

## AS A TRASH COLLECTOR, I COLLECTED A IMPERIAL JADE SEAL

### Chapter 14

F\*ck! What a Massive Cordyceps! It's Worth 300,000 Yuan

"This one is only 3,000 yuan?"

Luo Feng heard the system notification.

He was a little speechless.

Thinking about it, the bigger this was, the more valuable it was. For example, ordinary cordyceps weighed less than 1 gram.

"Hahaha! Everyone, look at my cordyceps. It should be about 5 grams! It's considered big for cordyceps! Each gram can cost up to 1,200 yuan!"

"What a pity. The two kids just burned one, and it was bigger than this!"

"But that's good, we're finally getting one today!"

Luo Feng chuckled, took out a bag, and put the "3,000 yuan" into it.

"F\*ck! What did he mean by "not good"? Is a few thousand yuan considered little?"

"1,200 yuan per gram? Is it more expensive than gold again?"

"Yesterday's bezoar cost 6,000 yuan a gram, and the cordyceps today is 1,200 yuan per gram?"

"I don't remember cordyceps being that expensive. A 0.5-gram stick is only 100 yuan, right?"

"F\*ck! That's 200 yuan per gram, and it's not even expensive. Do you agree?"

“The streamer’s one is bigger, so it’s normal to sell it for 6,000 yuan! And now that it’s hyped up, it’s more than twice as expensive as before!”

“I’m impressed. With the streamer’s luck, did he just make a trip to the mountains and get another 6,000 yuan?”

“Streamer! I’ll pay 8,000 yuan for this cordyceps. How about we contact each other privately and you mail it to me?”

In fact, some of the netizens even started to bid. The price was raised to 10,000 in an instant.

“Hahaha, I won’t sell it then. I’ll go home and make chicken stew!”

Luo Feng looked at the bullet screen. He was not surprised by the price of 10,000. This herb was still relatively rare in the wild. Moreover, it could not be cultivated by humans. It would be a wonder if it wasn’t expensive.

“A blue dot? There’s something over there?”

Luo Feng’s eyes lit up and he immediately ran over to dig a hole.

What a huge cordyceps!

[Ding! Discovered 10 grams of king cordyceps! 30,000 yuan per gram! It’s worth 300,000!]

10 grams, this cordyceps weighed a whopping 10 grams!

“Dude, I’m rich! This is definitely the king of cordyceps!”
