

The Pinnacle of Life – Chapter 0871

Brittany Rockefeller was furious.

Carol Rockefeller was simply ungrateful. Back then, if Brittany's husband hadn't saved her life, she would have been buried under the ground. Last time, slandering Alex Rockefeller on the internet was also Carol's idea.

This time, Carol actually sent someone to capture Brittany herself.

"Let's go back to California. We're going to the Rockefeller family's place!" Brittany made up her mind decisively.

Alex counted the days. "It's about time. Previously, I gave them the deadline to return Rockefeller Manor to us by the fifth of October, but none of them has taken the initiative to come forward about this," he said.

Brittany had a cold expression on her face. "There's no point in expecting anything from these traitors. The manor was your father's gift to you on your birthday. It's about time you got it back. Let's depart immediately and go to California," she said.

Coincidentally, Zendaya Stormer was driven over by her bodyguard.

The group of people left in a grand manner.

Meanwhile, in the Rockefeller family's place in California.

Carol Rockefeller had gone to Rockefeller Group in the morning to assume her position as CEO. Carol, a twenty three year old woman, had become the female CEO of a business enterprise worth up to one hundred billion. As soon as word got out, all the shareholders were shocked.

However, this was a decision made internally by the Rockefeller family.

As small shareholders, they had no right to question or change anything. Even if they did, Carol used very harsh measures to suppress these people and kicked them out. For a while, the shareholders were divided in their opinions.

Some were shocked by the fact that such a young girl was capable of taking these measures, and they hoped that she would be better than her father, Noah Rockefeller, in leading the Rockefeller family out of this crisis.

There were also people who laughed and claimed that this was the last act of madness by the Rockefeller family. They actually let a young and inexperienced girl take over the Rockefeller family's business. Perhaps, they didn't think the company was going down fast enough.

However, for Carol, this was the pinnacle of her life. She had never been in such a high position before, and she enjoyed this feeling very much. This was how it felt to be able to influence the behavior of others and dictate other people's lives.

All of this was given to her by Seamus Owen.

Meanwhile, all Carol had to do was do her best to please him and him alone.

In the morning, Carol had a taste of the good feelings of having power and she was reluctant to throw it all away. Hence, she even more so wouldn't allow Brittany and Alex to come ruin it. When afternoon came, Carol stayed at home to train with Seamus. She used up all her passion and energy to please him.

After an intense period of sex, Carol turned to look at Seamus. "Seamus, did your people manage to capture Brittany?"

Seamus closed his eyes. Odd waves of energy moved around his body. After a while, he finally calmed down and smiled. “Don’t worry. My men are two of the Eight Great Banner Wielders of Leviathan Gate. They are very powerful martial artists and they also have godly talismans from my master. Wouldn’t capturing a woman be a piece of cake for them?”

Carol smiled even more joyfully while she rubbed her body against Seamus. “That’s wonderful. I can’t wait to torture that b*tch already.”

Seamus smiled. “Of course, you can do what you want. I can even give you a little help. In fact, I can draw her soul out and lock it inside a mystical tool so that you can burn her soul every day. You’ll be able to make her suffer endlessly even after she died.”

Carol’s eyes glittered like stars in the sky.

“Does something magical like this truly exist?” She asked admiringly.

Seamus snorted. “Don’t you believe me? Our Leviathan Gate is a mystic sect. We’re hugely different from martial arts organizations. To us, martial artists are just kids playing around, and they don’t deserve any attention! My master has the ability to travel to the sky, overturn seas, call upon the wind and rain, and even summon dragons in the ocean and ride them to the south...”

This guy was very boastful.

Anyway, Carol was an ordinary woman. Seamus simply didn’t care about her. He was only after her body right now.

If Carol hadn’t been able to please him and make him feel like a king, he would have kicked her to the curb long ago.

Now, he did feel a little reluctant to do so.
