

## Triplets On SM 561

Chapter 561-'Molly, you have a wild imagination!' Molly was very busy the whole morning. The requirements for the villa's renovation were relatively strict, she was busy watching the blueprint of the research institute and supervising at work.

When Molly looked at the time, she suddenly realized it was already time for lunch.

Molly looked out the window when she heard the sound of a car's engine outside. The person who came out of the car was Sean.

'This guy really came back to have lunch with me.' Molly thought.

Molly had a smile, and a sweet sensation spread in her heart.

"It's inconvenient to eat while they're renovating, so I asked the chef to pack some food for US. Come over and eat it before it gets cold," Sean said.

He entered through the door and saw Molly's figure. He immediately asked her to come.

"Coming!" said Molly with a smile.

She went to Sean's side to clear up his seat and have lunch with him.

Sean also brought meals for the renovators, and everyone stopped working and ate together. After an hour's rest, they resumed their work.

"Are you going back to the company this afternoon?" Molly asked Sean while she was looking at the blueprint.

"I don't need to be there except for some meetings that require me there. Others can be handled through the laptop." Sean told Molly.

Molly nodded, she thought of telling Sean to go back to work if he was needed, and he did not need to accompany her here, she can settle her meal by herself.

After all, Sean's leg was injured and inconvenient. He had to work and do the rehabilitation. His body would not be able to bear the pressure. Molly would advise Sean to rest more if he had the time.

At that moment, Molly suddenly heard a bang behind her. Before she could turn around, she saw Sean's panicked expression.

"Watch out!" Sean exclaimed.

At that moment, Molly saw that Sean swiftly jumped up from the wheelchair and rushed toward her as if his legs were healed.

When the two fell to the ground together, they rolled a few times.

There was a loud bang where Molly was standing earlier, and the dust on the ground rose.

Molly lifted her head and saw that a wooden box of materials that had just arrived today appeared in that place where she was earlier. 'If I did not dodge and Sean had not pounced on me, that box would have hit me. I would be crippled if I didn't die.' Thinking of that, Molly also realized that Sean had just saved her life.

"Sean, are you okay? Are you hurt anywhere?" Molly got up anxiously and quickly helped Sean, who was under her.

"I'm fine. Are you hurt?" Sean propped himself up from the ground. He worried and wanted to look at Molly to make sure that she was okay.

When Sean saw the box rolling down, his heart skipped a beat. For the first time in his life, he was terrified. Fortunately, he managed to push Molly away.

Sean could not imagine what would happen if Molly was hit.

Chapter 562-Molly was still in shock, and she took a few deep breaths. She said, "I'm fine. Thank you for pushing me away in time."

Both of them survived the catastrophe and were glad for each other being safe.

Tony heard the commotion outside and came in. He saw that both of them were on the ground and hurried over to help.

"Boss, are you alright?" Tony asked while helping Sean up.

Even though Sean told Molly that he was okay, she could not stop worrying.

Molly checked Sean carefully from top to bottom.

She was worried that Sean's leg would be hurt again because of the fall earlier.

That thrilling scene was horrifying and made people anxious.

"Why did you pounce on me? You could've just called me to dodge it," Molly scolded.

Compared to her own safety, Molly could still avoid it anyway. But, Sean was different. His legs were not in good condition, and he could not even move independently.

'What would happen if Sean didn't manage to dodge it in time when the box fell on him after he pounced on me and pushed me away?' As soon as that thought came to Molly's mind, her heart skipped a beat. She even felt a little suffocating.

Molly's nose turned red suddenly, and she said, "Have you ever thought about what if you got hurt?" 1 Molly's mind was a little chaotic. Panic, fear, trauma, and all kinds of emotions were all over her head.

"Are you worried about me?" Sean asked Molly instead of answering her question. There was a smile on her face, and he felt good.

Molly could not help but be slightly angry when she saw Sean's appearance.

"In that situation, your movement is not as flexible as mine, why wouldn't I worry?!"

Sean saw that Molly was angry. He held her hand and smiled. He assured her, "I didn't have time to think. I didn't want to see you hurt; it was right in front of me. If we were to switch positions, wouldn't you have done the same for me?"

If Sean did not push Molly away at the right time and got hurt, he would rather be the one who was hurt.

"I..." Molly suddenly calmed down, she blamed Sean for not caring about himself, but the anger had dispersed.

Molly pursed her lips and said nothing.

Molly thought, 'If it was me, would I just shout at Sean to remind him instead of pushing him away?

'No, I wouldn't just call out to him.

'If Sean was almost hurt, I would have done the same thing as Sean in that position.' Thinking of that, Molly could not bear to blame Sean anymore. Because they were the same and were equally worried about each other's safety.

Tony was right next to his boss, and when he heard what his boss said, he turned his face silently.

Tony thought, 'Another day of public display of affection.' "Is this how you do things around here? Don't you know to be more cautious with such heavy things?" Tony stopped paying attention to what his boss and Ms. May were saying. He turned around and reprimanded the workers who were carrying things upstairs.

Tony continued, "Now, look what happened, what if it hits someone? who would be responsible if something happened? It would be too late to regret it if that happened!"

The renovators upstairs heard the commotion downstairs and quickly came down to check.

No one dared to refute after listening to Tony's rebuke. They apologized to Sean and Molly again and again.

"I'm really sorry about that, Mr. Anderson. We were too careless. Are you hurt?" asked one of the renovators. When they saw the person downstairs was Sean, they broke out in cold sweat.

"We're all right. Just be careful and continue your work."

Chapter 563-No one was hurt. Sean did not hold anyone accountable for that incident, and he got them to get back to work.

"Yes, of course," the worker said immediately after he realized that Sean did not blame anyone for what happened.

Sean was the CEO of the Anderson Corporation. The Anderson family was well known in Northfolk.

Because of that, the workers were worried after what happened just now.

Luckily, no one was hurt, otherwise, the workers would not be able to make up for what happened.

Because Sean did not hold anyone accountable, the workers had good feelings for him. They felt that Sean was forgiving.

Molly was still terrified about what happened as she saw the crowd walk away. She could not help but turn her head toward Sean.

'Sean unexpectedly did not hesitate to jump at me at that moment. If something bad happens at that time...

'An object fell from above. And, it was a heavy object.' Molly estimated the object's weight and the survival rate if Sean was hit by the object.

If Sean was hit by the object, he might not be able to survive. He would most likely die instantly even with Molly there with complete medical equipment.

The human body was not rock-hard like a machine. If Sean protected Molly with his body as the object hit right at him, it would be like fighting a hopeless battle.

He would be crushed to death.

Molly was not confident that she would be able to save Sean if that happened.

Life was precious but fragile.

Molly knew that very well as a doctor.

Sometimes people might not be able to survive even if they were hit lightly. And, doctors would not be able to do anything to save the casualties.

Humans were not as tough as everyone thought.

So, it deeply touched Molly's heart when Sean saved her without any hesitation.

He was the Anderson family's heir. He was also the person who ran the Anderson Corporation. He had a lot of responsibilities and glories. He was supposed to take his life more seriously.

The moment where Sean jumped at Molly was playing repeatedly in Molly's mind.

'He's a man with great authority. He's unparalleled.

'Is my life more important than his?' Molly stared at Sean as she thought about that. Her eyes were cold.

She felt puzzled as if something was bothering her.

No one in her life had treated her this well except for her grandfather. No one had ever risked their lives to save her.

Sean noticed that Molly was distracted as he looked at her. Although she was looking at him, her eyes were very cold. It was obvious that she was in a trance.

'Was she frightened?' He could not help but ask, "What's wrong?"

Molly regained her composure slowly. She did not look distracted like before.

"Were you hurt?"

She heard that Sean asked further about her. she shook her head as she said, "I'm fine."

Molly did not have the mood to work for the whole afternoon because of what happened, she was distracted, and she would look at Sean occasionally.

She had a lot of inner thoughts. That was why she was not able to work properly.

She wanted to work properly. But, she was too touched. She was constantly thinking about the moment when Sean jumped to save her.

Sean was still worried. He called Tony over and he said, "Go and get the workers to make sure that the facilities are safe. Make sure that accident won't happen again."

T was here for her this time. But, what if I'm not there when it happens next time?' Tony took Sean's order seriously. His sleeves were clenched. He was frightened by what happened too.

Sean did not dare to think about what would happen if the facilities remained unsafe. He said, "This would be good for them and the others. It's a responsibility."

"Okay, boss," Tony said. He then checked the facilities with the bodyguard and the workers diligently.

Chapter 564-Tony was afraid that Sean might get into trouble if any accident happened again. No one would be able to make up for the loss if something bad happened once more.

He did not want to anger the Anderson family.

Moreover, he had been working under Sean for many years. He did not want Sean to get into any trouble.

The sky was getting darker gradually. Soon, it was evening.

Molly packed her things before she went home with Sean and Tony.

But, it was relatively silent on the way back home.

That feeling was gone once she reached her house.

"Molly! You're home!"

"I haven't seen you the whole day. I miss you. I'd been looking out the window every second. I thought you were back whenever I heard a car passing by." Only Brycen could say such things.

Molly glanced at him. Her face was saying "you're being so dramatic".

"Molly, did you eat well over there? Did you sleep well?" Brycen ignored the look on Molly's face as he asked her that warmly. He then suddenly asked her another question again.

"Did Sean do anything to you yesterday?"

He was following behind his sister like a puppy.

Molly stopped walking. She then turned her head as she asked, "What can he do to me?"

She could not help but give a faint laugh after she said that.

'Sean's sick. If someone really did something, he should be worried about Sean and not me.' Brycen did not get what she really meant. He frowned as he said, "He's manipulative, who knows what he would do?!"

The triplets stared at Brycen as they followed Molly to the living room. They then went upstairs before they went back downstairs again.

They heard the whole conversation between Brycen and Molly.

Molly sat on the couch. Brycen then pushed his wheelchair to sit next to her.

The triplets gave Brycen despised looks as they said, "Uncle, why do you even ask that? Mommy isn't a kid anymore. If they really did something, isn't that great?"

'It was normal at the beginning of what the kids said. But, why did it get so inappropriate after that?' Molly could not help but feel shy as she heard that.

"What did you say? Do you all want to be punished?" she squinted as she said angrily.

The triplets immediately ran away separately. They were not afraid of their mother's threat.

Ben even provoked Molly, "Mommy, you can't catch us!"

He ran toward the main door. He would turn his head to look at his mother from time to time. He then saw Sean the next second.

Sean came over for dinner. He did not know what was happening when he saw Ben running toward him.

Suddenly, he noticed that Molly was running in his direction too.

Molly was provoked. So, she wanted to catch Ben and hit him playfully.

That was why she was chasing after Ben. Molly was surprised when she saw Sean. 'Why is he here?' She then realized she might not be able to slow down. So, she quickly grabbed the corner of a shoe rack. The shoe rack was made out of wood, and it was very heavy.

The force was hindered.

Molly managed to stop herself, as she almost bumped into Sean.

But, Sean seemed pretty calm. He was not afraid that Molly might injure him.

"So lively. What are you all playing?" he asked as he gave a faint smile.

“N-Nothing,” Molly quickly said.

‘If Sean hears those inappropriate things that my kids said, I would be so embarrassed.’ But, Ben, who liked his mother the most, did not help her this time.

He covered his mouth. He then immediately smiled when he noticed that Sean was not angry. He even took the opportunity to tell him what happened.

“Uncle Sean, what happened was...” He quickly told Sean about everything that had happened. It was too late for Molly to stop Ben.

“Stop talking!”

Chapter 565-Molly really wanted to spank that little boy. But, she did not do it because Sean was there. So, instead of spanking Ben, she tried to catch him instead.

“Ah! Help me, Uncle Sean!” Ben was agile like an eel in the water. He managed to avoid being caught by his mother. He then leaned against Sean as he hid behind him.

Sean could not help but laugh as he heard what Ben said. Sean then slowly said, “Don’t worry. I didn’t do anything to her...”

He noticed Molly looked shy. He could not help but tease her. “If I really wanted to do something, I would’ve waited until later...”

Molly suddenly blushed.

‘What did he mean by “If he wants to do something, he’d wait until later”?’

‘That’s so ambiguous.’ Just when Molly wanted to say something to rebut what Sean said, Grandpa Dave’s voice was heard.

“Why are you all standing by the door? Let’s have dinner.”

“Okay! We’re coming, grandpa!” Ben covered his mouth as he laughed. He then immediately looked at Molly as he said, “ Mommy, grandpa called US. Let’s go and eat.”

Molly glanced at Ben angrily, and she did not dare to look at Sean. She then turned around as she walked away.

“Uncle, let’s go!” Ben pushed the wheelchair attentively.

After dinner, just when Molly wanted to spot-check her kids’ homework, she suddenly received whatsapp messages from Benjamin.

He mentioned that Molly left her USB drive at his place when she was working there.

Molly had a lot of important information that she compiled inside that USB drive.

She could not lose it. She wanted to go and take it back from Benjamin. So, she asked Benjamin to meet up with her.

“Are you free tomorrow afternoon?”

Benjamin sent her a message again.

“Yes. I’m free tomorrow afternoon. Let me know where you want to meet up. I’ll just go there directly.”

The message was sent. Molly did not look at her phone after that.

The next day, Sean went to his office early in the morning. Molly had settled almost everything regarding the research laboratory near the villa, she did not need to go over there to oversee the

construction, as the workers would construct the laboratory based on her idea. So, she decided to stay at home.

The sun was warm but not hot during autumn. Molly moved the recliner next to the floor-to-ceiling window to sit there. She was holding a medical book, and there was a flower tea beside her hand.

The sun shone on her body. It had half a halo around it, and it was too beautiful to be true.

The triplets were playing chess beside her. They were keeping each other company without disturbing one another.

It was afternoon. Molly had finished her lunch, and it was time for her to meet up with Benjamin. The triplets noticed that Molly was leaving the house as she took her car key.

“Mommy, where are you going?” the triplets asked as they were having fun.

“I’m meeting up with Uncle Benjamin today. I left an important USB drive at his place. So, I need to take it back from him,” Molly answered truthfully, she did not hide it from her kids, she then wore her shoes as she left her home.

Forts residence. Benjamin wanted to leave the house. But, it was not as easy as Molly when she left her home. Because he had unexpected guests staying at his house.

“Benjamin, where are you going?” Queenie went after Benjamin just when he was about to leave the house.

Queenie and her mother had been staying at the Forts residence for the past few days because the Jiin family was in trouble. The Forts family treated the two of them very well.

However, Queenie only wanted to be treated well by Benjamin.

Even if someone else could treat her better, she did not want it.

But, Benjamin treated her as a disaster, she would never be able to be alone with him as long as they were at Forts residence.

Chapter 566-Even though she laid down her pride to be nice to him proactively, he still ditched her. Even Meredith could not stand that. She talked to Benjamin, but he still did things his way.

Queenie was sad when she saw Benjamin treat her that way.

"If you're going to the research laboratory, can I go with you? I can help you with whatever you need.

I'll cooperate..."

"It's fine." Benjamin rejected her ruthlessly. He stretched his arm beyond her to grab his car key.

"I'm not going to the research laboratory. You don't need to follow me," Benjamin said coldly. He ignored the hurt in Queenie's eyes as he turned around to leave the house.

"So, where are you going?" Queenie could not help but ask.

"Can you leave me alone? I'm not obligated to tell you about my whereabouts." Benjamin said impatiently.

He then left home immediately. He did not even glance at Queenie.

A loud sound could be heard as the door closed.

Queenie was heartbroken when she heard that. It hurt her.

Her eyes were filled with disappointment as she stared at the closing door. She did not walk further.

She was so into Benjamin that she lowered herself. There was probably no one other than her who would do this.

But, she could not help it. she thought of letting Benjamin go and moving on, but it hurt her heart whenever she thought about that. That was why she could not do it. She could not move on from Benjamin.

This was the first time in her life that she liked someone. This was also her first time liking someone so much.

She would do anything for Benjamin.

Yet, Benjamin liked another girl.

'I'm not that bad, right? Why can't Benjamin turn around and look at me?' "Sigh." A sigh came from behind.

Meredith walked down the stairs.

She saw what happened just now. But, she could not do anything about what was happening between Queenie and Benjamin.

"Queenie, I've asked Beesly to make your favorite dish, braised pork ball. Let her know if there's anything else you want to eat. I'll ask them to buy it for you if we don't have it at home."

Meredith did not know how to console Queen ie. she could only say some words of concern to her.

She kind of liked Queenie.

Queenie was good-looking, she was brilliant and knowledgeable too. Queenie and Benjamin would make a glamorous couple. They would go well together.

Meredith knew that Queenie liked her son a long time ago. But, the person that his son liked was Molly.

It was difficult for others to meddle in someone else's relationship. Even though Benjamin was Meredith's son, she could not say anything about it.

She could only try her best to show a little more concern to the girl in front of her.

"Okay," Queenie said rigidly. Queenie's mood did not improve, she still felt a little sad even though Meredith showed concern for her. "Mrs. Forts, rd like to go for a walk. I'll come back later."

"All right. Be safe." Meredith did not stop her. she assumed that Queenie wanted to get some fresh air as she stared at her lonely face.

However, Queenie wanted more than just getting some fresh air.

She was still wondering where Benjamin was going.

'Well, he's not going to the research laboratory. So, where is he going?' Queenie stared at Benjamin who had just left home as she thought about that, she then left the house and secretly follow him.

Benjamin and Molly met in a café.

The place was quiet but majestic. Molly was waiting for him in the café when Benjamin arrived.

Chapter 567-Queenie saw the way Benjamin looked at Molly. His eyes were suddenly gentle. But, his eyes were cold when they looked at Queenie. The feeling of jealousy and hatred in Queenie soared.

Benjamin and Molly did not notice that Queenie was there.

"You're here." Molly greeted Benjamin with a usual attitude as she asked for a waiter to order some drinks.

"An iced Americano. Thank you." Benjamin ordered a drink too.

He then made small talk with Molly after the waiter left.

"How's the progress of the research laboratory that you mentioned?" Benjamin did not mention anything about his previous love confession to her. Instead, he asked her about work.

He knew that feelings should not be forced. Moreover, it was Molly. Benjamin had a great sense of propriety. He knew he could not force Molly to like him.

"I like the environment of the location very much. I've looked at the drawing. The design of the research laboratory is great too. The research laboratory is still under renovation. After that, we'll need to seek out professional equipment for the research laboratory." Clearly, Molly was open about work.

They had known each other for many years. So, they had a lot to talk about whenever they started a conversation.

"What about the research laboratory that you said you wanted to build? How's the progress?" Molly asked Benjamin about his situation too.

"It's not easy to establish a new research laboratory. The main issue is recruiting talents. After the Jiin family's hospital closed down, I contacted some great workers that worked at the previous research laboratory. We will start work once the research laboratory is completed."

He did the former workers of the Jiin family's research laboratory a favor by hiring them.

Queenie was sitting behind Benjamin and Molly. The houseplant of the café blocked her silhouette, she could not help but clench her fist as she heard what Benjamin said.

'He hired some of the previous workers. But, he didn't even mention anything about that to me.

'Is it because of Molly?' Queenie was angry. But, she swallowed her anger and eavesdropped on their conversation.

"That's great. Although some of them have bad conduct, there's no doubt that they're all capable. You guys had worked together for some time. You'd make a great team if you all work together again."

Those were Molly's real thoughts.

"Actually, you're capable of doing it well."

Benjamin felt a hint of bitterness as he heard Molly's compliment.

"But, if I could, I'd prefer to work with you. We'd definitely make a better team compared to working with them," Benjamin said half-jokingly.

They were once the perfect working partners. Those were the days that he missed the most.

"Well, that was the past. Here is not overseas. Benjamin, people need to move on," Molly said with a smile. She did not look like she missed the past.

She unintentionally went into detail with Benjamin regarding the old days. Molly then got her USB drive back, and she checked the time as she said to Benjamin, "I need to go now. The triplets are waiting for me at home."

Molly stood up to leave without feeling nostalgic.

"Molly, I kind of regret it..."

Benjamin felt a stinging pain in his chest as he saw that Molly was ready to leave without any hesitation.

“What’s wrong?” Molly turned around as she asked.

Benjamin lifted the corner of his mouth as he said, “If initially, I were to ask you to work with me, and not work at the Jiin family’s hospital, maybe we wouldn’t end up like this. Sean also wouldn’t have the chance...”

Chapter 568-Suddenly, Benjamin stopped talking. Then, he took a deep breath after seeing the surprised look on Molly’s face.

“But, I can tell that he really likes you after what he did for you. The Jiin family is completely done for now.”

Benjamin did not mean anything by saying that, but other people there took it differently.

Not only Molly, but even Queenie, who was sitting at the back paused and started breathing rapidly.

‘What does that mean?

‘What does he mean the Jiin family is completely done for?’ Fear and anxiety crept up Queenie’s spine.

She held her left hand with her right hand unconsciously. She grabbed her hand tightly because she felt extremely uncomfortable.

“What do you mean by that?” Molly was shocked too. It was her first time hearing anything like that.

“The Jiin family was caught receiving bribes and got what they deserved after being exposed, isn’t it?”

“Everything that’s happening to them now is self-inflicted, right?”

Molly could not help but frown, she was about to leave, but she went back to her seat again.

“What are you trying to say?” Her expression turned serious. It seemed like she was not going to leave before Benjamin would give her an answer.

Benjamin smiled sarcastically after looking at how her attitude changed when Sean’s name was brought up.

“Yeah, it’s self-inflicted. However, do you think there’ll really be so many coincidences? Zain is a very cautious man. He hid all his illegal businesses very well after doing them for so many years.

Why would everything come to light all of a sudden just because somebody exposed him?”

Benjamin only knew that Sean did not tell Molly what he had done for her after looking at the confused look on her face.

“It was like wildfire. A gust of wind blew, and everything that Zain had built all these years burned to the ground. And, the Anderson Cooperation was that gust of wind. Sean did everything for you because he cares about you. He took revenge on the Jiin family because they mistreated you.”

Benjamin asked himself countless times. ‘Would I do what Sean did for Molly just to stand up for her?’ However, the imagination of him taking Sean’s place pierced through his heart.

He understood that Molly would never be his woman.

“Otherwise, why do you think that nobody dared to step forward and help Zain even though he had so many friends? That’s because everybody in Northfolk is afraid of the Anderson family and nobody would dare to help the person that Sean is going after.”

Benjamin took a deep breath and recollected himself. “I don’t know how deeply he’s in love with you, but I’m sure he won’t mistreat you after everything that he’d done for you.”

Then, he continued speaking while looking at Molly, who was dumbfounded, “We can still be best friends like how we were even though we can’t be together. I hope that you’ll still remember me when you need help.”

Even though he was very unwilling to give up on her, he was still happy to see that somebody else was treating her right.

He did not feel very good after telling the truth to Molly by praising Sean, but he did not regret it either.

Molly could not comprehend what Benjamin told her yet. she was shocked, she thought everything was coincidental, but it turned out that she was wrong.

After all, the Jiin family was pretty influential too.

And, Molly would never expect Sean to actually do so many things for her without telling her!

Chapter 569-Queenie looked very surprised too as her jaw dropped slightly without her noticing.

‘My family... This only happened to my family because of Molly May...

‘I’ve never done anything to hurt her. Did Sean do this because I deleted her information in the research institute? Does she have to go this far because of that?

‘This is fantastic. Benjamin is obsessed with her, and the person in charge of the Anderson Group is protecting her. However, my family is ruined!

‘Molly May!’ Queenie clenched her teeth very hard to stop herself from shouting. ‘She’s the worst! why didn’t she just die when somebody abducted her?

'Why? Why does she have to do this to me?

'I'm going to make her pay for this!' Queenie resentfully glared at the silhouette behind the plant.

She made a promise to herself that she was not going to let Molly get away with that, she swore that she would make Molly pay for everything!

Molly had no idea that Queenie was secretly looking at her as she left the café.

Suddenly, she felt chills run down her spine when she got into the car.

She felt like she was being watched, and she felt very uncomfortable.

However, she could not see anyone when she turned around to have a look.

'Maybe I was just overthinking things,' she said to herself.

Molly took a deep breath and ignored how uneasy she felt.

Queenie went back to the Forts Residence and saw Benjamin packing his stuff as if he was leaving. She felt like something bad was going on as she quickly went inside. Then, she heard Meredith nagging unhappily.

"Sigh. What's so bad about living here? Why do you have to move out? You spent so much time abroad, and you're our only son. You should stay here and accompany me and your father. I regret raising you so much."

Meredith was complaining about how unfilial his son was, but she still cared a lot about Benjamin.

Even though she was nagging, she also told someone to prepare Benjamin's favorite dishes.

"I'll be busier than before after the research laboratory is completed. I'll come home very late, and I don't want to disturb anybody here."

Benjamin said bluntly.

Suddenly, Meredith slapped his shoulder.

"What are you talking about? This is your home, who are you going to disturb?"

Anyone who heard their own child saying things like that would be unhappy, and Meredith was no exception.

Then, Benjamin responded without looking at Meredith, "Times are different now. other than me and you, there are outsiders living here too."

Even though he did not mention any names, Meredith knew that he was referring to Queenie and Gina.

Queenie clenched her fists tightly after coming in. she could not unhear the word, outsider, that came out of Benjamin's mouth.

She was just an outsider to Benjamin, and nothing more.

'Who isn't an outsider to you, then? Molly May?' Queenie's eyes were filled with hatred when she thought about what she heard in the café just now.

There was no way she could forgive Molly, she was going to turn Molly's life upside down!

Meredith still tried to convince Benjamin, but Benjamin did not want to listen to her. He insisted on moving out.

Meredith took a deep breath after she thought of Queenie. She felt like there was nothing she could do.

The Forts family and Jiin family were friends. There was just no way that she would chase Queenie and Gina out of her house.

Meredith was never going to do anything like that, so she just watched while Benjamin packed his stuff.

On that night, Meredith told somebody to prepare some of Benjamin's favorite food. After having dinner with his parents, Benjamin left the Forts Residence with the stuff he packed without turning back.

Chapter 570-Benjamin did not go back to his home once for half a month after leaving as if he was proving something to Queenie.

Molly kept herself busy during those times too. she spent most of her time setting up the research laboratory with Sean.

Molly had to inspect every machine and equipment imported from overseas. So, she focused most of her time there.

And, the fact that Sean built a research laboratory for Molly could not remain a secret.

Sharon had an indescribable feeling when she found out about it.

It was sour and bitter, she would be lying if she said that she was not jealous of Molly.

Sharon got some ideas after she knew that Sean built that research laboratory for Molly.

On the next morning, Sharon and Alice went out for some tea. Then, she pretended to bring it up unintentionally.

"I heard about it too. The research laboratory that the Anderson Corporation built is a huge investment. I'm sure that the laboratory will be exceptional with what the Anderson Corporation is capable of.

To be honest, people who study medicine like me are very interested to work in a place like that. I can't deny that Dr.

May is a very fortunate person."

Sharon guessed that Alice did not know that the research laboratory had anything to do with Molly, so she mentioned Molly's name.

As expected, the expression on Alice's face changed a little when she heard Molly's name.

Alice suppressed her anger and gave Sean a call after parting ways with Sharon. She told him to go back to the Anderson Residence for dinner.

Sean did not want to start a fight with Alice about having dinner together, so he hung up the phone without saying anything. Then, he showed up at the Anderson Residence during dinner time.

There were Sean's favorite dishes on the dining table, but Sean did not eat much. He put down his utensils after he was almost full.

After noticing that he was done with his meal, Alice asked, "I heard that you built a medical research laboratory in the mansion by the hill. Is that true?"

"Yeah." Sean picked up the serviette unhurriedly to wipe his hand as he waited for Alice to continue speaking.

"That's good. I want you to give Sharon a job there. She'll be working in your laboratory." Alice wanted Sean to do her this favor and said that as if it was a very casual request.

"I can't make that decision. Dr. May is the person in charge of the research laboratory, and I'm not involved in the hiring process. I won't have a problem with Sharon working there if Dr. May is fine with it."

He was clearly standing on Molly's side, and it made Alice very angry.

"It's all your money. Why is she the one in charge?" Alice held her emotions back and asked after thinking about the things he heard previously, "Sean, are you serious about this?"

Sean slightly lifted his gaze. "I've already told you about this, no?"

Sean had told Alice about what he thought when Alice tried to pick on Molly secretly.

However, Sean's words triggered Alice, she threw her manners away and slammed the table.

"She's just an abandoned loose woman. I've already told you that she has three children, and I'm never going to allow you to be with her!" Alice glared at Sean.

However, Sean responded nonchalantly, "So what? I'll be the one getting married, and I'll be the one living my life after that. I'm only going to take what you said as an opinion, and I won't change my mind because of that."
