

Trick Me 1141

Chapter 1141: In the heavens had already arranged everything

Only then did everyone stop what they were doing and slowly walked out of the huge pit they had dug.

Only Li Jie was left.

He did not leave. He threw away the shovel and knelt on the ground, using his hands to dig up the loose soil that had been washed away by the rain.

He remembered very accurately that it was this place!

Why couldn't he dig it up?

Why... ..

Ling Yue saw that Li Jie was adamant on not leaving, so she walked over to advise him, "let's go! What are you still digging here for! It's raining so hard!"

Ling Yue did not know about the obsession in Li Jie's heart. She just felt bad when she saw how crazy Li Jie was. He dug until his ten fingers were bleeding and refused to stop.

However, no matter what Ling Yue said, Li Jie pretended that he did not hear her and insisted on digging the hole in front of him.

He clearly remembered that it was at this place... ..

Xia Jinqi also turned around and looked over, her black brows slightly furrowed.

Before she could say anything, Huo Ting had already walked over with big strides. He grabbed Li Jie's arm and pulled him away. "Let's go!"

"No! It's here! There must be something!" Li Jie shook his head and flopped back.

He was very strong. He pulled with all his might and managed to shake off Huo Ting. He fell forward and was covered in mud.

"Li Jie!" Ling Yue shouted. She wanted to help him, but he avoided her.

He began to dig the hole in front of him that was getting deeper and deeper... ..

The hole was deep and the rain began to accumulate. He dug to the side and drained the water. This cycle repeated itself and his hands were no longer in good shape.

Huo Ting finally could not stand it anymore. This time, he became serious and dragged Li Jie out of the hole. "Are you F * Cking crazy? ! I told you not to dig if you can't find it!"

"It's here. I remember it clearly. It's here..." Li Jie shook his head and struggled to go back.

Huo Ting knew that he was too stubborn and would not give up easily. He planned to forcefully take him away.

Who knew that after a few steps, after a bolt of thunder, Li Jie suddenly stared at the bottom of the hole and shouted, "It's here! It's really here! There are bones! "

Everyone was stunned. They all turned around and stared at the deep pit.

Under the impact of the rain, the soil was gradually washed away, revealing a white skull.

On the top of the round head, two big hollow eyes without eyes were facing Li Jie's direction.

Amidst the thunder, there were a few more bolts of lightning, which illuminated the small skull even more clearly.

Li Jie once again rushed over. He used all his strength to push against the layers of soil, revealing more and more bones. There were patches and patches of bones, which were ghastly.

It was obvious that these were the skeletons of minors. They were completely consistent with what Li Jie had said before!

Xia Jinqi also ran over, looking at everything in front of her in disbelief... ..

Ling Yue was so shocked that she could not speak. She could only quietly retreat to Xia Jinqi's side, tightly holding onto Xia Jinqi's hand and trembling slightly.

Xia Jinqi patted her back, then looked at Huo Ting. "Er Huo, this... what should we do? "

She muttered to herself. She was also stunned by the huge number of skeletons.

Such a scene could only be seen in some horror movies, and those were either computer-made or props.

But now, these piles of skeletons could not be more real... ..

Huo Ting frowned, his handsome face Ashen. "We can only hand them over to the police. "

Perhaps it was the will of Heaven, but after the first skull was dug out, the rain gradually subsided and soon stopped.

This rain came and went suddenly.

It was as if God had arranged everything.

Chapter 1142: to be able to reach this point, you are already very impressive

The dark clouds dispersed.

The Dawn drove away the boundless darkness.

A convoy of 13 police cars drove into the mountain area.

The criminal police team was the first to enter. After surveying the surrounding situation, the forensic team and colleagues from the forensics department entered one after another.

The rain that had just fallen had made the roads muddy and muddy. The search was also proceeding slowly.

The call to the police was made by Huo Ting, so this time, it was the director of the Public Security Bureau who came personally.

He took a preliminary look at the situation at the scene and was completely shocked. "Chief, how did you find so many skeletons here?"

Huo Ting glanced at Li Jie, who had been pulled to the side to rest, and frowned slightly. "It rained heavily last night. The bottom of the valley caved in, and the rain washed out these white bones, which happened to be discovered by the passing hunters."

The speed of his speech was neither fast nor slow, making people feel comfortable.

Obviously, he had no intention of telling the truth. He just made up an excuse to exclude himself and Xia Jinqi.

When the director heard that, he subconsciously looked back at the big pits on the ground. It was obviously man-made. How could a natural disaster be so coincidental?

However, he was only slightly silent and didn't express any opinions. Instead, he followed Huo Ting's words and said, "The rain last night was indeed quite heavy. The soil here is soft. It's very likely that it was washed like this."

"..."when Xia Jinqi heard that, the corners of her eyes twitched violently.

This flattery was really good.

The director didn't say much before he went to arrange the work.

Xia Jinqi walked over and asked Huo Ting, "you're afraid that Lu Yiming will know that we're investigating him, so you said that on purpose, right?"

"SMART." Huo Ting nodded.

"So, even if these bones are dug up, they won't be able to convict Lu Yiming?" Xia Jinqi asked in a low voice.

Huo Ting glanced around to make sure that no one else was eavesdropping before he nodded. "from the current situation, the bones here have nothing to do with Lu Yiming. We can only wait for the major crimes department to investigate."

"..." Xia Jinqi furrowed her brows. "Even if we add Li Jie as a witness, it won't work?"

"We have to find direct evidence." Huo Ting sighed, helplessness rising in his eyes.

In a society ruled by law, there were pros and cons.

No matter if it was a good person or a bad person, without evidence, they could not be convicted.

Xia Jinqi was silent for a moment.

She did not understand these things. She just felt that finding these places, digging up these bones, and adding Li Jie as a witness, would at least make a difference.

From the looks of it, she was too naive.

When Huo Ting turned around, she was drooping her head with a disappointed look on her face. She smiled and patted her shoulder. "To be able to get this far, you're already very impressive. Things always have to be done step by step. Take it slow."

Hearing what he said, Xia Jinqi felt a little better.

Just as she was about to say something, the bureau chief walked over quickly with a colleague from the forensic team beside him. "chief, we found something."

Huo Ting frowned. After exchanging a look with Xia Jinqi, he quickly followed.

The group stopped in front of the large pit where Li Jie had dug out the bones.

Most of the bones had already been dug out and placed neatly on the ground.

The colleagues from the forensics department were taking photos and collecting evidence. From time to time, cracking sounds could be heard.

Chapter 1143: Kill everyone except yourself

The bureau chief gave a look behind him, and the forensic team leader in protective clothing began to explain the situation they had just learned.

"from the situation at the scene, there are a total of 16 complete skeletons that have been excavated. They are all male, and their ages are between 8 and 14 years old. After soaking in the rain, we still have to bring them back for a detailed examination to find out how long they have been dead."

Just such a small pit, and they had already dug out 16 skeletons... ..

Xia Jinqi's face was pale. She didn't dare to look at the pile of bones any longer.

Her hands, which were hanging by her side, also clenched tightly.

Huo Ting noticed Xia Jinqi's abnormality and signaled with his eyes whether she should go to the side to rest.

However, Xia Jinqi shook her head, took a deep breath, and continued to look.

"there are more or less wounds on each of the bones here. The degree is different, but it's very obvious that they were beaten up or killed by each other when they were alive," the forensic doctor said as he squatted down and pointed at the skull of the nearest corpse "There are deep cracks on the head of this corpse. Our initial guess is that it was hit on the back of the head by someone. It's a fatal injury."

Everyone's gaze was drawn over. Looking at the wounds on the bones, they could not bear to see it.

The injuries were so severe that it could be seen how ruthless the attacker was.

Most of the people here did not know what had happened here, but Xia Jinqi knew something about it.

Based on what Li Jie had told them, it could be seen how manic the group of teenagers had become in order to survive.

The fewer people survived together, the more food each person could snatch.

Therefore, killing everyone except herself could ensure that she didn't have to go hungry every day.

Just imagining the battle that might have happened at that time made Xia Jinqi's back feel cold. Her hair stood on end, and she felt uncomfortable all over.

She turned around with some worry and looked at Li Jie, who was so tired that he had fallen into the mud. His eyes were staring straight at the ghastly white bones in front of him.

He was at the scene at that time. How panicked would he be when he saw such a battle every day?

Xia Jinqi could not imagine how the young Li Jie had survived in such a harsh environment.

When she turned around, the medical examiner had already reported almost everything.

Huo Ting's gaze was pulled away from the pile of bones. Even he would turn green when he saw such a scene.

"This was once the place where the 47th division was stationed. Why didn't we find it earlier? !" He asked sternly, his tone filled with anger!

"This..." the director had only taken up his post in the past two years. Moreover, he was involved in politics, so how would he know about military matters.

Moreover, the disciplinary committee had taken over this place, so naturally, no one would pay attention to this wilderness.

Just as he was worrying about how to answer, the captain of the Criminal Investigation Unit, Yu Yang, walked over and showed Huo Ting the information he had just found on the Internet "Chief, this is the place where landslides occur. "Back then, the 47th division was moved because of the landslides that caused casualties here. "later, there should have been a similar landslide that increased the level of the valley, so it was never discovered. "

When Huo Ting looked down, all he saw were reports of landslides from a few years ago.

Looking at the overall landscape of the mountain, the bones were buried at the lowest part of the valley. The accumulation of landslides could indeed increase the height of the valley.

No wonder they hadn't found it after digging for so long. It turned out that they hadn't dug deep enough.

Chapter 1144: was to prevent him from having any improper thoughts about her again!

Hearing their words, Xia Jinqi took the opportunity to look up at the deep mountain stream.

The terrain was indeed complicated, and the trees were luxuriant. In addition, this was a high-risk area for landslides, so basically, no one would come here.

Lu Yiming was really thoughtful.

This kind of place was really suitable for doing something shameful.

“there are so many bones and wounds. Could it be that a vicious attack happened here?” Xia Jinqi also pretended to know nothing and casually reminded him.

Before the bureau chief and the captain of the Criminal Investigation Team could react, Huo Ting had already coldly said, “no matter what, there are so many bones here. We must find out what is going on!”

The bureau chief immediately said seriously, “don’t worry, chief! I will set up a special major crimes team right away. We will definitely get to the bottom of this!”

Huo Ting nodded in satisfaction and said without changing his expression, “I’ll leave the scene to you guys! I still have something to do, so I’ll go back first.”

“Yes, yes, yes. Take Care, chief!” The bureau chief sent him off with a smile. In fact, he knew that Huo Ting must have sneaked out at this moment, and he couldn’t stay for long. Otherwise, if the higher-ups knew that he was still wandering around and didn’t look like he was being punished.. Someone was probably going to blow up again.

Xia Jinqi also turned around and left. However, after taking two steps, her gaze was attracted by the white bones again. She was a little distracted, and her feet missed the ground and she almost fell.

Fortunately, the Criminal Police Officer Standing Guard beside her held her up, allowing her to barely stabilize her body.

“thank you,” she said politely. Unexpectedly, the other party replied in a low voice, “you’re welcome, Madam.”

Then, under Xia Jinqi’s extreme astonishment, she turned around and left.

Xia Jinqi was stunned on the spot.

She was now dressed as a man.

But this person called her madam?

Could it be that he recognized her?

She wanted to chase after her to find out what was going on, but Ling Yue walked over and blocked Xia Jinqi’s path. “Chairman, are you okay?”

Xia Jinqi hurriedly averted her gaze. She wanted to look at the person just now, but she realized that there were a bunch of people wearing the same clothes in front of her. She couldn’t recognize who was the one who had helped her up just now.

Thinking about it, it was probably just a coincidence that she was recognized. Moreover, this was someone Huo Ting had found, so she should be fine. She turned around to look at Ling Yue and shook her head lightly. "I'm fine. Let's go back."

Ling Yue nodded and followed Xia Jinqi's footsteps.

Long before the criminal police unit arrived, Xia Jinqi had asked Lego's brothers to retreat first.

After all... .. One was black and the other was white. If they were to run into each other openly, not only would they make the police uncomfortable, they would also make themselves uncomfortable ...

When she walked to Li Jie's side, Ling Yue whispered, "ever since those bones were dug out, he has become like this. He stared blankly at those bones and didn't say a word."

Ling Yue had been secretly observing Li Jie the entire time.

Firstly, she felt that his behavior was really strange, and it would easily arouse people's curiosity.

Secondly, when she thought of the rude words that this stinky hooligan had said to her previously, she was so angry that she gritted her teeth She had to keep an eye on him at all times to prevent him from having any improper thoughts towards her!

Both of them were still working by the chairman's side. When that time came, she couldn't cause any trouble and make both of them lose face!

After finding a very reasonable reason for herself, Ling Yue began to openly pay attention to Li Jie's every move.

Chapter 1145: I'LL DEAL WITH IT MYSELF!

Xia Jinqi frowned as she looked at Li Jie. Sure enough, she saw that his eyes were empty and his face was gloomy. Even his hands, which were hanging by his side, had their fingers dug deep into the soil. The veins on the back of his hands were bulging. It could be seen that he had used a lot of force.

Seeing such a scene, even an outsider like her felt uneasy and uncomfortable, let alone a former client like him.

Before she could think of how to comfort him, Ling Yue, who was beside him, had already walked over. Her attitude was not good, and her tone was not good either. "Hey! What are you daydreaming about? Let's go!"

She still remembered how rude he was to her in the dressing room.

Li Jie did not move. He was still like a statue, maintaining his silence.

Seeing that he was ignoring her, Ling Yue felt a little depressed. She reached out and touched his shoulder. "The chairman said he's leaving!"

In the end, this guy still did not respond.

Ling Yue even wondered if he had fallen asleep with his eyes open. Just as she was about to kick him to vent her anger, he suddenly opened his mouth.

“You can’t even punish the real culprit with this?” Li Jie raised his eyes and looked at Xia Jinqi and Huo Ting, who happened to be walking over.

His face was cold, and the murderous aura around him was surging.

Xia Jinqi frowned. She could see that Li Jie’s heart was in pain.

He was the victim of the incident back then, so one could imagine how much he hated Lu Yiming.

However, based on this, he really had nothing to do with Lu Yiming.

The worst case scenario was that Lu Yiming didn’t find these bones when he was in charge of this area back then. At the very most, he would be guilty of dereliction of duty, so what was the use?

“It’s not the time yet. None of the bad guys can escape,” Xia Jinqi met Li Jie’s gaze and said firmly.

Huo Ting was right. At least, they had found these bones.

The people from the Major Crimes Department would continue to investigate. One day, the truth would come out.

There were some things that could not be rushed in the first place.

After Xia Jinqi finished speaking, she saw that Li Jie was still sitting on the ground and did not move. She said, “it’s useless even if you stay here and guard. Not only will you not be of any help, you will also waste time.”

Li Jie was silent for a moment. “since you have no solution, then I will solve it myself!”

After saying that, he quickly stood up and prepared to leave alone.

Huo Ting, who was at the side, saw the situation and shouted, “how do you plan to deal with it?!”

Li Jie’s footsteps suddenly froze.

He clenched his hands tightly and squeezed out a few cold words from between his teeth. “KILL HIM WITH MY OWN HANDS!”

Those white bones just now had obviously brought back the painful memories of Li Jie’s past.

The raging flames of anger and hatred burned in the bottom of his heart, stimulating his natural instinct to kill and desire!

Xia Jinqi was slightly shocked when she heard that, but she soon felt relieved.

Li Jie was an assassin to begin with. In the world he used to live in, no matter what conflicts occurred, he would kill the other party and immediately solve the problem quickly.

In fact, Xia Jinqi was a little surprised at first. After all, Li Jie knew that Lu Yiming had done all these things, but he had never tried to assassinate him... ..

This did not conform to the habitual thinking of an assassin. *no ve*)|b-In

Now that she heard Huo Ting's words, Xia Jinqi understood. Li Jie must have washed away a lot of killing intent during his time in Huo Ting's army.

Huo Ting was slowly changing him.

Just as she thought of this, a wave of curses came from the front, Interrupting Xia Jinqi's analysis.

"Kill, kill, kill! All you do all day is kill, kill, kill! Don't you have the temperament of a soldier? ! Once you join the army, you'll be a soldier for life! When you go out, don't say that I brought you out! " Huo Ting slapped the back of Li Jie's head and scolded him rudely ! !

Chapter 1146: is by the side of the wise and divine chief. I'm also under a lot of pressure

Li Jie," ..."

Xia Jinqi," ..."

Ling Yue," ..."

While the three of them were dumbstruck, Huo Ting didn't vent his anger and gave Li Jie a slap. "Why are you staring at me? Are You not convinced? ! Give me 100 push-ups on the spot! "

Under the incomparably astonished gazes of Xia Jinqi and Ling Yue, Li Jie really bent over and started doing push-ups. Moreover, every time he did a push-up, he would announce the number loudly.

"One! Two! Three! ... "

Xia Jinqi," ..."

A second ago, she had looked at Li Jie's murderous aura, as if he was about to rush over and tear Lu Yiming into pieces. She had thought that she wouldn't be able to stop him.

Who Knew... The Moment Huo Ting made his move, this guy obediently stopped ? ?

Xia Jinqi looked at Huo Ting with incomparable admiration and gave him a thumbs up.

Amazing.

Huo Ting glared at Li Jie who was on the ground and berated, "I'm spoilt by you! What's wrong with you! "

Then, he turned around and walked to Xia Jinqi's side.

"You tamed a big shot who is ranked number one on the assassin rankings just like that? " Xia Jinqi wanted to laugh a little. When she recalled the interaction between Huo Ting and Li Jie just now, she felt an inexplicable sense of humor.

Huo Ting rubbed his temples and let out a long sigh "Do you think it's easy for me to bring him along with me in the army? " His roommates bullied a rookie like him. They hid his military uniform, so he blocked that group of people and wanted to kill them. His comrades joked with him and snatched the

mineral water in his hand to drink. They wanted to kill him. In the end, they even wanted to kill him even if they couldn't get the shelf to dry his clothes!"

"It's not easy." Xia Jinqi finally couldn't hold it in and burst out laughing. "It's not easy at all, HAHAHA!"

Huo Ting spread his hands helplessly.

He had no choice. Who asked him to recruit a professional killer?

However, when he saw that the girl finally had a smile on her face, Huo Ting felt that the little mishap from before was actually nothing.

He had been worried that she would be depressed because of what had happened just now.

While they were laughing and laughing, Li Jie continued, "27,28,29...."

After chatting awkwardly for a while, Huo Ting finally asked her, "why didn't you ask me why I knew that I couldn't convict Lu Yiming? Why did I call the police to deliberately make things worse? Don't you blame me for alerting him?"

Xia Jinqi laughed for a while. She was in a good mood and her mind was racing. "I've already handed this place over to the criminal investigation team. The director personally said that a special task force will be set up in the future.

Once the special task force is set up, a large number of reporters will immediately swarm in upon receiving the news. Such a major incident will definitely be covered by an overwhelming number of reports.

Countless pairs of eyes from the public would be watching the progress of this case. This would invisibly bring great pressure to the main culprit, Lu Yiming.

"taking the initiative to reveal the bones at the bottom of the valley to the police might not be alerting the enemy, but shaking the tiger by knocking on the mountain."

Every time Xia Jinqi said something, Huo Ting's eyes lit up!

By the time she finished speaking, he could not help but rub her head in excitement. "SMART GIRL! Your brain reacts so quickly?"

"I have to be quick. Standing beside the wise and mighty chief, I'm also under a lot of pressure..." Xia Jinqi chuckled and said a wisecracking sentence.

"You, YOU'RE SO POOR!" Huo Ting looked at her lovingly. There was a deeper meaning in his smiling eyes.

In fact, Xia Jinqi was also right about a part of it.

He originally told her about Lu Yiming to let her know how terrifying Lu Yiming was. He wanted her to be afraid so that she could avoid Lu Yiming and not take the initiative to shoot him.

Who knew that not only was she not afraid, she even took the initiative to offer to investigate Lu Yiming's crimes. **love** | b-In

Chapter 1147: who sent it?

He couldn't stop it, so he could only let the three Li brothers follow him.

That was fine, but in the end, she really did find something and brought him here in a hurry.

Seeing that she was in high spirits at that time, he didn't want to pour cold water on her.

Anyway, he just thought of it as accompanying her out for a walk... ..

Who knew that he would meet that Godforsaken Mountain Guardian again!

There was no other way. If they didn't dig now, when Lu Yiming found out, they wouldn't have a chance.

After that, the digging in the first half of the night was fruitless. He thought that everything was just a coincidence, or maybe it was just a mistake. He was ready to leave, but who knew that the bones were actually found later

This series of events happened so dramatically that huo ting was overwhelmed.

Anyway, the bones were all dug out. Lu Yiming would find out sooner or later. At that time, he was afraid that he would want to kill Xia Jinqi to silence her, so he quietly covered up the matter again. Huo Ting could only call the criminal investigation team, wanting to borrow their hands to blow up the matter.

If the matter blew up, it would blow up into the sky. Even if Lu Yiming knew about it, he wouldn't dare to do anything about it.

This way, even if he knew that it was Xia Jinqi who did it, he wouldn't dare to do anything to Xia Jinqi.

As for knocking on the mountain and shaking the tiger.

Humph, Lu Yiming himself was the one who knew the most about what he had done.

The old matters had been dug out for no reason. It was also when he was running for president. He would probably be so anxious that he would jump up and down, right?

Although Xia Jinqi didn't think of this, she remembered Yan Jun's words before she came out.

He told her to bring Huo Ting with her.

Could it be that he had already predicted that something would happen and was afraid that she would panic, so he brought huo ting with him to think of a solution?

Needless to say, there was such a possibility.

Yan Jun was such a person. He always thought of everything thoroughly. n.)p.)V//e-(l))B)(l-n

When Huo Ting lowered his head, he saw the silly smile on Xia Jinqi's face, so he snapped his fingers in front of her. "What are you smiling at?"

"En?" Xia Jinqi came back to her senses. "nothing much... the push-ups should be done, right?"

Looking back at Li Jie, he said, “89,90...”

After he did push-ups last night, he stopped talking about killing and obediently followed Xia Jinqi and her group out of the mountains.

—

At dawn, someone sent a package to Yan’s house.

The servants did not know what to do with it, so they handed it over to di Qu.

Di Qu hurriedly took it upstairs to Yan Jun..

I searched the bedroom but couldn’t find him. I went to the study again.

Just push the door, see Yan jun standing in front of the window with his hands behind his back, eyes slightly heavy looking out of the window, the bottom of his eyes floating a circle of red blood.

When di Qu saw that he was still wearing the same clothes as yesterday, he knew that young master had been standing in front of the window the whole night.

Needless to say, he must be worried about young madam.

Sigh.

Their young master was really a very devoted man.

Di Qu sighed and coughed lightly. He said, “young master, someone sent a package outside the door.”

When Yan Jun heard that, he turned around and his gaze fell on the small box in di Qu’s hands.

“Who sent it?”

“I don’t know. The Guard said that he did not see the person’s face clearly. He only knew that he left in a hurry after putting down the box.” As di Qu said that, he placed the box on Yan Jun’s desk. “Do you want to open it now?”

“Yes.” Yan Jun nodded and walked over.

Di Qu used a knife to cut open the transparent tape on the box. When he opened it, he found that there was an injection drug lying inside.

There was a piece of paper attached with the words ‘antidote’ .

Chapter 1148: I said I don’t want it!

“This...” Di Qu was baffled. Just as he was thinking about which rascal was playing a rude prank on him, he saw Yan Junteng furrow his brows. “Young Master?”

Yan Jun reached out to receive the injection of the drug. His sharp eyes narrowed.

“inform me immediately when she’s back.”

After saying that, he took the drug, turned around and strode out of the door.

Di Qu, "..."

What happened to young master?

Who sent the drug?

"..."

Yan Jun directly drove to the suburbs where Wen Qing and Ben were.

When Ben took the medicine, he was so excited that his hands trembled. "How did you get it?"

"Don't worry about this for now. Is The medicine real?" Yan Jun narrowed his eyes and asked.

"Wait." Ben Did Not Answer directly. Instead, he took the medicine to the experimental table next to him.

In order to help Ben take better care of Wen Qing and research the antidote, Yan Jun ordered someone to build a laboratory for him here.

Although the place was not big, the equipment was still quite complete.

After waiting for about thirty minutes, Ben Excitedly gave an answer, "it should be true! I'll go inject AH QING NOW!"

As he said that, he went to the room next door.

Yan Jun followed him.

In the spacious room, Wen Qing's hair was disheveled and her face was Pale. She sat beside the bed in a daze. Her body swayed slightly, and her mouth was constantly muttering something.

Her eyes stared blankly at a certain place, empty like a doll.

Yan Jun knitted his brows tightly. Before he could ask what was wrong, Ben let out a long Sigh and explained, "the thunder was too loud last night. She screamed almost the whole night. Her blood flow increased, and her brain nerves were eroded even more severely by the poison."

Ben had made a guess earlier. If they could not get the antidote, Wen Qing would become a fool even if she managed to survive.

However, he did not expect Wen Qing's emotional state to be so severe that her condition would worsen.

Fortunately, the antidote had been delivered. As long as Wen Qing was injected into the vein, she would slowly recover.

Ben took the needle and slowly approached Wen Qing. "Ah Qing, come, it's time for the injection."

Wen Qing turned around and saw the huge needle in Ben's hand. She panicked and resisted strongly. "No, I don't want the injection, I don't want the injection..."

“Ah Qing, this is the antidote. You’ll get better after the injection. Be Good.” Ben Coaxed her, his voice very gentle.

He had been seeing Wen Qing like this for the past few days, and his heart was bleeding almost every day.

If it was possible, he would really be willing to bear such pain for her.

“No! No! Go Away! Go Away!” Wen Qing almost lost her mind. She punched and kicked Ben, who was approaching her, and every cell in her body seemed to be resisting.

“AH QING!” Ben Wanted to hold her back, so he used more strength in his hands.

To Wen Qing, this strength was like a form of persecution and malice.

The defense mechanism in the bottom of her heart was activated in an instant. Her entire face tensed up, and her entire body was surrounded by a ball of black gas!

“I said no!” She roared. Her eyes were red. She quickly raised her leg and kicked at Ben!

She used a lot of strength. Ben was kicked to the ground by her, but he did not care about himself at all. Instead, he desperately protected the injection in his hands.

This was the antidote that he had obtained with great difficulty. This was something that could save Wen Qing’s life. Ben Valued it more than his own life!

Seeing everything in front of him, Yan Jun’s deep eyes darkened. He took two quick steps and grabbed Wen Qing’s wrist with one hand, pushing her onto the bed. He then turned back to look at Ben. “QUICK!”

Chapter 1149: she loves you very much

“Let go of me!” Wen Qing began to struggle with all her might and started to scream crazily.

Ben Immediately came back to his senses and quickly got up. With one hand, he rolled up Wen Qing’s sleeve. Then, he used his teeth to bite off the protective shell on the needle. He quickly found the vein on his arm and inserted a needle into it!

“Ah!” Wen Qing screamed in pain. She still wanted to struggle, but she was tightly held by the two men in front of her!

A small tube of injection was quickly pushed in.

After Ben pulled out the needle, he breathed a sigh of relief. His knees went soft and he fell to the ground.

He did not expect that the unknown neurotoxin not only damaged and destroyed Wen Qing’s nerves, but also made her so irritable and irritable.

What exactly did the person who developed this neurotoxin want to do?

After Wen Qing was injected, her mood quickly calmed down and her eyelids began to become heavy until she slowly fell into sleep.

There was a tranquilizing component in the drug. The developer probably already knew what kind of clinical performance a person would have after being poisoned.

Yan Jun saw that Wen Qing seemed to have really fallen asleep, and he looked down at Ben, who was already sitting on the ground. "Are you okay?"

"I think so." Ben Nodded, and the expression on his face became much more relaxed. "after she sleeps for a while, she should be fine after she wakes up."

No matter what, it was already a blessing to be able to save Wen Qing.

Ben was really worried that she would get hurt.

When Yan Jun heard this, the taut lines on his jaw loosened a little.

He looked at Wen Qing's small face, which was as Pale as a piece of paper, and a hint of apology appeared in his dark eyes.

Wen Qing had been made into this state because of him, but he could not abandon Xia Jinqi for her.

Fortunately, the undercover agent had successfully obtained the antidote.

That was the only way to resolve the current predicament.

Otherwise, he would spend the rest of his life with Wen Qing as an apology.

Thinking of this, Yan Jun sighed again. He pulled the blanket in the corner and covered Wen Qing.

When Ben saw this scene, his expression changed when he looked at Yan Jun again.

"She loves you very much," Ben suddenly said. These simple words seemed to have used up all his strength.

Actually, Wen Qing's personality had always been what Ben liked.

It was just that he knew that the person Wen Qing admired was Yan Jun, so he had never dared to reveal what was on his mind.

Knowing that the woman he had been protecting was actually admiring another man, and saying it out loud, that in itself was a cruel torture.

But Ben was not afraid at all. He thought that Yan Jun was already married, and that Wen Qing's thoughts had also been broken. Being able to return to Nevada with him meant that she was willing to let go of everything in the past and start a new life.

Therefore, he was more active in getting close to her and accompanying her, hoping that one day, she would be able to look back at him who had been following behind her.

However, he was wrong because Wen Qing had never looked back once.

He knew that the person in her heart was always Yan Jun..

Since she could not forget it no matter what, he could only help her and convey her heart to Yan Jun on her behalf.

Yan Jun's gaze that fell on Wen Qing's face suddenly froze.

Ben continued speaking "This year, she was in Nevada, eating, sleeping, and working, but her heart was always thinking of you. Yan Jun, perhaps she did not ask you to give her any identity at all. As long as she can be by your side, she will be satisfied."

What he meant was that they all knew that Yan Jun had a wife. As long as Yan Jun was willing, Wen Qing could compromise and live as a mistress.

Chapter 1150: pushed her to another man

Even though he knew that saying this would be a great harm to Xia Jinqi.

He still said it because he knew Wen Qing's love for Yan Jun..

This was a lowly love that was already as low as dust... ..

Yan Jun did not answer.

His black eyes narrowed slightly as he fell into a long silence.

Seeing that he did not refuse, Ben thought that it was really possible for him to accept such a suggestion. Who knew that after a moment, Yan Jun's unhurried voice would slowly be heard.

It was like the gentle breeze in the park and on the grass in spring... ..

"I have never thought of a woman other than Xia Jinqi."

He first opened with a sentence, completely rejecting Ben's previous suggestion.

Ben was slightly moved in his heart, but at the same time, he felt a trace of relief.

Although these words were said by him, if Yan Jun nodded and agreed, then it would be impossible for him and Wen Qing to be together for the rest of their lives. n./O\elb1n

Now that Yan Jun had refused, he could still have a little bit of hope.

However, just as his relief had not sunk into the bottom of his heart, Yan Jun's words came once again.

"We've been separated for so many years. I've changed, and so has she. Ben, what she cares about is just the happiness we had in school back then. She doesn't necessarily love me as much as I do now.

"If you really love someone, you should keep her by your side, protect her, and dote on her. You shouldn't push her to another man with your own hands."

Just now, Ben had gently coaxed Wen Qing to get an injection, and a man had looked at a woman with that kind of gaze. Yan Jun knew very well what that meant.

Even though he himself was also very surprised, because they had been together for so long, Ben had never shown any signs of liking Wen Qing.

Regardless of whether he had liked Wen Qing in the past or only liked her later, Yan Jun was happy for him.

“Do you think it’s better to be a nameless mistress by my side who is spurned by the world, or to be your rightful wife?” When Yan Jun said this, he had already raised his eyes and looked straight at Ben.

” ... ” Ben’s heart skipped a beat because of that sentence, ‘your wife’ .

He lowered his eyes and looked at Wen Qing who was lying on the bed. He sighed in his heart, “will she accept me?”

“that will depend on whether the two of you are fated to be together.” Yan Jun did not say too much. He just wanted Ben to muster up his courage.

As for how Wen Qing really felt about Ben, only she herself knew.

Ben Fixed his gaze on Wen Qing’s fair little face. After a long while, he smiled and nodded. “I understand.”

Yan Jun was right. He liked her so much, so of course he had to work hard to pursue her. How could he push her out with his own hands?

Seeing Ben like this, Yan Jun reached out and patted his shoulder. He almost cheered him on.

When Ben raised his head to look at him, he also smiled and let go. “thank you.”

Thank you for not letting her become your mistress.

Thank you for letting me know that I can also muster up the courage to pursue her love.

Yan Jun turned his head to look at Wen Qing one last time before getting up and preparing to leave. “take good care of her.”

However, as he took a step forward, he suddenly thought of something and asked, “Ben, can you figure out the exact composition of the neurotoxin that Wen Qing was poisoned with this time?”

“I’m already doing the experiment. I’ve also left a sample of the antidote just now. I’ll be able to deduce the composition of the various substances of the original toxin very soon,” Ben answered almost subconsciously.

Initially, he thought that Wen Qing would not be able to get the antidote, so he had been studying this toxin for the past two days in order to develop the antidote as soon as possible.
