

# The Pinnacle of Life – Chapter 1169

Alex's head was about to explode. His mother had been kidnapped?

Who was it?!

Brittany's current strength was not weak, and she still had Maya and Holly by her side. How could she have been kidnapped? How strong was her opponent?

Also, what has happened to the other women in the house?

The voice on the other end was calm. "I heard that you've gone to Puerto Rico. I'll give you six hours. If you're still not here by then, your mother will go to heaven."

As soon as the other party finished speaking, a 'click' was all Alex heard after. It sounded like the phone had been crushed.

"Hello, hello..."

Alex was flustered and exasperated when another call came, and this time from Waltz.

"Hello, Waltz, my mom has been kidnapped. Do you know about it?" Alex immediately picked up the call and said anxiously.

Waltz's voice came in slow, difficult breaths, "Senior, I... I know. It's an old man. He's really powerful. He rushed into the villa, took Mom... I heard him saying.... That he's from the Witch Doctor Sect."

Alex frowned. "What's wrong with you? Are you hurt?"

“I’m fine,” Waltz said. “But, Holly... Her wounds are quite severe...”

Alex’s heart beat faster once again, the anxiousness followed by seething rage.

“Waltz, there is a bottle of life-saving pills on my bedside table in my room. The pills are black. Give that to Holly, and you take one, too. I’ll be back soon!”

“Senior, you have to be careful. The old man is really powerful!”

The call ended.

Alex lifted his head to see that Cheryl had already gotten out of the bathroom and was in the middle of putting on her clothes. She had obviously heard Alex’s conversation and that something big had happened.

“What happened to your mother?” she asked urgently.

“She’s been kidnapped by someone from the Witch Doctor Sect. I have to go back immediately!” Alex glanced at her. The desire in his heart was long gone. Only a murderous intent and a hot fury remained.

Cheryl was done putting her clothes on now, and she summoned Guilherme out from the inheritance mark on her forehead.

When the old man appeared, he thought it was because Cheryl was in some medical trouble, but he immediately saw that it wasn’t the case.

“Young Master, Young Madam, this is...”

“The Witch Doctor Sect has taken Alex’s mother,” Cheryl said. “Can you do anything about it?”

She was willing to try just about anything in a dire situation like this.

Guilherme was someone from ancient times, and hundreds of years had passed since then. Who knew how many masters the Witch Doctor Sect had had since it was established, and how could he do anything about this?

“What? Young Master’s mother has been kidnapped? And it’s someone from the Witch Doctor Sect?!”

The moment Guilherme heard that, he jumped up violently, his soul body hitting the ceiling, and he shouted furiously, “Is the current master of the Witch Doctor Sect a useless piece of sh\*t? The Witch Doctor’s inheritance comes from Young Master’s ancestors. You can even say that you’re the true master of the Witch Doctor Sect, Young Master. Those disciples in their sect should be obeying you instead, and now, they’ve gone and kidnapped your mother. Isn’t that just ridiculous?!”

Cheryl was suddenly speechless when she heard that rant.

“The Witch Doctor Sect was founded by Alex’s ancestors?”

“As the first generation of Immortal Doctors were the young master’s ancestors, the inheritance of the Immortal Doctors have been passed down from the first generation of the Immortal Doctors.”

Realization finally dawned upon Cheryl. Before this, she hadn’t understood how Alex had somehow become Guilherme’s young master. So, this was how.

“Alright, Guilherme, you don’t have to get angry like this. The Witch Doctor Sect has long since been what it used to be.”
