

## Trillion Times 461

### Chapter 461: The Reclusive Expert

The first item was a half-step earth rank auction item.

If this had been in another auction house, it would have been a luxurious finale item. However, in Lin Mo's place, it could only be the beginning.

"This spirit ginseng is a rare treasure. If everyone doesn't bid, then this old man will not stand on ceremony."

In a private room at the side, a window was opened. An old man with white hair was drinking wine as he smiled.

"15 million mid-grade spirit stones."

His bid broke the silence. Everyone in the hall was shocked as they all turned their gazes over.

"Isn't that the old man Xuan Yao who has been living in seclusion for hundreds of years?"

"Back then, he was already an eighth-ranked spirit alchemist. After a few hundred years, he should already be a ninth-ranked spirit alchemist."

"That's for sure. If it wasn't for the fact that earth-ranked spirit alchemists need immortal-foundation experts to lead them, Old Man Xuan Yao would have long reached this realm."

The people discussed animatedly. From the words of the crowd, Lin Mo could tell that this old man was extraordinary.

He cupped his fists towards Old Man Xuan Yao to show his respect.

"Haha, Xuan Yao, you really came. I still thought that you would live in seclusion for the rest of your life."

A clear voice rang out. Behind the private room, a middle-aged man walked out and swaggered into Old Man Xuan Yao's private room.

Before he walked in, someone in the private room he was previously in bid, "20 million."

"Xuan Yao, Don't blame me. My disciple needs the ice snow spirit ginseng. I want it."

"The rest of you, please give me, Meng Lie, some face."

Before walking in, the middle-aged man said a few words. He was extremely overbearing, but no one spoke...

Occasionally, the sound of glasses clinking could be heard from the private room. The two of them were also chatting happily.

This sudden interlude caused the entire place to quieten down.

What made Lin Mo somewhat surprised was that there was actually no one bidding in the other private rooms.

The price of the ice snow spirit ginseng was obviously not limited to this. However, there were auction rules, so he couldn't possibly ask for more spirit stones...

"25 million." At this moment, Bai Luo's voice sounded, causing Lin Mo to heave a sigh of relief.

Although raising the price was a little disgraceful, this person had used a threatening method to make others not bid, so he didn't stand on ceremony.

After all, the ice snow spirit ginseng had earned a profit back from the previous ice crystal ginseng. If it was sold at a loss, it would really be a loss.

The system wouldn't give a profit back at all.

"HMPH, there's really someone who dares to bid!"

From within the private room, the voice of a young man could be heard. He walked out of the private room and looked around coldly, wanting to find out who was bidding.

However, when he swept his gaze around, he realized that he could not find that person's aura at all.

"Guest, in the auction ground, if you're capable of bidding, please sit back down." Lin Mo said with a frown.

This person was full of arrogance and looked down on the people around him. Was he going to make a move just because someone was bidding against him?

"TSK, who do you think you are? In My Eyes, in the outside world, only Saintess Xia you can make a move. The rest can't."

The young man who called himself Meng Tian gave Lin Mo a thumbs-up and flipped his body downward. He was full of provocation.

Upon seeing this, Lin Mo was about to make a move and exchange a few moves with Meng Tian.

"Do you have any objections to my offer?"

Before Lin Mo could make a move, Bai Luo had already walked out of the private room and looked at Meng Tian indifferently.

"Who are you?" Meng Tian looked at Bai Luo.

Everyone in the hall was also shocked by Bai Luo. At this moment, Bai Luo was wearing a white robe and battle armor. She looked valiant and valiant, like a female martial god.

The Aura on her body also shocked everyone. She was at the fifth sky of the Nirvana stage and was on par with Meng Tian.

"This person seems to be from the Purple Moon Palace. What's going on? Isn't this auction hosted by the Purple Moon Palace?"

Someone raised a question. The Purple Moon Palace was holding an auction and they still needed their own people to raise the price?

“Are you stupid? The Purple Moon Palace is holding such a grand auction. Do you think the auction items are all taken out by the Purple Moon Palace?”

“That’s true. The weakest of them are at least half-step earth rank. They will definitely be tempted. It’s normal for them to participate in the auction.”

The people quickly found an excuse. They did not even need Lin Mo and Bai Luo to explain themselves. However, their conversation ended in the next moment.

This was because Meng Tian did not care about that. A pair of purple-gold battle hammers appeared in his hands and he smashed them towards Bai Luo.

“You have to defeat me first before you are qualified to compete with me.”

“Boom.”

The battle was triggered in an instant, causing people to be unable to react in time.

Fortunately, there were also experts present. They acted in time to block the aftershocks of the battle between the two of them, preventing any accidents from happening.

“Not bad. What’s your identity? Tell me your name.”

Meng Tian laughed out loud. Seeing Bai Luo receiving the purple-gold battle hammers with his bare hands, his battle intent surged. He asked Bai Luo where he came from.

“My identity...”

Bai Luo laughed mockingly and said, “Purple Moon Palace’s commander-in-chief, Bai Luo.”

Everyone in the hall was shocked when they heard this. Each of the Purple Moon Palace’s three armies was stronger than the other.

This was especially so for the purple spirit guards. They might not even be a match for someone at the ninth sky of the Nirvana realm if they were to completely erupt.

They originally thought that the commander-in-chief of these three armies would be purple Moon Palace’s palace master, Jiang Xiyue. Even if they took a step back, it would still be Vice Palace Master Lin Mo..

In the end, it turned out to be such an unfamiliar woman.

“Commander-in-chief of the three armies, Haha, you do have some qualifications to fight with me.”

Meng Tian’s fighting spirit rose as he fought with Bai Luo. However, all of his attacks were dealt with calmly by Bai Luo. He seemed to be able to handle it with ease.

Upon seeing this, Lin Mo’s face turned completely black.

What commander-in-chief of the three armies? was he appointed by himself...

However, Bai Luo was right. She had been guiding the three armies and helping them through the heavenly tribulation.

It would not be an exaggeration to say that she was the commander-in-chief of the three armies.

“I’m sorry, this is Yue Xuan, the auction house, not the 1V1 Arena.”

The battle was very exciting. Both of them were very strong, but Lin Mo had no choice but to make his move.

The Kun Peng spread its wings on its back and the purple divine light under its feet lit up. Then, it appeared directly behind Meng Tian.

Bai Luo had been waiting for this moment for a long time. The purple divine light appeared under his feet, just like Lin Mo..

“Kirin Steps” was activated at the same time, and it landed on Meng Tian’s body.

Terrifying ripples spread out instantly. At the critical moment, golden light enveloped the battlefield and destroyed all the ripples.

At the same time, a familiar long spear appeared.

“With your status, it’s not appropriate for you to attack a junior.”

Qiluo’s voice was heard. She stood in front of Lin Mo and Bai Luo, holding the radiant sun long spear in her hand and staring at the figure in front of her.

Meng Tian was caught by someone. His chest and back were badly mutilated. He was injured by the ‘Kirin Steps’.

Meng Lie, who was drinking with Old Man Xuan Yao just now, looked at Lin Mo and the rest with a gloomy expression.

The hall was quiet. No one had expected things to develop to this stage.

Some of the older people remembered that this person was called Meng Lie. He was a top-notch genius from a thousand years ago and had once studied in the divine armament sacred land.

At the same time, he was also a member of the Yanhuang Divine Dynasty and was once conferred the title of Blazing Fire King.

However, he had announced his retirement 300 years ago and no longer meddled in the affairs of the outside world.

Now, because of the heavenly tribulation and the Purple Moon Palace’s auction, he had brought out a disciple with heaven-defying combat strength.

“HMPH, it’s just a spar. You, a junior, launched a sneak attack. You have no sense of shame,” Meng Lie said coldly.

## Chapter 462: Blood Essence Soul Pill

If his disciple had been defeated, he wouldn't have asked. But now that he had been injured by a sneak attack, he wanted an explanation.

"Call Your Palace master out. If you don't give me an explanation, I'm afraid your auction won't go on."

Meng Lie's attitude was firm. He said that Lin Mo wasn't qualified to talk to him and asked Jiang Xiyue to come out.

"Purple Spirit Guards, prepare for battle."

Bai Luo's voice responded to him. She opened her red lips and gave the order.

"Fight!"

In the next moment, a strong fighting spirit surged out, and the entire hailing city trembled at this moment.

Although there were fewer purple spirit guards, the rest were people who had passed the heavenly tribulation. There were hundreds of Nirvana realm warriors among them.

The condensed fighting spirit was even stronger. Not to mention one ninth sky of Nirvana realm warrior, even two of them could be dealt with.

"If you want to see the palace master, after the auction is over, you can send the greeting card yourself."

Lin Mo smiled faintly and flew back to the auction stage. He took out the ice snow spirit ginseng once again and said, "The auction continues. If you still intend to cause trouble, you must bear the consequences."

As soon as he finished speaking, the purple spirit guards outside had already set up a formation. The four spirit battle formation was set up. Such a terrifying battle intent moved everyone present.

This included the ninth sky of the Nirvana stage that had already transcended their tribulations.

The three elders of the Divine Secrets Holy Land were extremely shocked. Under this battle intent, they were actually not sure if they could escape.

This was too terrifying. Wasn't this army a little too strong.

"Enough, such a good auction has actually become like this..."

At this moment, in a private room, Old Man Xuan Yao walked out. He held a walking stick with a wine gourd hanging above it.

"Meng Lie, you are already a retired person. Do you still intend to stand up for the Yanhuang Divine Dynasty?"

Old Man Xuan Yao tried to persuade him. He had lived for so long, how could he not see that Meng Lie was dissatisfied with Jiang Xiyue's judgment of the Yanhuang Divine Dynasty.

Today, he had instructed his disciple to cause trouble. He had also planned to call out Jiang Xiyue and give her a good beating.

However, he did not expect that his disciple would not be able to hold on for a minute. Even he himself was caught in a dilemma.

"Vice palace master, this old man bids forty million for this ice snow spirit ginseng. This price is not bad. Sell it to me."

The mysterious medicine elder looked at Lin Mo and acted as a mediator.

However, Lin Mo's gaze was not very friendly. If this Meng Lie was planning to help the Yanhuang Divine dynasty, he would be an enemy.

When faced with an enemy, he would not show mercy.

"Alright, then we will do as senior says."

At this moment, Jiang Xiyue, who had been watching from the backstage, walked out and nodded at Lin Mo. .

"Alright, the auction is more important. Otherwise, the Purple Moon Palace won't be able to support you," she said gently while hugging Lin Mo's arm.

"Then, do you want to settle the score later?" Lin Mo asked with a smile.

"It depends on the situation. I'll leave it to you to handle it." Jiang Xiyue stuck out her tongue. Sometimes, she really wanted to swap places with Lin Mo. .

Lin Mo should be the palace master. After all, Lin Mo was the one who handled everything...

"True Dragon's blood?"

Jiang Xiyue's appearance caused Meng Lie and Old Man Xuan Yao to be greatly shocked.

They had long been peak experts at the ninth sky of the Nirvana realm and were only a step away from Immortal Foundation.

Their soul senses were naturally very powerful. With a glance, they could see the true dragon's blood in Jiang Xiyue's body.

Apart from shock, there was also deep envy.

If they had obtained the blood of a true dragon when they were young, perhaps immortal-foundation experts would have been born long ago...

"This senior, the entire auction will be conducted on the spot."

Lin Mo reminded. At this moment, Meng Lie had already listened to his advice and was stopped by the old man Xuan Yao.

Lin Mo also successfully traded with the Old Man Xuan Yao. The first auction item was finally auctioned off.

“Sigh, standing at the peak of the storm will indeed bring about changes...”

Lin Mo sighed. The purple spirit guards outside had been withdrawn, but Qi Luo and Luo Haoyu stayed behind.

Bai Luo didn't stay. He left with Jiang Xiyue and returned to Purple Moon Palace.

Yan Rong was called over to replace Bai Luo and auction off some more useful treasures.

After all, Bai Luo had just displayed great battle strength, along with Lin Mo, who had the god devouring body, and Jiang Xiyue, who had the bloodline of a true dragon.

Purple Moon Palace had a total of three peerless geniuses, and this was a great threat to the other factions.

No matter what, it was best not to stay in this place where a battle could happen at any time.

“This second item is a half-step earth grade spirit pill from the Monolith Forbidden Ground. This is a healing holy item, a ninth Sky Nirvana realm expert. Even if he is heavily injured, as long as he consumes it, he will be able to recover.”

“This spirit pill is called the blood and Qi pill. It can even heal the injuries of the soul.”

“However, the person who consumes it will have a strong resistance to the medicine. If he consumes it again, there won't be any effect.”

The Blood and Qi pill was a rare treasure in the rock forbidden ground.

However, Lin Mo had taken seven of them in one go. Since it was inconvenient to explain, he gave one to Qi Luo and Luo Haoyu.

The remaining five pills were given to the Purple Moon Palace's Chief Alchemist, Bai Luo, Jiang Xiyue, and Xiao Die. There was one.

The last one was his own. He took it out and auctioned it off.

It was a pity that he couldn't sell all of it. Otherwise, he would have gotten seven Earth grade panaceas.

“It's actually this kind of panaceas that can heal in an instant.”

After Lin Mo's introduction, some people couldn't hold it in anymore. There were quite a number of ninth Sky Nirvana realm experts present.

At this realm, the effects of ordinary spirit pills would be greatly reduced.

Even a ninth level spirit rank pill could only exert 60% of its medicinal effects.

Right now, this blood essence soul pill was equivalent to a second life for them. They couldn't give it up.

“Due to the versatility of the blood essence soul pill, the starting price for this spirit pill is 30 million.”

The high starting price made everyone in the hall speechless.

Lin Mo's arrangements were indeed correct. An auction of this scale was not something they could participate in.

Fortunately, they had come with a wait-and-see attitude from the start, so they were not too disappointed.

At this moment, everyone in the private room had already started bidding.

The first to bid was actually Meng Lie, who had caused a conflict previously. When faced with a spirit pill that could save his life, he could not ignore it.

"40 million, senior blazing fire king. This elixir has an extraordinary significance to the Yanhuang Divine dynasty. I hope you can fulfill it."

In the private room, the voice of the tenth princess of the Yanhuang Divine Dynasty was heard. Among the numerous bids, she was the only one who was a junior.

Competing with a group of eighth sky and ninth Sky Nirvana realm experts, she must have been under a lot of pressure.

However, there was nothing she could do. The so-called retired emperor Jiang Feng was trying his best to suppress his presence to avoid making Lin Mo angry.

This auction was very important, and they had to participate until the end no matter what.

They couldn't afford to make any mistakes in the process, so they could only let the tenth princess suffer.

"Forty-three million yuan. I want this blood essence soul pill as well."

Saintess Xia you made her bid. After waiting for so long, she finally spoke up. She was very satisfied with the auction item this time.

"They are all fighting for it. Then, I'll join in as well."

On the other side, the people from Great Yan dynasty also joined in. Zhen Wu De's young voice was heard, and he began to raise the bid.

Soon, along with the competition from many parties, the value of this blood and Qi soul pill had been raised to a high price of seventy million.

And judging from the situation, none of them had backed out yet, and the price was still rising.

In the blink of an eye, the price had already reached eighty million middle-grade spirit stones...

## **Chapter 463: Hurricane Leg Technique**

For a half-step Earth rank spirit pill to be auctioned off at such a high price, it left everyone flabbergasted.

Meanwhile, Lin Mo was also filled with regret.

If he had known this would happen, he would have braced himself and asked for these spirit pills back then.

At that time, he would have earned nearly 500 million middle-grade spirit stones.

Moreover, he would also be able to obtain a treasure that would return a profit. Why Not?

“82 million, this is my bottom line. Meng lie, if you can add another million, this old man will let you go.”

In the private room, elder Xuan Yao said.

He was also very eager for the Qi Blood Soul Pill, but the price now was a little too expensive.

“Xuan Yao, you win.”

Meng Lie didn't bid in the end. He would still feel bad if he took out more than 80 million middle-grade spirit stones.

After all, he had left the Yanhuang dynasty for many years, and his savings were almost used up.

“82 million going once.”

“82 million going twice.”

“82 million going three times, sold.”

Lin Mo knocked the auction hammer down. After three times, the Xuan Yao Old Man bought the treasure again.

“Congratulations, senior. This blood and Qi pill is yours.”

Lin Mo nodded his head in satisfaction when he traded with the old man. The old man was also very satisfied.

It was a win-win situation for both of them to obtain a life-saving elixir pill.

[ congratulations, host, for successfully auctioning a half-step earth grade blood and Qi Pill ]

[ you have successfully triggered a 500-fold return from the auction ]

[ Congratulations, host, for obtaining a Level 1 Earth Grade Soul Melting Elixir Pill ]

The return was 500-fold, but he still managed to obtain a Level 1 earth soul fusion pill. Lin Mo heaved a sigh of relief.

He hurriedly checked the effects of the pill and was extremely shocked.

The Earth Soul Fusion Pill had the effect of reviving the dead. It could only be used by those below the Immortal Foundation realm.

It could be said that as long as there was still a sliver of a soul left, the Earth Soul Fusion Pill would be able to revive you.

Of course, if the soul was severely damaged, one's strength would also be damaged after being resurrected. The soul would be the first to be created and there would be no way to cultivate.

But overall, it was an extremely heaven-defying spirit pill.

This was equivalent to having a guarantee on one's life. Previously, Bai Luo had been worried that something would happen to Xiao Die while she was transcending the tribulation.

But now, with this Earth Soul Fusion Spirit Pill, Xiao Die's safety was guaranteed and she could safely transcend the tribulation.

"Sorry for the wait. The third item is a martial art."

Lin Mo was stunned for a moment, then woke up under everyone's urging. After smiling apologetically, he took out a scroll from the system space.

"Half-step Earth rank leg technique martial art, wind god leg."

"This martial art can be used very quickly, and its attack power is very strong. However, it requires a wind attribute cultivator to cultivate it."

"Other people can also cultivate it, but the effect isn't great, and its power will be greatly reduced."

"The starting price is nine million middle-grade spirit stones."

The price this time was a bit low. Martial Arts shouldn't be priced at this price, but unfortunately, the "Wind God's leg" had very big restrictions.

Moreover, at this level, people actually preferred magic tools, spirit pills, and spirit medicines.

They also liked some precious natural treasures, and the next was the cultivation method, martial arts.

After all, it was very difficult to comprehend earth grade martial arts. If he couldn't learn it after buying it, not only would he be ridiculed, he would lose more than he gained by selling it.

"10 million."

Someone called out the price. It was a seventh sky of Nirvana realm expert.

He saw that everyone wasn't bidding for it, so he opened his mouth and planned to take advantage of the situation.

"11 million."

"12 million."

One after another, many people participated in the bidding. On the other hand, the people from the major powers were silent.

Normally, they would be willing to fight for the half-step Earth realm. If it wasn't suitable for them, they could also add some foundation to their clans or sects.

However, it was different now. They all had to keep their spirit stones to bid for the treasures behind. No one was willing to waste them.

In the end, this “Wind God’s leg” was bought by an expert at the 8th sky of the Nirvana realm. The price was 24 million.

[ congratulations, host, for successfully auctioning the half-step earth rank “Wind God’s leg”]

[ you have successfully triggered the 10,000 fold return from the auction ]

[ Congratulations, host, for obtaining the earth rank 4th rank “Hurricane leg technique”]

The loss from the auction was a little too much. The system’s multiplier was also quite high. It was directly 10,000 times.

However, what made Lin Mo helpless was that there didn’t seem to be anyone with the wind attribute on their side. Yan Rong was about to break through to Nirvana stage, but he had recently become Luo Haoyu’s disciple.

The attribute he chose was the metal attribute, so there was no way for his own people to cultivate this “Hurricane leg technique”.

“Forget it, there are many people at the auction today anyway, I’ll sell it...”

Lin Mo made up his mind. It was temporarily worthless in his hands, so he might as well sell it directly.

Although he didn’t have time to make a copy and use it as the foundation of the Purple Moon Palace, he didn’t need it for the time being.

“The fourth item is a half-step Earth rank magic weapon, a bronze spear from ancient times.”

“This item was sent by someone else. It’s said that it came from the Underwater Dragon Palace and was heavily corroded, but it can still unleash the power of a half-step earth rank magic weapon.”

Lin Mo introduced it. It was a forbidden item and was very precious. In the past, it would be fought over by various forces.

However, it wasn’t very precious when it appeared at the Yue Xuan auction.

At the very least, its selling price wouldn’t be higher than the Qi blood soul pill.

“Bronze spear, starting bid, 15 million mid-grade spirit stones.”

Lin Mo knocked down the auction hammer and the auction began. The bronze spear came from a forbidden area and attracted the attention of several sacred lands.

After a round of fighting, the person who bought this item surprised Lin Mo. It was someone from the ancient moon sacred land in the Yan Huang Dynasty.

There were two powerful sacred lands in the Yan Huang Dynasty, the Thunder Sacred Land and the ancient moon sacred land.

These two large forces had eighth sky of the Nirvana realm guarding them. Of course, there were rumors in the outside world that they had ninth sky experts.

Even the imperial family didn't dare to touch them casually.

After completing the transaction with the Holy Lord of the ancient Moon Holy Land, the transaction price was 37 million, and the magic weapon was quite popular.

[ congratulations to host for successfully auctioning a half-step earth grade bronze spear ]

[ successfully triggered 5,000 times the auction's profit ]

[ congratulations to host for obtaining a second rank Earth grade magic weapon bronze spear ]

The profit was given to a bronze spear that was almost the same, but the one in Lin Mo's hand was even stronger.

The rust on it had lessened a little, and some special patterns had been added to it, making it seem even more powerful.

"Unfortunately, this is still not complete..."

Lin Mo sighed. A 2nd rank Earth rank bronze spear should be less than half of what it was when it was at its peak.

Time was like a blade. Not only was it used to slay Heaven's pride, even spiritual artifacts were no exception...

"Mm, auctioning it in order seems a little boring. Although the half-step earth rank treasures have yet to be auctioned off, I believe everyone will be able to accept auctioning the earth rank treasures ahead of time."

Seeing that the atmosphere in the auction hall had turned a little cold, Lin Mo spoke at the right time.

Previously, the Blood Qi soul pill had caused a climax, but the subsequent auction items had not been able to surpass it. As a result, people no longer cared about the subsequent treasures.

After pondering for a moment, he fortunately took out the that he had obtained previously.

"The next item to be auctioned is..."

A thick book appeared in his hand. As soon as it appeared, a gentle breeze blew around Lin Mo..

"This is an earth rank 4 wind attribute leg technique, hurricane leg technique."

## **Chapter 464: Empty Spirit Bell**

The auction house became silent. Even Qi Luo and Luo Haoyu who were sitting at the side of the auction table were shocked.

Although a Level 4 earth realm technique was of the wind attribute, it couldn't be sold.

Even in the Divine Secrets Holy Land, it could only be compared to ancient techniques.

"Cough Cough."

Luo Haoyu coughed. At the same time, his aura was faintly released, intimidating these people.

There was nothing they could do. The treasures that Lin Mo took out were getting stronger and stronger. These people could easily start fighting.

"Brother Lin, tell me the price."

The Great Ancient God dynasty's third princess, Gu Luo, walked out. Her expression was excited as she looked at this scroll of martial arts.

She couldn't be blamed for being so excited, because she was a wind attribute cultivator.

The great ancient God dynasty had spent a huge price to find a 2nd rank earth rank wind attribute cultivation technique for her.

Moreover, this cultivation technique was incomplete, and the accompanying martial technique wasn't complete. However, it made her invincible amongst the younger generation of the great ancient God dynasty.

Now that she had an even better one, no matter what price she had to pay, she had to obtain it.

"Alright, then I won't introduce it. Earth rank 4th rank leg technique, hurricane leg technique. The starting bid is 60 million mid-grade spirit stones."

Lin Mo smiled faintly. As soon as he finished his words, several forces at the front began to compete.

Saintess Xia you also had the wind attribute, which allowed her to maximize the power of the 'hurricane leg technique'.

She was competing with Gu Luo at the same time, causing the price to soar.

In just three minutes, under the crowd's bidding, the 'hurricane leg technique' broke through one hundred million middle-grade spirit stones.

Even so, the only ones who gave up were the Yanhuang dynasty and Great Yan dynasty.

Lu Jin dynasty, Great Ancient Dynasty, Divine Secrets Sacred Land, and another ninth sky of Nirvana realm expert who had concealed his identity.

Under the increase of the bid from these four parties, 100 million was not the final bid.

"This is too outrageous! Purple Moon Palace is really using all kinds of treasures to auction. They even brought out a martial technique that represents their foundation."

"Ai, there's nothing we can do about it. I heard that Lin Mo has the body of devouring divinity, so he needs too many energy stones to cultivate in the later stage."

"That's true. If he doesn't sell it, he won't be able to cultivate."

Everyone in the hall discussed. After another two minutes, the price of the was raised to 150 million.

At this moment, the reclusive expert had already given up. He didn't have enough spirit stones.

If this continued, when the price reached 170 million, only Saint Xia you and Gu Luo were still bidding.

"Saintess Xia You, Your Divine Secrets Sacred Land doesn't lack martial arts. Why are you so eager to compete? Can't you leave some spirit stones to auction the Green Destiny Jade?"

Gu Luo frowned. This price was almost beyond the bottom line of the dynasty.

Although she was the third princess, she hadn't inherited the dynasty yet.

Her talent was extraordinary, but she was still a junior, so she couldn't mobilize all the resources.

However, Saintess Xiyou was different. In the sacred land, other than the sacred lord, the Saintess had the most power.

Therefore, the resources she could mobilize were extremely rich. Almost everyone in this auction thought that Saintess Xiyou could win the Qingming Jade.

"Sister Gu Luo, you're exaggerating. A fourth rank Earth rank martial art is so compatible. I Can't bear to give it up."

Saintess xiyou continued to speak, unwilling to give up.

"173 million."

"174 million."

Neither of them wanted to give it up. As they continued to add on, the crowd's hearts couldn't take it anymore.

Even Lin Mo was shocked. Based on the trend of these two, could it be that they were going to break through 200 million?

The reality was the same. The two of them didn't give in to each other in their bids. Gu Luo also gave up on the final item, the Green Nether Jade, to compete with Saintess Xia you.

Another three minutes passed, and the price had already reached 200 million. Some people were already dumbfounded.

"My God, this is indeed an auction that can go down in history. The price of this auction is too outrageous..."

"Although I haven't bid once, to be able to see such a grand event is not a waste of my life."

Many people praised and looked forward to the outcome. Their eyes were burning as they looked at Saintess Xiyou and Princess Gu Luo who were bidding.

At this moment, the two of them were silent as they pondered. Their lips moved slightly as they discussed with the elders of their respective factions in the private room.

On the stage, Lin Mo didn't hurry them and just waited.

The current price was 213 million. He estimated that the bid was about to close.

It All depended on which of the two of them gave up first.

However, there was one thing that he was certain of. Whoever won the "Hurricane leg technique" would basically have no chance of winning the final round of the Green Nether Jade.

Unless he sold the treasure that he had obtained from the previous auction. However, this was a little unnecessary.

"Sigh, forget it. Since sister Gu Luo wants it, I won't fight for it. I'll wait for the Qingming Jade later..."

After a series of discussions, Saintess Xia you sighed.

Although she was reluctant to part with an Earth rank fourth rank martial art, she could only give it up.

Hearing this, Gu Luo heaved a sigh of relief, but soon after, her heart ached as well.

Spending 213 million middle-grade spirit stones in one go, this price was truly too expensive, causing her to be unable to obtain the final treasure.

"Brother Lin, announce the results..."

Princess Gu Luo said, and only then did Lin Mo unwillingly drop the auction hammer and announce the results.

The people in the hall were also satisfied, witnessing an auction that would go down in history.

"The auction continues. Next up is a half-step earth rank martial art..."

After confirming that there were no mistakes in the transaction between Lin Mo and Gu Luo, the auction began.

This time, they were fully prepared. Half-step earth rank treasures occupied the majority of the auction. Forty-five half-step Earth rank treasures were auctioned off.

Half of them were sent to be auctioned off by others in order to exchange for spirit stones.

Naturally, the purpose was to compete for Earth grade treasures.

"The 46th item, the rest of the items are all earth grade. If you all want it, you'll have to raise your spirits."

Lin Mo said with a smile. There were many treasures, and no large faction could swallow them all by themselves.

With the appearance of an Earth grade treasure, the competition became intense. The 46th item was a spatial magic tool.

It wasn't a storage space, but a battle-type magic tool with spatial attributes.

The rarity of this magic tool was needless to say. It was something that a mysterious expert had used to bid for it.

When Lin Mo saw it back then, he was shocked.

“This item is called the empty spirit bell. It’s an earth-rank rank 2 item and is extremely complete. It originated from a forbidden area. It was something that a senior had spent a lot of effort to obtain back then.”

“He’s planning to auction it off now. If you all want it, don’t miss it.”

Lin Mo said. Spatial-type battle-type artifacts were rare.

As such, its price was extremely ridiculous.

“The starting price is 50 million. Each bid must be raised by at least 1 million.”

Although the starting price was only 50 million, its value wasn’t limited to that. Soon, it was raised to 80 million.

At this moment, Princess Gu Luo of the great ancient God dynasty also joined in.

She still had spirit stones. Although she could not compete for the final Qingming Jade, she could still compete for other things.

“90 million.”

Gu Luo opened his mouth to bid against Meng Lie. This expert could not help but bid.

The Void Spirit Bell, a spatial type magic tool, was very useful for exploring some forbidden areas of the eastern continent.

If they could obtain it, they might be able to open a forbidden area. Just like Lin Mo and the others, they might be able to take away all the treasures in the forbidden area...

## **Chapter 465: Sky Demon**

“93 million.”

The Crown Prince of Lu Jin dynasty bid to compete with her.

In addition, the Old Man Xuan Yao was also competing. No one expected him to compete for the spiritual artifact.

“Hehe, I know who put this thing up for auction. My friend, I have an ancient spiritual pill here. How about this spiritual artifact of yours?”

The mysterious medicine old man walked out and said as he scanned the hall behind him with his spiritual power.

In the end, he was a little disappointed because he didn’t manage to find the other party...

“Senior, what kind of Spirit Pill is it? You can hand it over to this junior for auction, or you can exchange it with that senior.”

Lin Mo said with a smile on the stage. The spirit pills from the ancient times could be left behind, and nothing was defective.

After the wear and tear of time, the medicinal effects would definitely have worn out. To be treated as a treasure like this, it could be seen how precious the spirit pills were at their peak.

“Mystic Medicine, is your soul power failing? Haven’t you found where this old body is?”

An aged laughter sounded out. In the hall, in a row of seats at the back, an old woman dressed in coarse linen clothes waved her hand.

Everyone looked over and stared at her.

Everyone held their breaths and looked at her carefully. Their faces were filled with confusion.

Only some very old people thought for a moment before their expressions changed drastically and they retreated.

The crowd around the old woman dispersed in a hubbub. No one dared to stay.

“She’s Tian Sha, the evil cultivator who nearly wiped out half of the people in the eastern lands five thousand years ago...”

Some people recalled what had happened in the past and were extremely shocked. This person was a vicious person, and his reputation outside wasn’t good.

He was notorious and was called an evil cultivator.

Even Lin Mo, who was on the stage, was stunned. This person was an evil cultivator?

When he saw the other party take out the empty spirit bell, he had thought of befriending him. After all, the other party was already showing signs of aging, and his lifespan was coming to an end.

The Immortal Spring could save her life, and Lin Mo was confident that he could befriend her.

However, if she was an evil cultivator, he would have to consider it carefully.

Although he did not call himself a good person, he would not help evil cultivators to prolong their lives. He would not do such a thing.

“Hmph, what evil cultivator? They deserve to die.”

The old woman snorted coldly, and her gaze swept across the people around her, filled with killing intent.

Some people were even injured by this cold snort and were incomparably shocked.

“This senior, please abide by the rules in the auction.”

Lin Mo hurriedly spoke out. At this moment, he was also helpless. To hold such a grand auction, as expected, all kinds of monsters and ghosts had come.

Under the circumstances where their strength was insufficient, they really couldn’t suppress these people.

“Little child, don’t tell me that you also believed the things that happened back then?”The old woman called Tian Sha looked at Lin Mo with a gaze that gradually turned icy cold.

Lin Mo felt goosebumps all over his body. This was definitely a terrifying existence. Two thousand years ago, he was already at the ninth-level of the Nirvana realm.

If it wasn’t for the fact that she wasn’t able to break through to the Immortal Foundation realm back then, she would have already succeeded.

“Lin Mo, this Tian Sha isn’t an evil cultivator. I roughly know a little about what happened two thousand years ago.”

Luo Haoyu transmitted his voice. Tian Sha was born in poverty and was an unaffiliated cultivator.

When she was young, her strength was very weak and her cultivation level rose very slowly. She only broke through to the dragon transformation stage when she was close to 100 years old.

If it was not for the fact that she had some luck, she might not even be able to break through to the Nirvana stage.

However, when she broke through to the Nirvana stage, she was already 300 years old. She would reach her limit if she did not break through.

“It was also at that time that she discovered a relic. There was a shocking inheritance in it. It was said that it was a heaven grade spiritual pill. It could change the heavens and change one’s life. It could turn a useless cultivator into a genius.”

At that time, the entire eastern continent was in an uproar. Half of the people were hunting him down. Regardless of the young or old, they all wanted to obtain that heaven-grade spirit pill.

And after Tian Sha ate the heaven-grade spirit pill, he broke through to the ninth level of the Nirvana realm in less than ten years.

If it wasn’t for the environment, he would have long stepped into the Immortal Foundation realm.

Her talent was without a doubt. In addition, the cold and warmth of the people in her early years had long caused her to feel a chill in her heart.

In addition to the ten years of pursuit, on the day she came out of seclusion, blood flowed like a river. Millions of corpses were buried, and countless living beings cried.

“Although countless lives were killed, for revenge, it is not considered an evil cultivator. It can only be considered an iron-blooded massacre.”

After Luo Haoyu’s explanation, Lin Mo understood that the ones who had accused her of being an evil cultivator were probably the relatives and friends of the people who had been killed.

“I didn’t expect that there would still be people who remembered some of the things that happened in the past. You, a junior, are really thoughtful.”

Just as Luo Haoyu finished speaking, Tian Sha, who was far away, looked over and nodded at Luo Haoyu.

Her smile was very scary, but it did not have any malicious intent. Moreover, she called Luo Haoyu a junior.

“I’m 1,500 years old. It’s normal to call me a junior...”Luo Haoyu explained through voice transmission.

A 5,000-year-old monster could naturally call him a junior. Moreover, this person’s strength was extraordinary.

In terms of combat strength, even if he and Qi Luo joined hands with an earth grade artifact, they would still be crushed by the other party...

“Alright, I won’t waste any more words. I’m here for the immortal spring. I heard that you have it in this auction. Can you help me estimate how many spirit stones I need to get it?”

Tian Sha asked. She had lived for more than five thousand years and was nearing the end of her lifespan. She had used all kinds of methods to extend her lifespan.

The spirit pills were ineffective, and she had already consumed the spirit herbs. In the end, she used a secret technique to pass the time in a deep sleep.

Even so, she had already reached the end of her lifespan. She needed a stronger and better life-prolonging treasure.

Now that the Heavenly Tribulation had appeared, she wanted to transcend it in the strongest possible manner. At that time, she would be able to break through her bottleneck and ascend to the Immortal Foundation realm.

“Senior, the immortal spring is a fourth-grade Earth realm treasure. It’s very precious. I reckon it will be worth as much as it was before...”

Lin Mo answered honestly. The cheapest price before was Princess Gu Luo’s.

Five stalks of snow worry spirit flowers and 500 million middle-grade spirit stones. This was already the cheapest price.

Tian Sha probably didn’t have immortal ascension pills or territory unless he was willing to help purple moon palace conquer the Yanhuang dynasty...

“It’s too expensive, I don’t have any...”

Tian sha frowned. She had been sleeping all these years, and many of her collections were from the past.

Although she had killed many people and obtained a large amount of wealth, it had been used up all these years.

The only thing she could afford was the empty spirit bell. Not to mention 500 million middle-grade spirit stones, 200 million was already a high price...

“Junior, what do you need? The Immortal Spring is very important to me,”Tian Sha continued.

Everyone was silent. None of them dared to speak. They were all stunned by Tian Sha's imposing manner.

Saintess Xia you and the others frowned. They didn't want to see such a situation.

The Immortal Spring was very precious, but they had already used it. Otherwise, they could sell it to Tian Sha and make her owe him a favor.

After thinking for a while, Lin Mo discussed with qiluo and Luo Haoyu, and finally contacted Bai Luo and Jiang Xiyue.

All the high-level officials of Purple Moon Palace were discussing. They couldn't offend this old senior.

After ten minutes, Tian Sha was impatient. Just as he was about to ask, Lin Mo finally came to a conclusion.

His lips moved slightly, and he sent a voice transmission to Tian Sha.

Although there were a few waves of soul power transmitting over halfway, wanting to intercept the content within, they all stopped after Tian Sha gave a cold snort.

#### **Chapter 466: The Great Luo Divine Sword**

"Senior, I can give you the immortal spring, but you don't need spirit stones or anything like that. I heard that you don't have a fixed residence at the moment, would you be willing to come to the Purple Moon Palace to stay?"

As he spoke, he was a little nervous. If Tian Sha agreed, the Purple Moon Palace's strength would skyrocket.

However, Lin Mo was destined to be disappointed because Tian Sha had rejected him.

"I will not join any of the major powers. I will pursue the Dao with all my heart, all for the sake of breaking through to the immortal-foundation realm. I will go to the other continents and see how prosperous they are..."

It wasn't out of Lin Mo's expectations. He wasn't willing to accept it, but there was nothing he could do.

"How about this, I will send out an army in a period of time. I will bring three armies and two ninth-level heavenly experts with me. When the time comes, the palace will be empty and there will be no one to guard it."

"Senior, can you stay here for a year to protect this place?"

This was already his biggest concession. If he still didn't agree, then he wouldn't give him the immortal spring.

"You can auction it first. This old man will think about it..."

Tian Sha didn't agree, but he didn't refuse either. This made Lin Mo see hope.

"No problem."

After the matter was settled, he heaved a sigh of relief. Tian Sha retracted his aura completely and didn't leave anything out.

Lin Mo had his men arrange a private room for everyone in the hall to watch in peace.

"100 million middle-grade spirit stones."

Just as everyone was about to continue watching who would be able to bid for the ethereal bell, Tian Sha spoke up once more.

This was the spiritual artifact that she had used to bid for the bell. It was likely that she had used it herself.

Now that Lin Mo had stated her conditions, there was no longer a need for her to sell her spiritual artifact.

As for the others, they didn't dare to get into trouble, afraid that Tian Sha would hold a grudge against them.

Although this person might be reasonable at times, if you were to intentionally cause trouble, she would kill you without any hesitation.

"Deal, congratulations to this guest for auctioning off the empty spirit bell."

Lin Mo was overjoyed. Auctioning off the empty spirit bell with 100 million mid-grade spirit stones was a bit of a loss.

[ Congratulations to host for successfully auctioning off the Earth rank 2 empty spirit Bell ]

[ You have successfully triggered the 10,000 fold return from the auction ]

[ Congratulations, host, for obtaining the Earth Rank 5 Dao Spirit Bell ]

The Earth rank 5 Spirit Bell had triggered the 10,000 fold auction this time, causing Lin Mo to be pleasantly surprised.

It was rare to find a spirit bell of this rank. Even if there was one in the eastern continent, it would be in the most dangerous forbidden area, the ancient ruins.

It was left behind by an immortal foundation expert from ancient times, and was extremely dangerous.

Lin Mo even suspected that if he gave the immortal spring and Dao Spirit Bell to Tian Sha, this person would probably really join the Purple Moon Palace...

However, he wouldn't do such a thing. In fact, if he knew that this auction would attract so many old monsters.

He wouldn't even hold an auction because he couldn't control the situation.

If Tian Sha today was really the evil cultivator that everyone was talking about, his purple moon palace would probably be destroyed.

“The next item up for auction is a level 2 earth rank, illusory spirit sword.”

“This is a treasure that I found in the ghost domain. The ghost qi on it has been completely wiped off, so you can refine it without worry.”

“Of course, it’s not easy to get a treasure in the ghost domain. The person auctioning it has to think about it. If he’s not strong enough, I’m afraid he won’t be able to control the illusory spirit sword.”

Lin Mo reminded them that this was actually a treasure of the secret ghost sect that was placed in the ghost realm.

However, they didn’t expect that the place would be discovered by Saintess Xia You. They also didn’t expect that Lin Mo and Saintess Xia You would work together and break the array formation.

No matter who it was, the secret ghost sect would hold a grudge against them if they bid for this sword. Hence, those who knew the inside story kept their mouths shut and didn’t want to get involved.

“The starting bid for this item is 40 million. Each bid must be raised by at least 1 million.”

“Since no one wants it, then this old man will accept it with a smile.”

A hidden expert bid. He had bid many times before and bought many treasures.

“Another old monster...”

Lin Mo was already numb. He could only hope that these old fellows wouldn’t start a fight in Hailing city.

Otherwise, he might not be able to keep this fight going. Even the purple spirit guards wouldn’t be able to stop it...

“40 million. This thing’s origin is indeed dangerous. Don’t get involved, let this old man bear it alone.”

That expert said half-jokingly. If he really picked up an Earth rank 2 magic tool for 40 million, then he would really have profited.

Moreover, everyone present was silent, and didn’t bid.

On the side of the Yanhuang Divine Empire, retired emperor Jiang Feng had already gone to pay his respects to Meng Lie and hadn’t come out for a long time.

Old Man Xuan Yao wasn’t very interested in magic weapons, so he was silent.

Tian Sha was also indifferent and chose to ignore everything in the outside world.

On the other hand, Princess Gu Luo had used up a lot of spirit stones because she had auctioned off a scroll of martial arts. Although she wanted the illusory spirit sword, she still held back.

“Forty million going once. Is there no one bidding?”

Lin Mo knocked on the auction hammer tentatively. What was he doing? Could it be that he had suffered a heavy loss from the auction?

“That’s great. Everyone, stop bidding and shut your mouths...”

He thought to himself. Seeing that no one was bidding, he quickly struck the hammer for the second time.

“This old senior is going to take advantage of me. I’m so envious...”

The people in the hall were also nervous. This auction actually had a loss. It was a little strange...

“Is there any taboo about this sword? Why don’t you want it?”

Someone mustered up his courage and asked, because he couldn’t understand it anymore. They had also auctioned off the treasures from the ghost realm previously. Hadn’t they been fighting for them quite happily?

“Are you stupid? Those were all half-step Earth grade previously. It’s not worth offending a ninth sky expert just to find them.”

“He’s only at the 2nd tier Earth rankgradenow. He’ll definitely be in trouble.”

Someone said, making everyone in the hall even more confused.

What did he mean by finding him? Could it be that these treasures were stolen?

Didn’t Lin Mo say that he and Saintess Xia You found them in the ghost domain?

“Deal. Since no one is auctioning them, this illusory spirit sword will belong to this senior.”

Lin Mo didn’t even want to shout for the third time and directly dropped the hammer.

Right now, he was even more anxious than the one who had taken advantage of him. What would the system give him if he suffered a serious loss?

“Little friend, are you really planning to sell me at a loss...”

At this moment, the person in the dark was already feeling a little embarrassed. If he were to take advantage of him, he would probably be ridiculed by his old friend...

Taking advantage of a junior was a little immoral and disrespectful for an old man...

“Senior, there’s no need to be like this. According to the rules of the auction, if someone bids, the deal will be completed after three times. Those who break their promise will lose their reputation.”

“This junior will be holding an auction. If you can afford to lose, senior, please give me spirit stones.”

Lin Mo said with a smile. His heart was bursting with joy as he threw the illusory spirit sword towards a private room.

“Alright, this junior of yours suits this old man’s appetite. This old man will come to your auction frequently.”

A burst of laughter rang out from the private room. At the same time, a bag of spirit stones flew out, totaling 40 million.

After both parties had checked and confirmed that there was no mistake, the transaction was completed.

[ congratulations host for successfully auctioning off the Earth rank 2 magic tool, illusory spirit sword ]

[ This auction has suffered a heavy loss. The system will compensate you, triggering a 20,000 times auction return ]

[ Congratulations host for obtaining the Earth Rank 7 magic tool, Great Luo Divine Sword ]

The system's voice sounded out, causing Lin Mo to almost laugh out loud, his heart bursting with joy.

The earth rank 7 Great Luo divine sword was simply perfect, compared to it, the loss of Spirit Stones was nothing.

"The next item is..."

## **Chapter 467: The Grand Finale**

Earth grade treasures appeared one after another, and because he was willing to sell them at a loss in order to abide by the rules, many people admired him.

Thus, the subsequent auctions went very smoothly. In just a short hour, he had earned over a billion middle-grade spirit stones.

In the end, the strength of the crowd to raise their bids was already reduced. The spirit stones they brought this time were almost used up.

"Next up is the second item from the bottom of this auction. Don't miss it."

Lin Mo smiled. The auction was about to end.

A flower pot appeared in his hand. Within it was a pale golden soil that emitted a golden glow.

Within the Flower Pot was a tender green grass. Specks of Dao Charm appeared, turning the auction hall into a suitable place for cultivation.

Many people even felt as if they were about to comprehend the Dao.

It was truly miraculous. Everyone was curious as to what the penultimate item was...

"This is the luck dao grass. There's no need for me to explain its value, right? If you want it, I won't explain it to you."

"Starting bid, 70 million mid-grade spirit stones. Let the auction begin."

There was no need for Lin Mo to explain further. The value of this item was difficult to describe in terms of spirit stones.

This was because it represented the prosperity and prosperity of a faction.

As long as it was planted successfully, it would allow people to comprehend the dao and increase their cultivation speed. No faction would want to give up on it.

However, why would the Purple Moon Palace put it up for auction? Right now, the Purple Moon Palace should really need such a treasure.

“Vice Palace Head, is this luck grass a gift from someone else or a treasure from Your Purple Moon Palace?”

Someone asked. The luck grass was too precious, and the Purple Moon Palace wouldn’t give it up.

So it was very likely that someone else had sent it for auction, but no one knew who it was.

“This is a treasure from my Purple Moon Palace. It was especially taken out, so everyone can rest assured and auction it off.”

Lin Mo smiled. Naturally, it couldn’t be said that it was provided by the Divine Secrets Holy Land.

After all, they still had to take back this treasure. This auction was just for show.

This was what they had agreed on with Saintess Xia You back then.

“Don’t worry. Other than being in its infancy, this luck grass doesn’t have any flaws. I can guarantee that.”

Lin Mo continued speaking. After which, he knocked on the auction hammer and announced the start of the auction.

There was no point in continuing with the introduction, so the auction immediately began.

Everyone present had sharp eyes and knew that the luck grass was real, so they all participated in the auction.

“Sigh, there aren’t many spirit stones left. If I had known that there would be fate grass, I wouldn’t have participated in the auction earlier...”

An elder sighed. He had missed out on the fate grass because a few earth grade treasures had been auctioned earlier.

“Isn’t That so? As expected of an auction that has been recorded in the annals of history. All of them are precious treasures...”

Many people sighed. At this moment, the price of the fate grass had already reached 130,000,000 middle-grade spirit stones.

This wasn’t all, especially the people from the four great divine dynasties.

In their eyes, this wasn’t just an ordinary herb, it was also the hope of their respective forces in the future.

If anyone could obtain such a precious treasure, there would definitely be many geniuses in the sect in the future.

“150 million.”

Saintess Xia You spoke, raising the price without any hesitation. After all, she was the one auctioning it, so there was no need to really give the spirit stones.

“Sister Xia You doesn’t want the Green Destiny Jade Anymore? Why did you raise the price so much?”

Princess Gu Luo was puzzled. The sudden appearance of the luck grass had disrupted her plan.

She had originally agreed to borrow the spiritual stones from the crown prince of the Lu Jin Divine Empire to bid for the Green Destiny Jade.

Now that Saintess Xia You had put in so much effort to compete for the luck grass, she saw hope.

“Hehe, sister Gu Luo, you might not know this, but this fate grass doesn’t even exist in the Divine Secrets Holy Land. If you miss it, who knows when the next one will appear.”

Saintess Xia You said unhurriedly and raised the price again.

Soon, in less than two minutes, none of the five major forces gave up and raised the price to 210 million.

Even at this stage, no one gave up. They were still competing.

“Just how many spirit stones do they have? As expected of a top-tier power...”

Lin Mo sighed on the stage. Compared to these fellows, their Purple Moon Palace was a little lacking.

“300 million...”

At this moment, the price on the stage had already soared to 300 million. It was Saint Xia You who had shouted it out.

Upon seeing this, the entire place was extremely quiet. Everyone was looking at the other four great dynasties, waiting for them to make a bid.

“Our Yanhuang Divine Empire has withdrawn...”

“Our Lu Jin Divine Empire has withdrawn...”

“Great Yan Divine Empire has also withdrawn. We don’t have many spirit stones with us this time...”

Three great powers had withdrawn one after another. At this moment, only the Great Ancient Divine Empire and the Divine Secrets Holy Land were left to compete.

Everyone stared at Gu Luo as she walked out of the private room, waiting for her to make a bid.

“Forget it. Since sister Xia You likes it, I won’t compete. I’ll keep the spirit stones to compete for the Green Nether Jade...”

Gu Luo thought about it again and again, but he still chose to give up. Saintess Xia You had spent another 300 million spirit stones. Could she still compete?

“Then I’ll have to thank you, Little Sister.”

Saintess Xia You smiled lightly and waved at Lin Mo, throwing him an interspatial ring.

Seeing this, Lin Mo also threw the fate grass over.

In the interspatial ring, there weren't 300 million mid-grade spirit stones, only 3,000,000 mid-grade spirit stones.

According to the agreement, they only needed to pay a corresponding commission.

"Not bad, earning 3,000,000 mid-grade spirit stones for free." Lin Mo smiled, following which the system's voice sounded.

[ Congratulations host for successfully auctioning off an earth rank 1 fate grass ]

[ 8,000 times the profit from the auction has been triggered ]

[ Congratulations, host, for obtaining the Earth rank 3 fate grass ]

The profit was given to the Earth rank 2 fate grass, and it was also a fate grass.

Lin Mo sent his spiritual sense into the system space to check, and he saw that in an empty space, a half-meter tall grass was growing vigorously.

There were even some golden patterns on the grass leaves, looking very magical, carrying a bit of dao charm.

"Train them well. Next year, the Purple Moon Palace will be able to recruit disciples..."

Lin Mo nodded his head in satisfaction. The deal he had made with Saintess Xia You could be said to have been a bloody profit.

"Thank you all for coming to participate in this auction. Next, it will be the finale treasure that everyone is paying attention to."

"I know everyone's goal. The next item to be auctioned is an earth grade fifth tier supreme treasure, the Green Nether Jade. The starting price is 100 million mid-grade spirit stones. Everyone can bid now."

Lin Mo took out the green nether jade that he had obtained previously. There was no need for him to introduce it.

The reason why these people were attracted here was largely because of the Green Nether Jade. They knew its value.

"This old man will offer a scroll of Earth Rank 1 pill formula, three corresponding pills, and an additional 500 million mid-grade spirit stones."

"In addition, young friend should have heard of this old man's character. As long as you sell it to me, this old man can help you with three things without going against my principles."

Old Man Xuan Yao was the first to step forward. Everyone thought that he was going to bid, but they didn't expect him to say this.

Thinking about it carefully, it was normal. In the past, in the eastern continent, Earth grade treasures would only appear once every several hundred years.

It was the first time that the Purple Moon Palace had auctioned off so many earth grade treasures in one go.

It was already very difficult to use spirit stones to measure a fifth rank earth grade treasure. They needed treasures of equivalent value to exchange for it.

### **Chapter 468: It Has Nothing To Do With You**

Even Lin Mo was tempted by the price offered by the old man. He didn't need the pill formula, but the Panaceas were different.

The first rank Earth grade panaceas were at least third rank Earth grade panaceas.

Only extremely dangerous forbidden areas had panaceas of this level. Ordinary people couldn't set foot in them.

"Wait a moment, I have here a fifth level earth grade array diagram. It's a cultivation array, and it can be set up successfully."

"However, setting up an earth grade array is very troublesome and requires a lot of resources, but it's worth it. In addition, this old man can also owe a favor."

Another mysterious expert appeared. He had bid many times before, but had never appeared. At this time, he finally stood out.

"It's Daoist Wuliang, an expert who rose to power 2,500 years ago. With a single Daoist technique, he is unrivalled in the world..."

Some important figures recognized this person and were incomparably shocked.

This person was the same as Tian Sha from before. He was the strongest expert of an era and was unrivalled in the world back then...

"How is it, young friend, do you agree?"

Daoist Wuliang asked. His conditions were even greater than that of old man Xuan Yao. A scroll that could be used to set up a rank 5 earth rank cultivation formation.

Lin Mo was very tempted. He asked Daoist Wuliang through voice transmission what materials he needed.

However, after hearing the results, he was a little silent. It was indeed too much of a stretch for a Nirvana Realm expert to set up an earth grade array.

If he really organized people to set it up, the spirit stones auctioned at this grand meeting would all be squandered, including the system's rebate.

"I'm sorry, senior. This junior has a God Devouring Body and needs a large amount of cultivation resources. I can't afford such consumption..."

Lin Mo cupped his fists and could only refuse. These spirit stones belonged to the Purple Moon Palace. Although he could mobilize them, he couldn't use them all. That would be too selfish.

"Sigh..."

Daoist Wuliang sighed and didn't stay any longer. He turned around and left. This was the limit of what he could do.

"Young friend, if I swear on my Dao heart that I'll join the Purple Moon Palace, can I have the Green Destiny Jade?"

At this moment, Tian Sha's voice sounded in Lin Mo's ear, causing him to be extremely shocked.

If this peerless expert really joined the Purple Moon Palace, then the Purple Moon Palace's foundation would be second only to the Divine Secrets Sacred Land.

"This... Senior, please allow me to consider it."

It was now Lin Mo's turn to consider. Whether or not he should agree was something he couldn't decide.

In the end, Jiang Xiyue and Bai Luo were called over. The three of them secretly transmitted their voices to discuss. When the two of them heard Tian Sha's conditions, their hearts were filled with shock.

"This Tian Sha is very strong and his talent isn't bad either. If he was from another continent, he would have long broken through to the immortal-foundation realm." Bai Luo gave his evaluation.

The same was true for Daoist Wuliang who left earlier. The talent and strength of these two were on par.

"Let's see what the others are offering," said Jiang Xiyue, asking Lin Mo to wait a moment.

Seeing this, Lin Mo knocked on the auction hammer and asked, "Is there anyone else who would like to bid?"

What he favored the most at the moment was Tian Sha's offer. He just didn't know what Holy Maiden Xia You would offer.

"Brother Lin, what do you think about one billion middle-grade spirit stones and three favors? What do you think of this offer?"

Zhen Gu's voice was heard, and he did not try to hide it. This was the price the Great Yan Divine Empire could offer.

One billion middle-grade spirit stones... Even for them, it would take them at least half a year to earn it back.

"Ai, I thought it would be a normal auction, but it turned out to be like this..."

Princess Gu Luo walked out and sighed. This was different from her plan. If she had known this would happen, she would have competed for the fate grass.

However, what she didn't know was that no matter how much she bid, the fate grass wouldn't belong to her...

"Brother Lin, our Great Ancient Divine Empire has a danger zone with countless treasures inside. However, it's very dangerous. Only someone in the ninth sky of Nirvana Realm can set foot in it. I wonder if this can be used as a condition to gift it to the Purple Moon Palace?"

Hearing this, everyone was a bit surprised, but then they thought of something and were somewhat shocked.

Seeing everyone's expressions, princess Gu Luo nodded and said, "That's right, it's what you think it is, the underwater dragon palace."

The Underwater Dragon Palace was discovered more than five thousand years ago. Back then, the strongest expert of the Great Ancient Divine Empire had fought all over the world and was invincible in the world.

It had established the ownership of the underwater dragon palace, so no one dared to set foot in it.

Even now, although the underwater dragon palace was open to outsiders, it still belonged to the Great Ancient Divine Empire.

Now that they were using it to trade, it was rather frightening.

On the stage, Lin Mo was also moved. The treasures from the Monolith Forbidden Ground had allowed him to earn quite a bit of treasures.

Now that there was an underwater dragon palace, if he could crack it, he might be able to hold another auction of today's scale...

"This won't do. This underwater dragon palace is too dangerous. Some of the treasures in the safe areas have been emptied by the Great Ancient Divine Empire."

"The rest are all covered by the world-shaking killing array. They'll die if they go in..."

Jiang Xiyue shook her head and told Lin Mo that the underwater dragon palace wasn't as valuable as it used to be.

"Anyone else? What I'm interested in right now is senior Tian Sha's conditions..."

Lin Mo shook his head at Princess Gu Luo. An unknown forbidden land was very tempting to him, but it wasn't as tempting as Tian Sha joining.

"Haha, since it's a fair auction, I wonder if the members of the Secret Ghost Sect can participate?"

At this moment, the door to the outer area of the auction hall was suddenly opened, and a strange sound was heard.

The temperature in the hall suddenly dropped, and many people were suffocated by the oppressive aura.

"Hmph."

On the stage, Luo Haoyu and Qiluo snorted coldly, releasing their auras to expel the cold air.

“What? You don’t welcome us? Or are you saying that this auction isn’t open to everyone?”

A sneer came from outside, full of mockery.

“You worry too much, sir. It’s just that Purple Moon Palace has a deep grudge with the Secret Ghost Sect, and you didn’t come with good intentions,” Lin Mo said coldly.

It was almost over, and the Secret Ghost sect appeared. were they trying to stir up trouble?

“There are indeed grudges, but we’ve only offended the vice palace master, and we’ve already been rejected.”

“The Yanhuang Divine Dynasty has offended everyone in the Purple Moon Palace and nearly destroyed you all. Why are they here to participate in the auction?”

The members of the secret ghost sect sneered and pointed their spears at the Yanhuang Divine Empire.

“You...”

In the private room, Jiang Feng walked out with a face full of anger.

It was not easy for him to lower his presence and make Lin Mo ignore this place, but the Hidden Ghost Sect actually pushed him out.

“Jiang Feng, don’t look at me like that. Everything was done by that good son of yours.”The Hidden Ghost sect sneered and said mockingly.

“This is a family matter of our Yanhuang Divine Empire. It is an internal conflict. It is not your Hidden Ghost Sect’s place to come and criticize.”

Jiang Feng said coldly. A cattail leaf fan appeared in his hand. An icy air pervaded the air. This was an earth-grade magic artifact.

He was going to make a move. If the hidden ghost sect continued to speak like this, things would be really bad.

“This is the auction house. Please have some self-respect, sir.”

Lin Mo’s cold voice rang out, but it was directed at Jiang Feng.

He looked at the other party coldly and said word by word, “Also, our grudge is a grudge between the Yanhuang Divine Dynasty and the Purple Moon Palace. It’s not a family matter. Xiyue has nothing to do with you.”

### **Chapter 469: Ten Tribulations Lightning Jade**

Ten tribulations lightning Jade

As soon as he said this, everyone was shocked. This was the retired emperor of the Yanhuang dynasty, an expert of his generation, but he was actually targeted like this ...

Jiang Feng also seemed to have aged by more than ten years. He was embarrassed when Jiang xiyue did not refute Lin Mo's words at all ...

"I'm overthinking ..."

Jiang Feng sighed. He looked at the expressionless Jiang xiyue in the sky and shook his head bitterly.

"Xiyue, no matter what, I'm still your grandfather ... You can't avoid the bloodline."

you can't turn back your mistakes. I don't expect you to let it go, but I only hope that you can leave the inheritance of the Yan Huang dynasty ...

After saying this, Jiang Feng did not stay any longer and called for the tenth Princess.

The two of them looked a little lonely as they walked out of the auction house and disappeared from everyone's sight.

At this moment, Jiang xiyue's cold expression finally changed a little. She had mixed feelings.

Jiang Feng had truly regretted forcing him away earlier. Now, he was standing on the opposite side ...

"When I was weak, why didn't I say that ..."

She sighed and didn't say anything else. What made the other party regret was her power and strength.

This family love was still not pure, but she was satisfied. At least she felt it ...

She felt a warmth in her palm. She looked up and saw Lin Mo holding her hand, comforting her.

Everything was said without words. The things that had been decided long ago would not change, and the plan to attack the Yan Huang dynasty would not change.

However, as Jiang Feng had said, blood was thicker than water. It wasn't impossible to leave the other party's inheritance ...

"People of the hidden ghost sect, if you want to participate in the auction, then bid. As long as you are willing to pay, you can participate in the auction."

After consoling Jiang xiyue, Lin Mo looked outside the auction house. The people of the hidden ghost sect were still there, still eyeing them covetously.

"Alright, I have a martial skill here, rank 5 Earth Class sky swallowing art. I found it in the ghost domain."

"This should be enough, right? it's even more valuable than the dark green jade. You'll have to give me one person's share of the undying spring water."

"Rank 5 Earth Class?"

Even Lin Mo was shocked when he heard those words. A legacy level cultivation technique of this level had really been found ...

"What are the attributes of the cultivation method and what are the special abilities?"

Lin Mo asked. The value of a cultivation technique of this level was so great that he suspected that there was a conspiracy.

it has no attributes and is very compatible. Anyone can cultivate it. However, it has a weakness. It has a cultivation limit ...

“All cultivators can only reach the peak of the ninth heaven of the Nirvana realm in their lifetime.”

at this level, even if you have extraordinary talent, you can't go any further. You can't even re-cultivate.

The upper limit was sealed, but the lower limit was very high. Even those with average talent could cultivate to the Nirvana realm.

This reminded Lin Mo of the three armies. If he were to successfully cultivate it, the 200000 Nirvana stage experts ...

there's another flaw. It's very difficult to get started, and there's a certain requirement for talent ...

The hidden ghost sect's member continued, shattering Lin Mo's fantasy.

This kind of cultivation technique can only be given by passing on strength. So, pick a person to cultivate it and I'll pass on the strength to him.

then I don't need it. There are so many restrictions, and the upper limit is even sealed ...

Lin Mo interrupted the other party. Strength imparting was a type of cultivation method. Usually, the elders would help the younger generation clear their meridians and assist them in comprehending the cultivation technique.

However, there are many restrictions. The younger generation has to trust the other party unconditionally.

However, it was impossible for him to trust the hidden ghost sect.

“Vice Palace Master, please think carefully. As long as the person who cultivates this technique is slightly more talented, it won't be a problem for him to reach the 7th Sky of the Nirvana realm in a short time.”

The people from the hidden ghost sect wanted to continue but were interrupted by Lin Mo. There was no need for that.

senior Tian Sha is still the highest bidder. Divine Secrets Holy Land, Lu Jin divine dynasty, are you not going to bid?” Lin Mo asked.

I give up. My price is not even as good as Princess Gu Luo's.

Lu Jinchao's Crown Prince spoke up. He had no choice but to give up.

“Brother Lin, three immortal Ascension pills, one billion middle-grade spirit stones, and two portions of the undying spring. What do you think?”

Holy maiden Xia you finally spoke, and the price was extremely exaggerated.

One should know that the reason the beautiful silk of the purple Moon Palace could break through to the ninth heaven of the Nirvana stage was because of the immortal Ascension pill.

Now that they had obtained three at once, the purple Moon Palace would have three more ninth heaven experts in the future.

“Deal. Have you brought the immortal Ascension pill? we can make the deal now.”

Bai Luo said immediately. This price was even better for the current Purple Moon Palace.

Although Tian Sha would become stronger if he joined them, three immortal Ascension pills would be more valuable.

as expected of the divine Secrets Holy Land. It has a rich heritage ...

The door opened and Tian Sha walked out with a sigh. She had thought that joining the purple Moon Palace was enough.

I didn't expect Holy maiden Xia you to give me such a high price ...

“Of course I've brought it. Let's trade now.”

Saintess Xia you laughed as she personally presented the treasures. Three immortal Ascension pills that were emitting divine light were coveted by countless people.

In addition, there were also one billion middle-grade spirit stones, which made everyone's eyes red.

Some people even planned to come out and snatch it, but they were a little afraid when they saw Luo Haoyu and beautiful silk guarding it.

[ congratulations to the host for successfully auctioning the earth grade rank 5 dark green jade. ]

[ triggered 6000-fold auction interest return ]

[ congratulations, you have obtained a rank 7 Earth Class ten calamity lightning Jade. ]

The ten tribulations lightning Jade was a type of Jade that contained violent lightning attribute. The energy contained in it was even more violent than the dark green jade.

However, these were nothing to Lin Mo, who had the God Devourer body. He could just devour them directly.

“That's great. I can continue my closed-door cultivation.”

Lin Mo nodded in satisfaction. After the auction, he had earned more than four billion medium spiritual stones.

Not to mention, there were two other auction houses.

“Everyone, the auction has ended. Please return.”

Jiang xiyue stepped forward and gestured for the crowd to leave.

After the show ended, the crowd in the hall left one after another. Some of the leaders of the forces also left.

Those who knew Lin Mo also chose to leave after saying their goodbyes.

However, there were still many people who chose to stay in hailing city and rest. In addition, the atmosphere in hailing city had become a little strange.

Because so many treasures had appeared, those who had not obtained any treasures began to become greedy ...

Especially the people of the hidden ghost sect.

On the same day, there was a massacre in hailing city. A Holy Lord of a Holy Land was assassinated.

He was a Nirvana realm seventh Sky Warrior, but he was killed in his residence.

The treasures being auctioned off had also been snatched away, causing panic.

Many people fled, not daring to stay in hailing city for long, especially those who had won the auction.

The teleportation array was almost full, and they all wanted to leave this place as soon as possible.

“Hehe ... You won’t be able to escape.”

A sneer came, and a ghostly figure appeared in the sky above the teleportation formation in the center of hailing city.

It’s the people of the hidden ghost sect, they’ve made a move in public.

“A bunch of rats, you’re all looking for death.”

Lin Mo rushed over. Beside him, beautiful silk and Luo Haoyu had also arrived and attacked the sky.

“I didn’t expect that the hidden ghost sect’s sect master would personally come, this is really strange ...”

#### **Chapter 470: Fortunately, I Met You**

Fortunately, I met you

Following her was tiansha, who had stopped in her tracks. She had already recognized the person who had attacked her.

“Tian Sha, what do you mean by this? do you want to be my enemy?”

The hidden ghost sect’s sect master appeared and stared at Tian Sha, who was standing beside Lin Mo, with a serious expression.

The rest of the people were shocked. Why was Tian Sha here? was she planning to make a move?

I’ve taken the undying spring, so I’ll protect this place for a year.

Tian Sha said indifferently, telling him what he had promised.

She wanted to break through to the immortal-Foundation realm with the strongest attitude possible. The undying spring could give her a chance, so she wouldn't reject this condition.

"Alright, I'll give you face today."

To everyone's surprise, the hidden ghost sect's sect master did not fight with Tian Sha. Instead, he retreated.

"Senior, you can't stay?"

Lin Mo asked. Even if he could not kill the hidden ghost sect's sect master, he wanted Tian Sha to make a move. He wanted Tian Sha to be injured.

"He's also an expert of the same era, not weaker than me. If he wants to escape, I won't be able to stop him."

Tian Sha shook his head. At this level, it was too difficult to kill him.

Even if Taoist Wuliang, who was also in the city, attacked, he might not be able to stop her, let alone her.

"Let's do it this way. After today's matter, this place will be absolutely safe for a year."

At this point, tiansha hesitated for a moment before shaking his head, " "But you'd better leave an Army behind. I remember you have a defensive battle formation, it's safer."

It wasn't that she wasn't confident in herself, but now that the heavenly Tribulation had appeared, many reclusive experts had come out.

The purple Moon Palace had just accumulated so much wealth, and now they were going on a punitive expedition, which would inevitably attract people's attention.

It was good to have another layer of protection.

"I understand. Thank you for your reminder, senior."

Lin Mo nodded. The people of the hidden ghost sect had retreated, and the hailing city was safe. Those who were planning to escape earlier had stopped.

After consoling him, Lin Mo returned to the purple Moon Palace and counted the treasures in his hands.

In the palace, many treasures were placed in the center of the hall.

At this moment, he also took out the luck path grass. It was better and more precious than the one he had auctioned earlier.

"Earth Class rank 2 luck path grass, where did you get it?" Jiang xiyue was overjoyed. She was still worried about how to teach the disciples of the purple Moon Palace after they recruited them.

Now that he had the luck path grass, he just had to let them cultivate near the luck path grass for the initial guidance.

no wonder you would auction that luck Dao grass. There were two of them ...

Bai Luo nodded. He did not understand why Lin Mo wanted to sell the luck path grass.

I'll leave the internal arrangements to the drug lord and xiyue. As for the conquest, leave it to me and Bai Luo.

there's no rush to set off. Let's recuperate first. I'm planning to go into seclusion to cross the Tribulation. You're giving me pressure ...

Bai Luo shook his head. Now that Lin Mo's strength had surpassed hers, she was a little displeased and decided to undergo the heavenly Tribulation.

She had said earlier that she had come to the eastern continent for opportunities, and now she was ready to fully display her talent.

"Let's distribute these cultivation resources ..." Jiang xiyue said, and everyone came forward to divide the resources.

Luo Haoyu and damask each took 100 million medium spiritual stones. As they were at the ninth heaven of the Nirvana stage, their need for spiritual stones had increased.

Furthermore, they had bathed in the heavenly Tribulation and had not reached the upper limit of their realm. These spirit stones were just enough for them to cultivate.

"How do we split the three immortal Ascension pills?"

Luo Haoyu suddenly said as he looked at the three elixirs in the middle.

Even the divine Secrets Holy Land did not have many of these spiritual pills. Three of them was no small number.

Everyone looked up at the throne. Lin Mo and Jiang xiyue were also sitting on the throne, deep in thought.

Lin Mo really wanted to say that he should not auction it off, but he held back in the end. The immortal Ascension pill was very expensive, and under normal circumstances, it would not be auctioned off. He did not have a valid reason ...

He looked at Jiang xiyue and left the decision to her. She was the palace Master, so it was normal for her to distribute the food.

"Bai Luo, do you and little butterfly need it?" Jiang xiyue asked.

In the purple Moon Palace, other than the few of them, only Bai Luo and Lin die were able to cultivate to the eighth sky of the Nirvana realm in a short time.

"You and I can't use it. Even if we eat it, we'll wait until we're in the ninth heaven." Bai Luo shook his head. He had said before that the few of them could not rely on pills to break through their realms.

give one to Yan Rong. Palace Master, keep one for yourself. Use it when you reach the ninth heaven. The rest can be used as your Foundation.

Bai Luo gave a suggestion, planning to let Yan Rong take advantage of the situation?

“Ah, I got a share too?”

At the end of the hall, Yan Rong, who had been paddling, was stunned. He pointed at himself with uncertainty.

After Bai Luo nodded, he shook his head continuously and said, “No, it’s a waste ...”

He refused decisively. He knew his own worth. It would be enough if he could walk a few more steps in the Nirvana stage in this life.

He didn’t even dare to think about immortal-Foundation ...

Yan Rong, I’ll give you one then. Don’t reject it. The future great elder of the purple Moon Palace ... Jiang xiyue said with a smile.

Tell Yan Rong that when he breaks through to the ninth sky of Nirvana stage, he will be the great elder ...

“This ...”

Yan Rong wanted to refuse but was interrupted by Lin Mo.

Then, he was given many spirit stones and treasures for him to go into seclusion, which made the other elders in the hall envious.

After half an hour, everyone was smiling.

The rest of the treasures were sent to the Treasury, which was the foundation of the purple Moon Palace.

The crowd left one after another. Jiang xiyue sat in the main seat, but she was sullen and seemed to be troubled.

“Are you thinking about the Yan Huang dynasty?” Lin Mo leaned against the throne and wrapped his arm around Jiang xiyue’s slender waist.

“Mm ...”

Jiang xiyue nodded and leaned into Lin Mo’s arms. She said emotionlessly, “What do you think my father is thinking about now?”

he’s probably regretting it now. If he were to appear now, he would definitely beg you to go back and become the Empress with snot and tears in his eyes. Lin Mo joked.

“Hehe ...”

“Just think about it. It’s a little funny, but it’s obviously impossible ...” Jiang xiyue laughed at Lin Mo’s words and then shook her head.

How could that be? he was the Emperor of a country. He would not allow anyone to disobey him, so why would he beg others?

Moreover, the person he was begging for was a chess piece that he had once used, or even an abandoned piece ...

it won't be long before I let them know how stupid it was to abandon you. Lin Mo said solemnly.

He was not boasting because he intended to break through to the 6th sky of Nirvana stage during this closed-door training.

At that time, even a level nine expert would not be able to kill him easily. With the purple spirit guards, it was time to go to war ...

"Are you planning to destroy the Yan Huang dynasty?" Jiang xiyue suddenly asked.

This question had appeared in her mind many times in the past, but she had never known the answer.

Now, she looked at Lin Mo, wanting to know what he was thinking.

"Of course not. I've also thought about this problem. If we really destroy it, I'm afraid it'll be disadvantageous to you."

Lin Mo shook his head. If he really killed her, Jiang xiyue would be labeled as the murderer of her father, and the public wouldn't care what reason she had.

I will protect you. I will do my best to prevent you from getting hurt, even if it's just gossip.

Lin Mo hugged Jiang xiyue tightly and said in a gentle voice.

"I'm lucky to have met you ..."

Jiang xiyue's heart was filled with sweetness. It was great to have someone like him who loved her.

The two of them embraced each other, and their desire was ignited. In this Hall, no one disturbed them. A moment of spring ...
