

## Towers 331

### Chapter 331: All of the Strength Unsealed

On the stage.

After Liu Yan pulled himself from Sturdy Back Ape, a purple hexagonal array immediately appeared beneath his feet.

A terrifying power emanated from the hexagonal array.

Sturdy Back Ape, which was about to advance and attack, suddenly stopped in its tracks. Sturdy Back Ape was somewhat puzzled.

The crowd below the stage was also confused.

“What’s going on?”

“Could it be that Liu Yan has not used his trump card?”

“This formation looks familiar. It seems to be a pet summoning formation.”

“Liu Yan is also a summoner? He can summon pets?”

“Why does it feel like there’s a change? Is Sturdy Back Ape going to lose?”

...

The members of the Pan-ocean Community team discussed animatedly. They all had a bad feeling about this.

On the other side, Xu Han saw the situation. He said happily, “I didn’t expect Liu Yan to have a pet. Could it be that Liu Yan has a way?”

Although Xu Han had seen Liu Yan’s confident face before, she believed Liu Yan had a way.

But when Xu Han saw that Liu Yan still had a trump card, he was also extremely shocked.

In addition, when Xu Han saw that Liu Yan had a pet, he also found it hard to understand.

Subdue a fierce beast required a lot of energy, and nurturing a fierce beast also needed a lot of effort and resources.

Therefore, their pet had good combat strength, but their own combat strength was relatively average. After all, the awakened ones had limited resources and energy. It was hard to satisfy all needs.

However, Liu Yan was different.

Not only was he strong, but he also had a pet. It was surprising.

Murong Xue nodded. “Liu Yan does have a pet, and its combat strength is not bad.”

Chu Long saw that the situation had finally changed. She said happily, “How could we forget about this? Brother Liu Yan’s pet is also strong. If we work together, we can defeat that Sturdy Back Ape!”

However, Allen Smith frowned slightly. He had done some research on various formations.

Others could not tell, but Allen Smith recognized the teleportation array under Liu Yan’s feet. It was not a normal pet-summoning teleportation array.

There was no need to be so complicated to summon a pet. A regular pet would not need to go through the teleportation array to be summoned from the pet space.

The teleportation array under Liu Yan’s feet was a special plane teleportation array. It seemed to come from the upper level of the Tower. It was high-level. It was not something that could be owned by anyone below the fifth level of the Tower.

However, even though he saw something strange, Allen Smith could not be bothered to say anything more.

At this moment, on the stage.

As the purple teleportation array shone brightly, a powerful aura appeared from it.

Even Liu Yan and the ape could feel the immense pressure and couldn’t help but feel fear.

It was the first time Liu Yan faced such an intimidating powerhouse, and he immediately felt immense pressure.

Although Principal Zhong Yuntian and the others were powerful, they suppressed their aura and didn’t reveal it.

Ordinary people couldn’t even feel their power let alone feel the pressure. They felt as if they were a regular person without any cultivation.

This aura was released at this moment, causing Liu Yan and Sturdy Back Ape to feel even more pressure.

Even the people below the stage, who were quite far away, also felt this pressure.

“What fierce beast is this? Why is its aura so strong?”

“What a powerful aura. It is too powerful.”

“This isn’t a fierce beast that can exist in the lower levels of the Tower. How could Liu Yan summon such a powerful fierce beast?”

“What’s going on? This aura is too powerful!”

“It’s too terrifying. It’s over. It’s over. How could Sturdy Back Ape be a match for this fierce beast?”

...

The members of the Pan-ocean Community team were shocked. They couldn’t help but feel fear in their hearts. At the same time, they felt despair.

Sturdy Back Ape was not a match for a fierce beast with such a powerful aura.

It also meant that they were going to lose this gamble.

Not only would they be directly eliminated from the sixth level of the Tower, but they would also lose all of their assets. They would even become prisoners of war.

On the other side, Allen Smith felt this powerful aura. It immediately confirmed his previous guess. He looked at Liu Yan strangely. He did not understand how this guy could summon such a strong fierce beast.

Logically speaking, there should not be such a terrifying fierce beast on the first three levels of the Tower.

Moreover, normal fierce beasts were unwilling to be summoned by awakened ones weaker than them. They would only be summoned by awakened ones that could suppress them.

Moreover, the strength of Liu Yan was inferior to this fierce beast with a powerful aura. It was somewhat illogical.

At the same time, the few people beside them also sensed something unusual.

“Strange, why is this aura so powerful? Liu Yan’s fierce beast might be powerful, but it is not that powerful.” Murong Xue said in puzzlement.

Chu Long felt that this aura seemed somewhat familiar. It was as though she had sensed it somewhere before. However, she could not recall where it was after thinking about it carefully.

Xu Han also felt that something was off. Although he felt a little puzzled, he did not overthink it. Instead, she was happy.

“Haha, who cares? With such a powerful aura, we could take down Sturdy Back Ape. We will definitely win this duel!” Xu Han immediately said while dancing with joy.

Murong Xue and the other two girls were happy when they heard this.

No matter what happened, this powerful aura was here to help Liu Yan. As long as he could win this duel, nothing else mattered.

At this time, the complicated formation had already disappeared from the stage. The purple light had also gradually disappeared.

A figure was revealed on the spot.

There were some humanoid ape-like appearances. The tall figure was covered in golden armor, looking extremely dazzling.

The one that appeared in front of Liu Yan was the golden-armored blue ape.

Its appearance was similar to what he had seen on the third level of the Tower, but its aura was many times stronger.

Liu Yan was curious, so he quickly checked the information on the golden-armored blue ape.

[ Golden-armored blue ape ]

Talent: SS-grade

Level: 100

...

Looking at the simple attributes panel, Liu Yan was extremely surprised.

He saw that the golden-armored blue ape had completely unsealed itself and recovered its full strength.

Liu Yan had not expected that the true strength of the golden-armored blue ape would be so terrifying.

Liu Yan remembered he fought the golden-armored blue ape to a draw.

Now, the golden-armored blue ape had unsealed itself completely. Even if Liu Yan's strength had improved tremendously, he would still be unable to withstand a single move from the golden-armored blue ape. They were not on the same level at all.

The higher the grade, the greater the increase in strength for each grade.

It was enough to show just how powerful the golden-armored blue ape had been sealed back then.

At this moment, the golden-armored blue ape saw Liu Yan and immediately retracted its aura directed at Liu Yan. It smiled in a friendly manner and walked over to pat Liu Yan's shoulder. It had a friendly look on its face. It immediately began to speak some ape language.

### **Chapter 332: One Punch**

When the crowd below the stage saw the heroic golden-armored blue ape, they were shocked beyond words.

The Pan-ocean Community team had never thought that Liu Yan would be able to summon such a strong fierce beast.

Especially when one of the team members checked the golden-armored blue ape's attribute and discovered it was a powerful level 100 fierce beast with an SS-grade talent. They were all extremely shocked.

"Is this for real? How could there be a level 100 fierce beast with a SS grade talent!?"

"This isn't something that should exist on the fifth level of the Tower. At the very least, it should be an existence on the seventh or eighth level of the Tower!"

"It should be a peak existence on the seventh or eighth level of the Tower. How did it get here?"

"We will definitely lose."

"This isn't fair at all!"

...

The members of the Pan-ocean Community team were all howling in grief. They were unable to accept such a result.

Initially, they thought they were bound to win. When the Red Star Empire team's reinforcements arrived, they would definitely win.

In the end, they launched a gambling duel to obtain more loots. They thought they had a high chance of winning.

However, they had never expected such an outcome.

He Yang also had a look of regret on his face. If he had known this would happen, he would not have started the gambling duel.

However, He Yang turned his head and thought. Even if they did not start the gambling duel, the fact that Liu Yan could summon such a terrifying existence was enough to crush them.

Even if it was a free-for-all battle, an existence like the golden-armored blue ape was enough to wipe out all the members of the Pan-ocean Community team and the Red Star Empire team.

All of this was because Liu Yan was too abnormal. Otherwise, there would not have been such a result.

Some people were happy, while others were sad.

While the Pan-ocean Community team was wailing incessantly, Xu Han, Murong Xue, and the others on the other side were thrilled.

"D\*mn, Liu Yan has such a powerful fierce beast. If I had known earlier, I would not have engaged in a gambling duel. I would have directly challenged the other four teams. Let Liu Yan summon this monster to wipe out the other four teams!" Xu Han said somewhat regretfully.

The few people at the side felt that it was a little strange. But when they thought about it carefully, it seemed to be true.

The golden-armored blue ape was level 100 and had SS-grade talent. It had no problem wiping out four teams.

At this time, Chu Long finally understood the reason she felt that it was familiar just now. She said, "I was wondering why I felt that this aura was somewhat familiar just now. So it was the golden-armored blue ape on the third level of the Tower. I didn't expect that after it was completely unsealed, it would have such terrifying strength."

Murong Xue also heaved a sigh of relief. After seeing the golden-armored blue ape, she knew they would win this duel.

"This fellow didn't summon the golden-armored blue ape earlier. It made us so scared. Seriously!" Murong Xue complained.

Allen Smith stared at the golden-armored blue ape and Liu Yan with a face full of curiosity.

He did not expect Liu Yan to be able to summon such a terrifying existence. He was even more curious about the relationship between Liu Yan and the golden-armored blue ape.

After all, the golden-armored blue ape put its arm around Liu Yan's shoulder. It seemed that they had a good relationship.

On the stage, Liu Yan felt the golden-armored blue ape's enthusiasm and was surprised.

Liu Yan did not understand the golden-armored blue ape's words. Shadow Wolf could understand them and convey the golden-armored blue ape's meaning to Liu Yan.

The golden-armored blue ape tried to say it was grateful to Liu Yan. Liu Yan helped it break its initial seal, so it felt much better. Later on, it even found an opportunity to break all seals and returned to the state of its glorious day.

At the same time, it was also asking Liu Yan what he needed help with. It remembered the favor it owed Liu Yan and could now fulfill its promise.

Liu Yan understood the meaning of the golden-armored blue ape and immediately pointed at Sturdy Back Ape. "There's nothing else. I need to trouble you to help me deal with this ape."

Currently, the gambling duel was still going on. Liu Yan did not have the time to chat too much with the golden-armored blue ape. It was still the most crucial thing for him to win this gambling duel.

After all, this gambling duel was too crucial for Liu Yan and the Land of Origin team.

They put all the assets on this duel. So, it was of great importance.

When the golden-armored blue ape heard this, it turned around and looked at Sturdy Back Ape.

The initially arrogant Sturdy Back Ape was a little scared when it saw the golden-armored blue ape appear.

At this moment, when it met the golden-armored blue ape's strong gaze, it even lowered its head as if it was afraid.

Although Sturdy Back Ape was not weak, it was still far from the golden-armored blue ape.

The suppression of the bloodline was real.

The golden-armored blue ape did not say anything and walked towards Sturdy Back Ape.

Liu Yan saw it clearly. As the golden-armored blue ape walked forward, the wood attribute energy in Sturdy Back Ape's body gradually dissipated.

Due to the suppression of its bloodline, the strength of the Sturdy Back Ape was reduced when it faced the golden-armored blue ape.

Liu Yan, who had just obtained the wood attribute talent, could feel the loss of the wood attribute energy.

After Sturdy Back Ape lost its wood attribute energy, its strength decreased, and its body size became much smaller.

The current Sturdy Back Ape could even be dealt with by Liu Yan, not to mention the golden-armored blue ape.

The golden-armored blue ape directly walked forward and threw a simple punch at Sturdy Back Ape.

This simple punch seemed to contain a profound mystery. No matter how hard Sturdy Back Ape tried to dodge, it could not do so.

1

With nowhere to hide, Sturdy Back Ape could only use all of its strength to resist.

Sturdy Back Ape no longer had the heart to fight when it saw the golden-armored blue ape. It wanted to give up.

However, as the guardian beast of the wood attribute territory, it could not give up. Even if it knew that it was no match for the golden-armored blue ape, it had to go all out.

However, there was indeed a huge difference in strength between the two.

This seemingly ordinary punch immediately erupted with a terrifying power after it hit.

The entire stage shook violently, and several cracks appeared under the terrifying power.

Looking at Sturdy Back Ape again, it had already been smashed into the stage by the golden-armored blue ape's punch and fainted.

With just one punch, the golden-armored blue ape had taken care of Sturdy Back Ape!

When Liu Yan saw this scene, he was instantly incomparably shocked.

The golden-armored blue ape's punch was too overbearing and too powerful.

Liu Yan had long known that Sturdy Back Ape was not a match for the golden-armored blue ape, but he had never imagined that the disparity in strength between the two was so great.

The golden-armored blue ape had only used a simple punch. However, it had already erupted with terrifying strength, crushing Sturdy Back Ape completely.

This punch from the golden-armored blue ape was the strongest punch Liu Yan had ever witnessed. It refreshed Liu Yan's understanding of strength.

It also gave Liu Yan a new perspective on the strength of a powerhouse.

At this moment, the golden-armored blue ape returned to the stunned Liu Yan and said a few words.

Through the transmission of Shadow Wolf, Liu Yan immediately understood the meaning of the golden-armored blue ape. It was probably asking Liu Yan if this was enough. Was its help too simple and not enough to repay the favor?

### **Chapter 333: Mastering the Wood Element Secret Art**

Liu Yan glanced at Sturdy Back Ape on the ground in the distance.

Sturdy Back Ape had only taken one punch from the golden-armored blue ape, but it was already severely injured and on the verge of death.

Liu Yan could even vaguely see Sturdy Back Ape's wood power essence.

"That's enough. Thank you for your help." Liu Yan said gratefully.

If the golden-armored blue ape continued, Sturdy Back Ape would probably be killed.

Liu Yan naturally did not want to kill the golden-armored blue ape. He just needed to win this bet.

After winning the bet, the golden-armored blue ape would belong to Liu Yan. It was also one of the strengths of the Land of Origin team.

When the golden-armored blue ape heard this, it nodded and then said goodbye.

Shadow Wolf told Liu Yan that the golden-armored blue ape still had something important to do. It could not stay here any longer, so it hurriedly left.

After the golden-armored blue ape left, Liu Yan tried to sense it. He was surprised that the temporary contract with the golden-armored blue ape was still there. It also meant that Liu Yan could still summon the golden-armored blue ape in the future.

It seemed that this time was too simple. The golden-armored blue ape felt its help was not enough to repay Liu Yan's favor.

Liu Yan was overjoyed. The golden-armored blue ape's strength was unfathomable. If he encountered any dangerous situations in the future, it could still be used as a trump card. It could give Liu Yan a lot of confidence.

Just like this gambling duel, the golden-armored blue ape's help was crucial.

Without the golden-armored blue ape's help, even though Liu Yan had used all of his trump cards, he should still be able to defeat the entire golden-armored blue ape.

However, if that were the case, Liu Yan would undoubtedly have to expend a lot of effort, and he would also be able to drag out a lot of time.

Even if Liu Yan defeated Sturdy Back Ape and won this gambling duel, it would still be difficult for him to face the remaining three teams.

However, things were different now. The Land of Origin team did not lose anything by winning this gambling duel.

Not only did they retain their strength, but they also won the bet and increased their strength. The other three teams did not dare to make a move against the Land of Origin team. The situation of the Land of Origin team immediately improved.

Liu Yan came in front of Sturdy Back Ape and saw the faintly glowing wood crystal core in its body. He was tempted. He tried to use Divine Extraction.

Although he had just used Divine Extraction on Sturdy Back Ape, he had only used it when it was still in perfect condition. It was mainly to extract the strength of Sturdy Back Ape.

But now that he could faintly touch the wood crystal core inside the Sturdy Back Ape's body, he might be able to extract it.

Thinking of this, Liu Yan directly used Divine Extraction.

A milky white light landed on the wood crystal core, and a notification appeared in front of Liu Yan.

[ Divine Extraction of wood crystal core (SS-grade) successful. Congratulations: Pure Wood Talent obtained (SS-grade)! ]

[ Pure Wood Talent (SS-grade) and Wood Element Talent (S-grade) fused successfully into Wood Element Secret Art (SS-grade)! ]

Seeing the notification in front of him, Liu Yan was stunned, and then he was ecstatic.

According to his previous understanding, Liu Yan knew that talent was only the lowest rank in this world.

Compared to ordinary people, the awakened ones who entered the world of the Tower had learned great talent and were very powerful.

However, the awakened ones' talent was only at the lowest level.

Secret art was the existence above talents.

Talent was just an ability and a skill. Its potential and strength were limited.

And to master secret art was to truly master a group of powers. One could slowly awaken many skills, and their strength was extremely high. They were not on the same level at all.

Above secret art, there was still the existence of laws.

Laws were the true source of power. Liu Yan was not very clear about exactly how it was. He only knew that the awakened who could master any power of laws were all top-notch experts!

After mastering Wood Element Secret Art, Liu Yan's perception changed greatly. He could feel the wood attribute energy around him.

Previously, Liu Yan could only feel the wood attribute energy around him.

After mastering Wood Element Secret Art, Liu Yan's perception became clearer. He could clearly distinguish the density and strength of the wood attribute energy.

At the same time, Liu Yan felt he could use the wood attribute energy easier. He could use the wood attribute energy in a specific way for his own use.

Soon, Liu Yan had an epiphany. He found a more effective way to use the wood attribute energy.

At the same time, a notification appeared in front of Liu Yan.

[ Awakening talent skill, Prison of Giant Wood (S-grade)! ]

Seeing this, Liu Yan quickly checked the effect of the newly acquired skill.

[ Prison of Giant Wood ]

Grade: S-grade

Effect: Can materialize the power of the wood attribute energy, trap the enemy, restrict the enemy's movements, and control the enemy in the same place (the specific control ability depends on the proficiency of the Wood Element Secret Art)

After seeing the effect of the new skill, Liu Yan immediately understood.

Overall, it was a powerful control skill.

This control skill was indeed what Liu Yan needed. Liu Yan had many kinds of attacks, speed, stealth, and other skills.

However, he only had a few control skills. There was only one fog.

When he was at the lower level of the Tower, the Fog skill was still very powerful. However, now that he was at the upper level of the Tower and was an expert, the effect of the Fog skill was not enough.

Currently, Liu Yan was lacking in control skills.

Prison of Giant Trees was a good control skill.

An S class control skill would have a good effect.

At the same time, Liu Yan understood that this Prison of Giant Trees skill was something he had comprehended after awakening his Wood Element Secret Art.

It also meant that in the future, Liu Yan could use Wood Element Secret Art to awaken and comprehend more wood-elemental skills to strengthen himself.

It was also the strength of Wood Element Secret Art. It was not just a skill. It could allow the user to grasp a deeper power and awaken many powerful related skills.

Secret art and talent were not on the same level.

At this moment, the dust settled. The situation on the stage was clear.

The golden-armored blue ape had disappeared, Sturdy Back Ape had been severely injured, and Liu Yan was safe and sound.

The result of the gambling duel was obvious.

The voice of the Will of Tower also sounded.

"The gambling duel has ended. The Land of Origin team has won. Pan-ocean Community team, please strictly abide by the contents of the gambling duel, or else you will be punished!"

The voice of the Will of Tower resounded through the heavens and earth.

The members of the Pan-ocean Community team heard it.

Immediately, He Yang sat down on the ground with a dejected expression on his face. He looked as if he had suffered a great blow.

The members behind him also looked extremely desperate at this moment.

They had never expected they would lose the gambling duel.

They had lost the bet and everything.

Not only would they lose everything they had, but they would also become prisoners of war of the Land of Origin team because of the bet. They would be ordered around on the fifth level of the Tower.

### **Chapter 334: Sensational**

Below the stage.

The results were out, and the Pan-ocean Community team was all in despair.

They had never thought that this would be the result.

Sturdy Back Ape had lost to Liu Yan and lost this bet.

It also meant that they had lost everything in an instant.

Initially, they had formed Alliance Number 2 with the Red Star Empire. Although they were not guaranteed to win first place, they could still advance. They were confident they would be able to head to the sixth level of the Tower.

However, they had lost everything.

They could not accept such tragic change.

“Our trial on the fifth level of the Tower has ended just like that?”

“This is too fast. I can’t accept it.”

“How is it over? We can’t leave yet. We still have to be prisoners of war for others.”

“Sigh, who would have thought that Liu Yan would be so strong?”

“If we had known this would happen, we wouldn’t have made the bet. When the Red Star Empire team’s reinforcements arrive, we would definitely be able to take them down.”

“It’s too late to say anything now. Sigh.”

...

At the same time, the announcement from the Will of Tower resounded throughout the world. The rest of the people could hear it as well.

At this moment, the sky had just brightened.

The support team sent out by the Red Star Empire team had just set off when they heard the announcement. All the team members stopped one after another.

“Captain Ye, are... are we still going?”

“What are the people from the Pan-ocean Community team thinking about? Why did they start a gambling duel? Can’t they wait for our support?”

“It’s over. The Pan-ocean Community team is finished. We’ve also lost this ally.”

“Pan-ocean Community team is trolling us. Seriously!”

“We’ve suffered a great loss this time. We’ve lost an ally for nothing.”

...

The team members all looked at their captain, Ye Yifan.

Ye Yifan, who had always been calm and collected, had a gloomy expression on his face at this moment.

Others might not understand why the Pan-ocean Community team had chosen to initiate a gambling duel.

Ye Yifan immediately thought of it. He Yang and his team wanted to take everything from the Land of Origin team to strengthen their own strength.

However, he did not expect people from the Land of Origin team were so strong. They actually won the one-on-one duel against the guardian beast of the wood attribute territory, Sturdy Back Ape.

As a result, the situation changed completely.

“Why should we? The Land of Origin team did not suffer any losses. They even got so many prisoners of war. Their strength has increased greatly. We’ll lose if we go there. Let’s return.” Ye Yifan said fiercely. He then turned around.

The members of the team looked at each other. It was also the first time they had seen Ye Yifan so angry. They did not dare to say anything and followed him back.

On the other side, the members of the European Federation team and the New World team also heard this news. They were all surprised.

They thought the four teams would eliminate the Land of Origin team together. At the same time, they would gain something from it.

However, the Land of Origin team took the initiative to launch an attack last night and declare war.

This kind of behavior was undoubtedly a desperate attempt in their eyes.

However, they did not expect that this attempt would succeed.

They directly won the gambling duel and won everything the Pan-ocean Community team had.

At this moment, the public channel chat interface instantly exploded into a heated discussion about this matter.

“Are you serious? Members of the Land of Origin team could defeat the guardian beast of the wood attribute territory?”

“That’s right. The Land of Origin team didn’t bring their guardian beast with them at all. They could only fight on their own. Logically speaking, they shouldn’t be a match for the guardian beast at all.”

“This guardian beast is so powerful. There’s actually someone in the Land of Origin team who can defeat the guardian beast alone?”

“This strength is too terrifying. It seems that the Land of Origin team has an absolute expert.”

“This is really too exaggerated. Such a result is mind-blowing.”

“The Pan-ocean Community team deserves it. What’s the point of engaging in a gambling duel? It’s over now, right? Hahaha.”

...

At the same time, in the temporary camp of the Land of Origin team in the fire attribute territory.

The group of team members also received this news.

At first, they were worried, thinking that Liu Yan’s acceptance of the gambling duel was too risky.

After all, Liu Yan did not bring their guardian beast, the Undying Fire Phoenix. Although Liu Yan and the others were strong, their opponents were the guardian beasts of the wood attribute territory. How could they possibly win?

In their opinion, this gamble was too risky.

However, the result greatly exceeded everyone’s expectations.

No one expected that Liu Yan would win this duel.

As a result, the situation in the Land of Origin changed drastically.

They were targeted by the four teams of the two alliances, which was why they had no choice but to launch this attack.

This attack was supposed to severely damage the strength of the Pan-ocean Community team and cause them to suffer heavy losses.

With this, the balance of power between the two alliances was tilted. Then, the two alliances would not be united to fight the Land of Origin team.

However, Liu Yan won this gambling duel, eliminating many members of the Pan-ocean Community team and even winning everything they had.

As a result, the Red Star Empire was suddenly left alone and lost the alliance.

The strength of the Land of Origin team was greatly enhanced.

On the other side, although Alliance Number One still had two teams and was very strong, they had to deal with the Land of Origin team and the Red Star Empire team. The two sides were restrained and could not attack without worry.

As a result, the situation on the fifth level of the Tower became chaotic.

Correspondingly, the Land of Origin team gained an upper hand.

They got rid of the crisis of being eliminated. Then, they had the chance to compete for the position and obtain the rewards to advance to the sixth level of the Tower.

When members of the Land of Origin team heard this news, they immediately went into a frenzy.

“Captain Liu Yan is too amazing. I apologize to him.”

“I apologize to him too. We even doubted him when we found out he had chosen to accept the duel. We were really short-sighted.”

“I didn’t expect that they were so strong. They could actually defeat the guardian beast of the wood attribute territory in a one-on-one fight.”

“This is a guardian beast. They could actually defeat it in a one-on-one fight. It’s really too terrifying.”

“I wonder who exactly won the bet against the guardian beast of the wood attribute territory.”

“Why do I think that it might be Liu Yan?”

“I have the same feeling.”

...

Luo Qingcheng was thrilled. She looked at everyone and said, “Everyone, after you are happy, you should make some preparations. Now that the wood attribute territory belongs to us, we have a lot of work to do. Hurry up and make preparations and wait for Liu Yan’s order!”

### **Chapter 335: Accepting the Status Quo**

Fire attribute territory.

In the temporary camp of the Land of Origin team.

The team members were extremely excited at this moment.

Initially, they were in an absolute predicament. Facing four representative teams from two alliances, they would definitely be eliminated.

However, no one had expected that under such circumstances, Liu Yan would choose to lead the sharp knife squad to take the initiative to attack and declare war.

Then, what was even more exaggerated was that Liu Yan and the others had ambushed the opponent successfully and won the gambling duel.

The success of this operation reversed the situation of the Land of Origin team. They had instantly escaped from the predicament and had even gotten better.

The group of team members hurriedly made preparations. They waited for Liu Yan's orders from the other side and immediately acted.

Many team members could not hold themselves back.

"There's no way to communicate on the fifth level of the Tower. It's not easy for us to receive Captain Liu Yan's orders."

"Yeah, there's only a public chat interface, but everyone on the fifth level of the Tower can see the information on it."

"Liu Yan probably won't use the public chat. He already told us not to use the public chat."

"Why don't we send a small team to the wood attribute territory?"

"Wouldn't that be bad? After all, we don't have the captain's order."

...

For a moment, everyone was conflicted.

They wanted to head directly to the wood attribute territory. After all, waiting for Liu Yan's order might take some time.

But on the other hand, they could not disobey Liu Yan's order.

After all, before Liu Yan and the others left, the order was to have all of them stay in the fire attribute territory and be on alert. Without the order, they were not allowed to leave.

At this time, Luo Qingcheng was also a little troubled. After hesitating for a moment, she said, "Let's wait here first. Liu Yan should have a way to inform us. I think it won't take long."

After all, Luo Qingcheng was more familiar with Liu Yan and naturally knew him well.

On the fifth level of the Tower, other people might not be able to communicate quickly, but Liu Yan had a way.

When the team members heard this, they all agreed and waited patiently.

At the same time, in the dense forest of the wood attribute territory on the other side.

As the gambling duel ended with Liu Yan winning, the stage gradually disappeared, and Liu Yan walked over from the front.

At this time, the sky had just brightened, but the members of the Pan-ocean Community team saw Liu Yan walking over, and they were all in despair.

The Pan-ocean Community team had lost the gambling duel this time. They lost all the loots on the fifth level of the Tower and were also going to be eliminated. At the same time, they would become Liu Yan's prisoners of war. They would have to follow Liu Yan's orders on the fifth level of the Tower.

Not only did they lose loots, but they also lost themselves.

Even though they were unwilling, they had no choice but to accept the result.

Everyone knew that if they honored the bet, they would only be eliminated and sullen for a while.

However, if they dared to disobey the bet, they would even face the risk of being wiped out by the Will of Tower.

At this moment, Liu Yan walked to He Yang.

Murong Xue and the others followed him.

They knew the Pan-ocean Community team had more people, so they were more afraid and were further away.

However, now that Liu Yan had won the gambling duel, there was no need to be afraid.

He Yang looked at Liu Yan with a bitter face. He had never expected this outcome.

He Yang sighed helplessly. He could only honor the bet and walked forward.

“Captain... Captain Liu, we admit defeat. Please give your orders!” He Yang said helplessly.

When members of the Pan-ocean Community team behind saw this, they clenched their fists tightly. They were unwilling, but they could only accept the result.

Liu Yan nodded and said indifferently, “Captain He, I hope that we can get along well in the future. First, tally up all the loots, the number of members, and their strengths. Then, make a summary and report it to me. For the next period, you will lead your original members. Then, all of you must follow my instructions.”

Liu Yan had control over all members of the Pan-ocean Community team. He could command them as he pleased.

However, he was not familiar with them. On the other hand, He Yang knew them well. So, it would be more convenient to let He Yang lead the operation.

As for trust, it was not a problem at all. Anyway, with the restriction of the Will of Tower, Liu Yan did not have to worry.

“Okay.” He Yang nodded and answered, then went to count.

Seeing that Liu Yan had finished his business, Xu Han immediately came to him.

“Liu Yan, you’re really good. You can summon such a powerful fierce beast. Why didn’t you tell us earlier? We were worried about you!” Xu Han patted Liu Yan’s shoulder and spoke.

Allen Smith, who was at the side, looked at Liu Yan curiously and said, “If I’m not wrong, you did not sign a soul contract with golden-armored blue ape just now, right? It’s just some temporary contract.”

Liu Yan heard this and looked at Allen Smith in surprise. He did not expect him to see through it so quickly.

Liu Yan nodded slightly and said, "That's right. It's just a temporary contract. It can only be summoned once. This time, it's already used up.

I can't summon it again in the future."

In fact, the temporary contract was still there. Liu Yan could still summon it once.

However, Liu Yan was not very sure. After all, it was only a temporary contract. It could mean that the golden-armored blue ape was willing to help Liu Yan again to repay the favor.

Unless it was absolutely necessary, Liu Yan did not want to rely on the golden-armored blue ape's help anymore.

After all, Liu Yan had only helped the golden-armored blue ape a little back then. In Liu Yan's opinion, the golden-armored blue ape had already returned what it owed him.

When Xu Han heard this, he could not help but say with some pity, "Just once. That's a bit of a pity. Otherwise, we could finish the other three teams off. We would safely advance to the first place."

At this moment, Murong Xue could not help but feel a little curious, "Such powerful Sturdy Back Ape was defeated by that golden-armored blue ape in one go. Just what kind of strength does this golden-armored blue ape have?"

"It should have the strength of at least the eighth level of the Tower." Allen Smith pondered.

Liu Yan nodded slightly, "About the same. It's not a weak existence on the eighth level of the Tower."

At the mention of the Sturdy Back Ape, Liu Yan suddenly realized.

Sturdy Back Ape was only severely injured by the golden-armored blue ape. It did not die.

Sturdy Back Ape was also one of the wagers. After Liu Yan won the bet, Sturdy Back Ape also belonged to Liu Yan.

Although Sturdy Back Ape was much weaker than the golden-armored blue ape, it was still a powerful existence on the fifth level of the Tower. Even Liu Yan needed to use all his trump cards to defeat the golden-armored blue ape.

Such a powerful battle force could not be lost in vain.

Thinking of this, Liu Yan looked at Chu Long and said, "Chu Long, come with me and see if you can treat the injuries of Sturdy Back Ape. Once it's healed, it will have to fight for us.

### **Chapter 336: Healing Sturdy Back Ape**

Hearing this, Chu Long hurriedly agreed.

The others also followed curiously.

They came to the front of Sturdy Back Ape.

At this moment, it was still lying on the ground. There were many wounds on its body, and its injuries were quite serious.

The punch of the golden-armored blue ape was tremendously strong.

“Good heavens, this golden-armored blue ape is powerful. Is this the strength of the eighth level of the Tower?” Xu Han could not help but exclaim.

Allen Smith nodded and said, “There is a huge difference in strength between each level of the Tower. The difference in strength between the fifth and eighth levels of the Tower is like day and night. They are not on the same level at all.”

Chu Long went up and carefully examined Sturdy Back Ape. Then, she turned to look at Liu Yan and said, “It’s alright. It’s just the superficial injuries are quite serious. There aren’t too many serious injuries to the internal organs. It will heal completely in the next two days.”

Hearing the good news, Liu Yan was relieved.

If Sturdy Back Ape was healed earlier, it could be a great help in battles.

If the injuries were too serious and could not be healed, it would be too great of a loss for Liu Yan.

In addition, Liu Yan did not want anything to happen to Sturdy Back Ape. After all, these guardian beasts were the fierce beasts in the human force. They could help the awakened ones.

Previously, if it were not for the fact that they were on different sides of different teams, there would not have been any conflict.

“Alright, let’s hurry up and heal it.” Liu Yan nodded.

Chu Long took out her B-grade weapon, Emerald Staff, and began to chant an incantation.

Usually, Chu Long did not need to use equipment or chant an incantation to cast a simple healing spell.

However, the healing spell this time was more powerful. Chu Long needed a magic staff and an incantation.

After the complicated incantation, rays of golden light appeared in the sky and enveloped Sturdy Back Ape.

Members of the Pan-ocean Community team were attracted by this scene and watched curiously.

“What’s going on?”

“They are healing Sturdy Back Ape. It is one of their spoils of war.”

“This spell looks so powerful.”

“I’ve never seen such a powerful spell. What kind of spell is this?”

“Sturdy Back Ape is seriously injured. Even with a healing spell, it would take at least ten days to half a month to heal it, right?”

...

Members of the Pan-ocean Community team discussed animatedly.

At this moment, rays of golden light descended from the sky and enveloped the injured Sturdy Back Ape.

Liu Yan was also watching from the side. He was curious how much Chu Long's healing skills had improved.

Although Chu Long said it was simple, Liu Yan could still tell.

The organs of Sturdy Back Ape were not injured severely, but the exterior injuries were severe. The wounds were so deep that one could see the bones.

The worst injury was severe muscle damage. Sturdy Back Ape was in a terrible state.

The golden-armored blue ape's strength was too strong. Even if it did not use its full strength, that punch just now had severely injured Sturdy Back Ape.

If Sturdy Back Ape were to recover from such a severe injury, it would take at least half a year to fully recover.

Even if it took half a year, it could not fully recover.

Under the cover of the golden light, the wounds on Sturdy Back Ape began to heal slowly.

The severe wounds were able to recover so quickly.

In less than two to three minutes, the wounds on Sturdy Back Ape's body had completely recovered.

Looking from the outside, Sturdy Back Ape seemed to be as good as new as if it had never been injured at all.

Sturdy Back Ape was surprised as it slowly got up. Although it was still a little weak, it was fine.

Sturdy Back Ape looked at Liu Yan and slightly lowered its head, showing its submission.

Sturdy Back Ape knew the outcome of the battle just now. It would listen to Liu Yan's orders from now on.

Xu Han saw the wounds of Sturdy Back Ape were completely healed in such a short period. He was immediately shocked and said, "This healing speed is too fast!"

Allen Smith did not say anything, but he looked at Chu Long in shock. He was a little surprised.

He had seen many experts, but it was the first time he had seen a priest with such impressive healing abilities.

Hearing this, Murong Xue immediately put her arm around Chu Long's shoulder and said proudly, "Of course, our Chu Long is very capable!"

Murong Xue smiled as if she was the person with such powerful healing abilities was herself.

Chu Long was also a little embarrassed to be praised like this. She lowered her head slightly and said, "It's only the initial healing of the superficial injuries. The internal injuries still need two days to recover."

“That’s enough. This speed is already fast.” Liu Yan smiled and spoke.

At the same time, Liu Yan looked at Sturdy Back Ape in surprise. Its intelligence was not low. Liu Yan saw gratitude towards Chu Long in its eyes as if it was thanking Chu Long for healing it.

However, a high-grade fierce beast indeed had a certain level of intelligence. Liu Yan was not surprised.

Liu Yan then let them rest here for a while.

After last night’s ambushes and the occasional battles, they were already a little tired.

Liu Yan directly released his B-grade fierce beast, Purple Wind Falcon.

Although Purple Wind Falcon did not have much combat strength, its speed was fast and extremely agile. It was suitable for maintaining communication.

Before this, it might not be useful. But now, in this world where communication was impossible on the fifth level of the Tower, its usefulness suddenly increased.

Especially on the fifth level of the Tower, there were no fierce beasts other than the guardian beast. No fierce beast could pose a threat to Purple Wind Falcon. It was even more convenient to use Purple Wind Falcon for communication here.

Even if there were fierce beasts, Purple Wind Falcon had a fast speed. A powerful fierce beast would not hurt Purple Wind Falcon.

Liu Yan took out the paper and pen from his spatial ring and wrote his order in a letter. Liu Yan gave it to Purple Wind Falcon. He asked it to deliver it to Luo Qingcheng, who was in the fire attribute territory, the temporary camp of the Land of Origin.

Seeing this scene, Xu Han said with some gratification, “Liu Yan, you have a communication pet. Now it’s convenient. It saves us the trouble of running around to deliver messages.”

“That’s right. It’s quite useful here.” Liu Yan nodded.

While they were chatting, He Yang, the captain of the Pan-ocean Community team, walked over.

He Yang was holding a notebook in his hand. He had finished the summary.

Liu Yan was surprised that He Yang was so fast.

“It’s done? There won’t be any omissions, right?” Liu Yan smiled and spoke.

When He Yang heard that, he said sternly, “I lost the duel and will honor the bet. There won’t be any omissions. With the supervision of the Will of Tower, I don’t dare to miss anything. Our team has a clear division of labor, and each division finished the summaries and handed them to me. That is why we are fast. Please rest assured about the accuracy!”

### **Chapter 337: The Difference between People**

Liu Yan was stunned when he saw He Yang’s attitude.

Liu Yan could not help but admire He Yang for his mentality.

However, it made sense when he thought about it. He Yang was also one of the elites of the Pan-ocean Community team. Otherwise, he would not have become the team leader.

Such a person was naturally outstanding.

What he represented was only for the benefit of the Pan-ocean community team. There was no right or wrong in it.

One could only blame He Yang for being careless this time and underestimating Liu Yan's strength. It caused them to lose the advantages and the gambling duel.

"I didn't expect Captain He to have such a good mentality. I wish you all a chance to advance next year." Liu Yan smiled and spoke.

He Yang smiled bitterly and did not say anything more. Instead, he handed over the summary table in his hand.

After Liu Yan took it, he started to look at it.

He Yang explained, "According to the bet, all the loots we obtained from entering the fifth level of the Tower will be yours. However, we only have one day to enter. All the loots that we obtained yesterday are listed on it. They are arranged and placed over there. You can send someone over to receive them."

Liu Yan nodded as he looked at all the loot on the summary table.

Although it was only a day, it seemed the wood attribute territory had better luck. As a result, the amount of loot in one day was more than ten times that of the fire-attribute territory. The difference was huge.

Yesterday, Liu Yan's team did not find many treasure chests in the fire attribute territory. The treasure chests they found were the lowest-level black-iron treasure chests. Occasionally, two or three of them would only be bronze treasure chests. Naturally, the harvest was small. They had only obtained some useless low-grade equipment and dozens of Lord's token fragments.

On the other hand, He Yang's team had found dozens of private rooms in the wood attribute territory. They got many bronze treasure chests and some silver treasure chest pieces.

As such, they had naturally obtained a lot of equipment. Among them, the highest-grade equipment had even reached A-grade.

A-grade equipment was useless to Liu Yan, but it was of great help to other members.

Apart from that, there were also quite a few consumable items. They were useful to their cultivation and healing.

Lastly, there was the Lord's token fragment. In a day, he had guarded over 300 Lord's token fragments. His harvest was huge.

Liu Yan felt satisfied. It seemed that the difference between territories was big.

There was a significant difference between people's luck.

Fortunately, Liu Yan would have two territories from now on. Even if his luck was bad, he had two places to gather resources.

"Okay, when my team members arrive there, we will receive these loots." Liu Yan nodded.

There were only five of them here. They did not have enough people to carry the loot.

Liu Yan had written his orders in the envelope carried by Purple Wind Falcon. He would transfer some people from the Land of Origin team.

He Yang nodded slightly. He continued to explain, "Other than our loots, there is also the wood attribute territory and guardian beast, Sturdy Back Ape. It will also be yours. Lastly, it will be the members of our Pan-ocean Community team."

"Our Pan-ocean Community team has a total of 98 members. However, during the previous battle with you guys, 32 awakened ones lost their combat strength and suffered injuries of varying degrees. The remaining members have an average combat strength of around level 29. I have the highest combat strength, and my talent has reached level 35. Other than that, there are five people with S-grade and 13 with A-grade."

Hearing this, Liu Yan nodded. He had a rough understanding of the strength of the Pan-ocean Community team members.

If Liu Yan remembered correctly, the average level of the Land of Origin team had reached level 32, which was three levels higher than the Pan-ocean Community team.

In terms of top-tier battle strength, Liu Yan's talent was SSS-grade. Other than that, there were close to 10 people with S-grade and more than 20 people with A-grade. In terms of top-tier battle strength, he was far ahead of the Pan-ocean Community team.

However, in terms of numbers, there was a relatively large gap.

Liu Yan's Land of Origin team only had more than 50 people. On the other hand, the Pan-ocean Community team had 98 people, which was about double the number of people in Liu Yan's team.

Although the individual strength of the Land of Origin team members was generally higher, the overall combat strength between the two teams was about the same.

The condition of the Pan-ocean Community team members was similar to the rumors. The individual combat strength of their team members was not weak, but the top-tier combat strength was average.

However, they had more team members, so the overall combat strength was not ordinary. On the contrary, they were quite impressive.

Liu Yan also understood that although the individual combat strength of the members of the Pan-ocean Community team was average, their overall combat strength was strong. Hence, Liu Yan could not underestimate them.

Fortunately, this force would belong to Liu Yan for the time being on the fifth level of the Tower.

According to the bet, He Yang and the others had to listen to Liu Yan's orders until the trial on the fifth level of the Tower ended.

Thinking of those injured, Liu Yan immediately had an idea.

Every team had a priest, not to mention that Liu Yan had a powerful priest like Chu Long.

Those who had lost their combat strength naturally could not be wasted like this. They would be a great force after healing.

Liu Yan immediately said, "Heal those who have been injured. Your team also has a priest, right? Start healing immediately."

He Yang's expression became a little awkward as he said, "Our team does have a priest, but there are only a few. There are only five people in total. However, the injuries of those who have been injured are not light. The initial healing of one would probably take two to three days. If we want to heal all of them and even restore their combat strength, it will probably take some time."

Liu Yan was not surprised when he heard this. Not every priest could have such powerful healing abilities as Chu Long.

After all, Chu Long's talent was S-grade, and she was a priest of a rare class.

Every team usually had some S-grade talent members, but not every team could have a priest with S-grade talent.

Liu Yan looked at Chu Long and asked, "How long will it take you to heal one of those injured?"

"One day." Chu Long replied indifferently.

He Yang also nodded when he heard this and said, "Captain Liu, you see, it takes one day to heal one. It's a little too late. What should we do?"

However, Chu Long continued, "Heal thirty-two injured people in one day."

He Yang was instantly stunned when he heard this. He looked at Chu Long with a face full of disbelief.

Chu Long's words just now had exceeded his understanding.

He Yang hesitated for a moment. Then he said, "Miss, do you know what you said just now? Although the lives of my injured members were not in danger, their injuries were not light. Some of them were even seriously injured and had completely lost their combat strength. Are you sure that you can heal them in a day?"

### **Chapter 338: Triggering a Tier 3 Hidden Class**

"That's right. I can heal the injured in one day, and they will recover their combat ability." Chu Long said matter-of-factly.

He Yang was stunned when he heard this. He did not say anything, but from the look on his face, he obviously did not believe her.

Liu Yan could not help but laugh in his heart when he saw this. He pointed at Sturdy Back Ape not far away and said, "Captain He, look at your wood attribute territory's guardian beast, Sturdy Back Ape. It just suffered such serious injuries. After Chu Long's treatment, isn't it still alive and kicking?"

He Yang heard this and looked at Sturdy Back Ape at the side.

When He Yang had just arrived, he had not paid attention to Sturdy Back Ape. At this, He Yang realized that the heavily injured Sturdy Back Ape was alive and kicking after receiving treatment for such a short period.

Although it still looked weak, it had recovered more than half of its injuries, and its combat strength had also recovered more than half.

He Yang's face was filled with shock.

He had seen the battle on the stage just now.

Sturdy Back Ape had suffered severe injuries from the punch of the golden-armored blue ape. It could not even stand up, and its entire body was bleeding non-stop.

On the other hand, Sturdy Back Ape no longer looked like it was in a sorry state after being seriously injured.

He Yang was immediately stunned by this healing speed.

After being stunned for a moment, He Yang looked at Chu Long in surprise before looking at Liu Yan.

"All of you are indeed experts. I really admire you!" He Yang sighed from the bottom of his heart.

Previously, He Yang had heard that the top combat strength of their team was quite far from that of the other continents.

In the past, He Yang had not taken it seriously. After all, he was also a genius and a favored son of heaven.

However, after last night's battle, He Yang finally realized the huge gap between him and top-tier geniuses like Liu Yan.

After witnessing Liu Yan's battle and Chu Long's terrifying healing ability, He Yang also realized the strength of top-tier experts. They were stronger than others in all aspects.

"You're too kind, Captain He. Next, you will arrange for the injured to come over and receive treatment as soon as possible. Then, you will make arrangements for the remaining people. Half of them will be in charge of guarding and gathering information. The other half will go to the wood attribute territory to collect treasure chests and all sorts of loots. The loots will be handed over to your temporary camp. As for the injured, after they are healed, they will temporarily stay in the camp to recuperate. At the same time, they will also act as reserves, just in case." Liu Yan instructed.

When He Yang heard Liu Yan's orders, he looked at Liu Yan with slight admiration.

Although it was just a few simple orders, it was not something an ordinary person could do in such a short period. It was clear that other than his own combat strength, Liu Yan's leadership was not weak at all.

"Yes." He Yang replied. He then went to carry out Liu Yan's orders.

On the other side, the temporary camp of the land of origin is in the fire attribute territory.

Under Luo Qingcheng's arrangements, some team members were in charge of guarding. The rest of the team members were waiting for orders from Liu Yan.

Although Liu Yan had already won the gambling duel, the situation was unknown, and they did not feel safe collecting the treasure chest yet.

However, at this time, a few team members noticed a purple light in the distant sky.

The fire attribute territory was extremely spacious. One could not see the end of it.

This purple light was eye-catching.

"Look! What's that purple light over there?"

"It seems to be a fierce beast."

"Isn't there no fierce beast on the fifth level of the Tower other than the guardian beast?"

"I don't understand. What's going on?"

...

The team members were all puzzled, but they were also on guard.

Not long after, the purple light appeared in front of them at an extremely fast speed.

As the purple light got closer, they recognized it was a purple falcon.

Purple Wing Falcon came directly in front of Luo Qingcheng and threw a piece of paper.

At this moment, Luo Qingcheng suddenly remembered. No wonder she felt that this falcon looked familiar. It was Liu Yan's pet.

"This is Captain Liu Yan's pet. It's in charge of delivering letters."

Luo Qingcheng gave a brief introduction and picked up the note to read.

The team members at the side finally realized that it was Liu Yan's pet.

"I didn't expect Captain Liu Yan to have such a pet."

"He is so powerful, yet he has the time to subdue and nurture a fierce beast. Liu Yan is really amazing."

"Not to mention, with such a pet, it will be extremely convenient to send messages on the fifth level of the Tower."

"Yeah. Unlike the other teams, the communication within our team will be much more convenient."

“I wonder what the order is.”

...

The team members were discussing.

After reading the note, Luo Qingcheng’s expression eased up quite a bit. She looked at the team members and said, “Everyone, don’t worry. The current situation is more advantageous for our team. There isn’t much danger for the time being. We will follow the direct arrangements and take turns to be on guard. The rest of the team members will collect the treasure chests and form a team of ten people. Follow me to the wood attribute territory to carry out the handover. There are still a lot of equipment and consumables waiting for us to bring back.”

When the Land of Origin team heard this, they were overjoyed.

Very soon, they established a team, and Luo Qingcheng led her people to set off.

Initially, Luo Qingcheng would stay in the fire attribute territory to guard it.

Then, Liu Yan won the gambling duel, and they were safe now. The fire attribute territory and the wood attribute territory were relatively close to each other. Since they could support each other, there was no danger for the time being. It would not be a problem for Luo Qingcheng to leave.

In addition, Liu Yan needed to discuss the next opportunity with Luo Qingcheng according to the current situation.

Although they had won the gamble this time and gained a lot, the situation of the Land of Origin team had suddenly improved. However, Liu Yan knew the strength of the remaining three teams was not weak and could not be underestimated. Therefore, they could not be taken lightly. They had to plan their next move carefully.

Meanwhile, Liu Yan had finished arranging a series of things in the wood attribute territory. The rest of his team members took a break and busied themselves with work.

Liu Yan found a tree and sat down to take a rest.

Liu Yan had also exhausted quite a bit from the battle with Sturdy Back Ape. He was a little tired.

Not long after resting, notifications appeared in front of Liu Yan.

[ The conditions have been met. A new tier 3 hidden class can be unlocked. Do you wish to proceed now? ]

When Liu Yan saw the notification, his eyes lit up. It was a pleasant surprise.

Liu Yan obtained his tier 1 class a long time ago. It was a hidden class hunter made up of archer class and beastmaster class. It could set traps, attack from a distance, and subdue pets. It was extremely powerful.

Later, Liu Yan obtained the assassin class. Although it was an ordinary class, it merged with the hunter class to form a tier 2 hidden class, Dark Ranger.

Dark Ranger retained the hunter's various powerful attributes. At the same time, it also fused the powerful abilities of stealth and melee assassination.

But now, Liu Yan could trigger an even more powerful tier 3 class. It also seemed to be a hidden class!

### **Chapter 339: Gathering of the Core Members**

Liu Yan knew the reason he could a tier 3 hidden class was probably related to his recent experience.

In the Lighthouse Academy of the third-and-a-half level central resting platform, Liu Yan had already built a perfect foundation and reconstructed his physical body.

After reconstructing his physical body, Liu Yan faintly felt that he was not far from being able to unlock a tier 3 class.

And after obtaining the Wood Element Secret Art through Divine Extraction, he seemed to have fulfilled the final condition, successfully meeting the unlocking requirement.

Although Liu Yan had many attribute skills, he had not truly grasped talent, let alone secret art.

After using Divine Extraction on Sturdy Back Ape, Liu Yan immediately grasped the Wood Element Secret Art, making huge progress.

Liu Yan did not overthink and unlock the tier 3 hidden class.

Immediately, Liu Yan felt his body quietly change, and a notification appeared in front of his eyes.

[ Unlocked tier 3 hidden class, Law Warlock! ]

[ Law Warlock class awakening condition: After gathering five of the ten elements of talent and upgrading them to laws, you can successfully awaken it. ]

Seeing the notification in front of him, Liu Yan was surprised.

The tier 3 hidden class had not been truly awakened. It still needed to meet the requirements before it could be awakened successfully.

Seeing the challenging awakening conditions, Liu Yan immediately had a headache.

The awakening conditions were too tough.

The ten elemental talents were divided into talents, secret arts, and laws.

Currently, Liu Yan only grasped Wood Element Secret Art. He had not even obtained talents for the other attributes.

Even though Liu Yan had many attribute skills, he still had not mastered talent.

The awakened one could become an expert if they grasped an attribute.

The requirement for awakening a tier 3 hidden class was to grasp the five attribute laws. This requirement was too hard.

Liu Yan could not help but feel a headache, cursing in his heart.

But not long after, Liu Yan gradually accepted the current situation.

Although this condition was difficult, Liu Yan still had a chance to reach it.

The other awakened ones could not reach it in their lifetime.

But Liu Yan had the SSS-grade Divine Extraction after all. Although it was difficult, he still had a chance to grasp the five attribute laws. He needed to spend more time, effort, and also a certain amount of luck.

Liu Yan did not know much about the characteristics of the Law Warlock.

However, the conditions for awakening the Law Warlock class were already difficult. He believed it would be tremendously powerful if he awakened it. It would bring Liu Yan a qualitative improvement.

Liu Yan thought about the method to achieve the conditions for awakening.

Mastering the laws of the five attributes would definitely take a long time. Liu Yan could only take it slowly and slowly.

On the fifth level of the Tower, there was still a big chance to master the five attribute talents.

After all, there were five territories with five attributes. The core of each territory and the guardian beasts could help Liu Yan master attribute talents or even secret arts.

Previously on the body of Sturdy Back Ape, he had directly grasped the wood attribute talent. Then, he extracted its wood element crystal core and grasped the wood attribute secret art.

However, such a good opportunity was probably hard to come by in the future.

Liu Yan secretly made up his mind. This time, he needed to gather five attribute talents on the fifth level of the Tower. After that, he would slowly level up his talents into secret arts or even laws to reach the conditions for awakening the Law Warlock class.

When the day came when he successfully awakened the Law Warlock class, Liu Yan might be able to grow into a real expert.

Liu Yan did not rest for long before Luo Qingcheng brought a small team and rushed to the wood attribute territory.

Luo Qingcheng and her ten team members looked at everything in the wood attribute territory. She could not help but feel a little surprised.

At this moment, all the members of the Pan-ocean Community team had become Liu Yan's prisoners of war. At this moment, they were all acting according to Liu Yan's orders and were working separately.

Everything was because Liu Yan had won the gambling duel, which was why he had obtained such a terrific harvest.

At this moment, some members of the Pan-ocean Community team were in charge of guarding the territory. Most of the members were in charge of collecting treasure chests.

Of course, all the collected treasure chests would be handed over to Liu Yan.

The remaining injured were currently receiving treatment from Chu Long.

With Chu Long's powerful healing ability, some injured team members were healed from their severe injuries in a short while. They could walk on their feet and have recovered more than half of their combat strength.

When the Pan-ocean Community team saw this scene, they were all extremely shocked. They were amazed by Chu Long's healing ability, and at the same time, they were grateful for Chu Long's healing.

"I did not expect her healing ability to be so amazing. She can even heal her serious injuries so quickly."

"Thank you so much."

"Thank you so much."

"This is the first time I've seen such powerful healing ability."

...

The injured team members of the Pan-ocean Community team were extremely grateful.

The Pan-ocean Community team had already lost this competition and was eliminated. Moreover, they had even become Liu Yan's prisoners of war.

But at least they still had a chance next year.

If these seriously injured people were not treated in time, their condition would worsen.

Now that they had been treated, they could at least retain their strength and still have a chance next year.

Facing the group of grateful members, Liu Yan did not say anything but called He Yang over.

Very soon, Liu Yan, Luo Qingcheng, Xu Han, and the other core members of the Land of Origin team gathered.

Although Luo Qingcheng only brought a small team of ten people under Liu Yan's instruction, they were all the core members of the Land of Origin team. They were all elites.

The geniuses from Lighthouse Academy were here other than Liu Yan and his team. Zheng Tainan and a few other elites from the Gifted Academy were also here.

These people were the backbone of the team other than Liu Yan. They would also lead the Land of Origin team together with Liu Yan. They could decide the future of the team and affect the outcome.

At the same time, He Yang was also called over by Liu Yan.

Although He Yang was not the backbone of the team, he was still the captain of the Pan-ocean Community team and was also an elite.

Although they were from two camps previously, they were temporarily in Liu Yan's hands. With the supervision and restriction of the Will of Tower, he would naturally stand with Liu Yan and consider the interests of Liu Yan and the others. He Yang was also a talent, so his opinion was also worth listening to.

Liu Yan saw that everyone had arrived, and he directly said, "Today, I have gathered all of you, the backbone, mainly for two things. First is the deployment of the defense of the two territories and the collection of treasure chests. The other is the direction of the next step for the Land of Origin team."

#### **Chapter 340: Distribution of Loots**

They became serious when they heard Liu Yan's words.

The content of this discussion was undoubtedly crucial. It was related to the future of the Land of Origin team.

He Yang's face was also full of interest at this moment. Although he had already been eliminated, he admitted his defeat willingly. Liu Yan and the others were indeed powerful. It made sense that Liu Yan's team could beat He Yang's team.

He Yang could not help but be curious about how far the Land of Origin team could go.

The few of them looked at each other and soon began to discuss.

Chu Long was the first to speak, "The loots that we just obtained are still there. You can ask Sister Luo Qingcheng to send people to bring them back. The equipment and consumables will be distributed to the team members to increase their strength."

Liu Yan heard her words and nodded slightly, "Luo Qingcheng can make arrangements for the future. I have already kept the Lord's token fragments. I can keep them. As for the rest of the loots, you can bring them all back."

"Okay." Luo Qingcheng directly agreed.

When Zheng Tainan heard her words, he was moved. He could not help but ask, "The equipment and consumables. Can we, the core members, take them first?"

Previously, on the fourth level of the Tower, the Angry Buddha Purple Lotus that Zheng Tainan bought with more than half of his wealth was snatched away by Liu Yan. The losses were huge.

Zheng Tainan did not dare to think about getting the Angry Buddha Purple Lotus back from Liu Yan. He could only think about getting more items on this level.

And this time, it was a perfect opportunity.

They had obtained a lot of spoils from the Pan-ocean Community team. If he could get more from them, he would be able to recover more than half of the losses very quickly.

Liu Qing and Liu Ning, who were at the side, were also moved when they heard this.

“That’s right. We are the elites and the backbones of the team. We have the right to get more.” Liu Qing agreed.

Liu Ning also said, “It’s a waste to give the good equipment to the others. Why don’t we get more equipment for us?”

Murong Xue was displeased when she heard this. She already had good equipment and did not need a new one. In addition, she had the two S-grade weapons that Liu Yan had given her previously. The current Murong Xue did not need new equipment at all.

However, even if Murong Xue did not need them, it did not mean that the team members below her did not need them.

“That won’t do. how could the other team members increase their strength if you take all the good equipment?” Murong Xue immediately voiced out to stop them.

Xu Han and Allen Smith both had indifferent expressions on their faces.

Although Zheng Tainan and the others were from Gifted Academy, they could not be bothered to have any relations with them. After all, they were the representative team from the land of origin.

They could not be bothered to participate in these debates. They just had to listen to Liu Yan.

Seeing this, Liu Yan did not say anything. Instead, he looked at Luo Qingcheng and asked, “Luo Qingcheng, do you have a proper way?”

Liu Yan knew Luo Qingcheng had learned a lot in the Command School. Luo Qingcheng should have a better way to distribute the loots.

Hearing this, they all looked at Luo Qingcheng.

Luo Qingcheng seemed to have considered this problem for a long time. She said without hesitation, “It’s not a problem to prioritize the supply of high-grade equipment to the elite team members. This way, we can unleash the equipment’s power and improve the overall combat strength of the team.”

Hearing this, Zheng Tainan and the others felt that there was a chance and immediately became happy.

“That’s right, what Luo Qingcheng said makes sense.”

“As I said, we elites have the priority to choose good equipment!”

“Haha, we will be able to obtain some good equipment.”

While they were happy, Luo Qingcheng changed the topic. “However, we cannot ignore the interest of other team members. Hence, we can use the method of equipment exchange. The elite members will be given priority in choosing high-grade equipment. However, after they choose, they will not obtain it straight away. They have to use their lower-grade equipment to exchange for it. The equipment they exchange for will then be used to equip the ordinary members. This way, they will be able to increase the strength of elite members and ordinary members.”

When Zheng Tainan and the others heard this, their expressions changed.

In this way, Zheng Tainan and his friends could still obtain high-grade equipment to increase their strength. However, they could not get more equipment like they had planned and sell it to make a fortune. They only improved their strength but could not profit from it.

After all, they could not sell the high-grade equipment they got. They could only use the equipment themselves.

Zheng Tainan and the others were a little unhappy, but they could not refute Luo Qingcheng's suggestion. They could only stop talking about it.

Chu Long heard this, and she immediately agreed. "This method is indeed good. It can maximize the use of high-grade equipment and put it in the hands of the elite team members to ensure the greatest use. At the same time, it can also increase the strength of the ordinary team members to a certain extent. It can be said to be the best of both worlds."

Hearing this, Liu Yan could not help but admire Luo Qingcheng's method.

Previously, Liu Yan was also somewhat conflicted. He wanted to increase the combat strength of the elite members. On the other hand, he did not want to fall behind the ordinary members.

Although their strength was ordinary, they were also members of the team and contributed to the team. Liu Yan did not want to ignore them.

Luo Qingcheng's method undoubtedly solved the problem.

"That's good then. The distribution of equipment, consumables, and other types of loot will be handed over to Luo Qingcheng to arrange for people to carry out." Liu Yan decided.

Immediately after, Liu Yan continued, "Next, let's talk about the arrangements for setting up defenses and collecting treasure chests in the two territories."

He Yang, who had been silent all this time, spoke, "Captain Liu, I hope my team can carry out the work of setting up defenses and collecting treasure chests. We will definitely do a good job and hand over the treasure chests we collect truthfully. I hope that you can trust us."

When Liu Yan heard this, he glanced at He Yang and immediately guessed what Liu Yan was thinking.

After all, the two teams had some conflicts in the past. Now that they were also Liu Yan's prisoners of war, everything depended on Liu Yan.

He Yang was convinced and was willing to cooperate with Liu Yan.

However, some of his team members might have other thoughts. They might not want to follow Liu Yan's orders.

In this way, if the people on Liu Yan's side tried to command them, they would not be convinced. It was very likely that some conflicts would occur.

Although the Pan-ocean Community team was defeated, they were at least the cream of the crop among this batch of students from their continent. They had a certain amount of pride in their hearts. Being defeated or even a prisoner of war was a humiliation to them.

Liu Yan did not express his opinion immediately. Instead, he looked at the rest of them and asked, "What are your views on this matter? Let's all talk about it."

Allen Smith directly shook his head. He did not want to bother with these things.

Xu Han also smiled and shook his head. "I will listen to you guys."

Zheng Tainan and the rest did not say anything.

Chu Long and Murong Xue did not understand this matter, so they did not say anything more.

Suddenly, everyone looked at Luo Qingcheng. Luo Qingcheng was also the one who knew the best command and deployment among the few of them. At the same time, she was also the one who had the most authority apart from Liu Yan. They immediately wanted to listen to Luo Qingcheng's opinion.

Especially He Yang. He looked at Luo Qingcheng with some worry and nervousness.
