

## Troublemakers 821

Chapter 821 You are getting more and more confused

"That's right, don't blame my son, then blame you. You are really shameless. You know that my son has a wife and a family, but you still try to seduce him. In broad daylight, you still hold a man in his arms. It's a worldly thing." I don't know how the word 'shame' came from." Li Wanqing cursed at Xiaofeng, mercilessly.

Xiaofeng's face turned from pale to dark blue after being scolded.

"Mom, don't say that..." Li Zhenting looked embarrassed.

"If you don't say that, is it possible to compliment her behavior? Zhenting, you are really getting more and more confused. As the president of the Li Group, you have done such a morally corrupt thing. Do you feel sorry for Shen Ning? ? I really didn't expect that I would give birth to a son like you."

Li Wanqing fired at Li Zhenting like a cannonball, and then turned to Xiaofeng after cursing:

"Xiao San'er, listen to me, please stay away from my son in the future, if you do this kind of behavior of hugging and seducing my son in the future, then I'm sorry, no matter what kind of talent you are, I will kill you Get out of the Li Group."

Xiaofeng's face was now darker than an iron pan, his shoulders were shaking non-stop, tears were in his eyes, and he tried his best not to let the tears fall out.

That pitiful appearance, even a woman like Shen Ning would have the urge to hold her in her arms to comfort her in every possible way, let alone a man.

She felt extremely bitter in her heart, her stomach surged violently, and she stroked her stomach with her fingers.

"Mom, I'm also doing it for the company, can you show me some face?" At this moment, Li Zhenting whispered helplessly to Li Wanhua, he couldn't bear to humiliate a girl like this in front of him.

"Some people have to give face, but some people can't give face, especially those who have a dirty family and corrupt morals, not only can't give face, but they have to smear \*\*\*\* on their face." Li Wanqing smiled disdainfully, Looking around, he spoke majestically:

"Zhen Ting, it's like this. I brought Shen Ning here today and I have something to tell you."

At this time, Li Zhenting had already been rubbed on the ground by Li Wanqing, but there was no way, this was his own mother, so he could only bear it.

"Mom, what's the matter?"

"Well, listen carefully. Starting today, Shen Ning will officially serve as the vice president of Li's Group, responsible for your daily life."

Li Zhenting's eyes widened.

Xiaofeng's face became even paler and greener, his fingers tightly grasped the corner of his clothes, and his red lips turned white from his teeth.

There was a cold wind blowing through the whole room.

"Mom, what are you doing?" Li Zhenting pulled Li Wanqing to the lounge inside, and asked in puzzlement.

"I didn't do anything, I just took Shen Ning by your side to take care of your life in consideration of your hard work."

"But Mom, Shen Ning has her own company and takes care of her four children. She doesn't know anything about our company's business, so how can she hold such an important position?"

"You don't need to understand, as long as she supervises and takes good care of you, her mission will be completed. Based on this alone, she is qualified enough for the position of vice president."

"..." Li Zhenting was speechless.

He really didn't understand how his mother, who had always ignored company affairs and even family affairs, suddenly liked to meddle in other people's affairs, and she seemed to be getting more and more energetic in her meddling.

"What? Don't you agree?" Li Wanqing squinted at him.

"Mom, the vice president of the company, that's the company's standing committee member, such a major personnel change is not something that I can decide alone..."

"You don't have to worry about it, as long as you don't object, leave the rest to me." Li Wanqing interrupted him forcefully.

Chapter 822 I'm afraid it will lead wolves into the house

"Okay, Mom, as long as Shen Ning is willing, I have no objection." Li Zhenting smiled and readily agreed.

Would Shen Ning be willing to come to his company as the vice president!

Based on his understanding of Shen Ning's arrogant character, she must be unwilling.

"Then don't worry, she will definitely be willing." Li Wanqing was full of confidence, turned and walked outside.

Li Zhenting shook his head, no wonder Li Wanqing pulled Shen Ning into the study as soon as he got home yesterday, it seems that this was all his own mother's idea.

Let's do Shen Ning's ideological work first!

As soon as Li Wanqing walked out, she walked out.

Only Li Zhenting, Xiaofeng, and Shen Ning were left in the president's office.

Shen Ning also turned and walked outside.

"Ning Ning." Li Zhenting followed with a smile on his face.

When Shen Ning looked at this handsome and extraordinary face, he felt very dazzling for the first time.

"What's the matter?" She asked coldly.

"Ning Ning, I was about to tell you about Xiaofeng. I only found out today that Ying Ping came in by herself. I never thought that she would be a chip designer. Now Mrs. Li The group is in need of this kind of talent, the whole inland needs it, and she came in through formal channels, I have no reason to drive her away, please understand, but please rest assured, my love will always be you and the children."

"This is your explanation? If she climbs into your bed one day, do you want me to take care of it? Or do you never think about sending her away?"

"Ning Ning, the company is really short of talents in this area. As long as there are talents, the company will cherish them. This is the purpose of the company. I also want to see if she has the design talent in this area..."

Shen Ning sneered: "It's right to retain talents, but the way you retain talents is to cuddle with her, caring, ambiguous and shameless. Is this convincing?"

"Ning Ning, I admit that she did have some wrong actions, but I will let her correct them." Li Zhenting looked at the frosty woman with an expressionless face, and suddenly felt a pain in his heart, and then his head began to ache sharply.

"Li Zhenting, if she is really talented, there is nothing wrong with you keeping her, I'm afraid it will attract wolves into the house and harm the Li Group."

Shen Ning turned around and left after speaking.

"Ning Ning." Li Zhenting stretched out his hand to hold her, "Are you really going to work in the Li Group?"

Shen Ning stared at the man he loved so much, his heart was broken.

"You don't want me to disturb you and her?"

"No, Ningning, it's just that you are not suitable for this job."

Not suitable?

Originally, Shen Ning had no intention of coming here to work, but after hearing what he said, he suddenly changed his mind.

Not for others, only for my three children!

In the past, she thought that after Shen Mei left, she would be at ease, and the children would be safe in the future, but now, this Xiaofeng who suddenly appeared is not only the woman on Li Zhenting's heart, but also has a higher rank and better methods. Compared with Shen Mei's, her scheming and means are only worse than that.

If such a woman stays by Li Zhenting's side, it will only make her more worried!

"Li Zhenting, I'm sorry to disappoint you. I have already promised my mother, and I am really ready to come here to work." She suddenly smiled and answered affirmatively.

Li Zhenting was stunned.

"My task in the future is to supervise you and take care of the children. You'd better not have anything in my hands, otherwise, I will mercilessly tell mom." Shen Ning left a word and was about to leave.

"Well said." Li Wanqing's voice suddenly came from behind, she walked up and took Shen Ning's hand, and smiled, "Ning Ning, thank you, you must not have any worries, mom will back you up."

"Okay, thanks mom."

The two women looked at each other and smiled.

Li Zhenting's head couldn't help but one big, two big...

Chapter 823 Welcome to Li's Group

"Zhenting, this is the token your grandfather gave me. I have just notified the major shareholders, and they all agreed to appoint Shen Ning as the vice president of the company." Shaking in front of him, his tone was unquestionable.

It turned out that after she came out of the hospital that day, she went directly to Li's old house, just to find the old man to get this token.

Li Zhenting could only smile helplessly.

"Ning Ning, you go in, your office is with Zhen Ting, you help take care of him, see if anyone dares to violate the rules, tell me immediately, I will come and clean her up." Li Wanqing pulled Shen Ning. He sent her into the CEO's office with his hands, and glanced coldly at Xiaofeng who was sitting in a wheelchair.

Xiaofeng's face was pale, there was no trace of blood in his eyes, his fingers hidden under his clothes were twisted into a ball, but the corners of his lips still maintained an elegant curve.

Shen Ning was really touched.

It is a great fortune to have such a good mother-in-law in this life. Every day, there are countless families in the world where mother-in-law and daughter-in-law are at odds, and she can easily get all-round love from her mother-in-law without dead ends. It can only be said that she So happy.

Grandma is so mighty and cute, I really love her to death!

"Thank you Mom, you are so kind to me." She took her arm coquettishly.

"Silly boy, you are welcome. We are a family. In the Li family, I have always treated you as my own daughter." Li Wanqing patted her hand, with a loving face, and looked at Li Zhenting again:

"Zhen Ting, I entrusted Ning Ning to you. You take good care of my daughter-in-law for me. If Ning Ning suffers any grievances, I only ask you."

"Mom, don't worry, my daughter-in-law will definitely love you." Li Zhenting stepped forward and hugged Shen Ning's shoulders.

Li Wanqing smiled, and then walked out with confidence.

As soon as she left, Shen Ning turned to look at Li Zhenting with a bright smile: "President Li, where is my desk?"

Li Zhenting touched her little nose: "You, my mother brought you the same."

"What? Even my mother wants to dislike it?"

"No way."

Li Zhenting reluctantly picked up the intercom phone: "Secretary Yang, put a small desk in front of the glass window next to my desk for Vice President Shen to use."

"good."

Soon, the cleaning aunt came in with tools for cleaning, and several security guards came in to move the sofa and lift the tables and chairs.

But soon, the security guard stood beside Xiaofeng.

Xiaofeng's wheelchair is exactly where the sofa needs to be moved.

But she didn't mean to move at all.

The security guard looked at Li Zhenting.

"Xiaofeng, I'm sorry, my desk is going to be here, please move it." At this time, Shen Ning walked over and smiled, very politely.

After finishing speaking, without waiting for her to answer, she pushed the armrest of her chair and walked towards the gate, and finally put the wheelchair in front of Li Zhenting's desk, facing Li Zhenting.

That's right, since you are an applicant, that is the relationship between subordinates and superiors. You should sit honestly at the president's desk and listen to President Hou's questions and instructions. How can you sit next to the president? .

"Xiaofeng, you are welcome to join Li's Group. If you have any difficulties or requests in the future, just ask me. I will do my best to solve it for you." She clapped her hands lightly and said lightly.

"Thank you sister."

"You're welcome, it should be."

After Shen Ning finished speaking, he looked at Li Zhenting again:

"Mr. Li, please start working. It's not good to keep the staff waiting for a long time. I'm right next to you. If you need my help, please ask me. The small ones must obey."

## Chapter 824 She will not be afraid of Shen Ning

Li Zhenting folded his arms around his chest, and looked at her with a smile that was not a smile at the corners of his lips. He never thought that Shen Ning would have the jealous side of a little girl.

But it's also kind of cute!

He walked up to touch her nose, whispered 'Ghost girl', and sat down at the president's desk after speaking.

Xiao Feng lowered his head, his fingers were pulled into a ball, and gloomy light flashed in his eyes from time to time.

This round, she seems to have lost again.

However, she will not be afraid of Shen Ning.

At this time, the security guard brought Shen Ning's office chair.

"Zhen Ting, this office chair is not high enough, can you replace it with a leather one?"

"Can."

Shen Ning immediately called the secretary.

Soon, someone respectfully delivered a leather office chair, the height of which was just right.

"It's quite comfortable." Shen Ning sat on the soft leather chair and twisted his waist left and right. "Real leather is better than fake leather. It's soft and firm, and doesn't rub your hands."

Li Zhenting hummed softly, and Shen Ning sat down immediately, opened his desk, took out a stack of A4 papers from inside, and took out a pencil and put it aside, looking serious about his work.

Isn't it just pretending, who wouldn't!

Anyway, she doesn't have to worry about the company's affairs, she just needs to stay by Li Zhenting's side.

"Xiaofeng, where's your resume?" At this moment, Li Zhenting officially started working.

"Zhen Ting." Xiao Feng raised his watery eyes to look at him, with grievance on his small face, he spoke coquettishly.

"Xiaofeng, please call Mr. Li. The office is a solemn and solemn place, and no personal relationship is required." Shen Ning immediately performed his duties as vice president and assistant, and woke up beside him.

Xiaofeng's face turned black.

Bitch, didn't you call Zhenting just now, why do you ask me like that!

But she looked at him sharply, seeing his approval, she didn't dare to resist, and just handed the resume in her hand to the nurse next to her:

"Nurse Wu, please send my resume to President Li."

Nurse Wu immediately took it with both hands and brought it to Li Zhenting.

Li Zhenting picked it up and flipped through it, and began to ask questions.

The chip technology department is the most confidential place in the entire company, and the resume of any new employee who enters the job needs to be strictly checked by the president.

At work, Li Zhenting has distant eyes, is serious and majestic, no matter whether it is a weak woman or a high-ranking VIP in front of him, he treats him equally.

He looked at her resume from time to time and asked questions from time to time.

Xiaofeng answered in a well-regulated manner, and occasionally looked at him shyly, with spring in his almond eyes.

Shen Ning sat aside, with his back straight, but he was playing with a pen in his hand.

She was bored and had nothing to do, the only thing she could do was look at Li Zhenting through the gap in her arms.

The man has handsome eyebrows and a high nose, with a picturesque handsome face, his brows are frowned, and his charm is elegant. At this age, Li Zhenting is more mature and stable than the young and frizzy guy, and more reserved and noble than the elite men in the workplace. He has been in high positions for many years. His aura made him extraordinarily noble.

He does have the capital to make women fall in love.

Shen Ning stared at him blankly, really not knowing whether he was lucky or unlucky!

After a while, she looked at Xiaofeng who was sitting in front of her again.

Although her eyebrows, eyes and demeanor are pitiful and extremely well-behaved, there is always a feeling of willows in the wind, frivolous and swaying, and she frowned slightly.

After Li Zhenting finished asking Xiaofeng what to say, because Shen Ning was sitting firmly on the Diaoyutai beside him, Xiaofeng had no choice but to retreat.

Next, more senior executives came to report on their work.

Li Zhenting's professional knowledge is very strong, and every executive who comes to report is cautious, for fear of answering wrongly and leading to being scolded and demoted.

Shen Ning played with his fingers around the barrel of the pen, occasionally resting his chin to draw on the white paper.

Soon, a morning passed.

It was approaching noon, Li Zhenting was still busy, Shen Ning stretched his waist, lowered his eyes, and on the white paper on the desk, two \*\*\*\* stared at each other with mung bean eyes, vividly.

She even spent a whole morning drawing two bastards.

## Chapter 825 She is not simple

"Ning Ning, how is it? This is more comfortable than when you were Mr. Shen in Gu Qi." Li Zhenting finally finished his work, stood up, and asked with a smile.

"Boss Li, please drink some water." Shen Ning immediately stood up and filled his teacup with water, holding it in front of him with both hands.

He took a sip and was about to speak, when the phone rang, he picked it up, and said after a while: "Okay, I'll be right over."

After speaking, put down the water glass and leave.

"President Li, the lunch will be delivered soon." Shen Ning stopped him, "No matter how busy you are, there is always something to eat."

"I'll be back after going out for a while, save the food for me first." Li Zhenting hurriedly confessed, then turned and left.

Shen Ning had no choice but to give up, looking at the folders stacked on his desk, layer by layer, densely packed with data on the computer, it gave him a headache.

As the president of a multinational group, he is actually very busy. He was able to take time out of his busy schedule to help take care of grandma for seven or eight days. He has already done his best.

Usually, he also picks up and drops off the children on time every day. It can be said that besides work, he spends almost all of his remaining time on the children, but Xiaofeng...

While she was contemplating, suddenly, the door was pushed open.

She looked up, and Xiaofeng's wheelchair had been pushed in by Nurse Wu.

"Sister..." Xiaofeng looked around the office with big nimble eyes, as if looking for something.

Shen Ning's face turned cold, and he immediately said coldly to Nurse Wu: "Nurse Wu, this is the president's office of the Li Group, you must ring the doorbell before entering the door, and you can only come in after getting permission. Don't you even have the most basic etiquette and courtesy?" Don't you understand? Miss Shen is in a wheelchair and can't ring the doorbell, but you are standing. "

Nurse Wu was frightened and stood at a loss.

Xiaofeng's complexion instantly became cloudy.

Shen Ning picked up the intercom and dialed to the secretary's office: "I'm Vice President Shen, let your secretary manager come over."

Soon, Secretary Gu hurried in.

Shen Ning was appointed as the vice president of the company. The board of directors and the president's office issued a formal appointment document early this morning. Now the entire Li Group, from the executives to the cleaners, is aware of this matter.

For the professional elites like Manager Gu, such a big airborne figure has been found out in private.

She is not simple, she is the mother of Mr. Li's three children and the wife of Li Zhenting!

Manager Gu dared to offend such an airborne big shot, so he immediately asked respectfully, "Vice President Shen, what can I do for you?"

Shen Ning covered his face with frost, and asked, "Manager Gu, what is the responsibility of your secretary? Can you allow employees to break into the president's office without notification?"

Manager Gu looked at Xiaofeng in the wheelchair and understood what was going on.

"Mr. Shen, I'm sorry, our secretary has neglected his duties. I'll go back and investigate to find out which secretary let the staff in without permission just now, and immediately pursue the responsibility." She immediately replied with a smile on her face.

"Yes." Shen Ning nodded, "Manager Gu, I hope that similar things will not happen again in the future. You can show me the working rules of the secretary's office later, and we will start training immediately."

"Okay, I'll do it right away." Manager Gu promised and turned around, and made a 'please' gesture to Xiaofeng who was sitting in the wheelchair: "Miss Shen, I'm sorry, please go out first and wait for instructions." Let President Li come in and report on work after obtaining approval."

Xiaofeng held the file bag tightly with his fingertips, a gloomy and unpredictable chill flashed across his face, and he looked at Shen Ning: "Sister, are you sure you want to drive me out?"

"This is not rushing, it's a rule."

Chapter 826 The rank of the white lotus is really high

"Okay, I understand." Xiaofeng smiled suddenly, and said to Manager Gu: "Manager Gu, you go out first, I will leave right away, I still have something to say to Vice President Shen before I leave."

After speaking, she said to Nurse Wu next to her:

"Nurse Wu, you should go out first."

"Okay." Nurse Wu agreed, then turned and walked out, and Manager Gu also went out.

Only Shen Ning and Xiaofeng were left in the president's office.

Xiaofeng looked at her, gently stroking the file bag with her slender jade fingers, as if stroking a rare treasure, and said softly:

"Sister, I'm a newly recruited designer in a special department. Some confidential issues must be given to President Li in person. Are you sure you can target me like this? If this delays the research and development work of Xinde, can you afford it?"

She raised the file bag in her hand, her eyebrows raised lightly:

"Do you know what is pretending here? An ignorant woman like you will never understand. It is only your luck that Zhen Ting can marry you. You don't deserve him at all."

She laughed coldly, her red lips were like blood.

Shen Ning stared at her calmly.

This woman is full of confidence, as if she has mastered certain confidential documents.

She said in a deep voice: "Miss Shen, any company has its own rules, and without rules there is nothing perfect. If Miss Shen really cares about the company, then she should know how to abide by the company's basic rules and regulations. This is a manifestation of comprehensive quality. It is also the most basic rule of the company's operation. Not only does Ms. Shen not reflect, but she shows off in front of me like this. She also said that I am not worthy of Mr. Li. Don't worry, I will tell him this when he comes back. Mr. Li will decide whether he is worthy or not. Calculate."

The shadow on Xiaofeng's face is getting darker and darker, and the smile on the corner of his lips is also very cold.

She suddenly apologized: "Sister is right, I was ill-considered. I'm sorry to you now."

After finishing speaking, she kindly reminded:

"However, sister, I also want to remind you that Zhen Ting is not an ordinary man. He is in charge of a multinational company and needs to face all kinds of people and deal with various complicated problems. Sister, you don't understand anything, but you have to forcibly intervening in the company's affairs is not good for you, men's patience is limited."

As she spoke, she turned the wheelchair in a circle and said with a smile:

"Okay, I've finished what I want to say, let's go out now."

Finger pressed the switch of the electric wheelchair, and the wheelchair came to the gate soon.

There is a threshold beside the gate. Although it is not too high, it is still somewhat high.

"Sister, can you help me?" She looked back at Shen Ning with a bright and sweet smile.

Shen Ning looked down at the threshold, and the wheelchair could pass with a little effort, but it was really inconvenient for her to sit in a wheelchair. After thinking about it, she walked over and put her hand on the armrest of the back of her wheelchair.

Xiaofeng looked down at his mobile phone.

"Sister, please push me out of the wheelchair." She said softly, "Thank you."

Shen Ning really didn't want to see this disgusting woman, and wished she would leave here soon.

So, she pushed the wheelchair with both hands, trying to push her wheelchair out earlier.

But at this time

Sudden

Xiaofeng's whole body unexpectedly fell from the wheelchair, rolled forward, and rolled onto the corridor.

"Ah." She screamed in pain, her body curled up into a ball, and blood flowed from her arms and teeth, "It hurts so much."

Shen Ning was stunned.

The threshold is not too high, she just pushed the wheelchair, and didn't use much force, how could she roll off the wheelchair?

While he was in amazement, the elevator door opened, and Li Zhenting walked out quickly.

"Xiaofeng, what's going on?" Li Zhenting saw Xiaofeng who fell on the ground at a glance, rushed over, bent down, and when he saw the blood flowing from the corner of her lips, his face turned dark, and he raised his eyes. He looked at Shen Ning.

Shen Ning was dumbfounded.

"Zhen Ting, I'm sorry, I shouldn't have come to you privately, and made my sister unhappy."

Xiaofeng's fingers tightly grasped the clothes on Li Zhenting's chest, with weak tears on his face,

"I just came back to the office and made the crystal design as quickly as possible. I was so excited that I just wanted to show you earlier, but I didn't expect that you were not in the office. I was so anxious that I went in without ringing the doorbell." It made my sister very angry, it's my fault, I don't know the rules."

She was sobbing and talking, with a look of self-blame.

Shen Ning already understood.

Damn, the rank of this white lotus is really high, so high that she can't imagine when she will play tricks to frame her.

Moreover, she has already used this method once, but she didn't pay attention to it. She was too careless and took it lightly.

Chapter 827 Did she push you?

"Xiaofeng, the design plan is not in a hurry. I'll take you to the hospital first." Sure enough, Li Zhenting saw more and more blood dripping from the corners of her lips, and when she couldn't wipe it off, he became anxious, picked her up and ran outside .

"Xiaofeng, did Shen Ning push you out of the wheelchair?" In the hospital, after examining Xiaofeng's body, the doctor prescribed some medicine and made her rest in bed. emotions are unclear.

Xiaofeng lowered her eyes, holding the sheet with her fingers, tearful:

"Zhen Ting, it's not my sister's fault. I broke into your office without permission. I didn't know the rules. I didn't mean it. I'll correct it next time."

She spoke in a low voice, neither affirming nor denying, she just kept admitting her mistakes. She looked pitiful, but what she said made people more suspicious.

Li Zhenting frowned slightly, and his tone became impatient: "Did she push you?"

Xiaofeng burst into tears:

"Zhen Ting, please don't ask me. My sister is the vice president now, and my aunt is behind me. I'm just a small employee in the company. I'm nothing. I'm an orphan. I have no mother or father." Yes, you must not pursue anything because of me, I can't bear it when Auntie blames me, and if Auntie blames you, I can't bear it either."

Li Zhenting said with a sullen face: "Xiaofeng, last time you fell in the mall, you told me that Shen Ning pushed you, but later the mall's surveillance showed that you fell by yourself, I hope you don't lie this time."

Xiaofeng burst into tears when he heard the words: "Zhenting, I deserve to die, I shouldn't have approached you, I shouldn't have known you and fell in love with you at that time, it's all my fault, but I can't control myself Ah, don't worry, when the chip of Li's Group is successfully developed, I will disappear automatically, and I promise not to disturb you again, I just love you so much and want to do something for you."

She kept wiping away her tears and kept apologizing.

Li Zhenting suddenly had a splitting headache, held his head in both hands, and sat down weakly.

"Zhen Ting, what's wrong with you?" Xiaofeng looked up at him with tears in his eyes, touched his head with his hand, his face was full of tension, "Do you want to be okay? I'll call you a doctor."

She got up to call the doctor.

Li Zhenting held her back, closed his eyes slightly, and after a while he let out a breath, loosened his tie irritably, and breathed a little more comfortably.

"Xiaofeng, give me your design plan." He said softly.

"Okay." Xiaofeng immediately handed him his design plan obediently. When handing it to him, his fingertips gently stroked the skin on the back of the man's hand. It was itchy like a feather, and the fragrance from his body also fell into the man. In his breath, it was indescribably seductive.

Li Zhenting's fingers couldn't help trembling slightly, and immediately bounced off.

An invisible smile appeared on the corner of the woman's lips.

...

One afternoon, Li Zhenting didn't come back, and Shen Ning sat in the office with confused thoughts.

When she was about to get off work, she dialed Zhu Qixiong's cell phone.

"Ning Ning, I'm sorry, I've been on a business trip for a while, and I just returned to the imperial capital last night. I didn't attend your grandma's funeral. I'm sorry." Zhu Qixiong's voice was soft, magnetic and apologetic.

"It's okay, can we see the next one?" Shen Ning said softly.

"sure."

"Okay, see you at Liu Guang Cafe."

Chapter 828 This is incredible

Streamer Cafe.

Zhu Qixiong is dressed in gray casual clothes, relaxed and freehand, his whole body is casual and lazy, and his gestures are particularly chic.

"Ning Ning, I haven't seen you for a long time, are you okay?" After sitting down, Zhu Qixiong's clear eyes fell on Shen Ning's face, seeing that she was not looking well, he asked with concern.

"I'm fine." Shen Ning smiled, feeling bitter.

Zhu Qixiong's eyes deepened.

Some time ago, Shen Ning's grandmother passed away. In fact, he didn't go on a business trip, and he was always watching her secretly.

During that time, Li Zhenting was always by her side, caring for her. When Jun Meizhen held the memorial service, he saw Shen Ning in the crowd, frail and haggard, and wanted to go up to protect her.

But Li Zhenting was always by her side, and he took care of everything at the funeral.

He treated her very well, they looked like a loving couple, and he left quietly.

It's just that we haven't seen each other for two days, and now Shen Ning looks even more haggard than a few days ago.

He looked at her and took a sip of his coffee.

"Master Zhu, may I ask, when I asked you to investigate Xiaofeng some time ago, did you find out that she is a chip designer?" Shen Ning just sat down for a long time, and asked straight to the point.

"Chip designer?" Zhu Qixiong was stunned for a moment and then laughed, "You are not joking about the world, are you? She is a chip designer? Why don't you say that the aircraft carrier was invented by her?"

Shen Ning is also full of suspicion: "But now she has been hired as the chip designer of Li's Group."

"Is there such a thing?" The smile on Zhu Qixiong's face disappeared, "I remember the result of the investigation at that time was that she was working in Shenzhen to support her mother, and she often went to nightclubs. How many companies have hired her with high salaries, why bother to work part-time."

"But now she has entered the chip design department of Li's Group with her true skills."

"This is unbelievable." Zhu Qixiong sighed, and suddenly laughed, "Silly girl, you should ask Li Zhenting, maybe it was his big arrangement."

If a man wants to keep a woman but can't find any excuses, he can use talent as an excuse to arrange her into the company, which will save a lot of trouble.

But Shen Ning shook his head affirmatively: "Impossible, Zhen Ting has been by my side to take care of my grandma a few days ago, it is impossible for him to know about this, and, this morning, he even asked about it in detail. "

After speaking, Shen Ning gave Zhu Qixiong his morning recording.

It turned out that in Li Zhenting's office this morning, in addition to drawing two bastards, Shen Ning also recorded Li Zhenting's questioning of Xiaofeng.

Zhu Qixiong clicked on the recording and listened carefully, with a serious expression on his face.

"Looking at the situation, Li Zhenting probably didn't know about it, otherwise, he wouldn't have asked such detailed questions." He nodded.

"Yes, he must not know, and I don't know anything about chips. Can you see Xiaofeng's professional answer?" Shen Ning would never believe that Xiaofeng is an expert in chip design, but seeing her His performance seems to have indeed mastered a major technology.

If something goes wrong, there must be a demon!

Since she has already served as the vice president of Li's Group, she should understand clearly, and this matter is very important. Regarding the future of Li's Group, she should not be careless.

Besides, there is always an inexplicable aura about that woman Xiaofeng, which makes her faintly feel that something is wrong.

"This thing is really weird. I don't know anything about chips. How about this? I'll call someone over right away. He has been engaged in the high-tech industry in the United States. He should be very clear about chips. Let him see what's going on. Let's go." Zhu Qixiong said seriously, took out his cell phone and made a call.

After a while, a BMW stopped outside the Liuguang Cafe, the door opened, and a young man stepped out.

Only seeing him, Shen Ning almost cried out.

Chapter 829 This little wind has never been mentioned before

Yun Chaoyu!

The person Zhu Qixiong was looking for turned out to be Yun Chaoyu!

"It turned out to be him!" Shen Ning blurted out!

"What? You know him?" Zhu Qixiong looked surprised.

"Yes, he is Mr. Lin's right-hand man. He once cooperated with me in the United States and is very capable, but we haven't met many times. I didn't expect him to return to the imperial capital now." Shen Ning smiled.

While speaking, Yun Chaoyu had already walked in.

"Mr. Shen, are you here?" Yun Chaoyu seemed surprised to see Shen Ning.

"Yes, so we all know Young Master Zhu." Shen Ning smiled.

Yun Chaoyu also gave a rare smile and sat down.

After the three chatted for a while, Shen Ning explained Zhu Qixiong's purpose for inviting him here, and forwarded this video to him.

After carefully watching the content of the video, Yun Chaoyu said: "This woman named Xiaofeng's answers about the chip are quite satisfactory, and there is nothing special about it, but it can't be said that she doesn't understand it at all. Now It can only be determined that there are two possibilities: either she is really knowledgeable and is really an expert in chip design, but this needs further evidence to prove it; One that awaits further observation."

Shen Ning pondered.

Yun Chaoyu's lips curled slightly, and he suddenly said: "At present, in the imperial capital, I haven't heard of any talent in chip technology, and this Xiaofeng has never been mentioned."

The meaning of these words is obvious. It is doubtful that Xiaofeng is a chip designer.

Shen Ning understood clearly: "Thank you, Chaoyu."

After chatting, Shen Ning learned that Yun Chaoyu returned to the Imperial Capital to inspect work under the order of Elder Lin, which meant that he would stay in the Imperial Capital for a while.

After a while, she drove back to the Li Group.

The Li Group has reached the close of get off work, and many employees have left, but there are still many brightly lit offices, and some executives and high-tech talents are working overtime.

Shen Ning returned to the president's office and saw that the lunch left for Li Zhenting was still there. Obviously, he hadn't come back yet.

She threw away the food, cleaned up her office desk, and went to eat in the canteen of the Li Group.

The canteen of Li's Group has rich dishes and bright lights. Because there are many overtime employees, it often doesn't close until after two o'clock in the morning.

Shen Ning ordered some food and sat down in a corner.

"Hello." Not long after she sat down, a girl wearing glasses came over with a lunch box and sat down opposite her.

"Hello, my name is Shen Ning." Shen Ning smiled at her.

This girl looks very pure and very knowledgeable.

"Hello, my name is Wang Qingfei, and I'm an assistant in the chip design department." The girl introduced herself.

Obviously, she didn't know Shen Ning, nor did she know her identity.

"Oh, it's a very good position. They are all high-tech talents with great prospects." Shen Ning immediately smiled.

"Hey, what's the future? Now the chip technology can't break through the bottleneck. If there is no progress, it will have to be disbanded next month. After the disbandment, I don't know which position to divert to. After the diversion is over, it will be raised by the stepmother." Wang Qingfei sighed, raised his eyes and asked, "What about you, which department are you in?"

"Oh, I'm just a civil servant, I don't understand anything." Shen Ning smiled.

"That's great, he looks so pretty, and when he finds a good husband to marry, he will have a better future than me." Wang Qingfei helped the mirror socket, "People are ugly, so they can only make money by themselves."

She said and brought her a glass of water.

Chapter 830 Every eight hundred and thirty I miss you in my dreams

It was the first day for Shen Ning to come to Li's Group to work, and everyone around her was respectful to her, and everyone kept a certain distance from her. Only this girl who knew nothing had a close relationship with her, which made her feel Very heartwarming.

"Are you new here?" she asked.

"Yes, I've only been here for over a month."

"I'm also new here, and it's only my first day at work." Shen Ning smiled.

"No wonder it's strange. It's okay. You can always come to me if you need anything in the future. I'm more familiar with you than you."

"good."

...

While the two were talking, Wang Qingfei suddenly raised his eyes, and his eyes lit up.

"Wow, the male \*\*\*\* is here." She exclaimed in a low voice, "Look, our boss Li is here, wow, he is so handsome, there are too many women in the company who are obsessed with him."

Shen Ning raised his head when he heard the words, and saw Li Zhenting in a suit and leather shoes walking into the dining hall surrounded by several executives. They were talking while walking, and they should be discussing work matters.

Wang Qingfei's eyes were full of obsession.

Li Zhenting sat down at a big table with a few executives, and immediately some executives went to order food, and they gathered around to discuss something, which was very intense.

Shen Ning knows that Li Zhenting often works overtime. Every time he works overtime, he discusses and explores technical difficulties with some high-tech technicians. Since the chip technology is stuck, he often works overtime.

"Let me tell you, there is a new person named Xiaofeng in our technical department, who is said to be an expert in chip design, but some people say that she is from the underground lover of President Li, and she was with President Li long before coming here. , She came to work on the first day today, and our President Li carried her into the hospital." As soon as Shen Ning looked away, Wang Qingfei spoke in a low voice and mysteriously.

Shen Ning's heart twitched suddenly, and there was a burst of pain, but his face remained calm.

After a while, Wang Qingfei finished his meal and left.

Shen Ning quietly left after taking a few casual bites.

President's Office.

Shen Ning just sat down on the office chair when the phone rang. She saw that it was Ke Ke calling.

"Mum, when are you and Daddy coming home? We miss you so much." Coco asked childishly on the phone.

Now Daddy and Mommy are married, but they rarely see Daddy and Mommy.

The three of them are not satisfied.

"Ke Ke, Daddy is working overtime, I want to stay with him, you can sleep with your grandparents, tomorrow I will pick you up with your Daddy." Shen Ning replied in a friendly voice.

"That's what you say, we'll be waiting for you and Daddy tomorrow." Coco thought it was good, and said with a smile.

"Well, you must keep your word." Shen Ning agreed with a smile.

"Okay, then let's go to bed obediently, Mommy, I will miss you in my dreams."

The little guy hung up the phone after speaking in his immature voice.

Listening to the child's lovely voice, Shen Ning's cold heart was instantly warmed.

She just hung up the phone when footsteps sounded, and when she looked up, she saw Li Zhenting striding in, holding a lunch box in his hand.

"Ningning, are you still off work?" Li Zhenting asked immediately when she saw her startled.

"Yes, Mom asked me to go off work with you." Shen Ning replied.

Li Zhenting's face darkened: "Ningning, Mom is getting old and messing around, do you want to mess around with her? I often work overtime all night. You follow me, what about the children? Are you physically able to bear it?"
