

## TPOL chapter 1501 - 1505

<p>Kenneth, Darven, and the others were stunned. Everyone felt very strange when a world class beauty like Aunt Rockefeller came along. Unexpectedly, now another two beautiful women joined in.

<p>Were they taking the beautiful women to take pictures and enjoy the scenery?

<p>As for Freya, she had always had strong confidence in her appearance. But before this, there was Aunt Rockefeller, and now there were Princess Fleur and Maya. All of them were pretty similar to her, which made her feel a little discouraged.

<p>Was this Rockefeller dude such a ladies' man?

<p>“Nonsense!”

<p>Dorothy snorted lightly, “Do you guys think going down to the tomb is a field trip? Your lives are in danger at all times.”

<p>Princess Fleur saw that it was Aunt Rockefeller, and immediately her neck shrank “Aunt!”

<p>She did not know that Aunt Rockefeller was Dorothy.

<p>Yesterday, Aunt Rockefeller also saved her life, so when facing Aunt Rockefeller, she was much shorter, and her voice was not loud.

<p>Maya said, “We came over to help and can remain on the surface instead of the deep ends. When the time comes, if there is any need, you can also get in touch in time! In addition, we are here also to prevent someone else from thinking of stealing the tomb.”

<p>This speech made sense.

<p>However, that drifter Zayne shook his head.

<p>Some big tombs were very odd, especially Caesar's tomb. It was the most bizarre tomb he had ever seen. It was very dangerous. Even

at the entrance, there were dangers present. Those overly pampered girls would be in danger at any time.

<p>However, this was Alex's side of things.

<p>Previously in the discussion, they had long made the risks involved very clear. If one still wanted to take beautiful women down to the tomb in this kind of situation, any accidents that happened would also be his business.

<p>\*\*\*

<p>In the evening, at a quarter to twelve.

<p>The people who were ready decided to go down to the tomb.

<p>The mouth of the tomb was inside one of the makeshift rooms. It was a deep well. Susan provided the location of this deep well to Alex. Alex then got Azure and other people with large machines to dig, and they dug out this well.

<p>This was because William and the others caused the previous entrance and exit to collapse the last time they were there. They could only go down to the tomb from somewhere else.

<p>“Brother Alex, Fleur, when the pile driver was used for this deep well, it cannot be driven down below the slab of green stone, because that slab of green stone is very hard. Even a cutting machine cannot cut it into half, nor leave a mark. It is harder than diamond.” Azure said.

<p>Susan said, “That piece is the dragon stone. After our initial identification, it is most likely an extraterrestrial meteorite containing elements that do not exist in the modern chemistry chart. Its hardness is comparable to diamonds.”

<p>“Oh, there is something so strange at the entrance?” Alex said in amazement.

<p>The next second. Azure pushed the power switch outside.

<p>Sounds of lights being switched on were heard.

<p>Floodlights were seen from the makeshift room into the deep well inside. It was very bright.

<p>“Okay, I’ll go down first!” Alex carried a large black bag and was about to go down.

<p>“Wait!”

<p>Zayne stopped Alex. From his back pocket, he took out a box, which was the roots of incense.

<p>He took out three sticks and lit them with a lighter.

<p>He, Quincy, and Susan, each person holding a root of incense, walked along with the wellhead, with mouths chanting, probably burning incense to pray for good luck or something.

<p>Kenneth laughed, “This is the rule handed down by drifters and tomb raiders. One needs to light incense while going down the tomb to comfort the tomb spirit. By sending you a stick of incense, it will redeem my life.”

<p>Quincy looked at Princess Fleur.

<p>Princess Fleur was beautiful and charming. The fellow saw her, and his heart was moved.

<p>Quincy smilingly handed her the incense in his hand, "Do you want to confess too? It can save your life!"

<p>"You keep it for yourself!"

<p>Princess Fleur coldly snorted. With a casual flick, the incense fell to the ground. It broke.

<p>Zayne coldly looked over and said, "Ignorant!"

<p>Then, Quincy was focused.

</div>

## Chapter 1502

<p>Princess Fleur was reprimanded for an ignorant utterance for no reason. How could she stay quiet?

<p>She was immediately angry. "What's with all the incense down the tomb to comfort the spirit of the tomb. All these are only self-deceptions! If the ghost of the tomb master is still alive and knows that we went down to the tomb to take his things, will he spare us just because of this little piece of junk incense?"

<p>Dorothy said, "Since it's their tradition, just do it. And... Fleur, shut up."

<p>Since aunt spoke up, naturally, Fleur didn't dare to say anything else.

<p>The incense burning was completed.

<p>Alex was the first to go down the tomb. With a swish, he jumped down.

<p>Then, Princess Fleur and Maya followed. Next were Susan, Quincy, Kenneth, Darven and Zayne.

<p>Dorothy was the last to enter. Azure and the others waited outside.

<p>When they were going down the tomb, Alex brought a communication radio to stay in touch.

<p>Very soon. Everyone landed.

<p>Princess Fleur stepped onto the ground beneath her. "Is this the extraterrestrial meteorite?"

<p>Alex and Dorothy looked at it carefully. In the very next second, the two of them exchanged glances and seemed stunned.

<p>This was not an extraterrestrial meteorite but a gloomy bloodstone. Despite the blackened surface, this was not the stone's original color.

<p>This stone was soaked in fresh blood for months and years. After the precipitation of hundreds and thousands of years, then the gloomy bloodstone was formed. It was indestructible and harder than diamond.

<p>If one was not mistaken.

<p>Behind the stone was the formation chart, which was carved.

<p>If a pile driver could break this stone, that would be illogical.

<p>They had just arrived at the tomb and not yet entered it. However, they encountered this kind of rare and unique object. Alex and Dorothy's heart sank. It looked like Caesar's tomb was far from easy, contrary to what Susan told them.

<p>"Fleur, sister, how about you all return to the surface?" Alex said, "If there's anything, I will contact you."

<p>"I just came down, and you're kicking me out? Let me take a look at it! I haven't robbed a tomb yet!"

<p>Quincy interjected, "Beauty, why don't you follow me? I'll protect you and take you to appreciate the fun of tomb raiding."

<p>"Forget it. You are the weakest of all the men. You'd better think about how to survive to make a round trip?" Fleur said disdainfully, "My man just helped you recover your energy core. You don't want to go back to how you were before, do you? How dare you flirt with me?"

<p>"Uh..?"

<p>In the eyes of others, this statement made by Fleur made her sound like she was Alex's wife.

<p>Freya then took a second look at Fleur.

<p>After going down the deep well, there was another passage inside more than two meters high. The opening was small but wide inside.

<p>At the end of the passage was a stone door.

<p>Azure and the others had long been to this location. The light wire had been extended to this location. It was bright as day, but no one could open this door.

<p>Holding a hand-drawn map, Susan said, "We are now in this location. This door in the tomb is called the escape door and is very

hidden! It was mostly built secretly by tomb builders to escape being buried because some tomb owners didn't want the secrets of their tombs to be known, and after digging the tomb, they killed people."

<p>Alex said, "So it is that dangerous to build a tomb."

<p>Susan pointed at Kenneth. "Master Sunder, I'll leave this door to you."

<p>The stone door, too, was made of gloomy bloodstone. To use brute force to destroy it was indeed a bit difficult.

<p>Alex also wanted to see if this Kenneth had the ability or not.

<p>Kenneth went close to the stone door and pounded. No one had a clue what he was doing. Then, the stone door immediately issued a click and slowly opened to the side.

<p>"Badass!" Alex gave a thumbs up to Kenneth.

<p>At the same time. At the corner of the makeshift room, which was initially an empty place, an old man in black slowly emerged. He looked at the deep well in the passage tomb not far away and smiled meaningfully.

<p>Strangely enough, Azure and the others did not even notice the presence of this black-clad old man.

</div>

## Chapter 1503

<p>Boom...

<p>Bang!

<p>Alex and the others entered through the opened escape door in the tomb. Before they had the chance to see the environment inside, suddenly, the tomb door that Kenneth had just opened, slammed shut automatically. The surroundings that were just as bright as daylight instantly darkened, and no fingers could be seen.

<p>"Ah..!"

<p>"Why is the door closed?"

<p>"Who closed it?"

<p>"Not me, I did not touch it."

<p>"Not me either..."

<p>In the dark, there were only voices, but no one could be seen.

<p>Alex and Dorothy were both cultivators. One was at the core formation stage, and the other was at the half core formation stage. So even if they entered a completely dark space, they could still

perceive the surrounding environment through their spiritual sense. At this moment, the two released their spiritual sense but surprisingly found that the spiritual sense did not work. Not to mention the dozens of meters around the body, even if someone were just in front of them, they would not sense that person at all.

<p>“Formation boundary!”

<p>“This place has some supernatural power to create another small space!”

<p>Alex instantly realized the root of the problem. The next second, the light came on from Zayne’s torchlight.

<p>With the light of the flashlight, everyone could finally see something in front of their eyes.

<p>Immediately after, several people’s flashlights were lit up, and there was even a self-generated headlamp like a searchlight. The room’s brightness immediately increased by several levels. Everyone saw the stone door opened by Kenneth, tightly closed again, and until this time, everyone found something above the stone door.

<p>“Master Sunder, can you reopen the tomb door?” Susan asked with calmness and entered with confidence.

<p>“No problem!” Kenneth laughed and said, “Some techniques are needed to enter this escape door from the outside. To exit from the inside, there must be a mechanical device. Once one finds the mechanism, the door could be easily opened.”

<p>Everyone was relieved to see how easy he said it.

<p>But then, Kenneth searched behind the tomb door for a long time but did not find any useful device. Not to mention the pull ring wrench and so on, even the small round holes were not available.

<p>“Could it be related to these patterns on the door?” Quincy said.

<p>With the light, everyone saw strange patterns carved on the door. On both sides were two odd-looking animals, and in the middle was a large round flower, the flower was composed of many unintelligible words and symbols as if it was stating something important.

<p>“The animals carved on both sides are tomb-beasts, and this flower in the middle. I don’t know. I’ve never seen it before.” Susan said, “I think, to open this door, it must be related to this flower, and I need to decipher what these symbols mean.”

<p>Kenneth nodded, “I think so too. That’s why the tomb’s design is

perversed, always doing some new tricks.”

<p>At this moment.

<p>Dorothy said, “There is no need to study this flower. Even if you study it thoroughly, you would not be able to open this door. This is a dead door, only to enter and no exit. This is also not the escape door designed by the tomb builder, but to kill all those trying to come in from the outside here.

<p>Everyone was shocked when they heard that.

<p>Princess Fleur asked, “Aunt, how do you know?”

<p>Dorothy pointed at the flower, “It’s written on it. It’s an ancient script and a rune. The flower is not meaningless, but a formation diagram, a killing formation diagram.”

<p>Zayne looked at Dorothy in surprise. “You understand the ancient script, and you know the formation diagram?”

<p>Freya and others also looked over, initially thinking that Alex’s ‘aunt’, came down just to pretend, to fool around, and would beat a retreat when she saw the danger, but she never thought that she even knew such profound things.

<p>Dorothy replied, “I know a little.”

<p>Princess Fleur answered nervously, “This is the door of death to kill people. So, next is the killing technique?”

<p>She had just finished speaking when everyone heard a rustling sound.

<p>“What’s that sound?”

<p>“It seems like it is coming from the back!”

## Chapter 1504

<p>Everyone was nervous, and they turned around with the lights shining.

<p>Earlier, they were only thinking about whether the tomb door could be reopened. They did not look closely at the situation inside. At this moment, they realized that this was a closed space of about two hundred square meters. There was no way out, not even a door. The walls were painted with some hideous and horrible paintings.

<p>“Huh, I think I see something green?”

<p>“Green light. It’s a green light!”

<p>“Turn off the headlights.”

<p>Zayne’s internal energy vibrated fiercely.  
<p>That green light suddenly suffered a vicious shock and fell to the ground.  
<p>A flashlight was shone at that thing, and it turned out to be a luminescent bug. It had been shaken and fallen to the ground, dead. A glowing green light was also emitted, which did not extinguish.  
<p>“Holy shit! What a huge luminescent bug!”  
<p>Quincy shouted after getting a clearer look at it.

<p>Compared to the luminescent bug caught by Darven before, this one was more than ten times bigger and looked like a spider but with three pairs of wings.

<p>“Could it be the mother of the luminescent bug?”

<p>And at this moment, Maya shouted, “Be careful of the wall!”

<p>The crowd heard and looked around the wall. They saw a bright green light emerging densely. All were of similar size to the luminescent bug on the ground.

<p>Quincy shouted, “My god! How can there be so many, so big luminescent bugs?”

<p>He also grabbed the invisible umbrella and opened it fiercely.

<p>Then, he scampered to Maya’s side. “Beauty, meet me. I am Quincy Zoppins, the tomb raider. This is the tomb raider’s gold-defining treasure, the invisible umbrella. I’m here to protect you!”

<p>Princess Fleur had no chance. This guy had eyes on Maya, whose looks and posture were comparable to those of Princess Fleur.

<p>At this time, countless luminescent bugs flew from the wall, raining down on the crowd.

<p>Quincy used the umbrella to support himself and Maya, trying to get the beauty’s favor, but unexpectedly, Maya did not appreciate it at all and pushed him away, “Go away, don’t get in the way!”

<p>In the very next second.

<p>Suddenly, Maya rushed to the front. Facing the oncoming luminescent bugs, she stretched out one hand. “Silver frost, frost seal!”

</div>

<p>Maya pushed a little harder, and the ugly Quincy was pushed to the ground.

<p>Quincy was angry as he thought, 'Are you sick? I am kind enough to save you. You are not only ungrateful but also dare to push me down? Well, I will see how you will die later. If I were to try to save you, I am not Zoppins!'

<p>Although this guy had lived in Rockefeller's Manor for a day, Holly took care of him. He did not see other people, so he was completely unaware of Maya's terror.

<p>At this moment, he turned back to look at Maya and saw her rushing to the front of the crowd alone to face those horrible luminescent bugs. It was as if Quincy was struck by lightning as he thought, 'Retard, you are looking for death!'

<p>However, in the very next moment. He was then completely stunned by the image in front of him.

<p>He felt that the temperature around his body dropped rapidly. Just now, it was more than twenty degrees. In an instant, it had fallen to below zero. He felt like he had fallen into an ice cellar, and those raindrops of luminescent bugs, which were about one meter before Maya, had stopped flying.

<p>It was like they encountered a spider's web that could not be seen with the naked eye.

<p>The luminescent bugs were stuck on the web.

<p>A sound was heard.

<p>That was a rapid freezing sound. At least hundreds of fist-sized luminescent bugs froze in mid-air. None could move. The next second, they were like scattering beans, crackling and falling to the ground.

<p>Maya again pushed her hand down. All the frozen bugs shattered into pieces.

<p>There was dead silence!

<p>Everyone looked at the ground.

<p>Even Alex was a little surprised as he was not expecting that Maya's silver frost skill to have become so powerful to this extent.

<p>One had to know that her silver frost technique was still based on Alex's nameless method of purification, which she had adapted. Even he was not quite sure to what extent he could cultivate it, and with Maya's show of combat power at this time, he really needed to

ponder.

<p>As for Quincy, his mouth was wide open. Then, Susan, Freya, Kenneth, and the others were so astonished they were speechless.

<p>If one said that Aunt Rockefeller traveled together, everyone would feel that this woman might have some strength. As for Maya and Princess Fleur, everyone thought that these people were passengers and tourists here to visit. Now, they were trapped here, which was purely due to their sins. If they were to encounter any dangers, these two placeholders would be the first to die.

<p>However... They were wrong!

<p>What they thought was a placeholder that wasn't even a bronze was a king. Loud clapping sounds were heard.

<p>Princess Fleur clapped her hands and looked at Maya enviously. "Maya, you are getting really stronger now. If I were to fight you, I might not even last three minutes."

<p>'What?'

<p>Susan and the others were once again shocked.

<p>Maya was so strong to such a degree that this Fleur said that she would last no more than three minutes. Did that mean she could survive two minutes? That was also considered very strong! Not to

mention Susan, even Quincy's heart wailed, 'If it were me, I might not even last three seconds. She just has to hold out her hand, and I will be like those luminescent bugs on the ground.'

<p>'How could the women around this Rockefeller kid be so unbelievable?'

<p>At this moment, Alex directed his flashlight at a spot. He took a few steps forward and saw some rusty iron on the ground and other decaying clothes. He poked around with his foot and saw a few teeth.

<p>"Before we came in, someone should have been here. The previous people left these behind." Alex said.

<p>Several other people went up to check.

<p>Zayne nodded. "The luminescent bugs could have poisoned these people."

<p>Quincy looked at Maya and Princess Fleur with complicated emotions in their eyes. He had initially thought that after going down this tomb, he would have the opportunity to get close to these two

stunning beauties, but after Maya showed her hand, his courage diminished.

Carefully going around the dead luminescent bugs on the ground, he told Zayne, "Brother, how could these luminescent bugs be so big? It's the first time I've seen such a big one in my life. It's so scary."

Susan analyzed, "Maybe because they have consumed human blood before!"

Freya shook her head. "No, there is yin energy here. These bugs are filled with yin energy. I'm afraid they are sucking yin energy as nutrients."
