### **Chapter 2411 Fighting Bullies**

The day quickly passed, Ye Chen now woke up and started doing the task at hand while looking around and listening to what was happening.

"It's very smooth, as long as this keeps happening, it's enough" Ye Chen's journey was very smooth, there was no one to disturb and interfere in Ye Chen's affairs, so Ye Chen could be more relaxed in carrying out his mission.

Ye Chen cleaned up the courtyard quickly, he quickly completed his task.

"Hey, you. . ." When Ye Chen had just finished, he was approached by several people.

"What's up?" Ye Chen asked, he wanted to know what they needed.

Ye Chen saw that there were four people approaching Ye Chen, they all seemed to be wearing the same maid uniform as Ye Chen, the difference was that they had a dominant aura and they seemed to be from the upper class.

"Have you forgotten about us" the four said to Ye Chen.

"I don't want to talk to you guys, so quickly move out of the way" Ye Chen said.

"Ye Bai, you are very brave, do you want to get hit" they said to Ye Chen, they looked angry at Ye Chen.

The leader of the group was named Shan Fin, he was the number one servant in this place and was the most dominant, if he didn't like it then they would be destroyed.

Shan Fin is handsome and brave, he is a popular model among women, so it is not strange that he has some supporters like the outer court and inner court disciples in Demon Beast Sect.

"I don't want to get into trouble with you guys, so please step aside, I have work" Ye Chen was still indifferent to those who were blocking, he was lazy to deal with these people.

"How dare, I've lost my patience, I'll kill you" Shan Fin said to Ye Chen.

"hey Ye Bai, what are you doing, you could get killed, quickly apologize to them" Dong Limo and Tai Pile said from afar, they told Ye Chen to apologize, if not then Ye Chen would get into more serious trouble.

"Want to try it" Ye Chen said to Shan Fin.

"Bastard, I will kill you" Shan Fin said to Ye Chen, he swung his fist towards Ye Chen's head.

Shan Fin's swing was quite powerful, it could probably crush someone's head.

"Bamm. ." before Shan Fin could swing his attack towards Ye Chen, Ye Chen launched a swift punch and flew Shan Fin into the wall.

"Huh? ? ?" the friends and colleagues around Shan Fin were shocked by what happened, they could hardly believe what had just happened.

Everything was so fast and they didn't know what just happened, what happened so fast.

"What just happened?" Dong Limo and Tai Pile were confused too, they didn't know what just happened, they only saw Shan Fin flying and hitting the wall.

After Ye Chen did a pretty cruel thing to Shan Fin, he left, the attack just now should have been enough to put Shan Fin into a coma for months.

"hey you, wait a minute" the other three people didn't accept when they saw what happened, they didn't accept when they saw Ye Chen destroy Shan Fin.

"What's wrong?" Ye Chen asked the three people who stopped him.

Ye Chen looked at them intensely once, he used enough pressure to make them afraid.

Those who stopped Ye Chen instantly fell silent, they were afraid of Ye Chen, they didn't expect that the Ye Bai they knew would be this terrible.

"do you know what you have done, big brother Fin is the favorite of some women in the Sect, you will get into trouble.

"Do I care about that" Ye Chen said that he didn't care, from the beginning not one person could make Ye Chen afraid in this place.

"You will regret this" the three of them said to Ye Chen, Ye Chen will regret what he has done.

"why don't you guys just shut up and catch up with your friend over there" Ye Chen used one kick to fly the people, with one kick, he managed to fly the three and they went into the wall just like what happened to Shan Fin.

"oi, oi, is this our timid and incompetent roommate, how can he be terrible" Dong Limo and Tai Pile witnessed something they never imagined.

"The annoying, time-wasting I have" Ye Chen didn't really like the time-wasting trash that belonged to him.

"Fufufufu, you don't know how to restrain yourself, as expected from my master" Chu Yuechan said to Ye Chen.

"I realize that this place is harsh, it seems that only strength can solve the problems at hand" Ye Chen said to Chu Yuechan.

"You are quite fast in learning, and you are doing very well" Chu Yuechan admitted that Ye Chen was quite fast in learning and adapting to the environment around this place.

After performing his task, Ye Chen intended to head back, when he saw Dong Limo and Tai Pile around.

"What are you guys doing in this place" Ye Chen asked Dong Limo and Tai Pile.

Ye Chen didn't really notice the existence of the two, he was focused on the enemy.

"You're too bad, I didn't expect you to be like that" Dong Limo and Tai Pile said to Ye Chen.

"I can't stand them anymore" Ye Chen said to Dong Limo and Tai Pile.

He told them that he could no longer stand the treatment from these people.

"So that's it, that's your reason" the two smiled wryly, they saw the horrible side of Ye Chen.

"But you have to be more careful, Shan Fin is the white face of some of the women in this Sect, you might get angry when you hurt the people they like.

"It's easier to take care of them if they come" Ye Chen said that he would easily take care of those who dared to come.

Dong Limo and Tai Pile gaped, they were speechless when they saw Ye Chen, what Ye Chen did was too much for both of them.

Ye Chen was too excessive and unreasonable.

Ye Chen left and said goodbye, he was still focused on his goal and looking for the necessary information.

.

.

Some servants found the injured Shan Fin and went inside the wall, they decided to immediately bring Shan Fin towards the medical center for rescue.

The news of Shan Fin's defeat spread very quickly, all the servants in the Sect were shocked by this news, because after all Shan Fin was one of the strongest people among the servants in this place, his strength was above average.

A woman with a seductive body and sexy clothes looked angry when she heard the news of Shan Fin's defeat.

She seemed angry that the white face she raised lost to a stranger.

"Find out who did it, I want to find that person and teach them a lesson" This woman gave orders, she gave orders to her subordinates to find the whereabouts of the person who injured Shan Fin in various ways.

"Understood" there were two pretty good women, they immediately went and did the assigned task.

This woman took a sip of wine, she couldn't wait to give Ye Chen a proper lesson.

Ye Chen had goosebumps, he sensed that trouble would come again soon.

"Forget it, looking for Mo Xi is much more important" Ye Chen chose to solve his own problem first.
