

Towers 541

Chapter 541 Allen Smith Is better!

It was the same when the Land of Origin team fought against the European Federation team.

Liu Yan, who was flying in the air, was like a god. A casual attack from him was able to severely injure a dozen of their ordinary members.

At that time, Hans Wilson had joined forces with a group of experts in his team. They used all their remaining strength to use a combination skill against Liu Yan, but Liu Yan dodged all of them.

That battle undoubtedly left a deep impression on Hans Wilson.

“Indeed.” Hans Wilson nodded slightly and admitted, “With Liu Yan’s combat strength, he could destroy the balance of the battle and end it. Liu Yan’s combat strength is indeed terrifying, but so what? He’s so arrogant to challenge four teams in the ultimate gambling duel. He’s looking down on us too much. This time, we’ll teach him a good lesson!”

Derek Dole glanced at Hans Wilson and did not say anything else. He could not help but shake his head.

Usually, Hans Wilson was wise, but it seemed he had lost too miserably to Liu Yan.

In the battle in the water attribute territory, Hans Wilson led the European Federation team to use all their strength and safety to delay the attack of the Land of Origin team.

Even so, in the face of Liu Yan’s terrifying strength, the defense line formed by the European Federation team could not withstand a single blow and was destroyed.

That battle had left a shadow in Hans Wilson’s heart.

At this time, Hans Wilson was undoubtedly blinded by hatred. He was eager to take revenge on Liu Yan.

However, Hans Wilson had forgotten that if he chose to cooperate with Liu Yan at this time. It would bring great benefits to team members of the European Federation team. It might even change the fate of the team members.

However, Derek Dole had already tried to persuade Hans Wilson several times, but to no avail. Derek Dole gradually gave up.

On the other side, Jin Cheng, the captain of the New Continent team, saw the battle between the Land of Origin team and the Red Star Empire team. The Land of Origin team was not weaker than the Red Star Empire team, and they seemed to be suppressing the Red Star Empire team.

Jin Cheng was a little surprised. The Red Star Empire team was the strongest team out of the five teams. When did the Land of Origin team become so powerful?

Jin Cheng knew Liu Yan’s strength was terrifying, but he didn’t think much of the ordinary members of the Land of Origin team. Jin Cheng thought the ordinary members of the Land of Origin team were still stuck at the strength of the fifth level of the Tower.

Previously, Jin Cheng had learned from Chu Cunrui that the strength of ordinary members of the Land of Origin team had also improved greatly during this period.

However, Jin Cheng thought that it was only a slight improvement. After all, the Land of Origin team had so many spoils of war. Any ordinary member could get a large number of high-level cultivation resources. It was normal for their strength to improve.

However, Jin Cheng did not expect that the ordinary members of the Land of Origin team would improve so much in such a short time.

“When did members of the Land of Origin team become so strong?” Jin Cheng asked in surprise.

Chu Cunrui heard this and sighed, “I’ve told you before that I fought alongside team members of the Land of Origin team when the monsters were in chaos. I’ve long discovered that the current team members of the Land of Origin team are no longer the same as before. Their strength has improved a lot. It’s the reason I’ve been urging you to join the Land of Origin team. After all, if you join the Land of Origin team, you’ll have a strong leader like Liu Yan and many strong teammates. If we follow Liu Yan in the future, we’ll improve as quickly as members of the Land of Origin team.”

Hearing this, Jin Cheng felt a little regretful.

If they had known that Liu Yan’s influence was so strong, they would not have waited and observed.

However, Jin Cheng was naturally unwilling to admit that he regretted it. He still stubbornly said, “So what? Liu Yan and his team will still lose this battle.”

Chu Cunrui shook his head slightly when he saw Jin Cheng’s stubborn face. He was too lazy to say anything more.

Chu Cunrui was clear that even if Liu Yan lost this ultimate gamble, so what? He would only lose those additional rewards.

However, Liu Yan was so strong and had good leadership skills. If he made a good decision in the future, he could continue to improve his strength and get back those additional rewards.

On the other hand, the New Continent team had chosen to stand against Liu Yan. Even if they won and received additional rewards, what could they do afterward?

The additional rewards were generous and could help the members of the New Continent team to improve their strength by a lot.

However, after increasing his strength, they would only be able to pass the trials on the fifth level of the Tower next year. When facing the more dangerous sixth level of the Tower, their strength was not enough.

It was almost impossible to survive, not to mention to pass the trial on the sixth level of the Tower.

Jin Cheng sighed helplessly. This time, he had picked up a sesame seed but lost a watermelon.

At the same time, the battle between the Land of Origin team and the Red Star Empire team was still ongoing in the middle of the dueling platform.

As the battle progressed, the ordinary members of the Land of Origin team became more powerful. With the help of Xu Han's control, the ordinary members of the Land of Origin team gradually suppressed the Red Star Empire team.

On the other side, the battle between the two teams of experts continued.

The most intense battle was between the Red Star Empire team's team leader, Ye Yifan, and Allen Smith.

The two were very strong. They also used swords, so they were equally matched.

However, as the battle continued, Liu Yan saw that Allen Smith was gradually gaining the upper hand.

Ye Yifan's strength was also strong which exceeded Liu Yan's expectations.

However, Allen Smith had the S-grade weapon, the Blood Flame Sword. The blood essence he had absorbed earlier could help him recover, allowing him to maintain his physical strength and continue fighting.

As the battle continued, Ye Yifan could still maintain his combat power and had enough stamina.

However, having enough stamina and having plenty of stamina were two different concepts.

The current Ye Yifan couldn't maintain his peak combat power. On the other hand, Allen Smith had the Blood Flame Sword's replenishment, so he was always full of energy and could always fight at his peak.

Allen Smith was gradually suppressing Ye Yifan, and as the battle continued, Allen Smith's advantage would only get bigger and bigger.
