

Chapter 222

222 Chapter 222-Ensuring Fairness

Due to Alpha Denzel's instruction, Alessia had hope. With evil intent, she mind-linked Burke.

"Please tell everyone to report to the frontage of the pack house. It's urgent. They can bring their phones along!

When Alpha Denzel received the mind-link, he stared at her but did not say a word, whether good or bad.

The warriors from the Black Fur pack were confused when they saw the pack members closing in on them and began to look questioningly at their Alpha.

Unfortunately, Kendrick was too focused on his mission to put Godic in his place and

was not even paying attention to them.

This was his only opportunity to get back at Godic for hitting him inside. Because of Alpha Denzel, he had endured it, but now was the time to put him in his place.

What he did not expect was the crowd that began to gather to watch the fight. Some of them had even climbed on each other's shoulders to have a view of what was going on at the frontage of the pack house.

With the phone camera raised, Alpha Denzel decided to address them, knowing the information would go around the packs.

"It's not as if I enjoy getting rid of people, but I just hate people having eyes on what is mine."

His countenance suddenly turned cold.

"Something abominable happened today. An Alpha walked in to claim our Luna as his. He managed to fake the bond."

Chaos broke among the pack members as they began to chant together. "Death, Death, Death."

Alpha Kendrick panicked, and so did his warriors. Alpha Denzel's expression was stoic as he explained deeper.

"That is their judgment, but I will make it very easy for you because I'm in a very good mood."

Alpha Kendrick was sweating bullets. Alpha Denzel said he was in a good mood, but his expression did not seem so.

Was he speaking in irony? Kendrick had regretted his actions too late, not knowing how to plead for forgiveness. Ww@Novel.com

He thought Alpha Denzel was going to fight with him and was about to give in and beg when he heard Alpha Denzel saying,

"You fight with Godic till death. And you have three minutes. No weapons and no wolf." Ww@Novel.com

Alpha Kendrick sighed with relief that it was Godic and not Denzel himself but also realized too late that he had been tricked. "Why no wolves?"

Denzel smirked upon seeing the fear in his eyes. Most of the Alphas depended so much on their wolf, not giving in to training in human form.

Denzel always did the opposite. He responded calmly. "That is to ensure fairness."

Godic wanted to assure him that it was okay even if Kendrick shifted. "I can still take him even in wolf form," he said, but Alpha Denzel was not going to risk his sister's mate's life.

It would have been good if Godic had been in the pack for long, but in this case, his wolf has been caged for a very long time away.

To not expose his analogy, he termed it differently. "There isn't enough space here for a shift, so a battle in your human form is enough."

"Godic is fighting with an Alpha?" These wolves were already drooling, Alessia was uneasy as Alpha Denzel shook his head and revealed,

"Godic is Alessia's mate, and that makes him

my brother-in-law."

The look on the faces of some she-wolves changed instantly. Only a few were congratulating Alessia with two thumbs.

The males were eagerly cheering Godic, not taking note of all that was going on among the she-wolves.

Godic was a little distracted with the cheers around him and did not see it when a force hit him, he staggered backward, almost falling to the ground.

Alpha Kendrick had taken advantage to attack. A kick was headed his way, which he dodged with a jump accompanied by a punch that rendered Alpha Kendrick dizzy. He gazed at Godic

questioningly. Ww@Novel.com

His skills were impeccable. The two were

now dodging each other's punches when Alpha Denzel roared from boredom, "enough playtime, Godic."

The end of his statement resulted in a kick to Kendrick's knee, followed by a stamp on his foot. Godic ensured not to let him heal and continued with fierce punches.

Kendrick could only return a few, and before he knew it, a sharp pain pierced through his stomach, accompanied by all his intestines. Blood spouted from his mouth as he fell on his face, dead.

Alessia jumped and wrapped her slender legs around him, not caring about his bloody form. Alpha Denzel smiled and began to announce.

"Alessia would be leaving with Godic to take care of other businesses, but they are still members of this pack and would be visiting

frequently. Burke, you are now promoted to beta, and Gandolf the Gamma."

Loud cheers echoed in the air, and a lot of people were congratulating Burke. Godic wiped his blood hands on Kendrick's clothes before publicly kissing Alessia on the lips. Ww@Novel.com

The next announcement took them aback. "Dorothy would be the Delta, purposefully in charge of the omega's community development and the welfare of the omegas. They work hard and should be rewarded for it, don't you think?"

Valerie had tears in her eyes as she had thought of the same thing for the omegas. They deserved to live well for all their hard work.

It always surprised her how Alpha Denzel always did the things she loved without

them even discussing it.

Dorothy was even more surprised as tears brimmed in the back of her eyes. She was one of the strongest and most dedicated warriors but never thought anyone noticed her.

The Alpha did, and this was her reward for working so hard. Alpha Denzel decided to discharge them and have a meeting with Godic and Alessia. They were supposed to be on their way to Las Vegas.

"Okay, go back to training. I would join you tomorrow."

Burke and a few warriors cleared the remains of Alpha Kendrick before one of his warriors asked, "Alpha Denzel, what about us?"

"It depends," Alpha Denzel said casually, but his countenance caused them to shiver as he dialed Beta Ludwig's number...
