dragon Bloodline.

However, as to what it was and how strong it was, he could only test this new skill in the future.

At this point, Liu Yan had finally successfully defeated and subdued the Earth Dragon and obtained the Earth Dragon Blood along the way.

Liu Yan walked toward Murong Xue with injuries all over his body.

The battle just now seemed extremely exciting, but it was dangerous.

Liu Yan used Dragonification, Earth Power, and Absolute Unrivaled three powerful S-grade skill buffs, as well as A-grade Soft Blade Boxing Gloves. Still, he was only able to tie with Earth Dragon.

However, in terms of stamina and endurance, Liu Yan definitely could not compare to Earth Dragon.

In addition, his Earth Power also had a time limit. Currently, it could only last for three minutes.

If Liu Yan could not end the battle within three minutes, Liu Yan would fall into a weakened state for ten minutes.

At that time, not to mention defeating the Earth Dragon in close combat to subdue it, even if he used other methods after falling into a weakened state, he might not be able to defeat Earth Dragon.

Fortunately, he managed to trigger the critical strike and defeated Earth Dragon.

At this moment, Liu Yan felt the weakening effect of Earth Power, and he had a rough idea in his mind.

Under the weakened state, his combat strength had decreased by more than half, and his combat strength was only about half his regular strength.

Although the weakening effect was quite obvious, it was still acceptable.

After all, when the Earth Power was activated, the buff was extremely exaggerated. Normally, three minutes was enough to get rid of the opponent and end the battle.

Liu Yan had to pay attention to the timing of using Earth Power.

Murong Xue saw Liu Yan walking over and hurriedly went forward to support him. She also looked at Liu Yan in disbelief.

Murong Xue naturally knew that Liu Yan was powerful. During this period, she knew more than anyone else about Liu Yan's true strength.

However, Murong Xue never expected Liu Yan had already become so powerful. He could defeat Earth Dragon by himself with just his physical strength. It was exaggerated.

Murong Xue still remembered that when she first met Liu Yan, she was able to fight Liu Yan to a standstill.

However, she realized that Liu Yan's strength was growing too fast.

Even though her combat strength was also growing very fast, Liu Yan's growth speed was even more exaggerated. It could even be described as horrifying.

Liu Yan's strength kept growing faster and faster. He was simply a monster.

In the past, Murong Xue felt that although there was a gap between herself and Liu Yan, she could still catch up with him.

Later on, Murong Xue realized that she might not catch up with Liu Yan's strength anymore. So, she thought she could barely keep up with Liu Yan and not fell too far behind.

But now, Murong Xue realized it was just a wishful thinking.

During this period, her had a great advancement in the Combat Technique School, but Liu Yan was even more exaggerated. Murong Xue only felt that the gap between herself and Liu Yan was getting bigger and bigger.

Especially this time, Liu Yan had subdued an S-grade fierce beast, the Earth Dragon. Moreover, Liu Yan's combat strength had once again increased tremendously after keeping Earth Dragon as his pet.

Not to mention defeating Liu Yan, Murong Xue never thought she could defeat the S-grade fierce beast with the dragon bloodline, the Earth Dragon in a short future.

Liu Yan, who was standing at the side, seemed to have noticed the loneliness and powerlessness in Murong Xue's eyes. He smiled and said, "You just need to focus on your own path. Everyone has their own path. Besides, I'm also your teammate. We will walk together."

Hearing this, the disappointment in Murong Xue's heart lessened a lot. She also came back to her senses. She did not need to care about Liu Yan's improvement at all. As long as she walked her own path, and continued to improve her strength, it would be fine. There was no point in thinking about other things.

After the battle with the Earth Dragon, Liu Yan was already quite tired. He did not have much combat strength. Moreover, he had achieved his goal. He had even exceeded the goal of this trip. So, he did not have to stay in the space of the top-grade hunting ground any longer.

Seeing this, Murong Xue followed Liu Yan and left. After all, she had fought many A-grade fierce beasts and gained combat experiences. She had better actual combat mastery and familiarity with the combat techniques she had recently learned.

Chapter 223: Giant Whale's Fragrance

The teleportation array's light flickered.

Liu Yan brought Murong Xue out of the teleportation array.

In the viewing hall of the top hunting ground, everyone saw Liu Yan walking out. They were all extremely excited. The entire hall was filled with applause and cheers.

As students of Lighthouse Academy, they had seen countless outstanding students with outstanding talent, and they had also seen many powerhouses.

However, it was the first time they had seen a student like Liu Yan, who had both terrifying talent and a strong temperament. In addition, Liu Yan was still so young. Liu Yan had already grown to possess such terrifying strength in his first year of Lighthouse Academy. He had used his physical strength to defeat the terrifying S-grade fierce beast, Earth Dragon.

They could see Liu Yan had a limitless future. He would definitely grow to become a top-notch powerhouse of mankind.

"Liu Yan, you're too amazing. You're practically my idol."

"Liu Yan, can we be friends? I admire you so much."

"Can I give you my number?"

"Idol, idol!"

"..."

The crowd cheered endlessly. One after another, they went forward to talk to Liu Yan. They worshipped Liu Yan endlessly.

After the battle between Liu Yan and Earth Dragon, not only did Liu Yan conquer Earth Dragon, but he also conquered countless Lighthouse Academy students.

Previously, some of these students had looked down on Liu Yan, some were jealous of Liu Yan, and some were resentful toward Liu Yan.

However, after witnessing the intense battle between Liu Yan and Earth Dragon, they all admired Liu Yan.

Liu Yan had such talent, yet he was able to fight so hard. He had such an elegant temperament, which made them all admire him endlessly.

When Liu Yan saw this scene, he was also a little stunned. Some people came up to him to ask for his autograph, making him look like a celebrity.

When Murong Xue saw this scene, she teased, "You've only been in the Lighthouse Academy for more than two months, and you've suddenly become a famous figure."

Liu Yan was also a little speechless. Naturally, he did not want to interact with these people. The purpose of entering the Lighthouse Academy was to cultivate and improve one's strength, not to be an idol.

Liu Yan hurriedly took Murong Xue and ran away as if their lives depended on it.

In the parking lot of Northern Hunting Ground.

Liu Yan brought Murong Xue and met up with Luo Qingcheng and Chu Long.

When Chu Long saw Liu Yan, she said excitedly, "Brother Liu Yan, you are too amazing. You actually defeated the Earth Dragon!"

Luo Qingcheng smiled and did not say anything, but she was also happy for Liu Yan.

This time, not only did Liu Yan successfully defeat the Earth Dragon, he even subdued it. He had a fruitful yield.

Luo Qingcheng had learned a lot of things in the Command School. So, she had learned some knowledge about the Earth Dragon.

The Earth Dragon was a powerful fierce beast with the dragon bloodline. Not only it was strong, it still had a chance to grow and become a more powerful fierce beast in the future.

And with such a powerful pet, Liu Yan was like a tiger with wings. In the future, his strength would be even more terrifying.

At this moment, Luo Qingcheng couldn't help but sigh. Liu Yan's strength was already extremely powerful, and after joining the Lighthouse Academy for more than two months, his growth speed was even more astonishing.

Liu Yan's strength was already powerful, and his growth speed was even more terrifying. It made people feel a little hopeless.

Fortunately, Liu Yan was her friend, so Luo Qingcheng didn't need to worry. Because Liu Yan's strength was powerful, she might have a chance to ask Liu Yan for help to find her sister in the higher levels of the Tower in the future.

Soon after, Liu Yan sent the three girls to the shopping mall and let them do their shopping and have fun. Liu Yan had something important to do, so he left.

After leaving the shopping mall, Liu Yan drove in the direction of the office building.

At this point, Liu Yan had already collected the four great treasures agreed upon by the principal. They were the ten-thousand-year-old ginseng for skin refining, the ice chalcedony for bone refining, the Purple Gold Taisui for flesh refining, and the Earth Dragon Blood for blood refining this time.

In the principal's office.

Principal Zhong Yuntian looked at the four treasures in front of him and was somewhat stunned.

Zhong Yuntian had a good idea of the difficulty of obtaining any of the four treasures.

According to his expectations, it was impressive that Liu Yan could finally rely on himself to collect these four great treasures.

However, he did not expect that not only did Liu Yan successfully obtain these four great treasures, but he also only used such a short amount of time. In total, it only took him two months. It was really surprising.

Zhong Yuntian looked at Liu Yan with a special gaze and slowly said, "It seems that I have underestimated your talent. It is really unfathomable."

Zhong Yuntian knew the strength that Liu Yan had displayed previously. Although Liu Yan was strong, it was impossible for him to successfully obtain these four great treasures in such a short amount of time

It was obvious that Liu Yan had been hiding his strength.

In the eyes of outsiders, Liu Yan's strength was already extremely terrifying. It was hard to imagine how strong he was.

But in reality, that was not Liu Yan's full strength. Liu Yan had been hiding his strength all along.

When Liu Yan heard this, he scratched his head awkwardly and smiled, he did not object.

When Zhong Yuntian saw this, he waved his hand and smiled indifferently, "It's fine, it's fine. Who doesn't have some secrets? Don't worry, I won't ask too much."

Hearing this, Liu Yan also heaved a sigh of relief.

Principal Zhong Yuntian also regained his composure, he said, "Since you have already found the four great treasures required to cultivate skin, bone, flesh, and blood, then I will also give you the Giant Whale's Fragrance required to cultivate your internal organs. Follow me."

Liu Yan followed Principal Zhong Yuntian out of the office and came to a secret storage room.

The storage room was a special structure and extremely strange. It seemed to be the principal's exclusive storage room.

After Principal Zhong Yuntian opened the storage room, Liu Yan followed him in.

In the storage room, it was a little empty. There was nothing else but a huge storage container.

Inside it was a milky white liquid that was slightly solidified.

"This is the Giant Whale's Fragrance." Principal Zhong Yuntian looked at the Giant Whale's Fragrance in front of him with a look of reminiscence.

When Liu Yan saw this scene, he was a little curious and asked, "Principal, it seems that there are stories behind the Giant Whale's Fragrance."

Principal Zhong Yuntian nodded slightly, with a look of reminiscence, he said, "Yes, this is the final boss that I encountered when I was clearing the ninth level of the Tower. At that time, our party was the top team in the Blue Planet and had the strongest combat strength. However, when we encountered this giant whale, we still suffered a defeat. In the first battle, all four of us were injured, and one of us was even seriously injured. If we didn't run fast, we would have definitely died there!"

"Is this giant whale that powerful?" Liu Yan was a little surprised.

After all, according to Principal Zhong Yuntian, they were the strongest team on the Blue Planet at that time. They were a top-tier combat team, a legendary team.

Even so, they had top-tier combat strength and such powerful strength. How could they crush by the giant whale in one move?

Liu Yan found it hard to imagine just how terrifying the giant whale's strength was to be able to do so.

Chapter 224: The Core Origin Stone

Principal Zhong Yuntian's face was filled with reminiscence as he slowly recounted what had happened in the past.

"At that time, we had just broken through, and our strength had greatly increased. We swept through the ninth floor of the Tower. We were all very confident."

"We thought that although the boss on the ninth floor was powerful, we could still easily deal with it with our combined strength."

"But we didn't expect that the giant whale was so powerful. It almost killed all of us in one hit."

"We suffered a great blow. Both our mental state and body were greatly damaged."

"Later, we made a comeback, and our strength improved. We took it seriously."

"That battle lasted for three days and three nights, and the entire ninth level of the Tower was turned upside down."

"In the end, we won at a heavy price. We lost a comrade, and the others were also heavily injured."

"I also suffered an injury in that battle. It still affects me today. After entering the tenth level of the Tower, I couldn't keep up, and finally retreated from the front line."

"..."

After listening to Principal Zhong Yuntian's explanation, Liu Yan's expression became somewhat solemn.

He didn't expect the whale to be so powerful that it almost wiped out the legendary team.

Even though Principal Zhong and the others defeated the whale, they won with great difficulty and paid a painful price.

It could be said that Principal Zhong could only retreat from the front line because of the aftermath of this battle.

Only then did Liu Yan realize the importance of this Giant Whale's Fragrance. It was exchanged with the blood and lives of Principal Zhong and the others. It was incomparably precious.

"Principal, this Giant Whale's Fragrance is too precious. Why don't you use other things to create a perfect foundation for me? This Giant Whale's Fragrance is too precious and has a special meaning to you. You can't just give it to me." Liu Yan said somewhat unwillingly.

Although creating a perfect foundation was very important to Liu Yan, Liu Yan also understood the importance of this Giant Whale Fragrance. It had a special meaning to the principal. At this moment, Liu Yan didn't even want to use this precious Giant Whale's Fragrance anymore. He felt he would let the principal down and owed him too much.

When Zhong Yuntian heard this, he looked at Liu Yan with shock.

The awakened ones usually thought of ways to increase their strength. They would use as many precious treasures as they could to increase their strengths as much as possible.

However, Liu Yan had such strong talent and strength, and he also desperately needed to increase his talent to create a perfect foundation. Yet, he was willing to give up using such a precious treasure.

Zhong Yuntian glanced at Liu Yan. Liu Yan revealed a sincere look and there was no hypocrisy in his eyes.

Now, Zhong Yuntian was even more determined to use the precious Giant Whale's Fragrance to help Liu Yan.

With such a terrifying talent and mature thinking, Liu Yan could build a perfect foundation. When he grew up in the future, he would become a top expert, the hope of humanity.

Zhong Yuntian waved his hand and said with a smile, "It is precious, but we have to make the best use of it. Only this Giant Whale's Fragrance can help you create a perfect foundation. You can't do that with other materials. You don't have to reject it. It's decided then!"

Seeing that the principal was insistent, Liu Yan couldn't reject it anymore.

"I'll make some preparations. You should also adjust your condition in the next few days. Three days later, go to the core origin stone at the academy's entrance. You will reconstruct your foundation there!" Zhong Yuntian ordered seriously.

"Yes!" Liu Yan agreed.

Then, Zhong Yuntian sent Liu Tian out.

When Liu Yan returned to the villa, the sky had already darkened. However, the villa was pitch-black. There was a faint light of candles.

When Liu Yan entered, he saw a few women chatting around a few candles and did not turn on the lights.

When Liu Yan saw this, he immediately asked with some doubt, "What are you guys doing? Why are the lights not on? It's pitch-black."

When Murong Xue heard this, she immediately said helplessly, "We can't turn it on. There's a blackout."

“Blackout? What happened?” Liu Yan was immediately a little puzzled. After all, the entire third-and-a-half level central resting platform’s electricity was provided by the core origin stone.

During the freshmen’s big test, the academy had used so much energy to make a virtual match for Liu Yan. So, the power was only temporarily cut off for a moment.

The core origin stone provided the entire third-and-a-half level of the Tower’s operation. It supplied many areas, so it contained a massive amount of energy. Providing electricity was only a small part of it, and there were very few actual power cuts.

At this time, Chu Long also complained, “There will be a power outage for seven days. It will be hard to live without electricity.”

Luo Qingcheng explained, “The academy has informed us that they are going to do some secret experiment which requires a large amount of energy. That’s why there will be a power outage for seven days.”

“What kind of secret experiment is it? It’s so powerful that it requires a power outage for seven days?” Murong Xue asked with some doubts.

“I guess it’s a very powerful experiment. The energy source of the core origin stone is so powerful, but they were still not enough to provide electricity. How much energy will the experiment consume?” Chu Long also guessed.

Liu Yan frowned slightly when he heard this.

Liu Yan had just left the principal’s office. The principal said that he was going to prepare to build a perfect foundation. The place where Liu Yan was going to build a perfect foundation three days later was the origin stone.

However, they immediately said that they were going to do an experiment. The entire third-and-a-half level of the Tower would be without electricity for seven days.

It should not be a coincidence, right?

Liu Yan had a guess in his heart. He felt that the blackout had something to do with his building a perfect foundation.

Liu Yan did not expect that building a perfect foundation would require so much energy. It caused the entire third-and-a-half-level of the Tower to run out of electricity. They had to collect enough energy to help Liu Yan build a perfect foundation.

At this moment, the few girls were still complaining about how difficult it would be to live without electricity. However, it was the academy’s decision after all. Although the few girls were complaining, there was nothing they could do. They could only endure it for the time being.

Late at night, Liu Yan lay in bed thinking. The more he thought about it, the more Liu Yan felt that the power outage was very likely to be related to him.

After all, if it was other important experiments, the principal should participate in it. If that was the case, the principal couldn’t be free at this time to help Liu Yan.

However, as for the specifics, Liu Yan could only verify them later.

During these three days, Liu Yan could also take a break and properly adjust his condition.

Three days later, it was the day to build the perfect foundation. Liu Yan couldn't help but look forward to it.

Using the four great treasures, plus the Giant Whale's Fragrance that the principal gave him, these treasures alone were top-tier treasures.

And gathering so many top-tier treasures to create a perfect foundation, what kind of huge harvest would there be?

Chapter 225: The Huge Cost

The next morning.

Liu Yan had a break and brought a few girls out for a stroll.

Because of the power outage, many places were closed.

The few of them walked for a while and discovered that there were many media reporters. They were discussing the protest against the power outage for seven days.

Luo Qingcheng saw this scene and frowned slightly, "I've heard about it too. It's said that many people are protesting and opposing this power outage. The seven-day power outage has indeed affected many things."

Murong Xue nodded slightly, "Because of the power outage, we cannot use the training room in Combat Technique School anymore. We can only train on the training ground for the next seven days."

Chu Long blinked her eyes and asked curiously, "What kind of experiment will cause a power outage for seven days?"

Luo Qingcheng was also a little curious at this time. She said, "According to what I know, the core energy of Lighthouse Academy is extremely powerful. Even if it's a big experiment, it usually doesn't need a power outage for seven days. I guess the school was going to do something major."

Liu Yan didn't say anything at the side. Instead, he felt that this so-called big experiment was to create a perfect foundation for himself.

The few of them walked and arrived near the office building of the Lighthouse Academy.

At this moment, many reporters and people from various parties were blocking the area and protesting.

"What kind of big experiment needs a seven-day power outage?"

"That's right. It will affect our lives too much."

"I can't do my work anymore. I can't work for seven days at all."

"Lighthouse Academy should at least explain. They just said that they were doing an experiment and did not say anything else. This is too much."

“The core energy source is shared by our third-and-a-half level central resting platform. The academy can’t affect all of us just because they’re doing their experiments for their benefit, right?”

“...”

Everyone discussed animatedly. They were all extremely dissatisfied and hoped the power supply could be restored.

At this moment, the principal, Zhong Yuntian, walked out from the front.

“Everyone, please be quiet.” Zhong Yuntian said faintly.

A voice filled with authority spread out in all directions. Everyone quieted down under this imposing aura. They did not say anything more and looked toward the principal, Zhong Yuntian.

Zhong Yuntian looked at the people in front of him, his expression was slightly solemn as he said, “Everyone, I understand the displeasure in your hearts. I also know that the power outage this time has caused a certain impact on everyone’s lives and work. However, I hope that everyone can understand. This experiment is of great importance. We must carry it out!”

When everyone heard Principal Zhong Yuntian’s consolation, the dissatisfaction in many people’s hearts decreased by a lot. However, there were still many puzzled people.

“Principal, what experiment is it? Can you tell us about it?”

“As long as you tell us what experiment it is, we will definitely not cause any more trouble.”

“That’s right. As long as we know what experiment it is, it will be fine.”

“...”

Zhong Yuntian shook his head and said, “Everyone, this experiment is important and extremely secretive. Forgive me, but I can not reveal any information to you. I can only tell you that this experiment will concern the future of our entire human race. It is to advance the future of our human race. I cannot say anything else.”

As Zhong Yuntian spoke, he glanced at Liu Yan and retracted his gaze.

Although it was just a simple glance, Liu Yan immediately understood. Liu Yan felt his guess was correct. There was no so-called experiment at all.

They stopped the function of the core origin stone for seven days to create a perfect foundation for Liu Yan.

When everyone heard this, they were all shocked. They didn’t expect this experiment to be so important. It concerned the future of mankind.

Although they did not know the exact details, they still trusted Principal Zhong Yuntian.

“Principal Zhong Yuntian’s achievements are all worthy of recognition. We should believe in him.”

“That’s right, I believe in Principal Zhong.”

“If it’s secretive, we won’t ask anymore. We believe in Principal Zhong.”

“It’s only seven days. Everyone, it’s okay to endure for a while. It’s for the future of mankind.”

“That’s right. We’ll just endure seven days.”

“...”

Gradually, everyone trusted Principal Zhong Yuntian. They stopped causing trouble and gradually dispersed.

Not long after, the people gathered from various forces and media gradually dispersed.

Luo Qingcheng looked at this scene and couldn’t help but ask with some doubt, “Why do I feel that principal just glanced at Liu Yan? Could it be that this experiment has something to do with Liu Yan?”

Liu Yan was slightly shocked after hearing Luo Qingcheng’s words. After all, Luo Qingcheng was a genius student of the Command School. Luo Qingcheng’s combat strength was average, but she was extremely intelligent. She could make speculation from the tiny moment of the principal.

However, the others didn’t think too much about it, and Luo Qingcheng also didn’t dwell on it too much.

“It seems that this experiment is very important. I hope that the principal can succeed.” Chu Long said with some worry.

After that, Liu Yan and the others also dispersed and went for a stroll.

In the next few days, Liu Yan did not focus on cultivation. Instead, he relaxed his body and mind for a rare occasion.

During the day, he accompanied the few girls out for a stroll and play. At night, he rested well in the villa.

It was a rare time for him to rest. Liu Yan rested well and adjusted his state.

Three days later.

Early in the morning, Liu Yan arrived at the Lighthouse Academy’s core origin stone on time as promised and waited here.

Liu Yan looked around but didn’t see the principal’s figure. He couldn’t help but feel puzzled. Could it be that he remembered the wrong time or place?

But at this time, the ground beside him was opened and Principal Zhong Yuntian poked his head out.

“Liu Yan, you’re here. Hurry up and come in.” Principal Zhong Yuntian smiled and said.

Liu Yan was a little surprised when he saw this. He didn’t expect it to be underground.

Liu Yan hurriedly followed Principal Zhong Yuntian into the underground and closed the entrance.

After going deeper into the underground, Liu Yan saw many pipes extending in all directions. They should be the energy pipes of the core origin stone.

The entire third-and-a-half level central resting platform relied on the origin stone to transport energy and supply the entire third-and-a-half level central resting platform.

At this moment, Liu Yan also noticed that these pipes had stopped. They did not transport any energy out. It was probably to create a perfect foundation.

Liu Yan confirmed that the power cut for seven days was to create a perfect foundation for him. He could not help but be a little surprised. He did not expect that creating a perfect foundation would require so much energy. It required almost the entire function of the core origin stone, which was a huge amount of energy.

Principal Zhong Yuntian brought Liu Yan in. He explained, "This is where the core origin stone is. You need to use the largest amount of energy to help you absorb the four great treasures and the Giant Whale's Fragrance in a short period. You need to recreate the perfect foundation to achieve the best effect."

Chapter 226: No Destruction, No Rebuild

When Liu Yan heard this, he couldn't help but feel shocked.

He didn't think creating a perfect foundation would require so many top-tier treasures, not to mention a tremendous amount of energy. It was troublesome to complete the step.

Not long after, Liu Yan followed Principal Zhong Yuntian to the depths.

A seven to eight meters tall cauldron stood there.

The material of the cauldron was unknown, but it was extremely strange.

The cauldron connected to many pipes that carried energy. At the end of these pipes was the core origin stone.

At this moment, a huge amount of energy was continuously being pumped into the cauldron.

Beside the cauldron, an old man stood by the side. It was Wu Hua.

When Liu Yan saw Wu Hua, he was slightly surprised. Back in the Eastern Medicine Garden, Wu Hua had been of great help to Liu Yan.

Later, when Liu Yan wanted to go to Wu Hua to thank him, he couldn't find him at all, which made Liu Yan feel regretful.

"Wu Hua? You are actually here." Liu Yan said with some joy and surprise.

Wu Hua also looked at Liu Yan with a gratified face. He smiled and nodded slightly, "No need to say more. Hurry up and prepare. Enter the cauldron and start to build your perfect foundation."

Principal Zhong Yuntian, who was behind him, also explained, "Helping you build your perfect foundation requires Wu Hua's help. I can't do it alone."

When Liu Yan heard this, he immediately understood everything. It turned out that meeting Wu Hua at the beginning was not lucky. Principal Zhong's instructed Wu Hua to help Liu Yan.

Liu Yan's heart was immediately filled with gratitude towards Wu Hua and Principal Zhong Yuntian.

Liu Yan was surprised to know that Principal Zhong Yuntian couldn't help him complete his perfect foundation alone. Principal Zhong Yuntian even needed Wu Hua's help. It seemed that building the perfect foundation this time was indeed extraordinary. Even with Principal Zhong's powerful strength, he still needed Wu Hua's help.

"Remember." Wu Hua's face was slightly serious as he instructed, "The establishment of the perfect foundation is divided into two steps. The first step is to destroy your physical body. The second step is to reconstruct your physical body and establish the perfect foundation. If you don't destroy your physical body, you won't be able to build it again. You have to break it before you can rebuild it again. During the first step, it will also bring you excruciating pain. Extreme pain is not something that ordinary people can endure. However, you must persevere and not lose consciousness. Otherwise, not only will all your previous efforts be wasted, and you won't be able to build a perfect foundation, but your life will also be in danger. Even if you survive, your strength and foundation will be greatly damaged. Remember, you must not fall unconscious during the first step. You can only pass out when the second step of rebuilding your body isn't painful. Do you understand?"

Liu Yan immediately understood the importance of this matter. If he passed out during the process of destroying his body, the consequences would be unimaginable.

This matter was of great importance. No matter how painful it was, Liu Yan had to persevere. This time, he had to put his willpower to a harsh test to build a perfect foundation.

"There's nothing else. We believe that you can do it. When you're ready, go ahead." Principal Zhong Yuntian smiled with a relaxed expression.

Liu Yan had long since made preparations. These few days, he had already adjusted his physical and mental state to their best.

Liu Yan nodded and walked directly to the entrance of the huge cauldron.

The moment he entered the cauldron, Liu Yan felt an incomparable heat.

Fortunately, Liu Yan had previously grasped the A-grade skill, Flame Control, so his resistance to the fire attribute had increased quite a bit. At this moment, Liu Yan could barely endure the heat.

Otherwise, Liu Yan would probably not be able to endure it at the first moment.

After entering the cauldron, Liu Yan followed the previous principal's instructions and directly lay down. He closed his eyes, collected his mind, and maintained his consciousness, quietly waiting for the start of forging a perfect foundation.

After Liu Yan entered the cauldron, Principal Zhong Yuntian, who had a relaxed expression just a moment ago, immediately became serious. He was worried.

"Creating a perfect foundation requires an extremely high level of willpower. I believe in Liu Yan's talent. However, this test is extremely difficult. I don't know if Liu Yan will be able to persevere." Principal Zhong Yuntian said with some worry.

Zhong Yuntian was extremely clear about the difficulties in building a perfect foundation.

Building a perfect foundation was almost an impossible thing. It could be said to be filled with difficulties.

In addition, the process of searching for the five great treasures was extremely difficult. This cauldron was also an extraordinary item. Furthermore, it required an extremely terrifying amount of energy to create a perfect foundation.

Other than that, there was also the requirement for Liu Yan's willpower. The test was extremely difficult.

If Liu Yan couldn't persevere, the consequences would be unimaginable. Not only would he be unable to increase his talent, but it would also damage his original talent and strength. There was even a high possibility that Liu Yan would lose his life.

This time, building a perfect foundation was extremely risky but with great reward. If Liu Yan succeeded, he would receive a great gift, but if he failed, he would no longer be the once-in-a-century monstrous genius.

Zhong Yuntian helped Liu Yan to create a perfect foundation this time because he wanted to help Liu Yan. In fact, he also had his own selfish motives. Zhong Yuntian wanted to help Liu Yan to build a perfect foundation so that Liu Yan could grow into a top-notch expert that mankind had never seen before. Zhong Yuntian wanted to completely change the situation of the human race on the Blue Planet and lead the human race out of their predicament.

When Wu Hua saw Zhong Yuntian's worries, he smiled faintly and said, "Don't worry, old friend. I have been together with Liu Yan for a month. I think I know him quite well. I believe that he will be able to persevere through this. You don't have to worry at all."

When Zhong Yuntian heard Wu Hua's words, he was slightly relieved. Wu Hua had a high evaluation of Liu Yan's willpower, so Liu Yan would succeed.

Moreover, it was meaningless to worry too much at this time. Zhong Yuntian just had to do his best to help Liu Yan. As for the result, he could only leave it to Liu Yan to decide.

Immediately after, Wu Hua and Zhong Yuntian operated the cauldron and helped Liu Yan start to build a perfect foundation.

Wu Hua controlled the cauldron, while Principal Zhong Yuntian gave him support.

Inside the cauldron.

Liu Yan had just gradually adapted to the surrounding heat when he suddenly felt the sound of the cauldron operating.

Immediately, terrifying energy pressed on Liu Yan's body, trying to crush Liu Yan.

Liu Yan remembered the instructions of the principal. He could not use his cultivation and could not use any skill to resist. He could only use his physical body to resist.

Even if he could not hold on anymore, he still had to resist. Only when his physical body was completely destroyed would he be able to build a perfect foundation.

Under the terrifying energy, Liu Yan's powerful physical body did not last long.

Not long after, Liu Yan felt his physical body begin to split, and blood flowed everywhere.

What followed was a piercing pain throughout his entire body.

In that instant of intense pain, Liu Yan almost fainted.

Chapter 227: A Major Problem

Liu Yan clenched his teeth so hard that he was bleeding.

Under the pain, Liu Yan barely managed to raise his spirit and barely supported himself.

The process of destroying one's body was extremely painful. The most torturous thing was the pain came from every part of the body.

In normal battles, one would be injured, but it was only in one part of the body.

However, the destruction of his body was severe. Liu Yan could feel pain in every single part of his body.

The excruciating pain made Liu Yan want to give up at one point, and he was in extreme despair.

However, Liu Yan recalled the scenes of entering the Tower. He recalled the effort and process of overcoming all kinds of difficulties to build a perfect foundation with the help of the principal. He also recalled his determination to go to the higher levels of the Tower.

Thinking of all these, Liu Yan continued to persevere.

The pain in his body pushed him to the verge of collapse. Many times, Liu Yan did not even know if he was awake or was already unconscious and dreaming.

Time passed bit by bit. After a few hours, Liu Yan's body was finally destroyed and started to reconstruct.

The pain finally disappeared and was replaced by an itchy feeling.

The first thing that started was the most crucial reconstruction of the internal organs. It was a strange feeling, and the itchy feeling was somewhat comfortable.

At this time, Liu Yan had a trace of consciousness. He finally understood that he had not fainted just now. His willpower was on the verge of collapse, and he could not think clearly.

At this moment, he had finally held on until his physical body was destroyed. Liu Yan finally heaved a sigh of relief and immediately fell into a deep sleep.

At the same time, outside the cauldron.

Principal Zhong Yuntian and Wu Hua saw that the cauldron had gradually recovered its calmness. The two of them also heaved a sigh of relief.

If Liu Yan had not held on, the cauldron would have directly exploded at this moment.

Now, Liu Yan had recovered his calmness. It meant that everything had gone smoothly. Liu Yan had held on until his physical body was reconstructed.

Zhong Yuntian could not help but heave a sigh of relief. "Fortunately, he has persevered. It seems that everything has gone relatively smoothly."

Wu Hua smiled and said, "I have already said that this young man has great potential. You should trust him. Alright, everything is going smoothly now. Leave the rest to me. You can rest now."

Zhong Yuntian nodded and took a rest at the side. However, he had no intention of leaving.

There weren't many things to do during the rebuilding of the body. The process went relatively smoothly.

However, it was still a matter of great importance. Zhong Yuntian didn't intend to leave. Instead, he stayed here to prevent any accidents from happening.

In the past few days, Zhong Yuntian had handled most of the matters in the upper house of Lighthouse Academy.

Zhong Yuntian put his focus on Liu Yan for the past few days.

The cauldron would carry out the process automatically. Wu Hua was watching closely from the side.

From time to time, Wu Hua would come and check on Liu Yan.

If everything went smoothly, Liu Yan would be able to complete the reconstruction of his physical body in three days. It also meant that Liu Yan's plan to build a perfect foundation had come to a successful end.

Liu Yan had three days to prepare, one day to destroy his body, and three days to rebuild his body.

Of the three days to rebuild his body, the first day was the most critical in rebuilding Liu Yan's internal organs.

After the first day, the cauldron was peaceful, and everything went smoothly.

The second day was to rebuild his bones and flesh. Although it was not as critical as the first day, this day was also the day that consumed the most energy. After all, the reconstruction of the bones and flesh consumed the most energy.

In the afternoon of the second day, the cauldron that had been calm all this time began to tremble slightly.

Although the trembling was not that intense, it also meant something was wrong.

Zhong Yuntian, who was resting at the side, immediately sensed something was wrong and quickly walked over.

"What's going on? The destruction of the body and the reconstruction of the internal organs have been completed. Why is there a problem here?" Zhong Yuntian asked nervously.

Although the reconstruction of the bones and flesh was not as crucial as the previous steps, it was still important. If there was a problem, it was very likely that all the previous efforts would be wasted.

Wu Hua's expression was a little serious at this moment. He carefully examined the cauldron, and his expression immediately changed slightly. He said, "We have underestimated Liu Yan's physical strength. His original physical strength was incredibly strong, which exceeded our expectations. Therefore, he will absorb more power from treasures and reconstruct a better body. Naturally, he will need an even greater amount of energy."

"Previously, the reconstruction of his internal organs was still fine. Later, the reconstruction of his blood and skin was also fine. The core origin stone could provide enough energy."

"But today, it is the reconstruction of his bones and flesh. It requires an extremely large amount of energy. Even the core origin stone's energy is insufficient."

"We have to think of a way quickly. Otherwise, all our previous efforts will be wasted."

After listening to Wu Hua's explanation, Zhong Yuntian's expression changed slightly.

They already knew that Liu Yan's physical strength was very good, so the process of reconstructing his body would require a huge amount of energy.

For this reason, Zhong Yuntian did not hesitate to mobilize the entire core origin stone to help Liu. The entire third-and-a-half level central resting platform of the Tower would be without power for seven days.

In fact, the core origin stone produced extra energy. Just in case, Zhong Yuntian and Wu Hua had stored some energy so that Liu Yan could rebuild his body without any accidents.

However, Zhong Yuntian and Wu Hua did not expect that Liu Yan's physical strength far exceeded their expectations. Liu Yan's physical strength was ridiculously strong.

It also caused Liu Tian to require much more energy to rebuild the bones and flesh. Even if the core origin stone had a lot of energy reserved, there was still not enough energy.

1

If the energy was insufficient, the process of reconstructing the bones and flesh could not continue.

If they could not solve this problem, the reconstruction this time would fail, and all the previous efforts would be wasted.

Not only would the four top-tier treasures that Liu Yan had painstakingly searched for would be wasted, the treasure that Zhong Yuntian obtained on the ninth level of the Tower, Giant Whale's Fragrance, would be wasted. Besides, the cauldron would also be damaged, and even a once-in-a-century genius like Liu Yan would be damaged.

"Should we hurry up and get more treasures to extract the energy from them and supply it to the cauldron?" Wu Hua suggested at this moment.

Both of them had collected quite many treasures. The grade of these treasures was not low, and any one of them would bring a huge increase in the strength of the students.

However, at this critical period, they could not care too much. As long as Zhong Yuntian and Wu Hua could protect Liu Yan, they were willing to use all of them for Liu Yan.

Zhong Yuntian thought about it briefly. Then, he shook his head slightly and said, "No. If that's the case, we could only save Liu Yan's life and his original talent. However, it is impossible to create a perfect foundation to reconstruct the body. There is simply no time."

"Then what should we do? Is there a better way?" Wu Hua, who had always been calm, became anxious at this moment.

At this moment, Zhong Yuntian looked at the cauldron with a determined look in his eyes. He said faintly, "Anyway, my old bones won't be able to return to the peak of the past. I'll sacrifice some of my cultivation to help Liu Yan Cheng. I will help Liu Yan and contribute myself to the human race!"

Chapter 228: Officer from the 11th Level

Upon hearing this, Wu Hua's expression changed slightly.

When Zhong Yuntian said it, Wu Hua already understood what he meant.

Zhong Yuntian wanted to sacrifice a certain level of cultivation and talent, and even overdraft a certain amount of his life to recharge the cauldron. It could help Liu Yan complete the reconstruction, and build a perfect foundation.

This kind of energy would be purer and more timely than the energy extracted from treasures.

Naturally, it would allow Liu Yan to continue building a perfect foundation and rebuild his physical body.

However, the corresponding price was to sacrifice the cultivation, talent, and life of a former top-tier expert like Zhong Yuntian.

"Are you crazy? You already had a sickness. If you continue to overdraft, your life will still be shortened, and your strength will fall again. You'll lose those forever!" Wu Hua said in a bad mood.

Zhong Yuntian smiled faintly. He looked at Wu Hua and said, "Old friend, you also know my situation. I have never been able to return. I will never be able to reach the peak again. Losing a little of my cultivation base and life will not have much of an impact on me. I will merely go from a first-rate expert to a second-rate expert. It will not have much of an impact on the human race. However, if we help Liu Yan successfully reconstruct his physical body, there will be a chance for a top-tier expert to appear in the future. An unprecedented expert that can completely change the situation of our Blue Planet."

Wu Hua naturally understood Zhong Yuntian's meaning. Such an exchange was completely worth it. If Wu Hua was willing to use his own cultivation to exchange, he would do the same.

But unfortunately, Wu Hua's cultivation was not enough. He simply could not do this.

And Zhong Yuntian was his good friend and also his old team leader. Their feelings for each other over the past few decades were extremely deep. He was somewhat reluctant to let Zhong Yuntian sacrifice him like this.

“Alright, we can’t waste any more time. I have decided!” Zhong Yuntian pushed Wu Hua away and walked forward.

Zhong Yuntian came in front of the cauldron and pulled out a pipeline that carried energy. He immediately circulated his cultivation and struck out with his palm.

Wu Hua couldn’t bear it, but seeing that Zhong Yuntian had decided, he also went forward to help.

With the injection of Zhong Yuntian’s powerful cultivation, the energy in the cauldron gradually became enough, and it also recovered its calmness. It continued to reconstruct Liu Yan’s bones and flesh, and the process returned to the right track.

As time passed, at first, Zhong Yuntian’s expression was still relatively calm.

But with the continued injection of powerful cultivation, Zhong Yuntian couldn’t hold on for long. His expression became serious, and he still gritted his teeth to hold on, overdrawing his cultivation, talent, and life.

It was not until evening that Zhong Yuntian finally completed the reconstruction of his bones and flesh. Wu Hua, who had been impatient for a long time, rushed forward and pulled Zhong Yuntian down.

“Enough, enough. The reconstruction of the bones and flesh has been completed. The energy of the core energy origin stone should be enough for the rest of the reconstruction of the blood and skin.”

Wu Hua quickly pulled Zhong Yuntian down. If this continued, Wu Hua suspected that Zhong Yuntian might die here on the spot.

At this moment, Zhong Yuntian’s face had become extremely pale after giving out his energy. He looked a little older.

Zhong Yuntian quickly meditated while Wu Hua assisted him.

However, the damage was irreversible. Zhong Yuntian could only try to stabilize himself, stop the damage in time, and try to control the subsequent damage.

It was not until late at night that Zhong Yuntian gradually recovered and stopped meditating.

“Phew, not bad. I thought it would be much harder.” Zhong Yuntian said with a smile.

Wu Hua, who was at the side, could not laugh. He knew very well that after the overdraft just now, Zhong Yuntian had lost at least a few decades of his life, and his strength had also dropped by a few grades.

Even worse, his talent had also been damaged twice. It also meant that in the future, Zhong Yuntian’s cultivation would not be able to improve at all. He could only stay at this cultivation level for the rest of his life. He could no longer return to his peak.

It was the cruelest torture for people like them who had once become an expert.

They would rather die than be a weakling for the rest of their lives.

However, in front of reality, they could only be a weakling for the rest of their lives.

Wu Hua looked at the calm cauldron with a profound gaze. He said slowly, "I hope that everything is worth it. Liu Yan can grow up as we wish and become an expert. He can eliminate the plight of humanity and lead us towards the dawn."

"I believe in him." Zhong Yuntian smiled.

Upon hearing this, Wu Hua also nodded slightly. He also trusted Liu Yan's talent and heart.

The subsequent reconstruction was more smooth.

Zhong Yuntian's strength decreased again, and he was also quite weak. He immediately left to rest, leaving everything here to Wu Hua.

On the third day, Zhong Yuntian was resting while waiting for good news from Wu Hua and Liu Yan. Then, an officer came down from the eleventh level to look for Zhong Yuntian.

In a secret meeting room, Zhong Yuntian met the officer. Although Zhong Yuntian looked normal, he was a lot weaker now.

In the meeting room, a middle-aged man wearing a battle armor was waiting solemnly with an imposing look on his face.

When the middle-aged man saw Zhong Yuntian, he immediately walked forward with a respectful face.

"Teacher!" The middle-aged man bowed slightly with respect, showing great respect to Zhong Yuntian.

Zhong Yuntian looked at the armband on the middle-aged man's shoulder and smiled faintly, "Yuan Cheng, your cultivation is higher than mine now, and your military rank is also higher than mine. I should be the one saluting you."

Hearing that, Yuan Cheng said with a serious face, "Teacher, what are you saying? I wouldn't have my achievement without you. You will always be my teacher, and you will always be the person I respect!"

Hearing that, Zhong Yuntian looked calm on the surface, but in his heart, he was gratified.

Zhong Yuntian was once an expert at the top of the Blue Planet. He fought in the very frontline and was incomparably glorious.

However, in that big battle, Zhong Yuntian suffered a fatal and irreversible injury. His cultivation fell, and he had no choice but to retreat here.

It would be a lie to say that he didn't want to return to the battlefield.

Zhong Yuntian had dreamed of becoming a top-tier expert again countless times. He wanted to fight at the front, but unfortunately, he would never have the chance in this lifetime.

The middle-aged man in front of Zhong Yuntian, Yuan Cheng, used to be a small and unremarkable subordinate of Zhong Yuntian. Now that Zhong Yuntian's strength had retreated from the battlefield,

Yuan Cheng's strength had improved. Yuan Cheng had achieved many meritorious deeds, becoming a top-tier expert and a general.

However, Zhong Yuntian was gratified to know that Yuan Cheng still respected him sincerely. After all, he was the one who had brought Yuan Cheng up. Although Zhong Yuntian couldn't become an expert and contribute to the human race and fought in the front, the subordinate he had trained had done it. It could be considered a pretty good result.

Zhong Yuntian's expression returned to normal, and he said calmly, "Let's talk about the old times later. You must have something important to discuss if came down from the eleventh level to find me. Let's hurry up and talk about it."

Chapter 229: The Battle Between Two Planets

"After you, teacher!" Yuan Cheng, who was wearing a suit of armor, said respectfully.

Zhong Yuntian, who was wearing a cloth robe, nodded slightly and sat down. Yuan Cheng followed him and sat across from him.

"Tell me, what makes you come down from the eleventh level?" Zhong Yuntian asked directly.

Yuan Cheng nodded slightly and stopped chatting.

"At present, we have reached the eleventh level of the Tower. The situation is roughly the same as when you were still there. The key is the battle on the 10th level." Yuan Cheng said directly.

Zhong Yuntian frowned when he heard that.

The battle on the frontline was nothing more than a battle with the fierce beasts in the Tower. It was to expand the human world on the higher level of the Tower and obtain more precious resources. Only then could humans have more resources for cultivation, and more experts would be born.

The top-tier experts were the ones who lead humanity to expand their world at the battlefield. The awakened ones who were average in strength or relatively weak could not fight at the frontline at all. They would be cannon fodder sending themselves to their deaths on the frontline.

When Zhong Yuntian was still at the frontline, he had just reached the tenth level of the Tower. Now, he had already reached the eleventh level.

Logically speaking, after reaching the eleventh level of the Tower, the tenth level would be relatively safer. There shouldn't be many large battles anymore. At most, there would be some small-scale battles.

"Why are there still battles on the tenth level?" Zhong Yuntian asked in puzzlement."

Zhong Yuntian saw Yuan Cheng's strange expression and immediately guessed something. He said, "It's not a war with the fierce beast, but a war with human beings."

Yuan Cheng immediately nodded and said, "We cleared the tenth level, and the powerful boss has been conquered. Although there are still fierce beasts, it's relatively safe."

“However, a while ago, a fierce beast tide came. These fierce beasts were obviously under the command of intelligent high-level fierce beasts. They attacked in groups. Their attack was orderly and extremely powerful.”

“You also know there are not only the humans of the Blue Planet, but also the humans of the Red Planet on the tenth level.”

“However, after encountering the fierce beast tide, our views have diverged.”

“We, the Blue Planet, advocate fighting against the common enemy of mankind, the fierce beast. Therefore, we formed an alliance. We allocated resources rationally and worked together to fight against the fierce beasts.”

“However, the humans from the neighboring Red Planet don’t think so. They believe that only the strongest survive in natural selection. Therefore, they advocate that whoever is stronger will be able to survive. The strong will live to enjoy the resources, while the weak are not worthy of those resources.”

“In addition, they had been displeased with us giving part of the resources to the younger generation. Later, a conflict broke out.”

“They thought we were spending limited resources to support the trashes.”

“At first, it was just a disagreement of opinions, and there were minor conflicts. But later, the competition for precious resources escalated the situation.”

“More conflicts occurred. Now, a fierce war has started on the tenth level.”

“We have our own opinions on the rights and wrongs of this war. But no matter what, the war has already started, and it is impossible to end it in a short time. Only by winning this war can we obtain the enormous precious resources on the tenth level.”

“No matter how difficult and dangerous the war is, we can not back down even a little!”

Zhong Yuntian’s expression changed when he heard this. He did not expect that there would be a war between the humans and the Red Planet, which was a neighboring planet of the same galaxy.

When Zhong Yuntian was still on the tenth level of the Tower, he had already met the people from the Red Planet.

In the lower levels of the Tower, various regions would combine together.

While on the higher levels of the Tower, it would gradually fuse with the tower worlds of other planets.

When Zhong Yuntian first met the humans from the Red Planet, they only had some minor conflicts. Both sides had always controlled themselves, putting more energy into dealing with the fierce beast.

But unexpectedly, as time went on, the frictions grew bigger and bigger. Under the conflict of ideas and the competition for resources, disagreement gradually turned into a war. Now, the scale of the war escalated to total warfare between two planets.

Zhong Yuntian naturally didn’t advocate this kind of war. After all, it was a war between humans and humans.

The fierce beasts were already so powerful and huge. It was difficult for humans to deal with the fierce beasts. It was undoubtedly an unwise choice to fight another human race.

However, the war had broken out, and there was no way to stop it. Zhong Yuntian wouldn't say anything against it.

"What do you think about the current war situation?" Zhong Yuntian asked again.

Yuan Cheng looked a little embarrassed and said, "As you know, there are more humans on the Red Planet than on the Blue Planet. Naturally, they have more powerhouses. The current war situation is not optimistic for us. We have been suppressed, and the situation is precarious. The reason I came down here is to ask you to return to the frontline. We can use your command. I believe that with your command, we can turn the tide!"

Zhong Yuntian finally understood the purpose of Yuan Cheng's visit. Yuan Cheng wanted to invite him back to the front line.

Zhong Yuntian was clear that his strength had regressed before. This time, he helped Liu Yan by sacrificing his life force, strength, and talent, causing his strength to regress once again.

At this moment, he was no longer the legendary expert Zhong Yuntian of the past. His strength was still sufficient in the lower levels of the Tower, but it was undoubtedly insufficient on the fearsome battlefield on the front line. It was not an exaggeration to describe him as old and frail now.

However, since it was the Federation's call and he was contributing to humanity, Zhong Yuntian did not hesitate. He nodded and said, "Since the Federation needs me, I will go to the frontlines again!"

At the same time, Zhong Yuntian also felt that he was somewhat tired of staying in the upper house of Lighthouse Academy. This kind of comfortable environment was not suitable for him. He thought that he belonged to the battlefield environment at the frontlines.

At this moment, Zhong Yuntian could not help but feel a little expectant of what the day would be like when he returned to the front line of the battlefield.

When Yuan Cheng saw Zhong Yuntian agree, he was immediately filled with joy. He thought it would be more difficult to invite Zhong Yuntian back to the frontline. After all, Zhong Yuntian had suffered a serious injury previously, and his strength had regressed. Zhong Yuntian had already made a huge contribution to the Federation. He could stay at the rear and enjoy a comfortable life.

However, Zhong Yuntian did not hesitate at all. He refused to live a comfortable life and chose to head to the front line and return to the battlefield. He chose to take risks and respond to the call of the federation. He was willing to contribute to the Federation and humanity.

"Thank you so much. However, the situation is dire. I hope you can hurry up and leave." Yuan Cheng said gratefully.

Zhong Yuntian nodded slightly and said, "I don't have anything to pack. I'll just leave a video for a junior."

After saying that, Zhong Yuntian left a video for Liu Yan and then told him about the matter of letting the vice principal take over the management of the upper house of Lighthouse Academy.

The frontline was important, but so was the backline. After all, these students were the future experts and would be the mainstay of the front line in the future. Students like Liu Yan had extraordinary talent and were the hope of humanity. Hence, Zhong Yuntian naturally had to arrange everything properly before he left.

After making all the arrangements, Zhong Yuntian left the central resting platform on the third level of the Tower with Yuan Cheng and headed to the front line battlefield on the tenth level of the Tower.

On the other side, the cauldron in the depths of the core origin stone was still operating peacefully. Wu Hua was waiting on the side.

Wu Hua had just received the news that Zhong Yuntian was heading to the front line. Wu Hua also wanted to go, but he had to wait for Liu Yan to finish helping him. After Liu Yan had successfully built a perfect foundation and reconstructed his body, he would come out of the cauldron.

Wu Hua could not help but feel a little worried at this moment. Although the Federation invited Zhong Yuntian to the battlefield, it was mainly to command the battlefield. He would not personally participate in the battle.

However, the situation at the front line was ever-changing. No one could predict what the next step would be.

Meanwhile, Zhong Yuntian, who had just lost his strength once again, was clearly not strong enough on the front line of the tenth level. If he was not careful, he might put himself in danger.

“Old buddy, you can’t just leave. When I get there, I will help you!” Wu Hua murmured in a low voice.

At the same time, some movement came from the cauldron.

Liu Yan had also reached the final stage of rebuilding his body and was undergoing the final reconstruction of his skin.

The final piece of skin was formed. Liu Yan had finally completed the difficult reconstruction of his body this time, and he had also built a perfect foundation.

The moment the reconstruction was completed, Liu Yan immediately opened his eyes.

Liu Yan had already gradually woken up from his slumber. However, in order not to disturb the process of rebuilding his body, he had been quietly waiting with his eyes closed.

Now that it was finally completed, the cauldron gradually calmed down. Liu Yan stood up and walked out of the cauldron!

Chapter 230: Body Reconstruction Completed

Liu Yan walked out of the cauldron.

The clothes on his body had completely shattered in the process of destroying his body.

Although Liu Yan was still himself, he had some significant changes.

His skin was pure and white, like pearls. He looked even whiter than a woman.

However, the lines of his muscles were clear. Even if his body was relaxed, the lines of his muscles were visible, giving him a sense of power.

Refining his bones also caused some changes in Liu Yan's bones.

Although the previous Liu Yan was not short, he was not very tall. He was just an ordinary height.

After rebuilding his body, Liu Yan's height increased by a lot, reaching 1.9 meters.

He looked even more slender. Yet, he felt there was a sense of power and a domineering aura.

Even the bones of his face had undergone some changes. His facial features looked very similar to the past. There weren't any huge changes, but the subtle changes made him look more handsome now.

Liu Yan was surprised at this moment. It was a wonderful feeling, a completely different feeling.

First, his strength, agility, flexibility, and other aspects had all improved significantly, and his physical strength had increased quite a bit.

Moreover, Liu Yan felt that his control over his own body was more familiar.

After a month of training in the Eastern Medicine Garden, Liu Yan had already become familiar with his control over his strength, and he could exert his strength more precisely. Now, Liu Yan had obtained another improvement in this aspect.

Liu Yan could not describe the specific feeling, but he felt it was wonderful. It was as if his body was much stronger than before despite having the same strength.

This was his new physical body after the reconstruction. It was indeed a perfect foundation. It was truly magical.

Out of curiosity, Liu Yan quickly checked his attributes panel.

Class: Dark Ranger (second transition)

HP: 2,800/2,800

MP: 2,200/2,200

Strength (attack) : 9,345

Vitality (defense) : 9,923

Agility (speed) : 5,656

Spirit (mana) : 4,880

Adaptability (magic resistance) : 3,450

Luck (probability) : 89

Bow and arrow: Flying Cloud Mystic Bow

Trap: None

Familiar: Ice and Fire Two-headed Wolf, Earth Dragon, Treasure Pangolin

Allocatable attribute points: 80

Talent:

Divine Extraction (SSS): 200/200(restores once every hour)

Extraordinary Five Senses (SS +)

Superior Element Affinity (SS +)

3

Skill: Omniscient Insight (A), Fog (B), Ultimate Aim (B), Poison Control (B), Traceless Silence(B), Poison Control (D), Animal Affinity (B), Flame Control (A), Frost Control (A), Wind Control (C), Robbery (B), Split (A), Track (A), Electrification (A), Sonic Speed (S), Shadow Cloak (A), Backstab (C), Dragonification (S), Deception (C), Fire Scythe Dance (S), Treasure Hunting (A), Absolute Unrivaled (S), Pure Body (A), Dominance (S), Earth Power (S)

Items: Soft Blade Boxing Gloves (A), Blade of the Night (S), Flying Cloud Mystic Bow (S), Turin Assassination Set (A), elementary storage ring (B)

Liu Yan carefully looked at his attributes panel and was instantly filled with ecstasy.

His grade and EXP did not increase in the slightest, but his attributes and strength had increased tremendously.

In addition, Liu Yan remembered the principal's description of building a perfect foundation. His physical body was many levels stronger than his previous talent. The improvement was not much now, but it would get better in the future.

Not to mention other things, the increase in attributes brought by each upgrade would be far greater than before. It was almost dozens of times greater than before.

In reality, Liu Yan's physical talent was very mediocre. The amount of attribute points that he gained from each level-up was very little.

Liu Yan had once compared himself to Murong Xue and the others. They were on completely different levels.

Liu Yan's physical body was so strong and his various attribute points were extremely high because of his SSS-grade talent, Divine Extraction. Only by obtaining tons of attribute points could he possess powerful physical strength.

Otherwise, Liu Yan's attribute points might have been mediocre and would not have reached such a high level.

But now that he had built a perfect foundation and reconstructed his body, it was no longer a problem.

At this moment, Liu Yan could not help but feel some anticipation. In the future, when he leveled up again, he would obtain more attribute improvement when leveled up.

If Liu Yan remembered correctly, he only received a few dozen points in his attributes when leveling up. It was mediocre. For martial arts prodigies like Murong Xue, she would gain a few hundred attribute points every time she leveled up. It was ten times more than Liu Yan.

Other than the increase in his physical body's attributes and the improvement in his physical talent, Liu Yan also noticed that he had two additional talents, both of which were SS+ grades.

Although they were not SSS-grade and incomparable to Divine Extraction, their levels were already very high.

The awakened ones who had an S-grade talent were called geniuses.

It was rare to see a genius with an SS-grade talent among the new students.

However, Liu Yan had obtained two SS + grade talent at once.

To his surprise, Liu Yan quickly checked the two powerful new talents he had obtained.

[Extraordinary Five Senses]

Grade: SS + grade

Effect: obtain extraordinary five senses. It has a powerful and magical effect and can be gradually awakened during battle.

Currently awakened senses: None

Currently not awakened senses: Vision, hearing, taste, smell, touch.

After reading the first talent, Liu Yan had a rough understanding.

The overall effect was somewhat similar to Liu Yan's current A-grade perception skill, Omniscient Insight, but the intensity should be much stronger.

An A-grade skill, Omniscient Insight, had helped Liu Yan many times. It helped him through many trials in the Tower.

Although it could not directly increase one's combat strength, it could help Liu Yan a lot, indirectly increasing Liu Yan's various aspects of combat strength.

If all of the Extraordinary Five Senses were unlocked, they would definitely be extremely powerful. It was far from what an A-grade skill, Omniscient Insight, could compare.

However, it was a pity that Liu Yan could not unlock them. He could only wait for the subsequent battles to grope around and awakened them one by one.

Following this, Liu Yan looked at his newly acquired second SS + level talent.

[Superior Elemental Affinity]

Grade: SS +

Effect: Allows the host's body to simultaneously master six superior elements (thunder, wood, ice, metal, light, and dark), and increase the fusion ability. It allows the six superior elements to coexist and

even fuse together, producing terrifying power. The specific details need to be explored with confidence.

After reading the introduction of the Superior Element Affinity, Liu Yan was suddenly a little surprised.

Previously, Liu Yan had considered this aspect. Superior elements were much stronger than ordinary elements, but it was difficult for ordinary people to grasp.

Let alone six types, regular people couldn't even grasp one type. Their bodies simply couldn't bear it.

After obtaining this Superior Element Affinity, one could learn to grasp six types of superior elements in the future.

Any of the superior elements was extremely powerful, not to mention being able to master all six of them.

This affinity with superior elements allowed Liu Yan to master six types of superior elements harmoniously, allowing them to coexist. There was even a chance for them to fuse and unleash a terrifying power.

Liu Yan did not dare to think about it at this moment. Superior elements were already extremely powerful. If he could successfully fuse with them, wouldn't he be heaven-defying?

For ordinary people, it would be extremely difficult to master a superior element let alone six superior elements. Even if there were a chance, it would require a certain amount of opportunity and a long time to master it.

However, Liu Yan was not like this. With his SSS-grade talent, as long as he encountered an opportunity, he could master it effortlessly.

With the help of the Divine Extraction and the Superior Element Affinity, Liu Yan's future limit would be ridiculously high!
