

## Triplets On SM 1241

Chapter 1241-nts in the end is whether you will like it. Get Sean to take you to have a look when you have time. If there's anything that you don't like, you can just say so. We have plenty of time to make amendments."

"Okay. I'll take her to have a look in the next couple of days."

Sean sat at one side and looked at Molly with a gentle gaze.

Molly immediately felt touched.

At that moment, she felt she was surrounded by happiness.

She had a family that loved her, a man that she loved and three children.

What could possibly be better?

During dinner, the whole family was very happy because they were reunited and they all drank some alcohol.

Even Sean and Molly drank a few glasses.

After the meal, Alice and Ricky got Mr. Anderson Sr. to bed.

As for Grandpa Dave and Mr. Ballard, they were being looked after by the butler and the servants.

After Molly finished having a shower, she went to Sean's room.

The reason that she went to his room was because she was worried that he might feel uncomfortable after drinking some alcohol.

Moreover, his legs had just recovered, but they had been too busy recently, so he would still need to take extra care.

Therefore, Molly came over with the medical kit.

Sean had just finished having a shower as well. He was wearing his night robe.

When he saw Molly, he pulled her into the room and locked the door.

Molly cocked her brows but didn't say anything.

She waited until they had arrived at the sofa before saying, "Sit down. Let me take a look at your legs first."

Sean sat down and relaxed his long legs and allowed Molly to do whatever she wanted.

Molly squatted down and pressed down on some parts of Sean's legs. She wanted to make sure that his muscles were fine.

During the process, she asked, "Do you feel any discomfort while you walk? Or is there anywhere you feel that gets sore easily?"

"My knees will feel sore easily," Sean replied honestly.

Molly raised her head. "That's normal, but you've just recovered and you've been running around quite a lot recently, so I will need to use the needle technique again to help you recover better. Also... why do I feel that your leg muscles are too stiff?"

“Are they?” Sean asked nervously.

His dark eyes stared at the woman’s fingers which were moving on his legs.

“Yep.”

Molly was a little worried.

Sean had been in a wheelchair for quite a long time, so there might be a possibility that some of his nerves weren’t fully recovered yet.

This was not something she wanted.

“Looks like I need to find time to do a complete check-up.”

“That’s not necessary. I think I know roughly what’s going on. N Sean’s eyes darkened even more. Even his voice became deeper.

Molly put on a suspicious expression. “You know what’s going on?”

Sean leaned towards Molly and said in an attractive voice next to her ear, “If you try and let me massage your legs... it will be the same for you!”

Molly was stunned at first and then began to blush.

She couldn’t help but laugh. “Sean, I’m being serious here.

What the hell is in that mind of yours?”

“You!”

Sean picked Molly up and sat her on his legs. "If I don't think about anything with you by my side, then we have a problem. M As he said those words, he leaned his head on Molly's neck.

She could feel his warm breath on her skin.

Molly's body stiffened a little.

With the position that the two of them were in, Molly could feel clearly the change in a certain part of Sean's body.

Such a feeling made Molly's ears turn red as well.

Her breathing became a little fast and before she could react, Sean leaned in and kissed her.

Chapter 1242-The man was kissing her very gently.

He held her in his arms and his actions were extremely lingering.

Molly obediently wrapped her arms around his neck in response. This made Sean even more impulsive.

He tightened his arms as if he wanted Molly to bond with him.

Just as the two of them were a little lost in the passion, someone suddenly began knocking on the door.

This caused Molly to suddenly come back to her senses with her watery eyes wide open.

Sean was forced to stop and he furrowed his brows.

He wanted to ignore the noise and continue.

However, the knocking on the door just wouldn't stop.

Molly pushed Sean gently. "Stop. Go and see who it is."

The veins on Sean's forehead popped and he looked like he was going to murder someone.

'Who the hell is it that dares to bother me at such a moment?' he wondered.

'Why does he have to come at such a crucial moment?' Sean sat up, tidied his and Molly's clothes and then went to open the door with gnashed teeth.

That was when he locked gazes with three pairs of innocent eyes.

It was the three children.

The three children were all wearing dinosaur pajamas and were carrying a small pillow each. They were all looking at their daddy with cute eyes.

"What... what brought you here?"

The killing intent on Sean's face immediately disappeared and his face stiffened, due to the fact that Sean was a little dumbfounded and a little angry just now.

The three children blinked their eyes and only just came to realize something.

"Did we just bother you, Daddy?" asked Alex.

"Wasn't Mommy here to check on Daddy's legs?"

Ben stuck out his head and looked into the room. He just happened to see his mommy with a red face.

He stuck out his tongue and quickly apologized, "Sorry, Daddy. We didn't do it on purpose."

"That's right. We were just thinking that we haven't seen Daddy and Mommy for a long time, so we want to sleep with you. If we had known... we wouldn't have come," said Claudia feeling embarrassed.

When Sean heard their childish voices, he no longer felt angry.

He felt hopeless and could only smile. "You don't need to apologize. We didn't say that you can't come. Ahem... your mommy has finished checking my legs, come in. We can all sleep together tonight."

The three children's eyes immediately lit up. "That's great!"

With that said, they all rushed inside the room with their pillows in their hands.

Molly had already finished tidying the clothes that she was wearing.

It was obvious that she had heard what the three children were saying. Her burning face had not yet cooled down.

All she could do was glare at Sean sulkily.

When Sean saw this, he felt the desire in him rising again.

What Molly didn't know was how coquettish and seductive she was just now to Sean.

In fact, Molly really didn't know.

When she saw the three adorable children, she had completely forgotten about Sean.

She pulled the three children into her arms dotingly and kissed each of them on the cheeks. "Whose children are you? You're so adorable!"

The three children kept on giggling as they were kissed by Molly. Their faces were also red and they replied, "We're Mommy's children."

"That's right. You're all mine. I love you all so much. You're all my favorites!"

Molly pulled the children into her arms.

The children were all very happy. "We love Mommy as well..."

Sean looked at the four of them interact and felt his heart soften.

He walked over to them and asked in a low voice, "You only like your mommy and not me?"

"We like Daddy as well!" the three children quickly replied.

As they said that, they quickly went over to Sean and kissed him on the cheeks.

This caused Sean to curve his lips.

Chapter 1243-Molly wasn't jealous at all when she saw such a scene.

After experiencing so much danger in Domster, she was still able to enjoy the warm times of the present. Molly felt that she was blessed.

She wanted her whole family to be together like this if possible.

Sean seemed to have guessed what Molly was thinking. He raised a hand and pulled her into his arms.

He and Molly locked gazes and both smiled. She then leaned on Sean.

Sean and Molly talked to the three children about what happened during the past month.

Before they knew it, an hour had passed.

Molly saw that it was getting late, so she urged the children to brush their teeth and go to bed.

The three children were still very excited. When they got into bed, they still couldn't fall asleep. Therefore, they urged their daddy to tell them a bedtime story.

This put Sean in a difficult position.

In the past, he had told the children that he was going to tell them bedtime stories, but he never got the chance.

Now that he was suddenly asked to do so, he didn't know where to start.

Sean didn't have the skill of telling a bedtime story and putting the children to sleep.

He could only force himself to calm down and ask, "What story do you want to hear?"

"Anything. As long as it's not a fairytale story," said Alex.

"Yeah, that would be too childish." Ben nodded in agreement.

Claudia also added, "We're tired of hearing the story about the prince and princess."

Sean didn't know whether to laugh or cry.

His children were very smart, but a little too smart. This meant that they wouldn't be deceived easily.

The children's books could no longer satisfy them.

After giving it some thought, Sean could only say, "If that's the case, then I'll tell you about space and the cosmos, how about that? I remember that you were very interested in the high-tech that's used in space, right?"

"Yeah!"

The three children agreed and all had excited looks on their faces. Sean cleared his throat and began his description.

He started from the launching of the rockets to the steps that the rockets remained in orbit. He also told the children about space and how far were the distances between planets.

No one knew if the three children could understand what Sean was talking about, but from the looks of their faces, they really liked the story.

However, as time passed, about half an hour later, the children began to feel sleepy.

In the end, they all began to close their eyes. They leaned against their mommy and daddy and fell into a deep slumber.

Sean looked at their cute faces and stopped talking. At the same time, he breathed a sigh of relief.

Molly went and put the cover on the three children. When she saw the state that Sean was in, he couldn't help but smile. "The expression on your face makes you look like you've just had a battle."

"It's a good thing that I have enough knowledge. Otherwise, I'll be totally embarrassed tonight," Sean lowered his voice and replied.

Molly had a big smile on her face. "You were doing quite a good job. From today onwards, you can have the job of telling them the bedtime story, Mr. Anderson."

When Sean heard the words, "Mr. Anderson", his heart began to race.

The desire which had dissipated due to the arrival of the three children began to rise again.

Therefore, Sean's eyes darkened, raised the cover and went to Molly's side. He then picked her up.

"Hey..." Molly gasped quietly and quickly covered her mouth. She then asked quietly, "What are you planning on doing?"

' Finishing what we've started of course," Sean lowered his head and replied to her ear.

Molly widened her eyes. "What? You want to continue? No way..."

She immediately began to struggle and pointed to the bed." The children are still here."

"Therefore, you need to be a little quieter. Don't wake them up. After all... it's not suitable for children."

As Sean said those words, she was taken into the bathroom.

Chapter 1244-The truth was that the walls were quite soundproof.

However, due to being nervous, Molly didn't dare to make much noise.

Especially after they went into the bathroom, she was placed on the wash basin and kissed. She deliberately suppressed herself, which caused her face to turn red.

Seeing her like this, Sean's eyes darkened even more. His eyes seemed to be sucking Molly in.

Therefore, he began to kiss Molly more violently and more desperately.

Molly's mind quickly went blank and she could only allow Sean to take the lead.

She would just respond slowly.

The two of them were in a passionate atmosphere, but they still had to keep in mind that the children were present, so they didn't go too far.

Besides, Sean didn't want to do anything with Molly in such a place anyway.

One was because he didn't want to force her into things and make her uncomfortable.

The second was because he didn't want to rush such a thing.

Therefore, in the end, he did what he had always done in the past. He guided her to help him release himself.

The two of them came out of the bathroom about an hour later. It was already late at night.

Molly was exhausted and her arms were sore.

Sean curved his lips and was lying by her side. He then massaged Molly's arms for her and kissed her gently on the forehead. "Sleep tight. Goodnight."

Molly used Sean's arm as a pillow and said, "Goodnight."

With that, she fell into a deep slumber as well.

Sean held her in his arms and then looked at the three children next to him. He had never felt so satisfied.

On the morning of the next day.

Molly was still asleep and felt her chin was a little itchy.

She opened her eyes and found two heads in her arms.

It was Ben and Claudia.

The two of them weren't sleeping sensibly at all.

One of them was lying on Molly's chest and the other was lying on her belly.

Only Alex was sitting sensibly by the bed and reading a book. Molly didn't know how long he was awake.

Molly found it a little funny. She rubbed the two children's heads and then said to Alex, "Good morning, baby. How come you're up so early?"

"Good morning, Mommy," replied Alex as he pursed his lips. He then said helplessly, "I've been kicked off the bed by Ben and Claudia, so I'm awake."

Molly slowly sat up and couldn't help but smile. "Did you get hurt?"

Alex shook his head. "No. I fell on the carpet. It was Daddy who picked me up.

He rubbed the part where I landed on as well."

Molly raised her head and only then did she realize the man by her side had disappeared.

However, in the direction of the shower, there was the sound of water. Sean was probably having a shower.

During this period of time, Molly quickly woke Ben and Claudia up.

When everyone finished washing up, Molly took the children next door to have breakfast with their grandpa and the others.

At the dining table, everyone was present and the atmosphere was very lively.

During breakfast, Nathan also came by.

He had heard that Molly had returned, so he especially came over to see her.

When Molly saw him, she still wasn't really enthusiastic towards him.

Nathan didn't really care either. His voice was also filled with care. "I've watched the news about what happened in Domster and found out it was chaos over there. I've been worried about you. I'm relieved to see you back in one piece. N Molly nodded indifferently. "I'm fine. Thank you for your concern."

Nathan hesitated before saying, "It's normal for me to show concern."

When Molly heard his attitude, she felt a little uncomfortable.

In the end, Grandpa Dave had to step in and help Molly out.” Have you had breakfast? If not, you can come and join us.

Don’t just stand there.”

Nathan looked at Molly’s attitude carefully.

When he saw that Molly didn’t say anything, he went and sat down.

The servants quickly brought another set of cutlery.

During breakfast, Grandpa Dave asked Sean and Molly,” What are your plans today?”

“I’ll head back to my office first after breakfast. There are some things I need to take care of. Then I’ll go to check out the engagement party venue with Molly in the afternoon,” replied Sean.

Chapter 1245-“It’s obvious that I’m going to stay at home to rest and keep you company,” said Molly.

When Grandpa Dave heard those words, he was naturally very happy.

However, Brycen couldn’t help but ask, “Speaking of which, are you going back to Xesxia after your engagement?”

If he remembered correctly, her mentor’s research was only half complete in Xesxia. The tutoring in university wasn’t complete yet either.

Molly had long had her own plans. “I probably will be heading back after our engagement. However, I’m planning on not accepting my mentor’s commission.

I'll leave the rest of the research for the others to continue. As for the university, due to the trip to Domster, I've asked for a period of leave. Therefore, I'll still have to give lectures every month, but I can arrange the time of lessons and won't be needing to stay around for too long."

After hearing those words, the three children were overjoyed. "That's awesome.

We finally won't have to be separated from Mommy!"

"That's right." Molly rubbed their heads with a smile on her face.

She wanted to spend more time with her children and that was why she declined her mentor's offer of continuing with the research.

If she had to continue the research, then she would transfer the research to the research laboratory near her home.

In short, she didn't want to leave her children and Sean again.

When Sean heard those words, he was naturally very happy.

After breakfast, he was about to go out.

Molly came to see him off. What they didn't expect was that Nathan came over as well.

He went to speak to Sean. "Mr. Anderson, there's something I want to ask you about. Is the Anderson Corporation negotiating with the Clay family about cooperation recently?"

When Sean heard those words, he cocked his brows and replied, "Yes, we are."

They had been to Domster for a month, but Sean still had a rough idea of what his company was doing. Therefore, it was obvious that he knew about such a fact.

“Why you ask?”

Nathan’s face became serious. “If that’s the case, then the Anderson Corporation might have to be careful. A few days ago, I went abroad on a business trip and found out that the leader of the Clay family has changed. The original leader, Jonah, is missing. The current leader is Jolson. It’s said that Jonah was attacked whilst he was at home. The people responsible for the attack seemed to be professional...”

Nathan stopped mid-sentence and didn’t continue.

However, Sean, and Molly, who was standing next to Sean, both understood what Nathan was talking about.

‘They seemed to be professional killers?’ wondered Molly as she frowned and subconsciously looked at Sean.

It was probably because of what happened in Domster that made Molly worried again.

When she heard those words, she subconsciously became nervous.

Sean grabbed Molly’s hand to comfort her as he said to Nathan, “The Clay family has over 100 years of history abroad. Even if there’s a new leader, I don’t think it will affect us doing business.”

Nathan shook his head. “There’s something that you don’t know. It seems that Jolson was the one who made a deal with those people to get rid of his brother.

Presently, the Clay family is in pieces. They’ve canceled a lot of cooperation with their partners. I’ve also heard that some of the Clay family’s properties have been bought out by others. Or... should I say Jolson gave those properties out.”

Sean frowned. "What you mean is that Jolson hired those killers to get rid of Jonah and the price he has to pay is to give out some of the Clay family's properties?"

"That's right." Nathan nodded. "This matter hasn't been exposed yet, but this is what I know. Not only that, the killers who were hired to kill Jonah were the same group of people who created chaos in Domster!"

Chapter 1246-the business world, Nathan was also considered an elite of the younger generation. So it was not surprising that he had his own network and contacts.

Sean gave him a deep look and said, "Thanks for the information. I'll check this matter."

Nathan shook his head, "You're welcome. It's the least I can do. You still need to handle the details yourself."

After that, he looked at Molly, "Well, I'll leave now. There's a meeting this morning." Molly nodded, hesitated, and said, "Thank you."

Nathan opened his mouth as if to say something, then closed it again after hesitation and quickly walked away.

Molly stared at his back and felt strange.

She certainly could see that Nathan had something else to say, but she didn't understand why he finally kept silent.

However, she didn't care too much.

It was probably something not very important.

Soon, Molly followed Sean into the door.

On the other side, Nathan did not leave immediately after getting into the car but waited for a while.

A moment later, Sawyer came out and got into the back seat.

He was going to the studio today, so he could take a ride from Nathan.

As soon as he got into the car, he looked at his brother beside him and said, "Why didn't you tell Molly that you want to attend their engagement party?"

Nathan looked out the window with a wry smile, "I could not utter a word. She probably doesn't want me to go because she did not mention it at all. Since that is the case, let's forget it. As long as she is happy, I can not go and bother her.

Just mom and dad..."

He sighed helplessly.

These days, their parents kept letting him persuade Molly, hoping to be present at her engagement party.

But this was obviously impossible!

Sawyer was silent for a moment and said, "I think...if you want to attend, maybe it's not a big problem. Molly doesn't resist you so much now. She allowed you to eat breakfast together this morning, which means that she didn't reject you anymore! But I'm afraid there's no hope for mom and dad."

"Are you serious?" After hearing this, Nathan was refreshed.

Sawyer nodded, "Molly looks cold on her face, but in fact, her heart is very soft.

You helped Caden before, and she must remind it in her heart and be moved.

Otherwise, she would not even let you in. Think about mom and dad. They are the best examples! So don't be discouraged. I'll find Brycen and grandpa later to intercede together, then you definitely can be present. As for mom and dad, we can't help it."

Nathan turned his eyes to Sawyer, "Mom and dad said that one woman will be looked down upon if her parents were not present at her engagement party."

Sawyer smiled sarcastically, "They are thinking about this problem now? Why didn't their care about how they despised Molly at the beginning? Besides, Sean is really fond of her now, and the elders of the Anderson family have accepted her. So who still dares to look down on her?"

"What's more, Molly always dares to love and hate, so she might be happier without them! Not to mention there's still grandpa! It's enough to have grandpa hosting her wedding."

"But...they are biological parents. It's different after all." Nathan tried to convince him.

Chapter 1247-Sawyer cast a glance at Nathan and said, "Brother, don't be such a fool! Don't you remember that they abandoned our sister many years ago? So now it's justifiable that Molly doesn't want to acknowledge them. My advice to you: don't speak up for our parents to Molly! Otherwise, you'll quickly lose the credit you've finally built up!" Nathan was speechless.

'Indeed! With Molly's character, if I always speak up for mom and dad, next time, Molly won't allow me in the door!' Nathan had always felt guilty about his only sister, so he didn't want to do anything to upset her.

Thinking about it, Nathan breathed a sigh and gave his assistant instructions, "Let's go."

The assistant nodded. Then the car quickly started and left!

Molly was in the dressing room right now, helping Sean tie his tie.

She had a serious look and she was very attentive.

Sean looked down at her. There is tenderness in his eyes.

After a while, Molly finished tying Sean's tie. She patted Sean's chest with satisfaction and said, "It's done. Perfect!"

You're so handsome!"

Sean curled up the corners of his lips, leaned into her face, kissed her lips, and said, "Thank you, darling."

Molly smiled brightly and replied, "You're welcome." Then she remembered what Nathan had just said earlier, and she frowned, "Did Nathan just say something about the Martial Art Union?"

Sean replied with a serious look, "I think so. I've asked Chester to look into it. I'll get things clear soon."

Molly was a little worried, "We've just got back from Domster and they're taking action. I'm afraid they already have plans! The Clay family is a powerful family. If they want to support a new leader, it won't be soon, will it?"

Sean didn't say anything. He looked like he was hesitating.

Noticing the expression on his face, Molly immediately reached out and poked him in the chest with her finger.

"You promised you wouldn't keep anything from me anymore! If you keep one more thing from me, I won't marry you!"

Sean was amused. He immediately grabbed her hand and gave it a kiss. Then he protested, "How can you keep saying you won't marry me?"

“So what? That’s all your fault, “Molly grunted,” You have poor credit! You don’t care about it, do you? Do you think I’m easy to fool?”

“Of course not! I promised I wouldn’t hide anything from you! Never again!”

Sean argued.

Then he continued, “Normally, it would take a long time to sabotage a mega-rich family. But the Martial Art Union is very powerful. They’re different!

“Think about it: They had stirred up such a storm in Domster. What about the Clay family?”

Molly’s face darkened and she asked, “So they aim at the Anderson Corporation?”

“Maybe, or maybe we’re just one of their targets! The Clay family is a powerful family. Maybe they have ties to the Unbounded Land. Anyway, we need to investigate it further.”

Sean patted Molly’s head and said, “Don’t worry about it. I’ll take care of it! Now we’re back. We’re safe. The Martial Art Union won’t dare do anything for us! Just get ready to be my beautiful bride, okay?”

Chapter 1248-Molly knitted her good-looking brows.

How could she not be worried?

But hearing Sean’s reassuring tone and looking at his calm expression, she was inexplicably relieved.

Finally, she nodded her head. “Got it. Then go to the company now. Be careful on the way.”

“Okay.”

Sean nodded and kissed her forehead. "Wait for me at home. I'll pick you up in the afternoon."

Molly smiled and agreed, and then she watched him leave.

On the way to the company, Tony drove while reporting in a low voice, "Something happened to the Clay family, but they didn't call off cooperation with our company. They even want to sign a contract with us as soon as possible."

Sean wasn't too surprised.

If the Martial Art Union's target was him, the cooperation would naturally not be stopped.

However, this did not mean that the Anderson Corporation had to accept it.

Sean instructed, "Postpone the signing time and let them wait. Take this opportunity to see what their purpose is."

"Okay."

Tony added, "By the way, our people have discovered that the Shepard family wants to transfer their domestic business. And they began to move abroad.

They probably guessed that you would deal with them when you returned, so they secretly plotted."

Hearing this, Sean said with a cold face, "What about the Shepard family's head?"

"Anthony and Williams are also ready to leave. They'll take a flight this afternoon."

Tony answered truthfully.

Sean sneered, "They want to run? Dream on!"

"You have a plan?"

Tony asked in a respectful voice.

Sean's tone was full of sarcasm. "They've been promoting the Shepard family's reputation everywhere. Then how can we not give them recognition? Besides, as the top secluded family in this country, they should do more 'good deeds'.

How can they run away?"

Hearing this, Tony guessed what Sean was going to do.

Tony felt pity for the Shepard family.

The Shepard family should not have messed with this scary man.

The Shepard family's trip to Domster was praised publicly by a very authoritative media account at 10:00 am.

"The Shepard family, as a secluded medical family, has done good deeds in line with their status. For this reason, we decided to award them. Also, we call on the public to learn from the Shepard family.

"In addition, recently, several villages in the northwest region have been suffering from an unknown illness. Many villagers are seriously ill, and their lives are in danger.

Therefore, we intend to invite the Shepard family to cooperate with us to treat the villagers."

Once the news came out, the Shepard family saw it.

Anthony did not have the joy of being praised, and his face even looked a little sullen.

“What’s this? Award? I’ve never heard of it before. Why did they say it at this time? Sounds suspicious!”

Williams felt it was fishy. “No matter what their intention is, we need to get out of here. Something’s wrong.”

Anthony nodded. “I’ll have someone change the flight immediately.”

He was about to raise his voice to call the butler.

But before he could do so, he saw the butler hurrying in and reporting. “A guest has arrived...”

The father’s and son’s hearts sank. They asked, “Who’s here? N The butler was just about to answer when a group of people came in.

The leader of the group was Tony.

The people beside him were the representatives of the official medical team.

When they walked in, Tony greeted them first. “Hello, I am the assistant of Mr.

Sean Anderson, the president of the Anderson Corporation. These are medical experts. They have heard about the Shepard family’s excellent medical skills, and they hope that they can go to the northwest with you to treat the villagers.”

Chapter 1249-Scowling, Anthony said sullenly, “We’re not going to participate in this free clinic!”

“But the government wishes to cooperate with you. Do you really want to turn down this invitation, Mr. Shepard? You’re the ‘Savior’ now. Also, people on social media are lavish with their praises for your family’s medical skills!

They even address you as 'Dr. Miracle'! So, I assume the Shepard family will not miss this volunteer activity!"

Tony flattered Anthony heatedly.

But Anthony knew he meant mischief from his tone.

The government would lose face if the Shepard family turned down the invitation.

Also, this family would become notorious!

Anthony replied through clenched teeth, "It's not that we don't want to cooperate, folks. Several members were sent to Domster for free clinics, but some have not returned.

We're undermanned now. Forgive my refusal, please."

Hearing that, the members of the medical delegation looked at each other.

Tony knew it would come to this, "Come on, you just sent a handful of your own people to Domster, and most of the members are social volunteers! Besides, you're still here. You can lead the delegation. Don't fail those who call you ' Savior'."

Anthony's countenance changed when he heard that.

He finally figured out the Anderson family's purpose.

They spoke highly of Anthony to force him to participate in this event!

In that case, Anthony could not leave.

'What a clever move!' Williams also twigged Sean's plan.

He was terrified of this scheme and began to think of a way to confront Sean.

He frowned and said peremptorily, "What if we say no?"

Participation in the free clinic was purely voluntary.

The government wouldn't mind the Shepard family's refusal.

Tony, however, determined to make them participate in this event and warned, "Nobody will argue your refusal... But I would advise you to think carefully. You know, Jose seemed to be close to the firebrands when he was in Domster!

"Just think, what will the boss think if he found out?"

Williams and Anthony's countenances changed when they heard that.

If this happened, everything would change!

The Shepard family would be labeled a spy.

By that time, this family would be fully investigated.

For a decent family, that was not a big deal.

But for the Shepard family, the opposite was true!

Williams's face was taut and pale.

Also, Anthony's face was drained of color.

He knew he had no option but to say yes.

"Well, we will participate in this free clinic," he said nastily.

"What a selfless family!" Tony praised, with a smile.

Then he turned to the delegation, "Do you hear that? Mr.

Shepard said they'll join you."

The members of the delegation nodded, "Yes. They are really selfless. That is...that is so typical Shepard!"

Anthony and Williams were unhappy, despite the compliments.

Anthony's face was glacial. "We need to make some preparations for the clinic.

How about starting tomorrow?"

Without thinking, Tony refused flatly, "Don't bother. The government will provide medical supplies and personnel. You can start at once."

Then, he added, "Oh, by the way, we volunteered our personnel to help you move the supplies. You see these men in black standing at the door? They are strong, though they looked fiendish."

Anthony's face looked gloomier than ever.

He, of course, could tell that these men were no ordinary bodyguards.

They were clearly sent to spy on him by the Anderson family!

Chapter 1250-Anthony was shaking with fury at this moment.

The Shepard family was also powerful. As the head of the Shepard family, he had been in a high position these years and was respected and flattered by others wherever he went.

He had never been threatened this way.

He scolded with wrath, "What a big shot you Anderson Corporation is! Even interfere with such a thing. It seems that Anderson Corporation is very confident in its influence."

"Compared with your family history, ours is nothing.

However, we are law-abiding and have taken an active part in many charitable activities, so many people acknowledge our company as an exemplary company. And the government is willing to give us immense support."

Tony said these words extraordinarily proudly.

Anthony couldn't wait to refute his words.

But thinking again, he had to admit that Tony's words were right.

Not only was Anderson Corporation managed well, but also it invested a huge amount of money in public welfare projects every year.

It was recognized as a good company.

Even though Anthony wanted to defame Anderson Corporation, he didn't know what to say.

Williams realized that it was pointless to argue with Tony, as their family had to offer help. He spoke, "Anthony, since the situation is so urgent, pack up and go with them."

Hearing these words, Anthony darkened his face.

But he knew that he had no choice but to agree because he couldn't harm the interests of the whole Shepard family.

In the end, he could only say through gritted teeth, "Okay. I'll go with them. I'm going upstairs to pack some clothes up!"

"Well, just ask the servants to pack them for you. Since you are the head of the family, why do you bother to do such a trivial thing yourself?"

Tony said the sarcastic words, which enraged Anthony so much that he nearly lost control of himself.

'What a nasty piece of work Sean's man is!' Furious, Anthony uttered harshly, "What? Are you still afraid that I'll escape?"

Tony answered straightforwardly, "Yes. I have such a worry!"

"No need! Our Shepard family has existed for hundreds of years. We keep our promise. But you, young man... You have been aggressive since you came.

We'll keep what you've done in mind," Williams spoke seriously.

Though Williams said the last few words in a toneless voice, they were full of discontent.

Obviously, he was wrathful with what Tony had done today, so he said those harsh words personally!

Others might be frightened when hearing Williams's words.

After all, it was not a good thing to offend such a powerful family.

But Tony didn't change his expression. He looked fearless and even replied, "My boss has long remembered what your family did. So, we're... 'thanking' you."

Then he suddenly took two steps forward, approached Williams, and whispered in his ear, "My boss asked me to tell you that he hoped the Shepard family would not play any tricks! If you are well-behaved, only you and Anthony have to take responsibility. Otherwise, the whole Shepard family will be destroyed. Don't blame us then..."

"You should know my boss's power. Even the Martial Art Union has to revere him. Wiping out the Shepard family is as easy as pinching an ant dead."

When Williams heard it, his whole body froze, and his face turned pale.

But in the end, he could only give a cold snort, not answering Tony.

Tony didn't care about Williams's attitude. Anyway, he had finished his task.

Later, Tony returned to Anderson Corporation to report to Sean when Anthony and the medical team set off.
