

## Trick Me 991

### Chapter 991: Mr. Xia really has a good eye

She didn't eat that Big Table of delicacies just now, but came to the kitchen to eat egg fried rice?

.. It was a bit of a mystery.

Xia Jinqi was in the middle of eating when she looked up and saw Ji Yunjing staring at her in astonishment.

She took the initiative to invite him. "cousin, do you want to eat some?"

"You didn't eat just now?" Ji Yunjing walked in.

"I was so scared that I didn't even take a bite. Now that I've relaxed, I'm suddenly so hungry." Xia Jinqi said simply and took the opportunity to look at Ye Qinghuan, who was Ji Yunjing. She was a little puzzled. "Qinghuan also said that she doesn't want to eat. Why don't you send her back first, cousin?"

Hearing that, Ji Yunjing turned back to look at Ye Qinghuan behind him. His gaze deepened.

Ye Qinghuan sensed his gaze and hurriedly lowered his head. His little face was slightly red as he stood at the side.

After hesitating for a moment, Ji Yunjing asked Xia Jinqi, "what about you?"

"I'm not full yet..." Xia Jinqi smiled embarrassedly. "You guys can leave first. There are so many people here. Don't worry about me."

As she said that, Xia Jinqi looked at the bodyguards behind her.

She was now publicly known as the chairman. There were more people protecting her at close range than when she was in Rao city.

Even though Xia Jinqi didn't like the feeling of being surrounded by so many people wherever she went, she had to get used to the feeling of being protected as soon as she removed her bodyguards.

Ji Yunjing thought for a moment before nodding. "Go home early. Don't let GRANDPA worry."

"GOT IT!" Xia Jinqi smiled knowingly as she felt the warmth of family.

Ji Yunjing smiled as well, turned around, and left with Ye Qinghuan.

After the two of them left, Xia Jinqi continued to eat. n0Ve-lb(In

However, this time, her movements were clearly much slower. As she ate, she looked at the woman who was wiping the stove not far away.

It was the beautiful woman she saw just now.

When she brought Ye Qinghuan downstairs, she accidentally saw this woman enter the kitchen. Xia Jinqi followed her and said that she was hungry, so she asked the kitchen to prepare some food.

At that time, only this woman was present. After fiddling with it for a long time, she brought out this plate of Egg Fried Rice.

"I've long heard that the famous dishes in Lido restaurant are well-known. From the head chef to the apprentice who picks the vegetables, they can all bring out first-class cooking skills. Why do you only know egg-fried Rice?" Xia Jinqi said indifferently, breaking the silence in the room.

Obviously, Xia Jinqi asked her to cook for herself not because she was really hungry, but because she wanted to test her and see if she was really helping out in the kitchen.

When Bai ran, who was worrying about how to escape, heard this, she slightly raised her beautiful eyes and met Xia Jinqi's gaze without fear.

She put down the work in her hands and began to undo her apron. "Mr. Xia really has good eyesight."

These words could be considered as admitting Xia Jinqi's suspicion.

The Moment Bai ran opened her mouth, the bodyguards who were guarding beside Xia Jinqi immediately pulled out their guns and pointed them at Bai ran's head.

The atmosphere instantly reached a climax!

Bai Ran swept the room. The five bodyguards were all strong and strong. She was alone, so it was impossible for her to escape unscathed.

However, she was currently on the second floor, and behind her was the window.

If she could dodge these people's bullets and escape through the window, she might still have a chance of survival.

However, the moment she quickly prepared her countermeasures, the handsome youth opposite her gently raised his hand. "All of you, stand down."

Bai Ran, "..."

The bodyguards seemed to hesitate. "Chairman..."

## **Chapter 992: doesn't want to see you**

"STAND DOWN!" Xia Jinqi lowered her voice and shouted.

Only then did the bodyguards all retreat out of the door.

Bai Ran didn't understand what the youth meant, so she quietly approached the window.

"Mr. Xia, what do you mean?" Shee asked.

Xia Jinqi was still sitting in the same spot, her hand still holding the spoon. She continued to stir the remaining rice and calmly asked, "are you a member of the Bai family?"

"..." when Bai ran heard this, she raised her eyebrows slightly, and a hint of surprise appeared on her beautiful face. "You already knew?"

Hearing her question, Xia Jinqi knew that she was right.

“Cousin said that Bai Jiutian’s granddaughter, Bai Ran, is from Sanjiang city. Sanjiang city loves a mouthful of fresh food. There are salted shrimps in the egg-fried rice, ” Xia Jinqi said as she picked out the shrimps from the fried rice and started to play with them in amusement.

Bai Ran was slightly stiff and in disbelief. “You’re sure that I’m Bai ran just because of this? ”

Just because there were a few shrimps in the egg-fried Rice Wasn’t that too hasty?

“Of course it’s not just these. ” Xia Jinqi smiled and shook her head. She took out her phone, and it showed the information she had just checked, along with a photo of Bai ran “I remember seeing you at the gate of Pujing Grand Entertainment in the afternoon. You and your son were staring at the sign at the entrance of the Casino in a daze. Most people wouldn’t even pay attention to it, but you were very concerned about it. “I saw you at the dinner just now. When I came out, I conveniently checked the Bai family’s information. “Miss Bai, do you have anything else to say? ”

This analysis was very logical, directly digging out Bai ran’s identity.

Since that was the case, Bai ran naturally had nothing to hide.

She curled her lips and smiled faintly. “Mr. Xia is right. No wonder the rumors say that Lego’s chairman is a genius youth. ”

Xia Jinqi raised her eyebrows. Seeing that this woman’s identity had been exposed on the spot, but she didn’t panic in the face of danger, she wasn’t afraid at all. She was definitely not an ordinary person.

Bai Ran indeed didn’t have anything to be afraid of. The people she brought were downstairs. As long as she shouted for help, no one would be able to escape!

However, she didn’t come to look for Lego’s leader this time to pick a fight. She wanted to resolve the misunderstanding between her ancestors many years ago and drag that traitor back.

As she thought about it, Bai ran asked, “I know my request is a little presumptuous, but Mr. Xia, can you take me to see old master JI? ”

“You want to see my grandfather? ” This was a little unexpected.

“Yes. My grandfather’s health has been getting worse in recent years, and he can’t go far away. But he told me to meet old master JI in person. ” Bai Ran nodded and her tone softened.

She couldn’t explain why she had a favorable impression of this youth whom she had only met once.

Suddenly, she wanted to discuss it with her.

Perhaps, there was no need for things to be so tense.

However, Xia Jinqi was a little stumped. “I’m afraid grandfather doesn’t want to see you... ”

Xia Jinqi could not help but laugh when she thought of the signboards that were still placed at the entrance of the casino.

Grandfather had really been angry for many years.

If he were to take the liberty to meet the Bai family again, she did not know if he would lose his temper and turn the world upside down.

Bai Ran knew that the Ji family would definitely not meet her easily, so she could only throw out some harsh words first “Zhuo Ning stole the core secrets of the Bai family. He knew that we would not let him off, so he fled to Macau. He knew that the Ji family had a grudge against the Bai family, so he deliberately hid in the casino. “If old master Ji is unable to settle this matter, the Bai family will definitely not let it go!”

### **Chapter 993: aren't you afraid that I'll kill you?**

Xia Jinqi had heard from Ji Yunjing that Zhuo Ning was here to seek refuge.

She didn't know if her grandfather knew about the entanglement in this matter. If the Bai family were to really make a move, both the Ji family and the Bai family might suffer heavy losses.

Thinking about it carefully, Zhuo Ning was probably the only one who would benefit from this outcome.

In addition to the Bai family's matter, she couldn't drag it out like this. Since her granddaughter wanted to come and reconcile, she couldn't refuse.

No matter what, they still had to talk first.

After a moment of contemplation, Xia Jinqi nodded solemnly. “follow me.”

When Bai ran heard this, she was slightly surprised. She did not expect this youth to be so easy to talk to?

When she came, her grandfather had told her that the old man of the Ji family was a stubborn fellow who was about to become a demon. If she could say something, she would say it. If she could not say it, she would directly attack him.

She had thought that the Ji family was very stubborn. It seemed that this youth was an exception.

Xia Jinqi did not ask further. She brought Bai ran downstairs.

Just as they reached the door, they heard a whooshing sound. “MOMMY!”

Xia Jinqi hadn't turned around when she saw Bai ran running over from behind. She hugged a delicate-looking little boy in her arms. “Che Er? Why are you here?”

“Che ER MISSES MOMMY...” n)-OvEℓB1n

A few men in black jackets followed behind the little boy.

Bai Ran waved them off.

“Mommy misses you too.” Bai ran kissed her son on the forehead and carried him over. She introduced him, “Che Er, call me uncle.”

“Uncle... ” Quan Che said sweetly. His big black and white eyes stared at Xia Jinqi with a smile on his face. “Uncle is good-looking...”

Xia Jinqi was actually a little embarrassed to be praised by two children for being good-looking in a row. She reached out and touched his little head. “You’RE CHE ER, right? How old are you?”

“three and a half years old!” Quan Che answered crisply. He didn’t seem to be a stranger at all.

“Che Er, let’s go to uncle’s house as guests tonight, okay?” When Bai ran spoke to her son, her voice was especially soft and motherly.

“Okay, okay!” The little guy was so happy that he almost danced with joy.

Xia Jinqi smiled as well and invited the mother and son to get into the car.

After the car door closed, Xia Jinqi asked Bai ran, “aren’t you afraid that I’ll do something bad in the dark?”

She actually brought her son with her... ..

Bai Ran smiled and shook her head. She lowered her head and Patted Che Er’s head. Her Bright Eyes sparkled. “If you want to do something bad in the dark and kill us both, you wouldn’t have sent your cousin away in advance.”

Bai Ran knew that Xia Jinqi had discovered her true identity a long time ago. Based on the situation at that time, Xia Jinqi could have told Ji Yunjing that the brother and sister would work together to capture her.

However, Xia Jinqi did not.

Not only did she send Ji Yunjing away, but she had also asked the bodyguards to leave.

From this, it could be seen that she had a good heart.

Moreover... ..

As she spoke, Bai ran had already taken out a pistol and pressed it against Xia Jinqi’s waist. “Aren’t you afraid that I’ll kill you?”

It was fine to agree to take her to see old master Ji, but there was no need to invite her to sit in the same car.

Being exposed in front of an opponent at such a close distance could sometimes be fatal.

Xia Jinqi also smiled, her eyes showing no fear. “You’ve already brought your son into the car, what am I afraid of?”

She was also a mother, so she knew how important her child was to her.

Since Bai ran dared to do this, it proved that she believed in her.

**Chapter 994: fate that was predestined in her previous life**

Inexplicably, she also liked her. Perhaps it was fate that caught her eye and she had a good impression of her.

After hearing Xia Jinqi's words, Bai ran put the gun away with a smile on her face.

“...”

The fate between people sometimes was really wonderful.

Some people knew each other for more than ten years, but they still couldn't get into your heart.

But some people, with just a glance, you could trust her without reservation.

Perhaps, this was the fate that was predestined in her previous life.

Su Zhishui.

After returning to the villa, Xia Jinqi had just entered the house when Auntie Chen rushed over. “Young Madam, you're finally back!”

Xia Jinqi rarely saw auntie Chen in such a hurry. She immediately thought that something had happened to the children and did not have time to care about Bai ran and her son behind her. She asked directly, “What's wrong?”

“Young Master, young master he...”

Before Auntie Chen could finish her words, Xia Jinqi had already darted upstairs.

“Young Madam!” Auntie Chen was also stunned and hurriedly chased after her.

Bai Ran and Che Er were left Dumbstruck... ..

“Young Madam?” Bai Ran blinked, expressing her extreme... .. Surprise !!

Che Er also tilted her head, her face full of curiosity. “En?”

The mother and son looked at each other, their similar eyes shining with the same brilliance, as if they had understood something... ..

Upstairs. n-**O**(.V/-e(-L)/b./l.(n

Xia Jinqi rushed into the nursery anxiously and saw Yu Han and Xiao puff sitting on the carpet playing with blocks.

The two children were fine, not crying nor making a fuss. They were having fun!

Xia Jinqi was so anxious that her heart was about to jump out of her throat. Only then did she let it go...

...

Aunt Chen also caught up at this moment. She said breathlessly, “Young Madam, why are you running so fast...”

“Aunt Chen, you were so anxious just now. I thought something had happened to them!” Xia Jinqi patted her chest, indicating that she was quite frightened.

When she heard this, aunt Chen smiled “I haven’t finished speaking Young Madam, you ran away without a trace. “The young master and young miss are fine. It’s just that the young master was crying and making a fuss just now. I carried him to the bed and used the building blocks to comfort him. Who knew that when I turned around to look at the young miss, when I came back, I saw that the young master was sitting perfectly fine! ”

After being reminded by Aunt Chen, Xia Jinqi noticed that Yu Han and Xiao puff were really sitting and playing.

Previously, his two bodies were soft, so he had to support their waists and necks when he carried them. Now... .. He could even sit up on his own ? ?

Coincidentally, Xiao puff heard the movement behind her. When she turned around, she saw that it was her mother who had returned. She immediately stretched out her two small arms with a smile, wanting to hug him. “Well... ”

Xia Jinqi smiled and carried her up. Then, she sat down beside Yu Han and touched his little face. “What are you guys playing? ”

“Ah... ” Yu Han pointed at the pile of blocks in front of him. His big eyes were sparkling.

Xia Jinqi looked in the direction he was pointing at. She saw a pile of blocks placed together in a disorderly manner. She could not tell what shape they were. She thought that this was just a game between children and there was no special meaning to it.

At this moment, an apologetic voice suddenly came from outside the door. “sorry to disturb you... children, are you alright? ”

Bai Ran held che Er’s hand and looked inside the house. Her eyes were filled with worry.

Earlier, when she saw Xia Jinqi rushing up and there was no one downstairs, Bai ran took che er upstairs without warning.

As a result, when she came up, she saw two cute little babies here.

### **Chapter 995: Can I hug her?**

Che Er also tilted her head and stared fixedly at the delicate little girl in pink who was being held in Xia Jinqi’s arms. Her Red Round face was like a delicious apple, tender and tender.

Xia Jinqi looked towards the source of the sound and only then did she remember Bai ran and Che Er. She immediately felt that it was very rude. “It’s alright. I was too anxious. ”

Before she could finish her sentence, she had already rushed forward. She was really impulsive.

Who knew that Bai ran would actually smile very clearly. “You’re both mothers. I understand how you feel. ”

Xia Jinqi, ”... ”

Her clear eyes blinked, and only then did Xia Jinqi remember that Bai ran must have heard Auntie Chen calling her young Madam.

This villa was extremely secretive to begin with. She had never brought anyone back with her, and Auntie Chen did not have much scruples about changing her way of addressing her, so she still addressed her as before.

She did not expect that tonight would be such a coincidence.

Since she had already heard it, there was nothing to hide. Xia Jinqi smiled and said, "yes."

Xiao puff lay in Xia Jinqi's arms, unable to understand what the adults were saying. She only looked curiously at the little boy she had never seen before.

Why was he staring at her?

"Eh..." Xiao puff smacked her lips and put her thumb in her mouth out of habit.

Xia Jinqi put her down and pulled her finger out of her mouth. Only then did she realize that she was staring straight at Che Er.

She couldn't help but chuckle. Xia Jinqi introduced her, "Xiao Puff, this is brother Che ER."

"is she called Xiao Puff?" Quan Che walked straight over and stared at this cute little sister. He was both curious and fond of her.

"Ah..." Xiao puff stared at the little white cloud on Che Er's clothes again and stretched out her little finger to touch it.

Che Er stood where she was and let her ravage her clothes. Her round face, which was full of baby fat, was reflected in her pure black pupils.

"Yes, her big name is Yan Yusheng and her nickname is Xiao puff," Xia Jinqi explained to him.

n./0vE111n

The more she looked at this little boy, the more she liked him. How could he be so handsome and cute?

"Can I hug her?" Che Er asked again.

"OF COURSE!" Xia Jinqi said. She held Xiao puff with both hands and placed her on a thick blanket, indicating that Che Er could do it!

Only then did che er carefully approach her and gently hug her sister, as if she was protecting a precious treasure.

Xiao puff had no idea what had happened... .. She only felt that this little brother was blocking her eyes. She could barely see the blocks ! !

The Moment Che Er moved, Yu Han, who had been ignored by the side, immediately sensed the danger. He crawled over and shielded his sister behind him.

Only then did Bai ran realize that the two children on the ground actually looked the same age?

“They are twins?” She walked in curiously and sat on the blanket just like the children.

They did not put on any airs. They were really as close as close friends who had not seen each other for many years.

Xia Jinqi heard this and nodded with a smile. Her eyes flickered with uncountable happiness. “Yes, Yu Han is the older brother.”

“How nice... Xiao puff really looks like you!” Bai Ran could not shift her gaze away from Xiao puff. She had no choice. She was really too cute ! !

She really wanted a daughter too!

“Xiao puff, can auntie hug you?” After hesitating for a moment, Bai ran couldn’t help but ask.

After Che Er was born, she left for a while. When she returned, Che Er was already three years old.

### **Chapter 996: asked her to stay here for one night**

During this time, she had missed too many things... ..

She didn’t know when Che Er would turn around, when she would sit up, when she would talk, when she would walk, and when she would call her mother for the first time.

Now that she saw these two young children, she suddenly remembered what she owed Che er, and her eyes unconsciously reddened.

This was the first time Xiao Puff had seen Bai ran, and she was still very unfamiliar with her. She blinked her big, adorable eyes and didn’t move.

Xia Jinqi saw the tears at the corner of Bai ran’s eyes. Although she did not understand why her emotions were fluctuating, she still took the initiative to teach Xiao puff. “Xiao Puff, Auntie likes you. Why don’t you let Auntie Hug you?”

Only then did Xiao puff obediently crawl in Bai ran’s direction.

Bai Ran was extremely excited. She carefully hugged her soft little body in her arms and sighed in her heart... ..

The little girl was different. She was soft, soft, and fragrant. She was like a marshmallow made from Tian Tian’s sweet candy.

Yu Han frowned slightly. His deep eyes were like the sea, and no one knew what he was thinking.

Xia Jinqi was afraid that he would think that she was different, so she held him in her arms. She rubbed his chubby little face and asked him, “what are you looking at, baby?”

Yu Han continued to stare at his sister without saying a word, as if he was afraid that the stranger in front of him would snatch her away.

Che Er also walked over at this time and looked at Yu Han curiously. "little brother, do you like building blocks?"

"Eh?" Yu Han's gaze was attracted and he turned to look at Che Er.

Che Er just happened to pass a building block over and stuffed it into Yu Han's hand.

Yu Han, whose grip was already not bad, grabbed the building block and turned it over and over again. Suddenly, he began to giggle.

He seemed to be very satisfied with this toy.

The room was filled with laughter and laughter. Time passed unknowingly.

When it was midnight, the children were tired from playing and had fallen asleep. Ji Heng did not come back either.

During the time she had come to Macau, Xia Jinqi had gotten used to the situation where Ji Heng's grandfather was often not at home. However, she had brought Bai ran home tonight, but Ji Heng's grandfather did not come back.

Then... She could only let Bai ran stay here for one night ...

Why would Xia Jinqi risk staying with someone she had just met who had a grudge against her grandfather?

That was because Bai ran had given her trust first — she had brought her son over.

Moreover, Xia Jinqi's house was filled with bodyguards. She was not worried that Bai ran would do anything out of the ordinary here.

Hence, she took the initiative to arrange a room for them while she went to take a bath in peace.

After changing into a plain white dress, she felt refreshed.

Tonight, Aunt Chen brought Yu Han and Xiao puff to sleep, so Xia Jinqi was not worried at all. She went to Bai ran's room instead.

"knock, knock..." she knocked on the door.

Soon, the door opened.

Bai ran also took a bath and changed into a brand new set of pajamas.

Xia Jinqi first glanced at her and smiled. "I didn't expect that the two of us would wear the same size. It suits you quite well." n..0vE1b1n

Perhaps she liked it at first sight, but no matter how she looked at it later, she liked it!

Even the clothes they wore were of the same size, and it was inexplicably cordial.

Bai Ran originally wanted to thank Xia Jinqi for lending her pajamas, but the moment the door opened, she saw Xia Jinqi in a plain white dress behind the door. She was so shocked that she almost forgot to think.

“You...”

After taking a shower, Xia Jinqi was completely different from the woman who wore men’s clothes before!

### **Chapter 997: do you want to chat for a while?**

When she was dressed as a man, she looked heroic and devilish. She really looked like a perfect young man who had walked out of A TWO-DIMENSIONAL MANGA!

But now... ..

She changed into a dress. Her hair had just been washed. It was soft and stuck to her face. Her makeup had also been removed, revealing her delicate and gentle features.

She was like an Elf in the dark, beautiful yet cute.

Xia Jinqi saw that she was staring straight at her and coughed lightly in embarrassment. “Che Er, are you asleep?”

Bai Ran came back to her senses and nodded with a smile. “I slept soundly. In my dreams, I called out Xiao Puff’s name!”

Xia Jinqi also smiled and took the initiative to invite her. “Do you want to chat for a while?”

“Sure!” Bai Ran wouldn’t refuse. Since she wasn’t sleepy at the moment, she was also very curious about Xia Jinqi’s story.

For example, why did she disguise herself as a man? noVe|l-1n

For example, what was the huge contrast between her unruly and unruly self at the Lido hotel and her gentle and kind-hearted self now?

Just like that, the two of them took advantage of the time when the children were fast asleep to get together and chat.

The location was chosen to be on the balcony of Xia Jinqi’s room.

The two of them secretly looted the children’s snacks, then went downstairs to the fridge to get fruit juice drinks. They directly gathered together to have a party.

“So, in order to better manage the casino, you disguised yourself as a man?” Bai Ran roughly listened to Xia Jinqi’s story, and the doubts in her heart began to slowly unravel.

“Yes.” Xia Jinqi nodded, and a little embarrassed, she used her index finger to roll up the small bangs on her forehead. “Do you think it’s very strange?”

“How is it weird? I actually think you’re quite handsome!” Bai Ran praised her without holding back. She couldn’t help but think of the chairman at the banquet who had shocked everyone with just a few words. She still couldn’t believe it “Is that really you? I really couldn’t tell at that time that you were pretending to be a man. I just thought that some young man looked too delicate and pretty!”

When she said these words, Bai ran's expression was not exaggerated at all. It was as if everything was going as it should be. It didn't make people feel disgusted at all.

Instead, it made Xia Jinqi feel very comfortable.

After a few words, she completely opened her heart and started talking about serious matters.

"Then, Zhuo Ning, do you really have to capture her?" Xia Jinqi asked seriously.

"Yes!" Bai Ran answered very quickly. She did not even need to think.

Xia Jinqi could hear the seriousness in her words, so she did not try to dissuade her. Instead, she thought of their grandfather and could not help but notice the similarity between the two of them.

"Come to think of it, the two of us are a little similar. Actually, Ji Heng is also my grandfather. Are these two strange families really letting their granddaughter inherit the Family Business?"

Bai Ran was stunned. "No wonder your surname is Xia and not Ji."

"Yes, logically speaking, my cousin Ji Yunjing should be the one to inherit the family business, but grandfather always wants to leave everything to me." Xia Jinqi smiled. She really didn't understand grandfather Ji.

"this... perhaps he wants to make up for something." Bai Ran sighed softly. She also thought of her past. "I'm actually my father's illegitimate daughter, but after he died, he left the family and everything to me."

When she heard the words 'illegitimate daughter', a string in Xia Jinqi's mind jumped. She looked at Bai ran in surprise. "I... AM also my father's illegitimate daughter..."

At that time, Bai ran was drinking a drink. When she heard Xia Jinqi's sudden words, she almost choked. "What a coincidence!"

### **Chapter 998: when Xiao puff grows up, will she marry you?**

Xia Jinqi continued to nod. "My family doesn't like me very much."

"I... Me Too..." Bai ran's hand shook heavily ...

The two of them looked at each other and couldn't help but burst into laughter.

"How could it be such a coincidence?" Xia Jinqi looked at Bai ran in a daze and suddenly felt the magic of fate.

"No wonder I liked you so much when I first met you!" Bai Ran couldn't help but shake her head and sigh at the wonders of fate.

Similar people would always unconsciously attract each other.

It was precisely because they had similar lives and experienced similar pain that they had a common language and could walk together.

Birds of a feather flock together. This was the same principle.

It was rare to meet a person who was in tune with her. The more Xia Jinqi and Bai ran talked, the more they got along. They even forgot the time and talked for a long night.

Xia Jinqi talked about her childhood, which was not liked since she was young, the twists and turns of having children after marriage, and the peace that she finally got after so much difficulty was followed by separation.

Meanwhile, Bai ran talked about how she had been forced to leave for three years after giving birth to Che Er. She had to struggle to return to Che Er's side, but she had missed the three years when he needed his mommy the most... ..

The two of them talked to each other and comforted each other. Before they knew it, the sky was already bright.

Only then did they return to their respective rooms.

When Bai ran returned, Che Er had also just woken up.

She had seen her younger brother and sister last night and was tired from playing. It was rare for her to sleep for so long.

When Bai ran helped him put on his clothes, the little guy could not wait to ask, "mommy, can I still play with my younger sister today?"

"You like your little sister so much? What about your little brother?" Bai ran raised her eyebrows, wanting to tease him.

Since last night, she realized that her son especially liked Xiao puff. He gave Xiao puff all the delicious and fun things, but he wasn't so attentive to Yu Han.

"LITTLE SISTER IS CUTE!" Che Er Chuckled and added, "Daddy said that Mommy will give birth to a little sister for me in the future. He said that I'm a little man and I have to protect my little sister!"

Che Er said it innocently, but it made Bai ran's eyebrows twitch... ..

It seemed that her husband was really crazy about his daughter. He had secretly instilled such thoughts into his son.

However... .. She really liked Jin Qi's daughter ...

Xiao puff was so cute at such a young age. When she grew up in the future, she would definitely have many suitors.

Then, why don't she make a decision for her son first?

MMM... .. Isn't it popular for children to get married now ??

When they grew up, if they didn't like each other, then the engagement would be canceled. After all, it wouldn't be wrong to make a decision first!

Thinking of this, Bai ran smiled and looked at her son. “Che Er, let Mommy ask you, do you really like this little sister so much?”

“En!” The little guy nodded heavily and said it in a decent manner.

“then... When Xiao puff grows up, can I marry you?” He continued to coax her ...

“marry me? What does that mean?” Che Er blinked her big, curious eyes and stared at her mother.

Bai Ran paused, not knowing how to explain the meaning of this marriage. After thinking for a while, she could only give him an example “What I mean by marrying you is that the two of you will live together for the rest of your life, just like daddy and Mommy. You will live together every day, eat together, and sleep together.”

“We can be together every day?” Che Er asked.

“Yes! We can be together every day!” Bai Ran nodded vigorously. This meaning was not bad either. As long as her son could understand it, it would be good.

### **Chapter 999: Take Care of her, protect her, and not let anyone bully her!**

When Che Er heard this, she lowered her head and began to think seriously.

He really liked this sister of his. She was so soft and cute.

If he could see his sister every day and be with her, how great would that be... ..

“Alright! Then when I grow up, I WANT TO MARRY MY SISTER!” After Che Er ‘thought it over carefully’, she finally made up her mind.

Bai Ran was naturally so happy that she could not close her mouth. She lowered her head and smacked her son’s forehead hard. “Good Son!”

As she spoke, she picked up Che Er and happily went to look for Yu Han and Xiao puff.

It was unknown whether those two little babies had woken up or not.

At this moment, in the nursery, Yu Han and Xiao puff were holding a bottle and sucking it with all their might.

Xia Jinqi saw Bai ran carrying che er over, so she smiled and called out to them. “Che Er has woken up too?”

“Aunt...” Che er very consciously changed the way she addressed Xia Jinqi. Then, she took the initiative to stretch out her two small arms, gesturing for Mommy to put him down.

As soon as Bai ran put him on the ground, the little guy ran to Xia Jinqi’s side and looked at Xiao puff, who was in Xia Jinqi’s arms, with a smile.

“sister.” Che Er touched her sister’s hand and held it in her palm. She said very seriously and sincerely, “sister, how about I marry you in the future?”

This sudden sentence from the mouth of a three-and-a-half-year-old child was really quite dramatic.

Xia Jinqi, who was holding Xiao puff, and Auntie Chen, who was holding Yu Han, were both stunned at the same time. They were both surprised!

Bai Ran did not expect her son to be so straightforward. However, thinking about it, it made sense. She had just asked him, and now that he saw his sister, he must be a little impatient.

Hence, she smiled and waited for Xia Jinqi's answer.

Xia Jinqi could not help but smile as she looked at Che Er. She Patted Che Er's head and asked with a smile, "you're still so young. Do you know what it means to marry her?"

"It means to be together every day, take care of her, protect her, and not let anyone bully her!" Che Er's answer was firm and decisive!

The first sentence was taught to him by his mommy just now, and the second sentence was taught to him by his Daddy.

Daddy always said that when he had a sister, he would take care of his sister, protect his sister, and not let anyone bully his sister!

Xia Jinqi was stunned again. She would never have thought that such a young child would speak with such determination and sound reasoning.

It must be known that many men who grew up to be in their thirties or forties still didn't know what they wanted. Their lives were also a mess.

Che Er, this child... ..

Xia Jinqi smiled faintly as she looked at Xiao puff in her arms and asked her, "Xiao puff, brother Che Er said that he wants to marry you when he grows up. Are you willing?"

"Puff..." Xiao Puff was hungry at this moment. She did not pay attention to what was happening outside the window and only focused on sucking the milk in the bottle.

Her innocent and cute appearance made the entire room laugh and cheer.

Bai Ran also walked over at this moment and spoke well of her son "Jinqi, look at how much we hit it off. Why don't we be good friends in the future? At the same time, let us have the addition of a fixed marriage. Let's see if these two children can really get together when they grow up in the future."

Xia Jinqi saw that Bai ran was serious and didn't seem like she was joking. She turned back to look at Che Er. The little fellow's face was also full of sincerity.

She originally thought that it was just a joke, so Xia Jinqi let Xiao puff choose for herself. "Xiao Puff, do you agree?"

Xiao puff was finally full. Her little hand pushed open the milk bottle, and her round eyes looked at the handsome man in front of her. She was at a loss and made a few noises.

**Chapter 1000: gives you candy. You must marry me in the future**

What are they talking about Why can't she understand?

Seeing this, Che Er suddenly had an idea. She took out a rainbow lollipop the size of a rainbow fist from her coat pocket and dangled it in front of Xiao Puff. "sister, do you want some candy?"

At this moment, Xiao puff still didn't know what candy meant. She just looked at the gorgeous colors and felt extremely curious. She stretched out her hand and wanted to take it.

"Ah..."

"If you agree to marry me, I'll give it to you." Che Er said in a decent manner. At such a young age, she already knew how to use candy to kidnap an ignorant girl.

Xia Jinqi and Bai ran found it funny. This trick!

Xiao puff didn't understand what Che Er's brother meant at all. She only knew that the candy was so good-looking, and she also wanted it... ..

Thus, she insisted on reaching out to take the candy.

Che Er smiled and took the initiative to pass the candy to her. "Here's the candy. You have to marry me in the future."

"hehe..." Xiao puff didn't care what he said. She stared at the candy with her big eyes. She felt that it looked good, so she stuffed it into her mouth.

"Do you want to eat it? I'll help you." Che Er very considerately tore off the wrapping paper for her. Then, she carefully took the lollipop and brought it to her mouth.

Xiao puff stared at Che Er's brother. She stuck out her little pink tongue and licked the Rainbow Lollipop.

"Eh?" It was her first time tasting such a taste. Xiao puff's eyes widened, and her face was filled with disbelief.

So, this sweet taste... was it the same as this handsome little brother in front of Tian Tian?

Tian Tian?

Xia Jinqi really couldn't help but laugh out loud. "Puff, Oh puff, how can you be bribed by a lollipop?"

"If only Xiao puff could really be my daughter-in-law in the future!" Bai Ran couldn't help but pray to the heavens.

Such a cute little girl, of course she had to be booked in advance!

Yu Han, who was at the side, was half full. He looked back at the smiles on everyone's faces and then at his gluttonous sister. He yawned out of boredom.

When he opened his eyes again, he looked at Che Er with hostility.

Was this guy trying to snatch his sister away from him?

Ji Heng's grandfather only came back around noon.

Xia Jinqi asked Bai ran to look after the three children while she went downstairs. She wanted to talk to her grandfather about the Bai family and Zhuo Ning first.

After spending the night together, she felt that this Bai ran was actually a good person and didn't have any bad intentions. Perhaps her grandfather had some misunderstanding about the Bai family back then?

Who knew that when Ji Heng heard that Bai Jiutian's granddaughter had stayed here for the night, he immediately flew into a rage. He was so angry that he even turned green!

"The one with the Surname Bai actually dares to take the initiative to look for me?" Ji Heng flung the teacup in his hand and grabbed his walking stick, preparing to go upstairs and settle the score with Bai ran!

Xia Jinqi was shocked. She didn't expect her grandfather to be so agitated. She hurriedly pulled him back. "Grandfather, I brought her back. Don't be angry!"

"What? You brought her back?" Ji Heng was stunned when he heard this.

He stared at Xia Jinqi in disbelief. His gaze became strange. "What did she say to you?"

Ji Heng initially thought that Xia Jinqi had been deceived. After all, she wasn't clear about the things that had happened back then. The Bai family had tricked her with just a few words and she had snuck in.

Thus, he sat back on the chair and waited for Xia Jinqi to explain.

"She said that she wanted to see grandfather with her own eyes. She also wanted to explain what happened back then to you. Moreover... She came for Zhuo Ning." As Xia Jinqi spoke, she patted her grandfather's back gently to calm him down ...
