Chapter 340- Even an omega holds more value than you.

"Alpha Ludwig, I wasn't expecting you soearly," Alpha Denzel said honestly, but Alpha Ludwig felt he owed Alpha Denzel for all the help he had received from him.

"Well, I didn't want to get tired by the time larrive here tomorrow, so I decided to set off early. For all you've done for my pack, I had to give my utmost support."

Alpha Denzel was pleased that Ludwig knew how to honor him.

"You are welcome. Burke, please usher himto one of the guest rooms," he instructed. Burke obeyed, beckoning the warriors in waiting to carry Alpha Ludwig's luggage to the pack house, with Ludwig following him.

The next couple to arrive were Alpha Napoleon and Luna Cassy.

Alpha Denzel, not too happy that they came early, but since a letter was sent to them,

he could not refuse.

Also, since they were among the people who talked down on Valerie during Troy and Adira's coronation, it was good they were there to witness her shine.

He instructed Burke to usher them to their rooms before addressing the next couple.

"Alpha Bodie, Luna Latifa, you are welcome."

The two were equally received, but when Alpha Denzel saw the couple following them, his anger soared.

Alpha Denzel scoffed, as Luna Ahuma was the mate of the late Alpha Viggo, whom Valerie did justice to.

"Is that so?" Alpha Denzel pretended not toknow, exuding a cold and unwelcoming aura, different from how he welcomed the others before now.

This man was the reason he had to do all this himself when Burke should have been the right person to handle it.

Alpha Denzel was so direct, Orion was very upset. His powers were not strong enough to work on

He took the card from Luna Ahuma and gave it to Alpha Denzel, but the latter refused to accept it.

"I won't attend, so I won't accept it. LunaAhuma is not even on good terms with my Luna, so I would not let you both in."

Luna Ahuma's head lowered, not expecting Alpha Denzel to be so petty. After the disgrace she faced with her friends, he was still humiliating her.

"Please, Alpha Denzel, it's late." "I don't care," Alpha Denzel retorted whenhe suddenly stepped back upon catching from the corner
