### The Pinnacle of Life Chapter 2841

Just then, Alex suddenly sensed a deadly aura coming from the entrance near the snow valleys.

“D\*mn it! that old man has indeed returned!” Alex remembered Julian’s killer aura well enough.

Nolan felt it too, his expressions changing as he quickly said, “Go, child. Just leave me behind! God has treated me so well. I never thought that I’d meet my grandson before death! I’d be able to die without regrets now. Run now. Go! I’m sorry about everything!”

The old man had wanted to kill Alex just a while ago, but now he seemed to be persuaded by Alex’s wards.

Alex’s eyes turned stern, “Sword heart, slash!”

“Ghost Dragon Suppressing Prison, shatter now!”

At the same time, Julian and two other young men had seen Alex. They had also noticed the precarious state the prison was in. As he realized what had happened, Julian immediately ran berserk He screamed loudly, “Stop!”

He hadn’t finished speaking, but his body had already rushed forward like lightning.

Nolan was so worried his eyes almost popped out of their sockets. He quickly shouted, telling Alex to run.

Alex held onto the sword heart, looked at Nolan, and said, “Since young, I’ve been the eldest grandson of the Rockefeller family. My father was CEO of the Rockefeller Group. The Rockefeller’s became rich all because of my parents, but my grandfather had never looked me straight in the eye.”

“I found out recently that he’s not my grandfather by blood. Today, God allowed me to find my true grandfather. How could I leave you behind to suffer a tormented death?”

“Rarghhh! !!” Alex let out a loud roar, and eight mirror images appeared. It was not a hallucination but true mirror images which had half of Alex’s combat power.

“Charge!”

The eight images turned into streaks of light and formed one straight line, rushing towards Julian.

Julian was able to move at high speed. He laughed coldly as he saw the mirror images charging at him. He thought that they were only illusions conjured by Alex, and he didn’t fear them one bit.

However, he quickly sensed that something wasn’t right. The attacks of the images made his heart quiver, and his senses strained.

‘This is definitely not an illusion.’

He quickly raised out his hands to counter the attacks.

Boom!

Julian’s powers were far exceeded Alex’s by a few times. Even if he’d block the attack with just his arms, his rich Chi was not something Alex’s image was capable of handling.

In an instant, Alex’s first image was beaten and disappeared into thin air.

On the other side, Alex continued to control the sword heart, pulling out the thick chains tied on Nolan one by one. Time was running out. He needed to find more time.

Boom!

Alex controlled the second image in his heart, making it rush about five meters near Julian and... Self-explode.

Boom! Boom! Boom...

The consecutive explosions formed a barrier that could slightly slow Julian down.

As the eight images exploded, Alex pulled out the last chain from Nolan. He immediately pounced forward, grabbing hold of him.

‘Earth Escape Technique!’

“Do you really think you can escape?”

Even though Julian hadn’t suffered any actual harm, he was in a rather messy state. It was mainly because he had his guard down when the first image attacked. Although he’d destroyed the image in one hit, he still got hit by its thunder attack, which injured the left side of his stomach.

Moreover, the impact of the following seven self-destructions was also quite powerful. If he hadn’t had his ancestor’s defense treasure on him, he would’ve really died there.

“A mere weakling with Core Formation actually harmed me?” .

“Those mirror images are definitely not his own power, but from an invincible treasure!”

Julian clenched his teeth, his eyes turning blood red. He wanted to get his hands on such a treasure. Most importantly, Nolan was too valuable. The Fourcade ancestors had searched for the holy book for thousands of years, after all, and now that they were only one step away from attaining it, his ancestor would definitely be furious if he messed things up.

“Callum, Collin, guard the entrance of the snow valley. Don’t let them get away!” Julian shouted to his grandsons. He then rushed into the snow valley on his own and left the two behind.

Alex could clearly sense that he’d been targeted by the old fellow since a faint soul imprint landed upon him and tangled his soul. Under such circumstances, he couldn’t remove it by force even if he wanted to, not in such a short time, at least.

“My dear grandchild, please put me down. I still have some mental strength. I can hold them back for a while, and you take the chance to run as quickly as possible!” Nolan said urgently to Alex.

Alex’s answer was obvious when he placed Nolan into the cleansing vase.

He didn’t go in himself because he had an imprint on his body, afraid they’d still be found by Julian even though he hid him in the vase. If that were to happen, he would definitely be caught.

“Hmm?” Julian’s divine sense had been following Alex.

When he saw how Alex stuffed Nolan in a vase, his jaw dropped so wide he almost locked it open. His greed then quickly overtook him...

It was very rare to find a vase that could keep living humans. After all, the average storage treasures definitely couldn’t store living men, a restriction of their laws. Thus, a container that could store humans surpassed the traditional idea of storage treasures. It was likely that the vase was a heavenly treasure that had its own world within.

“Argh!”

“Let me out!” Julian roared, his Chi erupting as he punched the ground over and over again, causing multiple explosions.

‘Ancestor Bodhi!’ Alex called for Ancestor Bodhi in his heart.

Looking at the current circumstances, he could only summon Ancestor Bodhi and escape using the powers of the Ancestral Bodhi Tree to form a long-distance Earth Escape Technique.

However, Ancestor Bodhi replied helplessly, “I can’t help you now. The Ancestral Bodhi Tree received some ethereal Chi and is now healing in hibernation. It’s not functioning right now. ”

“What? The tree can heal itself while in hibernation?” Alex was shocked and utterly speechless.

“Oh! The Ancestral Bodhi Tree is a divine tree that grew during the beginnings of Earth, its longevity and powers way above humans like you. It can almost literally do any thing.”

However, the truth was far from that. Before leaving, Shelly had given orders not to help Alex unless he was in immense danger. The aim of that was to force out Alex's true potential when he was caught in a life and death situation.

"How long would it be in hibernation? Can it stop halfway?" Alex asked.

"Of course not!"

### **The Pinnacle of Life Chapter 2843**

Ancestor Bodhi rejected him directly. "Let me put it to you in this way. The tree had been harmed by a strong demonic poison back at Dairaionji Temple. This poison is extremely rare and is among the top three most potent poisons of this universe."

"The tree's vitality gradually weakens every day, and even limitless holy energy can't remove the poison. Only its own cleansing powers can remove the poison little by little. I'm not sure how long it'll take, but this process cannot be stopped, or it will surely die once the demonic poison is triggered. And the soul planted in your father can't be restricted anymore."

Alex frowned. "I didn't know it was that serious. Alright, I understand now."

The tree couldn't offer him any help. He could only rely on himself now.

At the time, Julian was coming nearer, and his grandsons had long set up traps for him in front.

Alex immediately drilled into the ground, using the Earth Escape Technique to its absolute limit. He refused to believe that Julian, an old-timer, could dig into the Earth faster than him.

Thuck... Thuck... Thuck..

He dug a thousand meters into the ground, then two thousand meters, three thousand... Ten thousand meters...

Alex continued going deeper and deeper.

Julian didn't know about the Earth Escape Technique. At first, he punched the ground, leaving a large crater in it. However, he could feel that the distance between him and Alex was... Rapidly increasing. If this continued, he would lose track of Alex. If that happened, even the soul imprint wouldn't work

He couldn't possibly let that happen.

"Come out, Dao killing sword!"

Julian took out his supreme weapon. It was the most powerful weapon he had, a gigantic ten meter long sword.

"Go!"

Layers of light sparked upon the sword as Julian filled it with Chi. The sword pierced the ground and glowed. It punctured a large hole in the ground. Julian then followed closely behind as the sword kept digging deeper.

"F\*ck, that old good for nothing is so annoying. How could he even follow me down here?" Alex was speechless.

Fortunately, even with a supreme weapon, he wouldn't be able to catch up with Alex.

On the other hand...

"What kind of sword does that old fellow have?"

"It looks very advanced."

As Alex continued escaping, he glanced at Julian's weapon. He wanted it for himself.

Just then, Ancestor Bodhi spoke, "If I'm seeing this right, that should be the Dao killing sword, the famous ancient weapon ranked thirty-nine on the list of supreme weapons. It's definitely made to kill. Even though it's not ranked as highly as your Xavion Sword, its attacking powers are better."

Alex was stunned. "Is it that good?"

He slowed down and rubbed his palms.

Ancestor Bodhi was taken aback "What are you trying to do, kid?"

Alex said, "Since it's such an impressive weapon, I have to take it as my own."

Ancestor Bodhi was shocked. "Have you gone mad?! That guy behind you has nearly reached the Heavenly Deity stage. You'd be killed in one slap. It's just impossible for you to take the weapon away from him unless he's that dumb."

Alex didn't know if Julian was dumb, but he was pretty sure he wasn't. Thus, he used the technique in the opposite direction and rushed towards the sword.

Julian immediately sensed him, stunned for a second. 'What's up with that kid? Could he have known that he has no chance of escaping and returned to beg for mercy?'

He saw a thick tree trunk appear from Alex's body in the next moment; Chaos Chi spewed from it, so rich that it surprised him. It went straight for the sword and instantly wrapped him tightly.

"Hmm?"

"What rich chaos Chi energy! What is that thing?"

Julian would have never thought Alex threw out the roots of the Chaos Tree, or he would've been mad with jealousy. However, even if he hadn't thought of that, he could feel the unnaturally rich chaos Chi energy upon the roots. He wanted it so badly he felt like his head was going to explode.

'Such strong chaos Chi energy... This is definitely another rare treasure. This kid has quite the treasure on him. Is he here to give me these valuables?'

Julian's eyes turned red with greed, and he went giddy with excitement. 'Mine... Mine... All is mine..!'

'I'll be rich once I beat that kid!'

Just as these thoughts appeared in Julian's mind, the tree roots tangled around the sword, pulling it forward. The sword moved at a quicker speed towards Alex. Julian was stunned for a moment, then he laughed out heartily.

He was laughing at Alex's idiocy. His sword was so ferocious it could even slash through the Path of God.

'Whatever he had that's filled with Chaos Chi energy won't be able to take my sword. He's just asking for death.'

It was as though he'd pointed out a clear path for the sword.

"Dumba\*s. I just hope my sword won't destroy that rare treasure of yours. And my precious vase as well. You better protect it well."

In his view, the sword turned into a flashing red streak of light and struck Alex... Then, in a second, it pierced the area between Alex's brows.

The corners of Julian's mouth moved upwards into a sneer. Despite that, before he could complete the smile, he was quickly overtaken by shock.

The sword pierced through Alex's head, but didn't cut it off. It didn't even go through his body. At the moment it attacked, it just vanished.

"What... Happened?"

"Could the sword have entered that world within the vase?"

Soon, his expression changed again. He felt his blood pressure elevating, with both eyes popping out of their sockets as they became bloodshot red.

Pfft...

A mouthful of fresh blood spewed from Julian's mouth.

He screamed fiercely, "Impossible, impossible... The Dao killing sword, my sword... What did you do to my sword? What did you do?"

Julian had gone mad. He simply couldn't believe it.

Just now, the connection by blood between the sword and his soul felt like it was cut off by force. The sword was his natal weapon, and he'd sacrificed his blood and soul to it. Under normal circumstances, the sword couldn't be taken away from him as long as he was alive.

However, the truth lay before him now. He could clearly feel that the soul and blood imprint he'd placed on the sword had been wiped away by a mysterious

force. If the sword was within the world of the vase, this wouldn't have happened. Something was up with Alex, the kid in front of him.

"Ahhh!"

"Give me back my sword, kid! Give me back the d\*mn Dao killing sword, and I'll consider leaving your dead body in one piece. If you don't, I'll shred your corpse into a million pieces and send your soul to Juyo Cave. You'll forever bear the burning torture of the flames of Juyo Fire."

Julian roared violently with his eyes full of resentment and fury. Yet what answered him was Alex's Great Icebound Spell.

"Ten-Point Forbidden Spell, Frost Seal!"

Pshhh!

The tunnel the sword had dug was about a meter wide.

At first, Julian sped ahead and swore to catch Alex within the shortest time possible. However, when he was about thirty meters away, a deep blue ice screen with extreme freezing powers formed rapidly in the middle of the tunnel.

Bang!

Julian crashed head first on the ice.

The Pinnacle of Life Chapter 2845

Even though he had cracked quite a good amount of ice, Alex's Great Icebound Spell didn't stop there, with the parts shattered by Julian being immediately rescaled by ice again. Alex had also sealed the tunnel with layers of ice, forming a huge barrier.

Just then, Alex activated the Earth Escape Technique again, burrowing rapidly below ground.

Ancestor Bodhi had seen everything happening outside. He looked in astonishment at the gigantic Chaos Tree, unable to believe that the Chaos

Tree had dragged the sword into Alex's mind palace and wiped away its soul imprint.

"You... You really surprise me, child. Oh no, wait. It was the Chaos Tree that shocked me. It just grabbed someone's weapon away! How invincible. I didn't know the tree had such surprising powers!"

"We're rich, we're rich! Your luck is truly out of this world, kid."

"That's actually the Dao killing sword, the king of swords, the only epee among the list of supreme weapons!"

Alex said, "Shut it up. That old good-for-nothing is still chasing us, and I have a soul imprint on my body. I'd be easily found, no matter where I go. F\*ck, that old man really is troublesome."

Thump!

Just then, Alex suddenly sensed his technique being halted halfway. His head had hit something hard, which almost broke his skull. He clenched his teeth in pain.

"What's that?"

"Oww! D\*mn. My head's swollen."

Alex nudged his head and was forced to stop.

Ancestor Bodhi cried. "This... Could this be the Ice Mother Chaos?"

"Uhm... What's that?"

Ancestor Bodhi explained that Ice Mother Chaos was the equivalent of the ancestor of the ice element. The source of all ice elements in this world was the Ice Mother Chaos. The giant ice cube Alex had crashed into was also part of it.

In actuality, the outer surroundings had only turned to ice due to the prolonged effects of Ice Mother Chaos. Only a tiny bit of the actual thing might be in here, and its size could be even smaller than a human fist.

Alex used his divine sense. The ice was so large he couldn't see the end of it, much like an underground land of ice.

'To think that the core of all this could only be the size of a fist.'

"Alex, this is a once-in-a-lifetime opportunity. The Ice Mother Chaos isn't a treasure that can simply be found. During ancient, even prehistoric times, kings and leaders had fought aggressively to attain it."

"Since you've learned to cast the Great Icebound Spell, its power will increase by tenfold once you get hold of it."

"Ten times? You're exaggerating, right?"

"I'm not, and that's just a safe estimation."

Alex was shocked, tempted as well. No one could remain calm at the mention of ten times more power.

"How do I get it?" Alex asked. "This ice is too hard to be broken."

Ancestor Bodhi said, "It's very troublesome to other people, but you're blessed with an item, the Chaos Tree! The Ice Mother Chaos and Chaos Tree have one thing in common, they both originate from the Chaos World. So, they're compatible. You can use Chaos Tree's Mother Chaos energy to break through the ice easily."

Alex looked behind him, Julian was still chasing after him, and he was getting nearer.

"Let's do this!"

"Chaos Tree, I'm counting on you!"

Whoom!

A ball of Mother Chaos energy rushed out from the Chaos Tree and crashed onto the ice wall.

A mystical scene appeared.

It was as if the rock-hard ice wall had met the world's hottest water and melted swiftly, forming a whole. Alex immediately jumped in, as the tunnel he had just melted was rescaled with ice.

Right then, Julian had finally caught up. He realized they were only separated by an ice wall less than a meter thick. Knowing that he could shatter such little ice with just one finger, he yelled. “You have nowhere to run now, you brat!”

“Die!”

He punched the ice wall aggressively.

Julian now hated Alex to the core.

A tiny mole stole his Dao killing-sword, saved Nolan, and made him chase so hard for so long... He was even wounded, all of which was thanks to this kid's misdemeanor.

‘D\*mn! D\*mn a million times!’

He exerted a punch with boundless anger using his life's cultivation. The wind of his fist was like an astral deity, and a substantial killing aura appeared on his fist.

He wanted to, with one punch, smash Alex into pulp. He saw tension and panic appear on that kid's face, as well as the fear of impending death.

“Die!”

Boom...!

Julian smashed his fist heavily on the ice wall. However, the ice wall did not crumble, and Alex was not smashed to death. The thin, less than one meter thick ice wall was hard as a Yosei stone. It didn't budge an inch, but instead, overwhelmingly and robustly recoiled.

Snap! Snap! Snap!

The sound of bones breaking and shattering could be heard.

Julian let out a miserable scream.

His entire wrist on the right hand broke, the bones above his fist crushed into a pulp. Then, that powerful Chi explosion also blew off his arm. His entire right hand was almost scrapped.

“Oww..!”

Julian squealed like a swine on the slaughter.

Alex stood behind the ice wall, his face showing relief. He was surprised too. He was really worried that the old immortal would blast a hole in the ice layer, but it turned out that it was far harder than he expected.

“Hey hey, old thing. How does it feel to become crippled?”

“Bye-bye to you!”

Alex turned around, wrapped himself with Chaos Mother Qi, and took a step towards the depths of the ice layer.

“Grandpa, how did it go? Has Nolan been caught?”

Julian’s two grandsons asked as they looked over from the hole. All that could be heard, however, was Julian’s miserable screams.

“Huh?! What happened to you, grandpa?”

“Your hand! How did it become like this?!”

Seeing Julian’s miserable appearance, Julian’s two grandsons shouted in disbelief.

Julian wrapped his arm with true essence and said, “Callum, come here. Take out your sword and cut off this arm of mine.”

“What?!”

Callum was stunned and a bit afraid. This was his grandfather.

Julian said, “Come on, be a man. It’s just cutting off an arm. It’s not like you’re going to kill me. Its meridians are broken, and 90% of its bones are shattered, it is no longer usable. Keeping it will affect my cultivation.”

Callum finally took out his sword. Julian's right hand was chopped off from the shoulder with one slash.

Callum let out a sigh of relief, thinking it was all right.

Unexpectedly, Julian said again, "Callum, now cut off your right hand, also at this position, and give it to me."

## **Read Novel The Pinnacle Of Life Chapter 2847**

The Pinnacle of Life Chapter 2847

This time, Calum was truly stunned. "Grandpa, you're not joking, right?"

Julian roared, "Who's joking with you?! Come on! I'm your grandfather. What's the big deal about lending me an arm? When we get back to the clan, I promise I'll find you a stronger arm and give you three more heavenly pills."

In the end, Julian managed to get his grandson's arm. He stared at the thick ice wall. "I just don't believe you can stay inside for the rest of your life."

Alex walked inside for a while. He stopped and entered the Cleansing Vase to ensure that the old immortal behind him wouldn't catch up again.

Within the heavenly realms of the vase, Nolan and Neela, as well as the souls of the two ice dragons, were present

Seeing Alex enter, Nolan immediately shouted out, "My dear grandson, how are you? Are you hurt? Have you been caught up by that old pipsqueak Julian? Let grandpa take a look Let grandpa take a good look"

Next to him, Neela looked at Nolan curiously and asked, "My lord, this... Is this old gentleman really your... Grandfather?"

Alex said, "Actually... I am not too sure."

It was mainly because Nolan had changed so quickly that it confused him slightly.

Nolan, however, looked at Alex and said tearfully, "I am very sure... Absolutely sure that you are my own grandson I'd never met."

Neela said, "How can you be sure?"

Nolan said, "It's the Ultimate Book of Medicine! The Ultimate Book of Medicine is the ancestral secret technique of my Rockefeller family, and it is an inheritance embedded in the bloodline. Without the bloodline of our Rockefeller family, it is impossible to awaken the Ultimate Book of Medicine, we both cast the Ultimate Book of Medicine simultaneously, and we can have the bloodline resonance. We can tell from a glance, and... My dear grandson, when you cast the Ultimate Book of Medicine, I clearly perceived the Zharvakko Talisman. You... Did you awaken the Ultimate Ring of Medicine been passed down by through my Rockefeller family for thousands of years?"

Alex knew that he was referring to the very ring that his father had Lord Lex hand over to him back then. Only later did that ring automatically disintegrate after completing its mission.

He nodded. "You are talking about the black ring, right? I didn't expect that it would be called the Ultimate Ring of Medicine."

The two then performed the Ultimate Book of Medicine together, and sure enough, a bloodline connection shot straight to the heart; there was no mistaking it.

Nolan trembled with excitement.

He grabbed Alex's hand and looked at him again and again. "Good boy, good boy. I have a successor in the Rockefeller family. Finally, a descendant can awaken the Ultimate Ring of Medicine... But, but, son... Your father was murdered by traitors, and now, who knows if he's still alive. I... I..."

Neela said, "The lord's father is still alive. He is now in the lord's body."

"Ah...?" Nolan froze for a moment, then suddenly remembered. Before this, when he hadn't recognized Alex as his grandson, Alex mentioned William's current situation. He was just too shocked at the time and actually gave it a miss. "William... William is really here?"

Alex nodded. "However, he's critical now, after being planted with a soul, and is in a sealed soul state. He is unable to come out to see you but, but as long as the person who planted the soul is killed, my father will be able to reawaken. Master... Grandpa, do you know who planted my father's soul?"

Nolan's face showed extreme pain and hatred. His expression was all distorted.

"How could I not? To this day, I still remember every detail. The son of a bitch who planted William's soul was Julian's great grandfather, the Fourcade family's oldest ancestor."

"The old ancestor of the Fourcade family bullied my Rockefeller family, thinking we were nobodies."

Speaking of this, Nolan could no longer control himself. Trembling, he loudly cried, "My Rockefeller family had a total of 136 members! Overnight, 134 people were killed, leaving only me and your father, William. But, the Fourcade family's old ancestor planted a soul into William, which made his life a living death..."

Hearing such information, seeing Nolan like a lonely ghost howling, and then remembering his father's wailing when being soul-planted while rolling all over the ground, Alex turned aggressive. His teeth clenched tightly.

The Fourcade family must die!

"Grandpa, don't worry, I will definitely take revenge!"

Hearing Alex saying that he wanted to take revenge, Nolan suddenly had a jolt and remembered Julian, that son of a b\*tch.

"My dear grandson, where is Julian? What about that son of a bitch? That son of a bitch has half-stepped incarnate deity cultivation. He is far from what you can fight. You must not act recklessly as you are the only one left in my Rockefeller family. You must stay healthy. As long as you are okay, revenge can be discussed."

Nolan just looked like he wanted to eat the Fourcade's alive. Then, hearing Alex say he wanted to take revenge, Nolan immediately suppressed his strong hatred, afraid that his grandson would be in trouble.

The tension, concern, love, and affection in those eyes were something Alex had never seen from Bill before.

## The Pinnacle of Life Chapter 2848

Alex did not see Julian coming through the Cleansing Vase, and he couldn't move an inch owing to the periphery of the Ice Mother Chaos. He secretly thanked himself that if it were not for the Chaos Tree, he would have had no way to go today.

"By the way, grandpa, what is this place?"

This was what puzzled Alex the most.

He had clearly passed the True Martial Starlord's trial to come here, but it turned out to be completely different from what he had expected. This was definitely the real world.

Could it be that another small world existed within that small world?

Nolan was a bit surprised that Alex didn't know where they were since he could even find it in the first place. "This is the Shura Realm, a lost, nameless land that has yet to be known to the world. Even the Shura tribe does not know about its existence."

Alex was incomparably shocked.

He had entered the True Martial Secret Realm from America's Mount Sota through the trial made by the True Martial Starlord. But the Shura Realm, one of the ten realms... Alex had no idea how vast this place was.

Nolan did not know what to say after hearing how Alex had come.

One could only say that it had to be God's will. It was God's will that grandfather and grandchild met, it was God's will that Nolan escaped, and it was God's will for the Rockefeller family to stay alive.

Next, the Fourcade family would have to pay a painful price.

Seeing Alex's surprise, Neela ran to explain. "Lord, the Shura Realm is a special existence that cannot be measured using common perception. If the universe could be compared to a vast ocean, the Shura Realm would be underwater. It is also the closest world to the nether realm."

"So, the Shura Realm is underneath any world?" Alex asked.

Neela said, "This is a relative world, like a man and his shadow under the light. The shadow is not everywhere, however. The Shura Realm has its own rules. From the entrance of the three thousand worlds to the realm, there is a relatively weak but relatively stable position."

After a pause, Neela added, "In the ancient times, there was also a cultivation field that existed between the realms of reality and illusion, called the Shura Illusion Realm."

Alex was surprised, "Shura Illusion Realm? What is that thing?"

Neela said, "This thing, to put it simply, is a cultivation field jointly created by the great ancient powers. In reality, however, the soul of living beings is sent into the cultivation realm through some special Daoist rules, stronger than any normal entry into the cultivation realm. Also, death is not really death, but only a slight drop in cultivation. "

Alex listened and was dumbfounded.

There were actually such magical places in ancient times.

Neela went on, "Back in the day, the living things in the universe opened up ninety-nine massive cities in the Shura Illusion Realm. Each city lord was a supreme and divine monarch. Looking back, the ancient times were so prosperous... Great teachings spread down from the holy lands to the mortal world. Those times flourished with countless heroes and heroines..."

Neela was from that era. When she recalled those moments, she was filled with nostalgia.

The dragon beside her also came into memory. She said, "At that time, it was also the most prosperous period for the Four Great Beasts. The Benares Dragons and Ice Dragons competed for territory and resources with the Exorcist Dragons. The ring battles were especially enjoyable. Unfortunately, the dragon clans are almost extinct now."

Alex listened to their words, and a vast picture scroll unfolded in his mind.

On it, every place was a beautiful myth that would cause anyone to endlessly yearn for it. Of course, the main thing now was to get the Ice Mother Chaos and escape and leave this trial land.

“What did you say?”

“Is the Ice Mother Chaos... Here?”

When the dragon heard Alex say that he would pick the Ice Mother Chaos, she immediately shrieked in shock. For the Ice Dragon clan, the Ice Mother Chaos was simply something that couldn't be dreamed of. According to the dragon's memory, the ancient ancestor of the Ice Dragon clan once obtained a piece of Ice Mother Chaos the size of a pigeon's egg. That ancestor had since brought the Ice Dragon clan to their greatest heights in history, making them the most powerful dragon clan in battle at one point.

Alex smiled and did not say much, unfamiliar with this sister of Neela. Then, he left the Cleansing Vase.

The Pinnacle of Life Chapter 2849

As Alex kept moving forward, he could feel the coldness around him increasing dramatically. It was even colder than the bottom of the 10,000-year Frigid Pool. If he hadn't been wrapped himself with Mother Chaos Qi, he would have been frozen and frostbitten.

Finally, he got to the end and saw the Ice Mother Chaos.

Ancestor Bodhi was watching from his mind palace, and after feeling the size of the Ice Mather Chaos, he was incomparably shocked. “This...This is the largest Ice Mother Chaos I've ever seen.”

Notably, it could be as large as an eight immortal table.

Alex met it for the first time, and there wasn't much he could talk about it. “Have you seen many? Is such a volume exaggerated?”

Ancestor Bodhi said, “The roots of the Ancestral Bodhi Tree can be rooted in endless worlds. I have seen many, but this is the first time I have seen one this big. The biggest one I have seen is the size of a bucket.”

Alex observed carefully, extremely excited as well.

“After I refine such a big piece of Ice Mother Chaos, won’t the power of the Great Icebound Spell increase a hundred to a thousand fold?”

“What were you thinking?” Ancestor Bodhi snorted. “One has limited abilities, and at most, what you refine will be as large as an egg. Forget about more, even if you can refine it, it won’t have much effect.”

Alex understood it.

This was like taking some divine pill that could cause the person to grow a certain attribute. When consuming the second one, the effect would be significantly reduced. When the third one was consumed, however, it would become completely useless. This was the same principle.

“Start refining!” Ancestor Bodhi said. “But don’t say I didn’t remind you. That half-stepped fairy realm guy is still waiting at the periphery. Once you collect the Ice Mother Chaos, the ice layer at the periphery will not maintain its current strength. When that happens, he can come in easily. You should be prepared.”

Alex nodded. He had thought about this problem before. The main thing was to rely on the Cleansing Vase.

“Chaos Mother Qi, go!”

Alex sat down on his knees, then wrapped his body in Chaos Mother Qi. He touched the Ice Mother Chaos with his hands and refined it.

It was a quick process.

The key question, however, was if the meridians in the body could withstand devouring the Ice Mother Chaos. If successful, the ice attribute of the Ice Mother Chaos would be incorporated into the person’s energy core.

One hour... Two hours...

One day... Two days...

While Alex was refining, an extremely obscure pair of eyes opened slightly in the sky. It was actually a wisp of True Martial Starlord’s split soul

He said to himself gently, "I didn't expect this little fellow to find the Ice Mother Chaos and refine them. This is really unexpected. Once the Ice Mother Chaos is lost, this Shura realm, too, will quickly die out."

"That's it, that's it! I have existed here for 100,000 years, and I have only passed two beings. Now, I've not much time, and it's time for the end."

"Three thousand golden cores, Ten-Point Forbidden Spell, with the Ancestral Bodhi Tree and Chaos Tree. This is considered fate. Perhaps, he can help me to complete that task..."

Ancestor Bodhi looked at Alex, who was still in the middle of refining, and then looked at the Ice Mother Chaos, which was already less than half. He was speechless for a while.

The Bodhi said that Alex could only refine a piece as big as an egg at most, but the truth hit him hard in the face.

"No wonder Rachel chose him."

"It seems it is not without reason. These three thousand golden cores are unbelievable. For such a large piece of Ice Mother Chaos, even if the sacred mountain and sanctuary's sect leader comes, he could at most refine two pounds. But, this is like a bottomless pit that no one will reject."

Time flew by. Another half month passed.

This day, Alex's body was overflowing with endless ice-cold power, to the point even the Ancestor Bodhi shivered. In fact, at a glance, it was as if his eyes were covered in ice.

Alex refined the Ice Mother Chaos as massive as a table into his energy core.

At first, Alex thought this Ice Mother Chaos should contain pure ice attribute energy, but in the subsequent refining, he found that it had a different energy, incredibly pure, ancient, seemingly abundant, and boundless, as if it should not exist in this world. Along with the Ice Mother Chaos attributes, the energy went into Alex's meridians.

Three thousand golden cores rapidly progressed towards the Nascent Soul.

Now, it had reached the final bottleneck of Nascent Soul. However, at that time, the surrounding condensed ice lost its original properties thanks to the disappearance of the Ice Mother Chaos.

“Hmm? This ice layer?”

Julian and his two grandsons were still hovering on the outskirts of the ice layer for some time. They had almost carved out an underground palace around the huge ice black. It was imperative that they get the treasures on Alex’s body, as well as snatch the Dao Killing Sword. It was impossible for them to give up.

At this moment, Collin was touching the ice layer with his hand and found that the temperature of the ice layer was much better than before, as it was not as cold as the very beginning. He casually made a little flame and substantially melted the ice layer.

Collin was surprised by this discovery.

Then, a large flame gushed out and rushed on top of the ice layer. This was the Kylin Fist, the Fourcade family’s heirloom and masterpiece.

That surging flame was the fire of Kylin.

As a result, his punch created a huge ice hole, which caused the ice to melt quickly. This included the ice they were not able to destroy before.

“Grandpa, grandpa..!”

“The ice layer melted! The ice layer here has become fragile!”

Collin hurriedly transmitted his voice to Julian.

At this time, Julian did not join his two grandsons because they were separately guarding the ice layer, not knowing where Alex would come out from. The moment he heard Collin’s voice transmission, he immediately blasted his fist on the ice layer.

He did not dare to use his full strength because he had suffered significant losses before. Instead, he only used 30% of his power. Moreover, the fist did

not really touch the ice layer. Instead, the flaming aura above his fist blasted through the ice layer.

As a result, a loud sound was heard. The ice layer was destroyed in a hundred meter deep pit.

The cultivation level of a half-step god transformation was simply terrifying to watch.

“Hahaha!!!”

“After waiting for three months, the ice has finally melted. Little kid, I’ll see where you run to this time.”

Julian took out dozens of weapons and flying swords and indiscriminately bombarded the ice layer, immediately cutting out a path as tall as a person... He moved at very high speed, blowing up a cloud of ice and frost behind him.
