

Trick Me 1781

Chapter 1781 this time... .. I want to solve it myself

Tan Zhuqing had to be respected a little in front of Yan Jun, but Xia Jinqi followed the seniority of the Xia family and addressed him as uncle. This made him extremely happy. He hurriedly stood up, took the tea, and said a few polite words "Little Qi, you're being too polite. This is my job to begin with. Don't worry, we two old men will definitely guard Yan Jun well for you!"

The smile on Xia Jinqi's face had yet to disappear when Xia Jitian, who was opposite her, said sourly, "for such a confidential matter, the first person Xiao Qi thought of was her uncle Tan. Even I, her biological father, am here to accompany her!"

As expected, Tan Zhuqing's expression became even more smug. He was praised to the skies, and his heart was filled with joy.

Xia Jinqi smiled embarrassedly and didn't say anything more. She found an excuse and quickly left.

Actually, her heart was as clear as a mirror. It was her father who had asked her to call Tan Zhuqing here... ..

However, her father's words did indeed make Tan Zhuqing's mood improve a lot.

This was the way of an official, and she was still not used to the smooth way of dealing with people... ..

As soon as she left the house, Ben, who had arranged everything, came looking for her.

"Is it over?" Ben glanced at the room behind Xia Jinqi and asked casually.

"Yes." Xia Jinqi nodded. She naturally knew Ben's intention for coming, but she was still a little worried. "How is Yan Jun?"

"His fever has subsided. I reckon he can sleep through the night. He'll be fine when he wakes up tomorrow morning." Before coming over, Ben had already gone to see Yan Jun. Now that all the experts in the city were watching over him, it was hard not to think about it.

On the other hand, Xia Jinqi asked hesitantly, "are you sure you don't want to wait for Yan Jun to wake up before making a decision?"

"There's no need." Xia Jinqi shook her head with a faint smile. "He's already worried about me a lot. This time... I want to resolve it myself."

Bi Yue was in her body, and she was the only one who could do anything. She didn't want Yan Jun to worry about her anymore.

Let him have a good sleep... ..

He was really too tired. n/.o-(v(-e.-I)(b(-l..n

Seeing that she had made up her mind, Ben didn't try to persuade her any further. He nodded and said, "then follow me."

Xia Jinqi immediately followed.

Passing by Yan Jun's ward, she glanced at the tightly shut door, and a smile naturally appeared on her face.

With him around, she was not afraid of anything.

No matter how hard the road ahead was, she would definitely be able to survive!

"..."

She changed to another warm small room.

The Chandelier on the roof was shining brightly, illuminating the room as if it was daytime.

Xia Jinqi sat on a recliner in the middle. The moment she opened her eyes, she was blinded by the disturbing light.

Ben sat on the small stool beside her, briefly giving her some key points "In a while, I will hypnotize you and guide you to meet Bi Yue. "I've discussed it with Alan. We don't know how long this brainwave can last. The only feasible method we know is for you to push her down the cliff. "If you can climb up the cliff, she might not. "If you can't get rid of her, you'll seal her at the bottom of the lake forever. "

Although the experiment Zhao Chongbin did was plagiarized from Alan's, Alan's actual experiment was that the female prisoner didn't snatch her body back. Instead, she died in deep despair.

Everything before had a reference object, but from the moment Xia Jinqi snatched her body back, this was a brand-new experiment. It was truly unprecedented and unprecedented.

Xia Jinqi nodded and was mentally prepared.

Chapter 1782: If she made a wrong step, it would be a bottomless abyss

"Of course, you don't have to be afraid. If necessary, I will enter your subconscious to help you. The worst case scenario is that Bi Yue takes control of your body again, and then you climb the cliff again..."
Ben was afraid that her psychological burden would be too heavy, so he teased her.

Actually, he didn't tell the truth.

If Bi Yue won again, after she was prepared, the possibility of Xia Jinqi waking up again was very slim.

But... If she didn't go into the Tiger's den, she wouldn't get the Tiger's cub ? ?

After hearing Ben's words, Xia Jinqi wanted to laugh, but she realized that she couldn't do so after the corners of her mouth twitched.

Using her bloody hands and feet to climb up such a high cliff, she had fallen countless times and persevered countless times. Only she herself knew the process.

If she could, she really didn't want to experience it a second time.

Thinking of this, Xia Jinqi took a deep breath. "Let's begin. "

The moment she finished speaking, Ben had already controlled a switch in his hand, and the Bright Chandelier on the roof was instantly extinguished.

Endless darkness rushed towards Xia Jinqi... ..

She thought that it was just turning off the lights, but who knew that her body would start to fall at this moment!

By the time she came back to her senses, she had already fallen into a patch of green grass... ..

After falling heavily, she actually didn't feel any pain.

Forcing herself to stand up, Xia Jinqi dusted off the dust on her body, then looked up at the blue sky above her, and suddenly smiled.

Ben's hypnotism was really an eye-opener... ..

No wonder she had felt strange when she entered the house previously. Weren't hypnotizing places usually very dim?

Ben Just had to make such a dazzling light. It turned out that he had been hypnotized from the moment she entered the room.

Just as she was thinking, a gust of wind suddenly blew by her ears. Xia Jinqi snapped back to her senses and turned her body sideways to dodge Bi Yue's hand knife that had suddenly jumped out from behind her.

This... This was the Bi Yue who had knocked her off the cliff earlier ! !

Xia Jinqi instantly felt the alarm go off, and every cell in her body entered a combat state.

She repeatedly dodged Bi Yue's attack without any moves at all. Just as she was thinking of a countermeasure, Ben's reminder suddenly rang in her ear, "don't be afraid! Even if you're beaten up in this world, you won't get hurt. Think of all ways to push her off the cliff! "

Hearing this, Xia Jinqi steeled her heart. She focused her beautiful eyes and began to attack!

Having learned moves, her attacks were much more imposing than Bi Yue's. Without even using her full strength, Bi Yue was already beaten back by her.

Just as she was about to reach the edge of the cliff, Bi Yue suddenly exerted force. She grabbed Xia Jinqi's arm and pulled her back forcefully!

"SH * T! She must have known that if she fell, she would never see the light of day again. That's why she was so desperate! " Ben's voice sounded again, filled with shock and anxiety.

Xia Jinqi had also noticed it, but facing Bi Yue who had suddenly become stronger, she began to struggle.

"You want to push me down as well? " The expressionless Bi Yue suddenly asked coldly.

Xia Jinqi was slightly shocked. She had thought that this Bi Yue was just a puppet and could not speak at all. She did not expect that she would actually speak now?

“also? This was originally my territory. You barged in here without permission, and you want to steal everything from me?” Xia Jinqi looked at her coldly, and her hands tightened.

When she thought of how this person had mercilessly stolen her body, she couldn't help but feel angry!

“Humph, let's see who can stay!” Bi Yue's expression sharpened. After saying those harsh words, she turned around and hid behind Xia Jinqi, exerting more strength towards her lower back! At this moment, in front of Xia Jinqi was the familiar cliff.

If she took this wrong step, it would be a bottomless abyss.

Chapter 1783: He didn't dare to say anything to you

As for Xia Jinqi, she wasn't in a hurry. She had already expected Bi Yue to use all her strength, so she had left a gap behind her.

At this moment, she calmly dodged quickly. Bi Yue didn't have a point of strength in her hand, so she rushed forward due to inertia!

The moment she was about to fall off the cliff, a white light flashed around her body. Her originally expressionless face disappeared, and what replaced it was a vivid and delicate face full of fear.

“Ah! !” Even her scream was different from the person just now.

Xia Jinqi suddenly realized something. Without thinking, she reached out and grabbed Bi Yue.

Seeing this, Ben's heart tightened. He almost couldn't control himself and cursed out loud! He was about to succeed, but who knew that Xia Jinqi would do this?

But just as Ben opened his mouth, he saw Bi Yue, who was grabbed by Xia Jinqi, crying helplessly.

“Save Me... save me!”

Xia Jinqi held her hand tightly again.

Ben Shouted, “Don't believe her! If you save her, she'll push you down in the next second!”

However, Xia Jinqi narrowed her eyes as if she had other thoughts. “She's not the Bi Yue from before.”

“What?” Ben couldn't understand what Xia Jinqi was saying at all... ..

In just a moment of absent-mindedness, Xia Jinqi had already pulled Bi Yue up.

Ben came back to his senses and only said two words, “it's over.”

Unlike him, Xia Jinqi only looked indifferently at the woman who had fallen to the ground and was gasping for breath.

If she was not mistaken, the fierce Bi Yue created by Zhao Chongbin had disappeared. The current Bi Yue was the real and gentle Bi Yue.

In the next second, Bi Yue finally came back to her senses and looked at Xia Jinqi in confusion. “Jinqi? What happened to me?”

As expected. Xia Jinqi curled her lips. Everything was as she had expected.

Ben was stunned. He did not understand why Bi Yue had suddenly changed.

“Don’t you remember what happened before?” Xia Jinqi asked as she looked into her clear eyes that were devoid of killing intent.

Bi Yue tried her best to recall. “I remember... I think I saw Yi Ming. He... He was imprisoned?”

“It seems like he didn’t dare to tell you anything.” Xia Jinqi’s lips curled into a smile as she slowly told Bi Yue everything that she knew.

From the day Bi Yue died, she had been telling Bi Yue everything from this moment until now.

This included everything that Lu Yiming had done, including selling children and training them to be death warriors, maliciously killing all those who did not obey him, and the countless lives that he had stained with his hands.

Of course, there was also the last brainwave transplant technique that used living people as an experiment.

As a victim, Xia Jinqi knew the pain and helplessness better than anyone else.

Time passed by minute by minute, but the world that Xia Jinqi and Bi Yue were in did not change at all. It was as if time had been fixed.

After listening to all of Xia Jinqi’s accounts, Bi Yue was on the verge of breaking down.

However, her last bit of rationality made her unable to believe that all of this was real, so she began to shake her head “That’s impossible. You lied to me. Yiming would never do such a thing! And you said that it was fifteen years ago? Has it been fifteen years? But I’m still the same as before. There’s no change at all!”

Xia Jinqi continued to stare at her. She was not anxious and slowly opened her mouth. “has nothing really changed? Your appearance and Lu Yiming’s appearance. Don’t you think that he’s much older?”

Chapter 1784: didn’t wait for him, so how could she leave first?

Bi Yue was stunned.

Xia Jinqi was facing her. As long as she looked up, she would be able to see Xia Jinqi’s face clearly.

Only then did she realize that the face in front of her was exactly the same as the face she saw in the mirror earlier... ..

This was exactly what Xia Jinqi said. Her body had been stolen... ..

And Yi Ming... .. Bi Yue’s expression suddenly changed after recalling it carefully ...

Indeed, the first time she saw him, she felt that he had aged a lot.

Could it be... .. could it be that everything that Xia Jinqi said was true ? ?

Just as Bi Yue's heart wavered, Xia Jinqi gave her an even more tempting suggestion.

"If you don't believe me, you can go see for yourself and ask yourself. "

"How do I ask? " Bi Yue frowned. Right now... .. She didn't even know what kind of creature it was ...

Xia Jinqi looked straight into her eyes. "I can lend you my body. The condition is that after you see everything clearly, you have to leave on your own accord. "

"... "

Before Bi Yue could answer, Ben shouted like he was going crazy, "No! What if she has evil intentions? "

However, Xia Jinqi smiled, like an ice lotus blooming on the peak of a snowy mountain. Her ice-like muscles and jade-like bones were cold and resolute. "At worst, I'll climb the cliff again. "

She took the words that he had comforted her previously and turned them back to comfort him.

Ben was stunned.

Xia Jinqi did not explain further. Instead, she quietly waited for Bi Yue's reply.

Actually, she did not think highly of the proposal that Ben had given her previously.

Pushing Bi Yue off the cliff and sinking into the Black Lake was not a foolproof plan.

After all, things were hard to predict, especially for a complicated creature like humans. Who knew when Bi Yue would climb up from the cliff and cause such a scene.

Therefore, the moment Xia Jinqi saw the expressionless Bi Yue disappear, she had an idea.

Instead of burying this brain wave that did not belong to her deeply, why not... .. Let her leave willingly ...

And this willingness was to let her end things with Lu Yiming.

When she found out that the person she loved was actually such a person, she definitely wouldn't have any lingering obsession... ..

As for Lu Yiming, letting him die was already letting him off easy.

Only by being spurned and criticized by the person he loved could he be completely defeated... ..

Killing him with one shot was far less profound than the torture of the soul.

In this way, this could be considered as the best of both worlds. Of course, the prerequisite was that Bi Yue was willing to cooperate and was a person who kept her word.

"If you're not willing, then I can only expel you. This is originally my body. Your sudden appearance is not only a great harm to me, but also to my family. " Xia Jinqi saw that Bi Yue hadn't made a decision for a long time.. She then opened her mouth to provoke her.

Hearing this, Bi Yue finally regained her senses.

There was an additional layer of apology in her eyes as she looked at Xia Jinqi.

"I'm sorry. If what you said is true, I won't take over your body." She smiled bitterly and spoke with extreme force.

It seemed that what Xia Jinqi said had stimulated her quite a bit.

What was the reason why she could survive for fifteen years with the help of the machine?

It was just that unborn child of hers and the man she loved... ..

She had promised to cook for him at night and wait for him at home. n/-~~O~~/-v-/e--~~L~~(b-.l/)n

How could she leave before him?

But now, the person she loved so deeply committed such a sin for her... ..

"I want to meet him. "

Chapter 1785: What exactly was she planning in her heart

No matter what, she still wanted to see him.

"okay, but you only have one night. I'll get my body back before dawn tomorrow morning." Xia Jinqi's attitude wasn't good, but it wasn't very unyielding either.

Bi Yue nodded slightly. One night was enough... ..

After the two of them made the deal, the exchange ended.

It went more smoothly than expected... ..

When Ben ended the hypnosis, he took a look at Xia Jinqi who was lying comfortably on the grass, enjoying the scenery.

Her exquisite face, which looked like it was carved out of white jade, revealed an unusual calmness and calmness.

He did not know what she was planning in her heart, which was why she had such great talent and ambition, daring to do things that ordinary people did not dare to do.

However, this point was somewhat similar to Yan Jun..

Only by breaking the cauldron can one sink the boat.

These two people were brave and resourceful, and both of them dared to do it.

Since things had come to this point, it was useless for him to say anything more. He could only press the remote control in his hand again.

Click! The bright light instantly lit up the small space.

At the same time, the woman who was lying on the chair also woke up.

When she opened her eyes, her eyes were also narrowed by the bright light above her head. She frowned slightly, as if there was a hint of sadness mixed in... ..

That hint of sadness was undoubtedly Bi Yue.

"I. . ." She opened her mouth and looked at Ben in confusion. "Why did you lie to me and say that I had an accident, and you changed my face for me? "

"If you don't say that, can you accept it?" Ben Asked in return. His attitude was dry and not particularly good.

After all, he had known Summer before. To him, Bi Yue was just a Cheng Biaojin who came out of nowhere and almost killed his friend. How could he be polite?

But after he said it, he was afraid of provoking Bi Yue, so he added, "Yan Jun didn't want you to hurt this body, so he simply did what you wanted. "

"..."Bi Yue was surprised.

Even now, she couldn't guarantee that her emotions would be stable at all times, not to mention how she would react when she woke up and found out that she had changed into a new body?

It was possible that she would go crazy on the spot.

The concession that Yan Jun made to protect Xia Jinqi indirectly saved Bi Yue.

After following Ben out of the room, Bi Yue went to the bathroom first.

Standing in front of the mirror once again, she carefully looked at herself, but her heart gradually turned cold.

Previously, she had been thinking about Yiming, but she had not been able to calm down and think properly... ..

If it had been plastic surgery, there would definitely have been marks on her face, but the face in the mirror was perfect and flawless.

Even her height and the size of her clothes were different from before.

Not to mention, she had never been able to feel the pain... ..

She walked out of the bathroom in a daze. Before she could figure out what she was going to do next, a group of people walked over.

The leader was a middle-aged woman with a baby in her arms.

The woman looked at her and shouted happily, "Jinqi! You're finally back! "

Bi Yue's legs froze when she heard her voice. The baby in the woman's arms poked its head out and immediately cried out when it saw her, "Mommy! Mommy! "

Bi Yue saw it at a glance. It was an extremely delicate-looking doll with big round eyes that looked like black grapes. It looked a little... .. Familiar ...

Chapter 1786 shamelessly took over everything

When they got closer, Bi Yue remembered that this girl doll looked very similar to Xia Jinqi?

As she thought about it, the girl doll had already stretched out two short, fat arms towards her, crying like a baby. "Mommy, give me a hug! "

It had been a few days since poor Xiao puff had seen her parents and brother. Even though there were great-grandparents and grandparents in Qingxin Garden, there was still something missing.

Ji Xinyu received the news that Yan Jun was sick, so she quickly carried her granddaughter over.

Who knew that she would bump into Xia Jinqi the moment she arrived? Her heart immediately relaxed.

However, they didn't know that the person in front of them was Bi Yue.

Bi Yue stared blankly at the child in front of her, who was crying and wanted to be carried by her. She opened her mouth to tell her that she wasn't her mommy, but before she could say it, Ji Xinyu had already sent Xiao puff into her arms.

Thinking that she hadn't seen the child for too long, Ji Xinyu comforted her by the side, "Xiao puff has been wanting mommy every day for the past two days. Look at how smooth her words are! " Bi Yue did not even have the chance to refuse. Her arms sank.

She had only been pregnant before and had never taken care of a child before. She had only carried her cousin's child a long time ago. Other than that, she had no experience at all.

At this moment, a soft and cute creature suddenly appeared in her arms. Her limbs stiffened and she did not know what to do.

However, this child kept jumping into her arms. "Mommy, SOB SOB SOB..."

Her natural motherly love was triggered in an instant. Bi Yue subconsciously caressed her back and her heart softened.

Ji Xinyu, who was beside her, did not notice anything strange. She asked anxiously, "have you found Yu Han? "

"..."Bi Yue felt as if she had been struck by lightning.

Xia Jinqi had said that she had given birth to a pair of dragon and Phoenix twins, and the older one was her brother... ..

She had also said that the older one had been lost because of Lu Yiming, and his whereabouts were still unknown.

Bi Yue had originally been skeptical of these words. After all, Xia Jinqi was the one who said everything. Without any evidence, she naturally would not easily believe it.

But now... ..

The child in her arms was so real that the middle-aged woman in front of her also asked about Yu Han's whereabouts... ..

Even if she wanted to find someone to act, she would need time to prepare, right?

Bi Yue bit her lower lip tightly. She probably already knew something.

Perhaps, Xia Jinqi was not lying... ..

She really stole Xia Jinqi's body and shamelessly took over everything.

And the person who caused all of this was none other than the man she had been longing for and had loved for her entire life!

Thinking of this, Bi Yue hurriedly handed Xiao puff back to Ji Xinyu and walked down the stairs quickly.

What started off as a brisk walk slowly turned into a jog, and in the end, she sprinted away.

Xiao puff had yet to receive her mother's comfort. She didn't know what had happened, but she suddenly lost sight of her mother and immediately burst into tears. "Wah! ! !"

Ji Xinyu was also flustered. She didn't know what had happened to Xia Jinqi and wanted to chase after her. However, her obedient grandson in her arms was crying so much that his face was red. She could only console him. "Alright, alright, Xiao Puff, stop crying. Mommy must be in trouble... stop crying, stop crying."

Bi Yue, who had run to the corner in one breath to wait for the elevator, panted slightly. Tears flowed uncontrollably from her eyes.

The child's cries were all denouncing her despicable act of stealing someone else's body!

Chapter 1787: When The Sun Rises, it's time for you to leave

Ben Walked over from behind. When he saw Bi Yue blaming herself, he let out a sigh of relief.

He was originally worried that Xia Jinqi's risky move would lead to a complete loss.

But now, it seemed that Bi Yue's heart was still kind.

"The family that was originally fine is now dead, injured, and lost. There's not a moment of peace." Ben Sighed and deliberately told Bi Yue these things.

Bi Yue's pained expression instantly turned into shock, and then it turned into a deeper and more intense pain and pain... ..

She really couldn't believe that all of this was caused by Lu Yiming alone.

Suppressing the violent fluctuations in her heart, she bit her lower lip for a moment before asking, "Yiming, where are you now?"

She spoke slowly, without much fluctuation, but even so, it still made Ben feel a little hysterical.

“It’s at the villa where you met before,” Be answered calmly, her gaze never leaving her face, paying attention to every minute change in her expression.

Putting aside the fact that the slightest change in her state of mind might threaten Xia Jinqi, from an outsider’s point of view, this was also a rare experimental material. If she could observe it completely, it would be a significant contribution to clinical psychology in the future. . . .

“This is the money and phone. The phone has the location of the villa. You still have an entire night. You can go anywhere you want to go, but remember, when the sun rises, it’s time for you to leave.”

Bi Yue took these things stiffly and smiled bitterly. “thank you.”

Her mind was indeed in a mess. She needed to be alone for a while.

She turned around and walked out of the building. Her footsteps were also very fast.

Ben Did Not follow her immediately. Instead, he waited for her to walk further away before he quietly followed behind her.

The phone had a location on it. It was not to the extent that he would lose track of her.

On the contrary, he wanted to give Bi Yue enough time to fulfill her wish so that she could leave without any worries.

“...”

Walking out of the hospital in a daze, Bi Yue stood on the busy street and looked at the people coming and going. She suddenly didn’t know where she should go.

She didn’t recognize the road here anymore.

Fifteen years had really changed a lot.

She stood there for about three to four minutes before a family of three passed by.

Her daughter was in the middle, holding her parents’ hands on her left and right. The three of them were wearing thick cotton clothes with smiles on their faces.

“Dad, what do you want to eat? I just got paid, I’ll treat you and mom to a good meal!” Her daughter was filial. As she spoke, she stopped to help her father tidy up his scarf.

Before the father could speak, the mother said sourly, “you little heartless person. You only ask what your father eats and not me?”

“Aiya! MOM, you’re even jealous? Then what do you want to eat!” The daughter was embarrassed.

The father laughed loudly at the side. “HAHAHA! I say, daughter and I are closer!” n.-Ove?In

It was a simple and unadorned conversation. It was just some family gossip, but it made bi Yue’s eyes turn red from listening to it.

The tip of her nose was slightly sour. She missed her parents too.

She was the only daughter in the family and did not give birth many years ago. Her parents were both teachers, so she was the only child.

She had been away for so many years, so how were they going to live... ..

Wiping the corner of her eyes, Bi Yue took a deep breath and took a taxi on the street. She reported the neighborhood that she was familiar with in her memory.

The driver was slightly older, and he had grown up in Rao city, so he knew the place that Bi Yue mentioned, but he still said hesitantly, "Miss, that neighborhood was renovated more than ten years ago, and now it's a movie city."

Chapter 1788: It's so good to see you safe!

"Has it been remodeled..." Bi Yue was stunned. She suddenly didn't know where to find her parents.

"Yeah, one of my uncles used to live there. He demolished three houses next to the city park." The driver was very enthusiastic and asked, "Miss, are you here to seek refuge with your relatives? Why don't you try your luck in the neighborhood next to the park?"

Bi Yue didn't have anywhere to go. Hearing the driver's words, she more or less had a direction, so she nodded. "Okay, sorry to trouble you."

"Hey, it's no trouble. We sports cars often meet people who come from other places to look for their relatives..." the driver said a lot of things on his own.

Bi Yue occasionally responded, but most of the time she was alone staring at the tall buildings outside the window, the lights shining brightly.

She couldn't help but frown. In the past... .. Were there so many tall buildings here ??

She couldn't remember it clearly.

She couldn't remember many things in the past.

After a twenty-minute drive, Bi Yue was sent to the front door of a small community.

When she got off the car, the driver was very enthusiastic and told her to ask the doorman. She might be able to find someone.

After thanking him, she got off the car and stood in front of the new high-rise building, lost in thought again.

In her memory, her parents' house was divided into units. It was a small building with a few floors. The neighbors got along well with each other and it was lively, but the things in front of her... ..

While Bi Yue was lost in thought, a few young girls who walked past her looked at her a few times before whispering something. In the end, they walked directly to her side and asked in a low voice, "hello, are... are you Xia Jinqi?"

Bi Yue subconsciously looked over. Before she could say anything, another girl was so excited that she almost shouted out, “it’s really you! Why are you here? SOB, SOB, I like you and Speaker Yan so much!”

“Yeah, yeah, it’s so good to see you safe!”

“WE’RE ALL YOUR FANS! You have to work hard!”

“...” Bi Yue was completely stunned.

Facing so many fanatical fans, she felt extremely unfamiliar and terrified.

Because they were talking about Xia Jinqi and Yan Jun, and she... .. was just Bi Yue ...

“I...” She opened her mouth, but she realized that she couldn’t say a word.

The discussions that were getting more and more intense by the side came at her from all directions.

“during the previous riot, my mother was also at the scene. Although she was only slightly injured, she said that at that time, it was fortunate that Speaker Yan personally came to the scene and arranged for a lot of medical personnel to come over and save a lot of people!”

“I also saw the news. I heard that the medical personnel, medicine, and temporary accommodation for the victims were all paid out of Speaker Yan’s own pocket!”

“Speaker Yan, that’s great!” “I thought that with such a big incident, our city would definitely be in chaos!” “But I didn’t expect that on the second day, except for the heavily-hit areas, all the places had resumed normal traffic. The water and electricity were also repaired at the first opportunity!”

It could be heard that these people said these words from the bottom of their hearts.

It was also because of Yan Jun’s good deeds that more people knew about the Yan family and Xia Jinqi.

Bi Yue was in a daze when someone next to her snorted. “exactly! With such a big incident, who knows where the President Lu Yiming who was supposed to be chosen went! I didn’t even see him show his face!”

As soon as she finished speaking, someone immediately said, “SHH! Stop talking! I heard that they found out that he was the culprit in the valley’s skeleton case. He was caught at that time, and then there was a riot on the way, so he got away!”

Chapter 1789: The clown who stole other people’s clothes

“No way...”

“It’s true! My Dad is in the criminal police unit! He said that he would never have thought that Lu Yiming was such a man with a beast’s heart!”

Hearing this, Bi Yue’s body stiffened, and her face turned Pale.

She remembered that when she saw Lu Yiming, he was covered in injuries and said that he was imprisoned. He even wanted to use her hand to kill Yan Jun... ..

He said that it was Yan Jun who imprisoned him.

But here, everyone was praising Yan Jun. even his wife was praised.

If he wasn't a truly great person, how could he be treated like this?

On the contrary, Lu Yiming was now cursed by everyone. He was definitely a great evil. No matter how hard she tried, she couldn't wash him clean.

Right and wrong, good and evil, seemed to have been decided.

After that, more people stopped to watch. They even started to ask Bi Yue for her autograph.

She really couldn't accept all the glory that should have belonged to Xia Jinqi. She could only find an opportunity to escape from the crowd.

She sprinted all the way until she left the group of people far behind her. Only then did she dare to stop for a moment and gasp for breath.

At this moment, she was like a clown who stole other people's clothes. She was so ridiculous and comical... ..

In the distance.

Ben Leaned against a big tree and watched bi Yue's every move from afar.

At this moment, his opinion of Bi Yue changed slightly.

If a person with evil intentions encountered such a situation, they would definitely gladly accept everything that should not have belonged to her.

However, Bi Yue found it difficult to accept... ..

This at least showed that she still had a kind heart and a righteous path in her heart.

He began to understand why Xia Jinqi would make such a decision.

Bi Yue stayed where she was for a long time before she pulled herself together again. She found many people to inquire about her parents'situation.

Fortunately, there were many people who moved back to this neighborhood. After asking a few more families, she asked about the neighbors who used to be close to her parents.

After receiving guidance from the neighbors, Bi Yue said that her parents had both retired. When they had nothing to do at night, they would go for a walk in the park next door. After sitting in front of the small pond for a few hours, Bi Yue hurriedly went to the park next door.

The municipal park had been there since Bi Yue was born.

After so many years, it had been slightly expanded, but the original rough plan was still preserved.

The small pond was bi Yue's favorite because there were many ornamental Koi fish in it. As long as people threw fish food in, groups of Koi fish would immediately swim over and compete for the fish food. That scene.. Was especially spectacular.

It was already late, and there were not many people in the viewing area. Looking from afar, there was only an old woman with white hair sitting on a stone bench in a daze. Her eyes were staring straight into the pond. She did not speak or move, like a statue.

When Bi Yue arrived, she recognized the old woman at a glance.

“Mom...” she called out softly in surprise because in her memory, her mother wasn’t that old, and her hair wasn’t that white... ..

At that time, her mother liked to comb her hair, saying that she liked to be more energetic.

But now, her hair was disheveled and messed up by the wind.

But other than that, her mother’s facial features hadn’t changed. There were only more wrinkles, and her skin color had darkened.

In just fifteen years, she could make a person age so much.

Bi Yue bit her lower lip. She remembered that when she was young, she would always come here with her parents and make a racket to buy fish food.

At that time, she was only eleven or twelve years old. She liked to wear a double ponytail and a floral dress.

At that time, her parents were healthy. There were no wrinkles on their faces. They were in their prime.

Chapter 1790 dying in this world was already against Heaven’s will

After a while, a hunched uncle walked over from behind and just happened to pass by Bi Yue.

He walked to the woman’s side and sat down. He gently smoothed the silver hair on her temples and sighed. “The wind is rising. Let’s go back. “

The woman shook her head and continued to gaze at the water with infatuation.

“Ever since the day Yue’er died, you’ve been coming here every day for a few hours. I really don’t know if it’s right or wrong to move here...” the man’s face was also filled with loneliness and desolation.

He was not even 60 years old, but from his appearance, he already looked like a 70-year-old man.

His wife’s head turned white overnight. From then on, she was in a trance and did not want to eat or drink. She was a completely different person.

The disaster 15 years ago had completely changed their originally happy little family... ..

Bi Yue looked at her parents from afar who did not look the same as her own age. Tears instantly filled her eyes... ..

“Dad, mom, it’s all the daughter’s fault for being unfilial...” she muttered. She wanted to rush up and throw herself into her mother’s arms, wantonly crying.

But just as she moved, her father had already helped her mother stand up and was walking towards her.

Her eyes were hazy with tears as she stared deeply at them, her expression sorrowful.

But her father and Mother did not look at her anymore, as if she was just an unimportant passerby.

The moment they walked past her, her heart felt as if it was being torn apart.

Tears silently fell.

When they were far away, someone beside them actually sighed.

“This old couple is really pitiful. After the death of their only precious daughter, their days are getting more and more miserable. “

“Sigh, it’s really sad to see someone die before you. “

Bi Yue’s tears fell even more quickly after she heard that.

She turned around and chased after the two of them, but she was choked with sobs and couldn’t say a word.

Her father and mother looked at her in surprise, but their eyes were completely unfamiliar and guarded.

“Are... are you okay? “

“...”Bi Yue didn’t dare to say anything, but she couldn’t stop her tears.

When the old couple saw her like this, they hastened their steps in fear, afraid that they would be entangled by such an inexplicable person.

Bi Yue was finally left on the spot.

“Dad, mom...” she sobbed as she called out to them, but they avoided her like snakes and Scorpions.

The time when the family gathered together when they were young resurfaced in her mind. She really regretted not being able to spend more time with them and take care of them... ..

Unfortunately, the past could never be found again, and she... .. was already a dead person fifteen years ago ...

Dying in this world was already against fate. How would they dare to recognize them?

They were afraid that the surprise would scare them.

Hence, they could only silently follow behind them and watch as they safely returned home. She refused to leave and stayed downstairs for a long time, staring into space alone.

Ben Still did not go up to disturb them. What he did not expect was that Bi Yue’s first person to look for was actually her parents.

He thought that she would look for Lu Yiming immediately.

After all, half of the night had already passed.

While he was trying to figure out Bi Yue’s thoughts, the phone in his pocket vibrated.

He instinctively took it out and took a look. He was so scared that his hand trembled and he almost dropped his phone!

Why would he call at this time? ? ?

In his astonishment, he quickly picked up the call. "Hello? "

"where did you bring Ah Jin? " Yan Jun's deep and slightly hoarse voice came from the phone, carrying a hint of anger.
